

XpresSpa Group Has Signed a Deal for a New XpresCheck™ COVID-19 Testing Facility at Salt Lake City International Airport

12/22/20

Expected to Commence Operations by mid-January

SALT LAKE CITY, Dec. 22, 2020 (GLOBE NEWSWIRE) -- XpresSpa Group, Inc. (Nasdaq: XSPA) ("XpresSpa" or the "Company"), a health and wellness company, today announced that it has signed a lease amendment for an XpresCheck™ COVID-19 testing facility at Salt Lake City International that is expected to be fully operational by mid-January.

XpresCheck will be building a pop-up facility in their existing XpresSpa location at Concourse A, post-security. The Company's pop-up building methodology enables XpresSpa to accelerate XpresCheck's rollout to additional airports at a lower cost than the original modular constructed facilities. This facility will host four separate testing rooms with an anticipated capacity to administer over 250 tests per day. COVID-19 testing options will include the Rapid Molecular COVID-19 Test and the Polymerase Chain Reaction (PCR) Test.

Doug Satzman, XpresSpa CEO, stated, "We are eager to launch XpresCheck at Salt Lake City International Airport, where will install our pop up prototype in one of our exiting XpresSpa locations. As the virus continues to spread, we are prepared to address the challenge through reliable and efficient testing that will help provide an extra layer of security and comfort to passengers and airline employees. Our expansion of COVID-19 testing within airports also supports our long-term goal to become the leading brand in the rapidly emerging travel health and wellness category."
