

Vringo Announces Release of Corporate Overview Video

June 2, 2011

Video Features Vringo's Award-Winning Mobile Video Applications which Provide Consumers with "a Highly Visual and Social Experience"

NEW YORK, Jun 02, 2011 (BUSINESS WIRE) --

Vringo, Inc. (NYSE Amex: VRNG), a provider of software platforms for mobile video applications and video ringtones, today releases an online corporate overview video.

The video presented by Vringo's CEO, Jon Medved, provides a concise overview of Vringo's mobile video services, which have been launched with partners in eight mobile markets around the world such as Malaysia, the United Kingdom, and most recently, in India. Vringo's services represent "the next stage in the evolution of the market" and provide business partners with a "consumer friendly and easy to integrate monetization platform."

From the corporate overview video, "Our flagship product is a mobile video platform, which allows users to create, download and share mobile entertainment content in the form of video clips and video ringtones for mobile phones."

"We have recently launched our service in India, whose large mobile market has increased our partners' potential subscription base to well over 500 million mobile subscribers."

In the video, Mr. Medved goes on to state, "We believe the mobile video and video ringtone business is ready for the next evolution of products and services and Vringo is precisely positioned to provide the technologies users are demanding. As we continue to execute our strategic initiatives, Vringo remains highly focused on growth in revenue and earnings, with an unequivocal commitment to building shareholder value."

The video is available at: www.trilogy-capital.com/autoir/vrng_autoir.html

About Vringo

Vringo (NYSE Amex: VRNG) is a leading provider of software platforms for mobile video services and video ringtones. With its award-winning video ringtone application and other mobile software platforms, Vringo transforms the basic act of making and receiving mobile phone calls into a highly visual, social experience. Vringo's core mobile application, which is compatible with more than 400 handsets, enables users to create or take video, images and slideshows from virtually anywhere and turn it into their visual call signature. In a first for the mobile industry, Vringo has introduced its patented VringForward technology, which allows users to share video clips with friends with a simple call. Vringo has been heralded by The New York Times as "the next big thing in ringtones" and USA Today said Vringo's application has "to be seen to be believed." Vringo has launched its service with various international mobile operators, holds licensing deals with over 40 major content partners and maintains a library of more than 12,000 video ringtones for users in various territories.
