PRELIMINARY — SUBJECT TO COMPLETION — DATED JUNE 12, 2012

PROPOSED MERGER — YOUR VOTE IS VERY IMPORTANT

Vringo, Inc. (“**Vringo**”), VIP Merger Sub, Inc., a wholly-owned subsidiary of Vringo (“**Merger Sub**”), and Innovate/Protect, Inc. (“**Innovate/Protect**”) entered into a Merger Agreement on March 12, 2012 (as may be amended or modified, the “**Merger Agreement**”), pursuant to which Innovate/Protect will merge with and into Merger Sub, with Merger Sub surviving the merger as a wholly-owned subsidiary of Vringo (the “**Merger**”). The board of directors of Vringo has unanimously approved the Merger Agreement and the Merger. In addition, the board of directors of Innovate/Protect has unanimously approved the Merger Agreement and the Merger.

Pursuant to the terms of the Merger Agreement, upon completion of the Merger, (i) each share of then-outstanding common stock of Innovate/Protect (other than shares held by Vringo, Innovate/Protect or any of their respective subsidiaries, which will be cancelled at the completion of the Merger) will be automatically converted into the right to receive the number of shares of Vringo common stock multiplied by the Common Stock Exchange Ratio (as defined below) and (ii) each share of then-outstanding Series A Convertible Preferred Stock of Innovate/Protect, or Innovate/Protect preferred stock (total 6,673 shares outstanding), (other than shares held by Vringo, Innovate/Protect or any of their respective subsidiaries, which will be cancelled at the completion of the Merger) will be automatically converted into the right to receive the same number of shares of Vringo Series A Convertible Preferred Stock, or Vringo preferred stock, which 6,673 shares, as of May 25, 2012, shall be initially convertible into an aggregate of 20,136,445 shares of Vringo common stock (or at a current conversion rate of 3,017.6). The Common Stock Exchange Ratio initially is 3.0176, which is subject to adjustment in the event of a reverse stock split to provide the holders of shares of Innovate/Protect capital stock with the same economic benefit as contemplated by the Merger Agreement prior to any such reverse stock split. In addition, at the effective time of the Merger, Vringo will issue to the holders of Innovate/Protect capital stock and the holder of Innovate/Protect’s issued and outstanding warrant to purchase 250,000 shares of Innovate/Protect common stock (on a pro rata as-converted basis) an aggregate of 15,959,838 warrants to purchase an aggregate of 15,959,838 shares of Vringo common stock with an exercise price of \$1.76 per share, each subject to equitable adjustment in the event of a reverse stock split. The issued and outstanding warrant to purchase 250,000 shares of Innovate/Protect common stock will be exchanged for 250,000 shares of Vringo common stock and 850,000 warrants to purchase 850,000 shares of Vringo common stock with an exercise price of \$1.76 per share, each subject to an equitable adjustment in the event of a reverse stock split. In addition, the aggregate number of shares of Vringo common stock and the aggregate number of warrants (and the aggregate number of shares of Vringo common stock that may be purchased upon exercise thereof) to be issued in exchange for the issued and outstanding warrant of Innovate/Protect shall each be ratably adjusted to give effect to any partial exercise of such warrant prior to the effective time of the Merger. Finally, at the effective time of the Merger, all outstanding and unexercised options to purchase Innovate/Protect common stock, whether vested or unvested, will be converted into options to purchase Vringo common stock with the number of shares subject to and the exercise price applicable to such options being appropriately adjusted based on the Common Stock Exchange Ratio. Immediately following the completion of the Merger (without taking into account any shares of Vringo common stock held by Innovate/Protect stockholders prior to the completion of the Merger), the former stockholders of Innovate/Protect are expected to own approximately 56.30% of the outstanding common stock of the combined company (or 67.55% of the outstanding common stock of the combined company calculated on a fully diluted basis) and the current stockholders of Vringo are expected to own approximately 43.70% of the outstanding common stock of the combined company (or 32.45% of the outstanding common stock of the combined company calculated on a fully diluted basis).

Vringo common stock is listed on the NYSE Amex and trades under the symbol “VRNG.” On _____, 2012, the latest practicable date before the printing of this proxy statement/prospectus, the closing sale price of Vringo common stock was \$_____ per share. Innovate/Protect is a privately held intellectual property company. Following the completion of the Merger, the combined company is expected to be publicly traded on the NYSE Amex.

Vringo is soliciting proxies for use at an annual meeting of its stockholders to consider and vote upon (i) a proposal to approve the Merger, including, but not limited to the issuance of shares of Vringo common stock and Vringo preferred stock and warrants to purchase shares of Vringo common stock to the Innovate/Protect stockholders and warrant holder in connection with the Merger, (ii) a proposal to approve an amendment to Vringo’s certificate of incorporation to effect a reverse stock split of Vringo common stock within the range of one-for-two to one-for-four, (iii) a proposal to approve an amendment to Vringo’s certificate of incorporation to increase the number of authorized shares of Vringo common stock to up to a maximum of 150,000,000 shares, (iv) a proposal to elect seven (7) director nominees to the Vringo board of directors, (v) a proposal to approve the Vringo, Inc. 2012 Employee, Director and Consultant Equity Incentive Plan, (vi) a proposal to ratify the appointment of Vringo’s independent registered public accounting firm and (vii) an adjournment of the Vringo annual meeting, if necessary, to solicit additional proxies if there are not sufficient votes in favor of the proposals referred to in clauses (i) through (vi). **The board of directors of Vringo recommends that Vringo stockholders vote FOR each of the foregoing proposals. Approval of the foregoing proposals (i) through (iv) is necessary to complete the Merger.**

Your vote is very important. Whether or not you plan to attend the Vringo annual meeting of stockholders, please submit your proxy as promptly as possible (i) through the Internet, (ii) by telephone or (iii) by marking, signing and dating the enclosed proxy card and returning it in the postage-paid envelope provided to make sure that your shares are represented at the annual meeting.

If you fail to submit your proxy as instructed on the enclosed proxy card, the effect will be that your shares will not be counted for purposes of determining whether a quorum is present at the Vringo annual meeting and will have the same effect as a vote against Vringo Proposal Nos. 2 and 3 but such failure will have no effect with respect to Vringo Proposal Nos. 1, 4, 5, 6 and 7. If you do attend the Vringo annual meeting and wish to vote in person, you may withdraw your proxy and vote in person.**

**QUESTIONS AND ANSWERS ABOUT THE MERGER AND
THE VRINGO ANNUAL MEETING**

The following are some questions that you, as a stockholder of Vringo, Inc. (“Vringo”), may have regarding the Merger (as defined below) or the Vringo annual meeting, together with brief answers to those questions. Vringo urges you to read carefully the remainder of this proxy statement/prospectus, including the annexes and other documents referred to in this proxy statement/prospectus, because the information in this section may not provide all of the information that might be important to you with respect to the Merger or the Vringo annual meeting.

When this proxy statement/prospectus refers to the combined company, it means Vringo and its subsidiaries and Innovate/Protect, Inc. (“Innovate/Protect”) and its subsidiaries, collectively.

Q: What is the Merger?

A: Vringo and Innovate/Protect have entered into an Agreement and Plan of Merger, dated as of March 12, 2012 (as may be amended or modified, the “**Merger Agreement**”), that sets forth the terms and conditions of the proposed business combination of Vringo and Innovate/Protect. Under the Merger Agreement, Innovate/Protect will merge with and into VIP Merger Sub, Inc., a wholly-owned subsidiary of Vringo (the “**Merger Sub**”), with Merger Sub surviving as a wholly-owned subsidiary of Vringo (the “**Merger**”). A complete copy of the Merger Agreement is attached to this proxy statement/prospectus as Annex A.

Q: Why is Vringo proposing to effect the Merger?

A: The board of directors of Vringo has unanimously approved the Merger Agreement and the Merger. The combination of the two companies will substantially increase Vringo’s intellectual property portfolio, add significant talent in technological innovation, and position Vringo to enhance its opportunities for revenue generation through the monetization of the combined company’s assets, including a potential successful outcome of Innovate/Protect’s litigation against Google, Inc. and the owners of other online search engines.

Q: Why am I receiving these materials?

A: Vringo is sending these materials to its stockholders to help them decide how to vote their shares of Vringo common stock with respect to the Merger and the other matters to be considered at the annual meeting.

This document serves as both a proxy statement of Vringo used to solicit proxies for its annual meeting and as a prospectus of Vringo used to offer shares of Vringo common stock, preferred stock and warrants to purchase common stock (including the shares of common stock issuable upon conversion of the preferred stock and exercise of the warrants) issuable to Innovate/Protect stockholders and warrant holder in connection with the Merger. This proxy statement/prospectus contains important information about the Merger and the Vringo annual meeting and you should read it carefully.

Q: What will Innovate/Protect stockholders receive in the Merger?

A: Pursuant to the terms of the Merger Agreement, upon completion of the Merger, (i) each share of then-outstanding common stock of Innovate/Protect (other than shares held by Vringo, Innovate/Protect or any of their respective subsidiaries, which will be cancelled at the completion of the Merger) will be automatically converted into the right to receive the number of shares of Vringo common stock multiplied by the Common Stock Exchange Ratio (as defined below) and (ii) each share of then-outstanding Series A Convertible Preferred Stock of Innovate/Protect, or Innovate/Protect preferred stock (total 6,673 shares outstanding), (other than shares held by Vringo, Innovate/Protect or any of their respective subsidiaries, which will be cancelled at the completion of the Merger) will be automatically converted into the right to receive the same number of shares of Vringo Series A Convertible Preferred Stock, or Vringo preferred stock, which 6,673 shares, as of May 25, 2012, shall be initially convertible into an aggregate of 20,136,445 shares of Vringo common stock (or at current conversion rate of 3,017.6). The Common Stock Exchange Ratio initially is 3.0176, which is subject to adjustment in the

TABLE OF CONTENTS

event of a reverse stock split to provide the holders of shares of Innovate/Protect capital stock with the same economic benefit as contemplated by the Merger Agreement prior to any such reverse stock split. In addition, at the effective time of the Merger, Vringo will issue to the holders of Innovate/Protect capital stock and the holder of Innovate/Protect's issued and outstanding warrant to purchase 250,000 shares of Innovate/Protect common stock (on a *pro rata* as-converted basis) an aggregate of 15,959,838 warrants to purchase an aggregate of 15,959,838 shares of Vringo common stock with an exercise price of \$1.76 per share, each subject to equitable adjustment in the event of a reverse stock split. The issued and outstanding warrant to purchase 250,000 shares of Innovate/Protect common stock will be exchanged for 250,000 shares of Vringo common stock and 850,000 warrants to purchase 850,000 shares of Vringo common stock with an exercise price of \$1.76 per share, each subject to an equitable adjustment in the event of a reverse stock split. In addition, the aggregate number of shares of Vringo common stock and the aggregate number of warrants (and the aggregate number of shares of Vringo common stock that may be purchased upon exercise thereof) to be issued in exchange for the issued and outstanding warrant of Innovate/Protect shall each be ratably adjusted to give effect to any partial exercise of such warrant prior to the effective time of the Merger. Finally, at the effective time of the Merger, all outstanding and unexercised options to purchase Innovate/Protect common stock, whether vested or unvested, will be converted into options to purchase Vringo common stock with the number of shares subject to and the exercise price applicable to such options being appropriately adjusted based on the Common Stock Exchange Ratio. Immediately following the completion of the Merger, the former stockholders of Innovate/Protect are expected to own approximately 56.30% of the outstanding common stock of the combined company and the current stockholders of Vringo are expected to own approximately 43.70% of the outstanding common stock of the combined company (without taking into account any shares of Vringo common stock held by Innovate/Protect stockholders prior to the completion of the Merger and without giving effect to shares of Vringo common stock issuable upon conversion of the Vringo preferred stock or the exercise of warrants and options). On a fully diluted basis, the stockholders of Innovate/Protect are expected to own approximately 67.55% of the outstanding capital stock of the combined company and current stockholders of Vringo are expected to own approximately 32.45% of the outstanding capital stock of the combined company.

No fractional shares of Vringo common or preferred stock will be issued to Innovate/Protect stockholders in connection with the Merger. Instead, Innovate/Protect stockholders will be entitled to receive the next highest number of whole shares of Vringo common or preferred stock in lieu of any fractional shares of Vringo common or preferred stock that they would otherwise be entitled to receive in connection with the Merger.

For a more complete discussion of what Innovate/Protect stockholders will receive in connection with the Merger, see the sections entitled "The Merger — What Innovate/Protect Stockholders Will Receive in the Merger," "The Merger — Ownership of the Combined Company After the Completion of the Merger" and "The Merger Agreement — Merger Consideration" beginning on pages [64](#), [65](#) and [90](#), respectively.

Q: How will Vringo stockholders be affected by the Merger?

A: The Merger will have no effect on the number of shares of Vringo common stock held by current Vringo stockholders as of immediately prior to the completion of the Merger (subject to any changes in outstanding shares of Vringo common stock as a result of the proposed reverse stock split described in the Reverse Stock Split Proposal below). However, it is expected that upon completion of the Merger such shares will represent only an aggregate of approximately 32.45% of the outstanding shares of common stock of the combined company calculated on a fully diluted basis (without taking into account shares of Vringo common stock held by Innovate/Protect stockholders prior to the completion of the Merger).

For example, if you are a Vringo stockholder and hold 5% of the outstanding shares of Vringo common stock calculated on a fully diluted basis immediately prior to the completion of the Merger and do not also hold shares of Innovate/Protect capital stock or warrants, then upon completion of the Merger you will hold an aggregate of approximately 1.62% of the outstanding shares of common stock of the combined company calculated on a fully diluted basis as of immediately following the completion of the Merger.

Q: Are the Exchange Ratios subject to adjustments based on fluctuations in the price of Vringo common stock or value of Innovate/Protect capital stock?

A: No. The Common Stock Exchange Ratio initially is 3.0176, subject to adjustment, such as for stock splits, as set forth in the Merger Agreement. There will be no adjustments to the Common Stock Exchange Ratio based on fluctuations in the price of Vringo common stock or the value of Innovate/Protect capital stock prior to the completion of the Merger. As a result of any such fluctuations in stock price or value, the aggregate market value of the shares of Vringo common stock that the Innovate/Protect stockholders are entitled to receive at the time that the Merger is completed could vary significantly from the value of such shares on the date of this proxy statement/prospectus, the date of the Vringo annual meeting or the date on which the Innovate/Protect stockholders actually receive their shares of Vringo common stock or Vringo preferred stock.

On March 14, 2012, the trading day of the announcement of the Merger, the last reported sale price of Vringo's common stock was \$1.84, for an aggregate market value of Vringo of \$25.5 million, or \$48.7 million on a fully diluted basis. On _____, 2012, the latest practicable date before the printing of this proxy statement/prospectus, the last reported sale price of Vringo's common stock was \$_____, for an aggregate market value of Vringo of \$_____, or \$_____ on a fully diluted basis. Assuming the issuance on such date of an aggregate of 18,113,169 shares of Vringo common stock based on a Common Stock Exchange Ratio of 3.0176, an aggregate of 6,673 shares of Vringo preferred stock and an aggregate of 16,809,838 of Vringo warrants, if the Merger was completed on such date, the market value attributable to the shares of Vringo common stock to be issued to Innovate/Protect's stockholders in the aggregate, or approximately _____% of the outstanding shares of the combined company calculated on a fully diluted basis, would equal \$_____.

For a more complete discussion of the Common Stock Exchange Ratio, see the section entitled "The Merger — What Innovate/Protect Stockholders Will Receive in the Merger" beginning on page [64](#).

Q: What will holders of Innovate/Protect warrants and stock options receive in the Merger?

A: At the effective time of the Merger, Vringo will issue to the holders of Innovate/Protect capital stock and the holder of Innovate/Protect's issued and outstanding warrant to purchase 250,000 shares of Innovate/Protect common stock (on a *pro rata* as-converted basis) an aggregate of 15,959,838 warrants to purchase an aggregate of 15,959,838 shares of Vringo common stock with an exercise price of \$1.76 per share. The issued and outstanding warrant to purchase 250,000 shares of Innovate/Protect common stock will be exchanged for 250,000 shares of Vringo common stock and 850,000 warrants to purchase 850,000 shares of Vringo common stock with an exercise price of \$1.76 per share, each subject to equitable adjustment in the event of a reverse stock split.

At the effective time of the Merger, each Innovate/Protect stock option, whether vested or unvested, will be converted into and become an option to purchase Vringo common stock and Vringo will assume such Innovate/Protect stock option in accordance with the terms of the Innovate/Protect 2011 Equity Incentive Plan. After the effective time of the Merger, (a) each Innovate/Protect stock option assumed by Vringo may be exercised solely for shares of Vringo common stock and (b) the number of shares of Vringo common stock and the exercise price subject to each Innovate/Protect stock option assumed by Vringo shall be determined by the Common Stock Exchange Ratio. As of May 25, 2012, the outstanding and unexercised Innovate/Protect stock options to purchase 13,646 shares of Innovate/Protect common stock, whether vested or unvested, will be converted into and become options to purchase an aggregate of 41,178 shares of Vringo common stock at an exercise price of \$0.994 per share.

For a more complete discussion of what holders of Innovate/Protect stock options and warrants will receive in connection with the Merger, see the section entitled "The Merger — Treatment of Innovate/Protect Stock Options and Warrants" beginning on page [65](#).

Q: How will the Merger affect Vringo's business?

A: Vringo will undergo changes in connection with the Merger. Currently, Vringo is engaged in developing software platforms and applications for mobile phones (as more fully discussed in the section entitled "Vringo's Business — Overview" beginning on page [124](#)). Following the Merger, Vringo will maximize

TABLE OF CONTENTS

the economic benefits of its intellectual property portfolio, add significant talent in technological innovation, and potentially enhance its opportunities for revenue generation through the monetization of the combined company's assets, including patents owned by Innovate/Protect and the outcome of the litigation against online search companies. In addition, as a result of the Merger, former Innovate/Protect stockholders will possess majority control of the combined company and members of Innovate/Protect's current board of directors will possess majority control of the board of directors of the combined company.

Both Vringo and Innovate/Protect expect to undergo changes in connection with the Merger. Currently, Vringo is engaged in developing software platforms and applications for mobile devices. Innovate/Protect maximizes, for inventors and investors, the economic benefits of intellectual property assets through acquiring or internally developing patents or other intellectual property assets.

The Merger will create a company with enhanced technology capabilities to create, build and deliver mobile applications and services to its handset and mobile operator partners as well as directly to consumers. We believe that the value of each company's intellectual property portfolio will be enhanced through the combined company's ability to license and enforce its intellectual property rights.

We expect that the combined company will have two key areas of operation:

- delivery and monetization of mobile social applications, and
- maximization of the economic benefits of intellectual property.

Vringo has developed a platform for the distribution of mobile applications. Vringo believes that its technology and business relationships will allow it to distribute new applications and services through:

- mobile operators,
- handset makers, and
- application storefronts.

Vringo has succeeded in licensing its software to two of the four largest handset makers in the world, ZTE and Nokia. Vringo has also launched services with mobile operators such as Verizon, NTTDocomo, Etisalat, Axiata, Orange (Everything Everywhere), Tata Docomo, Vodafone and Maxis. Through the Merger, Vringo adds a technology development leadership team that we believe will develop products that we believe will continue to represent the next stage in the evolution of the mobile content and mobile social applications market.

To date, Vringo has filed over 24 patent applications, and three patents have been granted by the USPTO. Additionally, Vringo has received a notice of allowance for one patent in Europe. Through the Merger, Vringo will own patent assets acquired from Lycos, Inc. Vringo intends to expand its intellectual property portfolio through both internal development and acquisition. The experience and liquidity of the combined company will enable Vringo to expand on that portfolio as well as create additional intellectual property internally. Vringo intends to monetize its intellectual property through:

- licensing,
- strategic partnerships, and
- litigation.

For a more complete discussion of the existing businesses of Vringo and Innovate/Protect, see the sections entitled "Vringo's Business," "Vringo's Management's Discussion and Analysis of Financial Condition and Results of Operations," "Innovate/Protect's Business," and "Innovate/Protect's Management's Discussion and Analysis of Financial Condition and Results of Operations" beginning on pages [124](#), [130](#), [149](#), and [157](#), respectively. In addition, you should carefully review the section entitled "Risk Factors" beginning on page [41](#), which presents risks and uncertainties related to the Merger, the combined company following the completion of the Merger, and the business and operations of each of Vringo and Innovate/Protect.

Q: Does Innovate/Protect have debt that will become an obligation of the combined company following the Merger?

A: Innovate/Protect is obligated under a senior secured note payable to its principal stockholder Hudson Bay with an outstanding balance of \$3,200,000 as of March 31, 2012. The senior secured note accrues interest at 0.46% per annum and matures on June 22, 2014. Hudson Bay has the option of requiring Innovate/Protect to redeem up to \$2,000,000 aggregate principal of the senior secured note beginning March 22, 2012. Pursuant to a letter agreement dated March 12, 2012, by and between Innovate/Protect and Hudson Bay, Hudson Bay agreed not to exercise its right of redemption until the earlier of (i) any termination of the Merger Agreement pursuant to the terms of the Merger Agreement or (ii) the effective time of the Merger; provided that if the Merger is consummated, the note will be amended and restated and the holder may exercise any and all rights and remedies pursuant to such amended and restated note delivered at the closing of the Merger, including with respect to any optional redemption provisions contained therein. If the Merger is consummated, the amended and restated note will mature on June 22, 2013 and the right of redemption described above will be amended to provide that, from and after the date upon which (i) Vringo and its subsidiaries has more than \$15,000,000 in the aggregate of cash and cash equivalents, Hudson Bay may require Vringo to redeem up to 50% of the outstanding principal amount of the note, (ii) Vringo and its subsidiaries has more than \$20,000,000 in the aggregate of cash and cash equivalents, Hudson Bay may require Vringo to redeem up to 100% of the outstanding principal of the Note, (iii) Vringo and its subsidiaries receives proceeds in excess of \$500,000 in the aggregate from the issuance of any equity or indebtedness, Hudson Bay may require Vringo to redeem the outstanding principal under the note in an amount equal to up to 20% of the proceeds of the issuance of any such equity or indebtedness. In addition, the amended and restated note shall provide that in the event of a change of control, Hudson Bay may require Vringo to redeem all or any portion of the note at a price in cash equal to 125% of the amount redeemed. Innovate/Protect has granted Hudson Bay a security interest in all of its tangible and intangible personal property (including the Lycos's patents) to secure its obligations under the senior secured note. In connection with the Merger, the senior secured note will become an obligation of the combined company and Vringo will guaranty the obligations under the senior secured note. For a more complete discussion of the outstanding indebtedness of Innovate/Protect, see the sections entitled "Innovate/Protect's Business — Relationship with Hudson Bay Master Fund Ltd.," and "Innovate/Protect's Management's Discussion and Analysis of Financial Condition and Results of Operations" beginning on pages [153](#) and [157](#), respectively. In addition, you should carefully review the section entitled "Risk Factors" beginning on page [41](#), which describes the risks of guarantying the Innovate/Protect debt.

On June 1, 2012, Hudson Bay committed, subject to the terms and conditions of a commitment letter agreement, that, at any time within 18 months following the closing of the Merger and upon the request of Innovate/Protect, it or, at its election, one or more of its affiliated funds or entities shall provide debt financing to Innovate/Protect in the aggregate principal amount of up to \$6,000,000. Hudson Bay's commitment shall be reduced, on a dollar for dollar basis, by (i) any cash or capital raised by Vringo, Innovate/Protect and/or any of their subsidiaries (each a "Vringo entity" and, together the "Vringo entities"), including, without limitation, through the issuance of any debt, equity and/or securities convertible, exercisable or exchangeable into equity of any of the Vringo entities or the incurrence of indebtedness by any of the Vringo entities and (ii) any cash received by any Vringo entity in connection with the exercise of any of its outstanding warrants. Any such financing provided under such facility will be in the form of senior secured notes at an interest rate of the greater of (i) LIBOR plus 300 basis points and (ii) 8% per annum with a maturity of seven years after issuance. Such obligations will be guaranteed by each of the Vringo entities and secured by a first priority lien on all assets of the Vringo entities. In addition, both Innovate/Protect and the holder of the notes will be able to require redemption of all or any portion of the Notes at any time after 18 months following the consummation of the Merger, subject to an interest make-whole through maturity. In addition to other covenants to be mutually agreed between Innovate/Protect and Hudson Bay, the Vringo entities will not spend cash during any calendar quarter while any notes are outstanding at a rate greater than the amount specified in the capital budget of Vringo and its subsidiaries, prepared on a combined basis, agreed to by Hudson Bay, without the prior written consent of Hudson Bay. The obligations of Hudson Bay or any of its affiliated funds

TABLE OF CONTENTS

under the commitment letter agreement will be subject to certain conditions set forth in the commitment letter agreement and will terminate automatically and immediately upon the earlier to occur of (a) the termination of the Merger Agreement pursuant to its terms, (b) any default under or acceleration prior to maturity of any indebtedness of any Vringo entity, (c) the failure of any Vringo entity to satisfy any of the conditions set forth in the commitment letter agreement, (d) any event, which, if occurring prior to the closing of the Merger, would have resulted in the failure of the conditions set forth in Section 6.2(f) (Litigation) and 6.2(j) (Patents) of the Merger Agreement to be satisfied, (e) upon written notice to terminate the commitment letter agreement delivered by Innovate/Protect to Hudson Bay or (f) 18 months after the consummation of the Merger.

Q: Will the shares of Vringo common stock and preferred stock received by Innovate/Protect stockholders in the Merger be subject to any transfer restrictions?

A: Yes. Pursuant to a letter agreement between Vringo and Hudson Bay Master Fund Ltd., or Hudson Bay, Hudson Bay is prohibited from selling Merger Shares (as hereinafter defined) at a price lower than \$2.00 per share (as adjusted for stock splits, stock dividends, stock combinations or other similar transactions) to the extent that the sale of such shares on any trading day is in excess of the greater of (i) 15% of the daily trading volume of all shares of Vringo common stock traded on such trading day, and (ii) 5,000 Merger Shares (as adjusted for stock splits, stock dividends, stock combinations or other similar transactions). “Merger Shares” means (i) shares of Vringo common stock issued to Hudson Bay pursuant to the Merger Agreement, (ii) shares of Vringo common stock issued upon exercise of any Series 1 Warrants or Series 2 Warrants issued to Hudson Bay pursuant to the Merger Agreement, and (iii) shares of Vringo common stock issued upon conversion of the Vringo preferred stock. This restriction is in place from the closing date until the date upon which Vringo gives notice of termination to Hudson Bay. In exchange, from the closing date until 30 days after Vringo terminates the transfer restriction described above, Vringo will not, directly or indirectly, subject to certain exceptions, effect any Subsequent Placement (as hereinafter defined) unless Vringo has provided notice to Hudson Bay and offered to issue and sell to Hudson Bay 25% of the securities being offered in such Subsequent Placement. “Subsequent Placement” means, subject to certain exceptions, any direct or indirect offer, sale (including any sale of any option to purchase or other disposition of) of any of Vringo’s or its subsidiaries’ equity or equity equivalent securities, including without limitation any debt, preferred stock or other instrument or security that is, at any time during its life and under any circumstances, convertible into or exchangeable or exercisable for common stock or common stock equivalents. Hudson Bay’s right to participate in up to 25% of Subsequent Placement may have a chilling effect on Vringo’s ability to raise financing via such offerings. Although the participation procedures are designed to minimize any impact on the timing of a transaction, there are notification processes to follow that could have the effect of slowing certain offerings. In addition, the possibility that a large percentage of an offering may be acquired by a third party may discourage some investors from participating in an offering due to the possibility that the size of the remaining offering will not be large enough to accommodate them. Nonetheless, Vringo does not anticipate that Hudson Bay’s right to participate will have a material impact on Vringo’s ability to raise financing.

In addition to the restrictions on transfer, sale, or encumbrance discussed in the preceding paragraph, shares of Vringo common stock and preferred stock received by Innovate/Protect stockholders who become affiliates of Vringo for purposes of Rule 144 under the Securities Act of 1933, as amended (the “**Securities Act**”), may be resold by them only in transactions permitted by Rule 144 or as otherwise permitted under the Securities Act.

For a more complete discussion of the restrictions on sales of shares of Vringo common stock received by Innovate/Protect stockholders in the Merger, see the section entitled “The Merger — Restrictions on Sales of Shares of Vringo Common Stock Received by Innovate/Protect Stockholders in the Merger” beginning on page [84](#).

Q: What was the role of the Vringo board of directors in connection with the Merger?

A: In addition to reviewing, evaluating and negotiating the terms and conditions of the Merger and considering the interests of Vringo’s directors and executive officers in the Merger, the Vringo board of

TABLE OF CONTENTS

directors conducted a review of all strategic alternatives for Vringo in an effort to maximize stockholder value, including continuing Vringo as a stand-alone publicly traded company and entering into strategic transactions with number of other operating companies.

The Vringo board of directors recommends that the Merger Agreement and the transactions contemplated thereby, including the Merger, be approved by the stockholders of Vringo. The Vringo board of directors made its recommendation to the Vringo stockholders after considering the factors described in the section entitled “The Merger — Recommendations of the Vringo Board of Directors and its Reasons for the Merger.”

Q: What proposals are Vringo stockholders being asked to consider?

A: As a condition to the completion of the Merger, Vringo stockholders must approve (i) the Merger, including, but not limited to the issuance of shares of Vringo common stock and preferred stock and warrants (including the shares of common stock issuable upon conversion of the preferred stock and exercise of the warrants, as applicable) to the Innovate/Protect stockholders and warrant holder in connection with the Merger (the “**Securities Issuance Proposal**”), which approval requires the affirmative vote of the holders of a majority of the shares of Vringo common stock present and entitled to vote on the matter either in person or by proxy at the Vringo annual meeting, (ii) an amendment to the Vringo amended and restated certificate of incorporation (the “**Vringo’s Certificate**”) to effect a reverse stock split of Vringo issued and outstanding common stock within the range of one-for-two to one-for-four (with the exact amount to be determined by Innovate/Protect prior to the completion of the Merger based on the requirements of the NYSE Amex) (the “**Reverse Stock Split Proposal**”), which approval requires the affirmative vote of the holders of a majority of the shares of Vringo common stock outstanding and entitled to vote on the matter, and (iii) an amendment to Vringo’s Certificate to increase the number of authorized shares of Vringo common stock from 28,000,000 to up to a maximum of 150,000,000 shares (with the exact amount to be determined by Innovate/Protect prior to the completion of the Merger) (the “**Authorized Shares Increase Proposal**”), which approval requires the affirmative vote of the holders of a majority of the shares of Vringo common stock outstanding and entitled to vote on the matter. In addition, Vringo stockholders are being asked to (i) elect seven (7) director nominees to the Vringo board of directors as specified in “Vringo Proposal No. 4: Election of Directors” to serve until the next annual meeting of the Vringo stockholders or until their successors are duly elected and qualify or until their earlier death, resignation or removal, which election shall be subject to the closing of the Merger (the “**Election of Directors Proposal**”), (ii) to approve the Vringo, Inc. 2012 Employee, Director and Consultant Equity Incentive Plan (the “**2012 Equity Incentive Plan**,” which is described in the section entitled “Vringo Proposal No. 5: Approval of the 2012 Equity Incentive Plan” and attached to this proxy statement/prospectus as Annex D (the “**2012 Equity Incentive Plan Proposal**”) and (iii) to ratify the appointment of Somekh Chaikin, a member firm of KPMG International, as Vringo’s independent registered public accounting firm for the fiscal year ending December 31, 2012 (the “**Ratification of the Appointment of Vringo’s Independent Registered Public Accounting Firm Proposal**”). The Securities Issuance Proposal, the Reverse Stock Split Proposal, and the Authorized Shares Increase Proposal are collectively referred to herein as the “**Vringo Merger Proposals**.”

Q: What stockholder approvals are required for the adjournment of the Vringo annual meeting, if necessary, to solicit additional proxies if there are not sufficient votes in favor of the Vringo Merger Proposals?

A: The holders of a majority of the shares of Vringo common stock present and entitled to vote either in person or by proxy at the Vringo annual meeting must vote in favor of any adjournment of the Vringo annual meeting.

Q: What conditions must be satisfied or waived to complete the Merger?

A: In order to complete the Merger, each of the closing conditions contained in the Merger Agreement must be satisfied or waived (to the extent permitted by applicable law). Among the closing conditions is the requirement that (i) the stockholders of each of Vringo and Innovate/Protect have approved the Merger and the Merger Agreement; (ii) this proxy statement/prospectus has become effective; (iii) the shares of Vringo common stock to be issued in the Merger have been approved for listing on the NYSE Amex;

TABLE OF CONTENTS

(iv) Vringo or Innovate/Protect, as applicable, shall have entered into certain agreements amending and restating the existing indebtedness of Innovate/Protect; (v) the representations and warranties of each party contained in the Merger Agreement are true and correct in all material respects; (vi) each party shall have performed or complied in all material respects with all agreements and covenants under the Merger Agreement; (vii) the receipt of all necessary consents and approvals; (viii) the absence of an Innovate/Protect Material Adverse Effect or a Vringo Material Adverse Effect (as each term is defined in the Merger Agreement), as the case may be; (ix) Vringo shall have received written resignations from all of the directors and officers of Innovate/Protect and its subsidiaries; (x) a letter agreement between Vringo and Hudson Bay, providing for, among other things, restrictions on the number of shares of Vringo common stock that Hudson Bay may sell and a right of Hudson Bay to participate in up to 25% of certain offerings conducted by Vringo shall be effective, (x) since the date of the Merger Agreement, (a) neither Innovate/Protect nor any of its subsidiaries has (A) settled, discharged or released any of its claims, causes of action, or defenses in that certain lawsuit captioned *I/P Engine, Inc. v. AOL, Inc.*, Civ. Action No. 2:11-cv-512, filed in United States District Court for the Eastern District of Virginia, Norfolk Division on September 15, 2011 (the “**Litigation**”) nor (B) assigned, promised, transferred, conveyed, encumbered, or granted a security interest in any of those claims and (b) there has been no dismissal (including, without limitation, by motion to dismiss or summary judgment) of the Litigation; (xi) holders of no more than 10% of the issued and outstanding Innovate/Protect capital stock shall have demanded and perfected their right to an appraisal of Innovate/Protect capital stock under the Delaware General Corporation Law; and (xii) neither U.S. Patent Nos. 6,314,420 nor 6,775,664, held by Innovate/Protect or any of its subsidiaries, shall, as of the closing of the Merger, be held unpatentable, invalid or unenforceable by an unappealed or unappealable judgment of a court of competent jurisdiction.

For a more complete discussion of the conditions to the completion of the Merger under the Merger Agreement, see the section entitled “The Merger Agreement — Conditions to the Completion of the Merger” beginning on page [97](#).

Q: What is the reverse stock split and why is it necessary?

A: If necessary to continue to list Vringo’s securities on the NYSE Amex, it is expected that immediately prior to the effective time of the Merger (the “**Effective Time**”), Vringo will effect a reverse stock split within the range of one-for-two to one-for-four (with the exact ratio to be determined immediately prior to the completion of the Merger based on the requirements of the NYSE Amex). The Vringo board of directors believes that stockholder approval of an amendment granting this discretion, rather than approval of a specified ratio, provides the appropriate flexibility to react to then-current market conditions and NYSE Amex’s requirements for continued listing therefore, is in the best interests of Vringo and its stockholders. In addition, Vringo may elect not to undertake a reverse stock split. The Merger constitutes a “reverse merger” under applicable rules and regulations established by the NYSE Amex, which requires the combined company to comply with the initial listing standards of the rules and regulations established by NYSE Amex to continue to be listed on such market following the Merger. Vringo common stock is required to be listed on the NYSE Amex as a condition to closing the Merger. The NYSE Amex’s initial listing standards require a company to have, among other things, a \$3.00 per share minimum bid price. Because the per share price of Vringo common stock may be less than \$3.00, the reverse stock split may be necessary to meet the minimum bid listing requirement. From April 9, 2012 until May 18, 2012 the Vringo common stock had a closing price of \$3.00 or above for each trading day. On May 25, 2012, the closing price of Vringo common stock was \$3.39. If the Vringo common stock continues to trade at or above \$3.00 at the time of the Merger, Vringo does not anticipate that it will need to undertake a reverse stock split, even if Vringo obtains stockholder approval to do so.

Q: Why is Vringo seeking to amend Vringo’s Certificate to increase the number of authorized shares of its common stock?

A: In addition to the securities to be issued pursuant to the Merger, the Vringo board of directors desires to have additional shares available to provide flexibility to use its capital stock for business and financial purposes in the future. The approval of an amendment to Vringo’s Certificate to increase the number of authorized shares of Vringo common stock (which is the subject of the Authorized Shares Increase Proposal) is one of the conditions to the completion of the Merger.

TABLE OF CONTENTS

Q: Who will be the directors of Vringo if the Merger does not close?

A: The election of the seven (7) director nominees is contingent upon the approval of the Merger by the stockholders and the completion of the Merger. If the Merger is not approved by the Vringo stockholders or the Merger does not close, then the current directors of Vringo will continue in office and Vringo will hold another stockholders meeting to elect directors.

Q: When does Vringo expect to complete the Merger?

A: Vringo expects to complete the Merger as soon as possible following the approval of the Vringo Merger Proposals at the annual meeting, assuming the satisfaction or waiver of all other closing conditions contained in the Merger Agreement. It is possible, therefore, that factors outside of each company's control could require Vringo to complete the Merger at a later time or not complete it at all.

Q: How does the Vringo board of directors recommend that Vringo stockholders vote with respect to each of the proposals and the adjournment of the Vringo annual meeting?

A: The Vringo board of directors unanimously recommends that the Vringo stockholders vote FOR the Securities Issuance Proposal, FOR the Reverse Stock Split Proposal, FOR the Authorized Shares Increase Proposal, FOR the election of the seven (7) director nominees as set forth in the Election of Directors Proposal, FOR the approval of the 2012 Equity Incentive Plan Proposal, FOR the Ratification of the Appointment of Vringo's Independent Registered Public Accounting Firm Proposal and FOR the adjournment of the Vringo annual meeting, if necessary, to solicit additional proxies if there are not sufficient votes in favor of the Vringo Merger Proposals. The Vringo board of directors made its recommendation after considering the factors described in this proxy statement/prospectus.

Q: What risks should I consider in deciding whether to vote in favor of the Vringo Merger Proposals?

A: You should carefully review the section of this proxy statement/prospectus entitled "Risk Factors" beginning on page [41](#), which presents risks and uncertainties related to the Merger, the combined company, and the business and operations of each of Vringo and Innovate/Protect.

Q: What are the material federal income tax consequences of the Merger to me?

A: The Merger is intended to qualify as a "reorganization" within the meaning of Section 368(a) of the Internal Revenue Code of 1986, as amended (the "Code"). Mintz, Levin, Cohn, Ferris, Glovsky and Popeo, P.C. has rendered its written opinion regarding such qualification. As a result of the reorganization, Vringo stockholders generally will not recognize gain or loss for U.S. federal income tax purposes as a result of the Merger.

The opinion of counsel relied on certain assumptions as well as representations made by Vringo, Merger Sub and Innovate/Protect, including factual representations and certifications contained in officers' certificates to be delivered at closing, and assumed that these representations are true, correct and complete, without regard to any knowledge limitation. If any of these representations or assumptions are inconsistent with the actual facts, the opinion could become invalid as a result, and the U.S. federal income tax treatment of the merger could be adversely affected. An opinion of counsel represents counsel's best legal judgment and is not binding on the Internal Revenue Service or any court. No ruling has been, or will be, sought from the Internal Revenue Service as to the tax consequences of the Merger.

The Merger is intended to qualify as a "reorganization" within the meaning of Section 368(a) of the Code. As a result of the "reorganization," Innovate/Protect stockholders generally will not recognize gain or loss for U.S. federal income tax purposes upon the exchange of their shares of Innovate/Protect capital stock for the equity securities of Vringo in connection with the Merger. However, an Innovate/Protect stockholder who perfects appraisal rights and receives cash in exchange for such stockholder's Innovate/Protect capital stock will recognize gain or loss measured by the difference between the amount of cash received and such stockholder's adjusted tax basis in those shares. Vringo stockholders generally will not recognize gain or loss for U.S. federal income tax purposes as a result of the Merger.

TABLE OF CONTENTS

Tax matters are very complicated, and the tax consequences of the Merger to a particular Vringo or Innovate/Protect stockholder will depend in part on such stockholder's circumstances. Accordingly, Vringo and Innovate/Protect urge you to consult your own tax advisor for a full understanding of the tax consequences of the Merger to you, including the applicability and effect of federal, state, local and foreign income and other tax laws. For a more complete discussion of the material U.S. federal income tax consequences of the Merger, see the section entitled, "Material U.S. Federal Income Tax Consequences of the Merger" beginning on page 86.

Q: Do I have appraisal rights in connection with the Merger?

A: Under the Delaware General Corporation Law, (the "DGCL"), holders of Vringo common stock are not entitled to appraisal rights in connection with the Merger or the proposals described in this proxy statement/prospectus. Under the DGCL, however, holders of Innovate/Protect capital stock may be entitled to appraisal rights in connection with the Merger.

Q: When and where will the Vringo annual meeting take place?

A: The Vringo annual meeting will be held on [July 12, 2012] at 10:00 a.m., local time, at the offices of Mintz, Levin, Cohn, Ferris, Glovsky and Popeo, P.C., the Chrysler Center, 666 Third Avenue, 32nd floor, New York, New York 10017.

Q: Who can attend and vote at the stockholder meetings?

A: All Vringo stockholders of record as of the close of business on [June 8, 2012], the record date for the Vringo annual meeting, are entitled to receive notice of and to vote at the Vringo annual meeting.

Q: What do I need to do now and how do I vote?

A: Vringo urges you to read this proxy statement/prospectus carefully, including its annexes, and to consider how the Merger may affect you.

If you are a Vringo stockholder, you may vote by telephone or through the Internet by following the instructions included on your proxy card, you may indicate on the enclosed proxy card how you would like to vote, sign and return the proxy card in the enclosed postage-paid envelope, or you may attend the Vringo annual meeting in person. Please provide your proxy instructions only once and as soon as possible so that your shares can be voted at the Vringo annual meeting.

If you hold your shares in "street name," please refer to your proxy card or the information forwarded by your broker or other nominee to see which options are available to you.

Q: What happens if I do not submit my proxy or if I elect to abstain from voting?

A: If you are a Vringo stockholder and you fail to submit your proxy (i) through the Internet, (ii) by telephone or (iii) by marking, signing and dating the enclosed proxy card and returning it in the enclosed postage-paid envelope, your shares will not be counted as present for the purpose of determining the presence of a quorum, which is required to transact business at the Vringo annual meeting, and your failure to take action will have no effect on the outcome of Vringo Proposal Nos. 1 (Securities Issuance Proposal), 4 (Election of Directors Proposal), 5 (2012 Equity Incentive Plan Proposal), 6 (Ratification of the Appointment of Vringo's Independent Registered Public Accounting Firm Proposal) and 7 (adjournment to solicit additional proxies, if necessary). However, such failure to take action will have the same effect as voting AGAINST Vringo Proposal Nos. 2 (Reverse Stock Split Proposal) and 3 (Authorized Shares Increase Proposal).

If you are a Vringo stockholder and you sign, date, and mail your proxy card without indicating how you wish to vote, your proxy will be counted as present for the purpose of determining the presence of a quorum for the Vringo annual meeting and all of your shares will be voted FOR Vringo Proposal Nos. 1, 2, 3, 4, 5, 6 and 7. However, if you submit a proxy card and affirmatively elect to abstain from voting, your proxy will be counted as present for the purpose of determining the presence of a quorum for the Vringo annual meeting, but will not be voted at the Vringo annual meeting. As a result, your abstention will have the same effect as voting AGAINST Vringo Proposal Nos. 1, 2, 3, 5 and 7 and will have no effect on Vringo Proposal Nos. 4 and 6.

TABLE OF CONTENTS

Q: If my Vringo shares are held in “street name” by a broker or other nominee, will my broker or nominee vote my shares for me?

A: If your Vringo shares are held in “street name” in a stock brokerage account or by another nominee, you must provide the record holder of your shares with instructions on how to vote your shares. Please follow the voting instructions provided by your broker or other nominee. Please note that you may not vote shares held in “street name” by returning a proxy card directly to Vringo or by voting in person at the Vringo annual meeting unless you provide a legal proxy, which you must obtain from your broker or other nominee that holds your shares giving you the right to vote the shares in person at the Vringo annual meeting.

Q: May I vote in person?

A: If you are a stockholder of Vringo and your shares of Vringo common stock are registered directly in your name with Vringo’s transfer agent, you are considered, with respect to those shares, the stockholder of record, and the proxy materials and proxy card are being sent directly to you by Vringo. If you are a Vringo stockholder of record, you may attend the Vringo annual meeting and vote your shares in person, rather than submitting your proxy.

If your shares of Vringo common stock are held in a brokerage account or by another nominee, you are considered the beneficial owner of shares held in street name, and these proxy materials are being forwarded to you together with a voting instruction card. As the beneficial owner, you are also invited to attend the Vringo annual meeting. However, since a beneficial owner is not the stockholder of record, you may not vote these shares in person at the Vringo annual meeting unless you obtain a legal proxy from the broker or other nominee that holds your shares giving you the right to vote the shares in person at the Vringo annual meeting.

Q: May I revoke or change my vote after I have provided proxy instructions?

A: Yes. You may revoke or change your vote at any time before your proxy is voted at the Vringo annual meeting. You can do this in one of four ways. First, you can send a written notice to Vringo stating that you would like to revoke your proxy. Second, you can submit a duly executed proxy bearing a later date or time than that of the previously submitted proxy. Third, you can submit a later dated vote by the Internet or telephone. Fourth, you can attend the Vringo annual meeting and vote in person. Your attendance alone at the Vringo annual meeting will not revoke your proxy. If you are a Vringo stockholder and have instructed a broker or other nominee to vote your shares, you must follow directions received from your broker or other nominee in order to change those instructions.

If you are a beneficial owner of Vringo common stock, you may submit new voting instructions by contacting your broker or other nominee. You also may vote in person if you obtain a legal proxy. All shares that have been properly voted and not revoked will be voted at the Vringo annual meeting.

Q: What constitutes a quorum?

A: Stockholders who hold a majority of the shares of Vringo common stock outstanding as of the close of business on the record date for the Vringo annual meeting must be present either in person or by proxy in order to constitute a quorum to conduct business at the Vringo annual meeting.

Q: Who is paying for this proxy solicitation?

A: Vringo will bear its own cost and expense of preparing, assembling, printing, and mailing this proxy statement/prospectus, any amendments thereto, the proxy card, and any additional information furnished to the Vringo stockholders. Vringo will bear any fees paid to the Securities and Exchange Commission (“SEC”). Vringo may also reimburse brokerage houses and other custodians, nominees and fiduciaries for their costs of soliciting and obtaining proxies from beneficial owners, including the costs of reimbursing brokerage houses and other custodians, nominees and fiduciaries for their costs of forwarding this proxy statement/prospectus and other solicitation materials to beneficial owners. In addition, proxies may be solicited without additional compensation by directors, officers and employees of Vringo by mail, telephone, fax, or other methods of communication. Vringo has retained Morrow & Co., LLC (Morrow)

to assist Vringo in the solicitation of proxies from Vringo stockholders in connection with the Vringo special meeting. Morrow will receive a fee of \$8,500 as compensation for its services, plus \$5.00 per stockholder contacted and reimbursement of out-of-pocket expenses.

Q: Whom should I contact if I have any questions about the Merger or the Vringo annual meeting?

A: If you have any questions about the Merger, the Vringo annual meeting, or if you need assistance in submitting your proxy or voting your shares or need additional copies of this proxy statement/prospectus or the enclosed proxy card, you should contact Vringo or Morrow, Vringo's proxy solicitor.

If you are a Vringo stockholder you should contact Vringo or Morrow, Vringo's proxy solicitor, at the applicable address and telephone number listed below:

Q: What happens if I sell my shares after the applicable record date but before the applicable annual meeting?

A: If you transfer your Vringo common stock after the applicable record date but before the date of the applicable meeting, you will retain your right to vote at the annual meeting (provided that such shares remain outstanding on the date of the applicable meeting).

Q: What do I do if I receive more than one proxy statement/prospectus or set of voting instructions?

A: If you hold shares directly as a record holder and also in "street name" or otherwise through a nominee, you may receive more than one proxy statement/prospectus and/or set of voting instructions relating to the Vringo annual meeting. These should each be voted and/or returned separately in order to ensure that all of your shares are voted.

Q: Should I send in my stock certificates now?

A: No. Vringo stockholders are not required to tender or exchange their stock certificates as part of the Merger. However, you will receive written instructions from American Stock Transfer & Trust Company, LLC, Vringo's transfer agent, for exchanging your Vringo stock certificates in connection with any reverse stock split.

The Merger

Vringo and Innovate/Protect have entered into the Merger Agreement, which provides that, subject to the terms and conditions of the Merger Agreement and in accordance with the DGCL at the Effective Time (as such term is defined in the Merger Agreement), Innovate/Protect will merge with and into Merger Sub, with Merger Sub surviving as a wholly-owned subsidiary of Vringo. The board of directors of Vringo has unanimously approved the Merger Agreement and the Merger. The board of directors of Innovate/Protect has unanimously approved the Merger Agreement and the Merger.

What Innovate/Protect Stockholders Will Receive in the Merger

Upon completion of the Merger, each Innovate/Protect common stockholder will have the right to receive, for each share of the outstanding common stock of Innovate/Protect they hold, a number of shares of Vringo common stock multiplied by the Common Stock Exchange Ratio, which shall initially be 3.0176, which is subject to adjustment in the event of a reverse stock split to provide the holders of shares of Innovate/Protect capital stock with the same economic benefit as contemplated by the Merger Agreement prior to any such reverse stock split. Each share of Innovate/Protect preferred stock will automatically be converted into the right to receive the same number of shares of Vringo preferred stock, which 6,673 shares, as of May 25, 2012, shall be initially convertible into an aggregate of 20,136,445 shares of Vringo common stock (or at current conversion rate of 3,017.6). In addition, at the effective time of the Merger, Vringo will issue to the holders of Innovate/Protect capital stock and the holder of Innovate/Protect's issued and outstanding warrant to purchase 250,000 shares of Innovate/Protect common stock (on a *pro rata* as-converted basis) an aggregate of 15,959,838 warrants to purchase an aggregate of 15,959,838 shares of Vringo common stock with an exercise price of \$1.76 per share, each subject to equitable adjustment in the event of a reverse stock split. The issued and outstanding warrant to purchase 250,000 shares of Innovate/Protect common stock will be exchanged for 250,000 shares of Vringo common stock and 850,000 warrants to purchase 850,000 shares of Vringo common stock with an exercise price of \$1.76 per share, each subject to equitable adjustment in the event of a reverse stock split. In addition, the aggregate number of shares of Vringo common stock and the aggregate number of warrants (and the aggregate number of shares of Vringo common stock that may be purchased upon exercise thereof) to be issued in exchange for the issued and outstanding warrant of Innovate/Protect shall each be ratably adjusted to give effect to any partial exercise of such warrant prior to the effective time of the Merger. Finally, at the effective time of the Merger, all outstanding and unexercised options to purchase Innovate/Protect common stock, whether vested or unvested, will be converted into options to purchase Vringo common stock with the number of shares subject to and the exercise price applicable to such options being appropriately adjusted based on the Common Stock Exchange Ratio.

TABLE OF CONTENTS

Immediately following the completion of the Merger (without taking into account any shares of Vringo common stock held by Innovate/Protect stockholders prior to the completion of the Merger), the former stockholders of Innovate/Protect are expected to own approximately 56.30% of the outstanding common stock of the combined company (or 67.55% of the outstanding common stock of the combined company calculated on a fully diluted basis) and the current stockholders of Vringo are expected to own approximately 43.70% of the outstanding common stock of the combined company (or 32.45% of the outstanding common stock of the combined company calculated on a fully diluted basis). Based on current data if the Merger had been completed on [June 8, 2012], the record date for the Vringo annual meeting, an aggregate of 18,113,169 shares of Vringo common stock would have been issuable to Innovate/Protect common stockholders and the warrant holder, and an aggregate of 6,673 shares of Vringo preferred stock initially convertible into 20,136,445 shares of Vringo common stock on such date would have been issuable to Innovate/Protect stockholders upon completion of the Merger.

The Common Stock Exchange Ratio and the number of shares for which the Innovate/Protect preferred stock shall be convertible into shall not be adjusted without the prior written consent of Innovate/Protect; provided, however that such prior written consent shall not be unreasonably conditioned, withheld or delayed with regard to any such adjustments being made with respect to a reverse split of the equity securities of Vringo undertaken for the purpose of maintaining Vringo's listing on NYSE Amex or any other consent, approval or authorization of, or registration, declaration or filing with, any governmental authority.

No fractional shares of Vringo common stock or Vringo preferred stock will be issued to Innovate/Protect stockholders in connection with the Merger. Instead, Innovate/Protect stockholders will be entitled to receive the next highest number of whole shares of Vringo common or preferred stock in lieu of any fractional shares of Vringo common or preferred stock that they would otherwise be entitled to receive in connection with the Merger.

For a more complete discussion of what Innovate/Protect stockholders will receive in connection with the Merger and the formula that will be used to calculate the Exchange Ratios, see the sections entitled "The Merger — What Innovate/Protect Stockholders Will Receive in the Merger" and "The Merger Agreement — Merger Consideration" beginning on pages [64](#) and [90](#), respectively.

Ownership of the Combined Company After the Completion of the Merger

Upon completion of the Merger and regardless of the exact Exchange Ratios (or any reverse stock split), the former stockholders of Innovate/Protect (without taking into account any shares of Vringo common stock held by Innovate/Protect stockholders prior to the completion of the Merger) are expected to own approximately 56.30% of the outstanding common stock of the combined company (or 67.55% of the outstanding common stock of the combined company calculated on a fully diluted basis) and the current stockholders of Vringo are expected to own approximately 43.70% of the outstanding common stock of the combined company (or 32.45% of the outstanding common stock of the combined company calculated on a fully diluted basis).

Treatment of Innovate/Protect Stock Options and Warrants

At the effective time of the Merger, each outstanding and unexercised option to purchase Innovate/Protect common stock, whether vested or unvested, will be converted into and become an option to purchase Vringo common stock and Vringo will assume such Innovate/Protect stock option in accordance with the terms of the Innovate/Protect 2011 Equity Incentive Plan. After the effective time of the Merger, (a) each Innovate/Protect stock option assumed by Vringo may be exercised solely for shares of Vringo common stock and (b) the number of shares of Vringo common stock and the exercise price subject to each Innovate/Protect stock option assumed by Vringo shall be determined by the Common Stock Exchange Ratio. Therefore, at the effective time of the Merger, the outstanding and unexercised Innovate/Protect stock options to purchase 13,646 shares of Innovate/Protect common stock, whether vested or unvested, will be converted into and become options to purchase an aggregate of 41,178 shares of Vringo common stock at an exercise price of \$0.994 per share.

At the effective time of the Merger, Vringo will issue to the holders of Innovate/Protect capital stock and the holder of Innovate/Protect's issued and outstanding warrant to purchase 250,000 shares of Innovate/Protect common stock (on a *pro rata* as-converted basis) an aggregate of 15,959,838 warrants to purchase an

TABLE OF CONTENTS

aggregate of 15,959,838 shares of Vringo common stock with an exercise price of \$1.76 per share, each subject to equitable adjustment in the event of a reverse stock split. The issued and outstanding warrant to purchase 250,000 shares of Innovate/Protect common stock will be exchanged for 250,000 shares of Vringo common stock and 850,000 warrants to purchase 850,000 shares of Vringo common stock with an exercise price of \$1.76 per share, each subject to equitable adjustment in the event of a reverse stock split.

As of _____, 2012, the latest practicable date before the printing of this proxy statement/prospectus, there were outstanding options to purchase 13,646 shares of Innovate/Protect capital stock and an outstanding warrant to purchase 250,000 shares of Innovate/Protect capital stock.

For a more complete discussion of the treatment of Innovate/Protect stock options and warrants, see the section entitled “The Merger — Treatment of Innovate/Protect Stock Options and Warrants” beginning on page [65](#).

Treatment of Vringo Stock Options; Change of Control Payments

Upon the change of control in connection with the consummation of the Merger, there will be a one year acceleration of option vesting for all Vringo’s option holders for grants prior to the consummation of the Merger, except for Andrew D. Perlman who will be entitled to 50% acceleration for all of his unvested options granted to him prior to him becoming Chief Executive Officer of Vringo. In addition, directors of Vringo, other than Mr. Perlman, departing within six months from a subsequent change of control would receive full acceleration of vesting for any unvested options and extension of the termination period for option exercises to one year from cessation of board service.

Board of Directors and Executive Officers of the Combined Company After the Completion of the Merger

Upon completion of the Merger, the combined company will have a seven member board of directors, comprised of Seth M. Siegel, as Chairman, Andrew D. Perlman, John Engelman, all of whom are currently members of the Vringo board of directors, and Andrew Kennedy Lang, Alexander R. Berger, Donald E. Stout and H. Van Sinclair, all of whom are currently members of the Innovate/Protect board of directors.

The executive management team of the combined company is expected to be composed of the following individuals:

<u>Name</u>	<u>Current Position</u>	<u>Position with the Combined Company</u>
Andrew D. Perlman	Chief Executive Officer and President of Vringo	Chief Executive Officer
Andrew Kennedy Lang	President, Chief Executive Officer and Chief Technology Officer of Innovate/Protect	Chief Technology Officer and President

Recommendations of the Vringo Board of Directors and its Reasons for the Merger

The Vringo board of directors, after considering the factors described in the section entitled “The Merger — Recommendations of the Vringo Board of Directors and its Reasons for the Merger” beginning on page [73](#), has unanimously approved the Merger Agreement and the transactions contemplated thereby, including the Merger. The Vringo board of directors has determined that the Merger Agreement and the transactions contemplated thereby, including the Merger, are advisable and fair to, and in the best interests of, Vringo and its stockholders, and therefore recommends that the Vringo stockholders vote FOR the Securities Issuance Proposal, FOR the Reverse Stock Split Proposal, FOR the Authorized Shares Increase Proposal, as contemplated by the Merger Agreement, FOR the election of the seven (7) director nominees set forth in the Election of Directors Proposal, FOR the approval of the 2012 Equity Incentive Plan Proposal, FOR the Ratification of the Appointment of Vringo’s Independent Registered Public Accounting Firm Proposal and FOR the adjournment of the Vringo annual meeting, if necessary, to solicit additional proxies if there are not sufficient votes in favor of the Vringo Merger Proposals. Opinion of Etico Capital to the Vringo Board of Directors

The board of directors of Vringo engaged Etico Capital, a division of Olympus Securities LLC (“**Etico Capital**”), to render an opinion to the board of directors as to whether the Merger consideration was fair, from a financial point of view, to the stockholders of Vringo. The board of directors selected Etico Capital based on the reputation and investment banking experience of Etico Capital and its principals. Etico Capital provides investment banking services, including merger and acquisition advisory services, to a wide range of companies in various industries. On March 11, 2012, Etico Capital provided the Vringo board of directors with a presentation and a draft of the fairness opinion. On March 12, 2012, Etico Capital delivered its final written opinion to the Vringo board of directors that, as of such date, and based upon and subject to the various assumptions and limitations set forth in its written opinion, the Merger consideration to be issued is fair, from a financial point of view, to holders of Vringo common stock (other than those who own, or whose affiliates own, securities of Innovate/Protect, regarding which Etico Capital expressed no view).

The full text of the written opinion, dated as of March 12, 2012, of Etico Capital is attached as Annex H to this proxy statement/prospectus. The opinion sets forth, among other things, the assumptions made, matters considered and limitations on the review undertaken by Etico Capital. Holders of Vringo common stock are urged to, and should, read the Etico Capital opinion carefully and in its entirety. The Etico Capital opinion is directed to the Vringo board of directors and addresses only the fairness of the Merger consideration from a financial point of view to holders of Vringo common stock (other than those who own, or whose affiliates own, securities of Innovate/Protect, regarding which Etico Capital expressed no view) as of the date of the opinion. The Etico Capital opinion does not address any other aspect of the Merger and does not constitute a recommendation to any holder of Vringo common stock as to how to vote on the Vringo Merger Proposals at the annual meeting. Etico Capital’s opinion does not address the underlying business decision to enter into the Merger Agreement or the Merger, nor does it evaluate alternative opportunities, alternative transaction structures or other financial or strategic alternatives. The summary of the Etico Capital opinion set forth in this proxy statement/prospectus is qualified in its entirety by reference to the full text of such opinion.

Interests of Vringo Directors and Executive Officers in the Merger

You should be aware that certain directors and executive officers of Vringo have interests in the Merger that are different from, or in addition to, the interests of the stockholders of Vringo generally.

Interests of Vringo’s directors and executive officers in connection with the Merger relate to (i) the continuing service of each of Seth M. Siegel, Andrew D. Perlman and John Engelman as directors of the combined company following the completion of the Merger, (ii) the fact that Andrew D. Perlman and Ellen Cohl are currently executive officers of Vringo and will remain executive officers of the combined company following the completion of the Merger, (iii) upon the change of control in connection with the consummation of the Merger, there will be a one year acceleration of option vesting for option holders for grants prior to the consummation of the Merger, except for Andrew D. Perlman who will be entitled to 50% acceleration for all of his unvested options granted to him prior to him becoming Chief Executive Officer of Vringo, (iv) directors of Vringo, other than Mr. Perlman, departing within six months from a subsequent change of control would receive full acceleration of vesting for any unvested options and extension of the termination period for option exercises to one year from cessation of board service, and (v) the right to continued indemnification for directors and executive officers of Vringo following the completion of the Merger.

TABLE OF CONTENTS

The following table sets forth the benefits to be made to Vringo's directors and executive officers in connection with the Merger, assuming a change of control occurs and termination of Vringo's directors as of May 25, 2012:

<u>Name</u>	<u>Equity (\$) ⁽¹⁾</u>
Andrew D. Perlman	\$ 107,584
Seth M. Siegel	\$ 88,809
John Engelman	\$ 7,280
Ellen Cohl	\$ 30,606

(1) Calculated based on the aggregate dollar value of in-the-money option awards for which vesting would be accelerated, determined by the difference between the price per share (as discussed in the below) and the exercise price of the options. The price per share is calculated based on the average closing market price of Vringo common stock over the first five business days following March 14, 2012, the first public announcement of the Merger.

The Vringo board of directors was aware of and considered these interests, among other matters, in evaluating and negotiating the Merger Agreement and in recommending that Vringo stockholders approve the Vringo Merger Proposals.

For a more complete discussion of the interests of the directors and executive officers of Vringo in the Merger, see the section entitled "The Merger — Interests of Vringo's Directors and Executive Officers in the Merger" beginning on page [82](#).

Ownership Interests

The following table sets forth information as of May 25, 2012, regarding the beneficial ownership of the combined company for each executive officer and director of Vringo and Innovate/Protect following the completion of the Merger. Percentage of beneficial ownership is calculated in relation to 32,173,593 shares of common stock of the combined company outstanding upon completion of the Merger, assuming that the Common Stock Exchange Ratio to be used in connection with the Merger is approximately 3.0176 shares of Vringo common stock for each share of Innovate/Protect capital stock (without giving effect to the proposed reverse stock split described elsewhere in this proxy statement/prospectus). Beneficial ownership is determined in accordance with the rules of the SEC, which generally attribute beneficial ownership of securities to persons who possess sole or shared voting or investment power with respect to those securities, and includes shares of Innovate/Protect capital stock, and if applicable, shares of Vringo common stock issuable pursuant to the exercise of stock options or other securities that are exercisable or convertible into shares of Innovate/Protect capital stock or Vringo common stock, as applicable, within 60 days of May 25, 2012. The table also sets forth the total number of additional options that each executive officer and director of Innovate/Protect will have the right to acquire following the Merger, but which are not exercisable within 60 days of May 25, 2012.

<u>Name</u>	<u>Total Shares to be Beneficially Owned Following the Merger</u>	<u>Total Additional Options to be Held Following the Merger</u>	<u>Combined Company Beneficial Ownership Percentage Following the Merger</u>

Anticipated Accounting Treatment of the Merger

The Merger will be treated by Vringo as a reverse merger under the acquisition method of accounting in accordance with U.S. generally accepted accounting principles (“GAAP”). For accounting purposes, Innovate/Protect is considered to be acquiring Vringo in this transaction. For a more complete discussion of the anticipated accounting treatment of the Merger, see the section entitled “The Merger — Anticipated Accounting Treatment” beginning on page [84](#).

Material U.S. Federal Income Tax Consequences of the Merger

The Merger is intended to qualify as a reorganization within the meaning of Section 368(a) of the Code. Mintz, Levin, Cohn, Ferris, Glovsky and Popeo, P.C. has rendered its written opinion regarding such qualification. As a result of the “reorganization,” Innovate/Protect stockholders generally will not recognize gain or loss for U.S. federal income tax purposes upon the exchange of their shares of Innovate/Protect capital stock for the equity securities of Vringo in connection with the Merger. However, an Innovate/Protect stockholder who perfects appraisal rights and receives cash in exchange for such stockholder’s Innovate/Protect capital stock will recognize gain or loss measured by the difference between the amount of cash received and such stockholder’s adjusted tax basis in those shares. Vringo stockholders generally will not recognize gain or loss for U.S. federal income tax purposes as a result of the Merger.

The opinion of counsel relied on certain assumptions as well as representations made by Vringo, Merger Sub and Innovate/Protect, including factual representations and certifications contained in officers’ certificates to be delivered at closing, and assumed that these representations are true, correct and complete, without regard to any knowledge limitation. If any of these representations or assumptions are inconsistent with the actual facts, the opinion could become invalid as a result, and the U.S. federal income tax treatment of the merger could be adversely affected. An opinion of counsel represents counsel’s best legal judgment and is not binding on the Internal Revenue Service or any court. No ruling has been, or will be, sought from the Internal Revenue Service as to the tax consequences of the Merger.

Tax matters are very complicated, and the tax consequences of the Merger to a particular Vringo or Innovate/Protect stockholder will depend in part on such stockholder’s circumstances. Accordingly, Vringo and Innovate/Protect urge you to consult your own tax advisor for a full understanding of the tax consequences of the Merger to you, including the applicability and effect of federal, state, local and foreign income and other tax laws. For a more complete discussion of the material U.S. federal income tax consequences of the Merger, see the section entitled “Material U.S. Federal Income Tax Consequences of the Merger” beginning on page [86](#).

Restrictions on Sales of Shares of Vringo Common Stock Received by Innovate/Protect Stockholder in the Merger

Pursuant to a letter agreement between Vringo and Hudson Bay, Hudson Bay is prohibited from selling Merger Shares (as hereinafter defined) at a price lower than \$2.00 per share (as adjusted for stock splits, stock dividends, stock combinations or other similar transactions) to the extent that the sale of such shares on any trading day is in excess of the greater of (i) 15% of the daily trading volume of all shares of Vringo common stock traded on such trading day, and (ii) 5,000 Merger Shares (as adjusted for stock splits, stock dividends, stock combinations or other similar transactions). “Merger Shares” means (i) shares of Vringo common stock issued to Hudson Bay, (ii) shares of Vringo common stock issued upon exercise of any Series 1 Warrants or Series 2 Warrants issued to Hudson Bay pursuant to the Merger Agreement, in the forms attached to this proxy statement/prospectus as [Annex F](#) and [Annex G](#), respectively, and (iii) shares of Vringo common stock issued upon conversion of the Vringo preferred stock. This restriction is in place from the closing date until the date upon which Vringo gives notice of termination to Hudson Bay pursuant to the Merger Agreement. In exchange, from the closing date until 30 days after Vringo terminates the transfer restriction described above, Vringo will not, directly or indirectly, subject to certain exceptions, effect any Subsequent Placement (as hereinafter defined) unless Vringo has provided notice to Hudson Bay and offered to issue and sell to Hudson Bay 25% of the securities being offered in such Subsequent Placement. “Subsequent Placement” means, subject to certain exceptions, any direct or indirect offer, sale (including any sale of any option to purchase or other disposition of) of any of Vringo’s or its subsidiaries’ equity or equity equivalent securities, including

without limitation any debt, preferred stock or other instrument or security that is, at any time during its life and under any circumstances, convertible into or exchangeable or exercisable for common stock or common stock equivalents.

In addition to the restrictions on transfer, sale, or encumbrance discussed in the preceding paragraph, shares of Vringo common stock and preferred stock received by Innovate/Protect stockholders who become affiliates of Vringo for purposes of Rule 144 under the Securities Act, may be resold by them only in transactions permitted by Rule 144 or as otherwise permitted under the Securities Act.

For a more complete discussion of the restrictions on sales of shares of Vringo common stock and preferred stock and warrants received by the Innovate/Protect stockholders and warrant holder in the Merger, see the section entitled “The Merger — Restrictions on Sales of Shares of Vringo Common Stock Received by Innovate/Protect Stockholders in the Merger” beginning on page [84](#).

Appraisal Rights

Under the DGCL, holders of Vringo common stock are not entitled to appraisal rights in connection with the Merger. Under the DGCL, however, holders of Innovate/Protect capital stock may be entitled to appraisal rights in connection with the Merger.

Regulatory Approvals

As of the date of this proxy statement/prospectus, neither Vringo nor Innovate/Protect is required to make filings or to obtain approvals or clearances from any regulatory authorities in the U.S. or other countries to complete the Merger. In the U.S., Vringo must comply with applicable federal and state securities laws and the rules and regulations of the NYSE Amex in connection with the issuance of shares of Vringo common stock and preferred stock and the resulting change in control of Vringo and the filing of this proxy statement/prospectus with the SEC.

Conditions to the Completion of the Merger

Vringo and Innovate/Protect expect to complete the Merger as soon as possible following the approval of the Vringo Merger Proposals at the annual meeting. Completion of the Merger will only be possible, however, after all closing conditions contained in the Merger Agreement are satisfied or waived, including after Vringo receives stockholder approval at the annual meeting. It is possible, therefore, that factors outside of each company’s control could require them to complete the Merger at a later time or not complete it at all.

The obligations of Vringo and Innovate/Protect to consummate the Merger are each subject to the satisfaction or waiver (to the extent permitted under applicable law) of the following conditions, among others and subject, in some cases, to the exceptions or limitations contained in confidential disclosure schedules delivered to each party by the other:

- this proxy statement/prospectus has become effective;
- the shares of Vringo common stock shall have been approved for listing on the NYSE Amex;

- the representations and warranties of the parties shall be true, complete and correct in all material respects on and as of the Effective Time, with the same force and effect as if made on and as of the Effective Time, except for those (x) representations and warranties that are qualified by materiality, which representations and warranties shall be true, complete and correct in all respects and (y) representations and warranties which address matters only as of a particular date;
- the parties shall have performed or complied in all material respects with all agreements and covenants required by the Merger Agreement to be performed or complied with by it on or prior to the Effective Time;

- Vringo shall have received written resignations from all of the directors and officers of Innovate/Protect and its subsidiaries;

- since the date of the Merger Agreement, (i) neither Innovate/Protect nor any of its subsidiaries has (A) settled, discharged or released any of its claims, causes of action, or defenses in that certain lawsuit captioned *I/P Engine, Inc. v. AOL, Inc.*, Civ. Action No. 2:11-cv-512, filed in United States District Court for the Eastern District of Virginia, Norfolk Division on September 15, 2011 (the “**Litigation**”) nor (B) assigned, promised, transferred, conveyed, encumbered, or granted a security interest in any of those claims and (ii) there has been no dismissal (including, without limitation, by motion to dismiss or summary judgment) of the Litigation;

For a more complete discussion of the conditions to the completion of the Merger, see the section entitled “The Merger Agreement — Conditions to the Completion of the Merger” beginning on page [97](#).

No Solicitation

Subject to certain exceptions described below, prior to the completion of the Merger or the earlier termination of the Merger Agreement, each of Vringo and Innovate/Protect has agreed that it will not, and it will not authorize or permit its subsidiaries and/or their respective officers, directors, employees, investment bankers, attorneys, accountants and other advisors or representatives to directly or indirectly: (a) solicit, initiate, induce or take any action to facilitate, encourage, solicit, initiate or induce any action relating to, or the submission of any Innovate/Protect Acquisition Proposal (as defined below) or Vringo Acquisition Proposal (as defined below), as the case may be; (b) enter into, participate or engage in discussions or negotiations in any way with any person concerning any Innovate/Protect Acquisition Proposal or Vringo Acquisition Proposal, as the case may be; (c) furnish to any person (other than the other party) any information relating to the other party or its subsidiaries or afford to any person (other than the other party) access to the business, properties, assets, books, records or other information, or to any personnel of the other party or its subsidiaries, with the intent to induce or solicit the making, submission or announcement of, or the intent to encourage or assist, an Innovate/Protect Acquisition Proposal or Vringo Acquisition Proposal, as the case may be or the making of any proposal that would reasonably be expected to lead to an Innovate/Protect Acquisition Proposal or Vringo Acquisition Proposal, as the case may be; (d) approve, enforce or recommend an Innovate/Protect Acquisition Proposal or Vringo Acquisition Proposal, as the case may be; (e) enter into any agreement in principle, letter of intent, term sheet, merger agreement, acquisition agreement or other similar instrument or contract relating to an Innovate/Protect Acquisition Proposal or a Vringo Acquisition Proposal, as the case may be, or requiring the other party to abandon or terminate the Merger Agreement; or (f) grant any approval pursuant to any “moratorium,” “control share acquisition,” “business combination,”

“fair price” or other form of anti-takeover law to any person or transaction (other than the Merger) or waiver or release any standstill or similar agreement with respect to the equity securities of the other party.

For a more complete discussion of the prohibition on solicitation of acquisition proposals from third parties, see the section entitled “The Merger Agreement — No Solicitation” beginning on page [95](#).

Termination of the Merger Agreement

Generally and except as specified below, the Merger Agreement may be terminated and the Merger may be abandoned at any time prior to the completion of the Merger, including after the required Vringo stockholder approval is obtained:

- by mutual written consent of Vringo, Merger Sub and Innovate/Protect; or
- by either party, if:
 - the Merger has not been completed on or before September 30, 2012;
 - any law enacted by a governmental authority prohibits the consummation of the Merger, or any governmental authority has issued an order prohibiting the consummation of the Merger;
 - after a vote duly taken, the required approval of the Vringo Merger Proposals by the respective stockholders of Vringo or Innovate/Protect has not been obtained at the respective stockholders meeting (or at any adjournment or postponement thereof), unless failure to obtain approval is attributable to a failure on the part of such party seeking to terminate the Agreement; or
 - subject to cure periods, the other party’s representations and warranties are inaccurate or the other party fails to comply with its covenants, in each case, such that the closing conditions relating to the accuracy of the other party’s representations and warranties or relating to the performance of the other party’s covenants, as applicable, would not be satisfied; or
- by Vringo, if:
 - at any time prior to the approval of the Merger by its stockholders, (i) the Innovate/Protect board of directors has effected a recommendation change, (ii) the Innovate/Protect board of directors or any authorized committee has failed to present or recommend the approval of the Merger Agreement and the Merger to the stockholders, (iii) Innovate/Protect shall have entered or cause itself or its subsidiaries to enter into any letter of intent, agreement in principle, term sheet, merger agreement, acquisition agreement or other similar agreement related to any Innovate/Protect Acquisition Proposal, or (iv) Innovate/Protect shall have breached any term of the non-solicitation provision of the Merger Agreement; or
- by Innovate/Protect, if:
 - at any time prior to the approval of the Vringo Merger Proposals, (i) the Vringo board of directors has effected a recommendation change (ii) the Vringo board of directors or any authorized committee has failed to present or recommend the approval of the Merger Agreement and the Merger to the stockholders, (iii) Vringo shall have entered or caused itself or its subsidiaries to enter into any letter of intent, agreement in principle, term sheet, merger agreement, acquisition agreement or other similar agreement related to any Vringo Acquisition Proposal or Vringo shall have breached any term of the non-solicitation provision of the Merger Agreement; or
 - by either Vringo or Innovate/Protect if prior to obtaining stockholder approval such party determines to enter into a definitive agreement relating to an Innovate/Protect Superior Proposal or Vringo Superior Proposal, as the case may be; or
 - by Innovate/Protect at any time, upon payment to Vringo of the Innovate/Protect termination fee.

For a more complete discussion of termination of the Merger Agreement, see the section entitled “The Merger Agreement — Termination of the Merger Agreement” beginning on page [98](#).

TABLE OF CONTENTS

Termination Fees and Expenses

Under certain circumstances, if the Merger is terminated by either Vringo or Innovate/Protect in connection with or due to Vringo entering into an alternate transaction constituting a superior proposal, then Vringo shall pay to Innovate/Protect, a fee equal to 5% of the consideration paid to all security holders of Vringo in connection with the Vringo Superior Proposal in the same form as such consideration is paid to such security holders.

For a more complete discussion of termination fees and expenses, see the section entitled “The Merger Agreement — Termination Fees and Expenses” beginning on page [98](#).

Voting by Vringo Directors and Executive Officers

As of _____, 2012, the latest practicable date before the printing of this proxy statement/prospectus, directors and executive officers of Vringo beneficially owned and were entitled to vote _____ shares of Vringo common stock, or approximately _____% of the total outstanding voting power of Vringo. It is expected that Vringo’s directors and executive officers will vote their shares FOR the approval of the Merger, although none of them has entered into any agreement requiring them to do so.

Rights of Innovate/Protect Stockholders Will Change as a Result of the Merger

Due to differences between the governing documents of Vringo and Innovate/Protect, Innovate/Protect stockholders receiving Vringo common stock and preferred stock in connection with the Merger will have different rights once they become Vringo stockholders. The material differences are described in detail under the section entitled “Comparison of Rights of Vringo Stockholders and Innovate/Protect Stockholders” beginning on page [198](#).

Risk Factors

The Merger, including the possibility that the Merger may not be completed, poses a number of risks to each company and its respective stockholders, including the following:

- the issuance of shares of Vringo common stock and preferred stock and warrants to the Innovate/Protect stockholders and warrant holder in connection with the Merger will substantially dilute the voting power of current Vringo stockholders;
- the announcement and pendency of the Merger could have an adverse effect on the Vringo stock price and/or the business, financial condition, results of operations, or business prospects for Vringo and/or Innovate/Protect;
- failure to complete the Merger or delays in completing the Merger could negatively impact Vringo’s and Innovate/Protect’s respective businesses, financial condition, or results of operations or the Vringo stock price;
- some of the directors and executive officers of Vringo and Innovate/Protect have interests in the Merger that are different from, or in addition to, those of the other Vringo and Innovate/Protect stockholders; and
- the Merger Agreement contains provisions that could discourage or make it difficult for a third party to acquire Vringo or Innovate/Protect prior to the completion of the Merger.

In addition, each of Vringo, Innovate/Protect, and the combined company is subject to various risks associated with its business. The risks are discussed in greater detail in the section entitled “Risk Factors” beginning on page [41](#). Vringo encourages you to read and consider all of these risks carefully.

SUMMARY UNAUDITED PRO FORMA COMBINED FINANCIAL DATA

The following summary unaudited pro forma combined financial data is intended to show how the Merger might have affected historical financial statements if the Merger had been completed on June 8, 2011, for the purposes of the statements of operations, and March 31, 2012, for the purposes of the balance sheet, and was prepared based on the historical financial statements and results of operations reported by Vringo and Innovate/Protect. The following should be read in conjunction with the section entitled “Unaudited Pro Forma Combined Financial Statements” beginning on page [189](#) and the audited historical financial statements of Vringo and Innovate/Protect and the notes thereto beginning on pages [F-1](#) and [F-52](#), respectively, the sections entitled “Vringo’s Management’s Discussion and Analysis of Financial Condition and Results of Operations” beginning on page [130](#) and “Innovate/Protect’s Management’s Discussion and Analysis of Financial Condition and Results of Operations” beginning on page [157](#), and the other information contained in this proxy statement/prospectus. The following information does not give effect to the proposed reverse stock split of Vringo common stock described in Vringo Proposal No. 2.

Accounting Treatment of the Merger

U.S. Generally Accepted Accounting Principles (hereafter — GAAP), require that for each business combination, one of the combining entities shall be identified as the acquirer, and the existence of a controlling financial interest shall be used to identify the acquirer in a business combination. In a business combination effected primarily by exchanging equity interests, the acquirer usually is the entity that issues its equity interests. However, it is sometimes not clear which party is the acquirer. In these situations, the acquirer for accounting purposes may not be the legal acquirer (i.e., the entity that issues its equity interest to effect the business combination).

If a business combination has occurred, but it is not clear which of the combining entities is the acquirer, GAAP requires considering additional factors in making that determination. No hierarchy is provided to explain how to assess factors that influence the identification of the acquirer in a business combination, effectively concluding that no one of the criteria is more significant than any other. However, the more significant the differential in the voting interest of the combining entities, the more difficult it is to conclude that the entity with the largest voting interest is not the acquirer.

Based on the aforementioned, and after taking in consideration all relevant facts and circumstances (which included, among others, the composition of the senior management and the governing body of the combined entity, relative size of the entities prior to the Merger), we came to a conclusion that, in light of the significant differential in the voting interest of the combining entities (both on current holdings basis and on diluted basis), Innovate/Protect is the accounting acquirer, as it is defined in FASB Topic ASC 805 “*Business Combinations*”.

As a result, the Merger will be accounted for as a reverse acquisition. In the post-combination consolidated financial statements, Innovate/Protect’s assets and liabilities will be presented at its pre-combination amounts, and Vringo’s assets and liabilities will be recorded and measured at fair value. In addition, the consolidated equity will reflect Vringo’s common and preferred stock, at par value, as Vringo is the legal acquirer. The total consolidated equity will consist of Innovate/Protect’s equity just before the merger, plus the fair value of assumed assets of Vringo, net, as well as, adjustments to equity caused by the consummation of the Merger, as per the guidance for business combinations in ASC 805.

The unaudited pro forma combined financial statements were prepared in accordance with the regulations of the SEC. The pro forma adjustments reflecting the completion of the Merger are based upon the acquisition method of accounting in accordance with GAAP, and upon the assumptions set forth in the notes to the unaudited pro forma combined financial statements.

The summary unaudited pro forma combined balance sheet as of March 31, 2012 combines the historical balance sheets of Vringo and Innovate/Protect as of March 31, 2012 and gives pro forma effect to the Merger as if it had been completed on March 31, 2012.

[TABLE OF CONTENTS](#)

The summary unaudited pro forma statements of operations for the periods from June 8, 2011 through December 31, 2011 and from January 1, 2012 to March 31, 2012 combine the historical statements of operations of Vringo for the periods from June 8, 2011 to December 31, 2011 and from January 1, 2012 to March 31, 2012, and of Innovate/Protect from inception (June 8, 2011) to December 31, 2011 and from January 1, 2012 to March 31, 2012 and gives pro forma effect to the Merger as if it had been completed on June 8, 2011.

The historical financial data has been adjusted to give pro forma effect to events that are (i) directly attributable to the Merger, (ii) factually supportable, and (iii) with respect to the statements of operations, expected to have a continuing impact on the combined results. The pro forma adjustments are preliminary and based on management's estimates of the fair value and useful lives of the assets acquired and liabilities assumed and have been prepared to illustrate the estimated effect of the acquisition and certain other adjustments.

The unaudited pro forma combined financial statements are presented for illustrative purposes only, and are not necessarily indicative of the financial condition or results of operations of future periods or the financial condition or results of operations that actually would have been realized had the entities been combined during the periods presented. In addition, as explained in more detail in the accompanying notes to the unaudited pro forma combined financial statements (see the section entitled "Unaudited Pro Forma Combined Financial Statements" beginning on page 189), the preliminary acquisition-date fair value of the identifiable assets acquired and liabilities assumed reflected in the unaudited pro forma combined financial statements is subject to adjustment and may vary from the actual amounts that will be recorded upon completion of the Merger.

Notes to the Unaudited Pro Forma Consolidated Statements of Operations and Balance Sheet:

1. This pro-forma adjustment represents additional amortization expense, recorded in connection with amortizable intangible assets acquired in the Merger, assuming the acquisition of Vringo occurred on June 8, 2011:

	<u>Gross carrying amount</u>	<u>Life</u>	<u>Period from June 8, 2011 through December 31, 2011</u>

For these pro forma consolidated statements of operations, we assume that there was no sign of impairment of goodwill, throughout the period presented. In addition, we assume that the purchase price allocated to the fair value of outstanding warrants granted by Vringo prior to the Merger did not change over the presented period.

2. Amortization and depreciation, startup and capital acquisition costs, were reclassified into general and administrative:

3. According to GAAP, the consolidated pro forma equity will reflect Vringo's common stock and preferred stock, at par value, as Vringo is the legal acquirer. Shares used to calculate unaudited pro forma basic and diluted loss per share were computed by adding the shares assumed to be issued, to the weighted average number of shares outstanding for the period from June 8, 2011 through December 31, 2011. However, as the combined company generated only losses in the period presented, potentially dilutive securities, comprised mainly of the abovementioned preferred shares, warrants and stock options, were not reflected in pro forma diluted net loss per share, because the effect of conversion of such shares is anti-dilutive.

3. According to GAAP, the consolidated pro forma equity will reflect Vringo's common stock and preferred stock, at par value, as Vringo is the legal acquirer. Shares used to calculate unaudited pro forma basic and diluted loss per share were computed by adding the shares assumed to be issued, to the weighted average number of shares outstanding for the three month period ended March 31, 2012. However, as the combined company generated only losses in the period presented, potentially dilutive securities, comprised mainly of the abovementioned preferred shares, warrants and stock options, were not reflected in pro forma diluted net loss per share, because the effect of conversion of such shares is anti-dilutive.

Denominator:	
Weighted average of Vringo common stock shares, outstanding for the period:	12,371,472
Weighted average of Vringo common stock shares issued to former Innovate/Protect stockholders, outstanding for the period:	18,113,169
Total common stock shares outstanding, after the Merger:	<u>30,484,641</u>
Basic and diluted net losses per share of common stock:	<u>(0.26)</u>

4. This adjustment represents direct, incremental costs of this Merger, which were not yet reflected in the historical financial statements of either company. These costs include mainly legal, accounting and filing fees.
5. According to the Merger Agreement, Vringo will grant former Innovate/Protect stockholders 16,809,838 warrants, at an exercise price of \$1.76. 8,741,116 of these warrants bear down-round protection clauses; as a result, they will be classified as a long term derivative liability and recorded at fair value. Fair value, in the total amount of \$21.7 million, was calculated using the Black-Scholes-Merton and the Monte-Carlo models, using the following assumptions: 77.96% expected volatility, a risk-free interest rate of 0.77%, estimated life of 5 years and no dividend yield. The fair value of our common stock, used for this valuation, was \$3.39. We estimate there is a 30% probability that the down-round protection will be activated. Our valuation may significantly change, dependent on the deviation of actual future parameters (primarily our common stock price, that will be known on the date of the Merger), from those taken in our preliminary valuation. In these consolidated pro forma statements of operations we assume that fair value of these warrants did not change throughout the period presented.
6. The Series A Convertible Preferred stock shares, both pre and post-Merger, have certain liquidation preferences, and are otherwise convertible, at any time, at the option of the holder, subject to certain limitations. In addition, their conversion price may be subject to adjustments for anti-dilution and other corporate events. Also, under certain circumstances (as defined in the Certificate of Designations in each of the merging companies), these shares are entitled to participate in dividends, and vote, on an as converted basis.

The 6,818 outstanding Series A Convertible Preferred stock shares, \$0.0001 par value, issued by Innovate/Protect were classified as mezzanine equity, as the holder had the right to require the Company to redeem these shares in cash, upon occurrence of a triggering event which is outside the control of the company. The 6,818 Series A Convertible Preferred stock shares, \$0.01 par value, to be issued by Vringo to former stockholders of Innovate/Protect, as part of this Merger, were classified as equity, as cash based redemption event is only triggered by events fully controlled by the company. As a result, in these pro forma consolidated financial statements, Innovate/Protect's mezzanine equity, in the total amount of \$1,761 thousand, was cancelled, as, according to GAAP, these pro forma consolidated financial statements will only include the 6,818 Series A Convertible Preferred stock, presented at par value.

[TABLE OF CONTENTS](#)

7. According to GAAP, the equity of the combined entity will reflect Vringo's common and preferred stock, at par value, as Vringo is the legal acquirer. As a result, the common stock share number will be adjusted to include Vringo's common stock shares, immediately after the merger:

	As of March 31, 2012
Vringo common stock outstanding as of March 31, 2012	13,866,423
Vringo common stock issued to former Innovate/Protect stockholders	18,113,169
Total common stock outstanding, pursuant to the Merger	31,979,592

8. According to GAAP, in the post-combination consolidated financial statements, equity will reflect Innovate/Protect's total equity just before the merger, plus the fair value of assumed assets of Vringo, net, as well as adjustments to equity caused by the consummation of the Merger (notes 4, 5 and 6). Specifically, in these consolidated pro forma financial statements, accumulated deficit will include only Innovate/Protect's historical deficit, in the total amount of \$4,626 thousand, plus adjustments reflected in Note 4. Vringo's historical deficit, in the total amount of \$43,190 thousand, will be cancelled upon consolidation. Finally, an adjustment to additional paid-in capital, in the total amount of \$15,237 thousand was recorded, in order to adjust the total consolidated equity, as per the abovementioned GAAP requirements.

records and on publicly available filings made with the SEC by or on behalf of the stockholders listed below and on Innovate/Protect's stock ledger. Unless otherwise indicated in the footnotes, the address for each listed stockholder is: c/o Innovate/Protect, Inc., 380 Madison Avenue, 22nd Floor, New York, New York 10017.

Percentage of beneficial ownership is calculated based on 14,060,424 shares of Vringo common stock outstanding as of May 25, 2012 and 12,592,661 shares of Innovate/Protect capital stock outstanding as of May 25, 2012 (which includes 6,673 shares of preferred stock and 5,919,661 shares of common stock). The percent of common stock of the combined company is based on 32,173,593 shares of common stock of the combined company outstanding upon completion of the Merger and assumes that the Exchange Ratio to be used in connection with the Merger is approximately 3.0176 shares of Vringo common stock for each share of Innovate/Protect capital stock (without giving effect to the proposed reverse stock split described elsewhere in this proxy statement/prospectus). Shares of Vringo common stock subject to stock options that are currently exercisable or exercisable within 60 days after May 25, 2012 are treated as outstanding and beneficially owned by the holder of such options for the purpose of computing the percentage ownership of the combined company's common stock of such holder, but are not treated as outstanding for the purpose of computing the percentage ownership of the combined company's common stock of any other stockholder. Shares of Innovate/Protect common stock subject to options or warrants that are currently exercisable or exercisable within 60 days of May 25, 2012 are treated as outstanding and beneficially owned by the holder of such options for the purpose of computing the percentage ownership of the combined company's common stock of such holder, but are not treated as outstanding for the purpose of computing the percentage ownership of the combined company's common stock of any other stockholder. Unless otherwise indicated, Vringo and Innovate/Protect believe that each of the persons named in this table has sole voting and investment power with respect to all shares shown as beneficially owned by them.

In accordance with the Certificate of Designations, Preferences and Rights of Series A Convertible Preferred Stock with respect to the Vringo preferred stock to be filed by Vringo prior to the consummation of the Merger and the terms of the Vringo warrants to be received in connection with the Merger, Hudson Bay may not convert any of the Vringo preferred stock or exercise its warrants to purchase Vringo common stock to the extent that after giving effect to such conversion or exercise, as the case may be, Hudson Bay (together with its affiliates) would have acquired, through conversion of Vringo preferred stock, exercise of Vringo warrants or otherwise, beneficial ownership of a number of shares of Vringo common Stock that exceeds 9.99% of the number of shares of Vringo common stock outstanding immediately after giving effect to such conversion, excluding for purposes of such determination, shares of Vringo common stock issuable upon conversion of the Vringo preferred stock or exercise of the Vringo warrants that have not been converted or exercised. Consequently, Iroquois Capital has voting control and investment discretion over securities held by IMF. As managing members of Iroquois Capital, Joshua Silverman and Richard Abbe make voting and investment decisions on behalf of Iroquois Capital in its capacity as investment manager to IMF. As a result of the foregoing, Messrs. Silverman and Abbe may be deemed to have beneficial ownership (as determined under Section 13(d) of the Exchange Act) of the securities held by IMF. Notwithstanding the foregoing, Messrs. Silverman and Abbe disclaim such beneficial ownership.
- (7) Does not include options, warrants or other convertible securities held by the principal stockholders.

Because the market price of Vringo common stock is subject to fluctuation, the market value of the shares of Vringo common stock that holders of Innovate/Protect capital stock will receive in the Merger may increase or decrease. The foregoing information reflects only historical information.

Following the completion of the Merger and successful reapplication to the NYSE Amex for initial inclusion of the Vringo common stock on the NYSE Amex, the common stock of Vringo, including the shares of Vringo common stock issued to Innovate/Protect stockholders in connection with the Merger, will continue to be listed on the NYSE Amex.

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

This proxy statement/prospectus and the other documents referred to in this proxy statement/prospectus contain or may contain forward-looking statements of Vringo within the meaning of Section 21E of the Exchange Act, which is applicable to Vringo but not to Innovate/Protect because Vringo, unlike Innovate/Protect, is a public company subject to the reporting requirements of the Exchange Act. For this purpose, any statements contained herein, other than statements of historical fact, may be forward-looking statements under the provisions of the Private Securities Litigation Reform Act of 1995. Such statements can be identified by the fact that they do not relate strictly to historical or current facts. Statements that include words such as may, will, project, might, expect, believe, anticipate, intend, could, would, estimate, continue or pursue or the negative of these words or other words or expressions of similar meaning may identify forward-looking statements. These forward-looking statements are found at various places throughout this proxy statement/prospectus and the other documents referred to and relate to a variety of matters, including but not limited to (i) the timing and anticipated completion of the Merger, (ii) the benefits expected to result from the Merger, (iii) the anticipated business of the combined company following the completion of the Merger, and (iv) other statements that are not purely statements of historical fact. These forward-looking statements are made on the basis of the current beliefs, expectations, and assumptions of management are not guarantees of performance and are subject to significant risks and uncertainty. These forward-looking statements should, therefore, be considered in light of various important factors, including those set forth in this proxy statement/prospectus and those that are referred to in this proxy statement/prospectus. Important factors that could cause actual results to differ materially from those described in forward-looking statements contained herein include, but are not limited to:

- the expected timetable for completing the transaction;
- the potential value created by the Merger for Vringo's and Innovate/Protect's stockholders;
- the potential of the combined company's technology platform;
- the respective or combined ability to raise capital to fund the combined operations and business plan;
- the continued listing of Vringo's or the combined company's securities on the NYSE Amex;
- market acceptance of Vringo products;
- the collective ability to protect intellectual property rights;
- competition from other providers and products;
- the ability to license and monetize the patents owned by Innovate/Protect, including the outcome of the Litigation against online search firms and other companies; and
- the combined company's management and board of directors.

In addition to the risk factors identified elsewhere, various important risks and uncertainties affecting each of Vringo and Innovate/Protect may cause the actual results of the combined company to differ materially from the results indicated by the forward-looking statement in this proxy statement/prospectus, including without limitation:

- the financial condition, financing requirements, prospects and cash flow of Vringo and Innovate/Protect;
- expectations regarding potential growth;
- the inability to have Vringo securities listed for trading on the NYSE Amex or another national securities exchange;
- the loss of strategic relationships;
- competitive position;
- introduction and proliferation of competitive products;

TABLE OF CONTENTS

- changes in technology;
- the inability to achieve sustained profitability;
- failure to implement short- or long-term growth strategies;
- decrease in the market price for the securities;
- the cost of retaining and recruiting key personnel or the loss of such key personnel;
- compliance with applicable laws;
- ability to maintain or protect the validity of patents and other intellectual property;

You are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date of this proxy statement/prospectus or, in the case of documents referred to in this proxy statement/prospectus, as of the date of those documents. Vringo disclaims any obligation to publicly update or release any revisions to these forward-looking statements, whether as a result of new information, future events or otherwise, after the date of this proxy statement/prospectus or to reflect the occurrence of unanticipated events, except as required by law.

RISK FACTORS

In addition to the other information included and referred to in this proxy statement/prospectus, including the matters addressed in the section entitled “Cautionary Statement Regarding Forward-Looking Statements” beginning on page 39, you should carefully consider the following risk factors before deciding how to vote your shares of Vringo common stock at the Vringo annual meeting. These factors should be considered in conjunction with the other information included by Vringo in this proxy statement/prospectus. If any of the risks described below or referred to in this proxy statement/prospectus actually materialize, the business, financial condition, results of operations, or prospects of Vringo, Innovate/Protect, and/or the combined company, or the stock price of Vringo and/or the combined company, could be materially and adversely affected.

Risks Related to the Merger

The issuance of Vringo’s securities to Innovate/Protect security holders in connection with the Merger will substantially dilute the voting power of current Vringo stockholders.

Pursuant to the terms of the Merger Agreement, it is anticipated that Vringo will issue to Innovate/Protect common and preferred stockholders shares of Vringo common stock and Vringo preferred stock, and warrants to purchase shares of Vringo common stock. After such issuance (without taking into account any shares of Vringo common stock held by Innovate/Protect stockholders prior to the completion of the Merger), the stockholders of Innovate/Protect are expected to own approximately 56.30% of the outstanding common stock of the combined company (or 67.55% of the outstanding common stock of the combined company calculated on a fully diluted basis) and the stockholders of Vringo are expected to own approximately 43.70% of the outstanding common stock of the combined company (or 32.45% of the outstanding common stock of the combined company calculated on a fully diluted basis). Accordingly, the issuance of shares of Vringo common stock to Innovate/Protect stockholders in connection with the Merger will significantly reduce the relative voting power of each share of Vringo common stock held by current Vringo stockholders.

The announcement and pendency of the Merger could have an adverse effect on the business prospects for Vringo and/or Innovate/Protect and on Vringo’s stock price and/or business, financial condition or results of operations.

While there have been no significant adverse effects to date, the announcement and pendency of the Merger could disrupt Vringo’s and/or Innovate/Protect’s prospective and current businesses in the following ways, among others:

- third parties, including customers, suppliers and operators, may seek to terminate and/or renegotiate their relationships with Vringo or Innovate/Protect or decide not to conduct business with either Vringo or Innovate/Protect as a result of the Merger, whether pursuant to the terms of their existing agreements with Vringo and/or Innovate/Protect or otherwise. For example, Google, Inc. who was named as a defendant in the Litigation, may decline to conduct any business with Vringo or may seek to assert patent litigation claims against Vringo; and
- the attention of Vringo and/or Innovate/Protect management may be directed toward the completion of the Merger and related matters and may be diverted from the day-to-day business operations of their respective companies, including from other opportunities that might otherwise be beneficial to Vringo or Innovate/Protect.

Should they occur, any of these matters could adversely affect the stock price of Vringo or harm the financial condition, results of operations, or business prospects of Vringo, Innovate/Protect, and/or the combined company.

Failure to complete the Merger or delays in completing the Merger could negatively impact Vringo’s business, financial condition, or results of operations or Vringo’s stock price.

The completion of the Merger is subject to a number of conditions and there can be no assurance that the conditions to the completion of the Merger will be satisfied at all or satisfied in a timely manner. If the Merger is not completed or delayed, Vringo will be subject to several risks, including:

- the current trading price of Vringo common stock may reflect a market assumption that the Merger will occur, meaning that a failure to complete the Merger or delays in completing the Merger could result in a decline in the price of Vringo common stock;
- certain executive officers and/or directors of Vringo or Innovate/Protect may seek other employment opportunities, and the departure of any of Vringo’s or Innovate/Protect’s executive officers and the possibility that Vringo would be unable to recruit and hire experienced executives could negatively impact Vringo’s future business;
- the Vringo board of directors will need to reevaluate Vringo’s strategic alternatives, such alternatives will include other merger and acquisition opportunities and/or additional financing necessary to ensure that Vringo will continue to operate as a going concern;
- Vringo may be delisted from the NYSE Amex for failure to comply with NYSE Amex requirements related to minimum stockholders’ equity;
- Under certain circumstances, if the Merger is terminated by either Vringo or Innovate/Protect in connection with or due to Vringo entering into an alternate transaction constituting a superior proposal, then Vringo is required to pay to Innovate/Protect a fee equal to 5% of the consideration paid to all security holders of Vringo in connection with such superior proposal in the same form as such consideration is paid to such security holders;
- Vringo is expected to incur substantial transaction costs in connection with the Merger whether or not the Merger is completed; and
- Vringo would not realize any of the anticipated benefits of having completed the Merger.

If the Merger is not completed, these risks may materialize and materially and adversely affect Vringo’s business, financial condition, results of operations, and Vringo’s stock price.

Any delay in completing the Merger may substantially reduce the benefits that Vringo expects to obtain from the Merger.

In addition to obtaining the approval of the stockholders of each of Vringo and Innovate/Protect for the consummation of the Merger, the Merger is subject to a number of other conditions beyond the control of Vringo that may prevent, delay, or otherwise materially adversely affect its completion. Vringo cannot predict whether or when the conditions required to complete the Merger will be satisfied. The requirements for satisfying the closing conditions could delay the completion of the Merger for a significant period of time or prevent it from occurring. Any delay in completing the Merger may materially adversely affect the benefits that Vringo expects to achieve if the Merger and the integration of the companies’ respective businesses are completed within the expected timeframe.

NYSE Amex considers the anticipated Merger a “reverse merger” and therefore has required that Vringo submit a new listing application, which requires certain actions on the part of the combined company which may not be successful and, if unsuccessful, could make it more difficult for holders of shares of the combined company to sell their shares.

NYSE Amex considers the Merger proposed in this proxy statement/prospectus a “reverse merger” and has required that Vringo submit a new listing application. NYSE Amex may not approve Vringo’s new listing application for the NYSE Amex on a timely basis, or at all. If this occurs and the Merger is still completed, you may have difficulty converting your investments into cash effectively.

[TABLE OF CONTENTS](#)

Additionally, as part of the new listing application, Vringo may be required to submit, among other things, a plan for the combined company to conduct a reverse stock split. A reverse stock split would likely increase the per share trading price by an as yet undetermined multiple. The change in share price may affect the volatility and liquidity of the combined company's stock, as well as the marketplace's perception of the stock. As a result, the relative price of the combined company's stock may decline and/or fluctuate more than in the past, and you may have trouble converting your investments in the combined company into cash effectively.

Some of the directors and executive officers of Vringo have interests in the Merger that are different from, or in addition to, those of the other Vringo stockholders.

When considering the recommendation by the Vringo board of directors that the Vringo stockholders vote "for" each of the Vringo Merger Proposals, Vringo's stockholders should be aware that certain of the directors and executive officers of Vringo have arrangements that provide them with interests in the Merger that are different from, or in addition to, those of the stockholders of Vringo.

For instance, in connection with the Merger, (i) each of Seth M. Siegel, Andrew D. Perlman and John Engelman, each a current director of the Vringo board of directors, will continue to serve as a director of the combined company following the completion of the Merger, and the remaining directors of Vringo will resign, effective as of the completion of the Merger, (ii) Andrew D. Perlman and Ellen Cohl, currently executive officers of Vringo, will remain executive officers of the combined company following the completion of the Merger, (iii) upon the change of control in connection with the consummation of the Merger, there will be a one year acceleration of option vesting for option holders for option grants prior to the consummation of the Merger, except for Andrew D. Perlman who will be entitled to 50% acceleration for all of his unvested options granted to him prior to him becoming Chief Executive Officer of Vringo; and (iv) directors of Vringo, other than Mr. Perlman, departing within six months from a subsequent change of control would receive full acceleration of vesting for any unvested options and extension of the termination period for option exercises to one year from cessation of board service.

In addition, the directors and executive officers of Vringo also have certain rights to indemnification and to directors' and officers' liability insurance that will be provided by the combined company following the completion of the Merger. See the sections entitled "The Merger — Interests of Vringo Directors and Executive Officers in the Merger" beginning on page [82](#).

On March 11, 2012, in connection with the appointment of Andrew D. Perlman as Chief Executive Officer, the Vringo board of directors approved an increase in Mr. Perlman's salary to \$250,000 per year and the payment of severance for one year in the event he is no longer the Chief Executive Officer in connection with a change of control. In addition, the Vringo board of directors approved the grant of options to purchase 450,000 shares at an exercise price of \$1.65 per share. Vringo and Mr. Perlman expect to enter into an amendment to his employment agreement to memorialize the foregoing terms.

The Vringo board of directors was aware of and considered these interests, among other matters, in evaluating and negotiating the Merger Agreement and in recommending that Vringo stockholders approve the Vringo Merger Proposals.

The Merger Agreement contains provisions that could discourage or make it difficult for a third party to acquire Vringo prior to the completion of the Merger.

The Merger Agreement contains provisions that make it difficult for Vringo to entertain a third-party proposal for an acquisition of Vringo. These provisions include the general prohibition on Vringo's soliciting or engaging in discussions or negotiations regarding any alternative acquisition proposal. In addition, under certain circumstances, if the Merger is terminated by either Vringo or Innovate/Protect in connection with or due to Vringo entering into an alternate transaction constituting a superior proposal, then Vringo is required to pay to Innovate/Protect a fee equal to 5% of the consideration paid to all security holders of Vringo in connection with such superior proposal in the same form as such consideration is paid to such security holders. See the sections entitled "The Merger Agreement — No Solicitation," "The Merger Agreement — Board Recommendations" and "The Merger Agreement — Termination Fees and Expenses" beginning on pages [95](#), [96](#), and [98](#), respectively.

[TABLE OF CONTENTS](#)

These provisions might discourage an otherwise interested third party from considering or proposing an acquisition of Vringo, even one that may be deemed of greater value than the Merger to Vringo stockholders.

Innovate/Protect can terminate the Merger Agreement for any reason or no reason upon payment of a termination fee and Vringo will have no recourse against Innovate/Protect.

Pursuant to the Merger Agreement, Innovate/Protect can terminate the Merger Agreement, at any time, for any reason or no reason, upon payment to Vringo of a termination fee equal to \$5,000,000. Vringo will have no recourse against Innovate/Protect other than receiving such termination fee and would not realize any of the anticipated benefits of having completed the Merger.

If the Merger does not qualify as a “reorganization” under Section 368(a) of the Code, the stockholders of Innovate/Protect may be required to pay substantial U.S. federal income taxes as a result of the Merger as would Innovate/Protect.

Vringo and Innovate/Protect intend that the Merger will qualify as a “reorganization” under Section 368(a) of the Code. Vringo and Innovate/Protect currently anticipate that the U.S. holders of shares of Innovate/Protect capital stock generally will not recognize taxable gain or loss as a result of the Merger. However, neither Vringo nor Innovate/Protect has requested, or intends to request, a ruling from the Internal Revenue Service (the “IRS”) with respect to the tax consequences of the Merger, and there can be no assurance that the companies’ position would be sustained if challenged by the IRS. Accordingly, if there is a final determination that the Merger does not qualify as a “reorganization” under Section 368(a) of the Code and is taxable for U.S. federal income tax purposes, Innovate/Protect stockholders generally would recognize taxable gain or loss on their receipt of equity securities of Vringo in connection with the Merger equal to the difference between such stockholder’s adjusted tax basis in their shares of Innovate/Protect capital stock and the fair market value of the equity securities of Vringo. Moreover, Innovate/Protect would recognize gain on the net appreciation in its assets since it would be deemed to have sold all of its assets in a taxable sale to Merger Sub. For a more complete discussion of the material U.S. federal income tax consequences of the Merger, see the section entitled “Material U.S. Federal Income Tax Consequences of the Merger” beginning on page [86](#).

Litigation may be instituted against Vringo, members of the Vringo board of directors, Innovate/Protect, members of the Innovate/Protect board of directors, and Merger Sub challenging the Merger and adverse judgments in these lawsuits may prevent the Merger from becoming effective within the expected timeframe or at all.

Vringo, members of the Vringo board of directors, Innovate/Protect, members of the Innovate/Protect board of directors, and Merger Sub may be named as defendants in class action lawsuits to be brought by Vringo or Innovate/Protect stockholders challenging the Merger. If the plaintiffs in these potential cases are successful, they may prevent the parties from completing the Merger in the expected timeframe, if at all. Even if the plaintiffs in these potential actions are not successful, the costs of defending against such claims could adversely affect the financial condition of Vringo or Innovate/Protect.

Risks Related to the Combined Company if the Merger Is Completed

The failure to integrate successfully the businesses of Vringo and Innovate/Protect in the expected timeframe could adversely affect the combined company’s future results following the completion of the Merger.

The success of the Merger will depend, in large part, on the ability of the combined company following the completion of the Merger to realize the anticipated benefits from combining the businesses of Vringo and Innovate/Protect.

The failure to integrate successfully and to manage successfully the challenges presented by the integration process may result in the combined company’s failure to achieve some or all of the anticipated benefits of the Merger.

TABLE OF CONTENTS

Potential difficulties that may be encountered in the integration process include the following:

- using the combined company's cash and other assets efficiently to develop the business of the combined company;
- appropriately managing the liabilities of the combined company;
- potential unknown or currently unquantifiable liabilities associated with the Merger and the operations of the combined company;
- potential unknown and unforeseen expenses, delays or regulatory conditions associated with the Merger; and
- performance shortfalls at one or both of the companies as a result of the diversion of management's attention caused by completing the Merger and integrating the companies' operations.

Vringo may not realize the potential value and benefits created by the Merger.

The success of the Merger will depend, in part, on Vringo's ability to realize the expected potential value and benefits created from integrating Vringo's existing business with Innovate/Protect's business, which includes the maximization of the economic benefits of the combined company's intellectual property portfolio. The integration process may be complex, costly, and time-consuming. The difficulties of integrating the operations of Innovate/Protect's business could include, among others:

- failure to implement Vringo's business plan for the combined business;
- unanticipated issues in integrating the business of both companies;
- potential lost sales and customers if any customer of Vringo decides not to do business with Vringo after the Merger;
- loss of key employees with knowledge of Vringo's historical business and operations;
- unanticipated changes in applicable laws and regulations; and
- other unanticipated issues, expenses, or liabilities that could impact, among other things, Vringo's ability to realize any expected benefits on a timely basis, or at all.

Vringo may not accomplish the integration of Innovate/Protect's business smoothly, successfully, or within the anticipated costs or time frame. The diversion of the attention of management from Vringo's current operations to the integration effort and any difficulties encountered in combining businesses could prevent Vringo from realizing the full expected potential value and benefits to result from the Merger and could adversely affect its business. In addition, the integration efforts could divert the focus and resources of the management of Vringo and Innovate/Protect from other strategic opportunities and operational matters during the integration process.

The combined company will be dependent on certain key personnel, and the loss of these key personnel could have a material adverse effect on the combined company's business, financial conditions and results of operations.

The success and future prospects of the combined company largely depend on the skills, experience and efforts of its key personnel, including Andrew D. Perlman, Vringo's current Chief Executive Officer and President, and Andrew Kennedy Lang, Innovate/Protect's Chief Executive Officer, Chief Technology Officer and President. The loss of Messrs. Perlman or Lang or other executives of the combined company, or the combined company's failure to retain other key personnel, would jeopardize the combined company's ability to execute its strategic plan and materially harm its business.

The Merger will result in changes to the Vringo board of directors and the combined company may pursue different strategies than either Vringo or Innovate/Protect may have pursued independently.

If the parties complete the Merger, the composition of the Vringo board of directors will change in accordance with the Merger Agreement. Following the completion of the Merger, the combined company's board of directors will consist of seven members, including Seth M. Siegel, as Chairman, Andrew D. Perlman, John Engelman, all of whom are currently members of the Vringo board of directors, and Andrew Kennedy Lang, Alexander R. Berger, Donald E. Stout and H. Van Sinclair, all of whom are currently members of the Innovate/Protect board of directors. Currently, it is anticipated that the combined company will maximize the economic benefits of its intellectual property portfolio, add significant talent in technological innovation and potentially enhance its opportunities for revenue generation through the monetization of the combined company's assets. However, because the composition of the board of directors of the combined company will consist of directors from both Vringo and Innovate/Protect, the combined company may determine to pursue certain business strategies that neither Vringo nor Innovate/Protect would have pursued independently.

Ownership of the combined company's common stock may be highly concentrated, and it may prevent you and other stockholders from influencing significant corporate decisions and may result in conflicts of interest that could cause the combined company's stock price to decline.

Upon completion of the Merger, Vringo's and Innovate/Protect's executive officers and directors continuing with the combined company and are expected to beneficially own or control approximately 40.6% of the combined company (see the sections entitled "Vringo Security Ownership of Certain Beneficial Owners and Management" beginning on page 179, "Innovate/Protect Security Ownership of Certain Beneficial Owners and Management" beginning on page 181 and "Security Ownership of Certain Beneficial Owners and Management of the Combined Company Following the Merger" beginning on page 183 for more information on the estimated ownership of the combined company following the Merger). Accordingly, these executive officers and directors, acting individually or as a group, will have substantial influence over the outcome of a corporate action of the combined company requiring stockholder approval, including the election of directors, any merger, consolidation or sale of all or substantially all of the combined company's assets or any other significant corporate transaction. These stockholders may also exert influence in delaying or preventing a change in control of the combined company, even if such change in control would benefit the other stockholders of the combined company. In addition, the significant concentration of stock ownership may adversely affect the market value of the combined company's common stock due to investors' perception that conflicts of interest may exist or arise.

The success of the combined company will depend in part on relationships with third parties, which relationships may be affected by third-party preferences or public attitudes about the Merger. Any adverse changes in these relationships could adversely affect the combined company's business, financial condition, or results of operations.

The combined company's success will be dependent on its ability to maintain and renew the business relationships of both Vringo and Innovate/Protect and to establish new business relationships. There can be no assurance that the management of the combined company will be able to maintain such business relationships, or enter into or maintain new business contracts and other business relationships, on acceptable terms, if at all. The failure to maintain important business relationships could have a material adverse effect on the business, financial condition, or results of operations of the combined company.

Future results of the combined company may differ materially from the unaudited pro forma financial statements presented in this proxy statement/prospectus and the financial forecasts prepared by Vringo and Innovate/Protect in connection with discussions concerning the Merger.

The future results of the combined company may be materially different from those shown in the unaudited pro forma combined financial statements presented in this proxy statement/prospectus, which show only a combination of the historical results of Vringo and Innovate/Protect prepared by Vringo and Innovate/Protect in connection with discussions concerning the Merger. Vringo expects to incur significant costs associated with the completion of the Merger and combining the operations of the two companies. The exact magnitude of these costs are not yet known, but are estimated to be approximately \$_____ million.

TABLE OF CONTENTS

Furthermore, these costs may decrease the capital that the combined company could use for continued development of the combined company's business in the future or may cause the combined company to seek to raise new capital sooner than expected.

The combined company will require additional capital to support its present business plan and its anticipated business growth, and such capital may not be available on acceptable terms, or at all, which would adversely affect the combined company's ability to operate.

The combined company will require additional funds to further develop its business plan. Based on current operating plans of Vringo and Innovate/Protect, the current resources of the combined company are expected to be sufficient to fund its planned operations into the fourth quarter of 2012. Since it is impossible to predict the timing and amount of any recovery, if any, resulting from the Innovate/Protect Litigation, we anticipate that we will need to raise additional funds through equity offerings in order to meet our liquidity requirements in the second half of 2012. After taking into effect the Merger with Innovate/Protect, additional resources that may be required for the continuation of the combined operations approximates \$4.3 million and \$11.8 million, for the twelve month periods ending March 31, 2013 and March 31, 2014, respectively. Any such financing that Vringo undertakes will likely be dilutive to Vringo's current stockholders.

On June 1, 2012, Hudson Bay committed, subject to the terms and conditions of a commitment letter agreement, that, at any time within 18 months following the closing of the Merger and upon the request of Innovate/Protect, it, or, at its election, one or more of its affiliated funds or entities shall provide debt financing to Innovate/Protect in the aggregate principal amount of up to \$6,000,000. Hudson Bay's commitment shall be reduced, on a dollar for dollar basis, by (i) any cash or capital raised by any of the Vringo entities, including, without limitation, through the issuance of any debt, equity and/or securities convertible, exercisable or exchangeable into equity of any of the Vringo entities or the incurrence of indebtedness by any of the Vringo entities and (ii) any cash received by any Vringo entity in connection with the exercise of any of its outstanding warrants. Any such financing provided under such facility will be in the form of senior secured notes at an interest rate of the greater of (i) LIBOR plus 300 basis points and (ii) 8% per annum with a maturity of seven years after issuance. In addition, both Innovate/Protect and the holder of the notes will be able to require redemption of all or any portion of the Notes at any time after 18 months following the consummation of the Merger, subject to an interest make-whole through maturity. In addition to other covenants to be mutually agreed between Innovate/Protect and Hudson Bay, the Vringo entities will not spend cash during any calendar quarter while any notes are outstanding at a rate greater than the amount specified in the capital budget of Vringo and its subsidiaries, prepared on a combined basis, agreed to by Hudson Bay, without the prior written consent of Hudson Bay. The obligations of Hudson Bay or any of its affiliated funds under the commitment letter agreement will be subject to certain conditions set forth in the commitment letter agreement and will terminate as described below. Such obligations will be guaranteed by each of the Vringo entities and secured by a first priority lien on all assets of the Vringo entities. Although the combined company will have access to up to \$6,000,000 of financing under this facility if it meets the conditions to the commitment, it intends not to draw down any amounts under this facility and instead will attempt to raise additional capital through equity or equity-linked financings as well as through the exercise of its outstanding warrants.

The combined company intends to continue to make investments to support its business growth, including patent or other intellectual property asset creation. In addition, the combined company may also need additional funds to respond to business opportunities and challenges, including its ongoing operating expenses, protecting its assets, satisfying debt payment obligations, developing new lines of business and enhancing its operating infrastructure. While the combined company will need to seek additional funding, it may not be able to obtain financing on acceptable terms, or at all. In addition, the terms of the combined company's financings may be dilutive to, or otherwise adversely affect, holders of its common stock. The combined company may also seek additional funds through arrangements with collaborators or other third parties. The combined company may not be able to negotiate arrangements on acceptable terms, if at all. If the combined company is unable to obtain additional funding on a timely basis, it may be required to curtail or terminate some or all of its business plans.

TABLE OF CONTENTS

The Vringo preferred stock to be issued to the holders of Innovate/Protect preferred stock will have the powers, designations, preferences and other rights as will be set forth in a Certificate of Designations, Preferences and Rights of Series A Convertible Preferred Stock in the form attached to this proxy statement/prospectus as Annex E which is to be filed by Vringo prior to closing. The rights of the holders of Vringo preferred stock could adversely affect the combined company's ability to raise additional funds, in particular, the Vringo preferred stock contains a covenant prohibiting Vringo, for a period of 18 months following the closing, from incurring indebtedness senior to the Vringo preferred stock in excess of \$6 million in the aggregate (including the then outstanding principal amount of existing Innovate/Protect indebtedness); provided, that, this covenant shall not apply to indebtedness secured by assets of Vringo acquired after the closing in which the lender expressly subordinates to the holder of the Vringo preferred stock. In addition, in accordance with the terms and conditions of the Merger Agreement, Vringo may not currently incur any indebtedness without the consent of Innovate/Protect. As of May 31, 2012, the indebtedness of Vringo and Innovate/Protect were zero and \$3.2 million, respectively. Therefore, following the consummation of the Merger, Vringo may incur up to \$2.8 million of debt senior to the Vringo preferred stock without violating the provisions of the Vringo preferred stock (in addition to any amounts up to \$6,000,000 that may be drawn down by Innovate/Protect under the Hudson Bay debt facility).

The combined company's business and financial condition could be constrained by the debt incurred in connection with the Merger.

Innovate/Protect is obligated under a senior secured note payable to Hudson Bay with an outstanding balance of \$3,200,000 as of December 31, 2011. The senior secured note accrues interest at 0.46% per annum and matures on June 22, 2014. Hudson Bay has the option of requiring Innovate/Protect to redeem up to \$2,000,000 aggregate principal of the senior secured note beginning March 22, 2012. Pursuant to a letter agreement dated March 12, 2012, by and between Innovate/Protect and Hudson Bay, Hudson Bay agreed not to exercise its right of redemption until the earlier of (i) any termination of the Merger Agreement pursuant to the terms of the Merger Agreement or (ii) the effective time of the Merger; provided that if the Merger is consummated, the note will be amended and restated and the holder may exercise any and all rights and remedies pursuant to such amended and restated note delivered at the closing of the Merger, including with respect to any optional redemption provisions contained therein. If the Merger is consummated, the amended and restated note will mature on June 22, 2013 and the right of redemption described above will be amended to provide that, from and after the date upon which (i) Vringo and its subsidiaries has more than \$15,000,000 in the aggregate of cash and cash equivalents, Hudson Bay may require Vringo to redeem up to 50% of the outstanding principal amount of the note, (ii) Vringo and its subsidiaries has more than \$20,000,000 in the aggregate of cash and cash equivalents, Hudson Bay may require Vringo to redeem up to 100% of the outstanding principal of the Note, (iii) Vringo and its subsidiaries receives proceeds in excess of \$500,000 in the aggregate from the issuance of any equity or indebtedness, Hudson Bay may require Vringo to redeem the outstanding principal under the note in an amount equal to up to 20% of the proceeds of the issuance of any such equity or indebtedness. In addition, the amended and restated note shall provide that in the event of a change of control, Hudson Bay may require Vringo to redeem all or any portion of the note at a price in cash equal to 125% of the amount redeemed. Innovate/Protect has granted Hudson Bay a security interest in all of its tangible and intangible personal property (including the Lycos's patents) to secure its obligations under the senior secured note.

In addition, on June 1, 2012, Hudson Bay committed, subject to the terms and conditions of a commitment letter agreement, that, at any time within 18 months following the closing of the Merger and upon the request of Innovate/Protect, it or, at its election, one or more of its affiliated funds or entities shall provide debt financing to Innovate/Protect in the aggregate principal amount of up to \$6,000,000. Hudson Bay's commitment shall be reduced, on a dollar for dollar basis, as described above. Any such financing provided under such facility will be in the form of senior secured notes at an interest rate of the greater of (i) LIBOR plus 300 basis points and (ii) 8% per annum with a maturity of seven years after issuance. In addition, both Innovate/Protect and the holder of the notes will be able to require redemption of all or any portion of the Notes at any time after 18 months following the consummation of the Merger, subject to an interest make-whole through maturity. In addition to other covenants to be mutually agreed between Innovate/Protect and Hudson Bay, the Vringo entities will not spend cash during any calendar quarter while any notes

TABLE OF CONTENTS

are outstanding at a rate greater than the amount specified in the capital budget of Vringo and its subsidiaries, prepared on a combined basis, agreed to by Hudson Bay, without the prior written consent of Hudson Bay. The obligations of Hudson Bay or any of its affiliated funds under the commitment letter agreement will be subject to certain conditions set forth in the commitment letter agreement and will terminate automatically and immediately upon the earlier to occur of (a) the termination of the Merger Agreement pursuant to its terms, (b) any default under or acceleration prior to maturity of any indebtedness of any Vringo entity, (c) the failure of any Vringo entity to satisfy any of the conditions set forth in the commitment letter agreement, (d) any event, which, if occurring prior to the closing of the Merger, would have resulted in the failure of the conditions set forth in Section 6.2(f) (Litigation) and 6.2(j) (Patents) of the Merger Agreement to be satisfied, (e) upon written notice to terminate the commitment letter agreement delivered by Innovate/Protect to Hudson Bay or (f) 18 months after the consummation of the Merger.

In connection with the Merger, Vringo will guaranty the senior secured note and any financing drawn down under new facility. This could have a material adverse effect on the financial condition of Vringo following the Merger, including limiting Vringo's ability to incur additional indebtedness, limiting its available funds for future operations and making Vringo vulnerable to economic or industry downturns.

The price of Vringo common stock after the Merger is completed may be affected by factors different from those currently affecting the shares of Vringo.

Upon completion of the Merger, holders of Innovate/Protect capital stock will become holders of Vringo common stock and preferred stock. The business of Vringo differs from the business of Innovate/Protect and, accordingly, the results of operations of the combined company and the trading price of Vringo common stock following the completion of the Merger may be significantly affected by factors different from those currently affecting the independent results of operations of Vringo because the combined company will be conducting activities not undertaken by Vringo prior to the completion of the Merger. For a discussion of the businesses of Vringo and Innovate/Protect and of certain factors to consider in connection with those businesses, see the sections entitled "Vringo's Business," "Vringo's Management's Discussion and Analysis of Financial Condition and Results of Operations," "Innovate/Protect's Business," "Innovate/Protect's Management's Discussion and Analysis of Financial Condition and Results of Operations," and the financial statements of Vringo and Innovate/Protect, including the notes thereto, which are included elsewhere in this proxy statement/prospectus, and the other information contained in this proxy statement/prospectus.

Material weaknesses may exist when the combined company reports on the effectiveness of its internal control over financial reporting for purposes of its reporting requirements.

Prior to the filing of the registration statement of which this proxy statement/prospectus forms a part, Innovate/Protect was not subject to Sarbanes-Oxley Act of 2002 ("**Sarbanes-Oxley**"). Therefore, Innovate/Protect's management and independent registered public accounting firm did not perform an evaluation of Innovate/Protect's internal control over financial reporting as of December 31, 2011 in accordance with the provisions of Sarbanes-Oxley. Following the completion of the Merger within the expected timeframe, the combined company will be required to provide management's report on internal control over financial reporting in its Annual Report on Form 10-K for the year ending December 31, 2012, as required by Section 404 of Sarbanes-Oxley. Material weaknesses may exist when the combined company reports on the effectiveness of its internal control over financial reporting for purposes of its reporting requirements under the Exchange Act or Section 404 of Sarbanes-Oxley following the completion of the Merger. The existence of one or more material weaknesses would preclude a conclusion that the combined company maintains effective internal control over financial reporting. Such a conclusion would be required to be disclosed in the combined company's future Annual Reports on Form 10-K and could impact the accuracy and timing of its financial reporting and the reliability of its internal control over financial reporting, which could harm the combined company's reputation and cause the market price of its common stock to drop.

Vringo does not expect the combined company to pay cash dividends on its common stock.

Vringo anticipates that the combined company will retain its earnings, if any, for future growth and therefore does not anticipate paying cash dividends on its common stock in the future. Investors seeking cash dividends should not invest in the combined company's common stock for that purpose.

[TABLE OF CONTENTS](#)

Anti-takeover provisions in the combined company's charter and bylaws may prevent or frustrate attempts by stockholders to change the board of directors or current management and could make a third-party acquisition of the combined company difficult.

The combined company's certificate of incorporation and bylaws will contain provisions that may discourage, delay or prevent a merger, acquisition or other change in control that stockholders may consider favorable, including transactions in which stockholders might otherwise receive a premium for their shares. These provisions could limit the price that investors might be willing to pay in the future for shares of the combined company's common stock.

Because the lack of a public market for Innovate/Protect's capital stock makes it difficult to evaluate the fairness of the Merger, Innovate/Protect's stockholders may receive consideration in the Merger that is greater than or less than the fair market value of Innovate/Protect's capital stock.

The outstanding capital stock of Innovate/Protect is privately held and is not traded in any public market. The lack of a public market makes it difficult to determine the fair market value of Innovate/Protect. Since the percentage of Vringo common stock, preferred stock and warrants to be issued to Innovate/Protect's stockholders was determined based on negotiations between the parties, it is possible that the value of the Vringo common stock, preferred stock and warrants to be issued in connection with the Merger will be greater than the fair market value of Innovate/Protect. Alternatively, it is possible that the value of the shares of Vringo common stock, preferred stock and warrants to be issued in connection with the Merger will be less than the fair market value of Innovate/Protect.

If any of the events described in "Risks Related to Vringo's Business" or "Risks Related to Innovate/Protect's Business" occur, those events could cause the potential benefits of the Merger not to be realized.

Following the completion of the Merger, current Vringo executive officers and certain Innovate/Protect executive officers and certain Innovate/Protect and Vringo directors will direct the business and operations of the combined company. Additionally, Innovate/Protect's business is expected to be an important part of the business of the combined company following the Merger. As a result, the risks described below in the section entitled "Risks Related to Innovate/Protect's Business" beginning on page 58 are among the significant risks to the combined company if the Merger is completed. To the extent any of the events in the risks described below in either the section entitled "Risks Related to Vringo's Business" or "Risks Related to Innovate/Protect's Business" occur, those events could cause the potential benefits of the Merger not to be realized and the market price of the combined company's common stock to decline.

Risks Related to Vringo's Business

Vringo is currently, and after the completion of the Merger the combined company will continue to be, subject to the risks described below.

Vringo may not be able to consummate the Merger with Innovate/Protect.

The consummation of the Merger with Innovate/Protect is subject to stockholders approval and other closing conditions. Vringo has expended significant effort and management attention to the proposed transaction. There is no assurance that the Merger will be approved. For example, Vringo's stockholders may not approve the Merger. If the Merger is not consummated for any reason, Vringo's business and operations, as well as the market price of its stock and warrants may be adversely affected.

To date, Vringo has generated only losses, which are expected to continue for the foreseeable future.

As of March 31, 2012, Vringo had a cash balance of \$3.6 million and \$2.7 million of net working capital. For the three month period ended March 31, 2012 and 2011 and for the cumulative period from inception until March 31, 2012, Vringo incurred net losses of \$5.6 million, \$1.1 million and \$43.2 million, respectively. As of March 31, 2012, Vringo's stockholders' equity was \$1.0 million.

TABLE OF CONTENTS

Vringo expects its net losses to continue in the foreseeable future, as Vringo continues to grow its user base through carrier partnerships, continue to ensure it has broad handset reach, enhance its viral and social tools, maintain and grow its product and technology portfolio, build a strong revenue base of recurring monthly subscription revenue, find new forms of distribution, and explore monetization through advertising and revenue through content sales.

Vringo is a development stage company with no significant source of income and there is a significant doubt about Vringo's ability to continue its activities as a going concern.

Vringo is still a development stage company. Vringo's operations are subject to all of the risks inherent in development stage companies that do not have significant revenues or operating income. Vringo's potential for success must be considered in light of the problems, expenses, difficulties, complications and delays frequently encountered in connection with a new business, especially technology start-up companies. Vringo cannot provide any assurance that its business objectives will be accomplished. All of Vringo's audited consolidated financial statements, since inception, have contained a statement by Vringo's management that raises significant doubt about Vringo being able to continue as a going concern unless Vringo is able to raise additional capital. Vringo's financial statements do not include any adjustment relating to the recovery and classification of recorded asset amounts or the amount and classification of liabilities that might be necessary should Vringo's operations cease.

Vringo believes that current cash levels will be sufficient to support its activity into the first quarter of 2013. The continuation of its business is dependent upon the successful consummation of the Merger with Innovate/Protect, or similar merger or acquisition, financing and upon the further development of Vringo's products. Since it is impossible to predict the timing and amount of any recovery, if any, resulting from the Innovate/Protect Litigation, we anticipate that we will need to raise additional funds through equity offerings in order to meet our liquidity requirements in the second half of 2012. After taking into effect the Merger with Innovate/Protect, additional resources that may be required for the continuation of the combined operations approximates \$4.3 million and \$11.8 million, for the twelve month periods ending March 31, 2013 and March 31, 2014, respectively. Any such financing that Vringo undertakes will likely be dilutive to Vringo's current stockholders.

The exercise of a substantial number of warrants or options by Vringo's security holders may have an adverse effect on the market price of Vringo common stock.

Should Vringo's currently outstanding warrants be exercised, there will be an additional 7,706,591 shares of common stock eligible for trading in the public market. In addition, Vringo currently has options outstanding to purchase 4,623,863 shares of common stock, granted as of the reporting date, to Vringo's management, employees, directors and consultants. In March 2012, the Vringo board of directors approved participation of all outstanding options in future dividends. In addition, the vesting of all outstanding options will accelerate if the Vringo common stock reaches certain price or market capitalization targets for 20 of 30 consecutive trading dates, as follows: (i) 50% acceleration if either the price of the Vringo common stock is at least \$5 or Vringo's market capitalization is at least \$250,000,000; (ii) 75% acceleration if either the price of the Vringo common stock is at least \$10 or Vringo's market capitalization is \$500,000,000 or more; and (iii) 100% acceleration if either the price of the Vringo common stock is at least \$20 or Vringo's market capitalization is at least \$1,000,000,000. Furthermore, all outstanding options granted to members of the board of directors shall fully vest if a member of the Vringo board of directors ceases to be a director at any time during the six-month period immediately following the change of control. Certain options that are outstanding have exercise prices that are below, and in some cases significantly below, recent market prices. Such securities, if exercised, will increase the number of issued and outstanding shares of common stock. Therefore, the sale, or even the possibility of sale, of the shares of common stock underlying the warrants and options could have an adverse effect on the market price for Vringo's securities or on Vringo's ability to obtain future financing. The average weighted exercise price of all currently outstanding warrants and options, as of May 25, 2012, is \$3.17 per share.

Under the terms of the Merger Agreement, Vringo will issue Innovate/Protect stockholders warrants to purchase 15,959,838 shares of Vringo common stock at an exercise price of \$1.76 per share, each subject to equitable adjustment in the event of a reverse stock split. In addition, the issued and outstanding warrant to

TABLE OF CONTENTS

purchase 250,000 shares of Innovate/Protect's common stock that is outstanding and unexercised immediately prior to the Merger will be exchanged for 250,000 shares of Vringo common stock and 850,000 warrant to purchase 850,000 shares of Vringo common stock with an exercise price of \$1.76 per share, each subject to equitable adjustment in the event of a reverse stock split. In addition, the aggregate number of shares of Vringo common stock and the aggregate number of warrants (and the aggregate number of shares of Vringo common stock that may be purchased upon exercise thereof) to be issued in exchange for the issued and outstanding warrant of Innovate/Protect shall each be ratably adjusted to give effect to any partial exercise of such warrant prior to the effective time of the Merger. Finally, all outstanding and unexercised options to purchase Innovate/Protect common stock, whether vested or unvested, will be converted into options to purchase Vringo common stock with the number of shares subject to and the exercise price applicable to such options being appropriately adjusted based on the Common Stock Exchange Ratio. As a result of an approval of the Merger with Innovate/Protect, the total number of warrants and options held by Vringo's security holders will be increased by 16,851,016 and the former stockholders of Innovate/Protect (without taking into account any shares of Vringo common stock held by Innovate/Protect stockholders prior to the completion of the Merger) are expected to own approximately 56.30% of the outstanding common stock of the combined company (or 67.55% of the outstanding common stock of the combined company calculated on a fully diluted basis) and the current stockholders of Vringo are expected to own approximately 43.70% of the outstanding common stock of the combined company (or 32.45% of the outstanding common stock of the combined company calculated on a fully diluted basis).

Future sales of Vringo's shares of common stock by its stockholders could cause the market price of Vringo common stock to drop significantly, even if Vringo's business is performing well.

As of May 25, 2012, Vringo has 14,060,424 shares of common stock issued and outstanding, excluding shares of common stock issuable upon exercise of warrants or options. As shares saleable under Rule 144 are sold or as restrictions on resale need, the market price of Vringo common stock could drop significantly, if the holders of restricted shares sell them, or are perceived by the market as intending to sell them. This decline in Vringo's stock price could occur even if Vringo's business is otherwise performing well. On March 30, 2012, Vringo filed with the SEC a Registration Statement on Form S-3 to register shares of common stock underlying the 2,672,756 new warrants issued in February 2012 (including 11,834 warrants issued to Vringo's placement agent) and on May 17, 2012 Vringo filed with the SEC a Registration Statement on Form S-8 to register the shares of common stock underlying 4,623,863 options currently outstanding under Vringo's 2006 Stock Option Plan.

Under the terms of the Merger Agreement, Vringo will issue Innovate/Protect stockholders 17,863,169 of its common stock shares and Series A Convertible Preferred stock, initially convertible into 20,136,445 of Vringo shares of common stock. In addition, the outstanding warrant to purchase 250,000 shares of Innovate/Protect's common stock will be exchanged for 250,000 shares of Vringo common stock and 850,000 warrants to purchase 850,000 shares of Vringo common stock with an exercise price of \$1.76 per share, each subject to equitable adjustment in the event of a reverse stock split. In addition, the aggregate number of shares of Vringo common stock and the aggregate number of warrants (and the aggregate number of shares of Vringo common stock that may be purchased upon exercise thereof) to be issued in exchange for the issued and outstanding warrant of Innovate/Protect shall each be ratably adjusted to give effect to any partial exercise of such warrant prior to the effective time of the Merger. Upon the consummation of the Merger, the number of outstanding shares of common stock (calculated on a fully diluted basis) held by Vringo's security holders will significantly increase.

If Vringo is unable to adequately protect its intellectual property, Vringo may not be able to compete effectively.

Vringo's ability to compete depends in part upon the strength of Vringo's proprietary rights in its technologies, brands and content. Vringo relies on a combination of U.S. and foreign patents, copyrights, trademark, trade secret laws and license agreements to establish and protect its intellectual property and proprietary rights. The efforts Vringo has taken to protect its intellectual property and proprietary rights may not be sufficient or effective at stopping unauthorized use of its intellectual property and proprietary rights. In addition, effective trademark, patent, copyright and trade secret protection may not be available or

cost-effective in every country in which Vringo's services are made available. There may be instances where Vringo is not able to fully protect or utilize its intellectual property in a manner that maximizes competitive advantage. If Vringo is unable to protect its intellectual property and proprietary rights from unauthorized use, the value of Vringo's products may be reduced, which could negatively impact Vringo's business. Vringo's inability to obtain appropriate protections for its intellectual property may also allow competitors to enter Vringo's markets and produce or sell the same or similar products. In addition, protecting Vringo's intellectual property and other proprietary rights is expensive and diverts critical managerial resources. If any of the foregoing were to occur, or if Vringo is otherwise unable to protect its intellectual property and proprietary rights, Vringo's business and financial results could be adversely affected.

If Vringo is forced to resort to legal proceedings to enforce its intellectual property rights, the proceedings could be burdensome and expensive. In addition, Vringo's proprietary rights could be at risk if Vringo is unsuccessful in, or cannot afford to pursue, those proceedings. Vringo also relies on trade secrets and contract law to protect some of its proprietary technology. Vringo has entered into confidentiality and invention agreements with its employees and consultants. Nevertheless, these agreements may not be honored and they may not effectively protect Vringo's right to its un-patented trade secrets and know-how. Moreover, others may independently develop substantially equivalent proprietary information and techniques or otherwise gain access to Vringo's trade secrets and know-how.

The possibility of extensive delays in the patent issuance process could effectively reduce the term during which a marketed product is protected by patents.

Vringo may need to obtain licenses to patents or other proprietary rights from third parties. Vringo may not be able to obtain the licenses required under any patents or proprietary rights or they may not be available on acceptable terms. If Vringo does not obtain required licenses, Vringo may encounter delays in product development or find that the development, manufacture or sale of products requiring licenses could be foreclosed. Vringo may, from time to time, support and collaborate in research conducted by universities and governmental research organizations. Vringo may not be able to acquire exclusive rights to the inventions or technical information derived from these collaborations, and disputes may arise over rights in derivative or related research programs conducted by Vringo or its collaborators.

If Vringo or its users infringe on the intellectual property rights of third parties, Vringo may have to defend against litigation and pay damages and Vringo's business and prospects may be adversely affected.

If a third party were to assert that Vringo's products infringe on its patent, copyright, trademark, right of publicity, right of privacy, trade secret or other intellectual property rights, Vringo could incur substantial litigation costs and be forced to pay substantial damages. Third-party infringement claims, regardless of their outcome, would not only consume significant financial resources, but would also divert Vringo's management time and attention. Such claims or the lack of available access to certain sites or content could also cause Vringo's customers or potential customers to purchase competitors' products if such competitors have access to the sites or contents that Vringo is lacking or defer or limit their purchase or use of Vringo's affected products or services until resolution of the claim. In connection with any such claim or litigation, Vringo's mobile carriers and other partners may decide to re-assess their relationships with Vringo, especially if they perceive that they may have potential liability or if such claimed infringement is a possible breach of Vringo's agreement with such mobile carrier. If any of Vringo's products are found to violate third-party intellectual property rights, Vringo may have to re-engineer one or more of its products, or Vringo may have to obtain licenses from third parties to continue offering its products without substantial re-engineering. Vringo's efforts to re-engineer or obtain licenses could require significant expenditures of time and money and may not be successful. Accordingly, any claims or litigation regarding Vringo's infringement of intellectual property of a third party by Vringo or its users could have a material adverse effect on Vringo's business and prospects.

Third party infringement claims could also significantly limit Vringo Studio products and the content available in Vringo's content library. The Vringo Studio tool allows users to access video from multiple sites on the web or from their computer and then edit and send these video clips to their mobile phones as customized video ringtones. These websites could choose to block Vringo from accessing their content for violating their terms of service by allowing users to download clips or for any other reason, which could

TABLE OF CONTENTS

significantly limit the availability of content in the Vringo Studio. Additionally, while Vringo employs special software that seeks to determine whether a clip is copyrighted or otherwise restricted, it is not feasible for Vringo to determine whether users of Vringo Studio own or acquire appropriate intellectual property permissions to use each clip before it is downloaded. Therefore, Vringo requires users of the Vringo Studio to certify that they have the rights to use the content that they desire to send to their phone. Additionally, while the majority of the clips in Vringo's content library are either licensed by Vringo directly or are public domain or creative commons, Vringo's content library contains certain clips which Vringo has not licensed from the content owner. As a result, Vringo may receive cease-and-desist letters, or other threats of litigation, from website hosts and content owners asserting that Vringo is infringing on their intellectual property or violating the terms and conditions of their websites. In such a case, Vringo will remove or attempt to obtain licenses for such content or obtain additional content from other websites. However, there is no assurance that Vringo will be able to enter into license agreements with content owners. Consequently, Vringo may be forced to remove a portion of its content from its library and significantly limit the availability of content in the Vringo Studio. This would negatively impact Vringo's user experience and may cause users to cancel Vringo's service and make Vringo's service less attractive to its partners.

If Vringo is unable to enter into or maintain distribution arrangements with major mobile carriers and/or other partners and develop and maintain its existing strategic relationships with mobile carriers, Vringo will be unable to distribute its products effectively or generate significant revenue.

Vringo's strategy for distributing its applications and services is dependent upon establishing distribution arrangements with major mobile carriers and other partners. Vringo currently has distribution arrangements with Etisalat (Emirates Telecom), Orange (Everything Everywhere), Vodafone, Verizon, Maxis, Celcom (Axiata Berhard), Hungama Mobile and Du. Vringo needs to develop and maintain strategic relationships with these entities in order for them to market its service to their end users. While Vringo has entered into agreements with the aforementioned mobile carriers pursuant to which Vringo's service may be made available to their end-users, such agreements are not exclusive and generally do not obligate the partner to market or distribute Vringo's service. In addition, a number of Vringo's distribution agreements allow the mobile carrier to terminate its rights under the agreement at any time and for any reason upon 30 days' notice. Vringo is dependent upon the subsequent success of these partners in performing their responsibilities and sufficiently marketing Vringo's service. Vringo cannot provide you any assurance that it will be able to negotiate, execute and maintain favorable agreements and relationships with any additional partners, that the partners with whom Vringo has a contractual relationship will choose to promote Vringo's service or that such partners will be successful and/or will not pursue alternative technologies.

If Vringo is unsuccessful in entering into and maintaining content license agreements, its revenues will be negatively affected.

The success of Vringo's service is dependent upon its providing end-users with content they desire. An important aspect of this strategy is establishing licensing relationships with third party content providers that have desirable content. Content license agreements generally have a fixed term, may or may not include provisions for exclusivity and may require Vringo to make significant minimum payments. Vringo has entered into approximately 35 content license agreements with various content providers. While Vringo's business is not dependent on any particular content license agreement, there is no assurance that Vringo will enter into a sufficient number of content license agreements or that the ones that Vringo enters into will be profitable and will not be terminated early.

Vringo may not be able to generate revenues from certain of its prepaid mobile customers.

Vringo currently operates in markets that have a high percentage of prepaid mobile customers. Many of these users may not have a sufficient balance in their prepaid account when their free trial ends and Vringo bills them to cover the charges for subscribing to its service. As a result, the subscriber numbers that Vringo periodically discloses may not generate revenues at the expected level.

Vringo is dependent on mobile carriers and other partners to make timely payments to Vringo.

Vringo will receive its revenue from mobile carriers and other distribution partners who may delay payment to Vringo, dispute amounts owed to Vringo, or in some cases refuse to pay Vringo at all. Many of

these partners are in markets where Vringo may have limited legal recourse to collect payments from these partners. Vringo's failure to collect payments owed to it from its partners will have an adverse effect on Vringo's business and its results of operations.

Vringo may not be able to continue to maintain its application on all of the operating systems that it currently supports.

Some of Vringo's applications are compatible with various mobile operating systems including Android, Blackberry, Sony Ericsson, Symbian, Apple's iOS, Java, and Windows Mobile operating systems. While Windows Mobile, Blackberry and Android do not support video ringtones natively, Vringo's development team has enabled its application to work on many devices which utilize these operating systems. The user base for the video ringtone service is spread out amongst a number of smartphone and feature phone operating systems, with applications on each aforementioned operating system representing less than 5% of the total subscribers to Vringo's video ringtone platform. Vringo's Facetones™ platform, which represents less than 5% of Vringo's revenue for the three months ended March 31, 2012, is heavily reliant upon Vringo's Android devices users. Currently, over 96% of Vringo's Facetones™ users utilize the Android operating system. In addition, Vringo's commercial agreement with ZTE is solely reliant on Vringo's ability to maintain its support for the Android operating system. Since these operating systems do not support Vringo's applications natively, any significant changes to these operating systems by their respective developers may prevent Vringo's application from working properly or at all on these systems. If Vringo is unable to maintain its application on these operating systems or on any other operating systems, users of these operating systems will not be able to use Vringo's application, which could adversely affect Vringo's business and results of operations.

Vringo operates in the digital content market where piracy of content is widespread.

Vringo's business strategy is partially based upon users paying Vringo for access to its content. If users believe they can obtain the same or similar content for free via other means including piracy, they may be unwilling to pay for Vringo's service. Additionally, since Vringo's own clips do not have any copy protection, they can theoretically be distributed by a paying user to a non-paying user without any additional payment to Vringo. If users or potential users obtain Vringo's content or similar content without payment to Vringo, Vringo's business and results of operations will be adversely affected.

Major network failures could have an adverse effect on Vringo's business.

Major equipment failures, natural disasters, including severe weather, terrorist acts, acts of war, cyber-attacks or other breaches of network or information technology security that affect third-party networks, transport facilities, communications switches, routers, microwave links, cell sites or other third-party equipment on which Vringo relies, could cause major network failures and/or unusually high network traffic demands that could have a material adverse effect on Vringo's operations or its ability to provide service to Vringo's customers. These events could disrupt Vringo's operations, require significant resources to resolve, result in a loss of customers or impair Vringo's ability to attract new customers, which in turn could have a material adverse effect on Vringo's business, results of operations and financial condition.

Vringo's data is hosted at a remote location. Although Vringo has full alternative site data backed up, Vringo does not have data hosting redundancy. Accordingly, Vringo may experience significant service interruptions, which could require significant resources to resolve, result in a loss of customers or impair Vringo's ability to attract new customers, which in turn could have a material adverse effect on Vringo's business, results of operations and financial condition.

In addition, with the growth of wireless data services, enterprise data interfaces and Internet-based or Internet Protocol-enabled applications, wireless networks and devices are exposed to a greater degree to third-party data or applications over which Vringo has less direct control. As a result, the network infrastructure and information systems on which Vringo relies, as well as Vringo's customers' wireless devices, may be subject to a wider array of potential security risks, including viruses and other types of computer-based attacks, which could cause lapses in Vringo's service or adversely affect the ability of Vringo's customers to access its service. Such lapses could have a material adverse effect on Vringo's business and its results of operations.

Vringo's business depends upon its ability to keep pace with the latest technological changes and Vringo's failure to do so could make Vringo less competitive in its industry.

The market for Vringo's products and services is characterized by rapid change and technological change, frequent new product innovations, changes in customer requirements and expectations and evolving industry standards. Products using new technologies or emerging industry standards could make Vringo's products and services less attractive. Furthermore, Vringo's competitors may have access to technology not available to Vringo, which may enable them to produce products of greater interest to consumers or at a more competitive cost. Failure to respond in a timely and cost-effective way to these technological developments may result in serious harm to Vringo's business and operating results. As a result, Vringo's success will depend, in part, on its ability to develop and market product and service offerings that respond in a timely manner to the technological advances available to Vringo's customers, evolving industry standards and changing preferences.

Vringo's Facetones™ application depends upon Vringo's continued access to Facebook® photos.

Vringo's Facetones™ application creates automated video slideshow using friends' photos from social media web sites, primarily from Facebook®, the world's leading social media site. Facetones™ represented less than 5% of Vringo's revenue for the three months ended March 31, 2012, however, Vringo believes that the rapid growth of its user base is critical to the value of its mobile application business. In the event Facebook® prohibits or restricts the ability of Vringo's application to access photos on its site, Vringo's business, financial condition, operating results and projected growth could be harmed. In February 2012, Vringo entered into an agreement with Facebook®, which clarifies Vringo's permitted use of the Facetones™ mark and domain name.

If Vringo's Facetones™ trademark is challenged by another party, Vringo's revenue from this application may be adversely affected.

In February 2012, Vringo entered into an agreement with Facebook, Inc., an online social network, relating to the use of Vringo's Facetones™ mark and domain name (collectively, the "Facetones Mark"). The Agreement resolved a potential dispute between the parties regarding the Facetones Mark. Nonetheless, Facebook reserves the right to challenge the Facetones Mark in the future if Vringo violates certain limitations on its use of the Facetones Mark and/or certain conditions are not met. If Facebook or any other party successfully challenges Vringo's Facetones Mark, Vringo will need to re-brand its application, which may have a negative impact on Vringo's revenue from this application.

Regulation concerning consumer privacy may adversely affect Vringo's business.

Certain technologies that Vringo currently supports, or may in the future support, are capable of collecting personally-identifiable information. Vringo anticipates that as mobile telephone software continues to develop, it will be possible to collect or monitor substantially more of this type of information. A growing body of laws designed to protect the privacy of personally-identifiable information, as well as to protect against its misuse, and the judicial interpretations of such laws, may adversely affect the growth of Vringo's business. In the United States, these laws could include the Federal Trade Commission Act, the Electronic Communications Privacy Act, the Fair Credit Reporting Act and the Gramm-Leach Bliley Act, as well as various state laws and related regulations. In addition, certain governmental agencies, like the Federal Trade Commission, have the authority to protect against the misuse of consumer information by targeting companies that collect, disseminate or maintain personal information in an unfair or deceptive manner. In particular, such laws could limit Vringo's ability to collect information related to users or Vringo's services, to store or process that information in what would otherwise be the most efficient manner, or to commercialize new products based on new technologies. The evolving nature of all of these laws and regulations, as well as the evolving nature of various governmental bodies' enforcement efforts, and the possibility of new laws in this area, may adversely affect Vringo's ability to collect and disseminate or share certain information about consumers and may negatively affect Vringo's ability to make use of that information. If Vringo fails to successfully comply with applicable regulations in this area, its business and prospects could be harmed.

Vringo's ability to raise capital through equity or equity-linked transactions may be limited.

In order for Vringo to raise capital through equity or equity-linked transactions, stockholder approval is required to enable Vringo to issue more than 19.99% of Vringo's outstanding shares of common stock pursuant to the rules and regulations of the NYSE Amex. Should stockholders not approve such issuances, Vringo's sole means to raise capital would be through debt, which could have a material adverse effect on Vringo's balance sheet and overall financial condition.

Vringo's liquidity is largely dependent on its common stock being traded on a major exchange.

Vringo's common stock and warrants are listed on the NYSE Amex, a national securities exchange, which imposes continued listing requirements with respect to listed shares. On April 26, 2012, the NYSE Amex notified Vringo that it had resolved the continued listing deficiency referenced in the NYSE Amex's letter dated May 24, 2011, which stated that Vringo was not in compliance with Section 1003(a) (iv) of the NYSE Amex's continued listing standards. The NYSE Amex's conclusion was based on a review of available information, including Vringo's filings with the SEC. Vringo's continued listing eligibility will be assessed on an ongoing basis. While the NYSE Amex has not initiated delisting proceedings in the past, there is no assurance that it will not do so in the future.

If the NYSE Amex delists Vringo's securities from trading, Vringo could face significant consequences, including:

- a limited availability for market quotations for its securities;
- reduced liquidity with respect to its securities;
- a determination that Vringo's common stock is a "penny stock," which will require brokers trading in Vringo common stock to adhere to more stringent rules and possibly result in a reduced level of trading activity in the secondary trading market for Vringo common stock;
- limited amount of news and analyst coverage; and
- a decreased ability to issue additional securities or obtain additional financing in the future.

In addition, Vringo would no longer be subject to the NYSE Amex rules, including rules requiring Vringo to have a certain number of independent directors and to meet other corporate governance standards.

If there are significant shifts in the political, economic and military conditions in Israel and its neighbors, it could have a material adverse effect on Vringo's business relationships and profitability.

Vringo's research and development facility and finance department are located in Israel and many of Vringo's key personnel reside in Israel. Vringo's business is directly affected by the political, economic and military conditions in Israel and its neighbors. Major hostilities involving Israel or the interruption or curtailment of trade between Israel and its present trading partners could have a material adverse effect on Vringo's existing business relationships and on Vringo's operating results and financial condition. Furthermore, several countries restrict business with Israeli companies, which may impair Vringo's ability to create new business relationships or to be, or become, profitable.

Vringo may not be able to enforce covenants not-to-compete under current Israeli law, which may result in added competition.

Vringo has non-competition agreements with all of its employees, almost all of which are governed by Israeli law. These agreements generally prohibit Vringo's employees from competing with or working for its competitors, during their term of employment and for up to 12 months after termination of their employment. However, Israeli courts may be reluctant to enforce non-compete undertakings of former employees and may not enforce those provisions, or only enforce those provisions for relatively brief periods of time in restricted geographical areas, and only when the employee has unique value specific to that employer's business and not just regarding the professional development of the employee. If Vringo is not able to enforce non-compete covenants, Vringo may be faced with added competition.

TABLE OF CONTENTS

Because a substantial portion of Vringo’s revenues is generated in dollars and euros, while a significant portion of Vringo’s expenses is incurred in Israeli currency, Vringo’s revenue may be reduced due to inflation in Israel and currency exchange rate fluctuations.

A substantial portion of Vringo’s revenues is generated in dollars and euros, while a significant portion of Vringo’s expenses, principally salaries and related personnel expenses, is paid in Israeli currency. As a result, Vringo is exposed to the risk that the rate of inflation in Israel will exceed the rate of devaluation of Israeli currency in relation to the dollar or the euro, or that the timing of this devaluation will lag behind inflation in Israel. Because inflation has the effect of increasing the dollar and euro costs of Vringo’s operations, it would therefore have an adverse effect on Vringo’s dollar-measured results of operations. The value of the New Israeli Shekel, or NIS, against the United States Dollar, the Euro and other currencies may fluctuate and is affected by, among other things, changes in Israel’s political and economic conditions. Any significant revaluation of the NIS may materially and adversely affect Vringo’s cash flows, revenues and financial condition. Fluctuations in the NIS exchange rate, or even the appearance of instability in such exchange rate, could adversely affect Vringo’s ability to operate its business.

The termination or reduction of tax and other incentives that the Israeli government provides to domestic companies, such as Vringo’s wholly-owned subsidiary, may increase the costs involved in operating a company in Israel.

The Israeli government currently provides tax and capital investment incentives to domestic companies, as well as grant and loan programs relating to research and development and marketing and export activities. Vringo’s wholly-owned Israeli subsidiary currently takes advantage of some of these programs. Vringo cannot provide you with any assurance that such benefits and programs will continue to be available in the future to Vringo’s Israeli subsidiary. In addition, it is possible that Vringo’s subsidiary will fail to meet the criteria required for eligibility of future benefits. If such benefits and programs were terminated or further reduced, it could have an adverse effect on Vringo’s business, operating results and financial condition.

Risks Related to Innovate/Protect’s Business

Innovate/Protect’s limited operating history makes it difficult to evaluate its current business and future prospects.

Innovate/Protect is a development stage company and has generated no revenue to date and has only incurred expenses. Innovate/Protect was incorporated in June 2011, at which time it acquired its first and only patent assets. To date, Innovate/Protect’s business has consisted entirely of prosecution of the Litigation. Innovate/Protect’s efforts to license existing patents and develop new patents are still in development. Therefore, Innovate/Protect not only has a very limited operating history, but also a very limited track record in executing its business model which includes, among other things, creating, prosecuting, licensing, litigating or otherwise monetizing its patent assets. Innovate/Protect limited operating history makes it difficult to evaluate its current business model and future prospects.

In light of the costs, uncertainties, delays and difficulties frequently encountered by companies in the early stages of development with no operating history, there is a significant risk that Innovate/Protect will not be able to:

- implement or execute its current business plan, or demonstrate that its business plan is sound; and/or
- raise sufficient funds in the capital markets to effectuate its business plan.

If Innovate/Protect cannot execute any one of the foregoing or similar matters relating to its operations, its business may fail.

Innovate/Protect is presently reliant exclusively on the patent assets it acquired at its formation. If Innovate/Protect is unable to license or otherwise monetize such assets and generate revenue and profit through those assets or by other means, there is a significant risk that Innovate/Protect’s business would fail.

At Innovate/Protect’s formation in June 2011, Innovate/Protect acquired a portfolio of patent assets from Lycos that Innovate/Protect plans to license or otherwise monetize. If Innovate/Protect’s efforts to generate

revenue from such assets fail, Innovate/Protect will have incurred significant losses and may be unable to acquire additional assets. If this occurs, Innovate/Protect's business would likely fail.

Innovate/Protect has commenced legal proceedings against the owners of certain online search engines and other companies, and Innovate/Protect expects such litigation to be time-consuming and costly, which may adversely affect Innovate/Protect's financial condition and its ability to operate its business.

To license or otherwise monetize the patent assets Innovate/Protect acquired from Lycos, Innovate/Protect has commenced legal proceedings against the owners of online search engines and other companies (including AOL, Inc., Google, Inc., IAC Search & Media, Inc., Gannett Company, Inc., and Target Corporation) pursuant to which Innovate/Protect alleges that such companies infringe on one or more of Innovate/Protect's patents. Innovate/Protect's viability is highly dependent on the outcome of this litigation, and there is a risk that Innovate/Protect may be unable to achieve the results it desires from such litigation, which failure would harm Innovate/Protect's business to a great degree. In addition, the defendants in this litigation are much larger than Innovate/Protect and have substantially more resources than Innovate/Protect does, which could make Innovate/Protect's litigation efforts more difficult.

Innovate/Protect anticipates that these legal proceedings may continue for several years and may require significant expenditures for legal fees and other expenses. Disputes regarding the assertion of patents and other intellectual property rights are highly complex and technical. Once initiated, Innovate/Protect may be forced to litigate against others to enforce or defend Innovate/Protect's intellectual property rights or to determine the validity and scope of other parties' proprietary rights. The defendants or other third parties involved in the lawsuits in which Innovate/Protect is involved may allege defenses and/or file counterclaims in an effort to avoid or limit liability and damages for patent infringement. If such defenses or counterclaims are successful, they may preclude Innovate/Protect's ability to derive licensing revenue from the patents. A negative outcome of any such litigation, or one or more claims contained within any such litigation, could materially and adversely impact Innovate/Protect's business. Additionally, Innovate/Protect anticipates that its legal fees and other expenses will be material and will negatively impact Innovate/Protect's financial condition and results of operations and may result in its inability to continue its business. Innovate/Protect estimates that its legal fees over the next twelve months will be approximately \$2.9 million. Expenses thereafter are dependent on the outcome of the Litigation; in the event the case is appealed, legal fees over the course of the subsequent twelve months would be approximately \$1.2 million. Innovate/Protect's failure to monetize its patent assets would significantly harm its business.

While Innovate/Protect believes that the patents acquired from Lycos are infringed by the defendants in the Litigation, there is a risk that a court will find the patents invalid, not infringed or unenforceable and/or that the US Patent Office will either invalidate the patents or materially narrow the scope of their claims during the course of a re-examination. In addition, even with a positive trial court verdict, the patent may be invalidated, found not infringed or rendered unenforceable on appeal. This risk may occur either presently in Innovate/Protect's initial litigation or from time to time in connection with future litigations Innovate/Protect may bring. If this were to occur, it would have a material adverse effect on the viability of its company and its operations.

Innovate/Protect believes that certain online search engines infringe on at least two of its patents, but recognizes that obtaining and collecting a judgment against such infringers may be difficult or impossible. Patent litigation is inherently risky and the outcome is uncertain. Some of the parties Innovate/Protect believes infringe on Innovate/Protect's patents are large and well-financed companies with substantially greater resources than Innovate/Protect. Innovate/Protect believes that these parties would devote a substantial amount of resources in an attempt to avoid or limit a finding that they are liable for infringing Innovate/Protect's patents or, in the event liability is found, to avoid or limit the amount of associated damages. In addition there is a risk that these parties may file re-examinations or other proceedings with the USPTO or other government agencies in an attempt to invalidate, narrow the scope or render unenforceable the patents Innovate/Protect acquired from Lycos.

TABLE OF CONTENTS

At this time, Innovate/Protect cannot predict the outcome of such potential litigation or administrative action, and if Innovate/Protect is unsuccessful in its litigation efforts for any reason, Innovate/Protect's business would be significantly harmed.

Moreover, in connection with any of Innovate/Protect's present or future patent enforcement actions, it is possible that a defendant may request and/or a court may rule that Innovate/Protect has violated statutory authority, regulatory authority, federal rules, local court rules, or governing standards relating to the substantive or procedural aspects of such enforcement actions. In such event, a court may issue monetary sanctions against Innovate/Protect or its operating subsidiaries or award attorneys' fees and/or expenses to one or more defendants, which could be material, and if Innovate/Protect or its subsidiaries are required to pay such monetary sanctions, attorneys' fees and/or expenses, such payment could materially harm Innovate/Protect's operating results and its financial position.

In addition, it is difficult in general to predict the outcome of patent enforcement litigation at the trial level. There is a higher rate of appeals in patent enforcement litigation than more standard business litigation. Such appeals are expensive and time-consuming, and the outcomes of such appeals are sometimes unpredictable, resulting in increased costs and reduced or delayed revenue.

Finally, Innovate/Protect believes that the more prevalent patent enforcement actions become, the more difficult it will be for Innovate/Protect to license its patents without engaging in litigation. As a result, Innovate/Protect may need to increase the number of its patent enforcement actions to cause infringing companies to license the patent or pay damages for lost royalties. This will adversely affect Innovate/Protect's operating results due to the high costs of litigation and the uncertainty of the results.

Innovate/Protect may seek to internally develop additional new inventions and intellectual property, which would take time and would be costly. Moreover, the failure to obtain or maintain intellectual property rights for such inventions would lead to the loss of Innovate/Protect's investments in such activities.

Members of Innovate/Protect's management team have significant experience as inventors. As such, part of Innovate/Protect's business may include the internal development of new inventions or intellectual property that Innovate/Protect will seek to monetize. However, this aspect of Innovate/Protect's business would likely require significant capital and would take time to achieve. Such activities could also distract Innovate/Protect's management team from its present business initiatives, which could have a material and adverse effect on Innovate/Protect's business. There is also the risk that Innovate/Protect's initiatives in this regard would not yield any viable new inventions or technology, which would lead to a loss of Innovate/Protect's investments in time and resources in such activities.

In addition, even if Innovate/Protect is able to internally develop new inventions, in order for those inventions to be viable and to compete effectively, Innovate/Protect would need to develop and maintain, and it would heavily rely on, a proprietary position with respect to such inventions and intellectual property. However, there are significant risks associated with any such intellectual property Innovate/Protect may develop principally including the following:

- patent applications Innovate/Protect may file may not result in issued patents or may take longer than Innovate/Protect expects to result in issued patents;
- Innovate/Protect may be subject to interference proceedings;
- Innovate/Protect may be subject to opposition proceedings in the U.S. or foreign countries;
- any patents that are issued to Innovate/Protect may not provide meaningful protection;
- Innovate/Protect may not be able to develop additional proprietary technologies that are patentable;
- other companies may challenge patents issued to Innovate/Protect;
- other companies may have independently developed and/or patented (or may in the future independently develop and patent) similar or alternative technologies, or duplicate Innovate/Protect's technologies;

TABLE OF CONTENTS

- other companies may design around technologies Innovate/Protect has developed; and
- enforcement of Innovate/Protect's patents would be complex, uncertain and very expensive.

Innovate/Protect cannot be certain that patents will be issued as a result of any future applications, or that any of Innovate/Protect's patents, once issued, will provide Innovate/Protect with adequate protection from competing products. For example, issued patents may be circumvented or challenged, declared invalid or unenforceable, or narrowed in scope. In addition, since publication of discoveries in scientific or patent literature often lags behind actual discoveries, Innovate/Protect cannot be certain that it will be the first to make its additional new inventions or to file patent applications covering those inventions. It is also possible that others may have or may obtain issued patents that could prevent Innovate/Protect from commercializing Innovate/Protect's products or require Innovate/Protect to obtain licenses requiring the payment of significant fees or royalties in order to enable Innovate/Protect to conduct its business. As to those patents that Innovate/Protect may license or otherwise monetize, Innovate/Protect's rights will depend on maintaining its obligations to the licensor under the applicable license agreement, and Innovate/Protect may be unable to do so. Innovate/Protect's failure to obtain or maintain intellectual property rights for Innovate/Protect's inventions would lead to the loss Innovate/Protect's investments in such activities, which would have a material and adverse effect on Innovate/Protect's company.

Moreover, patent application delays could cause delays in recognizing revenue from Innovate/Protect's internally generated patents and could cause Innovate/Protect to miss opportunities to license patents before other competing technologies are developed or introduced into the market.

New legislation, regulations or court rulings related to enforcing patents could harm Innovate/Protect's business and operating results.

If Congress, the United States Patent and Trademark Office or courts implement new legislation, regulations or rulings that impact the patent enforcement process or the rights of patent holders, these changes could negatively affect Innovate/Protect's business model. For example, limitations on the ability to bring patent enforcement claims, limitations on potential liability for patent infringement, lower evidentiary standards for invalidating patents, increases in the cost to resolve patent disputes and other similar developments could negatively affect Innovate/Protect's ability to assert its patent or other intellectual property rights.

In addition, on September 16, 2011, the Leahy-Smith America Invents Act (or the Leahy-Smith Act), was signed into law. The Leahy-Smith Act includes a number of significant changes to United States patent law. These changes include provisions that affect the way patent applications will be prosecuted and may also affect patent litigation. The U.S. Patent Office is currently developing regulations and procedures to govern administration of the Leahy-Smith Act, and many of the substantive changes to patent law associated with the Leahy-Smith Act will not become effective until one year or 18 months after its enactment. Accordingly, it is too early to tell what, if any, impact the Leahy-Smith Act will have on the operation of Innovate/Protect's business. However, the Leahy-Smith Act and its implementation could increase the uncertainties and costs surrounding the prosecution of patent applications and the enforcement or defense of Innovate/Protect's issued patents, all of which could have a material adverse effect on Innovate/Protect's business and financial condition.

Further, and in general, it is impossible to determine the extent of the impact of any new laws, regulations or initiatives that may be proposed, or whether any of the proposals will become enacted as laws. Compliance with any new or existing laws or regulations could be difficult and expensive, affect the manner in which Innovate/Protect conducts its business and negatively impact Innovate/Protect's business, prospects, financial condition and results of operations.

Innovate/Protect's acquisitions of patent assets may be time consuming, complex and costly, which could adversely affect Innovate/Protect's operating results.

Acquisitions of patent or other intellectual property assets, which are and will be critical to Innovate/Protect's business plan, are often time consuming, complex and costly to consummate. Innovate/Protect may utilize many different transaction structures in its acquisitions and the terms of such acquisition agreements

TABLE OF CONTENTS

tend to be heavily negotiated. As a result, Innovate/Protect expects to incur significant operating expenses and will likely be required to raise capital during the negotiations even if the acquisition is ultimately not consummated. Even if Innovate/Protect is able to acquire particular patent assets, there is no guarantee that Innovate/Protect will generate sufficient revenue related to those patent assets to offset the acquisition costs. While Innovate/Protect will seek to conduct confirmatory due diligence on the patent assets Innovate/Protect is considering for acquisition, Innovate/Protect may acquire patent assets from a seller who does not have proper title to those assets. In those cases, Innovate/Protect may be required to spend significant resources to defend Innovate/Protect's interest in the patent assets and, if Innovate/Protect is not successful, its acquisition may be invalid, in which case Innovate/Protect could lose part or all of its investment in the assets.

Innovate/Protect may also identify patent or other intellectual property assets that cost more than Innovate/Protect is prepared to spend with its own capital resources. Innovate/Protect may incur significant costs to organize and negotiate a structured acquisition that does not ultimately result in an acquisition of any patent assets or, if consummated, proves to be unprofitable for Innovate/Protect. These higher costs could adversely affect Innovate/Protect's operating results, and if Innovate/Protect incurs losses, the value of its securities will decline.

In addition, Innovate/Protect may acquire patents and technologies that are in the early stages of adoption in the commercial, industrial and consumer markets. Demand for some of these technologies will likely be untested and may be subject to fluctuation based upon the rate at which Innovate/Protect's licensees will adopt its patents and technologies in their products and services. As a result, there can be no assurance as to whether technologies Innovate/Protect acquires or develops will have value that it can monetize.

In certain acquisitions of patent assets, Innovate/Protect may seek to defer payment or finance a portion of the acquisition price. This approach may put Innovate/Protect at a competitive disadvantage and could result in harm to Innovate/Protect's business.

Innovate/Protect has limited capital and may seek to negotiate acquisitions of patent or other intellectual property assets where Innovate/Protect can defer payments or finance a portion of the acquisition price. These types of debt financing or deferred payment arrangements may not be as attractive to sellers of patent assets as receiving the full purchase price for those assets in cash at the closing of the acquisition. As a result, Innovate/Protect might not compete effectively against other companies in the market for acquiring patent assets, many of whom have greater cash resources than Innovate/Protect has. In addition, any failure to satisfy Innovate/Protect's debt repayment obligations may result in adverse consequences to its operating results.

Any failure to maintain or protect Innovate/Protect's patent assets or other intellectual property rights could significantly impair its return on investment from such assets and harm Innovate/Protect's brand, its business and its operating results.

Innovate/Protect's ability to operate its business and compete in the intellectual property market largely depends on the superiority, uniqueness and value of Innovate/Protect's acquired patent assets and other intellectual property. To protect Innovate/Protect's proprietary rights, Innovate/Protect relies on and will rely on a combination of patent, trademark, copyright and trade secret laws, confidentiality agreements with its employees and third parties, and protective contractual provisions. No assurances can be given that any of the measures Innovate/Protect undertakes to protect and maintain its assets will have any measure of success.

Following the acquisition of patent assets, Innovate/Protect will likely be required to spend significant time and resources to maintain the effectiveness of those assets by paying maintenance fees and making filings with the United States Patent and Trademark Office. Innovate/Protect may acquire patent assets, including patent applications, which require Innovate/Protect to spend resources to prosecute the applications with the United States Patent and Trademark Office. Further, there is a material risk that patent related claims (such as, for example, infringement claims (and/or claims for indemnification resulting therefrom), unenforceability claims, or invalidity claims) will be asserted or prosecuted against Innovate/Protect, and such assertions or prosecutions could materially and adversely affect Innovate/Protect's business. Regardless of whether any such claims are valid or can be successfully asserted, defending such claims could cause Innovate/Protect to incur significant costs and could divert resources away from Innovate/Protect's other activities.

TABLE OF CONTENTS

Despite Innovate/Protect's efforts to protect its intellectual property rights, any of the following or similar occurrences may reduce the value of Innovate/Protect's intellectual property:

- Innovate/Protect's applications for patents, trademarks and copyrights may not be granted and, if granted, may be challenged or invalidated;
- issued trademarks, copyrights, or patents may not provide Innovate/Protect with any competitive advantages versus potentially infringing parties;
- Innovate/Protect's efforts to protect its intellectual property rights may not be effective in preventing misappropriation of Innovate/Protect's technology; or
- Innovate/Protect's efforts may not prevent the development and design by others of products or technologies similar to or competitive with, or superior to those Innovate/Protect acquires and/or prosecutes.

Moreover, Innovate/Protect may not be able to effectively protect its intellectual property rights in certain foreign countries where Innovate/Protect may do business in the future or from which competitors may operate. If Innovate/Protect fails to maintain, defend or prosecute its patent assets properly, the value of those assets would be reduced or eliminated, and Innovate/Protect's business would be harmed.

Weak global economic conditions may cause infringing parties to delay entering into licensing agreements, which could prolong Innovate/Protect's litigation and adversely affect its financial condition and operating results.

Innovate/Protect's business plan depends significantly on worldwide economic conditions, and the United States and world economies have recently experienced weak economic conditions. Uncertainty about global economic conditions poses a risk as businesses may postpone spending in response to tighter credit, negative financial news and declines in income or asset values. This response could have a material negative effect on the willingness of parties infringing on Innovate/Protect's assets to enter into licensing or other revenue generating agreements voluntarily. Entering into such agreements is critical to Innovate/Protect's business plan, and Innovate/Protect's failure to do so could cause material harm to its business.

THE MERGER

Structure of the Merger

In accordance with the Merger Agreement and the DGCL, at the effective time, Innovate/Protect will merge with and into Merger Sub, a wholly-owned subsidiary of Vringo formed solely for the purpose of carrying out the Merger, with Merger Sub continuing as the surviving corporation and a wholly-owned subsidiary of Vringo. In connection with the Merger, each share of Innovate/Protect capital stock outstanding as of immediately prior to the effective time will be converted into the right to receive shares of Vringo common stock and Vringo preferred stock, as applicable, and warrants, all in accordance with the terms and conditions of the Merger Agreement. The Merger will become effective when a certificate of merger is filed with the Secretary of State of the State of Delaware or at such other time as agreed to by the parties and specified in the certificate of merger. If the Vringo stockholders approve the Vringo Merger Proposals, then Vringo expects the Merger to be completed as soon as practicable following the Vringo annual meeting.

What Innovate/Protect Stockholders Will Receive in the Merger

Upon completion of the Merger, each Innovate/Protect common stock stockholder will have the right to receive, for each share of the outstanding common stock of Innovate/Protect they hold, a number of shares of Vringo common stock multiplied by the Common Stock Exchange Ratio, which shall initially be 3.0176, which is subject to adjustment in the event of a reverse stock split to provide the holders of shares of Innovate/Protect capital stock with the same economic benefit as contemplated by the Merger Agreement prior to any such reverse stock split. Each share of Innovate/Protect preferred stock will automatically be converted into the right to receive the same number of shares of Vringo preferred stock, which 6,673 shares, as of May 25, 2012, shall be initially convertible into an aggregate of 20,136,445 shares of Vringo common stock (or at a current conversion rate of 3,017.6). In addition, at the effective time of the Merger, Vringo will issue to the holders of Innovate/Protect capital stock and the holder of Innovate/Protect's issued and outstanding warrant to purchase 250,000 shares of Innovate/Protect common stock (on a *pro rata* as-converted basis) an aggregate of 15,959,838 warrants to purchase an aggregate of 15,959,838 shares of Vringo common stock with an exercise price of \$1.76 per share, each subject to equitable adjustment in the event of a reverse stock split. The issued and outstanding warrant to purchase 250,000 shares of Innovate/Protect common stock will be exchanged for 250,000 shares of Vringo common stock and 850,000 warrants to purchase 850,000 shares of Vringo common stock with an exercise price of \$1.76 per share, each subject to equitable adjustment in the event of a reverse stock split. In addition, the aggregate number of shares of Vringo common stock and the aggregate number of warrants (and the aggregate number of shares of Vringo common stock that may be purchased upon exercise thereof) to be issued in exchange for the issued and outstanding warrant of Innovate/Protect shall each be ratably adjusted to give effect to any partial exercise of such warrant prior to the effective time of the Merger. Finally, at the effective time of the Merger, all outstanding and unexercised options to purchase Innovate/Protect common stock, whether vested or unvested, will be converted into options to purchase Vringo common stock with the number of shares subject to and the exercise price applicable to such options being appropriately adjusted based on the Common Stock Exchange Ratio. As a result, immediately following the completion of the Merger (without taking into account any shares of Vringo common stock held by Innovate/Protect stockholders prior to the completion of the Merger), the former stockholders of Innovate/Protect are expected to own approximately 56.30% of the outstanding common stock of the combined company (or 67.55% of the outstanding common stock of the combined company calculated on a fully diluted basis) and the current stockholders of Vringo are expected to own approximately 43.70% of the outstanding common stock of the combined company (or 32.45% of the outstanding common stock of the combined company calculated on a fully diluted basis).

Fractional Shares

No fractional shares of Vringo common stock or Vringo preferred stock will be issued to Innovate/Protect stockholders in connection with the Merger. Instead, Innovate/Protect stockholders will be entitled to receive the next highest number of whole shares of Vringo common or preferred stock in lieu of any fractional shares of Vringo common or preferred stock that they would otherwise be entitled to receive in connection with the Merger. For an additional discussion of what Innovate/Protect stockholders will receive in connection with the Merger, see the section entitled "The Merger Agreement — Merger Consideration" beginning on page [90](#).

Ownership of the Combined Company after the Completion of the Merger

Upon completion of the Merger and regardless of the exact Exchange Ratio (or any reverse stock split), the Innovate/Protect stockholders and warrant holder are expected to receive shares of Vringo common stock and preferred stock and warrants representing an aggregate of approximately 67.55% of the outstanding shares of common stock of the combined company calculated on a fully diluted basis. Vringo stockholders will continue to own their existing shares of Vringo common stock, which will not be affected by the Merger, and, unless they hold shares of Innovate/Protect capital stock, will not receive any additional shares of Vringo common stock in connection with the Merger. As a result, immediately upon completion of the Merger, such shares will represent an aggregate of approximately 32.45% of the outstanding shares of common stock of the combined company calculated on a fully diluted basis. For example, if you are a Vringo stockholder and hold 5% of the outstanding shares of Vringo common stock calculated on a fully diluted basis immediately prior to the completion of the Merger and do not also hold shares of Innovate/Protect capital stock, then upon completion of the Merger you will hold an aggregate of approximately 1.62% of the outstanding shares of common stock of the combined company calculated on a fully diluted basis as of immediately following the completion of the Merger. If you are an Innovate/Protect stockholder and hold 5% of the outstanding shares of Innovate/Protect capital stock calculated on a fully diluted basis immediately prior to the completion of the Merger and do not also hold shares of Vringo common stock, then upon completion of the Merger you will hold an aggregate of approximately 2.38% of the outstanding shares of common stock of the combined company, calculated on a fully diluted basis as of immediately following the completion of the Merger.

Treatment of Innovate/Protect Stock Options and Warrants

Stock Options

At the effective time of the Merger, each outstanding and unexercised option to purchase Innovate/Protect common stock, whether vested or unvested, will be converted into and become an option to purchase Vringo common stock and Vringo will assume such Innovate/Protect stock option in accordance with the terms of the Innovate/Protect 2011 Equity Incentive Plan. After the effective time of the Merger, (a) each Innovate/Protect stock option assumed by Vringo may be exercised solely for shares of Vringo common stock and (b) the number of shares of Vringo common stock and the exercise price subject to each Innovate/Protect stock option assumed by Vringo shall be determined by the Common Stock Exchange Ratio. As of May 25, 2012, the outstanding and unexercised Innovate/Protect stock options to purchase 13,646 shares of Innovate/Protect common stock will be converted into and become options to purchase an aggregate of 41,178 shares of Vringo common stock at an exercise price of \$0.994 per share.

As of _____, 2012, the latest practicable date before the printing of this proxy statement/prospectus, there were outstanding options to purchase 13,646 shares of Innovate/Protect capital stock. For an additional discussion of the treatment of Innovate/Protect stock options, see the section entitled “The Merger Agreement — Merger Consideration” beginning on page [90](#).

Warrants

At the effective time of the Merger, Vringo will issue to the holders of Innovate/Protect capital stock and the holder of Innovate/Protect’s issued and outstanding warrant to purchase 250,000 shares of Innovate/Protect common stock (on a *pro rata* as-converted basis) an aggregate of 15,959,838 warrants to purchase an aggregate of 15,959,838 shares of Vringo common stock with an exercise price of \$1.76 per share, each subject to equitable adjustment in the event of a reverse stock split. The issued and outstanding warrant to purchase 250,000 shares of Innovate/Protect common stock will be exchanged for 250,000 shares of Vringo common stock and 850,000 warrants to purchase 850,000 shares of Vringo common stock with an exercise price of \$1.76 per share, each subject to equitable adjustment in the event of a reverse stock split. In addition, the aggregate number of shares of Vringo common stock and the aggregate number of warrants (and the aggregate number of shares of Vringo common stock that may be purchased upon exercise thereof) to be issued in exchange for the issued and outstanding warrant of Innovate/Protect shall each be ratably adjusted to give effect to any partial exercise of such warrant prior to the effective time of the Merger.

As of _____, 2012, the latest practicable date before the printing of this proxy statement/prospectus, there was an outstanding warrant to purchase 250,000 shares of Innovate/Protect capital stock. For

an additional discussion of the treatment of Innovate/Protect warrants, see the section entitled “The Merger Agreement — Merger Consideration” beginning on page [90](#).

Background of the Merger

The terms of the merger are the result of negotiations that took place between executives and board members of Vringo, executives and board members of Innovate/Protect, partners of Hudson Bay Capital Management LP (“**Hudson Bay Capital**”), the investment manager for Innovate/Protect’s controlling shareholder, Hudson Bay.

Vringo’s Background

Vringo was incorporated in January 2006 and is still a development stage company. Vringo’s principal executive offices are located in New York, New York and its subsidiary, Vringo (Israel) Ltd., is located in Beit Shemesh, Israel. On June 25, 2010, Vringo successfully completed its initial public offering on the NYSE Amex. During the period from February 2011 through the entry into the Merger Agreement, Vringo has explored a number of potential mergers to maximize shareholder value.

Innovate/Protect’s Background

Innovate/Protect was incorporated under the laws of the state of Delaware on June 8, 2011 as Labrador Search Corporation. On September 6, 2011, Labrador Search Corporation changed its name to Innovate/Protect, Inc. Innovate/Protect is a holding company, which owns 100% of the issued and outstanding common stock of I/P Engine, Inc. (“**I/P Engine**”) and I/P Labs, Inc. (“**I/P Labs**” and together with I/P Engine, the “**I/P Subsidiaries**”). I/P Engine was incorporated in Virginia on June 14, 2011, as Smart Search Labs, Inc. Smart Search Labs, Inc. changed its name to I/P Engine, Inc. on September 9, 2011. I/P Engine operates for the purpose of realizing economic benefits from a collection of patents related to search engine technology. I/P Labs was incorporated in Delaware on June 8, 2011 as Scottish Terrier Capital, Inc. and changed its name to I/P Labs, Inc. on September 9, 2011. I/P Labs, Inc. operates to acquire or develop other patented technologies or intellectual property. Innovate/Protect’s principal offices are located in New York City.

Contemporaneously with the formation of Innovate/Protect, on June 22, 2011, Innovate/Protect consummated a private placement transaction with Hudson Bay whereby Hudson Bay purchased 6,968 shares of Innovate/Protect’s Series A Convertible Preferred Stock for \$1,800,000 and a \$3,200,000 Senior Secured Note.

Innovate/Protect has raised an aggregate of \$5,145,229 through the sale of its common stock to investors other than Hudson Bay pursuant to private placement transactions. On August 31, 2011, Innovate/Protect closed a private placement of 1,250,000 shares of its common stock to an aggregate of five accredited investors for an aggregate purchase price of \$1,250,000. On October 26, 2011, Innovate/Protect conducted the final closing of a private placement of an aggregate 1,000,000 shares of its common stock to an aggregate of 32 accredited investors for an aggregate purchase price of \$3,000,000. On December 30, 2011, Innovate/Protect conducted the final closing of a private placement of an aggregate 225,758 shares of its common stock to an aggregate of six accredited investors for an aggregate purchase price of \$745,001.

History of Events

On December 22, 2011, Sander Gerber, Chief Executive Officer of Hudson Bay Capital and a Vringo stockholder, met with John Engelman, a director of Vringo, and at the suggestion of Alexander R. Berger, the Chief Operating Officer and a director of Innovate/Protect, briefly discussed a potential merger between Vringo and Innovate/Protect. Mr. Gerber originally became a Vringo stockholder through his pension plan prior to Vringo’s initial public offering, at the suggestion of then Chief Executive Officer, Jonathan Medved, with whom Mr. Gerber was acquainted socially. Mr. Gerber, through his pension plan, initially acquired 28,748 shares of Vringo common stock, representing approximately 0.2% of the outstanding shares (as of May 25, 2012), and has not engaged in any personal transactions in Vringo common stock since then.

On December 23, 2011, Mr. Engelman provided an introduction between Yoav Roth, a partner of Hudson Bay Capital, the Investment Manager of Hudson Bay, and then-Chairman of Innovate/Protect, and Andrew Perlman, then-President and a director of Vringo.

TABLE OF CONTENTS

On January 3, 2012, an introductory meeting took place between Messrs. Roth, Berger and Perlman at Hudson Bay Capital's offices. The history of Innovate/Protect, mission statement of Innovate/Protect, patent portfolio and outstanding litigation were discussed. Mr. Perlman provided an overview of Vringo's business, organization and current capital structure. As a result of the meeting, Messrs. Perlman, Roth and Berger decided that they would have internal discussions with other members of their respective boards and management regarding next steps and the potential for a future merger.

On January 4, 2012, Vringo's board of directors held a call and discussed a number of potential merger scenarios. In addition to Innovate/Protect, Vringo considered five potential merger scenarios that had been proposed to Vringo. The Vringo board believed that two of the proposed merger scenarios were serious proposals worthy of consideration. Both of these potential merger proposals were in relation to operating companies, one company that primarily supplies infrastructure to mobile operators and another company that is a mobile content and mobile social network company. Under each of the scenario alternatives, the Vringo stockholders would have been the minority stockholders. The board of directors authorized Mr. Perlman to negotiate the terms of a potential deal with Innovate/Protect on a non-exclusive basis.

On January 6, 2012, Messrs. Berger and Perlman met at Vringo's offices to begin discussions on potential merger terms. They were joined by Clifford Weinstein, Vringo's Executive Vice President, and Andrew K. Lang, the Chief Executive Officer and a director of Innovate/Protect. The framework of a potential stock-for-stock merger was discussed and Mr. Perlman was tasked with presenting Innovate/Protect with a term sheet. The parties did not discuss the merger consideration. Mr. Berger provided Mr. Perlman with Innovate/Protect's most recent financial statements.

On January 9, 2012, Mr. Perlman sent headline terms (or principal deal terms) for an opening offer on a draft term sheet to Messrs. Roth and Berger. Mr. Perlman proposed that Vringo and Innovate/Protect would effect a business combination in a stock-for-stock merger where, in exchange for all outstanding securities of Innovate/Protect, Vringo would issue 20 million shares of common stock, 10 million warrants exercisable at \$2.00 per share, five million warrants exercisable at \$2.50 per share, and five million warrants exercisable at \$3.50 per share. Mr. Perlman advanced the concept that certain series of the warrants would only be issued if the combined company's common stock traded above certain levels within a certain amount of time following the merger. Mr. Perlman's proposal did not indicate the expiration date for the warrants. On January 9, 2012, Vringo common stock had a closing price of \$0.96 per share. Therefore, the common stock portion of the proposed consideration had a value equal to approximately \$19.2 million. The parties did not discuss how each party would value the warrants. Thereafter, Mr. Perlman had a call with Mr. Berger where Mr. Berger agreed that he would provide comments and additional points that would be negotiated, including the duration of the warrants and treatment of Innovate/Protect's outstanding debt to Hudson Bay. Mr. Berger held informal discussions with each member of the Innovate/Protect board of directors and shared the headline terms provided by Mr. Perlman, which included the general background and history of Vringo, merger consideration offered by Vringo, and that Vringo would appoint four of the seven directors to the combined company's board of directors.

From January 10 through January 12, 2012, a number of additional telephone calls were held while Mr. Perlman was traveling in Asia to discuss additional outstanding deal points, including a timeline for the proposed merger that identified milestones such as executing a letter of intent, completing due diligence, executing a definitive agreement, filing a preliminary proxy statement, and scheduling a meeting of Vringo's stockholders to approve the proposed transaction. With respect to the economic terms of the proposed transaction, Mr. Berger initially counter proposed during negotiations that Vringo would issue 60 million shares, but and ultimately indicated that Innovate/Protect would not be able to engage any offer that was not at a premium to Innovate/Protect's valuation in its most recent round of financing, which was approximately \$42 million. At that point, the 30-day volume weighted average price of Vringo common stock was \$1.02, and therefore approximately 40 million shares of Vringo stock would be required. Mr. Berger did not negotiate for a specific premium or range that was above Innovate/Protect's most recent valuation for the common stock portion of the merger consideration.

On January 13, 2012, when Mr. Perlman returned to New York, Messrs. Perlman, Roth and Berger discussed top line deal terms and decided to proceed with planning items relating to the potential merger of

TABLE OF CONTENTS

Innovate/Protect and Vringo. A number of meetings and calls occurred between Messrs. Perlman, Weinstein, Roth, Berger and Lang, and external counsel and accounting firms, Mintz Levin Cohn Ferris Glovsky & Popeo, P.C. (“Mintz”), Somekh Chaikin, a member firm of KPMG International (“KPMG”), and Schulte Roth & Zabel LLP. While top line deal terms, including that Vringo would issue approximately 40 million shares of common stock, plus warrants to purchase common stock, to Innovate/Protect as merger consideration, appeared agreeable to both sides, details regarding the valuation of warrants to purchase common stock that would be issued to Innovate/Protect stockholders, and the features of the preferred stock that would be issued to Hudson Bay as merger consideration remained outstanding. Specifically, the parties’ discussion focused on the expiration of the warrants and the protective features that would be included in the preferred stock. On January 13, 2012, Vringo’s common stock had a closing price of \$0.96 per share. Therefore, the common stock portion of the proposed consideration had a value equal to approximately \$39.2 million. On January 18, 2012, Seth M. Siegel, the Chairman of Vringo’s board of directors and Messrs. Engelman and Perlman met with Messrs. Lang and Berger to discuss Innovate/Protect’s business model.

Later in the day on January 18, 2012, Mr. Berger sent Mr. Perlman a term sheet which stated that Vringo would issue preferred stock convertible into 21.7 million shares of common stock in exchange for the outstanding Innovate/Protect preferred stock and 18.3 million shares of common stock in exchange for the outstanding Innovate/Protect common stock. On January 18, 2012, Vringo’s common stock had a closing price of \$0.94 per share. Therefore, the common stock portion of the proposed consideration had a value equal to approximately \$37.6 million. In addition, Vringo would issue four million warrants exercisable at \$0.94 per share for five years (the “Series A Warrants”), and 12 million warrants exercisable at \$2.00 per share for five years (the “Series B Warrants”). Additionally, Vringo would assume Innovate/Protect’s outstanding indebtedness to Hudson Bay, but Hudson Bay’s option to redeem \$2 million of the \$3.2 million outstanding would be removed, and replaced with an option for Hudson Bay to redeem (a) up to 50% of the outstanding principal amount when the combined company had over \$10 million of cash or cash equivalents, and (b) the entire outstanding principal amount when the combined company had over \$15 million of cash or cash equivalents. In addition, Hudson Bay would be allowed to require the combined company to use up to 20% of cash raised by any debt or equity sale to prepay the debt. The term sheet also stated that the combined company’s board of directors would include Messrs. Siegel, Engelman and Perlman from the current Vringo board of directors, and Messrs. Berger and Lang, Donald E. Stout and H. Van Sinclair from the current Innovate/Protect board of directors.

On January 19, 2012, the Vringo board of directors held a call to review the terms of the Innovate/Protect merger as well as other strategic alternatives. Vringo continued to discuss the alternative transactions that had been discussed at the previous meeting. The board of directors concluded that Vringo should move forward with the merger between Innovate/Protect and Vringo, as well as leaving open other potential transactions that might maintain or enhance stockholder value. At that point, Vringo had received proposed term sheets from the two alternatives previously discussed and performed preliminary due diligence on one of them.

On January 22, 2012, Mr. Perlman responded to Mr. Berger’s term sheet with a revised term sheet that agreed with the amounts of preferred stock and common stock issuable, as well as the quantities of warrants issuable, but added a feature that the Series A Warrants would be exercisable for one year instead of five years, and redeemable if the combined company’s common stock traded above 150% of the exercise price for 20 consecutive days, and that the Series B Warrants would be redeemable if the combined company’s stock traded above 125% of the exercise price for 20 consecutive days. On January 20, 2012, the trading day immediately preceding January 22, 2012, Vringo’s common stock had a closing price of \$0.90 per share. Therefore, the common stock portion of the proposed consideration had a value equal to approximately \$36 million.

On January 23, 2012, Messrs. Roth, Berger, Perlman and Weinstein met to discuss outstanding items on the term sheet, including the features of the preferred stock that would be issued to Hudson Bay as merger consideration. In particular, the parties discussed Mr. Roth’s comments that the preferred stock to be issued to Hudson Bay would contain the following provisions: (i) special rights upon changes of control, fundamental transactions, and liquidation events, (ii) covenants with respect to the combined company’s cash burn, (iii) covenants that treated the preferred holder as an equity holder in the event of a rights offering by the

TABLE OF CONTENTS

combined company, (iv) a covenant that the company would not incur indebtedness or any other instrument senior to the preferred for 18 months, and (v) full-ratchet anti-dilution protection for the first two years and weighted-average anti-dilution thereafter. Mr. Perlman responded that (i) standard change of control provisions were acceptable, (ii) a cash burn covenant was not acceptable, (iii) covenants for purchase rights protections were acceptable, (iv) the parties could discuss restrictions on indebtedness at a later point, and (v) anti-dilution provisions on the preferred were not acceptable.

On January 25, 2012, Messrs. Berger, Lang, Perlman and Weinstein met to discuss the capital market strategy should a deal be completed. As part of that strategy discussion, the parties met with an analyst from an investment bank for informal advice.

From January 26 to 28, 2012, the parties engaged in further discussions regarding the features of the warrants that would be issued to Innovate/Protect stockholders as merger consideration, plans for the budget priorities of the combined company, and covenants for uses of cash between the execution of the merger agreement and closing. Specifically, the parties agreed to compromise with respect to anti-dilution protection in the warrants where some warrants would have anti-dilution protection and others would not. The parties had not discussed the number of shares of common stock that would be issued. On January 27, 2012, Vringo's common stock closed at \$1.01 per share. Therefore, the common stock portion of the proposed consideration had a value equal to approximately \$40.4 million.

On January 29, 2012, the Vringo board of directors held a conference call to discuss the Innovate/Protect merger, additional strategic alternatives, as well as the ongoing deal negotiations with another party. Of the alternatives previously discussed, the Vringo board only believed that there was one serious alternative proposal. That alternative was an operating company that supplies infrastructure and services to mobile operators. The Vringo stockholders would have been the minority stockholders post-deal. The alternative proposal would have also required an additional capital raise of at least \$6 million prior to closing. The relative percentage of Vringo ownership of the combined entity post-deal on a fully diluted basis was materially similar to the Innovate/Protect merger, however, based on a number of comparable public companies, the board of directors concluded that the alternative proposal would not be in the best interests of stockholders as the combined entity would not command the same valuation, *i.e.* number of shares outstanding post-merger multiplied by share price, in the public markets as the transaction with Innovate/Protect.

On January 30, 2012, the news media reported that Facebook, Inc. intended to file a Form S-1 registration statement with the U.S. Securities and Exchange Commission for its initial public offering, and the website *Seeking Alpha* published an article entitled "Why Wait for IPO When You Can Buy Facebook's Friends Today" featuring Vringo. Subsequent to these events, the price of Vringo shares closed at \$1.16 per share, \$0.165 above the average of the preceding 30 days' closing prices, which was \$0.995. Volume increased to 1,068,133 shares, over 9.5 times the average trading volume for the preceding 30 days, which was 107,230 shares per day.

On January 31, 2012, Mr. Berger and Ms. Cohl participated in a teleconference with KPMG, which performed the financial due diligence of Innovate/Protect for Vringo. KPMG requested that Innovate/Protect provide (i) its most recent financial statements, (ii) its trial balance for fiscal year 2011, (iii) minutes from the meetings of the board of directors, (iv) a breakdown of the accrued liabilities for fiscal year 2011, (v) the budget estimates, and (vi) copies of outstanding securities. During the teleconference, KPMG asked Mr. Berger to walk him through these documents, and Mr. Berger did so. Mr. Berger and Mr. Perlman did not discuss the economic terms of the merger at this time. On January 31, 2012, Vringo common stock had a closing price of \$1.40 per share. Therefore, the common stock portion of the proposed consideration had a value equal to approximately \$56 million.

On February 2, 2012, the Vringo board of directors held a conference call to discuss the current increase in the company's market capitalization. The board chose to explore its ability to raise capital while continuing its merger talks.

On February 3, 2012, Messrs. Berger and Perlman traveled to Washington, DC for legal due diligence. They were accompanied by Vringo's intellectual property counsel from Mintz. Mr. Berger and Mr. Perlman did not discuss the economic terms of the merger at this time. Vringo's common stock had a closing price of

TABLE OF CONTENTS

\$1.76 per share. Therefore, the common stock portion of the proposed consideration had a value equal to approximately \$70.4 million. Later in the day, the Innovate/Protect board of directors held a conference call of their own to discuss the terms of the proposed transaction with Vringo.

On February 5, 2012, the Vringo board of directors held a conference call to discuss its options given the high trading volume of its stock and its increase in price. Upon the recommendation of management, the board of directors agreed that the best way to ensure value for its stockholders would be to terminate all merger discussions in order to negotiate with its warrant holders and improve the financial condition of the company.

On February 6, 2012, Mr. Perlman contacted Messrs. Berger and Roth and stated that due to conditions in the capital markets, Vringo's board of directors has chosen to cease negotiations with Innovate/Protect with respect to a potential merger. Subsequent to their telephone conversations Mr. Perlman notified Messrs. Berger and Roth in writing via e-mail that negotiations would cease.

On February 6, 2012, Vringo attained one million downloads of its flagship *Facetones* application. Following the release of this news, Vringo's common stock traded over 4.8 million shares. Messrs. Perlman and Weinstein proceeded to discuss with certain holders of its \$0.936 warrants to exercise their warrants by offering them new five-year warrants exercisable for \$1.76 per share. As a result of these warrant exercises, Vringo raised \$3.6 million through the exercise of 3,828,993 warrants. New warrants to purchase 2,660,922 shares of common stock were issued between February 6 and February 9, 2012. As a result of an improved capitalization structure, cash balance and trading volume, Vringo was approached by a number of third parties with respect to a potential transaction. These third parties were operating companies in the mobile content, applications and services industries and were of varying size. In addition to a merger, Vringo considered raising additional capital and growing the business on a stand-alone basis.

On February 10, 2012, Mr. Berger called Mr. Perlman to discuss reengaging in potential merger talks. On a conference call later in the day, Messrs. Perlman and Weinstein discussed with Messrs. Lang and Berger that as a result of Vringo's increased cash position, higher share price and trading volume, a number of alternatives had become available to the company and it was unclear if they could proceed at that point.

On February 13, 2012, Messrs. Perlman and Berger spoke by telephone and decided that simultaneous meetings between (i) Messrs. Perlman, Weinstein and Berger and (ii) Josh Wolff, who was travelling in New York, and Mr. Lang, would better inform the parties' decision on whether to re-engage in merger discussions. Messrs. Wolff and Lang discussed the potential strategic directions for the existing Vringo technology business. While this meeting occurred, Messrs. Perlman and Weinstein received an update on Innovate/Protect's progress from Mr. Berger.

On February 15, 2012, Messrs. Roth, Lang and Berger invited Messrs. Perlman and Weinstein to Hudson Bay Capital's offices to discuss new deal terms. Mr. Perlman indicated the number of shares it would issue to Innovate/Protect would be reduced from its previous offer. Mr. Berger indicated that in the period of time in which negotiations had been terminated, the value of Innovate/Protect had increased due to a number of factors, including: (i) Innovate/Protect had received a scheduling order in the Litigation, (ii) David Cohen had joined Innovate/Protect as special counsel, and (iii) Innovate/Protect had been approached by at least one other company interested in acquiring it. As a result of the meeting, the parties agreed to re-engage in merger discussions. Mr. Berger sent Mr. Perlman a new draft term sheet. This term sheet differed from the most recent term sheet prior to the termination of merger discussions in that, rather than have Vringo issue a fixed number of shares (previously, 40 million), Vringo would issue a number of shares of common stock and shares of convertible preferred stock to the existing holders of such securities equal to the quotient of (i) \$45,000,000 divided by (ii) if a definitive agreement is executed after February 21, 2012, a to be determined discount factor multiplied by the average of each of the thirty (30) daily volume weighted average prices of Vringo common stock (as reported by Bloomberg on the HP screen) for the period immediately preceding the execution and delivery of the definitive agreement (the "Vringo VWAP Price"); provided that in no event would the number of shares issued be (i) less than 31 million or (ii) greater than 38.250 million. Further, rather than Vringo issue a fixed number of warrants (previously, four million warrants exercisable at \$0.94 per share and 12 million warrants exercisable at \$2.00 per share), Vringo would issue warrants to purchase common stock at an exercise price of \$1.76 per share, where the number of warrants issued would

TABLE OF CONTENTS

be equal to 42% of the sum of the shares of common stock underlying the convertible preferred stock and shares of common stock issued. The warrants would be in substantially the same form as the warrants recently issued by Vringo that are exercisable at \$1.76 for five years. The warrants would be issued in two series, identical in all respects, except that one series, which shall account for 60% of the total, shall contain a “most favored nations” clause, which provided that the exercise price would be adjusted if Vringo issued warrants with a lower exercise price in the future.

Further negotiations continued through February 18, 2012 when a confidential non-binding term sheet between the parties was agreed upon pending approval by the Vringo and Innovate/Protect board of directors. The term sheet agreed upon on February 18, 2012 differed from the term sheet sent by Mr. Berger to Mr. Perlman on February 15, 2012, in the following material respect: 52%, instead of 60%, of the total number of warrants issued would contain a “most favored nations” clause.

On February 18, 2012, Messrs. Lang, Berger, Perlman and Weinstein met at Vringo’s offices to discuss plans for the merger, including mutual due diligence.

On February 21, 2012, Messrs. Berger and Perlman addressed additional concerns regarding the term sheet. Specifically, the term sheet contemplated a reverse triangular merger, which Vringo’s tax counsel advised could adversely affect the tax-free treatment of the consideration to be received by Innovate/Protect’s stockholders.

On February 22, 2012, Messrs. Berger and Weinstein met and discussed strategies for the joint business. Specifically, the parties discussed Vringo’s global platform for the creation and distribution of mobile applications, and its relationships with carrier partners, handset makers and content partners, and how Mr. Lang could most easily be integrated into Vringo’s development activities in Israel. The parties discussed the collective experiences of Messrs. Siegel, Engelman and Perlman in licensing intellectual property, with a focus on trademarks and copyrights, as well as the collective experiences of Messrs. Stout and Cohen in intellectual property litigation with a focus on patents. The parties generally resolved that the core competencies of the company’s executive team and board of directors included innovation, licensing, and protection of intellectual property.

On February 23, 2012, Vringo’s board of directors held a board meeting to approve the terms set forth in the proposed confidential non-binding term sheet. The board also received an update on the company’s capital market strategy and alternatives that the company could explore at that point. At that point, Vringo’s management believed that the alternative offers seemed less likely to close because one of the target companies required a significant amount of time to prepare its financial statements in accordance with U.S. GAAP and the other target company would require too much additional outside capital to give the transaction a reasonable chance of closing. In addition, based on management’s preliminary analysis, none of such alternatives provided more value to Vringo’s stockholders than the current offer from Innovate/Protect. The Vringo board concluded that the merger with Innovate/Protect was the best possible outcome for its stockholders and as a result gave Mr. Perlman the authorization to move forward under the terms of the deal.

On February 23, 2012, Innovate/Protect’s board of directors adopted a resolution by written consent to establish an independent committee to conduct due diligence and report to the full board of directors of Innovate/Protect. Innovate/Protect established the special committee to consist of the four directors that would survive the merger, Messrs. Lang, Berger, Stout and Sinclair, with Mr. Berger serving as chair. The board authorized Mr. Berger to select and retain independent advisors as necessary to assist in analyzing the potential transaction with Vringo. Mr. Roth did not serve on the special committee because he would not continue on the board of directors following the merger, and did not want to be aware of any non-public details of Vringo’s business following the public announcement of the merger.

From February 24 – 28, 2012, the parties engaged in mutual due diligence, drafted and negotiated the definitive merger agreement and related documents. During this period, the material issues negotiated included the definition of a material adverse effect and the restrictions that the parties would place on one another between the execution of the definitive agreement and the closing of the merger. The parties conducted mutual due diligence and reviewed the representations and warranties that each would make to the other, including, representations and warranties regarding organization, subsidiaries, capital structure, required filings, financial

statements, board approval, absence of undisclosed liabilities, absence of certain changes or events, agreements, contracts, commitments, material permits, employees, taxes, intellectual property, disclosure, certain business practices, books and records, employee benefit plans, tangible assets, leases, and insurance. Additionally, the companies agreed that upon the execution of the definitive agreement, they would immediately cease and cause to be terminated any existing activities, discussions or negotiations with any persons conducted previously with respect to an alternative acquisition proposal.

On February 29, 2012, Messrs. Berger, Cohen, Perlman and Weinstein traveled to Washington, D.C. for meetings, which included meetings with Mr. Stout and Mr. Sinclair, and with counsel. The purpose of the trip to Washington, D.C. was for Messrs. Perlman and Weinstein to meet Messrs. Stout and Sinclair. No material negotiations regarding the price or terms of the transaction took place.

On March 5, 2012, Mr. Perlman held a call with Vringo's director Philip Serlin and separately an in person meeting with Geoffrey Skolnik to update them on the progress of the transaction.

On March 7, 2012, Mr. Perlman held a call with Messrs. Engelman and Siegel to update them on the progress of the transaction.

On March 7, 2012, the Vringo board of directors held a conference call to discuss outstanding issues relating to the definitive agreement, including break-up fees. In addition, the Vringo board of directors provided the authorization to retain Etico Capital to render an opinion as to whether the Merger consideration was fair, from a financial point of view, to the stockholders of Vringo. Vringo's board of directors retained Etico Capital on March 7, 2012.

On March 8, 2012, Messrs. Berger, Roth, Gerber, Engelman and Perlman met at Hudson Bay Capital's offices to discuss number of outstanding issues. The parties discussed that the term sheet had established February 21, 2012 as the outside date for the current formula, and that market fluctuations in Vringo's stock had distorted the originally agreed-upon formula. The parties recognized that the number of shares issuable pursuant to the term sheet formula on February 21, 2012 was 36,976,981. Messrs. Perlman and Engelman informed Messrs. Berger, Roth and Gerber that Vringo had elected to issue 1.7 million options to purchase common stock at the then current market price of \$1.65, in the aggregate, to members of its executive management team and board of directors as compensation for past performance and changes in roles and duties among senior management. The parties determined that rather than mirror the issuance to Innovate/Protect stockholders as warrants, Vringo would issue 38 million shares to Innovate/Protect which was within the range contemplated by the term sheet.

As noted above, the parties did not negotiate the merger consideration (e.g., price) from February 23, 2012 until March 8, 2012, when the final amounts were agreed upon.

Drafting of the definitive merger agreement and related documents continued through March 8 and 9, 2012.

On Sunday, March 11, 2012, the Vringo board of directors held a telephonic board meeting where it reviewed a presentation and the draft fairness opinion provided by Etico Capital and considered the approval of the final terms and conditions of the merger agreement. The fairness opinion was based on the assumptions, qualifications and limitations set forth in their written fairness opinion, the merger consideration to be issued by Vringo in connection with the merger was fair, from a financial point of view, to the stockholders of Vringo (other than those who own, or whose affiliates own, securities of Innovate/Protect, regarding which Etico Capital expressed no view). The Vringo board of directors approved and adopted, by a unanimous vote, the merger agreement and the merger and declared the merger agreement and the merger to be advisable, fair to, and in the best interests of Vringo and its stockholders and recommended that the Vringo stockholders vote in favor of the merger agreement and the merger.

On Monday, March 12, 2012, Etico Capital delivered its final fairness opinion which was circulated to the Vringo board of directors. Messrs. Berger, Perlman and Weinstein met at Mintz's offices, each with counsel, to complete all outstanding items. Vringo's counsel and Mr. Perlman consulted with Mr. Engelman on a number of issues throughout the day with Ms. Cohl participating in a number of calls. The day concluded with the parties signing the definitive merger agreement and the related documents, which the parties

TABLE OF CONTENTS

announced via a joint press release, followed by a joint conference call to answer initial questions from investors and analysts on March 14, 2012.

On April 4, 2012, Vringo, Merger Sub and Innovate/Protect consented and agreed to modify the requirement that the registration statement containing the proxy statement be filed with the SEC from 15 business days from the date of the Merger Agreement to 19 business days from the date of the Merger Agreement. In addition, the parties agreed to clarify that the exchange ratios and shares issuable in connection with the Merger shall be equitably adjusted to reflect the reverse stock split, if any, and the aggregate number of shares of Vringo common stock and the aggregate number of warrants (and the aggregate number of shares of Vringo common stock that may be purchased upon exercise thereof) to be issued in exchange for the Innovate/Protect warrant shall each be ratably adjusted to give effect to any partial exercise of the Innovate/Protect warrant prior to the effective time of the Merger.

Recommendations of the Vringo Board of Directors and its Reasons for the Merger

The Vringo board of directors, after considering the factors described below, (i) has determined that the Merger Agreement and the transactions contemplated thereby, including the Merger, are advisable and fair to, and in the best interests of, Vringo and its stockholders, (ii) has approved the Merger Agreement and each of the amendments to Vringo's Certificate, and (iii) recommends that the Vringo stockholders vote FOR the Vringo Merger Proposals. The board of directors made its recommendation to the Vringo stockholders after considering the factors described in this proxy statement/prospectus. The Vringo board of directors consulted with Vringo's senior management in evaluating the Merger. In addition, the Vringo board of directors considered a number of factors that they believed supported their respective decisions to take the foregoing actions, including, but not limited to, the following:

- the belief that the combination of Vringo's and Innovate/Protect's businesses would create more value for the Vringo stockholders in the long-term than Vringo could create as a stand-alone business given the challenges in its business and those presented by a volatile economy;
- the fact that Vringo has not managed to create a revenue stream of significance nor does management believe that Vringo will be able to create a revenue of significance in the short-term;
- the ability to create long-term value for Vringo stockholders would require the need for Vringo to raise additional capital which the Vringo board believed would be dilutive to its stockholders and impair the value of Vringo common stock;
- the Vringo board of directors' consideration of strategic alternatives to the Merger in the form of a potential equity fundraising, a sale of the business or other merger scenarios considered by the Vringo board in the mobile applications, mobile infrastructure, online video, mobile gaming and mobile social networking industries or continuing to operate Vringo on a stand-alone basis;
- the opportunity for the Vringo stockholders to participate in the potential future value of the combined company;
- the consideration of Vringo short- and long-term performance on a stand-alone basis;
- the belief that the Merger is more favorable to the Vringo stockholders than the alternatives to the Merger;
- the terms and conditions of the Merger Agreement, including, but not limited to, the closing condition with respect to the Litigation which states that Innovate/Protect has not settled, discharged or released any of its claims relating to the Litigation or assigned or granted any security interest in any of those claims and that there has been no dismissal of the Litigation;
- the fairness opinion of Etico Capital;
- the likelihood that the Merger will be completed on a timely basis; and

TABLE OF CONTENTS

- the fact that the Common Stock Exchange Ratio will not fluctuate based upon changes in the price of Vringo common stock or the value of Innovate/Protect capital stock prior to the completion of the Merger, which protects the Vringo stockholders from any materially negative trends in the price of Vringo common stock.

The Vringo board of directors also considered a number of potentially negative factors in its deliberations concerning the Merger, including:

- the general challenges associated with successfully integrating two companies;
- the failure to integrate successfully the businesses of Vringo and Innovate/Protect in the expected timeframe could adversely affect the combined company's future results following the completion of the Merger;
- the risk that Innovate/Protect will be unable to achieve a positive verdict or settlement in the Litigation;
- the possible volatility, at least in the short term, of the trading price of Vringo common stock resulting from the public announcement of the Merger;
- the announcement and pendency of the Merger could have an adverse effect on Vringo's stock price and/or the business, financial condition, results of operations, or business prospects for Vringo and/or Innovate/Protect;
- the potential loss of key employees critical to the ongoing success of the combined company's business;
- the interests of Vringo directors and executive officers in the Merger, including the matters described under the section entitled "The Merger — Interests of Vringo Directors and Executive Officers in the Merger" beginning on page [82](#);
- the impact of certain deal protection measures contained in the Merger Agreement on Vringo, its business and operation, including the restrictions on Vringo's ability to solicit better offers;
- the risk that conditions to the completion of the Merger will not be satisfied and that the Merger may not be completed in a timely manner or at all;
- the ability of Innovate/Protect's current stockholders and board members to significantly influence the combined company's business following the completion of the Merger;
- the ability of Innovate/Protect to terminate the Merger Agreement for any reason;
- the requirement that Vringo receive approval from NYSE Amex for the listing of Vringo's common stock to be issued in connection with the Merger; and
- the other risks described above under the section entitled "Risk Factors" beginning on page [41](#).

This discussion of the information and factors considered by the Vringo board of directors is not intended to be exhaustive but is intended to summarize all material factors considered by the Vringo board of directors in connection with its approval and recommendation of the Merger and the other related transactions described in this proxy statement/prospectus. In view of the wide variety of factors considered, Vringo board of directors has not found it practicable to quantify or otherwise assign relative weights to the specific factors considered. However, the Vringo board of directors concluded that the potential benefits of the Merger outweighed the potential negative factors and that, overall, the Merger had greater potential benefits for the Vringo stockholders than other strategic alternatives, including continuing to operate Vringo as a stand-alone publicly traded company on the NYSE Amex. Therefore, after taking into account all of the factors set forth above, the Vringo board of directors determined that the Merger Agreement and the transactions contemplated thereby, including the Merger, are advisable and fair to, and in the best interests of, Vringo and its stockholders and that Vringo should enter into the Merger Agreement and take all actions necessary to complete the Merger.

Opinion of Etico Capital to the Vringo Board of Directors

The board of directors of Vringo engaged Etico Capital to provide a fairness opinion to the board of directors. The board of directors selected Etico Capital based on the reputation and investment banking experience of Etico Capital and its principals. Etico Capital provides investment banking services, including merger and acquisition advisory services, to a wide range of companies in various industries. On March 11, 2012, Etico Capital provided the Vringo board of directors with a presentation and a draft of the fairness opinion. On March 12, 2012, Etico Capital delivered its final written opinion to the Vringo board of directors that, as of such date, and based upon and subject to the various assumptions and limitations set forth in its written opinion, the Merger consideration to be issued is fair, from a financial point of view, to holders of Vringo common stock (other than those who own, or whose affiliates own, securities of Innovate/Protect, regarding which Etico Capital expressed no view).

The full text of the written opinion, dated as of March 12, 2012, of Etico Capital is attached as Annex H to this proxy statement/prospectus. The opinion sets forth, among other things, the assumptions made, matters considered and limitations on the review undertaken by Etico Capital. Holders of Vringo common stock are urged to, and should, read the Etico Capital opinion carefully and in its entirety. The Etico Capital opinion is directed to the Vringo board of directors and addresses only the fairness of the Merger consideration from a financial point of view to holders of Vringo common stock (other than those who own, or whose affiliates own, securities of Innovate/Protect, regarding which Etico Capital expressed no view) as of the date of the opinion. The Etico Capital opinion does not address any other aspect of the Merger and does not constitute a recommendation to any holder of Vringo common stock as to how to vote on the Vringo Merger Proposals at the annual meeting. Etico Capital's opinion does not address the underlying business decision to enter into the Merger Agreement or the Merger, nor does it evaluate alternative opportunities, alternative transaction structures or other financial or strategic alternatives. The summary of the Etico Capital opinion set forth in this proxy statement/prospectus is qualified in its entirety by reference to the full text of such opinion.

In connection with rendering its opinion and performing its related financial analysis, Etico Capital, among other things:

- reviewed a draft, dated March 10, 2012, of the Merger Agreement and the exhibits thereto, which, for the purposes of its opinion, Etico Capital assumed to be, in all material respects, identical to the Merger Agreement as entered into;
- reviewed the audited financial statements of Vringo as of and for the year ended December 31, 2010 and unaudited financial statements of Vringo as of and for the three and nine months ended September 30, 2011;
- reviewed the audited financial statements of Innovate/Protect for the period from June 8, 2011 (inception) to and as of December 31, 2011;
- reviewed the historical market prices and trading volumes of Vringo common stock;
- held discussions with the senior management of Vringo with respect to the business and prospects of Vringo and Innovate/Protect and the reasons for the Merger;
- reviewed and analyzed certain publicly available financial data for companies that Etico Capital deemed relevant in evaluating Vringo and Innovate/Protect;
- reviewed and analyzed certain publicly available financial information for certain similar transactions in evaluating the Merger consideration and the reported prices and historical trading activities of the securities of such companies; and
- performed such other analyses, reviewed such other information and considered such other factors as Etico Capital deemed appropriate.

In rendering its opinion, Etico Capital relied upon and assumed, without independent verification or investigation, the accuracy and completeness of all of the financial and other information provided to or

TABLE OF CONTENTS

discussed with it by Vringo, Innovate/Protect and their respective employees, legal counsel, representatives and affiliates or otherwise reviewed by Etico Capital. No forecast or projections of financial performance or results of operations or of the financial condition of Vringo, Innovate/Protect or of the combined company were supplied to Etico Capital. Vringo's operating expenditure budget for 2012 of approximately \$4.22 million (consisted of \$0.14 million for cost of revenue, \$1.51 million for research and development, \$0.93 million for marketing, and \$1.64 million for general and administrative expenses) was supplied to the management of Innovate/Protect for the purposes of budgeting the capital needs of the combined company. There were no revenue projections or other projections provided. Forecasts covering a period of five years for companies with stable operations may have provided Etico Capital with sufficient information to enable Etico Capital to perform a discounted cash flow analysis of Vringo and Innovate/Protect as an additional reference point for use in arriving at its opinion. Moreover, Etico Capital did not value or consider the anti-dilution or other terms or rights of securities to be issued as part of the Merger consideration which may be superior to the rights of the holders of Vringo common stock. Etico Capital did not make nor obtain any independent evaluations or appraisals of the assets or liabilities, contingent or otherwise, of Vringo or Innovate/Protect. Etico Capital also, at the direction and consent of Vringo, did not, and did not seek to: (a) independently value US patent numbers 6,314,420 and 6,775,664 (the "**Patents**") acquired by Innovate/Protect in June 2011 or (b) determine the likelihood of success, the amount of damages, if any, that may be recovered, nor the timing and cost (and whether the combined company has or will have adequate resources, financial or otherwise, to prosecute) the Litigation initiated by Innovate/Protect, in which Innovate/Protect alleges *inter alia* infringement of the Patents by the defendants named therein. In addition, Innovate/Protect had recently completed a round of equity financing which Vringo believed showed a clear indication of at what valuation the private markets would value Innovate/Protect. The value of Innovate/Protect's Patents is largely dependent upon the outcome of the Litigation which may continue for several years, may require significant expenditures for legal fees and other expenses and is subject to the speculative nature of litigation in general. See "Risk Factors — Risks Related to Innovate/Protect's Business." As a result, neither Vringo nor Innovate/Protect valued, nor did they request Etico Capital to value, Innovate/Protect's patents or the likely timing or ultimate success of the Litigation. The success of the Litigation and the value of the patents, if determinable, would likely have affected Etico Capital's opinion. At the direction and with the consent of Vringo, Etico Capital also assumed that the Merger will qualify for federal income tax purposes as a "reorganization" within the meaning of Section 368(a) of the Code.

Etico Capital also assumed, with the consent of Vringo, that (a) all representations and warranties of each party contained in the Merger Agreement are true and correct, (b) each party will perform all of the covenants and agreements to be performed by it pursuant to the Merger Agreement and (c) the Merger will be consummated in accordance with the terms of the draft Merger Agreement reviewed by it without waiver, modification or amendment of any material term, condition or agreement and in compliance with all applicable laws and other requirements and that, in the course of obtaining any necessary regulatory or third party approvals, consents and releases with respect to the Merger, no delay, limitation, restriction or condition will be imposed that would have an adverse effect on Vringo or Innovate/Protect.

Etico Capital's opinion relates to the relative values of Vringo and Innovate/Protect. Etico Capital did not express any opinion as to the underlying valuation, future performance or long term viability of Vringo or the combined company, the actual value of Vringo common stock when issued in the Merger or the price at which Vringo common stock will trade at any time. Etico Capital expressed no view as to, and its opinion does not address, any terms or other aspects or implications of the Merger (other than the consideration to be paid by Vringo in the Merger to the extent expressly specified in its opinion) or any aspect or implication of any other agreement, arrangement or understanding entered into in connection with the Merger or otherwise, including, without limitation, the fairness of the amount or nature of the compensation resulting from the Merger to any individual officers, directors or employees of Vringo or Innovate/Protect, the existence or lack of conflicts of interest between officers, directors, employees and stockholders of Vringo and Innovate/Protect or the class of such persons, whether relative to the Merger or otherwise.

In addition, Etico Capital expressed no view as to, and its opinion does not address, the underlying business decision of Vringo to proceed with or effect the Merger nor does its opinion address the relative merits of the Merger as compared to any alternative business strategies that might exist for Vringo or the

TABLE OF CONTENTS

effect of any other transaction in which Vringo might engage. Etico Capital relied, without independent verification, upon the views of management of Vringo concerning the business, operational and strategic benefits and implications of the Merger. In connection with its engagement, Etico Capital was not requested to, and it did not, solicit third party indications of interest in possible alternative transactions for Vringo. Etico Capital did not otherwise participate in the origination, negotiation or structuring of the Merger or in the transaction process.

Etico Capital was not asked to pass upon, and expressed no opinion with respect to, any matters, including any agreements between Vringo and Innovate/Protect or any of their respective affiliates, other than the fairness from a financial point of view of the Merger consideration to holders of Vringo common stock (other than those who own, or whose affiliates own, securities of Innovate/Protect).

Etico Capital has not conducted, nor has Etico Capital assumed any obligation to conduct, any physical inspection of the properties or facilities of Vringo or Innovate/Protect. Etico Capital assumed, with the consent of the Vringo board of directors, that there are no legal issues with regard to Vringo or Innovate/Protect that would affect its opinion, and Etico Capital relied on this assumption without undertaking any independent investigation or inquiry. Etico Capital's opinion is necessarily based on the information available to it and general economic, financial and stock market conditions and circumstances as they existed and could be evaluated by it on March 12, 2012. It should be understood that, although subsequent developments may affect its opinion, Etico Capital does not have any obligation to update, revise or reaffirm the opinion.

The following is a summary explanation of the various sources of information and valuation methodologies employed by Etico Capital in rendering its opinion. These analyses were provided to the Vringo board of directors at its meeting on March 11, 2012. There were no material changes to these analyses prior to March 12, 2012. This summary describes the financial analyses used by Etico Capital and deemed to be material, but does not purport to be a complete description of the analyses performed by Etico Capital in arriving at its opinion. Etico Capital did not explicitly assign any relative weights to the various factors or analyses considered. The summary of financial analyses includes information presented in tabular format. In order to fully understand the financial analyses used by Etico Capital, the tables must be read together with the text of each summary. The tables alone do not constitute a complete description of the financial analyses.

Etico Capital did not find companies engaged in the same or similarly proposed combined businesses of Vringo and Innovate/Protect because the businesses of Vringo and Innovate/Protect are highly dissimilar. Therefore, for purposes of its analysis, Etico Capital evaluated each of Vringo and Innovate/Protect on a standalone basis.

Vringo Valuation

Comparable Companies Analysis

Etico Capital compared Vringo to a group of comparable public companies that Etico Capital deemed comparable to Vringo's limited universe. Vringo is a company that exists in an industry where there are a limited number of comparable public companies. Etico Capital selected public companies competing in the mobile solutions industry with enterprise values ranging from \$3.3 million to \$901.0 million, with revenues for the trailing twelve months that were publicly available at the time of the analysis of between \$.6 million and \$138.0 million and with EBITDA (defined below) for the trailing twelve months that were publicly available at the time of the analysis of between a negative \$12.0 million and a positive \$31.0 million.

The comparable companies were:

- BroadSoft, Inc.
- Dynavox Inc.
- Glu Mobile, Inc.
- LiveWire Mobile, Inc.
- Macrosolve, Inc.
- Motricity, Inc.

TABLE OF CONTENTS

Etico Capital considered:

- the ratio of equity market capitalization, adjusted for cash and debt when appropriate, to reflect enterprise value (“EV”) to earnings before interest, taxes, depreciation and amortization (“EBITDA”);
- the ratio of market price to earnings (“P/E”);
- the ratio of equity market capitalization to book value (“P/Book”); and
- the ratio of EV to revenues for the trailing twelve months (“EV/Rev”).

In order to perform this analysis, Etico Capital compared financial information of Vringo with publicly available information for the comparable companies. Etico Capital considered the entire range of multiples yielded by the comparable companies in establishing a more limited reference range of multiples which it used for its analysis. For this analysis, as well as other analyses, Etico Capital examined publicly available information. The multiple of revenues in the comparable set were relatively narrow irrespective of the comparable companies enterprise values. As stated elsewhere in this proxy statement/prospectus, because Vringo did not have positive EBITDA, earnings or book value, Etico Capital relied on EV/Rev to determine an implied valuation range. Etico Capital reviewed a variety of valuation methodologies to determine fairness. No individual method was given more weight.

The following table presents, based on closing prices as of March 9, 2012 (the last trading day prior to the date of Etico Capital’s opinion), the reference range of multiples for the comparable companies of EV/EBITDA, P/E, P/Book, EV/REV:

	<u>Reference Range of Multiples</u>
EV/EBITDA	5.12x – 29.11x
P/E	12.72x – 32.12x
P/Book	1.05x – 7.51x
EV/REV	.31x – 27.94x

Because Vringo did not have positive EBITDA, earnings or book value, Etico Capital relied on EV/Rev to determine an implied valuation range for Vringo. Based on this comparable companies analysis and Vringo’s annualized 2011 revenue based on revenue for the nine months ended September 30, 2011, Etico Capital concluded that Vringo had an implied valuation range between \$230,000 and \$20.7 million. Based upon the percentage ownership of the Vringo stockholders of the combined entity, even the high-end of range of the implied Vringo Comparable Company Analysis (\$20.7 million) supported the fairness of the Merger consideration, from a financial point of view, to the holders of Vringo common stock, in comparison to the implied valuation of Innovate/Protect as described under the caption “Innovate/Protect Comparable Companies Analysis.”

No company utilized in the public company comparables analysis as a comparison to Vringo is identical to Vringo. In evaluating the comparables, Etico Capital made numerous assumptions with respect to the mobile solutions industry’s performance and general economic conditions, many of which are beyond the control of Vringo. Mathematical analysis, such as determining the median, average or range, is not in itself a meaningful method of using comparable company data.

Vringo Common Stock Trading History

Etico Capital considered the trading price and volume of Vringo common stock on the NYSE Amex, focusing primarily on the sixty trading days prior to the rendering of Etico Capital’s opinion. As of March 9, 2012, Vringo had an aggregate of 26,464,915 shares of common stock outstanding on a fully diluted basis. The following table sets forth the last sale price on March 9, 2012 (the last trading day prior to the date of Etico Capital’s opinion) and daily trading volume for such period as well a sixty day trading average for such period:

<u>Date Range</u>	<u>Average Volume</u>	<u>Average Closing Price</u>
December 13, 2011 – March 9, 2012	(000s omitted) 687	\$ 1.22
March 9, 2012	386	\$ 1.72

TABLE OF CONTENTS

Based on those market prices of Vringo common stock, Vringo had a fully diluted equity value of between \$32.3 million to \$45.5 million.

Consideration of Comparable Transactions Analysis

Etico Capital did not employ a comparable transactions analysis of Vringo as a result of the lack of reasonably comparable transactions.

Consideration of the Discounted Cash Flow Methodology

Etico Capital did not employ a discounted cash flow analysis of Vringo for the purposes of its opinion. Discounted cash flow analysis is most appropriate for companies that exhibit relatively steady or somewhat predictable streams of positive future cash flow. To date, Vringo has generated negative cash flows. Furthermore, Vringo did not provide Etico Capital with forecasts. Because of these factors, Etico Capital considered a discounted cash flow analysis inappropriate for valuing Vringo.

Innovate/Protect Valuation

Innovate/Protect Comparable Companies Analysis

Etico Capital compared Innovate/Protect to a group of companies engaged in seeking to monetize their intellectual property. The Innovate/Protect comparable companies are public companies that Etico Capital deemed comparable to Innovate/Protect. Etico Capital selected companies with market capitalizations ranging from \$1.85 million to \$1,857.0 million.

The Innovate/Protect comparable companies were:

- Acacia Research Corporation
- Augme Technologies, Inc.
- Competitive Technologies Inc
- Innovaro, Inc.
- IP Group Plc
- Ippo Ventures Plc
- RPX Corporation
- Sagentia Group PLC
- Star Scientific, Inc.
- VirnetX Holding Corp

Etico Capital considered:

- the ratio of EV to EBITDA;
- the P/E ratio;
- the P/Book ratio; and
- the EV/Rev ratio for the trailing twelve months.

In order to perform this analysis, Etico Capital compared financial information of Innovate/Protect with publicly available information for the Innovate/Protect comparable companies. Etico Capital considered the entire range of multiples yielded by the Innovate/Protect comparable companies in establishing a more limited reference range of multiples which it used for its analysis. For this analysis, as well as other analyses, Etico Capital examined publicly available information.

TABLE OF CONTENTS

The following table presents, based on closing prices as of March 8, 2012, the range of multiples for the Innovate/Protect comparable companies of EV/EBITDA, P/E, P/Book and EV/REV:

	<u>Reference Range of Multiples</u>
EV/EBITDA	11.63x – 73.39x
P/E	.91x – 61.04x
P/Book	.44x – 61.58x
EV/REV	5.44x – 47.38x

Because Innovate/Protect did not have positive EBITDA, earnings or revenue, Etico Capital relied on P/Book to determine an implied valuation range for Innovate/Protect. There are a limited number of comparable companies for Innovate/Protect, the multiples of Price/Book of which varied greatly. The P/Book range applied to the book value of Innovate/Protect generated an implied valuation range of Innovate/Protect of between \$2.0 million and \$287.0 million. Accordingly, Etico Capital used the average of the P/Book multiples of the ten comparable companies, which resulted in an 11.9x P/Book multiple. Based on this comparable companies analysis and the book value of Innovate/Protect as of December 31, 2011, Etico Capital concluded that, on this basis, Innovate/Protect had an implied valuation of approximately \$55.5 million.

No company utilized in the public company comparables analysis as a comparison to Innovate/Protect is identical to Innovate/Protect. The ultimate value of Innovate/Protect is likely to be based upon the value of the Patents and, in particular, the ultimate success of the Litigation and other litigations that may be commenced against other putative infringers. Etico Capital did not value the Patents or determine the likelihood of success, the amount of damages, if any, that may be recovered, nor the timing and cost (and whether the combined company has or will have adequate resources, financial or otherwise, to prosecute) the Litigation. Accordingly, Etico Capital accepted the book value of Innovate/Protect as set forth in its audited financial statements as of December 31, 2011. Mathematical analysis, such as determining the median, average or range, is not in itself a meaningful method of using comparable company data.

Recent Investments in Innovate/Protect

Etico Capital examined the value of Innovate/Protect implied by recent investments by unaffiliated third parties in Innovate/Protect. As of December 31, 2011, Innovate/Protect had an aggregate of 12,856,307 shares of common stock outstanding on a fully diluted basis. In November and December 2011, Innovate/Protect sold common stock to unaffiliated third parties at \$3.30 per share, or a fully diluted implied equity value of Innovate/Protect of \$42.4 million.

Innovate/Protect Comparable Transactions Analysis

Etico Capital found two transactions, one in December 2002 and the other in March 2010, involving companies deemed by Etico Capital to be comparable to Innovate/Protect. For this analysis, Etico Capital examined publicly available information. The Innovate/Protect comparable transactions involved:

- Sagentia Group PLC
- Yet2.com, Inc.

The following table presents, as of March 8, 2012, the reference range of multiples. Because the comparable transactions involved the acquisition of companies with negative earnings, P/E could not be utilized.

	<u>Reference Range of Multiples</u>
EV/EBITDA	25.52x – 25.53x
P/E	NA
P/Book	.41x – .59x
EV/REV	.33x – .33x

Because of the limited number of transactions and their infrequency, Etico Capital did not consider these comparable transactions to be meaningful.

Consideration of the Discounted Cash Flow Methodology

Etico Capital did not employ a discounted cash flow analysis of Innovate/Protect for the purposes of its opinion. Discounted cash flow analysis is most appropriate for companies that exhibit relatively steady or somewhat predictable streams of positive future cash flow. To date, Innovate/Protect has generated negative cash flows. Furthermore, Etico Capital was not provided with forecasts regarding Innovate/Protect and Etico Capital was directed by the Vringo board of directors not to value the Litigation and, therefore, did not consider any cash flow that may be provided by or used in the Litigation. Because of these factors, Etico Capital considered a discounted cash flow analysis inappropriate for valuing Innovate/Protect.

Miscellaneous

The preparation of a fairness opinion is a complex process involving determinations as to the most appropriate and relevant methods of financial analysis and the application of these methods to the particular circumstances, limitations on the scope of the engagement and the quantitative and qualitative available comparable information and, therefore, is not necessarily susceptible to partial analysis or summary description. Selecting portions of the analysis or the summary set forth above, without considering the analysis as a whole, could create an incomplete view of the processes underlying the opinion of Etico Capital. In arriving at its fairness determination, Etico Capital considered the results of all these constituent analyses and did not attribute any particular weight to any particular factor or analysis considered by it. Rather, Etico Capital made its determination as to fairness on the basis of its experience and professional judgment after considering the results of all such analyses. The foregoing summary does not purport to be a complete description of the analyses performed by Etico Capital. Additionally, analyses relating to the value of businesses or securities are not appraisals. Accordingly, such analyses and estimates are inherently subject to substantial uncertainty.

In performing its analyses, Etico Capital made numerous assumptions with respect to industry performance and general business and economic conditions and other matters, many of which are beyond Vringo's control. The analyses performed by Etico Capital are not necessarily indicative of actual values or actual future results, which may be significantly more or less favorable than suggested by such analyses. The Merger consideration and other terms of the Merger Agreement were determined through arm's length negotiations between Vringo and Innovate/Protect, and were approved by the Vringo board of directors. Etico Capital's opinion was one of many factors taken into consideration by the Vringo board of directors in making its decision to approve the Merger Agreement and the Merger. Consequently, the Etico Capital analyses as described above should not be viewed as determinative of the opinion of the Vringo board of directors with respect to the value of Vringo or Innovate/Protect or whether the Vringo board of director would have been willing to agree to different consideration.

Etico Capital was retained under an engagement letter, dated March 7, 2012, to give an opinion as to the fairness of the Merger consideration, from a financial point of view, to the holders of Vringo common stock (other than those who own, or whose affiliates own, securities of Innovate/Protect, regarding which Etico Capital expressed no view). Etico Capital did not serve as financial advisor to Vringo in connection with the Merger. Etico Capital received a fee of \$115,000 (and the reimbursement of \$10,000 of expenses) upon delivery of its opinion. No portion of Etico Capital's fee is contingent upon the consummation of the Merger. In addition, Vringo has agreed to indemnify Etico Capital and its affiliates and their respective officers, directors, employees and agents, and any persons controlling Etico Capital or any of its affiliates against liabilities and expenses, relating to or arising out of Etico Capital's engagement, except in the case of gross negligence or willful misconduct. Jeffrey Berman, a Senior Managing Director of Etico Capital is married to the sister of a managing member of Iroquois Capital Management LLC, the investment manager to Iroquois Master Fund Ltd., which beneficially owns approximately 8.5% of Vringo common stock and approximately 6.98% of Innovate/Protect's common stock and approximately 5.2% of Innovate/Protect's preferred stock.

Interests of Vringo Directors and Executive Officers in the Merger

In considering the recommendation of the Vringo board of directors to vote FOR the Vringo Merger Proposals, Vringo stockholders should be aware that the directors and executive officers of Vringo have interests in the Merger that may be in addition to, or different from, your interests as Vringo stockholders, which could create conflicts of interest in their determinations to recommend the Merger. You should consider these interests in voting on the merger. These interests in connection with the Merger relate to or arise from, among other things:

- the fact that Seth M. Siegel, Andrew D. Perlman and John Engelman are currently directors of Vringo and will remain directors of the combined company following the completion of the Merger;
- the fact that Andrew D. Perlman and Ellen Cohl are currently executive officers of Vringo and will remain executive officers of the combined company following the completion of the Merger;
- upon the change of control in connection with the consummation of the Merger, there will be a one year acceleration of option vesting for option holders for grants prior to consummation of the Merger, except for Andrew D. Perlman who will be entitled to 50% acceleration for all of his unvested options granted to him prior to him becoming Chief Executive Officer of Vringo;
- directors of Vringo, other than Mr. Perlman, departing within six months from a subsequent change of control would receive full acceleration of vesting for any unvested options and extension of the termination period for option exercises to one year from cessation of board service; and
- the right to continued indemnification for directors and executive officers of Vringo following the completion of the Merger.

The Vringo board of directors was aware of these potential conflicts of interest during its deliberations on the merits of the Merger and when making its decision regarding the Merger Agreement and the transactions contemplated thereby, including the Merger.

Ownership Interests

As of _____, 2012, the latest practicable date before the printing of this proxy statement/prospectus, directors and executive officers of Vringo, together with their respective affiliates, beneficially owned and were entitled to vote _____ shares of Vringo common stock, or approximately ___% of the shares of Vringo common stock outstanding on that date. Assuming the Merger had been completed as of such date, all directors and executive officers of Vringo, together with their respective affiliates, would beneficially own, in the aggregate, approximately ___% of the outstanding shares of common stock of the combined company.

The following table sets forth information as of May 25, 2012, regarding the beneficial ownership of the combined company for each executive officer and director of Vringo and Innovate/Protect following the completion of the Merger. Percentage of beneficial ownership is calculated in relation to 32,173,593 shares of common stock of the combined company outstanding upon completion of the Merger, assuming that the Common Stock Exchange Ratio to be used in connection with the Merger is approximately 3.0176 shares of Vringo common stock for each share of Innovate/Protect capital stock (without giving effect to the proposed reverse stock split described elsewhere in this proxy statement/prospectus). Beneficial ownership is determined in accordance with the rules of the SEC, which generally attribute beneficial ownership of securities to persons who possess sole or shared voting or investment power with respect to those securities, and includes shares of Innovate/Protect capital stock, and if applicable, shares of Vringo common stock issuable pursuant to the exercise of stock options or other securities that are exercisable or convertible into shares of Innovate/Protect capital stock or Vringo common stock, as applicable, within 60 days of May 25, 2012. The table also sets forth the total number of additional options that each executive officer and director of Innovate/Protect will have the right to acquire following the Merger, but which are not exercisable within 60 days of May 25, 2012.

Name	Total Shares to be Beneficially Owned Following the Merger	Total Additional Options to be Held Following the Merger	Combined Company Beneficial Ownership Percentage Following the Merger

Employment Agreements with Certain Executive Officers of Vringo

On March 11, 2012, in connection with the appointment of Andrew D. Perlman as Chief Executive Officer, Vringo’s board of directors approved an increase in Mr. Perlman’s salary to \$250,000 per year and the payment of severance for one year in the event he is no longer the Chief Executive Officer in connection with the change of control. In addition, the board of directors approved the grant of options to purchase 450,000 shares at an exercise price of \$1.65 per share. Vringo and Mr. Perlman expect to enter into an amendment to his employment agreement to memorialize the foregoing terms.

Accelerated Vesting of Stock Options

Upon the change of control in connection with the consummation of the Merger, there will be a one year acceleration of option vesting for all Vringo’s option holders for grants prior to the consummation of the Merger, except for Andrew D. Perlman who will be entitled to 50% acceleration for all of his unvested options granted to him prior to him becoming Chief Executive Officer of Vringo. In addition, directors of

Vringo, other than Mr. Perlman, departing within six months from a subsequent change of control would receive full acceleration of vesting for any unvested options and extension of the termination period for option exercises to one year from cessation of board service.

Indemnification and Insurance

The Merger Agreement provides that all rights to indemnification with respect to acts or omissions occurring at or prior to the completion of the Merger existing in favor of each present and former director, officer or employee of Innovate/Protect or any of its subsidiaries as provided in their respective certificates of incorporation or bylaws or indemnification agreements. The Merger Agreement provides that Vringo and Merger Sub will continue to indemnify and hold harmless each present and former director, officer or employee of Innovate/Protect or any of its subsidiaries, with respect to acts or omissions occurring or alleged to have occurred before or after the completion of the Merger, including advancing expenses to the fullest extent allowed by law.

The Merger Agreement provides the Vringo will continue to indemnify and hold harmless each present and former director or officer of Vringo or any of its subsidiaries, with respect to acts or omissions occurring or alleged to have occurred at or prior to the completion of the Merger, to the fullest extent permitted under applicable law and Vringo's certificate of incorporation or Vringo's bylaws (the "**Vringo's Bylaws**"). The Merger Agreement also provides that the combined company will honor all indemnification agreements in place with each present and former director or officer of Vringo.

Anticipated Accounting Treatment

The Merger will be treated by Vringo as a reverse merger under the acquisition method of accounting in accordance with GAAP. For accounting purposes, Innovate/Protect is considered to be acquiring Vringo in this transaction. Therefore, the aggregate consideration paid in connection with the Merger will be allocated to Vringo tangible and intangible assets and liabilities based on their fair market values. The assets and liabilities and results of operations of Vringo will be consolidated into the results of operations of Innovate/Protect as of the completion of the Merger. These allocations will be based upon a valuation that has not yet been finalized.

Tax Treatment of the Merger

Vringo and Innovate/Protect intend the Merger to qualify as a "reorganization" within the meaning of Section 368(a) of the Code and have agreed to use reasonable best efforts to structure the Merger to qualify as a reorganization and not to take any action that would prevent the Merger from qualifying as a reorganization under Section 368(a) of the Code. Mintz, Levin, Cohn, Ferris, Glovsky and Popeo, P.C. has rendered its written opinion that the Merger will qualify as a "reorganization" within the meaning of Section 368(a) of the Code. For a more complete discussion of the material U.S. federal income tax consequences of the Merger, see the section entitled "Material U.S. Federal Income Tax Consequences of the Merger" beginning on page [86](#).

Regulatory Approvals Required for the Merger

As of the date of this proxy statement/prospectus, neither Vringo nor Innovate/Protect is required to make filings or to obtain approvals or clearances from any antitrust regulatory authorities in the U.S. or other countries to complete the Merger. In the U.S., Vringo must comply with applicable federal and state securities laws and the rules and regulations of the NYSE Amex in connection with the issuance of shares of Vringo common stock and preferred stock and warrants in the Merger and the resulting change in control of Vringo and the filing of this proxy statement/prospectus with the SEC.

Restrictions on Sales of Shares of Vringo Common Stock Received by Innovate/Protect Stockholders in the Merger

Pursuant to a letter agreement between Vringo and Hudson Bay, Hudson Bay is prohibited from selling Merger Shares (as hereinafter defined) at a price lower than \$2.00 per share (as adjusted for stock splits, stock dividends, stock combinations or other similar transactions) to the extent that the sale of such shares on any trading day is in excess of the greater of (i) 15% of the daily trading volume of all shares of Vringo common stock traded on such trading day, and (ii) 5,000 Merger Shares (as adjusted for stock splits, stock dividends,

TABLE OF CONTENTS

stock combinations or other similar transactions). “Merger Shares” means (i) shares of Vringo common stock issued to Hudson Bay pursuant to the Merger Agreement, (ii) shares of Vringo common stock issued upon exercise of any Series 1 Warrants or Series 2 Warrants issued to Hudson Bay pursuant to the Merger Agreement, in the forms attached to this proxy statement/prospectus as Annex F and Annex G, respectively, and (iii) shares of Vringo common stock issued upon conversion of the Vringo preferred stock. This restriction is in place from the closing date until the date upon which Vringo gives notice of termination to Hudson Bay. In exchange, from the closing date until 30 days after Vringo terminates the transfer described above, Vringo will not, directly or indirectly, subject to certain exceptions, effect any Subsequent Placement (as hereinafter defined) unless Vringo has provided notice to Hudson Bay and offered to issue and sell to Hudson Bay 25% of the securities being offered in such Subsequent Placement. “Subsequent Placement” means, subject to certain exceptions, any direct or indirect offer, sale (including any sale of any option to purchase or other disposition of) of any of Vringo’s or its subsidiaries’ equity or equity equivalent securities, including without limitation any debt, preferred stock or other instrument or security that is, at any time during its life and under any circumstances, convertible into or exchangeable or exercisable for common stock or common stock equivalents. Hudson Bay’s right to participate in up to 25% of Subsequent Placement may have a chilling effect on Vringo’s ability to raise financing via such offerings. Although the participation procedures are designed to minimize any impact on the timing of a transaction, there are notification processes to follow that could have the effect of slowing certain offerings. In addition, the possibility that a large percentage of an offering may be acquired by a third party may discourage some investors from participating in an offering due to the possibility that the size of the remaining offering will not be large enough to accommodate them. Nonetheless, Vringo does not anticipate that Hudson Bay’s right to participate will have a material impact on Vringo’s ability to raise financing.

In addition to the restrictions on transfer, sale, or encumbrance discussed in the preceding paragraph, shares of Vringo common stock and preferred stock received by Innovate/Protect stockholders who become affiliates of Vringo for purposes of Rule 144 under the Securities Act may be resold by them only in transactions permitted by Rule 144 or as otherwise permitted under the Securities Act.

Appraisal Rights

Under the DGCL, holders of Vringo common stock are not entitled to appraisal rights in connection with the Merger or the proposals described in this proxy statement/prospectus. Under the DGCL, however, holders of Innovate/Protect capital stock may be entitled to appraisal rights in connection with the Merger.

NYSE Amex Listing of Vringo Common Stock

Vringo common stock currently is listed on the NYSE Amex under the symbol “VRNG.” Vringo has agreed to use its reasonable best efforts to cause the shares of Vringo common stock to be approved, at or prior to the completion of the Merger, for listing (subject only to notice of issuance) on the NYSE Amex at and following the completion of the Merger, and the listing of the shares of Vringo common stock issuable pursuant to the Merger Agreement on the NYSE Amex is a condition to Innovate/Protect’s obligation to complete the Merger.

As of the date of the mailing of this proxy statement/prospectus, Vringo has filed an initial listing application for listing on the NYSE Amex in connection with the Merger pursuant to NYSE Amex’s reverse merger rules. If such application is approved, Vringo anticipates that its common stock will be listed on the NYSE Amex following the completion of the Merger under the trading symbol “VRNG.”

MATERIAL U.S. FEDERAL INCOME TAX CONSEQUENCES OF THE MERGER

The following discussion summarizes the material U.S. federal income tax consequences of the Merger. This summary is based upon current provisions of the Code, existing Treasury Regulations promulgated thereunder and current administrative rulings and court decisions, all of which are subject to change and to differing interpretations, possibly with retroactive effect. Any change could alter the tax consequences to Vringo, Innovate/Protect or Innovate/Protect stockholders, as described in this summary. This summary is not binding on the IRS, and there can be no assurance that the IRS (or a court, in the event of an IRS challenge) will agree with the conclusions stated herein.

This discussion does not address all of the U.S. federal income tax consequences of the Merger that may be relevant to Innovate/Protect stockholders and Vringo stockholders in light of their particular circumstances and does not apply to stockholders that are subject to special treatment under U.S. federal income tax laws, including, without limitation:

- dealers, brokers and traders in securities;
- individuals who are not citizens or residents of the U.S., including U.S. expatriates;
- corporations (or other entities taxable as a corporation for U.S. federal income tax purposes) created or organized outside of the U.S.;
- tax-exempt entities;
- financial institutions, regulated investment companies, real estate investment trusts or insurance companies;
- partnerships, limited liability companies that are not treated as corporations for U.S. federal income tax purposes, subchapter S corporations and other pass-through entities and investors in such entities;
- an estate or trust;
- holders who are subject to the alternative minimum tax provisions of the Code;
- holders who acquired their shares in connection with stock option or stock purchase plans or in other compensatory transactions;
- holders who hold their shares through a pension plan or other qualified retirement plan;
- holders who hold their shares as part of an integrated investment such as a hedge or as part of a hedging, straddle or other risk reduction strategy;
- holders who do not hold their shares as capital assets within the meaning of Section 1221 of the Code (generally, property held for investment will be a capital asset); or
- holders who have a functional currency other than the U.S. dollar.

In addition, the following discussion does not address:

- the tax consequences of the Merger under any U.S. federal non-income tax laws or under state, local or foreign tax laws;
- the tax consequences of transactions effectuated before, after or at the same time as the Merger, whether or not they are in connection with the Merger, including, without limitation, transactions in which shares of Innovate/Protect capital stock or Vringo capital stock are acquired;
- the tax consequences to holders of options issued by Innovate/Protect that are assumed, replaced, exercised or converted, as the case may be, in connection with the Merger;
- the tax consequences of the receipt of equity securities of Vringo other than in exchange for shares of Innovate/Protect capital stock; or
- the tax consequences of the ownership or disposition of equity securities of Vringo common stock acquired in the Merger.

Accordingly, Innovate/Protect stockholders are advised and expected to consult their own tax advisors regarding the U.S. federal income tax consequences of the Merger in light of their personal circumstances and the consequences of the Merger under U.S. federal non-income tax laws and state, local and foreign tax laws.

U.S. Federal Income Tax Consequences of the Merger

The Merger is intended to qualify as a “reorganization” within the meaning of Section 368(a) of the Code. Mintz, Levin, Cohn, Ferris, Glovsky and Popeo, P.C. (“Mintz Levin”) has rendered a tax opinion that the Merger will constitute a “reorganization” within the meaning of Section 368(a) of the Code. Vringo and Innovate/Protect have agreed to use reasonable best efforts to structure the Merger to qualify as a “reorganization” and not to take any action that would prevent the Merger from qualifying as a reorganization under Section 368(a) of the Code. Neither Vringo nor Innovate/Protect presently intends to waive these conditions.

The opinion of counsel relied on certain assumptions as well as representations made by Vringo, Merger Sub and Innovate/Protect, including factual representations and certifications contained in officers’ certificates to be delivered at closing, and assumed that these representations are true, correct and complete, without regard to any knowledge limitation. If any of these representations or assumptions are inconsistent with the actual facts, the opinion could become invalid as a result, and the U.S. federal income tax treatment of the merger could be adversely affected. An opinion of counsel represents counsel’s best legal judgment and is not binding on the Internal Revenue Service or any court. No ruling has been, or will be, sought from the Internal Revenue Service as to the tax consequences of the Merger.

If, as intended, the Merger is treated for U.S. federal income tax purposes as a “reorganization” within the meaning of Section 368(a) of the Code, then the Merger will have the following material U.S. federal income tax consequences:

It is the opinion of Mintz Levin that, subject to the qualifications described above, the Merger will be treated for U.S. federal income tax purposes as a “reorganization” within the meaning of Section 368(a) of the Code and that the Merger will have the following material U.S. federal income tax consequences:

- Vringo, Merger Sub, Innovate/Protect and the Vringo stockholders generally will recognize no gain or loss solely as a result of the Merger;
- Innovate/Protect stockholders, other than Innovate/Protect stockholders who exercise appraisal rights (as discussed below), generally will recognize no gain or loss upon the receipt of equity securities of Vringo for their Innovate/Protect capital stock;
- the aggregate tax basis of the equity securities of Vringo that are received by an Innovate/Protect stockholder in the Merger will be equal to the aggregate tax basis of the shares of Innovate/Protect capital stock surrendered in exchange therefor; and
- the holding period of the equity securities of Vringo received by an Innovate/Protect stockholder in connection with the Merger will include the holding period of the shares of Innovate/Protect capital stock surrendered in exchange therefor.

Neither Vringo nor Innovate/Protect has requested, or intends to request, a ruling from the Internal Revenue Service (the “IRS”) with respect to the tax consequences of the Merger, and there can be no assurance that the companies’ position would be sustained if challenged by the IRS. Accordingly, if there is a final determination that the Merger does not qualify as a “reorganization” under Section 368(a) of the Code and is taxable for U.S. federal income tax purposes, Innovate/Protect stockholders generally would recognize taxable gain or loss on their receipt of equity securities of Vringo in connection with the Merger equal to the difference between such stockholder’s adjusted tax basis in their shares of Innovate/Protect capital stock and the fair market value of the equity securities of Vringo. Moreover, Innovate/Protect would recognize gain on the net appreciation in its assets since it would be deemed to have sold all of its assets in a taxable sale to Merger Sub.

There will be no material U.S. federal income tax consequences of the Merger for Vringo stockholders whether or not the Merger qualifies as a “reorganization” within the meaning of Section 368(a) of the Code.

Treatment of Innovate/Protect Stockholders Who Exercise Appraisal Rights

The discussion above does not apply to Innovate/Protect stockholders who properly perfect appraisal rights with respect to such stockholder's shares of Innovate/Protect capital stock. Generally, an Innovate/Protect stockholder who perfects appraisal rights and receives cash in exchange for such stockholder's Innovate/Protect capital stock will recognize capital gain or loss measured by the difference between the amount of cash received and such stockholder's adjusted tax basis in those shares. Such gain or loss will generally be long-term capital gain or loss, provided the shares of Innovate/Protect capital stock were held for more than one year before the disposition of the shares. The deductibility of capital losses is subject to limitations.

Information Reporting and Backup Withholding

Generally, non-corporate Innovate/Protect stockholders may be subject to information reporting and backup withholding (currently at a rate of 28%) with respect to cash received for perfecting appraisal rights. However, backup withholding will not apply to an Innovate/Protect stockholder who furnishes a valid taxpayer identification number and complies with certain certification procedures or otherwise establishes an exemption from backup withholding. Amounts withheld, if any, are generally not an additional tax and may be refunded or credited against the Innovate/Protect stockholder's U.S. federal income tax liability, provided that the Innovate/Protect stockholder timely furnishes the required information to the IRS.

THE FOREGOING SUMMARY OF MATERIAL U.S. FEDERAL INCOME TAX CONSEQUENCES IS NOT INTENDED TO BE A COMPLETE ANALYSIS OR DESCRIPTION OF ALL POTENTIAL U.S. FEDERAL INCOME TAX CONSEQUENCES OF THE MERGER. IN ADDITION, THE SUMMARY DOES NOT ADDRESS TAX CONSEQUENCES THAT MAY VARY WITH, OR ARE CONTINGENT ON, INDIVIDUAL CIRCUMSTANCES. MOREOVER, THE SUMMARY DOES NOT ADDRESS ANY U.S. FEDERAL NON-INCOME TAX OR ANY FOREIGN, STATE OR LOCAL TAX CONSEQUENCES OF THE MERGER, NOR ANY TAX CONSEQUENCES OF ANY TRANSACTION OTHER THAN THE MERGER. ACCORDINGLY, EACH INNOVATE/PROTECT STOCKHOLDER IS STRONGLY URGED TO CONSULT HIS, HER, OR ITS OWN TAX ADVISOR TO DETERMINE THE PARTICULAR FEDERAL, STATE, LOCAL, OR FOREIGN INCOME OR OTHER TAX CONSEQUENCES OF THE MERGER TO SUCH INNOVATE/PROTECT STOCKHOLDER.

THE MERGER AGREEMENT

The following is a summary of the material provisions of the Merger Agreement but does not purport to describe all of the terms of the Merger Agreement. The following summary is qualified in its entirety by reference to the complete text of the Merger Agreement, a copy of which is attached as Annex A to this proxy statement/prospectus and is incorporated by reference into this proxy statement/prospectus. This summary may not contain all of the information about the Merger Agreement that is important to you. You should refer to the full text of the Merger Agreement for details of the transaction and the terms and conditions of the Merger Agreement.

The Merger Agreement has been included in this proxy statement/prospectus to provide you with information regarding its terms. The terms of, and other information in, the Merger Agreement should not be relied upon as disclosures about Vringo and Innovate/Protect without considering the entirety of the information about Vringo and Innovate/Protect set forth in the public reports filed with the SEC. Such information can be found elsewhere in proxy statement/prospectus and in the other public filings Vringo makes with the SEC, which are available without charge at www.sec.gov.

Additionally, the representations, warranties and covenants described in this section and contained in the Merger Agreement have been made only for the purpose of the Merger Agreement and, as such, are intended solely for the benefit of Vringo, Merger Sub and Innovate/Protect. In many cases, these representations, warranties and covenants are subject to limitations agreed upon by the parties and are qualified by certain disclosures exchanged by the parties in connection with the execution of the Merger Agreement. These disclosure schedules contain information that has been included in Vringo's general prior public disclosures, as well as potential additional non-public information. Furthermore, many of the representations and warranties in the Merger Agreement are the result of a negotiated allocation of contractual risk among the parties and, taken in isolation, do not necessarily reflect facts about Vringo or Innovate/Protect, their respective subsidiaries and affiliates or any other party. Likewise, any references to materiality contained in the representations and warranties may not correspond to concepts of materiality applicable to investors or stockholders. Finally, information concerning the subject matter of the representations and warranties may have changed since the date of the Merger Agreement or may change in the future and these changes may not be fully reflected in the public disclosures made by Vringo and/or Innovate/Protect. As a result of the foregoing, you are strongly encouraged not to rely on the representations, warranties and covenants contained in the Merger Agreement, or any descriptions thereof, as accurate characterizations of the state of facts or condition of Vringo, Innovate/Protect, or any other party. You are likewise cautioned that you are not a third-party beneficiary under the Merger Agreement and do not have any direct rights or remedies pursuant to the Merger Agreement.

Terms of the Merger

The Merger Agreement provides that, subject to the terms and conditions of the Merger Agreement and in accordance with Delaware law, at the completion of the Merger, Innovate/Protect will merge with and into Merger Sub with Merger Sub being the surviving corporation (the “**Surviving Corporation**”) through an exchange of capital stock of Innovate/Protect for capital stock of Vringo.

Completion of the Merger

The closing of the Merger will take place no later than the second business day after the satisfaction or waiver of the conditions to the completion of the Merger contained in the Merger Agreement, other than the conditions which by their terms can be satisfied only as of the closing of the Merger, or on such other day as Vringo, Innovate/Protect and Merger Sub may mutually agree. For a more complete discussion of the conditions to the completion of the Merger, see the section entitled “The Merger Agreement — Conditions to the Completion of the Merger” beginning on page [97](#). The completion of the Merger will occur at the time that the parties file the certificate of merger with the Secretary of State of the State of Delaware on the closing date of the Merger or on such later date as Vringo, Merger Sub and Innovate/Protect mutually agree (and set forth in the certificate of merger). Because the completion of the Merger is subject to the satisfaction of other conditions, Vringo cannot predict the exact time at which the Merger will become effective.

Certificate of Incorporation; Bylaws; Directors and Officers

Upon completion of the Merger, the certificate of incorporation and bylaws of Merger Sub will be the certificate of incorporation and bylaws of the Surviving Corporation. Notwithstanding the foregoing, the certificate of incorporation of Merger Sub will be amended to change the name of the Surviving Corporation to Innovate/Protect, Inc.

Following the closing, the following persons shall serve on the board of directors of Vringo and the Surviving Corporation: Seth M. Siegel (Chairman), Andrew D. Perlman, John Engelman, Andrew Kennedy Lang, Alexander R. Berger, Donald E. Stout and H. Van Sinclair, and the following persons shall be appointed to the following positions of Vringo and the Surviving Corporation: Andrew D. Perlman (Chief Executive Officer), Andrew Kennedy Lang (Chief Technology Officer and President), Alexander R. Berger (Chief Operating Officer and Secretary), Ellen Cohl (Chief Financial Officer and Treasurer) and Clifford Weinstein (Chief Communication Officer).

Merger Consideration

Upon completion of the Merger, (i) each share of Innovate/Protect common stock (other than shares held by Vringo, Innovate/Protect or any of their respective subsidiaries, which will be cancelled at the completion of the Merger) will be automatically converted into the right to receive the number of shares of Vringo common stock multiplied by the Common Stock Exchange Ratio (as defined below) and (ii) each share of then-outstanding Innovate/Protect preferred stock (total 6,673 shares outstanding) (other than shares held by Vringo, Innovate/Protect or any of their respective subsidiaries, which will be cancelled at the completion of the Merger) will be automatically converted into the right to receive the same number of shares of Vringo preferred stock, which 6,673 shares, as of May 25, 2012, shall be initially convertible into an aggregate of 20,136,445 shares of Vringo common stock (or at a current conversion rate of 3,017.6). The Common Stock Exchange Ratio initially is 3.0176, which is subject to adjustment in the event of a reverse stock split to provide the holders of shares of Innovate/Protect capital stock with the same economic benefit as contemplated by the Merger Agreement prior to any such reverse stock split. In addition, at the effective time of the Merger, Vringo will issue to the holders of Innovate/Protect capital stock and the holder of Innovate/Protect's issued and outstanding warrant to purchase 250,000 shares of Innovate/Protect common stock (on a *pro rata* as-converted basis) an aggregate of 15,959,838 warrants to purchase an aggregate of 15,959,838 shares of Vringo common stock with an exercise price of \$1.76 per share, each subject to equitable adjustment in the event of a reverse stock split. The issued and outstanding warrant to purchase 250,000 shares of Innovate/Protect common stock will be exchanged for 250,000 shares of Vringo common stock and 850,000 warrants to purchase 850,000 shares of Vringo common stock with an exercise price of \$1.76 per share, each subject to equitable adjustment in the event of a reverse stock split. In addition, the aggregate number of shares of Vringo common stock and the aggregate number of warrants (and the aggregate number of shares of Vringo common stock that may be purchased upon exercise thereof) to be issued in exchange for the issued and outstanding warrant of Innovate/Protect shall each be ratably adjusted to give effect to any partial exercise of such warrant prior to the effective time of the Merger.

The Vringo preferred stock will have the powers, designations, preferences and other rights as will be set forth in a Certificate of Designations, Preferences and Rights of Series A Convertible Preferred Stock in the form attached to this proxy statement/prospectus as Annex E which is to be filed by Vringo prior to closing, which rights include, among other things, a liquidation preference of \$6,673,000 and the right to participate in any dividends and distributions paid to common stockholders on an as-converted basis. Vringo may not create a class of capital stock senior or *pari passu* to the Vringo preferred stock. The Vringo preferred stock shall be initially convertible into an aggregate of 20,136,445 shares of Vringo common stock (subject to a provision that restricts conversion in the event the holder will acquire beneficial ownership of more than 9.99% of Vringo common stock after such conversion) but shall be non-voting, except as required by law and in certain defined instances, including a change of control. In addition, except for certain excluded issuances, the conversion price of the Vringo preferred stock shall be subject to full ratchet anti-dilution protection for issuances of equity or equity-linked securities below the initial conversion price (as adjusted for stock splits, stock dividends and similar events) until the date Vringo common stock has traded an aggregate of 100,000,000 shares at above \$3.00 per share (as adjusted for stock splits, stock dividends and similar events). On a change of control, except for a change of control where the holder receives all publicly traded stock, the

TABLE OF CONTENTS

holder of the Vringo preferred stock will be able to require Vringo to redeem the shares of Vringo preferred stock at the greater of the stated value and the value of the equity underlying the Vringo preferred stock. The Vringo preferred stock also contains a covenant prohibiting Vringo, for a period of 18 months following the closing, from incurring indebtedness senior to the Vringo preferred stock in excess of \$6 million in the aggregate (including the then outstanding principal amount of existing Innovate/Protect indebtedness); provided, that, this covenant shall not apply to indebtedness secured by assets of Vringo acquired after the closing in which the lender expressly subordinates to the holder of the Vringo preferred stock. In addition, in accordance with the terms and conditions of the Merger Agreement, Vringo may not currently incur any indebtedness without the consent of Innovate/Protect. As of May 31, 2012, the indebtedness of Vringo and Innovate/Protect were zero and \$3.2 million, respectively. Therefore, following the consummation of the Merger, Vringo may incur up to \$2.8 million of debt senior to the Vringo preferred stock without violating the provisions of the Vringo preferred stock (in addition to any amounts up to \$6,000,000 that may be drawn down by Innovate/Protect under the Hudson Bay debt facility). The holder of the Vringo preferred stock shall be indemnified against losses due to a buy-in following any failure to timely deliver Vringo common stock upon a conversion failure and Vringo shall pay the holders of the Vringo preferred stock liquidated damages of one-quarter of one percent (0.25%) for each full 15 day period during which Vringo's common stock is suspended from trading or if the Vringo common stock is delisted.

No fractional shares of Vringo common stock or Vringo preferred stock will be issued in connection with the Merger. Instead, each Innovate/Protect stockholder who would be otherwise entitled to receive a fractional share will receive from Vringo, in lieu thereof, the next highest whole number shares of Vringo common stock or Vringo preferred stock, as applicable.

At the effective time of the Merger, each outstanding and unexercised option to purchase Innovate/Protect common stock, whether vested or unvested, will be converted into and become an option to purchase Vringo common stock and Vringo will assume such Innovate/Protect stock option in accordance with the terms of the Innovate/Protect 2011 Equity Incentive Plan. After the effective time of the Merger, (a) each Innovate/Protect stock option assumed by Vringo may be exercised solely for shares of Vringo common stock and (b) the number of shares of Vringo common stock and the exercise price subject to each Innovate/Protect stock option assumed by Vringo shall be determined by the Common Stock Exchange Ratio.

Exchange of Innovate/Protect Stock Certificates

As promptly as practicable before or after the completion of the Merger, Vringo (or its designee) will send to each Innovate/Protect stockholder and warrant holder a letter of transmittal and instructions for use in surrendering all certificates of Innovate/Protect common stock and/or Innovate/Protect preferred stock and warrants for the applicable portion of the Merger Consideration. The Merger Agreement provides that upon surrender to the Parent (or its designee) of a properly completed letter of transmittal, a holder of shares of Innovate/Protect capital stock will be entitled to receive the applicable portion of the Merger Consideration.

If any stockholder has lost a certificate representing shares of Innovate/Protect capital stock, or if any such certificate has been stolen or destroyed, such stockholder will, as a condition to receiving the applicable portion of Merger Consideration for the shares represented by such certificate, be required to make an affidavit of the loss, theft or destruction and, if reasonably required by Vringo, post a bond in a reasonable amount as indemnity against any claim that may be made against Vringo with respect to such certificate.

From and after the completion of the Merger each Innovate/Protect stock certificate will represent only the right to receive an applicable portion of the merger consideration to which such Innovate/Protect stockholder is entitled to receive under the Merger Agreement.

Representations and Warranties

The Merger Agreement contains customary representations and warranties of Vringo and Innovate/Protect (many of which are qualified by concepts of knowledge, materiality and/or dollar thresholds and are further modified and limited by confidential disclosure schedules exchanged by the parties), as applicable, relating to, among other things, (a) organization and qualification; (b) subsidiaries; (c) capital structure; (d) authorization, performance and enforceability of the Merger Agreement; (e) board approval and required vote; (f) financial statements; (g) absence of undisclosed liabilities and minimum cash; (h) absence of changes or events; (i) agreements, contracts and commitments; (j) material permits; (k) employee and employee benefit plans; (l) taxes; (m) tangible assets; (n) insurance; (o) intellectual property; (p) interested party transactions; (q) brokers; and (r) information related to the Proxy Statement (as defined below).

Termination of the Merger Agreement

The Merger Agreement may be terminated at any time prior to the closing of the Merger, as follows: (a) by mutual written consent of Vringo, Merger Sub and Innovate/Protect; (b) by either Vringo or Innovate/Protect if the closing has not occurred on or before September 30, 2012; (c) by either Vringo or Innovate/Protect if any law enacted by a governmental authority prohibits the consummation of the Merger, or any governmental authority has issued an order or taken any other action which restrains, enjoins or otherwise prohibits the Merger; (d) by either Vringo or Innovate/Protect if the other party’s stockholders do not approve the Merger, unless the failure to obtain approval is attributable to a failure on the part of such party seeking to terminate the Agreement; (e) by Vringo if (i) the Innovate/Protect board of directors has effected a Recommendation Change, (ii) the board of directors of Innovate/Protect or any authorized committee has failed to present or recommend the approval of the Merger Agreement and the Merger to the stockholders, (iii) Innovate/Protect shall have entered or caused itself or its subsidiaries to enter, into any letter of intent, agreement in principle, term sheet, merger agreement, acquisition agreement or other similar agreement related to any Innovate/Protect Acquisition Proposal or (iv) Innovate/Protect shall have breached any term of the non-solicitation provision of the Merger Agreement; (f) by Innovate/Protect if (i) the Vringo board of directors has effected a Recommendation Change, (ii) the board of directors of Vringo or any authorized committee has failed to present or recommend the approval of the Merger Agreement and the Merger to the stockholders, (iii) Vringo shall have entered or caused itself or its subsidiaries to enter, into any letter of intent, agreement in principle, term sheet, merger agreement, acquisition agreement or other similar agreement related to any Vringo Acquisition Proposal or (iv) Vringo shall have breached any term of the non-solicitation provision of the Merger Agreement; (g) by either party if the other party, or in the case of Innovate/Protect, Vringo or Merger Sub, is in material breach of its obligations or representations or warranties under the Agreement; (h) by either Vringo or Innovate/Protect if prior to obtaining stockholder approval such party determines to enter into a definitive agreement relating to an Innovate/Protect Superior Proposal or a Vringo Superior Proposal, as the case may be; or (i) by Innovate/Protect, at any time, upon payment to Vringo of the Innovate/Protect Termination Fee (as defined below).

Termination Fees and Expenses

The Merger Agreement provides that, subject to certain exceptions discussed below, all fees and expenses incurred in connection with the Merger Agreement and the transactions contemplated by the Merger Agreement will be paid by the party incurring such expenses.

In the event that either (a) Innovate/Protect terminates the Merger Agreement because (i) it determines to enter into a definitive agreement relating to a Innovate/Protect Acquisition Proposal that the board of directors of Innovate/Protect has determined constitutes a Innovate/Protect Superior Proposal or (ii) Innovate/Protect, at any time, elects to terminate for any reason or no reason at all or (b) Vringo or Innovate/Protect validly terminates the Merger Agreement if the Innovate/Protect stockholders shall have taken a final vote on a proposal to adopt the Merger Agreement and the transactions contemplated thereby, including the Merger, and the Innovate/Protect stockholders shall not have approved the Merger or by Vringo if the Innovate/Protect board of directors have effected a Recommendation Change, then Innovate/Protect shall pay to Vringo a fee (the “**Innovate/Protect Termination Fee**”) equal to \$5,000,000.

In the event that (i) Innovate/Protect terminates the Merger Agreement because the Vringo board of directors have effected a Recommendation Change or (ii) Vringo determines to enter into a definitive agreement relating to a Vringo Acquisition Proposal that the board of directors has determined constitutes a Vringo Superior Proposal, then Vringo shall pay to Innovate/Protect a fee (the “**Vringo Termination Fee**”) equal to 5% of the consideration paid to all security holders of Vringo in connection with a Vringo Superior Proposal, in the same form as such consideration is paid.

In the event that (i) the Merger Agreement is terminated by Vringo because (a) the Merger is not consummated on or before September 30, 2012, (b) if the Vringo stockholders shall have taken a final vote on a proposal to adopt the Merger Agreement and approve the transactions contemplated thereby, including the Merger, and the Vringo stockholders shall not have approved the Merger, or (c) if neither Vringo nor Merger Sub is in material breach of its obligations or representations under the Merger Agreement and if Innovate/Protect is in breach of its representations, warranties and covenants under the Merger Agreement such that the conditions of the obligations of Vringo to effect the Merger could not be satisfied, and (ii) a Vringo Acquisition Proposal has either previously been publicly announced (or has become publicly known) or has been proposed or communicated to Vringo and a definitive agreement with respect to such Vringo Acquisition Proposal has been signed or consummated within six (6) months following the termination of the Merger Agreement, then Vringo shall pay to Innovate/Protect the Vringo Termination Fee. Purpose of the Vringo Annual Meeting

The Vringo annual meeting will be held for the following purposes:

1. To approve the Securities Issuance Proposal;
2. To approve the Reverse Stock Split Proposal;
3. To approve the Authorized Shares Increase Proposal;
4. To elect seven (7) director nominees as set forth in the Election of Directors Proposal;
5. To approve the 2012 Equity Incentive Plan Proposal;
6. To approve the Ratification of the Appointment of Vringo's Independent Registered Public Accounting Firm Proposal;
7. To approve the adjournment of the Vringo annual meeting, if necessary, to solicit additional proxies if there are not sufficient votes in favor of the Vringo Merger Proposals; and
8. To conduct any other business as may properly come before the Vringo annual meeting or any adjournment or postponement thereof.

Vringo Record Date; Shares Entitled to Vote

The Vringo board of directors has fixed [June 8, 2012] as the record date for the determination of stockholders entitled to notice of, and to vote at, the Vringo annual meeting and any adjournment or postponement thereof. Only holders of record of shares of Vringo common stock at the close of business on the record date are entitled to notice of, and to vote at, the Vringo annual meeting. At the close of business on the record date, Vringo had outstanding and entitled to vote _____ shares of common stock.

The Vringo common stock is the only class of securities entitled to vote at the Vringo annual meeting. Each share of Vringo's common stock outstanding on the record date entitles the holder thereof to one vote on each matter properly brought before the Vringo annual meeting, exercisable in person or by proxy.

Quorum

In order to conduct the business described above at the Vringo annual meeting, Vringo must have a quorum present. Stockholders who hold a majority of the Vringo common stock outstanding as of the close of business on the record date for the Vringo annual meeting must be present either in person or by proxy in order to constitute a quorum to conduct business at the Vringo annual meeting. As of the record date, there were _____ shares of Vringo common stock outstanding and entitled to vote at the Vringo annual meeting. Accordingly, the presence, in person or by proxy, of the holders of _____ shares of Vringo common stock will be required in order to establish a quorum.

Required Vote

The proposals being submitted for approval by the Vringo stockholders at the Vringo annual meeting will be approved or rejected on the basis of certain specific voting thresholds. In particular:

- the approval of the Securities Issuance Proposal requires the affirmative vote of the holders of a majority of the shares of Vringo common stock present and entitled to vote on the matter either in person or by proxy at the Vringo annual meeting;
- the approval of the Reverse Stock Split Proposal requires the affirmative vote of the holders of a majority of the shares of Vringo common stock outstanding and entitled to vote on the matter either in person or by proxy at the Vringo annual meeting;

TABLE OF CONTENTS

- the approval of the Authorized Shares Increase Proposal requires the affirmative vote of the holders of a majority of the shares of Vringo common stock outstanding and entitled to vote on the matter either in person or by proxy at the Vringo annual meeting;
- the election of the director nominees as set forth in the Election of Directors Proposal requires the affirmative vote of a plurality of the voting power of the shares present or represented by proxy at the Vringo annual meeting and entitled to vote on the election of directors;
- the approval of the 2012 Equity Incentive Plan Proposal requires the affirmative vote of the holders of a majority of the shares of Vringo common stock present and entitled to vote on the matter either in person or by proxy at the Vringo annual meeting;
- the approval of the Ratification of the Appointment of Vringo's Independent Registered Public Accounting Firm Proposal requires the affirmative vote of the holders of a majority of the shares of Vringo common stock present and entitled to vote on the matter either in person or by proxy at the Vringo annual meeting; and
- the approval of the adjournment of the Vringo annual meeting, if necessary, to solicit proxies if there are not sufficient votes in favor of the Vringo Merger Proposals, requires the affirmative vote of the holders of a majority of the Vringo common stock present and entitled to vote on the matter either in person or by proxy at the Vringo annual meeting.

Approval of the Securities Issuance Proposal, the Reverse Stock Split Proposal, and the Authorized Shares Increase Proposal are required conditions to the completion of the Merger. If any of these proposals are not approved by the Vringo stockholders, the Merger may not be completed.

Counting of Votes; Treatment of Abstentions and Incomplete Proxies

If a Vringo stockholder fails to submit a proxy as instructed on the enclosed proxy card and fails to vote at the Vringo annual meeting, such stockholder's shares will not be counted as present for the purpose of determining the presence of a quorum, which is required to transact business at the Vringo annual meeting, and will have no effect on the outcome of Vringo Proposals No. 1 (Securities Issuance Proposal), No. 4 (Election of Directors Proposal), No. 5 (2012 Equity Incentive Plan Proposal), No. 6 (Ratification of the Appointment of Vringo's Independent Registered Public Accounting Firm Proposal) and No. 7 (adjournment to solicit additional proxies, if necessary). However, the failure to submit a proxy or vote at the Vringo annual meeting will have the same effect as voting AGAINST Vringo Proposals No. 2 (Reverse Stock Split Proposal) and No. 3 (Authorized Shares Increase Proposal).

If a Vringo stockholder submits a proxy and affirmatively elects to abstain from voting, that proxy will be counted as present for the purpose of determining the presence of a quorum for the Vringo annual meeting, but will not be voted at the Vringo annual meeting. As a result, such abstention will have the same effect as voting AGAINST Vringo Proposal Nos. 1, 2, 3, 5 and 7 and will have no effect on Vringo Proposal Nos. 4 and 6. Abstentions are not counted for purposes of electing directors.

If a Vringo stockholder submits a proxy card without indicating how such stockholder wishes to vote, the shares of Vringo common stock represented by such proxy card will be counted as present for the purpose of determining the presence of a quorum for the Vringo annual meeting and all of such shares will be voted FOR Vringo Proposal Nos. 1, 2, 3, 4, 5, 6 and 7.

Voting by Vringo Directors and Executive Officers

As of _____, 2012, the latest practicable date before the printing of this proxy statement/prospectus, directors and executive officers of Vringo beneficially owned and were entitled to vote ___ shares of Vringo common stock, or approximately ___% of the total outstanding voting power of Vringo. It is expected that Vringo's directors and executive officers will vote their shares FOR the approval of the Merger, although none of them has entered into any agreement requiring them to do so.

Voting of Proxies by Registered Holders

Giving a proxy means that a Vringo stockholder authorizes the persons named in the enclosed proxy card to vote the stockholder's shares at the Vringo annual meeting in the manner such stockholder directs. If you are a registered Vringo stockholder (that is, you hold your stock in your own name), you may vote in person at the Vringo annual meeting or vote by submitting your proxy (i) through the Internet, (ii) by telephone or (iii) by marking, signing and dating the enclosed proxy card and returning it in the postage-paid envelope provided. Whether or not you plan to attend the Vringo annual meeting, Vringo urges you to vote by proxy to ensure that your vote is counted. You may still attend the Vringo annual meeting and vote in person even if you have already voted by proxy.

- To vote in person, come to the Vringo annual meeting and Vringo will give you a ballot when you arrive.
- To vote using a proxy, simply follow the instructions included in the enclosed proxy card to vote by Internet or telephone or complete, sign and date the enclosed proxy card and return it promptly in the postage-paid envelope provided. If your proxy is received before the Vringo annual meeting, your proxy will be voted as you direct.

Shares Held in Street Name

If your shares of Vringo common stock are held in street name in a stock brokerage account or by another nominee, you must provide the record holder of your shares with instructions on how to vote the shares. Please follow the voting instructions provided by your broker or other nominee. You may not vote shares of Vringo common stock held in street name by returning a proxy card directly to Vringo or by voting in person at the Vringo annual meeting unless you provide a legal proxy, which you must obtain from your broker or other nominee.

Brokers or other nominees who hold shares of Vringo common stock in street name for a beneficial owner typically have the authority to vote in their discretion on routine proposals, even when they have not received instructions from beneficial owners. However, brokers or other nominees are not allowed to exercise their voting discretion on matters that are determined to be non-routine without specific instructions from the beneficial owner. Broker non-votes are shares held by a broker or other nominee that are represented at the Vringo annual meeting, but with respect to which the broker or other nominee is not instructed by the beneficial owner of such shares to vote on the particular proposal and the broker or other nominee does not have discretionary voting power on such proposal. Therefore, if you are a Vringo stockholder and hold your shares in street name, you should instruct your broker or other nominee on how to vote your shares to ensure that your shares are voted with respect to each of the Vringo Merger Proposals. Broker non-votes will be counted for purposes of determining whether a quorum exists at the Vringo annual meeting.

Revocability of Proxies and Changes to a Vringo Stockholder's Vote

If you are a Vringo stockholder and wish to change your vote with respect to any proposal, you may do so by revoking your proxy at any time prior to the commencement of voting with respect to such proposal at the Vringo annual meeting by:

- sending a written notice stating that you would like to revoke your proxy to Vringo's Corporate Secretary at Vringo, Inc., at 44 West 28th Street, Suite 1414, New York, New York 10001;
- voting on a later date by the Internet or telephone;
- submitting new proxy instructions on a new proxy card with a later date; or
- attending the Vringo annual meeting and voting in person (but note that your attendance alone will not revoke your proxy).

TABLE OF CONTENTS

If you are a Vringo stockholder of record, revocation of your proxy or voting instructions by written notice must be received by Vringo's Corporate Secretary by no later than the close of business on _____, 2012, although you may also revoke your proxy by attending the Vringo annual meeting and voting in person. **However, if your shares are held in street name by a broker or other nominee and you have instructed such broker or other nominee to vote your shares, you must follow directions received from your broker or other nominee in order to change those voting instructions.**

Solicitation of Proxies

Vringo will bear its own cost and expense of preparing, assembling, printing, and mailing this proxy statement/prospectus, any amendments thereto, the proxy card, and any additional information furnished to the Vringo stockholders. Vringo will bear any fees paid to the SEC in connection with the filing of this proxy statement/prospectus and the related Registration Statement on Form S-4. Vringo may also reimburse brokerage houses and other custodians, nominees, and fiduciaries for their costs of soliciting and obtaining proxies from beneficial owners of Vringo common stock, including the costs of reimbursing brokerage houses and other custodians, nominees, and fiduciaries for their costs of forwarding this proxy statement/prospectus and other solicitation materials to such beneficial owners. In addition, proxies may be solicited without extra compensation by directors, officers, and employees of each of Vringo and Innovate/Protect by mail, telephone, fax, or other methods of communication. Vringo has retained Morrow & Co., LLC (Morrow) to assist Vringo in the solicitation of proxies from Vringo stockholders in connection with the Vringo special meeting. Morrow will receive a fee of \$8,500 as compensation for its services, plus \$5.00 per stockholder contacted and reimbursement of out-of-pocket expenses.

Delivery of Proxy Materials to Households Where Two or More Vringo Stockholders Reside

The SEC has adopted rules that permit companies and intermediaries (e.g., brokers) to satisfy the delivery requirements for proxy statements with respect to two or more stockholders sharing the same address by delivering a single proxy statement/prospectus addressed to those stockholders. This process, which is commonly referred to as householding, potentially means extra convenience for stockholders and cost savings for companies.

In connection with the Vringo annual meeting, a number of brokers with account holders who are Vringo stockholders will be householding Vringo proxy materials. As a result, a single proxy statement/prospectus will be delivered to multiple stockholders sharing an address unless contrary instructions have been received from the applicable stockholders. Once a Vringo stockholder receives notice from its broker that they will be householding communications to such stockholder's address, householding will continue until such stockholder is notified otherwise or until such stockholder revokes its consent. If, at any time, a Vringo stockholder no longer wishes to participate in householding and would prefer to receive a separate proxy statement/prospectus, such stockholder should notify its broker or contact Vringo's Corporate Secretary at Vringo, Inc., 44 West 28th Street, Suite 1414, New York, New York 10001. Vringo stockholders who currently receive multiple copies of this proxy statement/prospectus at their address and would like to request householding of their communications should contact their broker.

Attending the Vringo Annual Meeting

All Vringo stockholders as of the record date, or their duly appointed proxies, may attend the Vringo annual meeting. If you are a registered Vringo stockholder (that is, if you hold your stock in your own name) and you wish to attend the Vringo annual meeting, please bring your proxy and evidence of your stock ownership, such as your most recent account statement, to the Vringo annual meeting. You should also bring valid picture identification.

If your shares are held in street name in a stock brokerage account or by another nominee and you wish to attend the Vringo annual meeting, you need to bring a copy of a brokerage or bank statement to the Vringo annual meeting reflecting your stock ownership as of the record date. You should also bring valid picture identification.

VRINGO PROPOSALS

Vringo Proposal No. 1: Approval of the Issuance of Vringo Common Stock and Preferred Stock and Warrants in Connection with the Merger

Upon completion of the Merger, (i) each share of then-outstanding common stock of Innovate/Protect (other than shares held by Vringo, Innovate/Protect or any of their respective subsidiaries, which will be cancelled at the completion of the Merger) will be automatically converted into the right to receive the number of shares of Vringo common stock multiplied by the Common Stock Exchange Ratio (as defined below) and (ii) each share of then-outstanding Innovate/Protect preferred stock (total 6,673 shares outstanding) (other than shares held by Vringo, Innovate/Protect or any of their respective subsidiaries, which will be cancelled at the completion of the Merger) will be automatically converted into the right to receive the same number of shares of Vringo preferred stock, which 6,673 shares, as of May 25, 2012, shall be initially convertible into an aggregate of 20,136,445 shares of Vringo common stock (at a current conversion rate of 3,017.6). The Common Stock Exchange Ratio initially is 3.0176, which is subject to adjustment in the event of a reverse stock split to provide the holders of shares of Innovate/Protect capital stock with the same economic benefit as contemplated by the Merger Agreement prior to any such reverse stock split. In addition, at the effective time of the Merger, Vringo will issue to the holders of Innovate/Protect capital stock and the holder of Innovate/Protect's issued and outstanding warrant to purchase 250,000 shares of Innovate/Protect common stock (on a *pro rata* as-converted basis) an aggregate of 15,959,838 warrants to purchase an aggregate of 15,959,838 shares of Vringo common stock with an exercise price of \$1.76 per share, each subject to equitable adjustment in the event of a reverse stock split. The issued and outstanding warrant to purchase 250,000 shares of Innovate/Protect common stock will be exchanged for 250,000 shares of Vringo common stock and 850,000 warrants to purchase 850,000 shares of Vringo common stock with an exercise price of \$1.76 per share, each subject to equitable adjustment in the event of a reverse stock split. In addition, the aggregate number of shares of Vringo common stock and the aggregate number of warrants (and the aggregate number of shares of Vringo common stock that may be purchased upon exercise thereof) to be issued in exchange for the issued and outstanding warrant of Innovate/Protect shall each be ratably adjusted to give effect to any partial exercise of such warrant prior to the effective time of the Merger.

The Merger will have no effect on the number of shares of Vringo common stock held by current Vringo stockholders as of immediately prior to the completion of the Merger (subject to any changes in outstanding shares of Vringo common stock as a result of the proposed reverse stock split described in the Reverse Stock Split Proposal below). However, it is expected that upon completion of the Merger such shares will represent only an aggregate of approximately 32.45% of the outstanding shares of common stock of the combined company calculated on a fully diluted basis (without taking into account shares of Vringo common stock held by Innovate/Protect stockholders prior to the completion of the Merger. For example, if you are a Vringo stockholder and hold 5% of the outstanding shares of Vringo common stock calculated on a fully diluted basis immediately prior to the completion of the Merger and do not also hold shares of Innovate/Protect capital stock or warrants, then upon completion of the Merger you will hold an aggregate of approximately 1.62% of the outstanding shares of common stock of the combined company calculated on a fully diluted basis as of immediately following the completion of the Merger.

Under NYSE Amex rules and regulations, a company listed on the NYSE Amex is required to obtain stockholder approval prior to the issuance of common stock or of securities convertible into or exercisable for common stock, in connection with the acquisition of another company, if the number of shares of common stock to be issued is, or will be upon issuance, equal to or in excess of 20% of the number of shares of the issuing company's common stock outstanding before such issuance in connection with such proposed acquisition.

The aggregate number of shares of Vringo common stock to be issued in connection with the Merger will exceed 20% of the shares of Vringo common stock outstanding before such issuance. For this reason, Vringo must obtain the approval of the Vringo stockholders, in accordance with the NYSE Amex rules and regulations, for the issuance of shares of Vringo common stock to Innovate/Protect stockholders in connection with the Merger. Accordingly, Vringo is asking its stockholders to approve the issuance of Vringo common stock in connection with the Merger.

Required Vote; Recommendation of the Vringo Board of Directors

Approval of this Securities Issuance Proposal requires the affirmative vote of the holders of a majority of the shares of Vringo common stock present and entitled to vote on the matter either in person or by proxy at the Vringo annual meeting. A failure to submit a proxy or vote at the Vringo annual meeting will result in your shares not being counted as present for the purpose of determining the presence of a quorum, which is required to transact business at the Vringo annual meeting, and will have no effect on the outcome of this Securities Issuance Proposal. However, for purposes of the vote on this Securities Issuance Proposal, an abstention will be counted as present for the purpose of determining a quorum, but will have the same effect as voting “AGAINST” this Securities Issuance Proposal, and a “broker non-vote” will have no effect on the outcome of this Securities Issuance Proposal.

Vringo Proposal No. 2: Approval of an Amendment to Vringo's Amended and Restated Certificate of Incorporation to Effect a Reverse Stock Split of Vringo Common Stock

Overview

The Vringo board of directors has unanimously approved a proposal to amend the Vringo Certificate to effect a reverse stock split of the issued and outstanding shares of Vringo common stock at a reverse stock split ratio ranging from one-for-two to one-for-four, with the exact ratio to be determined by Innovate/Protect prior to the completion of the Merger. The Vringo board of directors has recommended that this proposal be presented to the Vringo stockholders for approval in the event that it is needed to comply with NYSE Amex's continued listing requirements. The text of the form of proposed amendment to the Vringo Certificate to effect a reverse stock split of the issued and outstanding shares of Vringo common stock is attached to this proxy statement/prospectus as [Annex B](#).

The proposed amendment to the Vringo Certificate will effect a reverse stock split of the issued and outstanding shares of Vringo common stock within the range of one-for-two to one-for-four, with the exact number within such range to be determined by Innovate/Protect prior to the completion of the Merger. The Vringo board of directors believes that stockholder approval of an amendment granting this discretion, rather than approval of a specified ratio, provides the appropriate flexibility to react to then-current market conditions and NYSE Amex's requirements for continued listing, therefore, is in the best interests of Vringo and its stockholders.

By approving this amendment, Vringo stockholders will (i) approve a series of amendments to the Vringo Certificate pursuant to which any whole number of outstanding shares of Vringo common stock between and including two and four will be combined into one share of Vringo common stock and (ii) authorize the Vringo board of directors to (a) file only one such amendment, as determined immediately prior to the completion of the Merger in the manner described herein and (b) abandon each amendment not selected. In addition, Vringo may elect not to undertake a reverse stock split.

If, following approval by the Vringo stockholders, it is determined that an amendment to the Vringo Certificate to effect a reverse stock split is in the best interests of Vringo and its stockholders, the reverse stock split will become effective upon filing one such amendment with the Secretary of State of the State of Delaware. Such amendment will contain the number of shares within the range set forth in this Reverse Stock Split Proposal to be combined into one share of Vringo common stock.

If, following approval by the Vringo stockholders, a reverse stock split is undertaken, the number of issued and outstanding shares of Vringo common stock will be reduced in accordance with a reverse stock split ratio determined immediately prior to the completion of the Merger within the range set forth in this Reverse Stock Split Proposal. Except for adjustments that may result from the treatment of fractional shares, as described below, each stockholder will hold the same percentage of Vringo common stock outstanding immediately following the reverse stock split as such stockholder held immediately prior to the reverse stock split and immediately prior to the completion of the Merger. The par value of Vringo common stock will remain unchanged at \$0.01 per share.

Reasons for the Reverse Stock Split

The Vringo board of directors approved the proposal authorizing the reverse stock split because it believes that a reverse stock split may allow the combined company to become listed on the NYSE Amex, which listing is a condition to the completion of the Merger (as discussed below under the section entitled "NYSE Amex Requirements for Listing"), and the Vringo board of directors also believes that the increased market price of Vringo common stock expected to result from the implementation of a reverse stock split will improve the marketability and liquidity of Vringo common stock. From April 9, 2012 until May 18, 2012 the Vringo common stock had a closing price of \$3.00 or above for each trading day. On May 25, 2012, the closing price of Vringo common stock was \$3.39. If the Vringo common stock continues to trade at or above \$3.00 at the time of the Merger, Vringo does not anticipate that it will need to undertake a reverse stock split, even if Vringo obtains stockholder approval to do so.

TABLE OF CONTENTS

NYSE Amex Requirements for Listing

Vringo common stock is currently listed on the NYSE Amex. Innovate/Protect shares of its capital stock are not publicly traded. According to applicable NYSE Amex rules, in a transaction constituting a “reverse merger” in which an issuer combines with a non-listed entity, resulting in a change of control of the issuer and potentially allowing the non-listed entity to obtain a NYSE Amex, the issuer must apply for initial inclusion on the a NYSE Amex.

The Merger Agreement requires that Vringo use its reasonable best efforts to cause the shares of Vringo common stock to be approved, at or prior to the completion of the Merger, for listing (subject only to notice of issuance) on the NYSE Amex at and following the completion of the Merger, and the listing of the shares of Vringo common stock issuable pursuant to the Merger Agreement is a condition to Innovate/Protect’s obligation to complete the Merger.

The listing standards of the NYSE Amex require, among other things, a \$3.00 per share minimum bid upon completion of the Merger. As of the date of the mailing of this proxy statement/prospectus, Vringo has filed an initial listing application for the NYSE Amex in connection with the Merger.

The Vringo board of directors expects that a reverse stock split of Vringo common stock, if effected, will increase the market price of Vringo common stock so that the combined company is able to achieve the initial listing requirements for the NYSE Amex upon completion of the Merger and thereafter maintain compliance with the NYSE Amex bid price listing standard of \$1.00 per share. In determining the exact ratio for the reverse stock split, Vringo intends to use a ratio from within the range of one-for-two to one-for-four that would result in a per share price of greater than \$3.00 per share following the reverse stock split. Notwithstanding the foregoing, there can be no assurance that the market price per share following the Merger and the reverse stock split will remain in excess of the minimum bid price for a sustained period of time. In addition, there can be no assurance that the Vringo common stock, or the common stock of the combined company following the completion of the Merger, will not be delisted due to a failure to meet other continued listing requirements even if the market price per share of Vringo common stock on a post-reverse-stock-split basis remains in excess of the minimum bid requirement.

Additionally, the Vringo board of directors believes that a listing on the NYSE Amex for the shares of common stock of the combined company may provide a broader market for the common stock of the combined company and facilitate the use of the common stock of the combined company in financing and other transactions.

Potential Increased Investor Interest

On _____, 2012, the latest practicable date before the printing of this proxy statement/prospectus, Vringo common stock closed at \$____ per share. An investment in Vringo common stock may not appeal to brokerage firms that are reluctant to recommend lower-priced stocks to their clients. Investors may also be dissuaded from purchasing lower-priced stocks because the brokerage commissions, as a percentage of the total transaction, tend to be higher for such stocks. Moreover, analysts at many brokerage firms do not monitor the trading activity or otherwise provide coverage of lower-priced stocks. Also, the Vringo board of directors believes that most investment funds are reluctant to invest in lower-priced stocks.

There are risks associated with the reverse stock split, including that the reverse stock split may not result in an increase in the per share price of Vringo common stock. There is no assurance that (i) the market price per share of Vringo common stock following the reverse stock split will rise in proportion to the reduction in the number of shares of Vringo common stock outstanding before the reverse stock split, (ii) the reverse stock split will result in a market price per share of Vringo common stock that will attract brokers and investors who do not trade in lower-priced stocks, (iii) the reverse stock split will result in a market price per share of Vringo common stock that will increase the ability of Vringo to attract and retain employees, (iv) the market price per share following the Merger and the reverse stock split will remain in excess of the minimum bid price for a sustained period of time required by NYSE Amex, or (v) Vringo will otherwise meet the listing requirements for the NYSE Amex.

The market price per share of Vringo common stock will also be based on the performance of Vringo and other factors, some of which are unrelated to the number of shares of Vringo common stock outstanding.

TABLE OF CONTENTS

If the reverse stock split is effected and the market price per share of Vringo common stock declines, the percentage decline as an absolute number and as a percentage of the overall market capitalization of Vringo may be greater than would occur in the absence of a reverse stock split. Furthermore, the liquidity of Vringo common stock could be adversely affected by the reduced number of shares of Vringo common stock that will be outstanding following the reverse stock split.

Effects of the Reverse Stock Split

Following the effective date of the reverse stock split, each Vringo stockholder will own a reduced number of shares of Vringo common stock. However, the reverse stock split will affect all of the Vringo stockholders uniformly and will not, in and of itself, affect any Vringo stockholder's percentage ownership interests in Vringo, except to the extent that the reverse stock split results in any of the Vringo stockholders owning a fractional share, as described below. Proportionate voting rights and other rights and preferences of the Vringo stockholders will not be affected by the reverse stock split, in and of itself, except to the extent that the reverse stock split results in any of the Vringo stockholders owning a fractional share, as described below. For example, a holder of 2% of the voting power of the outstanding shares of Vringo common stock immediately prior to the reverse stock split will continue to hold 2% of the voting power of the outstanding shares of Vringo common stock immediately following the reverse stock split and immediately prior to the completion of the Merger. The number of Vringo stockholders of record will not be affected by the reverse stock split, except to the extent that any Vringo stockholder holds only a fractional share following the reverse stock split and receives cash for such fractional share following the reverse stock split, as described below.

The amendment to the Vringo Certificate to effect the reverse stock split, in and of itself, will not change the number of authorized shares of Vringo common stock. As a result, one of the effects of the reverse stock split will be to effectively increase the proportion of authorized shares of Vringo common stock which are unissued relative to those which are issued. This effective increase may occur even if the proposal to amend the Vringo Certificate to increase the authorized shares of Vringo common stock up to 150,000,000 shares, as described in Vringo Proposal No. 3 below, is not approved. This could result in Vringo or the combined company having the ability to issue more shares, unless required by the NYSE Amex, without further stockholder approval. The increased proportion of unissued authorized shares to issued shares could be used by the Vringo board of directors to make more difficult, and thereby discourage, delay or prevent, an attempt to acquire control of Vringo. For example, the shares could be privately placed with investors who might support the Vringo board of directors in opposing a hostile takeover. The issuance of new shares also could be used to dilute the stock ownership and voting power of a third party seeking to effect a change in the composition of the board of directors or contemplating a tender offer or other transaction for the combination of Vringo with another company. While the amendment to the Vringo Certificate to effect a reverse stock split may have potential antitakeover effects, it is not prompted by any specific effort or takeover threat currently perceived by the Vringo board of directors or management. Neither Vringo nor Innovate/Protect have any current plan, commitment, arrangement, understanding, or agreement, written or oral, to issue shares of Vringo common stock, other than in connection with the Merger, to satisfy obligations under outstanding options and warrants to purchase shares of Vringo common stock, and to satisfy obligations under outstanding options and warrants to purchase Innovate/Protect capital stock as such options and warrants are exercised (following the completion of the Merger), each of which will be assumed by Vringo in connection with the Merger (as more fully described elsewhere in this proxy statement/prospectus).

The reverse stock split will reduce the number of shares of Vringo common stock available for issuance under Vringo's equity incentive plans in proportion to the reverse stock split ratio selected within the range set forth in this proposal. Vringo also has certain outstanding options to purchase Vringo common stock. Under the terms of the outstanding Vringo stock options, the reverse stock split will effect a reduction in the number of shares of Vringo common stock issuable upon exercise of such outstanding stock options in proportion to the reverse stock split ratio and will effect a proportionate increase in the exercise price of such outstanding stock options. In connection with the reverse stock split, the number of shares of Vringo common stock issuable upon exercise of outstanding Vringo stock options will be rounded to the nearest whole share and no cash payment will be made in lieu of any fractional shares of Vringo common stock that would otherwise be issuable pursuant to such options. The reverse stock split will not in and of itself change the value of a Vringo stock option.

TABLE OF CONTENTS

Vringo common stock is currently registered under Section 12(b) of the Exchange Act, and Vringo is subject to the periodic reporting and other requirements of the Exchange Act. The reverse stock split will not affect the registration of Vringo common stock under the Exchange Act. If the reverse stock split is implemented, and the combined company's initial listing application with the NYSE Amex is approved, Vringo common stock will continue to be reported on the NYSE Amex under the symbol "VRNG" (although NYSE Amex will likely add the letter "D" to the end of the trading symbol for a period of 20 trading days to indicate that the reverse stock split has occurred).

The following table provides estimates of the number of shares of Vringo common stock authorized, issued and outstanding, reserved for issuance, and authorized but neither issued nor reserved for issuance at the following times:

- prior to the reverse stock split and the completion of the Merger;
- giving effect to a one-for-two reverse stock split but prior to the completion of the Merger; and
- giving effect to a one-for-four reverse stock split but prior to the completion of the Merger.

	Shares Authorized	Shares Issued and Outstanding ⁽¹⁾	Shares Reserved for Issuance ⁽¹⁾	Number of Shares Authorized but Neither Issued nor Reserved for Issuance ⁽¹⁾
Prior to the reverse stock split	28,000,000	13,861,423	0	14,138,577
Giving effect to a one-for-two reverse stock split	28,000,000	6,930,712	0	21,069,288
Giving effect to a one-for-four reverse stock split	28,000,000	3,465,356	0	24,534,644

(1) These estimates assume 13,861,423 shares of Vringo common stock issued and outstanding as of immediately prior to the completion of the Merger, which was the number of shares of Vringo common stock issued and outstanding as of March 12, 2012, the date of the Merger Agreement, and such estimates do not include the shares of Vringo common stock issuable to Innovate/Protect stockholders in connection with the Merger.

Upon completion of the Merger, each share of Innovate/Protect capital stock will be converted into the right to receive a number of shares of Vringo common stock equal to the Exchange Ratio. As of _____, 2012 the last practicable date before the printing of this proxy statement/prospectus, _____ shares of Vringo common stock were outstanding calculated on a fully diluted basis and 12,856,307 shares of Innovate/Protect capital stock were outstanding calculated on a fully diluted basis. Because the Exchange Ratio gives effect to the reverse stock split, if the Merger had been completed as of _____, 2012, assuming a reverse stock split ratio of one-for-two, each share of Innovate/Protect capital stock would have converted into and been exchanged for the right to receive _____ shares of Vringo common stock, which would have resulted in an aggregate issuance of _____ shares of Vringo common stock calculated on a fully diluted basis. If the Merger had been completed as of _____, 2012, assuming a reverse stock split ratio of one-for-four, each share of Innovate/Protect capital stock would have converted into and been exchanged for the right to receive _____ shares of Vringo common stock, which would have resulted in an aggregate issuance of _____ shares of Vringo common stock calculated on a fully diluted basis.

Effective Date

The reverse stock split will become effective on the date of filing of the certificate of amendment to the Vringo Certificate with the office of the Secretary of State of the State of Delaware. Except as explained below with respect to fractional shares, on the effective date of the reverse stock split, shares of Vringo common stock issued and outstanding immediately prior to such effective date will be combined and converted, automatically and without any action on the part of the Vringo stockholders, into new shares of Vringo common stock in accordance with the reverse stock split ratio determined immediately prior to the completion of the Merger within the range set forth in this Reverse Stock Split Proposal.

Fractional Shares

Vringo will not issue fractional shares in connection with the Reverse Stock Split. Instead, any fractional share resulting from the Reverse Stock Split will be rounded up to the nearest whole share.

Exchange of Stock Certificates

As soon as practicable following the effective date of the reverse stock split, Vringo stockholders will be notified that the reverse stock split has been effected. Vringo's transfer agent will act as exchange agent for purposes of implementing the exchange of stock certificates. Holders of pre-reverse stock split shares will be asked to surrender to the exchange agent certificates representing pre-reverse stock split shares in exchange for certificates representing post-reverse stock split shares in accordance with the procedures to be set forth in a letter of transmittal to be sent by the exchange agent. No new certificates will be issued to a Vringo stockholder until such stockholder has surrendered such stockholder's outstanding certificate(s), together with the properly completed and executed letter of transmittal to the exchange agent. **Vringo stockholders should not destroy any Vringo stock certificates and should not submit any such certificates until requested to do so.**

Accounting Consequences

The par value per share of Vringo common stock will remain unchanged at \$0.01 per share following the reverse stock split. As a result, on the effective date of the reverse stock split, the stated capital on Vringo's balance sheet attributable to Vringo common stock will be reduced proportionally, based on the reverse stock split ratio, from its present amount, and the additional paid-in capital account shall be credited with the amount by which the stated capital is reduced. The per share common stock net income or loss and net book value will be increased because there will be fewer shares of Vringo common stock outstanding. Vringo does not anticipate that any other accounting consequences will arise as a result of the reverse stock split.

Material U.S. Federal Income Tax Consequences of the Reverse Stock Split

The following discussion summarizes the anticipated material U.S. federal income tax consequences of the reverse stock split. This summary is based upon current provisions of the Code, existing Treasury Regulations, and current administrative rulings and court decisions, all of which are subject to change and to differing interpretations, possibly with retroactive effect. Any such change could alter the tax consequences to Vringo or the Vringo stockholders, as described in this summary. This summary is not binding on the IRS, and there can be no assurance that the IRS (or a court, in the event of an IRS challenge) will agree with the conclusions stated herein. No ruling has been or will be requested from the IRS in connection with the reverse stock split.

This discussion is not intended to be a complete analysis or description of all potential U.S. federal income tax consequences of the reverse stock split. Moreover, this discussion does not address U.S. federal income tax consequences of the reverse stock split that may vary with individual circumstances. In addition, the discussion set forth below does not address any U.S. federal non-income tax or any state, local or foreign tax consequences of the reverse stock split and does not address the tax consequences of any transaction other than the reverse stock split.

The reverse stock split is expected to qualify as a "recapitalization" within the meaning of Section 368(a) of the Code. Assuming the reverse stock split so qualifies, the following consequences will result:

- no gain or loss will be recognized by Vringo as a result of the reverse stock split;
- a Vringo stockholder generally will recognize no gain or loss upon the receipt of Vringo common stock in the reverse stock split;
- a Vringo stockholder's aggregate tax basis in the post-reverse stock split shares of Vringo common stock received in the reverse stock split will be equal to the aggregate tax basis of the pre-reverse stock split shares of Vringo common stock exchanged therefor; and

[TABLE OF CONTENTS](#)

- a Vringo stockholder's holding period of the post-reverse stock split shares of Vringo common stock received in the reverse stock split will include such stockholder's holding period of the pre-reverse stock split shares exchanged therefor.

Vringo stockholders are advised and expected to consult their own tax advisors regarding the U.S. federal income tax consequences of the reverse stock split in light of their personal circumstances and the consequences of the reverse stock split under U.S. federal non-income tax laws and state, local, and foreign tax laws.

No Appraisal Rights

Under the DGCL, Vringo stockholders are not entitled to appraisal rights with respect to the proposed amendment to the Vringo Certificate to effect the reverse stock split and Vringo will not independently provide the Vringo stockholders with any such rights.

Required Vote; Recommendation of the Vringo Board of Directors

The approval of this Reverse Stock Split Proposal will be necessary to enable the combined company to become listed on the NYSE Amex upon completion of the Merger, if Vringo's stock price remains below \$3.00 per share prior to the Merger. From April 9, 2012 until May 18, 2012 the Vringo common stock had a closing price of \$3.00 or above for each trading day. On May 25, 2012, the closing price of Vringo common stock was \$3.39. If the Vringo common stock continues to trade at or above \$3.00 at the time of the Merger, Vringo does not anticipate that it will need to undertake a reverse stock split, even if Vringo obtains stockholder approval to do so.

Approval of this Reverse Stock Split Proposal requires the affirmative vote of the holders of a majority of the shares of Vringo common stock outstanding and entitled to vote on the matter either in person or by proxy at the Vringo annual meeting. For purposes of the vote on this Reverse Stock Split Proposal, an abstention, a "broker non-vote," or a failure to submit a proxy or vote at the Vringo annual meeting will have the same effect as voting "AGAINST" this Reverse Stock Split Proposal.

Vringo Proposal No. 3: Approval of an Amendment to Vringo's Amended and Restated Certificate of Incorporation to Increase the Number of Shares of Common Stock Authorized for Issuance from 28,000,000 to up to a maximum of 150,000,000

Overview

The Vringo board of directors has unanimously approved a proposal to amend the Vringo Certificate to increase the authorized number of shares of Vringo common stock from 28,000,000 shares to up to a maximum of 150,000,000 shares, with the exact number to be determined by Innovate/Protect prior to the completion of the Merger. The Vringo board of directors believes that stockholder approval of an amendment granting the board this discretion, rather than approval of a specific number of shares, provides the appropriate flexibility to determine the appropriate number of authorized shares of Vringo common stock based on the needs of the company and, therefore, is in the best interests of Vringo and its stockholders. The Vringo board of directors has recommended that this proposal be presented to the Vringo stockholders for approval. The text of the form of proposed amendment to the Vringo Certificate to increase the authorized shares of Vringo common stock to up to a maximum of 150,000,000 shares is attached to this proxy statement/prospectus as [Annex C](#).

Reasons for the Increase in Authorized Shares

Although at present, apart from the shares to be issued pursuant to the Merger, the Vringo board of directors has no other plans to issue the additional shares of Vringo common stock, it desires to have such shares available to provide additional flexibility to use Vringo capital stock for business and financial purposes in the future. The additional shares may be used for various purposes without further stockholder approval. These purposes may include, among others:

- raising capital;
- providing equity incentives to employees, officers, and directors; and
- establishing strategic relationships with other companies.

In determining the exact increase in the number of authorized shares of Vringo common stock and in addition to consideration of the foregoing purposes for which such shares may be used, Innovate/Protect will also consider current market conditions, the number of shares authorized by similar development stage companies, and the number of shares available as a result of the reverse stock split discussed above under Proposal No. 2 above. The terms of the additional shares of Vringo common stock will be identical to those of the currently outstanding shares of Vringo common stock. The approval to increase the authorized shares of Vringo common stock could result in Vringo or the combined company having the ability to issue more shares, unless required by the NYSE Amex, without further stockholder approval. The increase in the authorized shares of Vringo common stock could be used by the Vringo board of directors to make more difficult, and thereby discourage, delay or prevent, an attempt to acquire control of Vringo. For example, the shares could be privately placed with investors who might support the Vringo board of directors in opposing a hostile takeover. The issuance of new shares also could be used to dilute the stock ownership and voting power of a third party seeking to effect a change in the composition of the board of directors or contemplating a tender offer or other transaction for the combination of Vringo with another company. While the amendment to the Vringo Certificate to effect a reverse stock split may have potential antitakeover effects, it is not prompted by any specific effort or takeover threat currently perceived by the Vringo board of directors or management. Neither Vringo nor Innovate/Protect have any current plan, commitment, arrangement, understanding, or agreement, written or oral, to issue shares of Vringo common stock, other than in connection with the Merger, to satisfy obligations under outstanding options to purchase shares of Vringo common stock, and to satisfy obligations under outstanding options and warrants to purchase Innovate/Protect capital stock as such options and warrants are exercised (following the completion of the Merger), each of which will be assumed by Vringo in connection with the Merger.

By approving this amendment, the Vringo stockholders will (i) approve a series of amendments to the Vringo Certificate pursuant to which any whole number of shares of Vringo common stock between 28,000,000 and up to 150,000,000 would be authorized for issuance and (ii) authorize the Vringo board of directors to (a) file only one such amendment and (b) abandon each amendment not selected. In addition, Vringo may elect not to undertake an increase in authorized shares of Vringo common stock.

Vringo Proposal No. 5: Approval of the Vringo, Inc. 2012 Employee, Director and Consultant Equity Incentive Plan

General

The 2012 Equity Incentive Plan, or the 2012 Plan, was approved by the Vringo board of directors on _____, 2012.

The 2012 Plan is being submitted to you for approval at the annual meeting in order to ensure favorable federal income tax treatment for grants of incentive stock options under Section 422 of the Code and eligibility under Rule 162(m) of the Code to receive a U.S. federal income tax reduction with respect to compensation earned upon exercise of options under the 2012 Plan. Approval by Vringo's stockholders of the 2012 Plan is also required by the listing rules of the NYSE Amex.

The 2012 Plan replaces Vringo's 2006 Stock Option Plan which will be terminated with the remaining 9.1 million authorized shares thereunder cancelled if the stockholders approve the 2012 Plan. The 2012 Plan is being replaced in order to ensure full compliance with legal and tax requirements under U.S. law.

The proposed number of shares subject to the 2012 Plan is the sum of: (i) 15.6 million shares of common stock, which constitutes 6.5 million new shares and 9.1 million previously authorized but unissued shares under the 2006 Stock Option Plan and (ii) any shares of common stock that are represented by awards granted under Vringo's 2006 Stock Option Plan that are forfeited, expire or are cancelled without delivery of shares of common stock or which result in the forfeiture of shares of common stock back to Vringo on or after the date of the 2012 Plan approval by the stockholders of Vringo, or the equivalent of such number of shares after the administrator, in its sole discretion, has interpreted the effect of any stock split, stock dividend, combination, recapitalization or similar transaction in accordance with the 2012 Plan; provided, however, that no more than 3.2 million shares shall be added to the 2012 Plan.

As of May 25, 2012, options to purchase an aggregate of 4,623,863 shares of common stock, having a weighted-average exercise price of \$2.14 with expiration terms of six years, were outstanding under Vringo's 2006 Stock Option Plan.

Generally shares of common stock reserved for awards under the 2012 Plan that lapse or are canceled will be added back to the share reserve available for future awards. However, shares of common stock tendered in payment for an award or shares of common stock withheld for taxes will not be available again for grant. The 2012 Plan provides that no participant may receive awards for more than 4.0 million shares of common stock in any fiscal year.

The Vringo board of directors, the Compensation Committee and management all believe that the effective use of stock-based long-term incentive compensation is vital to Vringo's ability to achieve strong performance in the future. The 2012 Plan will maintain and enhance the key policies and practices adopted by Vringo's management and its board of directors to align employee and stockholder interests. In addition, Vringo's future success depends, in large part, upon Vringo's ability to maintain a competitive position in attracting, retaining and motivating key personnel. Accordingly, the Vringo board of directors believes that approval of the 2012 Plan is in Vringo's best interests and those of its stockholders and recommends a vote "FOR" the approval of the 2012 Plan.

The following is a brief summary of the 2012 Plan. This summary is qualified in its entirety by reference to the text of the 2012 Plan, a copy of which is attached as [Annex D](#) to this proxy statement/prospectus.

Material Features of the 2012 Plan

Eligibility. The 2012 Plan allows Vringo, under the direction of its Compensation Committee, to make grants of stock options, restricted and unrestricted stock awards and other stock-based awards to employees, consultants and directors who, in the opinion of the Compensation Committee, are in a position to make a significant contribution to Vringo's long-term success. The purpose of these awards is to attract and retain key individuals, further align employee and stockholder interests, and to closely link compensation with Vringo's performance. The 2012 Plan provides an essential component of the total compensation package, reflecting the importance that Vringo places on aligning the interests of key individuals with those of Vringo stockholders.

TABLE OF CONTENTS

All employees, directors and consultants of Vringo and its affiliates are eligible to participate in the 2012 Plan. As of May 25, 2012, there were approximately 40 individuals eligible to participate.

Stock Options. Stock options granted under the 2012 Plan may either be incentive stock options, which are intended to satisfy the requirements of Section 422 of the Code, or non-qualified stock options, which are not intended to meet those requirements. Incentive stock options may be granted to employees of Vringo and its affiliates. Non-qualified options may be granted to employees, directors and consultants of Vringo and its affiliates. The exercise price of a stock option may not be less than 100% of the fair market value of Vringo common stock on the date of grant. If an incentive stock option is granted to an individual who owns more than 10% of the combined voting power of all classes of the Vringo capital stock, the exercise price may not be less than 110% of the fair market value of Vringo common stock on the date of grant and the term of the option may not be longer than five years.

Award agreements for stock options include rules for exercise of the stock options after termination of service. Options may not be exercised unless they are vested, and no option may be exercised after the end of the term set forth in the award agreement. Generally, stock options will be exercisable for three months after termination of service for any reason other than death or total and permanent disability, and for 12 months after termination of service on account of death or total and permanent disability.

Restricted Stock. Restricted stock is common stock that is subject to restrictions, including a prohibition against transfer and a substantial risk of forfeiture, until the end of a “restricted period” during which the grantee must satisfy certain vesting conditions. If the grantee does not satisfy the vesting conditions by the end of the restricted period, the restricted stock is forfeited.

During the restricted period, the holder of restricted stock has the rights and privileges of a regular stockholder, except that the restrictions set forth in the applicable award agreement apply. For example, the holder of restricted stock may vote and receive dividends on the restricted shares; but he or she may not sell the shares until the restrictions are lifted.

Other Stock-Based Awards. The 2012 Plan also authorizes the grant of other types of stock-based compensation including, but not limited to stock appreciation rights, phantom stock awards, and stock unit awards.

Plan Administration. In accordance with the terms of the 2012 Plan, the Vringo board of directors has authorized its Compensation Committee to administer the 2012 Plan. The Compensation Committee may delegate part of its authority and powers under the 2012 Plan to one or more of Vringo’s directors and/or officers, but only the Compensation Committee can make awards to participants who are directors or executive officers of Vringo. In accordance with the provisions of the 2012 Plan, the Compensation Committee determines the terms of awards, including:

- which employees, directors and consultants will be granted awards;
- the number of shares subject to each award;
- the vesting provisions of each award;
- the termination or cancellation provisions applicable to awards; and
- all other terms and conditions upon which each award may be granted in accordance with the 2012 Plan.

In addition, the Compensation Committee may, in its discretion, amend any term or condition of an outstanding award provided (i) such term or condition as amended is permitted by the 2012 Plan, and (ii) any such amendment shall be made only with the consent of the participant to whom such award was made, if the amendment is adverse to the participant; and provided, further, that, without the prior approval of our stockholders, options and stock appreciation rights will not be repriced, replaced or regranted through cancellation or by lowering the exercise price of a previously granted award.

Stock Dividends and Stock Splits. If Vringo common stock shall be subdivided or combined into a greater or smaller number of shares or if we issue any shares of common stock as a stock dividend, the number of shares of Vringo common stock deliverable upon exercise of an option issued or upon issuance of

an award shall be appropriately increased or decreased proportionately, and appropriate adjustments shall be made in the purchase price per share to reflect such subdivision, combination or stock dividend.

Corporate Transactions. Upon a merger or other reorganization event, the Vringo board of directors, may, in its sole discretion, take any one or more of the following actions pursuant to the 2012 Plan, as to some or all outstanding awards:

- provide that all outstanding options shall be assumed or substituted by the successor corporation;
- upon written notice to a participant provide that the participant's unexercised options will terminate immediately prior to the consummation of such transaction unless exercised by the participant;
- in the event of a merger pursuant to which holders of Vringo common stock will receive a cash payment for each share surrendered in the merger, make or provide for a cash payment to the participants equal to the difference between the merger price times the number of shares of Vringo common stock subject to such outstanding options, and the aggregate exercise price of all such outstanding options, in exchange for the termination of such options;
- provide that outstanding awards shall be assumed or substituted by the successor corporation, become realizable or deliverable, or restrictions applicable to an award will lapse, in whole or in part, prior to or upon the merger or reorganization event.

Notwithstanding the foregoing, in the event the Corporate Transaction also constitutes a Change of Control, then all Options outstanding on the date of the Corporate Transaction shall have vesting acceleration until the next vesting date, unless otherwise agreed upon with the Administrator.

Amendment and Termination. the 2012 Plan may be amended by Vringo stockholders. It may also be amended by the Vringo board of directors, provided that any amendment approved by the Vringo board of directors which is of a scope that requires stockholder approval as required by the rules of the NYSE Amex, in order to ensure favorable federal income tax treatment for any incentive stock options under Code Section 422, or for any other reason is subject to obtaining such stockholder approval. In addition, if the NYSE Amex amends its corporate governance rules so that such rules no longer require stockholder approval of "material amendments" of equity compensation plans, then, from and after the effective date of such an amendment to the NYSE Amex rules, no amendment of the 2012 Plan which (i) materially increases the number of shares to be issued under the 2012 Plan (other than to reflect a reorganization, stock split, merger, spin off or similar transaction); (ii) materially increases the benefits to participants, including any material change to: (a) permit a repricing (or decrease in exercise price) of outstanding options, (b) reduce the price at which awards may be offered, or (c) extend the duration of the 2012 Plan; (iii) materially expands the class of participants eligible to participate in the 2012 Plan; or (iv) expands the types of awards provided under the 2012 Plan shall become effective unless stockholder approval is obtained. The 2012 Plan expires on the date which is ten years from the earlier of the date of its adoption by the Board of Directors and the date of its approval by the shareholders of the Company.

U.S. Federal Income Tax Considerations

The material federal income tax consequences of the issuance and exercise of stock options and other awards under the 2012 Plan, based on the current provisions of the Code and regulations, are as follows. Changes to these laws could alter the tax consequences described below. This summary assumes that all awards granted under the 2012 Plan are exempt from or comply with, the rules under Section 409A of the Code related to nonqualified deferred compensation.

Incentive Stock Options:

Incentive stock options are intended to qualify for treatment under Section 422 of the Code. An incentive stock option does not result in taxable income to the optionee or deduction to Vringo at the time it is granted or exercised, provided that no disposition is made by the optionee of the shares acquired pursuant to the option within two years after the date of grant of the option nor within one year after the date of issuance of shares to the optionee (referred to as the “**ISO holding period**”). However, the difference between the fair market value of the shares on the date of exercise and the option price will be an item of tax preference includible in “alternative minimum taxable income” of the optionee. Upon disposition of the shares after the expiration of the ISO holding period, the optionee will generally recognize long term capital gain or loss based on the difference between the disposition proceeds and the option price paid for the shares. If the shares are disposed of prior to the expiration of the ISO holding period, the optionee generally will recognize taxable compensation, and Vringo will have a corresponding deduction, in the year of the disposition, equal to the excess of the fair market value of the shares on the date of exercise of the option over the option price. Any additional gain realized on the disposition will normally constitute capital gain. If the amount realized upon such a disqualifying disposition is less than fair market value of the shares on the date of exercise, the amount of compensation income will be limited to the excess of the amount realized over the optionee’s adjusted basis in the shares.

Non-Qualified Options:

Options otherwise qualifying as incentive stock options, to the extent the aggregate fair market value of shares with respect to which such options are first exercisable by an individual in any calendar year exceeds \$100,000, and options designated as non-qualified options will be treated as options that are not incentive stock options.

A non-qualified option ordinarily will not result in income to the optionee or deduction to Vringo at the time of grant. The optionee will recognize compensation income at the time of exercise of such non-qualified option in an amount equal to the excess of the then value of the shares over the option price per share. Such compensation income of optionees may be subject to withholding taxes, and a deduction may then be allowable to Vringo in an amount equal to the optionee’s compensation income.

An optionee’s initial basis in shares so acquired will be the amount paid on exercise of the non-qualified option plus the amount of any corresponding compensation income. Any gain or loss as a result of a subsequent disposition of the shares so acquired will be capital gain or loss.

Stock Grants:

With respect to stock grants under the 2012 Plan that result in the issuance of shares that are either not restricted as to transferability or not subject to a substantial risk of forfeiture, the grantee must generally recognize ordinary income equal to the fair market value of shares received. Thus, deferral of the time of issuance will generally result in the deferral of the time the grantee will be liable for income taxes with respect to such issuance. We generally will be entitled to a deduction in an amount equal to the ordinary income recognized by the grantee.

[TABLE OF CONTENTS](#)

With respect to stock grants involving the issuance of shares that are restricted as to transferability and subject to a substantial risk of forfeiture, the grantee must generally recognize ordinary income equal to the fair market value of the shares received at the first time the shares become transferable or are not subject to a substantial risk of forfeiture, whichever occurs earlier. A grantee may elect to be taxed at the time of receipt of shares rather than upon lapse of restrictions on transferability or substantial risk of forfeiture, but if the grantee subsequently forfeits such shares, the grantee would not be entitled to any tax deduction, including as a capital loss, for the value of the shares on which he previously paid tax. The grantee must file such election with the Internal Revenue Service within 30 days of the receipt of the shares. Vringo generally will be entitled to a deduction in an amount equal to the ordinary income recognized by the grantee.

Stock Units:

The grantee recognizes no income until the issuance of the shares. At that time, the grantee must generally recognize ordinary income equal to the fair market value of the shares received. Vringo generally will be entitled to a deduction in an amount equal to the ordinary income recognized by the grantee.

Rules Particular to Specific Countries

The terms and conditions of the Plan may be amended with respect to particular types of Participant as determined by the board of directors (for example — Israeli employees) by an appendix to the Plan (the “**Appendix**”). Vringo may adopt one or more Appendices. Each Appendix shall be approved by the board of directors and as required or advisable under applicable law. The terms of an Appendix shall govern only with respect to the types of Participant specified in such Appendix. In the case that the terms and conditions set forth in an Appendix conflict with any provisions of the Plan, the provisions of the Appendix shall govern with respect to Participant that are subject to such Appendix, provided, however, that such Appendix shall not be construed to grant the Participant rights not consistent with the terms of the Plan, unless specifically provided in such Appendix.

The amounts of future grants under the 2012 Plan are not determinable as awards under the 2012 Plan and will be granted at the sole discretion of the Compensation Committee, or other delegated persons and Vringo cannot determine at this time either the persons who will receive awards under the 2012 Plan or the amount or types of any such awards.

On May 25, 2012, the closing market price per share of our common stock was \$3.39, as reported by the NYSE Amex.

VRINGO'S BUSINESS

Overview

Vringo provides a range of software products for mobile video entertainment, personalization and mobile social applications. Vringo's comprehensive software platforms include applications that allow users to: (i) create, download and share mobile video entertainment content in the form of video ringtones for mobile phones, (ii) create social picture ringtone and ringback content in the form of animated slideshows sourced from their friends' social networks, (iii) create ReMixed video clips from artists and branded content, and (iv) utilize Fan Loyalty mobile applications for contestant based reality TV shows. Vringo's applications and services have been launched with ten carriers in eight markets. The billing integrations that Vringo has with these operators are of significant strategic value to its operations. In addition, Vringo has deals in place with two of the four largest handset makers in the world. Vringo also believes that social network information and updates will be shared regularly when friends regularly communicate by voice and by text. Vringo's video ringtone solutions and other mobile social and video applications, which encompass a suite of mobile and PC-based tools, enable users to create, download and share video and other social content with ease as part of the normal communication process, and provide Vringo's business partners with a consumer-friendly and easy-to-integrate monetization platform. While Vringo's current portfolio of applications and services represents what it believes to be cutting edge mobile technology that can work across many operating systems, Vringo recognizes that the pace at which the mobile landscape is changing has increased and the two most dominant operating systems are Google's Android and Apple's iOS. Moving forward, Vringo intends to develop additional applications and services for these two key operating systems, as well as other dominant smartphone operating systems that may emerge. Vringo believes that it can leverage its existing distribution and relationships to promote apps and services for these two operating systems.

To date, Vringo has developed four different mobile video, personalization and mobile social application platforms:

- **Video Ringtones** — Vringo's original product platform that allows users to create, download and share mobile entertainment content in the form of video ringtones for mobile phones;
- **FacetonesTM** — a visual ringtone experience based on social network pictures from a user's friends;
- **Video ReMix** — an application that allows a user to create his or her own music video by tapping on a smartphone or tablet, in partnership with music artists and brands; and
- **Fan Loyalty** — a platform that allows users to obtain video and video ringtones, view information on certain reality television series and stars and vote for contestants.

To develop these platforms, Vringo has leveraged its existing technology, intellectual property and its extensive experience with mobile video, personalization and social applications. Vringo believes that these platforms will represent a significant component of its business going forward.

Vringo's ability to compete successfully depends on its ability to ensure a continuing and timely introduction of innovative new products and technologies to the marketplace. As a result, Vringo must make significant investments in research and development. To date, Vringo filed over 24 patents, three of the patents that have been filed have been granted by the USPTO and Vringo has received a notice of allowance for one patent in Europe.

Recent Developments

Facebook, Inc.

On February 9, 2012, Vringo entered into an agreement with Facebook, Inc. relating to the use of Vringo's Facetones mark and domain name (the "**Facetones Mark**"). Prior to the agreement, the parties had a potential dispute regarding the Facetones Mark. By entering into the agreement, the potential dispute has been favorably resolved to the satisfaction of both parties. The agreement clarifies Vringo's permitted use of the Facetones Mark including making certain changes to its U.S. trademark application to clarify the description of the Facetones service and agreeing to certain limitations on its use of the Facetones Mark.

Business

Vringo's video ringtone platform was its primary product of focus from inception through the launch of Vringo's Facetones product in the third quarter of 2011. Vringo continues to develop business for this product. Vringo believes that its comprehensive video ringtone service represents the next stage in the evolution of the ringtone market from standard audio ringtones to high-quality video ringtones, with social networking capability and integration with web systems. Vringo's solution, which encompasses a suite of mobile and PC-based tools, enables users to create, download and share video ringtones with ease. Vringo's solution, furthermore, provides its business partners with a consumer-friendly and easy-to-integrate monetization platform. This platform combines a downloadable mobile application which works on multiple operating systems and over 400 mobile handsets, a WAP site, which is a simplified website accessible by a user on a mobile phone, and a website, together with a robust content integration, management and distribution system. As part of providing a complete end-to-end video ringtone platform, Vringo has amassed a library of over 12,000 video ringtones that Vringo provides for its users in various territories. Certain portions of this library are geographically restricted. Vringo also has developed substantial tools for users to create their own video ringtones and for mobile carriers and other partners to include their own content and deliver it exclusively to their customers. Vringo's VringForwardTM video ringtone technology allows users to enjoy a rich social experience by sharing video ringtones from its library or which they created.

Until the end of 2009, Vringo's video ringtone service was offered to consumers for free. At that point, Vringo moved to a paid service model together with mobile carriers and other partners around the world. The revenue model for its video ringtone service offered through the carriers is generally a subscription-based model where users pay a monthly fee for access to Vringo's service and additional fees for premium content. Vringo's free version is still available in markets where Vringo has not entered into commercial arrangements with carriers or other partners. Vringo has built its video ringtone platform with a flexible back-end and front-end that is easy to integrate with the back-end systems of mobile carriers and easy to co-brand with mobile carriers. To date, Vringo has filed 24 patent applications for its platform, three of which have been issued in the United States and Vringo has received one notice of allowance in Europe to date, and Vringo continues to create new intellectual property.

As of May 25, 2012, Vringo has commercial video ringtone services with the following eight carriers and partners:

Celcom is one of the largest mobile telecommunications operators in Malaysia with the widest national 2G and 3G coverage in the country, with 26,000 subscribers to Vringo's paid service. Celcom is a Vodafone partner and is part of the Axiata Group of Companies, one of the world's largest telecommunications companies with more than 160 million customers across 10 Asian markets (launched in October 2011);
- Maxis Mobile Services SDN BHD, or Maxis, a mobile carrier in Malaysia with 11.4 million subscribers, of which there are 143,000 subscribers to Vringo's paid service and an additional 2,000 subscribers on a free trial basis (launched in September 2009);
- Emirates Telecommunications Corporation, or Etisalat, a mobile carrier with 7.3 million subscribers in the United Arab Emirates and which has more than 94.0 million subscribers worldwide, where Vringo has launched its products and services and has 23,000 subscribers to Vringo's paid service, (launched in January 2010);
- Everything Everywhere Limited (EEL), a mobile carrier with almost 30.0 million subscribers in the United Kingdom. Vringo's video ringtone platform launched was with Orange UK, a large mobile communications company and subsidiary of EEL, with 16.0 million subscribers and Vringo has 35,000 subscribers to its paid service (launched in February 2011);
- Starhub, a mobile carrier with 2.0 million subscribers in Singapore (initially launched in February 2011 and re-launched in the first quarter 2012);

TABLE OF CONTENTS

- RTL in Belgium, part of the Bertelsman RTL Television network, has offered together with Vringo, a subscription service on all three Belgian mobile operators (with a combined subscriber base of 1 million) that includes RTL content (launched in June 2010 with limited subscribers due to regulatory limitations introduced on mobile services);
- Hungama, a content and mobile services aggregator in India. The service with Hungama is being offered to customers of 15 different mobile carriers in India. Vringo's paid service was on temporary hold as a result of regional legalities in India, however, Vringo on March 22, 2012 re-launched the service in partnership with Hungama and Tata DOCOMO; and
- Emirates Integrated Telecommunications Company (du Networks), a mobile carrier with 5.0 million subscribers in the United Arab Emirates, where Vringo has launched its products and services in February 2012.

Vringo is currently in discussions with several other mobile carriers and it will be pursuing additional agreements with mobile carriers over the next 12 to 24 months. As of May 25, 2012, Vringo's partners have an aggregate of approximately 700 million subscribers, of which 233,000 are paid subscribers to Vringo's service, and another 4,000 subscribers have enrolled on a free-trial basis.

Vringo's new Facetones™ social ringtone platform generates social visual ringtone content automatically by aggregating and displaying a user's friends' pictures from social networks and then displaying as a video ringtone, as well as a video ringback tone. These ringtones do not replace, but rather enhance, standard ringtone and ringback tones with relevant, current social content that is visually displayed. The Facetones™ product is available for devices running Android, iOS, and Nokia's Symbian S3. Vringo is currently working together with mobile handset makers to develop this application for other operating systems.

Facetones™ is experiencing growth both in consumer downloads and in the number of commercial deals with major partners already announced. The product is being made available to consumers in several different configurations and with a variety of distribution and monetization methods. As of May 5, 2012, the Facetones™ free ad-supported version had more than a million downloads and is generating more than 3.8 million requests in mobile ad inventory on a weekly basis.

Facetones™ is offered directly to consumers via leading mobile application stores and download sites where both for purchase versions (at prices ranging from \$1 to \$5), as well as ad-supported free versions are available. Facetones is available in application stores integrated into popular handsets such as the Google Android Market and Apple App Store. Vringo has announced placement deals for the app with GetJar, the world's largest independent app store, Mobango and AppBrain. In August 2011, Vringo launched Facetones™ in Japan for Android users through the DOCOMO market, a mobile internet portal operated by NTT DOCOMO, INC., the largest mobile phone operator in Japan, with more than 50 million users. In October 2011, Verizon, the largest mobile operator in the United States, announced the launch of Facetones™ as a subscription service for Verizon subscribers for \$0.99 a month. Vringo continues to pursue business for Facetones™ together with handset manufacturers. In December 2011, Vringo launched Facetones™ for Symbian in cooperation with Nokia. In January 2012, Vringo launched Facetones™ for iPhone which generates, as of the end of February 2012, close to a thousand daily downloads without any promotion. In March 2012, Vringo shifted from providing an ad-based free-of-charge for iPhone to a one-time fee ads-free app.

In addition to Vringo's direct to consumer and carrier marketed versions of the Facetones™ application, Vringo believes that licensing its software to handset makers will provide a growing and significant revenue stream during 2012 and beyond. In November 2011, Vringo announced an agreement with ZTE Corporation, the largest handset maker in China and fourth-largest globally, to preload the Facetones™ application on Android handsets manufactured by ZTE. ZTE will pay Vringo a royalty for each device that Vringo's software is pre-loaded on. These ZTE handsets will be sold via mobile phone operators and through various OEM contracts to brand name handset manufacturers. In addition, Vringo has entered into a development contract with Nokia, the world's largest handset maker, to supply Facetones for Nokia's S3 devices, subsequent to delivering this version of Vringo's application it was recently launched on the Nokia Ovi Store.

TABLE OF CONTENTS

Early in 2011, Vringo launched its new Video ReMix platform that allows users to download an application for iOS (iPhone, iPad, iPod) or Android phones and create their own music video by tapping on a variety of music beats and video files. Essentially, the user is able to “Remix” this music video content and add his own user generated video to the mix and then view this content or share it with friends via Facebook® or other social networks. This application turns the smartphone or tablet into a virtual video ReMix sound/video board where this “mixing” is accomplished by simple tapping on the touch screen interface. The Video ReMix applications are branded with an artist or sponsor and then monetized via advertising, sponsorship, a-la carte sales or in app store purchases.

The initial Video ReMix application “Booty Symphony” was developed with Nappy Boy Enterprises, the music production company of the artist T-Pain. Booty Symphony was released in an ad-supported free Android version as well as paid versions for iOS and Android. Vringo’s newest application on Vringo’s Video ReMix platform was delivered in the second quarter of 2011 to partner Corso Communications and its client Heineken. This sponsored version highlighted music and video of the group Dirty Vegas, and was used by Heineken “brand ambassadors” at the Coachella Music festival. Vringo later created an additional version of this application for Heineken in the third quarter of 2011. Vringo continues to seek new business for this platform with other recording artists and sponsored by additional major brands.

Vringo’s Fan Loyalty platform was launched in mid-2011 by co-branding its Fan-Loyalty application with Star Academy 8, the largest music competition in the Middle East and Nokia, the world’s largest handset maker. This platform enables users to obtain video content from the show as well as from behind the scenes, retrieve information regarding the show and vote for their favorite contestants. The free app was launched in partnership with Rotana, a diversified media company and the world’s largest producer of music and music television in the Middle East, and sponsored by Nokia. The application featured exclusive content and fully integrated live voting capabilities for the blockbuster “Star Academy” reality music show, which reached over 300 million viewers and was available in over 10 countries in the region. In the first quarter of 2012, Vringo entered into an agreement with Endemol, a producer of entertainment and reaty TV programming, to work together an additional sponsored versions of this application.

The Fan Loyalty application for Star Academy was made available exclusively for download on the Ovi Store, and had more than 200,000 downloads during the season. Vringo is in discussions with several other entertainment groups regarding potential deals for this Fan Loyalty platform.

Strategy

Vringo’s goal is to become a leading global provider and licensor of mobile video and mobile social applications, services and software, including mobile personalization, and interactive services via Vringo’s different software platforms and maximize the benefits of Vringo’s intellectual property. To achieve this goal, Vringo plans to:

Grow Vringo’s business. The objectives of the Merger are to maximize the economic benefits of Vringo’s intellectual property assets, add significant talent in technological innovation, and be positioned to enhance Vringo’s opportunities for revenue generation through the monetization of the combined company’s assets. Innovate/Protect is the owner of certain patent assets acquired from Lycos, one of the largest search engine websites of its kind in the mid-late 1990s, including technologies that remain critical to current search platforms. Vringo believes that the Merger, if consummated, will potentially enhance Vringo’s technology leadership, Vringo’s portfolio of intellectual property, and as a result open new business opportunities for Vringo.

Maintain and grow Vringo’s product technology and monetization of intellectual property. Vringo’s technical team is made up of highly regarded industry professionals that continually ensure that Vringo’s product is on the cutting-edge in terms of ease of use, functionality and look and feel. Vringo’s applications and services have millions of downloads and registered users, however there is no guarantee that we can maintain this position. Separately, the mobile video and mobile social networking industries are in their infancy and in order to create a user base with scale and ultimately substantial revenue, Vringo will need to spend additional capital resources. In addition to product leadership, Vringo continues to grow its portfolio of intellectual property through internal development. Vringo plans to continue to allocate technical resources to remain ahead of Vringo’s competition and provide users with a product that is easy-to-use and cutting-edge. Vringo has filed 24 patent applications for its platform (three of which have been issued to date) and Vringo

continues to create new intellectual property. Vringo believes that, if consummated, the Merger will add significant talent in technological innovation, and position the combined company for potential enhanced opportunities and revenue generation through the monetization of the combined company's assets.

Continue to maintain a base of strategically important intellectual property. If consummated, the Merger will substantially increase Vringo's intellectual property portfolio. Vringo believes that there are additional intellectual property assets that Vringo will be able to partner with, license or acquire. Vringo's success depends on not just the monetization of the existing portfolio of patents, but expanding it further.

Create additional applications and services. Vringo intends to develop, license or acquire additional applications and services to distribute through Vringo's carrier, handset and application store partners. While Vringo has gained significant user adoption for its products and services, Vringo believes that to achieve substantial revenue, it will need to create new products in particular for Apple's iOS devices. Apple is currently the dominant operating system for the monetization of mobile applications followed by Android. Vringo has already deployed 4 applications for Apple's iOS and generated over 1 million downloads on Android alone for Vringo's Facetones product. To be competitive, Vringo will continue to focus on the two most dominant smartphone platforms.

Grow Vringo's subscription services through mobile carrier partnerships. Vringo has built Vringo's products so as to be easily integrated with mobile carriers and content aggregators. We believe the mobile carrier channel is one of the most cost effective channels to grow Vringo's user base and to monetize its products. Vringo's subscription services are currently live in Belgium, India, Malaysia, Singapore, the United Kingdom and the United Arab Emirates and in limited release in the United States.

Generate revenue via software licensing partnerships. Vringo has licensed Vringo's software to two of the four largest handset makers in the world, ZTE and Nokia. Vringo believes that the market for pre-loaded software for mobile devices is a fast growing market that provides broad reach and sustainable recurring revenue.

Enhance Vringo's viral and social tools. Vringo believes that there is substantial opportunity to increase the social and viral nature of Vringo's products, which will be critical for Vringo's growth. Vringo will continue to add features to the product platforms to enhance their viral and social aspects and which enable users to connect with their existing social networks on platforms such as FacebookTM, TwitterTM and LinkedInTM.

Build a strong revenue base of recurring revenue. Vringo will focus on recurring revenue stream generated by operator partners and advertising. Vringo believes that Vringo's products and services are well suited for monetization through these avenues. While the mobile advertising market is promising, it is still in its infancy and Vringo's success is dependent on the growth of the market as a whole. Vringo's aim is to penetrate this market through Vringo's established partnerships; however Vringo recognizes that the realization of this model on a significant scale will continue to require investment over a sustained period of time.

Find new forms of distribution. While Vringo is currently focused on the mobile carrier distribution channel, Vringo believes there are other avenues that could be successful distribution channels for Vringo. Specifically, Vringo believes broadcasters and content owners could greatly benefit by promoting Vringo's service to their customers by monetizing either their content or leveraging their relationship with advertisers via ads.

VRINGO'S MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This discussion of Vringo's financial condition and results of operations should be read together with the financial statements and notes contained elsewhere in this proxy statement/prospectus. Certain statements in this section and other sections are forward-looking. While Vringo believes these statements are accurate, its business is dependent on many factors, some of which are discussed the section entitled "Risk Factors" and Vringo's Business. Many of these factors are beyond Vringo's control and any of these and other factors could cause actual results to differ materially from the forward-looking statements made in this proxy statement/prospectus. See the section entitled "Risk Factors" for further information regarding these factors. Vringo undertakes no obligation to release publicly the results of any revisions to the statements contained in this section to reflect events or circumstances that occur subsequent to the date of this proxy statement/prospectus.

Overview

Vringo provides a range of software products for mobile video entertainment, personalization and mobile social applications. Vringo believes that the Merger will help it further develop and evolve Vringo's mobile applications and services business through the addition of proven management, namely through the addition of Andrew K. Lang as Chief Technology Officer. Vringo's comprehensive software platforms include applications that allow users to: (i) create, download and share mobile video entertainment content in the form of video ringtones for mobile phones, (ii) create social picture ringtone and ringback content in the form of animated slideshows sourced from friends' social networks, (iii) create ReMixed video clips from artists and branded content, and (iv) utilize Fan Loyalty mobile applications for contestant based reality TV shows. Vringo's applications and services have been launched with ten carriers in eight markets. The billing integrations that Vringo has with these operators are of significant strategic value to its operations. In addition, Vringo has deals in place with two of the four largest handset makers in the world. Vringo believes that social network information and updates will be shared regularly when friends regularly communicate by voice and by text. Vringo's video ringtone solutions and other mobile social and video applications, which encompass a suite of mobile and PC-based tools, enable users to create, download and share video and other social content with ease as part of the normal communication process, and provide Vringo's business partners with a consumer-friendly and easy-to-integrate monetization platform. While Vringo's current portfolio of applications and services represent what Vringo believes to be cutting edge mobile technology that can work across many operating systems, Vringo recognizes that the pace at which the mobile landscape is changing has increased and the two most dominant operating systems are Google's Android and Apple's iOS. Moving forward, Vringo intends to develop additional applications and services for these two key operating systems, as well as other dominant smartphone operating systems that may emerge. Vringo believes that it can leverage its existing distribution and relationships to promote apps and services for these two operating systems. In addition, Vringo plans to more aggressively attempt to monetize the intellectual property that it owns as well as additional intellectual property that it may choose to acquire in the future. In furtherance of such strategy, Vringo and Innovate/Protect have begun to jointly investigate certain opportunities to make acquisitions of patent portfolios or other intellectual property assets and they expect to continue to pursue acquisitions of intellectual property assets following the consummation of the Merger.

Vringo is a development stage company. From inception through March 31, 2012, Vringo has raised approximately \$34.8 million. These amounts have been used to finance Vringo's operations, as until now, Vringo has not yet generated any significant revenues. From inception through March 31, 2012, Vringo recorded losses of \$43.2 million and net cash outflow from operations of \$30.5 million. Vringo's average monthly cash burn rate from operations for the year ended December 31, 2011 was approximately \$0.45 million. For the three month period ended March 31, 2012, the operational cash burn rate from operations was approximately \$0.4 million, which included expenses incurred in connection with merger and acquisition activities.

In July 2011, Vringo raised an aggregate amount of \$2.5 million through the issuance of convertible notes in a private placement. On December 1, 2011, Vringo raised additional \$0.85 million through the issuance of additional 817,303 shares of common stock ("**December 2011 financing**"). Pursuant to the December 2011 financing, all convertible notes (and accrued interest) were converted into 2,671,026 shares of common stock. In February 2012, Vringo entered into agreements with holders (the "**Holders**") of certain of

its outstanding special bridge and conversion warrants, pursuant to which the Holders exercised warrants to purchase 3,828,993 shares of Vringo common stock for aggregate proceeds of \$3.6 million. For further information, please refer to Note 17 to the consolidated financial statements of Vringo.

Subsequent to year end, on March 12, 2012, Vringo entered into an Agreement and Plan of Merger with VIP Merger Sub, Inc., a Delaware corporation and its wholly-owned subsidiary, and Innovate/Protect, Inc., a Delaware corporation and an intellectual property firm founded in 2011 whose wholly-owned subsidiary, I/P Engine, holds eight patents that were acquired from Lycos Inc., pursuant to which Innovate/Protect will merge with and into Merger Sub, with Merger Sub being the surviving corporation through an exchange of capital stock of Innovate/Protect for capital stock of Vringo.

Under the terms of the Merger Agreement, upon completion of the Merger, (i) each share of then-outstanding common stock of Innovate/Protect (other than shares held by Vringo, Innovate/Protect or any of their respective subsidiaries, which will be cancelled at the completion of the Merger) will be automatically converted into the right to receive the number of shares of Vringo common stock multiplied by the Common Stock Exchange Ratio (as defined below) and (ii) each share of then-outstanding Innovate/Protect preferred stock (other than shares held by Vringo, Innovate/Protect or any of their respective subsidiaries, which will be cancelled at the completion of the Merger) will be automatically converted into the right to receive the same number of shares of Vringo preferred stock, which 6,673 shares, as of May 25, 2012, shall be initially convertible into an aggregate of 20,136,445 shares of Vringo common stock (or at a current conversion rate of 3,017.6). The Vringo preferred stock will have the powers, designations, preferences and other rights as will be set forth in a Certificate of Designations, Preferences and Rights of Series A Convertible Preferred Stock in the form attached to this proxy statement/prospectus as Annex E to be filed by Vringo prior to closing. The Common Stock Exchange Ratio initially is 3.0176, which is subject to adjustment in the event of a reverse stock split to provide the holders of shares of Innovate/Protect capital stock with the same economic benefit as contemplated by the Merger Agreement prior to any such reverse stock split. In addition, at the effective time of the Merger, Vringo will issue to the holders of Innovate/Protect capital stock and the holder of Innovate/Protect's issued and outstanding warrant to purchase 250,000 shares of Innovate/Protect common stock (on a *pro rata* as-converted basis) an aggregate of 15,959,838 warrants to purchase an aggregate of 15,959,838 shares of Vringo common stock with an exercise price of \$1.76 per share, each subject to equitable adjustment in the event of a reverse stock split. The issued and outstanding warrant to purchase 250,000 shares of Innovate/Protect common stock will be exchanged for 250,000 shares of Vringo common stock and 850,000 warrants to purchase 850,000 shares of Vringo common stock with an exercise price of \$1.76 per share, each subject to equitable adjustment in the event of a reverse stock split. In addition, the aggregate number of shares of Vringo common stock and the aggregate number of warrants (and the aggregate number of shares of Vringo common stock that may be purchased upon exercise thereof) to be issued in exchange for the issued and outstanding warrant of Innovate/Protect shall each be ratably adjusted to give effect to any partial exercise of such warrant prior to the effective time of the Merger.

In addition, at the effective time of the Merger, each outstanding and unexercised option to purchase Innovate/Protect common stock, whether vested or unvested, will be converted into and become an option to purchase Vringo common stock and Vringo will assume such Innovate/Protect stock option in accordance with the terms of the Innovate/Protect 2011 Equity Incentive Plan. After the effective time of the Merger, (a) each Innovate/Protect stock option assumed by Vringo may be exercised solely for shares of Vringo common stock and (b) the number of shares of Vringo common stock and the exercise price subject to each Innovate/Protect stock option assumed by Vringo shall be determined by the Common Stock Exchange Ratio.

Immediately following the completion of the Merger, the former stockholders of Innovate/Protect are expected to own approximately 56.30% of the outstanding common stock of the combined company, and Vringo current stockholders are expected to own approximately 43.70% of the outstanding common stock of the combined company. On a fully diluted basis, the former stockholders of Innovate/Protect are expected to own approximately 67.55% of the outstanding common stock of the combined company, and Vringo current stockholders are expected to own approximately 32.45% of the outstanding common stock of the combined company.

TABLE OF CONTENTS

Vringo has expended significant effort and management attention on the proposed transaction. There is no assurance that the transaction contemplated by the Merger Agreement will be consummated. If the transaction is not consummated for any reason, Vringo business and operations, as well as the market price of its stock and warrants may be adversely affected. For accounting purposes, Innovate/Protect was identified as the “Acquirer”, as it is defined in FASB Topic ASC 805. As a result, in the post-combination consolidated financial statements, Innovate/Protect’s assets and liabilities will be presented at its pre-combination amounts, and Vringo’s assets and liabilities will be recognized and measured in accordance with the guidance for business combinations in ASC 805. The Merger requires approval by the stockholders of both companies. Vringo currently estimates that the Merger will be consummated in the third quarter of 2012.

As of March 31, 2012, Vringo had approximately \$3.6 million in cash and cash equivalents. Vringo believes that current cash levels, after taking into effect the Merger with Innovate/Protect, will be sufficient to support Vringo’s activity into the fourth quarter of 2012. The continuation of Vringo’s business, as a going concern is dependent upon the successful consummation of the Merger with Innovate/Protect, or similar merger or acquisition, financing, and upon the further development of Vringo’s products. In addition, a significant portion of Vringo’s issued and outstanding warrants are currently “in the money” and the shares of common stock underlying such warrants will become freely tradable upon exercise after registration, with the potential of up to \$5 million of incoming funds for Vringo. A Form S-3 Registration Statement was filed on March 30, 2012 and is pending approval by the Securities Exchange Commission. Provided that Vringo’s stock price remains at or near its current level, Vringo expects that the exercise of these instruments will generate substantial additional funds for its operations. There can be no assurance, however, that any such opportunities will materialize. All of Vringo’s audited consolidated financial statements since inception have contained a “going concern” reference by Vringo’s auditors, expressing substantial doubt about Vringo’s ability to continue as a going concern.

Vringo’s financial statements were prepared using principles applicable to a going concern, which contemplate the realizations of assets and liquidation of liabilities in the normal course of business for the foreseeable future, and do not include any adjustments to reflect the possible effects on the recoverability and classification of assets, or the amounts and classification of liabilities that may result if Vringo is not able to continue as a going concern.

On April 26, 2012, the NYSE Amex notified Vringo that it had resolved the continued listing deficiency referenced in the NYSE Amex’s letter dated May 24, 2011, which stated that Vringo was not in compliance with Section 1003(a) (iv) of the NYSE Amex’s continued listing standards. The NYSE Amex’s conclusion was based on a review of available information, including Vringo’s filings with the Securities and Exchange Commission. Vringo’s continued listing eligibility will be assessed on an ongoing basis.

Revenue

Vringo recognizes revenue from monthly subscription from carriers, development projects and content sales when all the conditions for revenue recognition are met: (i) persuasive evidence of an arrangement exists, (ii) collection of the fee is probable, (iii) the sales price is fixed and determinable and (iv) delivery has occurred or services have been rendered. Vringo’s subscription service arrangements are evidenced by a written document signed by both parties. Vringo’s revenues from monthly subscription fees, content purchases and advertisement revenues are recognized when Vringo has received confirmation that the amount is due to it, which provides proof that the services have been rendered, and making collection probable. Vringo recognizes revenue from non-refundable up-front fees relating to set-up and billing integration across the period of the contract for the subscription service as these fees are part of hosting solution that Vringo provides to the carrier. The hosting is provided on Vringo’s servers for the entire period of the arrangement with this carrier, and the revenues relating to the monthly subscription, set-up fees and billing integration have been recognized over the period in the agreement.

Cost of revenue

Cost of revenue consists primarily of third party expenses directly related to providing Vringo’s service in launched markets. In addition, these costs include royalty fees for content sales and amortization of prepaid content licenses. Cost of revenue does not include expenses related to product development, integration, and support. These costs are included in research and development and marketing expenses.

TABLE OF CONTENTS

Research and development expenses

Research and development expenses consist primarily of salary expenses of Vringo's development and quality assurance engineers in Vringo's research and development facility in Israel, outsourcing of certain development activities, preparation of patent filings, labor cost incurred in connection with customer integration, server and support functions for Vringo's development environment.

Marketing expenses

Marketing expenses include the salary of all business development and marketing personnel, travel expenses relating to business development activity and trade shows, as well as public relations, advertising, ongoing customer relations and customer acquisition expenses. As Vringo increases its sales, certain commissions to agents will affect marketing expenses.

General and administrative expenses

General and administrative expenses primarily include the salary of Vringo's finance and administrative personnel, rental costs, legal and accounting fees, insurance, telephone and other office expenses including depreciation and amortization.

Non-operating income (expenses)

Non-operating income (expenses) includes transaction gains (losses) from foreign exchange rate differences, interest on deposits, bank charges, as well as fair value adjustments of derivative liabilities on account of the Preferential Reload Warrants, Special Bridge Warrants and the Conversion Warrants, which are highly influenced by Vringo's stock price at the period end (revaluation date). In addition, in the year December 31, 2011, non-operating income (expenses) includes a gain on restructuring of venture loan in light of the settlement agreement signed on June 8, 2011. Finally, in the first quarter of 2012, non-operating income included non-recurring expense related to the issuance of the Reload Warrants (see also Notes 3 and 5 to the financial statements for the three months ended March 31, 2012).

Income taxes

Vringo's effective tax rate differs from the statutory federal rate primarily due to differences between income and expense recognition prescribed by income tax regulations and generally accepted accounting principles. Vringo's utilizes different methods and useful lives for depreciating and amortizing property and equipment and different methods and timing for certain expenses. Furthermore, permanent differences arise from certain income and expense items recorded for financial reporting purposes but not recognizable for income tax purposes. In addition, Vringo's income tax expense has been adjusted for the effect of foreign income from its wholly-owned Israeli subsidiary. At March 31, 2012 and December 31, 2011, Vringo's deferred tax assets generated from its U.S. activities were entirely offset by a valuation allowance because realization depends on generating future taxable income, which, in Vringo's estimation, is not more likely than not to be generated. The deferred tax assets and liabilities generated from Vringo's subsidiary's operations are not offset by an allowance, as in Vringo's estimation, they are more likely than not to be realized.

Vringo's subsidiary generates net taxable income from services it provides to Vringo. The subsidiary charges Vringo for research, development, certain management and other services provided to Vringo, plus a profit margin on such costs, which is currently 8%. On December 5, 2011, the Knesset (Israel's Parliament) approved the Law to Change the Tax Burden (Legislative Amendments) — 2011. According to the new law, the corporate tax rate will be 25% starting in 2012. However, the subsidiary is a "Beneficiary Enterprise" as defined in amendment No. 60 to the Israeli Law for the Encouragement of Capital Investment, 1959, which means that income arising from its approved research and development activities is subject to zero percent tax for a period of two years and a reduced tax rate for the subsequent five years. The subsidiary elected to receive the zero percent tax benefits for the fiscal years of 2007 – 2008. In January 2011, new legislation amending the Investment Law was enacted. According to the amendment, the uniform tax rate applicable to a "Beneficiary Enterprise" in the zone where the production facilities of the subsidiary are located would be 15% in 2011 and 2012, 12.5% in 2013 and 2014, and 12% in 2015 and thereafter. Under the transitory provisions of the newly legislated amendment, the subsidiary irrevocably implemented the new law while waiving benefits provided under the current law.

Results of Operations

Three months ended March 31, 2012, compared to the three months ended March 31, 2011 and the development stage period (cumulative from inception through March 31, 2012)

The following analysis compares the results of Vringo's operations for the three month period ended March 31, 2012, to the results of operations for the three month period ended March 31, 2011 and the results of Vringo's operations from inception through March 31, 2012.

Revenue

	Three month period ended March 31,			Cumulative from inception to March 31, 2012
	2012	2011	Change	
	(\$ - in thousands)			(\$ - in thousands)
Revenue	106	147	(41)	1,055

During the three month period ended March 31, 2012, Vringo recorded total revenues of \$106,000, which represents decrease of \$41,000 (or 28%) compared to revenues recorded in the three month period ended March 31, 2011. The decrease, compared to the first quarter of 2011, was mainly due to a decrease in revenue recorded in connection with one time set up fees in Singapore and Armenia. Additional decrease in revenues was due to Video ReMix platform revenue recorded in the first quarter of 2011, in the total amount of \$23,000, which did not occur in 2012. In addition, in the first quarter of 2012, the number of subscribers in Maxis was reduced due to system updates of recycled numbers from the regulated carrier database, as a result revenue decreased by \$40,000 (or 50%), compared to the first quarter of 2011. The decrease was offset by revenue from new subscription agreement in Malaysia (\$16,000 recorded in the first quarter of 2012) and an increase in revenue in the UK (an increase of \$17,000, compared to the first quarter of 2011). Overall, Vringo does not expect the abovementioned decrease in subscribers in Maxis to have a material effect on its future revenue.

During the three month period ended March 31, 2011, Vringo recorded revenues of \$147,000, which represents an increase of \$117,000 (or 390%) from revenues recorded for the three month period ended March 31, 2010. The recognized revenue in the first quarter of 2011 was mainly from Vringo's revenue-sharing agreements in Malaysia (\$77,000 recorded, an increase of \$67,000 compared to the first quarter of 2010). In addition, Vringo recognized revenue for one time set up fees in Singapore (\$9,000 in the first quarter of 2011 and Armenia (\$9,000 in the first quarter of 2011). Revenue for Vringo's Video ReMix platform commenced this quarter, with the recognition of \$23,000 in March 2011. The revenue in the first quarter of 2010 was mainly comprised of Vringo's then new revenue-sharing agreements in Malaysia, the United Arab Emirates and Armenia, whereby Vringo recognized approximately \$10,000 for each one of these customers.

From inception through March 31, 2012, Vringo recorded revenues of \$1,055,000, which includes \$726,000 from revenue share subscription services, \$118,000 from one-time setup fees, \$91,000 from Facetones™, \$80,000 from Fan Loyalty application formats, \$30,000 from Video ReMix platform and \$10,000 from applications sold.

Vringo expects to continue to generate a substantial portion of its future revenues from: (i) Facetones™ preloads through the agreement with ZTE as well as the development of additional business from handset makers, (ii) Facetones™ app, and Fan Loyalty application platforms, (iii) revenue-sharing agreements in India, Malaysia, Singapore, United Arab Emirates and UK, (iv) new revenue-sharing agreements for subscription-based services in new territories, (v) one-time service fees for customized production and development of the Facetones and Fan Loyalty application platforms, (vi) monetization of Vringo's intellectual property.

[TABLE OF CONTENTS](#)**Cost of Revenue**

	Three month period ended March 31,			Cumulative from inception to March 31, 2012
	2012	2011	Change	
	(\$ - in thousands)			(\$ - in thousands)
Cost of revenue	31	25	6	397

During the three month period ended March 31, 2012, Vringo's cost of revenue was \$31,000, which represents an increase of \$6,000 (or 24%) compared to its cost of revenue for the three month period ended March 31, 2011. During the three month period ended March 31, 2011 and 2010, Vringo's cost of revenue was \$25,000 and \$34,000, respectively, which represents a decrease of \$9,000 (or 26%) compared to cost of revenue for the three month period ended March 31, 2010. Vringo's cost of revenue is mainly comprised of cost of services related to the provision of content to end-users and cost of hosted servers needed to support Vringo's service in markets where Vringo has launched its product. The change in cost of revenue between the presented periods was mainly related to changes in content amortization expenses.

Vringo expects that cost of revenue will increase over time, as Vringo diversifies the portfolio of its products. As some of these costs are fixed irrespective of its revenues, Vringo expects its gross margin to increase, as its revenues increase.

Research and Development

	Three month period ended March 31,			Cumulative from inception to March 31, 2012
	2012	2011	Change	
	(\$ - in thousands)			(\$ - in thousands)
Research and development	512	519	(7)	13,883

Research and development expenses decreased from \$519,000 to \$512,000 (or 1%) during the three month period ended March 31, 2012, compared to the three month period ended March 31, 2011. In the first quarter of 2012, Vringo's research and development expenses mainly consisted of workforce and consulting related costs (\$371,000, compared to \$374,000 in the first quarter of 2011), as well as share based compensation costs (\$35,000, compared to \$82,000 in the first quarter of 2011). The decrease was mainly due to a decrease in shares based compensation expense, offset by higher patent expenses (an increase of \$36,000 in the first quarter of 2012), following Vringo's decision to enhance and diversify its intellectual property portfolio.

Research and development expenses decreased from \$587,000 to \$519,000 (12%) during the three month period ended March 31, 2011, compared to the three month period ended March 31, 2010. The decrease is mainly due to a separation agreement that Vringo entered into with its former Chief Technology Officer. This was offset by an increase in share based compensation expense in connection with 2011 and 2010 grants.

From inception through March 31, 2012, research and development expenses amounted to approximately \$13.9 million. Of this amount, approximately \$9.0 million was attributed to salaries and related expenses, \$0.6 million to share based payments, \$2.2 million was attributed to sub-contracting and consulting services, \$0.9 million was attributed to operating expenses, \$0.3 million was attributed to overhead and \$0.9 million was attributed to patent expenses.

Vringo anticipates that its research and development costs will remain constant until after the consummation of the proposed Merger with Innovate/Protect. Following the completion of the proposed Merger, those costs may increase should Vringo seek to develop additional technology and intellectual property to diversify and enhance its business.

[TABLE OF CONTENTS](#)**Marketing**

	Three month period ended March 31,			Cumulative from inception to March 31, 2012
	2012	2011	Change	
	(\$ – in thousands)			(\$ – in thousands)
Marketing	759	621	138	11,970

During the three month period ended March 31, 2012, marketing expenses increased by \$138,000 (or 22%), to \$759,000, from \$621,000 in the three month period ended March 31, 2011. The increase in Vringo's marketing expenses in the first quarter of 2012 was mainly due to an increase of \$254,000 in non-cash share-based compensation expenses related to new grants in 2012 and the effect of the separation agreement signed between Vringo and its former CEO (an increase of \$0.16 million). This increase was offset by a decrease of \$81,000 in payroll expenses related to reclassification of 50% of the cost of Vringo's President and newly appointed CEO in the United States, as of March 2012, to general and administrative expenses.

The increase in Vringo's marketing expenses for the three month period ended March 31, 2011 was in part due to the hiring, in April 2010, of its President in the United States, whose efforts are focused on marketing and business development. In addition, the increase relates to the 2011 and 2010 options grants for marketing employees, thereby increasing the respective compensation expense. Furthermore, Vringo had an increase in public relations and advertising costs in connection with new commercial launches in 2011.

From inception through March 31, 2012, marketing expenses amounted to approximately \$12 million. Of this amount, approximately \$5.2 million was attributed to salaries, \$1.4 million was attributed to share based payments and related expenses, \$2.2 million was attributed to travel and trade shows, \$1.6 million was attributed to sub-contracting and consulting services, \$1.4 million was attributed to public relations services and customer acquisition expenses and \$0.2 million was attributed to overhead expenses.

A significant portion of Vringo's marketing activity relates to the launching of services with its global partners and building a pipeline for further agreements. In addition, Vringo conducts direct-to-consumer marketing activities in countries where Vringo has launched its services to build on the efforts of its partners. While Vringo does not expect to invest heavily in direct-to-consumer marketing activities in the future, Vringo does expect an increase in marketing expenses as it continues launching its service in different global markets. In certain markets, Vringo's marketing efforts may include hiring local personnel to introduce Vringo to the market and purchasing rights to certain local content. As Vringo's market reach grows, it expects its marketing expenses to continue to increase its visibility to potential partners.

During the three month period ended March 31, 2012, general and administrative expenses increased by \$795,000 (or 120%), to \$1,460,000, from \$665,000 during the three month period ended March 31, 2011. General and administrative expenses increased mostly due to the increase in various professional fees in connection with increased merger and acquisition activity (an increase of approximately \$0.4 million, compared to the first quarter of 2011). In addition, there was an increase due to non-cash share based compensation expenses due to new option grants in 2012 and the effect of the separation agreement signed between Vringo and its former CEO (an increase of \$0.16 million). Finally, an additional increase in expense in the first quarter of 2012, compared to the first quarter of 2011, was due to an increase in payroll expenses of \$76,000, related mainly to reclassification of 50% of the cost of Vringo's President and new CEO in the United States to general and administrative expenses.

During the three month period ended March 31, 2011, general and administrative expenses increased \$471,000 (or 242%), to \$665,000, from \$194,000 in the three month period ended March 31, 2010. The

TABLE OF CONTENTS

increase is mostly due to increase in various professional fees in connection with becoming a public company. In addition, there was an increase due to additional insurance costs for Vringo's directors' and officers' liability insurance and an increase in share based compensation expenses due to new option grants in 2011 and 2010.

From inception through March 31, 2012, general and administrative expenses totaled approximately \$9.7 million. Of this amount, approximately \$2.4 million was attributed to salaries and related expenses, \$2.1 million was attributed to share based payments, \$1.8 million was attributed to various office expenses, \$2.8 million was attributed to professional fees and \$0.6 million was attributed to depreciation and amortization.

Vringo expects that its general and administrative expenses will remain high, as Vringo expects to incur significant costs in connection with future merger, acquisition and financing activities. These costs will be reflected in increased accounting, legal and insurance costs. Vringo also expects that its compensation costs will increase significantly due to the recording of expense related to management share based compensation.

In the three month period ended March 31, 2011, Vringo recorded non-operating income in the amount of \$0.6 million, which was mainly comprised of an income of \$0.7 million recorded due to decrease in the fair value of the Special Bridge Warrants and the Conversion Warrants and an expense on \$0.1 million in connection with interest on venture loan.

During the three month period ended March 31, 2012, Vringo recorded an income tax expense in the total amount of \$20,000, which reflects an increase of \$2,000 compared to tax expense of \$18,000 recorded in the three month period ended March 31, 2011. In addition, income tax expense recorded during the three month period ended March 31, 2011 reflect a decrease of \$2,000 compared to tax expense of \$20,000 recorded in the three month period ended March 31, 2010.

Taxes on income are mainly due to taxable profits generated by Vringo's subsidiary as a result of the intercompany cost plus agreement between Vringo and the subsidiary, whereby the subsidiary performs development and other services for Vringo and is reimbursed for its expenses plus 8%. For financial statements purposes, these profits are eliminated upon consolidation. The profits of the subsidiary benefitted from a tax holiday in the 2007 – 2008 tax years and a taxable loss in 2009, 2010 and 2011. Vringo expects a taxable income in its subsidiary in 2012 under the terms of the intercompany agreement. In addition, during the three month period ended March 31, 2012, 2011 and 2010, Vringo recorded income tax expense of \$7,000, \$12,000 and \$0, respectively, in connection with tax withheld at source by Vringo's partner in Malaysia, which Vringo does not expect to be reclaimed.

From inception through March 31, 2012, income tax expense totaled \$139,000. Vringo expects tax expense to increase as its business grows and as Vringo's subsidiary continues to generate taxable income under the intercompany cost plus agreement.

Revenue	718	211	507	949

During the year ended December 31, 2011, Vringo recorded revenues of \$718,000, which represents an increase of \$507,000 (or 240%) from revenues recorded for the year ended December 31, 2010. The increase was mainly due to increased video ringtone subscription revenue in Malaysia (\$312,000 in 2011, compared to the \$94,000 in 2010), and the United Arab Emirates (\$90,000 in 2011, compared to the \$54,000 in 2010), development of Facetones™ (\$75,000 recognized in 2011), development of Fan Loyalty application (\$80,000 recognized in 2011), Video ReMix platform (\$30,000 recognized in 2011). In the first quarter of 2012, the number of subscribers in Malaysia was reduced due to system updates of recycled numbers from the regulated carrier database. Vringo does not expect this change to have a material effect on its revenue.

At the end of 2009, Vringo commenced monetization of its subscription service by launching with carriers primarily in Malaysia and Armenia. As a result, the increase in revenue in 2010, in the total amount of \$191,000, was mainly related to revenues from those revenue-sharing agreements. In Malaysia, Vringo recognized \$94,000 (compared to \$2,000 in 2009). In Armenia, Vringo recognized \$35,000 (compared to \$17,000 in 2009). In addition, Vringo recorded \$54,000 from subscription service launched in 2010 in the United Arab Emirates.

During the year ended December 31, 2011, Vringo's cost of revenue was \$155,000, which represents an increase of \$180,000 (-14%) from Vringo's cost of revenue for the year ended December 31, 2010. Vringo's cost of revenue is mainly comprised of cost of services related to the provision of content to end-users and cost of hosted servers needed to support Vringo's service in markets where Vringo has launched its product. The decrease in cost of revenue recorded year ended December 31, 2011, compared with year ended December 31, 2010, is mainly related to a decrease in content purchases and content related amortization expenses.

Vringo commenced monetization of its subscription service model at the end of 2009. As a result, cost of revenue recorded in 2010 increased by 481%, or \$149,000, compared to 2009.

Vringo expects that cost of revenue will increase over time, as Vringo diversifies the portfolio of its products. As some of these costs are fixed irrespective of Vringo's revenues, Vringo expects its gross margin to increase, as its revenues increase.

Research and development expenses decreased from \$2,503,000 to \$2,017,000 (-19%) during the year ended December 31, 2011, compared to the year ended December 31, 2010. The decrease is primarily due to lower salary and compensation expenses, a result of salary reductions (a decrease of \$351,000 compared to 2010), offset by the effect of a separation agreement signed with one of the officers, and lower consulting costs (a decrease of \$170,000 compared to 2010), all as part of the cost saving plan implemented by Vringo in early 2011.

Research and development expenses increased from \$1,975,000 to \$2,503,000 (27%) in the year ended December 31, 2010, compared to the year ended December 31, 2009. The increase in 2010 was mainly due to enhanced research and development efforts and increased share based compensation expenses, related to options granted in connection with the IPO in 2010.

Marketing expenses increased slightly from \$2,183,000 to \$2,193,000 (0%) during the year ended December 31, 2011, compared to the year ended December 31, 2010. The main changes were higher advertising costs, mainly in connection with FacetonesTM launch (\$498,000 in 2011 compared to \$279,000 in 2010), offset by a decrease in consulting costs mainly related to the cost saving plan implemented by Vringo in early 2011 (\$195,000 in 2011 compared to \$36,000 in 2010).

TABLE OF CONTENTS

During the year ended December 31, 2010, marketing expenses increased by \$431,000 (25%), to \$2,183,000, from \$1,752,000 in the year ended December 31, 2009. The growth in Vringo's marketing expenses for the year ended December 31, 2010, was in part due to the hiring, in April 2010, of Mr. Perlman, Vringo's current Chief Executive Officer, whose efforts are focused on marketing and business development. In addition, the growth relates to the vesting of 2010 options grants for employees, thereby increasing the respective compensation expense. Furthermore, Vringo had an increase in public relations and advertising costs in connection with new commercial launches in 2010.

The increase was mainly due to higher professional fees connected to aborted merger and acquisition activities, venture loan settlement and December 2011 financing (an increase of \$643,000 compared to 2010), due to increased share-based compensation (an increase of \$290,000 compared to 2010), and increased cost of labor and expenses incurred in connection with being a public company (an increase of \$45,000 compared to 2010).

During the year ended December 31, 2010, general and administrative expenses increased \$272,000 (17.3%), to \$1,840,000, from \$1,568,000 in the year ended December 31, 2009. During the year ended December 31, 2011, Vringo recorded net non-operating expense in the amount of \$1.0 million, compared to a net non-operating expense in the amount of \$3.4 million, in the year ended December 31, 2010.

During the year ended December 31, 2011, Vringo recorded \$1.0 million income in connection with the settlement of the venture loan. This income was offset by non-operating expense of approximately \$0.4 million recorded in connection with the revaluation of the special bridge warrants and the conversion warrants and \$1.5 million recorded in connection with interest and amortization of a discount on the venture loan and the convertible notes (including the recording of an additional beneficial conversion feature on the convertible notes).

During 2010, Vringo recorded non-operating expense, net in the amount of \$3.4 million, primarily due to the recording of the bridge notes, issued on December 29, 2009, at their residual value at the closing of bridge financing, pursuant to which Vringo recorded additional interest costs for the bridge notes of \$1.1 million. In addition, as a result of the conversion of the bridge notes Vringo recorded an additional interest expense of approximately \$1.1 million on account of the beneficial conversion feature from the loan and an additional \$0.1 million on account of the additional special bridge warrants issued to investors in the bridge financing, in addition to the original 795,200 such warrants issued upon the closing of bridge financing. Additional interest expense on account of the loan amortization of \$0.3 million in addition to the interest expense recorded for the venture loan was also recorded in this period. Taxes on income	90	35	55	119

During the year ended December 31, 2011, Vringo recorded income tax expense in the total amount of \$90,000, which reflects an increase of \$55,000 compared to tax expense of \$35,000 recorded in the year ended December 31, 2010. In addition, income tax expense recorded during the year ended December 31, 2010, which reflects a decrease of \$38,000 compared to tax expense of \$73,000 recorded in the year ended December 31, 2009. Taxes on income are mainly due to taxable profits generated by Vringo's Israeli subsidiary, as a result of the intercompany cost plus agreement between Vringo and the subsidiary, whereby the subsidiary performs development and other services for Vringo and is reimbursed for its expenses plus 8%. In addition, during the year ended December 31, 2011 and 2010, Vringo recorded income tax expense of \$35,000 and \$5,000, respectively, in connection with tax withheld at source by Vringo's partner in Malaysia, which Vringo does not expect to be reclaimed.

From inception through December 31, 2011, income tax expense totaled \$119,000. Vringo expects tax expense to increase as its business grows and as its subsidiary continues to profit from the cost plus agreement.

Liquidity and Capital Resources

As of March 31, 2012, Vringo had a cash balance of \$3.6 million and \$2.7 million in net working capital. The increase of \$2.4 million in Vringo's cash balance from December 31, 2011 was mainly due to \$3.65 million cash received from the exercise of approximately 90% of the then outstanding Special Bridge Warrants and Conversion Warrants in February 2012, offset by net cash used by Vringo in its business operations (\$0.8 million) and cash used to fund the Merger with Innovate/Protect (approximately \$0.4 million). As of March 31, 2012, Vringo's total deficit in stockholders' equity was approximately \$1.0 million, mainly due to the exercise of the abovementioned warrants, offset by continued operating deficits from inception to date.

The Company believes that its current cash levels will be sufficient to support its activity into the first quarter of 2013. Based on current operating plans, additional resources that may be required for the continuation of Vringo's operations approximates \$0.9 million and \$4.4 million, for the twelve month periods ending March 31, 2013 and March 31, 2014, respectively. After taking into effect the Merger with Innovate/Protect, additional resources that may be required for the continuation of the combined operations approximates \$4.3 million and \$11.8 million, for the twelve month periods ending March 31, 2013 and March 31, 2014, respectively. These estimates include a projected \$0.7 million cash outflow for merger and integration costs relating to the Innovate/Protect combination, specifically for legal, accounting and exchange fees, as well as an expected increase in D&O insurance.

In addition, a significant portion of Vringo's issued and outstanding warrants are currently "in the money" and the shares of common stock underlying such warrants will become freely tradable upon exercise after registration, with the potential of up to \$5 million of incoming funds for Vringo. A Form S-3 Registration Statement was filed on March 30, 2012 and is pending approval by the Securities Exchange Commission. Provided that Vringo's stock price remains at or near its current level, Vringo expects that the exercise of these instruments will generate substantial additional funds for its operations.

TABLE OF CONTENTS

On June 1, 2012, Hudson Bay committed, subject to the terms and conditions of a commitment letter agreement, that, at any time within 18 months following the closing of the Merger and upon the request of Innovate/Protect, it or, at its election, one or more of its affiliated funds or entities shall provide debt financing to Innovate/Protect in the aggregate principal amount of up to \$6,000,000. Hudson Bay's commitment shall be reduced, on a dollar for dollar basis, by (i) any cash or capital raised by any of the Vringo entities, including, without limitation, through the issuance of any debt, equity and/or securities convertible, exercisable or exchangeable into equity of any of the Vringo entities or the incurrence of indebtedness by any of the Vringo entities and (ii) any cash received by any Vringo entity in connection with the exercise of any of its outstanding warrants. Any such financing provided under such facility will be in the form of senior secured notes at an interest rate of the greater of (i) LIBOR plus 300 basis points and (ii) 8% per annum with a maturity of seven years after issuance. In addition, both Innovate/Protect and the holder of the notes will be able to require redemption of all or any portion of the Notes at any time after 18 months following the consummation of the Merger, subject to an interest make-whole through maturity. In addition to other covenants to be mutually agreed between Innovate/Protect and Hudson Bay, the Vringo entities will not spend cash during any calendar quarter while any notes are outstanding at a rate greater than the amount specified in the capital budget of Vringo and its subsidiaries, prepared on a combined basis, agreed to by Hudson Bay, without the prior written consent of Hudson Bay. The obligations of Hudson Bay or any of its affiliated funds under the commitment letter agreement will be subject to certain conditions set forth in the commitment letter agreement and will terminate as described below. Such obligations will be guaranteed by each of the Vringo entities and secured by a first priority lien on all assets of the Vringo entities. Although the combined company will have access to up to \$6,000,000 of financing under this facility if it meets the conditions to the commitment, it intends not to draw down any amounts under this facility and instead will attempt to raise additional capital through equity or equity-linked financings as well as through the exercise of its outstanding warrants.

The continuation of Vringo's business, as a going concern is dependent upon the successful consummation of the proposed Merger with Innovate/Protect, or similar merger or acquisition, financing, and upon the further development of Vringo's products. There can be no assurance, however, that any such opportunities will materialize. Vringo anticipates that it will continue to issue equity and/or debt securities as a source of liquidity, when needed, until Vringo generates positive cash flow to support its operations. Vringo cannot give any assurance that the necessary capital will be raised or that, if funds are raised, it will be on favorable terms. Any future sales of securities to finance Vringo's operations may require stockholder approval and will dilute existing stockholders' ownership. Vringo cannot guarantee when or if Vringo will ever generate positive cash flow.

The Vringo preferred stock to be issued to the holders of Innovate/Protect preferred stock will have the powers, designations, preferences and other rights as will be set forth in a Certificate of Designations, Preferences and Rights of Series A Convertible Preferred Stock in the form attached to this proxy statement/prospectus as Annex E which is to be filed by Vringo prior to closing. The rights of the holders of Vringo preferred stock could adversely affect the combined company's ability to raise additional funds, in particular, the Vringo preferred stock contains a covenant prohibiting Vringo, for a period of 18 months following the closing, from incurring indebtedness senior to the Vringo preferred stock in excess of \$6 million in the aggregate (including the then outstanding principal amount of existing Innovate/Protect indebtedness); provided, that, this covenant shall not apply to indebtedness secured by assets of Vringo acquired after the closing in which the lender expressly subordinates to the holder of the Vringo preferred stock. In addition, in accordance with the terms and conditions of the Merger Agreement, Vringo may not currently incur any indebtedness without the consent of Innovate/Protect. As of May 31, 2012, the indebtedness of Vringo and Innovate/Protect were zero and \$3.2 million, respectively. Therefore, following the consummation of the Merger, Vringo may incur up to \$2.8 million of debt senior to the Vringo preferred stock without violating the provisions of the Vringo preferred stock (in addition to any amounts up to \$6,000,000 that may be drawn down by Innovate/Protect under the Hudson Bay debt facility).

Operating activities

During the three month period ended March 31, 2012, net cash used in operating activities totaled \$1.2 million. During the three month period ended March 31, 2011, net cash used in operating activities totaled \$1.5 million. The decrease of \$0.3 million in cash used in operating activities was mainly due to increased collection of receivables (\$0.3 million the first quarter of 2012, compared to \$0.1 million in the first quarter of 2011), as well as reduction in workforce related costs. The operating activities included merger and acquisition related expenses (increase of \$0.45 million compared to the first quarter of 2011).

During the three month period ended March 31, 2011, net cash used in operating activities totaled \$1.5 million. During the quarter ended March 31, 2010, net cash used in operating activities totaled \$1.7 million. The decrease of \$0.2 million used in operating activities was mainly due to reduction in workforce related costs in connection with the cost reduction plan implemented in the first quarter of 2011.

Vringo expects its net cash used in operating activities to increase due to costs related to merger and acquisition activity, as well as due to possible future financing activity. As Vringo moves towards greater revenue generation, Vringo expects that these amounts will be offset by revenue. Since Vringo receives most of its revenues directly from carriers whose payment schedules are generally net 90 days or longer, and Vringo's suppliers' payment schedules are generally net 30 days, Vringo does not expect the increase in revenue will initially increase its net cash from operating activities.

Investing activities

During the three month period ended March 31, 2012, net cash used in investing activities totaled \$5,000. During the three month period ended March 31, 2011, net cash provided by investing activities totaled \$14,000. This change of \$19,000 in cash provided by investing activities was primarily due to the release of a short-term deposit, which was offset by the purchase of fixed assets in the first quarter of 2011. Fixed asset purchases in the three month period ended March 31, 2012, amounted to \$5,000 compared to \$7,000 for the three month period ended March 31, 2011.

Vringo expects that net cash used in investing activities will increase as it intends to continue to upgrade its computers and software in 2012. Moreover, as Vringo's service continues to grow, it will need to increase its server capacity to meet the needs of its customers.

Financing activities

During the three month period ended March 31, 2012, net cash provided by financing activities totaled \$3.65 million, which relates to the exercise of warrants in February 2012. Pursuant to agreements with warrant holders, Vringo issued Reload Warrants at an exercise price of \$1.76 per share, with the potential for raising up to an additional \$5.0 million.

Vringo expects to continue to see a net cash inflow from financing activities, as a result of possible inflows from the exercise of warrants and options granted to employees management and consultants.

Operating activities

During the year ended December 31, 2011, net cash used in operating activities totaled \$5.4 million. During the year ended December 31, 2010, net cash used in operating activities totaled \$6.4 million. The \$1.1 million decrease in net cash used in operating activities was primarily due to increase in revenue and a reduction in workforce related costs, in connection with the cost reduction plan implemented in the early part of 2011.

During the year ended December 31, 2009, net cash used in operating activities totaled \$4.8 million. The increase of \$1.6 million used in operating activities, compared to 2009, was mainly due to payments to service providers in connection with the IPO, and other payments made in connection with becoming a public company. These costs included: auditors fees, increased directors insurance and legal counsel.

Investing activities

During the year ended December 31, 2011, net cash used in investing activities totaled \$6,000. These included a decrease in restricted deposit in the total amount of \$21,000 and asset purchases in 2011, in the total amount of \$27,000. Fixed asset purchases in the year ended December 31, 2010 amounted to \$86,000 compared to \$34,000 for the year ended December 31, 2009. The increase in fixed asset purchases in 2010 was due to the need to replace certain fixed assets that had fully depreciated and to improve the servers in the research and development facility of our Israeli subsidiary.

During the year ended December 31, 2010, net cash provided by investing activities totaled \$2.5 million. During the year ended December 31, 2009, net cash used in investing activities totaled \$2.6 million. This increase of \$5.1 million provided by investing activities is primarily due to the release of proceeds from the bridge financing from escrow, which was slightly offset by the purchase of fixed assets.

Financing activities

During the year ended December 31, 2011, net cash provided by financing activities totaled \$1.2 million, which relates to the repayment and settlement of the venture loan in the total amount of \$2.1 million on the one hand, and receipt of proceeds from issuance of convertible notes, in the total amount of \$2.5 million, plus, receipt of proceeds from December 2011 financing in the total amount of \$0.85 million, on the other. See also Notes 8, 9 and 11, to the accompanying financial statements for the year ended December 31, 2011.

During the year ended December 31, 2010, net cash provided by financing activities totaled \$8.5 million, which relates to the net proceeds received as a result of the IPO, partially offset by repayment of principal on the venture loan, in the total amount of \$0.8 million.

During the year ended December 31, 2009, net cash provided by financing activities totaled \$2.2 million, which relates to issuance of Bridge Notes, in the total amount of \$2.98 million, partially offset by repayment of principal on the venture loan, in the total amount of \$0.8 million.

Future operations

In March 2012, Vringo entered into the Merger Agreement with Innovate/Protect. Vringo believes that the Merger, if consummated, will maximize the economic benefits of Vringo's intellectual property portfolio, add significant talent in technological innovation, and potentially enhance Vringo's opportunities for revenue

generation through the monetization of the combined company's assets. Innovate/Protect is the owner of certain patent assets acquired from Lycos, one of the largest search engine websites of its kind in the mid-late 1990s, including technologies that remain critical to current search platforms. The completion of the Merger is subject to a number of conditions and there can be no assurance that the conditions to the completion of the Merger will be satisfied and the Merger will be consummated.

In the fourth quarter of 2011, Vringo announced an agreement with ZTE Corporation, the largest handset maker in China and fourth-largest globally, to preload the FacetonesTM application on Android handsets, which is scheduled to commence late in the second quarter or in the third quarter of 2012. As part of the commercial terms of the agreement, these handsets will be sold via mobile phone operators and through various OEM contracts. Similar arrangement are being pursued with other handset manufacturers, although there can be no assurance that any such opportunities may arise.

Vringo is currently in discussions with several potential strategic partners and mobile carriers and Vringo will be pursuing additional agreements over the next 12 to 24 months. In addition, Vringo is continuing to explore further opportunities for strategic business alliances, however, there can be no assurance that any such opportunities may arise, or that any such opportunities will be consummated.

If the Merger is consummated, together with the executive team from Innovate/Protect, Vringo anticipates the creation of additional products and services that will be distributed through Vringo's existing operator and handset relationships.

Off-Balance Sheet Arrangements

Vringo has no obligations, assets or liabilities which would be considered off-balance sheet arrangements. Vringo does not participate in transactions that create relationships with unconsolidated entities or financial partnerships, often referred to as variable interest entities, which would have been established for the purpose of facilitating off-balance sheet arrangements.

Critical Accounting Estimates

While Vringo's significant accounting policies are more fully described in the notes to Vringo's consolidated financial statements for the year ended December 31, 2011, Vringo believes the following accounting policies to be the most critical in understanding the judgments and estimates Vringo use in preparing its consolidated financial statements.

Accounting for Stock-based Compensation

Vringo accounts for stock-based awards under FASB ASC718, "*Compensation — Stock Compensation*" (formerly SFAS 123R, "Share-Based Payment"), which requires measurement of compensation cost for stock-based awards at fair value on the date of grant and the recognition of compensation over the service period in which the awards are expected to vest. In addition, for options granted to consultants, FASB ASC 505-50, "*Equity-Based Payments to Non Employees*" is applied. Under this pronouncement, the measurement date of the option occurs on the earlier of counterparty performance or performance commitment. The grant is revalued at every reporting date until the measurement date. The estimation of stock-based awards that will ultimately vest requires judgment, and to the extent actual results differ from Vringo's estimates, such amounts will be recorded as a cumulative adjustment in the period estimates are revised. Vringo considers various factors when estimating expected forfeitures, including historical experience. Actual results may differ substantially from these estimates.

Vringo determines the fair value of stock options granted to employees, directors and consultants using the Black-Scholes-Merton and the Lattice (for out-of-the-money option grants and the Monte-Carlo (for grants that include market conditions)) valuation models, those require significant assumptions regarding the expected stock price volatility, the risk-free interest rate and the dividend yield, and the estimated period of time option grants will be outstanding before they are ultimately exercised. Due to insufficient history, Vringo estimates its expected stock volatility based on historical stock volatility from comparable companies.

TABLE OF CONTENTS

In January 2012, Vringo's board of directors approved an acceleration of option vesting for all option holders should Vringo be subject to a change of control in a merger and/or acquisition transaction. In addition, in March 2012, the board of director approved participation of all outstanding options, except for those grants pursuant to separation arrangements, in future dividends, if any, as well as the acceleration of vesting of certain outstanding options, according certain market conditions. In addition, upon a subsequent change of control, defined as a more than 50% change in shareholder ownership excluding the transaction Innovate/Protect, 75% of the then unvested options held by each grantee shall automatically vest. Moreover, all outstanding options granted to members of the board of directors shall fully vest if a member of the board of directors ceases to be a director at any time during the six-month period immediately following a change of control. As of March 31, 2012, Vringo expects to account for no dividends payouts, acceleration of vesting triggered by the Merger with Innovate/Protect will be accounted for upon the consummation of the proposed Merger; moreover, it assumes that the estimated effect of acceleration pursuant to meeting the abovementioned market conditions will be immaterial, due to low probability of occurrence, please refer to Note 5 to the accompanying financial statements for the three months ended March 31, 2012.

These option pricing models utilize various inputs and assumptions, which are highly subjective. Had Vringo used different assumptions, its results may have been significantly different. For further information on judgments and assessments used, please refer to Note 11 to the consolidated financial statements of Vringo for the year ended December 31, 2011.

Valuation of Financial Instruments

On December 29, 2009, Vringo consummated a bridge financing pursuant to which Vringo issued 5% subordinated convertible promissory notes, ("Bridge Notes"), in the aggregate amount of \$2.98 million in a private placement, as well as warrants to purchase 795,200 shares of common stock (the "Special Bridge Warrants", and collectively with the Bridge Notes, the "Bridge Financing"). Proceeds from the Bridge Financing were first allocated to the Special Bridge Warrants, which were classified as a derivative liability and recorded at fair value, with the residual amount allocated to the Bridge Notes.

On December 1, 2011, Vringo entered into financing agreements which triggered anti-dilution provisions in certain of its outstanding warrants. As a result, the exercise price was reduced to \$0.94 and the number of Special Bridge Warrants outstanding was adjusted to 2,528,615. Between February 6 and February 14, 2012, Vringo entered into agreements with holders of the Special Bridge Warrants, pursuant to which such holders exercised 2,274,235 Special Bridge Warrants (see also to Notes 3 and 5 to the accompanying financial statements). As of March 31, 2012, the Special Bridge Warrants were revalued using the Black-Scholes-Merton and the Monte-Carlo models. As the terms of these warrants include a special down-round protection clause, i.e. in a new issuance of common stock at a lower price than the current exercise price, the current exercise price will be lowered to the new issuance price and the number of warrants granted will increase so that the total exercisable value remains as under the original terms. As of March 31, 2012, Vringo estimated 30% probability of such protection being activated in September 2012. Vringo had estimated the value of the down-round protection using a Monte-Carlo simulation. The following assumptions were used: 82.95% expected volatility, a risk-free interest rate of 0.50%, estimated life of 2.75 years and no dividend yield.

Upon the consummation of the IPO, the Bridge Notes automatically converted into 864,332 shares of common stock and 1,728,664 warrants (the "Conversion Warrants"). The Conversion Warrants have down-round protection clauses, i.e. in a new issuance of common shares at a lower price than the current exercise price, the current exercise price will be adjusted to the new issuance price. On December 1, 2011, Vringo entered into financing agreements which triggered anti-dilution provisions in certain of its outstanding warrants. As a result, the exercise price was reduced to \$0.94. Between February 6 and February 14, 2012, Vringo entered into agreements with holders of the Special Bridge Warrants and Conversion Warrants, pursuant to which such holders exercised 1,554,758 Conversion Warrants (see also to Notes 3 and 5 to the accompanying financial statements). As of March 31, 2012, the Conversion Warrants were revalued using the Black-Scholes-Merton and the Monte-Carlo models. As the terms of these warrants include a special down-round protection clause, i.e. in a new issuance of common stock at a lower price than the current exercise price, the current exercise price will be lowered to the new issuance price and the number of warrants granted will increase so that the total exercisable value remains as under the original terms. As of March 31, 2012, Vringo estimated 30% probability of such protection being activated in September, 2012. Vringo had estimated the value of the

TABLE OF CONTENTS

down-round protection using a Monte-Carlo simulation. The following assumptions were used: 79.26% expected volatility, a risk-free interest rate of 0.60%, estimated life of 3.23 years and no dividend yield.

Between February 6 and February 14, 2012, Vringo entered into agreements with holders of the Special Bridge Warrants and Conversion Warrants, pursuant to which such holders exercised 2,274,235 Special Bridge Warrants and 1,554,758 Conversion Warrants to purchase an aggregate of 3,828,993 shares of its common stock for aggregate proceeds of approximately \$3.6 million. In addition, Vringo issued Reload Warrants to purchase an aggregate of 2,660,922 shares of common stock at an exercise price of \$1.76 per share in consideration for the immediate exercise of the warrants. 1,392,972 of the Reload Warrants bear down-round protection clauses; as a result, they will be classified as a long term derivative liability and recorded at fair value ("Preferential Reload Warrants"). At the issuance date fair value, in the total amount of \$1,476 thousand was calculated using the Black-Scholes-Merton and the Monte-Carlo models (see also to Notes 3 and 5 to the accompanying financial statements), using the following assumptions: 72.89% expected volatility, a risk-free interest rate of 0.79%, estimated life of 5 years and no dividend yield. The fair value of the common stock was \$1.76. Vringo estimated there is a 30% probability that down-round protection will be activated in September 2012. As of March 31, 2012 fair value of the Preferential Reload Warrants was calculated using the Black-Scholes-Merton and the Monte-Carlo models, using the following assumptions: 73.13% expected volatility, a risk-free interest rate of 1.05%, estimated life of 4.86 years and no dividend yield. Vringo estimated there is a 30% probability that down-round protection will be activated in September 2012.

Had Vringo made different assumptions about the fair value of the stock price (before it was publicly traded), risk-free interest rate, volatility, the impact of the down-round provision, or the estimated time that the above-mentioned warrants will be outstanding before they are ultimately exercised, the recorded expense, its net loss and net loss per share amounts could have been significantly different.

Accounting for Income Taxes

As part of the process of preparing Vringo's consolidated financial statements, Vringo is required to estimate its income taxes in each of the jurisdictions in which Vringo operates. This process involves management estimating Vringo's actual current tax exposure together with assessing temporary differences resulting from differing treatment of items for tax and accounting purposes. These differences result in deferred tax assets and liabilities, which are included within Vringo's consolidated balance sheet. Vringo must then assess the likelihood that its deferred tax assets will be recovered from future taxable income and, to the extent Vringo believes that recovery is not more likely than not, Vringo must establish a valuation allowance. Significant management judgment is required in determining Vringo's provision for income taxes, Vringo's deferred tax assets and liabilities and any valuation allowance recorded against Vringo's net deferred tax assets. At March 31, 2012 and December 31, 2011, Vringo has fully offset its U.S. net deferred tax asset with a valuation allowance. Vringo's lack of earnings history and the uncertainty surrounding its ability to generate U.S. taxable income prior to the expiration of such deferred tax assets were the primary factors considered by management in establishing the valuation allowance.

ASC 740, "Income Taxes" (formerly FASB Interpretation No. 48, "Accounting for Uncertainty in Income Taxes — an Interpretation of FASB Statement 109"), prescribes how a company should recognize, measure, present and disclose in its financial statements uncertain tax positions that the company has taken or expects to take on a tax return. Additionally, for tax positions to qualify for deferred tax benefit recognition under ASC 740, the position must have at least a "more likely than not" chance of being sustained upon challenge by the respective taxing authorities, which criteria is a matter of significant judgment.

Recently Issued Accounting Pronouncements

In April 2011, the Financial Accounting Standards Board (FASB) issued ASU 2011-04, Fair Value Measurement (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS. This ASU amends current fair value measurement and disclosure guidance to include increased transparency around valuation input and investment categorization. ASU 2011-04 is effective for fiscal years and interim periods beginning after December 15, 2011, with early adoption not permitted. The adoption of ASU 2011-04 in the first quarter of 2012 did not have an impact on Vringo's financial position, results of operations, or cash flows.

TABLE OF CONTENTS

In June 2011, the FASB issued ASU 2011-05, Comprehensive Income (Topic 220): Presentation of Comprehensive Income. ASU 2011-05 allows an entity to present components of net income and other comprehensive income in one continuous statement, referred to as the statement of comprehensive income, or in two separate, but consecutive statements. ASU 2011-05 eliminates the option to present the components of other comprehensive income as part of the statement of changes in stockholders' equity. In December 2011, the FASB issued ASU 2011-12 Comprehensive Income (Topic 220): Deferral of the Effective Date for Amendments to the Presentation of Reclassifications of Items Out of Accumulated Other Comprehensive Income in Accounting Standards Update No. 2011-05." ASU 2011-12 deferred the effective date of the specific requirement to present items that are reclassified out of accumulated other comprehensive income to net income alongside their respective components of net income and other comprehensive income. While the new guidance changes the presentation of comprehensive income, there are no changes to the components that are recognized in net income or other comprehensive income under current accounting guidance. ASU 2011-05 is effective for fiscal years and interim periods beginning after December 15, 2011 and must be applied retrospectively. The adoption of ASU 2011-05 in the first quarter of 2012 did not have an impact on Vringo's financial position, results of operations, or cash flows.

In December 2011, the FASB issued ASU 2011-11, Balance Sheet (Topic 210), Disclosures about Offsetting Assets and Liabilities, which require companies to disclose information about financial instruments that have been offset and related arrangements to enable users of their financial statements to understand the effect of those arrangements on their financial position. Companies will be required to provide both net (offset amounts) and gross information in the notes to the financial statements for relevant assets and liabilities that are offset. ASU 2011-11 is effective for fiscal years, and interim periods within those years, beginning on or after January 1, 2013. Vringo does not expect the adoption of ASU 2011-11 in the first quarter of 2013 to have an impact on Vringo's financial position, results of operations, or cash flows.

INNOVATE/PROTECT'S BUSINESS

Overview

Innovate/Protect was formed in June 2011 to maximize the economic benefits of intellectual property assets through acquiring or internally developing patents or other intellectual property assets (or interests therein) and then monetize such assets through a variety of value enhancing initiatives, including, but not limited to:

- licensing,
- customized technology solutions,
- strategic partnerships; and
- litigation.

Innovate/Protect's management team and board of directors are comprised of accomplished inventors, experienced investors and persons it believes are leaders in the intellectual property enforcement industry. Innovate/Protect's management team has access to leading patent attorneys, patent brokers, company liquidators and others who will assist Innovate/Protect in exploring, acquiring, developing and monetizing intellectual property assets. Innovate/Protect believes that the depth and experience of its management provides Innovate/Protect with important competitive strengths as it seeks to execute and expand its business model.

While Innovate/Protect's present operations are limited to prosecuting its initial claims relating to the Lycos's patents, its plan of operation over the next 12 months, in addition to continuing the prosecution of such claims, will be to expand its business through acquisitions of additional patent and other intellectual property assets that it will seek to monetize.

Innovate/Protect was incorporated under the laws of the State of Delaware on June 8, 2011. On September 6, 2011, it changed its name from Labrador Search Corporation to Innovate/Protect, Inc. Innovate/Protect has two wholly-owned subsidiaries, I/P Engine and I/P Labs. I/P Engine was incorporated in Virginia on June 14, 2011 under the name Smart Search Labs, Inc. and its name was changed from Smart Search Labs, Inc. to I/P Engine, Inc. in September 2011. I/P Labs was incorporated in Delaware on June 8, 2011 under the name Scottish Terrier Capital, Inc. and its name was changed from Scottish Terrier Capital, Inc. to I/P Labs, Inc. in September 2011.

Background of the Lycos Patents

Upon formation in June 2011, Innovate/Protect acquired its initial patent assets from Lycos through its wholly-owned subsidiary, I/P Engine. Such assets were comprised of eight patents (the "**Lycos Patents**") relating to information filtering and search technologies. Andrew Kennedy Lang, Innovate/Protect's Chief Executive Officer, Chief Technology Officer, President and director, and Donald Kosak, a consultant to I/P Engine, are the inventors of the Lycos Patents. As described further below, Innovate/Protect is initially seeking to monetize the Lycos Patents through litigation.

In the mid-to-late 1990s, the amount of content (e.g., web pages) available on the Internet was relatively small compared to today. Users frequently accessed Internet web pages by visiting portal sites, which presented content categorized into directories through which the users could select links to available web pages. Lycos was one of the leading portal sites of this time, which initially launched its website in 1994. Lycos' website included a directory-based portal and a query-based search engine, pursuant to which both systems provided access to its content catalog. By 1996, Lycos' content catalog had grown substantially and it was one of the largest websites of its kind. Other large portal search sites at the time also maintained large content catalogs. As the volume of available Internet content continued to grow, manual categorization processes presented efficiency and resource challenges in terms of the amount of material to be categorized and the accuracy of such categorization.

Lycos engaged WiseWire Corporation, which was formed by Mr. Lang in 1995 and also employed Mr. Kosak, to develop filtering techniques to more efficiently, and automatically, categorize content for Lycos' directories. Messrs. Lang and Kosak adapted their filtering techniques to apply to search systems and invented

TABLE OF CONTENTS

filtering systems and methods that filter items such as web pages and advertisements for content relevancy to a search query (known as a wire). Messrs. Lang and Kosak's inventions incorporate feedback information from prior users, and in filtering the items, combine the provided feedback information with the content relevancy information to determine whether (or where) an item should be included, or ranked, in a search results response to the query or the wire. After working together on several projects for Lycos' website, Lycos acquired WiseWire for \$39.75 million. Messrs. Lang and Kosak then joined Lycos, with Mr. Lang as Chief Technology Officer and Mr. Kosak as Senior Director of Engineering. Mr. Kosak later became Lycos' Chief Technology Officer.

The Lycos Patents are comprised of eight patents relating to information filtering and search technologies. Below is a summary of the Lycos Patents:

The Senior Secured Notes issued to Hudson Bay and discussed further below are secured by a first priority perfected security interest in all of Innovate/Protect's and Innovate/Protect's subsidiaries' assets, including but not limited to the patents described above, as evidenced by a pledge and security agreement and guaranties of the subsidiaries of Innovate/Protect.

Background on Intellectual Property Asset Enforcement Market

The United States patent system grants the holder of a patent the exclusive right to exclude others from practicing the patented technology for the term of the patent, and leaves the holder to his, her or its own devices to enforce these rights when such patented technology is infringed upon by others. The term of a patent is the maximum period during which it can be maintained into force. Under current United States law, the term of a patent is 20 years from the earliest claimed filing date (which can be extended via Patent Term Adjustment and Patent Term Extension). For applications filed before June 8, 1995, the term is 17 years from the issue date or 20 years from the earliest claimed domestic priority date, the longer term applying.

TABLE OF CONTENTS

Aggrieved patent holders may seek to bring enforcement actions against the infringing parties. They may engage attorneys on a full-fee basis, or enter into a contingency agreement. In a contingency arrangement, attorneys seek a portion of the revenue derived from licensing the patented technology.

Innovate/Protect's Initial Litigation

As one of the means of realizing the value of the Lycos Patents, on September 15, 2011, Innovate/Protect initiated (through I/P Engine) litigation in the United States District Court, Eastern District of Virginia, against AOL, Inc., Google, Inc., IAC Search & Media, Inc., Gannett Company, Inc., and Target Corporation for patent infringement regarding two of the Lycos Patents (U.S. Patent Nos. 6,314,420 and 6,775,664). The case number is 2:11 CV 512-RAJ/FBS, and is pending in the Norfolk Division.

The court docket for the case, including the parties' briefs, is publicly available on the Public Access to Court Electronic Records website ("PACER"), www.pacer.gov, which is operated by the Administrative Office of the U.S. Courts.

As described above, the asserted patents relate to relevance filtering technology used in the search engine industry to place high quality advertisements in the best positions on websites and thereby maximizing the potential for generating substantial advertising revenue to the website owner. In this lawsuit, Innovate/Protect alleges that the defendants have used, and continue to use, search and search advertising systems that infringe upon Innovate/Protect's relevant filtering patents. Innovate/Protect is seeking unspecified compensatory damages, past and future, amounting to no less than reasonable royalties, and attorneys' fees.

The complaint states that the accused systems use the patented technology by filtering and presenting search and search advertising results based on a combination of (i) an item's content relevance to a search query; and (ii) click-through rates from prior users relative to that item. For example, the complaint alleges that Google has adopted the patented technology with its use of Quality Score. Google's search advertising systems filter advertisements by using Quality Score, which is a combination of an advertisement's content relevance to a search query (e.g., the relevance of the keyword and the matched advertisement to the search query), and click-through rates from prior users relative to that advertisement (e.g., the historical click-through rate of the keyword and matched advertisement).

The complaint alleges that, after adopting the patented technology, Google's market share significantly grew and its profits from search advertising considerably outpaced those of other pay per click advertising providers. Google also allows third party publishers, for example AOL, IAC, Target and Gannett Media, to display advertising search results in response to search queries made on the third party websites.

On November 4, 2011, I/P Engine entered into a stipulation with all of the defendants, which provided, among other things, that: (i) I/P Engine would provide the defendants with a preliminary identification of the asserted claims, and representative claim charts, (ii) the defendants would provide an initial production of technical documents; and (iii) the defendants would not move or otherwise seek to transfer or sever any party from the action, or otherwise assert that the Eastern District of Virginia is inconvenient for any reason.

The defendants filed their answers to the complaint on November 14, 2011, and also asserted declaratory judgment counterclaims of non-infringement and invalidity. On November 28, 2011, all defendants (except AOL, which asserted no such allegation) amended their counterclaims to remove an allegation of unenforceability. On December 5, 2011, I/P Engine filed answers to AOL's counterclaims. On December 9, 2011, I/P Engine filed answers to the counterclaims of the remaining defendants.

On February 15, 2012, the Court entered a scheduling order in the case setting the claim construction hearing for June 4, 2012 and trial for October 16, 2012. The claim construction hearing is commonly referred to as a *Markman* hearing after the Supreme Court case that explained the process by which courts must determine the meaning of particular terms or phrases with the claims asserted in the patent-in-suit. The claims in a patent are what determine the scope of the patent's right to exclude infringing technology. Each claim comprises a set of limitations: specific terms or phrases that define the technology covered by the claim. The parties will apply that claim construction when presenting the case to the jury.

On March 15, 2012, Google submitted a request to the USPTO for *ex parte* reexamination of U.S. Patent No. 6,314,420, one of the two patents-in-suit. The request was deposited on March 16, 2012 and was assigned

TABLE OF CONTENTS

Control No. 90/009,991. Innovate/Protect expected Google to seek reexamination and believes this request is a standard and typical tactic used by defendants in patent litigation cases. The filing of a request for reexamination is the first step in a process that ordinarily takes several years. On April 26, 2012, the USPTO vacated Google's request for *ex parte* reexamination for failing to follow to the requirements set forth in the USPTO's regulations. On May 24, 2012, Google submitted their request to the USPTO. This resubmission purports to address the issues identified by the USPTO. Google's request has not resulted in any delay of the dates set out in the Court's scheduling order dated February 15, 2012.

Discovery has commenced; the parties have served and responded to written discovery requests and have produced documents. Further discovery, including depositions, is expected to occur in the next few months. Near the end of discovery, the parties will exchange expert reports. Innovate/Protect expects that defendants will make several attempts to avoid trial.

Within the *Markman*, or claim construction process, the court will review the parties competing definitions for specific terms within the asserted claims. Both parties have already submitted two rounds of briefing to the court that provide argument for their proposed definitions. The opening claim construction briefs were filed on April 12, 2012, and the responsive claim construction briefs were filed on May 3, 2012. At the *Markman* hearing, which is currently scheduled for June 4, 2012, the court will hear arguments from both sides in support of their positions. At some point after the hearing but before the close of discovery, the court will issue an order providing binding definitions for the contested terms. The court's definitions to the patent claims establish the boundary markings of the claimed technology and will inform both parties' expert reports and testimony as well as the parties' arguments to the jury.

Innovate/Protect anticipates the claim construction hearing will be open to the public; that the transcript of such hearing will be publicly available; and that the court's order construing the contested terms will be publicly available.

Although Innovate/Protect's intention is to expand its business through the acquisition of additional patent and intellectual property assets, the viability of Innovate/Protect currently depends on the outcome of this lawsuit.

Growth Strategy

Through Innovate/Protect's wholly owned subsidiary, I/P Engine, Innovate/Protect intends to continue to seek to generate license revenue and related cash flows from parties who infringe on or use the Lycos Patents.

In addition to prosecuting and seeking to monetize Innovate/Protect's rights in the Lycos Patents, Innovate/Protect intends to acquire additional intellectual property assets and monetize the value therefrom, although it is not a party to any agreement or understanding to acquire any such assets as of the date of this prospectus.

A key element of Innovate/Protect's business plan will be its ability to provide liquidity to inventors and other intellectual property holders by allowing them to sell all of, or interests in, such intellectual property to Innovate/Protect in exchange for cash or other interests. Such other interests could include interests in existing intellectual property litigation claims. Leveraging the extensive experience of Innovate/Protect's management, through engaging in a robust due diligence and risk underwriting process aimed at evaluating the merits and potential value of these assets, Innovate/Protect seeks to structure its investments in these assets in a manner that will create the potential for Innovate/Protect to achieve superior risk-adjusted returns. Innovate/Protect believes that its capital resources and potential access to capital, together with the strength of its management team in the intellectual property arena, will allow Innovate/Protect to assemble a portfolio of quality assets with short- and long-term revenue opportunities.

Innovate/Protect also intends to seek the continued involvement of the inventors of the respective intellectual property assets, and intend to partner with such inventors in its efforts to maximize the revenue that can be realized from the intellectual property assets. Innovate/Protect believes that involving the respective inventors in the monetization of their inventions will make it an attractive partner for the inventor community, and Innovate/Protect believes that securing access to the inventors' knowledge will help it in its efforts to monetize these assets.

TABLE OF CONTENTS

Beyond potential licensing or other revenue Innovate/Protect may receive from companies that make use of its intellectual property, Innovate/Protect believes there are further opportunities to generate revenue from companies that could improve their products and revenue through the addition of Innovate/Protect's technology to their products. In addition to being a potential revenue source for Innovate/Protect, this aspect of Innovate/Protect's business may lead to further innovations and new intellectual property being developed, which it will seek to retain and monetize.

Competition

Innovate/Protect expects to encounter significant competition from others seeking to acquire interests in intellectual property assets and monetize such assets. Most of Innovate/Protect's competitors have much longer operating histories, and significantly greater financial and human resources, than it has. Entities such as VirnetX (NYSE:VHC), Acacia Research Corporation (NASDAQ:ACTG), Allied Security Trust, Altitude Capital Partners, Augme Technologies Inc. (OTCBB:AUGT) Intellectual Ventures, Collier IP, Ocean Tomo, RPX Corporation (NASDAQ:RPXC), Rembrandt IP Management and others presently market themselves as being in the business of creating, acquiring, licensing or leveraging the value of intellectual property assets. Innovate/Protect expects others to enter the market as the true value of intellectual property is increasingly recognized and validated. In addition, competitors may seek to acquire the same or similar patents and technologies that it may seek to acquire, making it more difficult for Innovate/Protect to realize the value of its assets.

Relationship with Hudson Bay Master Fund Ltd.

Hudson Bay is the principal stockholder of Innovate/Protect and holds significant control rights with respect to the management of its business and assets. On June 22, 2011, Innovate/Protect consummated a private placement transaction with Hudson Bay whereby Hudson Bay purchased 6,968 shares of Innovate/Protect's Series A Preferred for \$1,800,000 and Senior Secured Note of Innovate/Protect in the aggregate principal amount of \$3,200,000.

The shares of Series A Preferred may be converted by Hudson Bay into shares of Innovate/Protect's common stock. The conversion formula is subject to adjustments and anti-dilution protections, including but not limited to, adjusting the conversion price to account for the issuance of additional securities by Innovate/Protect below the existing conversion price and for stock splits, stock dividends and recapitalizations of Innovate/Protect's capital stock.

Hudson Bay is entitled to vote the shares of Series A Preferred on an as converted basis, giving Hudson Bay effective control over Innovate/Protect, and as the Series A Preferred holder, Hudson Bay is entitled to vote together with the holders of the common stock as a single class on all matters. As the holder of Series A Preferred, Hudson Bay also has the right to vote separately as a class to elect a majority of Innovate/Protect's board of directors and the terms of the Series A Preferred restricts Innovate/Protect from performing certain actions without the prior consent of Hudson Bay.

At Hudson Bay's option, the shares of the Series A Preferred are also subject to redemption upon certain triggering events such as (i) Innovate/Protect's failure or refusal to convert the Series A Preferred into shares of common stock, (ii) Innovate/Protect's failure to have a sufficient number of authorized shares of common stock reserved for conversion of the Series A Preferred, (iii) any default, redemption or acceleration of any indebtedness of Innovate/Protect or its subsidiaries, (iv) Innovate/Protect voluntarily commences a bankruptcy proceeding on Innovate/Protect's behalf, Innovate/Protect consents to involuntary bankruptcy, appointment of a receiver, trustee, assignee, liquidator or similar official for bankruptcy purposes, a general assignment for the benefit of creditors or admit in writing that Innovate/Protect is generally unable to pay its debts as they become due, or (v) a judgment against Innovate/Protect in an amount in excess of \$250,000. In addition, pursuant to the terms of the Series A Preferred, Innovate/Protect's board of directors must obtain written approval from Hudson Bay to issue any capital stock superior, pari-passu or junior in rank to the Series A Preferred.

Pursuant to its terms, the Senior Secured Note matures on June 22, 2014 and accrues interest at a rate of 0.46%, with interest being payable on the first calendar day of each quarter after the issuance date. In the event of default, the interest rate will increase to 18%. The Senior Secured Note is also subject to redemption rights,

whereby upon the occurrence of an event of default or a change in control of Innovate/Protect, Hudson Bay may request redemption of the Senior Secured Note in cash at a price equal to 125% of the then outstanding principal and accrued interest under the Senior Secured Note. Further, beginning on March 22, 2012, Hudson Bay may request Innovate/Protect to redeem up to \$2,000,000 of the aggregate principal amount of the Senior Secured Note. Pursuant to a letter agreement dated March 12, 2012, by and between Innovate/Protect and Hudson Bay, Hudson Bay agreed not to exercise its right of redemption until the earlier of (i) any termination of the Merger Agreement pursuant to the terms of the Merger Agreement or (ii) the effective time of the Merger; provided that if the Merger is consummated, the Note will be amended and restated and the holder may exercise any and all rights and remedies pursuant to such amended and restated note delivered at the closing of the Merger, including with respect to any optional redemption provisions contained therein. If the Merger is consummated, the amended and restated note will mature on June 22, 2013 and the right of redemption described above will be amended to provide that, from and after the date upon which (i) Vringo and its subsidiaries has more than \$15,000,000 in the aggregate of cash and cash equivalents, Hudson Bay may require Vringo to redeem up to 50% of the outstanding principal amount of the note, (ii) Vringo and its subsidiaries has more than \$20,000,000 in the aggregate of cash and cash equivalents, Hudson Bay may require Vringo to redeem up to 100% of the outstanding principal of the Note, (iii) Vringo and its subsidiaries receives proceeds in excess of \$500,000 in the aggregate from the issuance of any equity or indebtedness, Hudson Bay may require Vringo to redeem the outstanding principal under the note in an amount equal to up to 20% of the proceeds of the issuance of any such equity or indebtedness. In addition, Hudson Bay agreed that until the earlier of (i) any termination of the Merger Agreement pursuant to the terms of the Merger Agreement and (ii) the effective time of the Merger, it shall not sell, transfer, dispose of or encumber (x) the Senior Secured Note or any portion thereof or interest thereon unless the recipient of such Senior Secured Note agrees in writing with Innovate/Protect to adhere to Hudson Bay's obligations pursuant to the letter agreement or (y) any shares of Innovate/Protect Series A Stock, unless the recipient of such Innovate/Protect Series A Stock grants Hudson Bay a proxy with respect to the voting of such Innovate/Protect Series A Stock with respect to the Merger Agreement, the Merger and any related matter or agrees in writing with Hudson Bay to vote in accordance with any and all instructions that Hudson Bay may deliver to such recipient with respect to the Merger Agreement, the Merger or any related matter. The Senior Secured Note ranks senior to all outstanding and future indebtedness of Innovate/Protect and is secured by a first priority perfected security interest in all of Innovate/Protect and its subsidiaries' assets (including the Lycos Patents).

On September 1, 2011, Innovate/Protect issued to Hudson Bay a warrant to purchase 250,000 shares of common stock in exchange for Hudson Bay agreeing to waive its anti-dilution rights with respect to certain transactions and for waiving its right to future directors' fees for its principals. The warrant is exercisable for five years to purchase one share of Innovate/Protect's common stock at an exercise price of \$1.00 per share. Such warrant is immediately exercisable and subject to cashless exercise provisions.

On June 1, 2012, Hudson Bay committed, subject to the terms and conditions of a commitment letter agreement, that, at any time within 18 months following the closing of the Merger and upon the request of Innovate/Protect, it or, at its election, one or more of its affiliated funds or entities shall provide debt financing to Innovate/Protect in the aggregate principal amount of up to \$6,000,000. Any such financing provided under such facility will be in the form of senior secured notes at an interest rate of the greater of (i) LIBOR plus 300 basis points and (ii) 8% per annum with a maturity of seven years after issuance. Such obligations will be guaranteed by each of the Vringo entities and secured by a first priority lien on all assets of the Vringo entities. In addition, both Innovate/Protect and the holder of the notes will be able to require redemption of all or any portion of the Notes at any time after 18 months following the consummation of the Merger, subject to an interest make-whole through maturity. In addition to other covenants to be mutually agreed between Innovate/Protect and Hudson Bay, the Vringo entities will not spend cash during any calendar quarter while any notes are outstanding at a rate greater than the amount specified in the capital budget of Vringo and its subsidiaries, prepared on a combined basis, agreed to by Hudson Bay, without the prior written consent of Hudson Bay. such facility is subject to (a) the consummation of the Merger without any amendment or modification (unless consented to in writing by Hudson Bay), (b) at the time of any request to provide the facility, the satisfaction of each of the conditions set forth in Section 6.2(f) (Litigation) and 6.2(j) (Patents) of the Merger Agreement, (c) at all times after the consummation of the Merger and prior to the termination of the commitment letter agreement, Vringo using its best efforts to raise capital by issuing equity securities of Vringo and/or securities convertible, exercisable or exchangeable for equity securities of Vringo, (d) the execution by Innovate/Protect and Hudson Bay of all documents necessary for the consummation of the transaction contemplated by the commitment on terms and conditions in all respects acceptable and satisfactory to Innovate/Protect and Hudson Bay, (e) no Vringo entity shall have, pursuant to or within the meaning of Title 11, U.S. Code, or any similar Federal, foreign or state law for the relief of debtors (collectively, "Bankruptcy Law"), (A) commenced a voluntary case, (B) consented to the entry of an order for relief against it in an involuntary case, (C) consented to the appointment of a receiver, trustee, assignee, liquidator or similar official (a "Custodian"), (D) made a general assignment for the benefit of its creditors or (E) admitted in writing that it is generally unable to pay its debts as they become due, (f) a court of competent jurisdiction not having entered an order or decree under any Bankruptcy Law that (A) is for relief against any Vringo entity in an involuntary case, (B) appoints a Custodian of any Vringo entity or (C) orders the liquidation of any Vringo entity, (g) since the execution of the commitment letter agreement, there shall not have occurred a material adverse change or material adverse development in the business, assets, properties, operations, condition (financial or otherwise), results of operations or prospects of any of the Vringo entities, and (h) no Vringo entity shall be, prior to the consummation of the transactions contemplated by the facility, or after giving effect to the consummation of the transactions contemplated by the facility, insolvent. The obligations of Hudson Bay or any of its affiliated funds under the commitment letter agreement will terminate automatically and immediately upon the earlier to occur of (a) the termination of the Merger Agreement pursuant to its terms, (b) any default under or acceleration prior to maturity of any indebtedness of any Vringo entity, (c) the failure of any Vringo entity to satisfy any of the conditions set forth above, (d) any event, which, if occurring prior to the closing of the Merger, would have resulted in the failure of the conditions set forth in Section 6.2(f) (Litigation) and 6.2(j) (Patents) of the Merger Agreement to be satisfied, (e) upon written notice to terminate the commitment letter agreement delivered by Innovate/Protect to Hudson Bay or (f) 18 months after the consummation of the Merger.

Certain statements in this section and other sections are forward-looking. While Innovate/Protect believes these statements are accurate, its business is dependent on many factors, some of which are discussed in the sections entitled "Risk Factors" and "Innovate/Protect's Business." Many of these factors are beyond Innovate/Protect's control and any of these and other factors could cause actual results to differ materially from the forward-looking statements made in this proxy statement/prospectus. Overview and Plan of Operations

Innovate/Protect is a recently formed development stage company and has generated no revenues to date. Innovate/Protect's strategic objective is to maximize, for inventors and investors, the economic benefits of intellectual property assets. Innovate/Protect's business model is to leverage the extensive background and expertise of its management and advisors to acquire or internally develop patents and other intellectual property assets (or interests therein), and to then monetize these assets through a variety of value-enhancing initiatives, including, but not limited to, licensing, customized technology solutions, strategic partnerships and litigation.

Since its inception in June 2011, Innovate/Protect has been engaged in the following activities:

- securing initial debt and equity capital from Hudson Bay;
- performing due diligence on, negotiating and completing the purchase of the Lycos Patents;
- recruiting management team, board of directors and advisors;
- establishing a physical location from which to operate;
- establishing systems of internal control over financial reporting and implementation of financial operation systems;
- securing subsequent equity capital from private investors;
- initiating and prosecuting lawsuit against those Innovate/Protect believes infringe on the Lycos Patents;
- developing Innovate/Protect's business plan as described herein and planning for future business activities; and
- selecting registered independent auditing firm and undertaking an audit of financial statements from inception through December 31, 2011; and
- Identifying and pursuing general and specific strategic opportunities and engaging in discussions intended to further develop the opportunities.

On March 12, 2012, Innovate/Protect entered into an Agreement and Plan of Merger with Vringo, Inc. ("**Vringo**") and VIP Merger Sub, Inc. (the "**Merger Agreement**").

Innovate/Protect's financial operating results for the period from inception through March 31, 2012 reflect these activities, which activities are discussed in further detail in the section of this prospectus captioned "Innovate/Protect's Business."

Innovate/Protect's plan of operation for the foreseeable future will be to:

- continue prosecution of the litigation against AOL, Inc., Google, Inc., IAC Search & Media, Inc., Gannett Company, Inc., and Target Corporation for infringement of the Lycos Patents, with a goal of achieving a positive verdict or settlement (including, potentially, a licensing arrangement on terms beneficial to Innovate/Protect); and

- to the extent that time and resources allow, seek strategic opportunities and seek to acquire or internally develop additional intellectual property assets that Innovate/Protect will then seek to monetize.

Formation and Issuance and Valuation of Securities at Inception

Innovate/Protect was incorporated under the laws of the state of Delaware on June 8, 2011 under the name Labrador Search Corporation. On September 6, 2011, Innovate/Protect changed its name to Innovate/Protect, Inc. Innovate/Protect is a holding company, which, at December 31, 2011, owned 100% of the issued and outstanding common stock of I/P Engine and I/P Labs.

I/P Engine was incorporated in Virginia on June 14, 2011 as Smart Search Labs, Inc. and changed its name to I/P Engine, Inc. on September 9, 2011. I/P Engine is the current holder of the Lycos Patents (which Innovate/Protect contributed to I/P Engine at its formation), through which Innovate/Protect is prosecuting its initial litigation relating to the Lycos Patents and through which Innovate/Protect will also seek to acquire and monetize other intellectual property assets in the future.

I/P Labs was incorporated in Delaware on June 8, 2011 as Scottish Terrier Capital, Inc. and changed its name to I/P Labs, Inc. on September 9, 2011. Through I/P Labs, Innovate/Protect will seek to internally develop its own intellectual property assets and provide consulting services to other intellectual property owners.

At inception, Innovate/Protect was funded with a loan of \$3,200,000 and a \$1,800,000 investment of Series A Preferred from a single investor, Hudson Bay. Hudson Bay funded \$3,200,000 as a loan in the form of a Senior Secured Note, which bears interest at a rate of 0.46% per annum. Given the development stage and speculative nature of Innovate/Protect, it is not likely that Innovate/Protect could have acquired external debt funding at any reasonable interest rate, thus the interest rate being paid to Hudson Bay is significantly more favorable than rates Innovate/Protect could have negotiated externally. The \$3,200,000 amount of the Senior Secured Note was intended to approximate the purchase price of the Lycos Patents. The loan evidenced by the Senior Secured Note is for a term of 36 months. Upon the occurrence of an event of default or a change in control of Innovate/Protect, Hudson Bay may request redemption of the Senior Secured Note in cash at a price equal to 125% of the then outstanding principal and accrued interest under the Senior Secured Note. Further, beginning on March 22, 2012, Hudson Bay may request to redeem up to \$2,000,000 of the aggregate principal amount of the Senior Secured Note. In connection with Innovate/Protect entering into the Merger Agreement, on March 12, 2012, Hudson Bay (for itself and any assignee or other holder of the Note) agreed not to exercise its right of optional redemption until the earlier of (i) any termination of the Merger Agreement pursuant to Section 7.1 thereunder or (ii) the Effective Time; provided, that, if the Merger is consummated, the Note will be amended and restated and Holder may exercise any and all rights and remedies pursuant to such amended and restated note delivered at the Closing of the Merger, including with respect to any optional redemption provisions contained therein. If the Merger is consummated, the amended and restated note will mature on June 22, 2013 and the right of redemption described above will be amended to provide that, from and after the date upon which (i) Vringo and its subsidiaries has more than \$15,000,000 in the aggregate of cash and cash equivalents, Hudson Bay may require Vringo to redeem up to 50% of the outstanding principal amount of the note, (ii) Vringo and its subsidiaries has more than \$20,000,000 in the aggregate of cash and cash equivalents, Hudson Bay may require Vringo to redeem up to 100% of the outstanding principal of the Note, (iii) Vringo and its subsidiaries receives proceeds in excess of \$500,000 in the aggregate from the issuance of any equity or indebtedness, Hudson Bay may require Vringo to redeem the outstanding principal under the note in an amount equal to up to 20% of the proceeds of the issuance of any such equity or indebtedness. In addition, the amended and restated note shall provide that in the event of a change of control, Hudson Bay may require Vringo to redeem all or any portion of the note at a price in cash equal to 125% of the amount redeemed.

The Senior Secured Note ranks senior to all outstanding and future indebtedness of Innovate/Protect and is secured by a first priority perfected security interest in all of Innovate/Protect's and its subsidiaries' assets (including the Lycos Patents).

Hudson Bay's \$1,800,000 investment in the shares of Series A Preferred was initially convertible on demand into 6,968,000 shares of Innovate/Protect common stock. The initial valuation of the Series A

TABLE OF CONTENTS

Preferred was developed by dividing the \$1,800,000 investment by 6,968,000 common shares, presuming Hudson Bay's ultimate conversion of their Series A Preferred into common stock. This calculation resulted in an initial valuation of \$0.25832 per share of common stock, which was used to calculate certain subsequent common stock grants or sales. Because Hudson Bay's investment in the Series A Preferred occurred at the earliest stage of Innovate/Protect's formation, prior to the conduct of any business activity, it does not lend itself to a comparison of any known comparable market transactions.

The \$1,800,000 funding level was determined by reference to Innovate/Protect's near term funding requirements at the time, reflecting expected cash needs in excess of the Lycos Patents purchase price, to fund operating expenses which include significant legal expenses required to seek monetization of the Lycos Patents, and to retain a modest contingency for unforeseen expenses until additional private equity funding could be achieved. Such additional equity funding occurred during the period from July to December 2011 in the form of multiple separate private placement transactions priced at \$1.00, \$3.00 and \$3.30 per share. The increasing price at which shares were sold to private investors, including members of Innovate/Protect's board of directors, reflected Innovate/Protect's achievement of certain milestones such as the filing of the initial lawsuit relating to the Lycos Patents and the recruitment of additional board members.

Innovate/Protect estimates its legal fees to be approximately \$275,000 in April, \$775,000 in May, \$275,000 for each of June, July, August and September, and \$750,000 in October 2012. The elevated amount in May relates to fees associated with the preparation of the case, and the elevated amount in October relates to fees estimated with the trial, which is scheduled for October. Therefore, the total amount budgeted for legal fees for the April to October period is \$2.9 million. Expenses thereafter are dependent on the outcome of the litigation, and are therefore difficult to estimate. In the event that the case is appealed, legal fees over the course of the next 18 months are estimated to be \$100,000 per month. In addition, third-party expenses associated with the litigation are estimated to be approximately \$140,000 per month from April to October, or \$980,000 for the April to October period. Therefore, the total amount budgeted for legal fees and third-party expenses associated with the litigation are estimated to be \$3.88 million.

Innovate/Protect estimates that its short term operating expenses will be approximately \$210,000 per month from April to December 2012, or \$1.89 million for the period. Short term operating expenses include Note interest expense, payroll and employee benefit expenses, occupancy (rent) expenses, telecom expenses, transportation and lodging expenses, public relations expenses, and a reserve contingency. Notably, the reserve contingency is \$100,000 per month for unforeseen costs and delays. Innovate/Protect budgeted a large contingency amount, relative to the total budget, given the uncertainty inherent with litigation and its limited operating history.

The following table reflects Innovate/Protect's consolidated operating results for the three months ended March 31, 2012, from June 8, 2011 (Inception) through March 31, 2012, and from June 8, 2011 (Inception) through December 31, 2011:

The loss for the period includes legal expenses totaling \$1,208,071, of which \$105,971 were to organize Innovate/Protect, and \$1,102,100 to prepare and file a lawsuit against those Innovate/Protect believes have infringed on the Lycos Patents. Additional legal, due diligence and other expenses related to the purchase of the Lycos Patents, \$195,188, have been capitalized in the cost of the patents and are being amortized along with the purchase price.

Management does not believe the patents have suffered impairment during the period and no valuation allowance for impairment has been recognized. Additional legal, due diligence and other expenses related to the purchase of the Lycos Patents in the amount of \$195,188 have been capitalized in the cost of the patents and are being amortized along with the purchase price.

Operating and administrative expenses for the quarter ended March 31, 2012 reflect expenses incurred in connection with Innovate/Protect's litigation and overhead. The net loss for the period of \$1,871,750 is not comparable to a previous period. The loss for the period includes legal expenses totaling \$1,171,920. Compensation expense was \$378,408, including \$84,255 of stock based compensation. Amortization and depreciation expense of \$156,137 are mainly related to period amortization of Innovate/Protect's patents.

Interest Expense

Interest expense reflects an interest rate of 0.46% on the principal amount of \$3,200,000 under the Senior Secured Note held by Hudson Bay for ten days in June and for the remainder of the year ended December 31, 2011. Interest was all paid in cash and none was accrued at March 31, 2012.

Critical Accounting Estimates

Related party debt: Innovate/Protect is obligated under a note payable to Hudson Bay with an outstanding balance of \$3,200,000 at December 31, 2011 and March 31, 2012 (the "**Hudson Bay Note**"). At March 31, 2011, Hudson Bay owned a sufficient amount of the outstanding preferred stock of Innovate/Protect, convertible upon demand to common stock sufficient to control Innovate/Protect. The Hudson Bay Note accrues interest at 0.46% per annum and matures on June 22, 2014. Innovate/Protect has granted Hudson Bay a security interest in all tangible and intangible personal property of Innovate/Protect and its subsidiaries to secure its obligations under the Hudson Bay Note.

Hudson Bay has the option of requiring Innovate/Protect to redeem up to \$2,000,000 aggregate principal of the Hudson Bay Note beginning March 22, 2012. In connection with Innovate/Protect entering into the Merger Agreement, on March 12, 2012, Hudson Bay (for itself and any assignee or other holder of the Note) agreed not to exercise its right of optional redemption until the earlier of (i) any termination of the Merger Agreement pursuant to Section 7.1 thereunder or (ii) the Effective Time; provided, that, if the Merger is consummated, the Note will be amended and restated and Holder may exercise any and all rights and

remedies pursuant to such amended and restated note delivered at the Closing of the Merger, including with respect to any optional redemption provisions contained therein. If the Merger is consummated, the amended and restated note will mature on June 22, 2013 and the right of redemption described above will be amended to provide that, from and after the date upon which (i) Vringo and its subsidiaries has more than \$15,000,000 in the aggregate of cash and cash equivalents, Hudson Bay may require Vringo to redeem up to 50% of the outstanding principal amount of the note, (ii) Vringo and its subsidiaries has more than \$20,000,000 in the aggregate of cash and cash equivalents, Hudson Bay may require Vringo to redeem up to 100% of the outstanding principal of the Note, (iii) Vringo and its subsidiaries receives proceeds in excess of \$500,000 in the aggregate from the issuance of any equity or indebtedness, Hudson Bay may require Vringo to redeem the outstanding principal under the note in an amount equal to up to 20% of the proceeds of the issuance of any such equity or indebtedness. In addition, the amended and restated note shall provide that in the event of a change of control, Hudson Bay may require Vringo to redeem all or any portion of the note at a price in cash equal to 125% of the amount redeemed. The Hudson Bay Note does not contain any financial statement covenants, however there are standard events of default. In the event of a default, which is not subsequently cured or waived, the interest rate would increase to a rate of 18% per annum. At the option of Hudson Bay and upon notice, the entire unpaid principal balance together with all accrued interest thereon would be immediately due and payable. Hudson Bay has the right to require Innovate/Protect to redeem the Hudson Bay Note in the event of a change of control or in event of default at a redemption price, pursuant to a formula, of up to 125% of the sum of the portion of the principal amount and any accrued and unpaid interest. On May 8, 2012, Hudson Bay and Innovate/Protect entered into a letter agreement to clarify the mutual understanding between the parties that the transactions contemplated by the Merger Agreement do not constitute a change in control.

As of March 31, 2012, there were no known conditions of default.

Innovate/Protect determined there was an embedded derivative since certain redemption options were determined not to be clearly and closely related to the debt host. Innovate/Protect also determined that the fair value of the embedded derivative was zero at December 31, 2011 and March 31, 2012 since the probability of change in control or event of default in the near future is remote. The gross amount Innovate/Protect would have to pay if this redemption option is exercised would be \$800,000. Hudson Bay agreed not to exercise its right of redemption until the earlier of (i) any termination of the Merger Agreement pursuant to the terms of the Merger Agreement or (ii) the effective time of the Merger; provided that if the Merger is consummated, the Note will be amended and restated and the holder may exercise any and all rights and remedies pursuant to such amended and restated note delivered at the closing of the Merger, including with respect to any optional redemption provisions contained therein.

Innovate/Protect will evaluate the fair value of the derivative each reporting period and report changes in the fair value as other income (expense), net.

Stock-based compensation: Innovate/Protect has made the following types of stock-based awards, valued and reflected in the financial statements as follows:

Common Stock Grants: Common stock grants are valued at their fair market value at the date of the grant, multiplied by the number of shares granted. These grants are reflected as compensation expense in the period during which the respective awards vest, ranging from immediate to 36 months from the grant dates.

Sales of Common Stock at Less than Fair Market Value: Common stock sales at less than fair market value to executive officers are valued at their fair market value on the date of the sale, multiplied by the number of shares sold at less than fair market value. Common stock sales at less than fair market value to consultants are valued at their fair market value on the date the purchased shares vest (the "measurement date"), revalued as to the number of shares vesting at each subsequent measurement date, multiplied by the number of shares vesting at the measurement date. The difference between the purchase price and the fair market value of the shares vesting at each measurement date is reflected as compensation expense in the period during which the respective awards vest, over periods ranging from immediate to 36 months.

TABLE OF CONTENTS

Common Stock Options: Common stock options are valued at their fair market value at the time the options are granted, using the Black-Scholes option pricing model for valuing stock-based compensation awards. Common stock options are reflected as compensation expense in the period during which they vest.

Fair value of common stock: At inception, Innovate/Protect determined the fair value of each common share to be \$25832. Management determined the amount of capital it estimated would be required (\$1,800,000) to carry Innovate/Protect through its earliest stages of development. This amount was financed through the issuance of Series A convertible preferred stock (the "Series A Preferred Stock"). To arrive at the estimated fair value of a share of common stock, the \$1,800,000 was divided by the number of common shares, 6,968,000, into which Innovate/Protect's Series A Preferred Stock sold would convert upon demand, in accordance with the terms of the Series A Preferred Stock.

Subsequent to inception, Innovate/Protect determined fair value per share based on multiple private sales of common stock to third parties including individuals and institutional investors. Three rounds of common stock sales occurred after inception, one round at \$1 per share during late August and early September 2011, one round at \$3 per share during mid-September and October 2011, and one round at \$3.30 per share during November and December 2011.

Income taxes: Deferred income tax assets and liabilities are determined using the asset and liability method. Under this method, the net deferred tax asset or liability is determined based on the tax effects of permanent and temporary differences between the book and tax bases of the various balance sheet assets and liabilities and gives current recognition to changes in tax rates and laws.

A valuation allowance is recorded when it is more likely than not that some portion or all of the deferred tax assets will not be realized.

Innovate/Protect recognizes tax positions taken or expected to be taken when it is more likely than not that the position would be sustained upon examination by tax authorities. A recognized tax position is then measured at the largest amount of benefit that is more likely than not to be realized upon ultimate settlement. It is Innovate/Protect's policy to classify interest and penalties related to uncertain income tax matters as income tax expense.

Intangible assets: Intangible assets consist of patents that were purchased and the costs to acquire them. They are amortized over their legal lives, for periods that vary from five to ten years depending on the patents' expiration. The useful lives of intangible assets are periodically evaluated for reasonableness and the assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may no longer be recoverable. Costs to investigate potential purchases of intangible assets are treated expense when incurred, until or unless purchase of the respective assets are deemed viable, after which time the costs to further investigate and acquire the assets are capitalized. Subsequent to acquisition, legal and associated costs incurred in prosecuting alleged infringements of the patents are recognized as expense when incurred.

Liquidity and Capital Resources

As a development stage company, Innovate/Protect requires, and expects for the foreseeable future that Innovate/Protect will continue to require, significant amounts of capital to support its operations prior to the commencement of a revenue stream or other liquidity events. Because of the nature of Innovate/Protect's business, capital is required to support Innovate/Protect's substantial legal costs, as well as, its normal operating costs. Innovate/Protect has developed a budget outlining its expected legal and operating costs, including contingencies for unforeseen costs and delays over the next twelve (12) months. Innovate/Protect does not have adequate funds to operate for the next twelve (12) months. Based on current operating plans, additional resources that may be required for the continuation of Innovate/Protect's operations approximates \$3.4 million and \$7.5 million, for the twelve month periods ending March 31, 2013 and March 31, 2014, respectively. Through the merger with Vringo, Innovate/Protect will have access to the joint companies' cash resources. Alternatively, Innovate/Protect would need to raise capital from investors in a private placement of its securities.

The Hudson Bay Senior Secured Note

Innovate/Protect is obligated under a Senior Secured Note payable to Hudson Bay with an outstanding balance of \$3,200,000 at December 31, 2011 and March 31, 2012. The Senior Secured Note accrues interest at 0.46% per annum and matures on June 22, 2014.

Hudson Bay has the option of requiring Innovate/Protect to redeem up to \$2,000,000 aggregate principal of the Senior Secured Note beginning March 22, 2012. In connection with Innovate/Protect entering into the Merger Agreement, on March 12, 2012, Hudson Bay (for itself and any assignee or other holder of the Note) agreed not to exercise its right of optional redemption until the earlier of (i) any termination of the Merger Agreement pursuant to Section 7.1 thereunder or (ii) the Effective Time; provided, that, if the Merger is consummated, the Note will be amended and restated and Holder may exercise any and all rights and remedies pursuant to such amended and restated note delivered at the Closing of the Merger, including with respect to any optional redemption provisions contained therein. If the Merger is consummated, the amended and restated note will mature on June 22, 2013 and the right of redemption described above will be amended to provide that, from and after the date upon which (i) Vringo and its subsidiaries has more than \$15,000,000 in the aggregate of cash and cash equivalents, Hudson Bay may require Vringo to redeem up to 50% of the outstanding principal amount of the note, (ii) Vringo and its subsidiaries has more than \$20,000,000 in the aggregate of cash and cash equivalents, Hudson Bay may require Vringo to redeem up to 100% of the outstanding principal of the Note, (iii) Vringo and its subsidiaries receives proceeds in excess of \$500,000 in the aggregate from the issuance of any equity or indebtedness, Hudson Bay may require Vringo to redeem the outstanding principal under the note in an amount equal to up to 20% of the proceeds of the issuance of any such equity or indebtedness. In addition, the amended and restated note shall provide that in the event of a change of control, Hudson Bay may require Vringo to redeem all or any portion of the note at a price in cash equal to 125% of the amount redeemed. Innovate/Protect has granted Hudson Bay a security interest in all of its tangible and intangible personal property (including the Lycos Patents) to secure its obligations under the Senior Secured Note.

The Hudson Bay Debt Facility

On June 1, 2012, Hudson Bay committed, subject to the terms and conditions of a commitment letter agreement, that, at any time within 18 months following the closing of the Merger and upon the request of Innovate/Protect, it or, at its election, one or more of its affiliated funds or entities shall provide debt financing to Innovate/Protect in the aggregate principal amount of up to \$6,000,000. Hudson Bay's commitment shall be reduced, on a dollar for dollar basis, by (i) any cash or capital raised by any of the Vringo entities, including, without limitation, through the issuance of any debt, equity and/or securities convertible, exercisable or exchangeable into equity of any of the Vringo entities or the incurrence of indebtedness by any of the Vringo entities and (ii) any cash received by any Vringo entity in connection with the exercise of any of its outstanding warrants. Any such financing provided under such facility will be in the form of senior secured notes at an interest rate of the greater of (i) LIBOR plus 300 basis points and (ii) 8% per annum with a maturity of seven years after issuance. Such obligations will be guaranteed by each of the Vringo entities and secured by a first priority lien on all assets of the Vringo entities. In addition, both Innovate/Protect and the holder of the notes will be able to require redemption of all or any portion of the Notes at any time after 18 months following the consummation of the Merger, subject to an interest make-whole through maturity. In addition to other covenants to be mutually agreed between Innovate/Protect and Hudson Bay, the Vringo entities will not spend cash during any calendar quarter while any notes are outstanding at a rate greater than the amount specified in the capital budget of Vringo and its subsidiaries, prepared on a combined basis, agreed to by Hudson Bay, without the prior written consent of Hudson Bay. Hudson Bay's commitment to provide such facility is subject to (a) the consummation of the Merger without any amendment or modification (unless consented to in writing by Hudson Bay), (b) at the time of any request to provide the facility, the satisfaction of each of the conditions set forth in Section 6.2(f) (Litigation) and 6.2(j) (Patents) of the Merger Agreement, (c) at all times after the consummation of the Merger and prior to the termination of the commitment letter agreement, Vringo using its best efforts to raise capital by issuing equity securities of Vringo and/or securities convertible, exercisable or exchangeable for equity securities of Vringo, (d) the execution by Innovate/Protect and Hudson Bay of all documents necessary for the consummation of the transaction contemplated by the commitment on terms and conditions in all respects acceptable and satisfactory to Innovate/Protect and

Hudson Bay, (e) no Vringo entity shall have, pursuant to or within the meaning of Title 11, U.S. Code, or any similar Federal, foreign or state law for the relief of debtors (collectively, "Bankruptcy Law"), (A) commenced a voluntary case, (B) consented to the entry of an order for relief against it in an involuntary case, (C) consented to the appointment of a receiver, trustee, assignee, liquidator or similar official (a "Custodian"), (D) made a general assignment for the benefit of its creditors or (E) admitted in writing that it is generally unable to pay its debts as they become due, (f) a court of competent jurisdiction not having entered an order or decree under any Bankruptcy Law that (A) is for relief against any Vringo entity in an involuntary case, (B) appoints a Custodian of any Vringo entity or (C) orders the liquidation of any Vringo entity, (g) since the date of execution of the commitment letter agreement, there shall not have occurred a material adverse change or material adverse development in the business, assets, properties, operations, condition (financial or otherwise), results of operations or prospects of any of the Vringo entities, and (h) no Vringo entity shall be, prior to the consummation of the transactions contemplated by the facility, or after giving effect to the consummation of the transactions contemplated by the facility, insolvent. The obligations of Hudson Bay or any of its affiliated funds under the commitment letter agreement will terminate automatically and immediately upon the earlier to occur of (a) the termination of the Merger Agreement pursuant to its terms, (b) any default under or acceleration prior to maturity of any indebtedness of any Vringo entity, (c) the failure of any Vringo entity to satisfy any of the conditions set forth above, (d) any event, which, if occurring prior to the closing of the Merger, would have resulted in the failure of the conditions set forth in Section 6.2(f) (Litigation) and 6.2(j) (Patents) of the Merger Agreement to be satisfied, (e) upon written notice to terminate the commitment letter agreement delivered by Innovate/Protect to Hudson Bay or (f) 18 months after the consummation of the Merger.

Working Capital and Capital Expenditure Needs

As of March 31, 2012, Innovate/Protect had cash of \$3,979,671 and working capital of \$1,153,529. However, changes in operating plans (including, without limitation, changes made necessary by developments in Innovate/Protect's pending litigation), increased expenses, additional intellectual property acquisitions, other events or other strategic alternatives Innovate/Protect may pursue make it very likely that Innovate/Protect will require additional equity or debt financing in the future. There is no assurance that additional financing will be available upon future terms acceptable to Innovate/Protect, or at all.

For the period from inception through March 31, 2012, Innovate/Protect used \$6,165,554 of net cash to fund operating activities and to invest in tangible personal and intangible intellectual property. Despite Innovate/Protect's capital raising activities to date, given the factors noted above, there is no assurance that Innovate/Protect will continue to be able to raise the capital or generate revenue necessary to fund ongoing operations at the current level. As such, absent future capital raises or revenue generation, there remains substantial doubt about Innovate/Protect's ability to continue as a going concern.

Although Innovate/Protect is currently not a party to any agreement or letter of intent with respect to potential investments in, or acquisitions of, intellectual property assets, it is Innovate/Protect's stated plan to pursue these types of arrangements in the future, which could also require Innovate/Protect to seek additional equity or debt financing. Innovate/Protect currently has no plans, proposals or arrangements with respect to any specific acquisition.

Innovate/Protect may raise additional capital in the form of equity or debt. The issuance of additional shares of Innovate/Protect's capital stock:

- may significantly reduce the equity interest of Innovate/Protect stockholders;
- may cause economic dilution to Innovate/Protect stockholders;
- may subordinate the rights of holders of common stock if preferred stock is issued with rights senior to those afforded to the holders of Innovate/Protect common stock; and
- may adversely affect prevailing market prices for Innovate/Protect common stock.

Similarly, if Innovate/Protect incurs substantial debt, it could result in:

- default and foreclosure on Innovate/Protect's assets if its operating cash flow is insufficient to pay Innovate/Protect's debt obligations;

TABLE OF CONTENTS

- acceleration of Innovate/Protect's obligations to repay the indebtedness (including the Senior Secured Note held by Hudson Bay) even if Innovate/Protect has made all principal and interest payments when due if the debt security contains covenants that require the maintenance of certain financial ratios or reserves and any such covenant is breached without a waiver or renegotiation of that covenant;
- Innovate/Protect's immediate payment of all principal and accrued interest, if any, if the debt security is payable on demand;
- covenants that limit the ability to acquire capital assets or make additional acquisitions;
- Innovate/Protect's inability to obtain additional financing, if necessary, if the debt security contains covenants restricting its ability to obtain additional financing while such security is outstanding;
- Innovate/Protect's inability to pay dividends on its common stock;
- using a substantial portion of Innovate/Protect's cash flow to pay principal and interest on its debt, which will reduce the funds available for dividends on Innovate/Protect's common stock, working capital, capital expenditures, acquisitions and other general corporate purposes;
- limitations on Innovate/Protect's flexibility in planning for and reacting to changes in its business and industry;
- increased vulnerability to adverse changes in general economic, industry and competitive conditions and adverse changes in government regulation; and
- limitations on Innovate/Protect's ability to borrow additional amounts for working capital, capital expenditures, acquisitions, debt service requirements, execution of its strategy and other purposes; and other disadvantages compared to Innovate/Protect's competitors who have less debt.

Contractual Obligations

On June 22, 2011, I/P Engine entered into an engagement letter with legal counsel for services concerning the Lycos Patents. I/P Engine has agreed to pay counsel a combination of fixed fees at a discount to prevailing market rates, plus up to twenty percent (20%) of all recoveries, license fees or other value received from certain parties.

In July 2011, Innovate/Protect entered into a license agreement with a non-affiliated third party to lease office space in New York City. The license is for a term of two years and five months and requires monthly payments in the amount of \$2,152. In April 2012, Innovate/Protect entered into a second license agreement with the same non-affiliated third party to lease additional office space in the same location in New York City. The license is for a term of approximately one year and nine months and requires monthly payments in the amount of \$1,450.

A summary of Innovate/Protect's contractual commitments and obligations as of March 31, 2012 is as follows:

	Payments Due by Period			
	Total	Less than 1 year	1 – 3 years	More than 3 years
Long-term debt obligations	\$ 3,200,000	\$ 2,000,000	\$ 1,200,000	\$ 0
Operating lease obligations	79,244	43,224	36,020	\$ 0
Total contractual obligations	\$ 3,279,244	\$ 2,043,224	\$ 1,236,020	\$ 0

Off Balance Sheet Transactions

Innovate/Protect is not party to any off balance sheet transactions. Innovate/Protect has no guarantees or obligations other than those which arise out of normal business operations.

Recently Issued Accounting Pronouncements

In May 2011, the FASB issued new guidance amending the existing pronouncement related to fair value measurement. This new guidance primarily expands the existing disclosure requirements for fair value. Specifically, the new guidance mandates the following additional disclosures: (1) the amount of any transfers between Level 1 and Level 2 of the fair value hierarchy, (2) a quantitative disclosure of the unobservable inputs and assumptions used in the measurement of Level 3 instruments, (3) a qualitative discussion of the sensitivity of the fair value to changes in unobservable inputs and any inter-relationships between those inputs that magnify or mitigate the effect on the measurement of Level 3 instruments and (4) the level within the fair value hierarchy, of items that are not measured at fair value in the statement of financial condition but whose fair value must be disclosed. This new guidance became effective for Innovate/Protect during the interim period beginning January 1, 2012. The adoption does not have any impact on Innovate/Protect's financial position or results of operations.

In June 2011, the FASB issued new guidance amending the existing pronouncement regarding the presentation of comprehensive income. This new guidance reduces the alternatives for the presentation of the components of other comprehensive income. Specifically, it eliminates the alternative of presenting them as part of the Statement of Changes in Shareholders' Equity. This new guidance became effective for Innovate/Protect during the interim period beginning January 1, 2012. Innovate/Protect currently does not have any components of other comprehensive income within its consolidated financial statements thus adoption of this new guidance does not impact Innovate/Protect.

Composition of the Board and Director Independence

The board of directors of Vringo is currently comprised of six directors. Following the completion of the Merger, the combined company is initially expected to have a seven member board of directors, comprised of Seth M. Siegel, as Chairman, Andrew D. Perlman, John Engelman, all of whom are currently members of the Vringo board of directors, and Andrew Kennedy Lang, Alexander R. Berger, Donald E. Stout and H. Van Sinclair, all of whom are currently members of the Innovate/Protect board of directors.

Each of Seth M. Siegel, John Engelman, Donald E. Stout and H. Van Sinclair, the directors of the combined company following the completion of the Merger, will be deemed “independent” in accordance with the standards set by the NYSE Amex as well as Rule 10A-3 promulgated under the Securities Exchange Act of 1934, as amended, or the Exchange Act. Accordingly, the board of directors of the combined company will be comprised of a majority of independent directors as required by the NYSE Amex.

Committees of the Board of Directors

Vringo has established three standing committees: (1) the Audit Committee, (2) the Compensation Committee and (3) the Nominating and Corporate Governance Committee. Each committee operates under a charter that has been approved by the Vringo board of directors, and which is available on Vringo’s website at <http://ir.vringo.com>. It is expected that the following appointment will be made:

Compensation Committee: Messrs. Siegel and Engelman.

Audit Committee: Messrs. Sinclair and Stout.

Nominating and Corporate Governance Committee: Messrs. Siegel and Sinclair.

Compensation Committee

Vringo’s board of directors has established a Compensation Committee.

The Compensation Committee is authorized to:

- review and recommend the compensation arrangements for management, including the compensation for the chief executive officer;
- establish and review general compensation policies with the objective of attracting and retaining superior talent, rewarding individual performance and achieving financial goals;
- administer our stock incentive plans; and
- prepare the report of the Compensation Committee that SEC rules require to be included in the annual meeting proxy statement.

Audit Committee

The Vringo board of directors has established an Audit Committee. The Vringo board of directors has determined that Mr. Sinclair is an “audit committee financial expert” as defined in Item 407(d)(5)(ii) of Regulation S-K.

The Audit Committee is authorized to:

- approve and retain the independent auditors to conduct the annual audit of the books and records;
- review the proposed scope and results of the audit;
- review and pre-approve the independent auditor’s audit and non-audit services rendered;
- approve the audit fees to be paid;
- review accounting and financial controls with the independent auditors and financial and accounting staff;
- review and approve transactions between Vringo and its directors, officers and affiliates;
- recognize and prevent prohibited non-audit services;

TABLE OF CONTENTS

- establish procedures for complaints received by Vringo regarding accounting matters;
- oversee internal audit functions;
- prepare the report of the Audit Committee that SEC rules require to be included in the annual meeting proxy statement.

Nominating and Corporate Governance Committee

The Vringo board of directors has established a Nominating and Corporate Governance Committee.

The Nominating and Corporate Governance Committee is authorized to:

- identify and nominate members of the board of directors;
- oversee the evaluation of the board of directors and management;
- develop and recommend corporate governance guidelines to the board of directors;
- evaluate the performance of the members of the board of directors;
- make recommendations to the board of directors as to the structure, composition and functioning of the board of directors and its committees.

Vringo has no formal policy regarding board diversity. Vringo's Nominating and Corporate Governance Committee and board of directors may therefore consider a broad range of factors relating to the qualifications and background of nominees, which may include diversity, which is not only limited to race, gender or national origin. Vringo's Nominating and Corporate Governance Committee's and board of directors' priority in selecting board members is identification of persons who will further the interests of Vringo's stockholders through his or her established record of professional accomplishment, the ability to contribute positively to the collaborative culture among board members and professional and personal experiences and expertise relevant to Vringo's growth strategy.

Board Leadership Structure, Executive Sessions of Non-Management Directors

Mr. Perlman serves as Vringo's Chief Executive Officer and Mr. Siegel, a non-management director, serves as chairman of Vringo's board of directors. The board of directors has chosen to separate the chief executive officer and chairman positions because it believes that (i) independent oversight of management is an important component of an effective board and (ii) this structure benefits the interests of all stockholders. If the board convenes for a special meeting, the non-management directors will meet in executive session if circumstances warrant. Mr. Siegel will preside over executive sessions of the board of directors. It is expected that the board leadership structure will continue following the consummation of the Merger.

Risk Oversight

The board of directors oversees Vringo's business and considers the risks associated with Vringo's business strategy and decisions. The board currently implements its risk oversight function as a whole. Upon the formation of each of the board committees, the committees will also provide risk oversight and report any material risks to the board.

Code of Ethics

Vringo has adopted a code of ethics that applies to its officers, directors and employees. Vringo has filed with the SEC copies of its code of ethics and its board committee charters as exhibits to its registration statement for its initial public offering. A copy of the code of ethics is accessible on Vringo's website at <http://ir.vringo.com>.

The following is a description of transactions that Vringo entered into with its executive officers, directors or 5% stockholders during the past two years. Vringo believes that all of the transactions described below were made on terms no less favorable to Vringo than could have been obtained from unaffiliated third parties. All future related party transactions will be approved by Vringo's audit committee or a majority of Vringo's independent directors who do not have an interest in the transaction and who will have access, at Vringo's expense, to Vringo's independent legal counsel.

Director Compensation

It is currently expected that the non-employee director compensation will be reviewed by the compensation committee of the board of directors of the combined company following the completion of the Merger and may be subject to change.

In addition to compensation, currently Vringo reimburses each member of its board of directors for reasonable travel and other expenses in connection with attending meetings of the board of directors.

DESCRIPTION OF CAPITAL STOCK

The authorized capital stock of Vringo consists of 28,000,000 shares of common stock, par value \$0.01 per share, and 5,000,000 shares of preferred stock, par value \$0.01 per share. Vringo is seeking stockholder approval pursuant to this proxy statement/prospectus to (i) effect a reverse stock split of Vringo issued and outstanding common stock, pursuant to which any whole number of outstanding shares between and including two and four would be combined and reclassified into one share of Vringo common stock (with the exact reverse stock split ratio within such range to be determined by Vringo prior to the completion of the Merger) and (ii) amend Vringo's Certificate to increase the number of authorized shares of Vringo common stock from 28,000,000 to up to a maximum of 150,000,000 shares (with the exact amount to be determined by Innovate/Protect prior to the completion of the Merger).

Common Stock

As of _____, 2012, the latest practicable date before the printing of this proxy statement/prospectus, there were _____ shares of Vringo common stock outstanding, held of record by _____ stockholders.

The Vringo stockholders are entitled to one vote for each share held on matters submitted to a vote of the stockholders and do not have cumulative voting rights. The Vringo stockholders are entitled to receive proportionately any dividends that may be declared by the Vringo board of directors, subject to any preferential dividend rights of Vringo outstanding preferred stock. Upon Vringo's liquidation, dissolution or winding up, the holders of Vringo's common stock are entitled to receive proportionately Vringo's net assets available after the payment of all debts and other liabilities and subject to the prior rights of any outstanding preferred stock. Holders of Vringo common stock have no preemptive, subscription, redemption or conversion rights. Vringo's outstanding shares of common stock are fully paid and non-assessable. The rights, preferences and privileges of the holders of Vringo common stock are subject to, and may be adversely affected by, the rights of the holders of shares of any series of preferred stock which Vringo has designated and issued or which Vringo may designate and issue in the future.

Preferred Stock

The Vringo board of directors has the authority, without action by the Vringo stockholders, to designate and issue up to 5,000,000 shares of Vringo preferred stock in one or more series and to designate the rights, preferences, and limitations of all such series, any or all of which may be superior to the rights of Vringo common stock. It is not possible to state the actual effect of the issuance of any shares of Vringo preferred stock upon the rights of the holders of Vringo common stock until the Vringo board of directors determines the specific rights of the holders of Vringo preferred stock. However, effects of the issuance of Vringo preferred stock include restricting dividends on Vringo common stock, diluting the voting power of Vringo common stock, impairing the liquidation rights of Vringo common stock, and making it more difficult for a third party to acquire Vringo, which could have the effect of discouraging a third party from acquiring, or deterring a third party from paying a premium to acquire, a majority of Vringo outstanding voting stock. Vringo has no present plans to issue any shares of Vringo preferred stock.

Upon completion of the Merger, each share of then-outstanding Innovate/Protect preferred stock (total 6,673 shares outstanding) (other than shares held by Vringo, Innovate/Protect or any of their respective subsidiaries, which will be cancelled at the completion of the Merger) will be automatically converted into the right to receive the same number of shares of Vringo preferred stock, which 6,673 shares, as of May 25, 2012, shall be initially convertible into an aggregate of 20,136,445 shares of Vringo common stock.

The Vringo preferred stock will have the powers, designations, preferences and other rights as will be set forth in a Certificate of Designations, Preferences and Rights of Series A Convertible Preferred Stock in the form attached to this proxy statement/prospectus as [Annex E](#) which is to be filed by Vringo prior to closing, which rights include, among other things, a liquidation preference of \$6,673,000 and the right to participate in any dividends and distributions paid to common stockholders on an as-converted basis. Vringo may not create a class of capital stock senior or pari passu to the Vringo preferred stock. The Vringo preferred stock shall be initially convertible into an aggregate of 20,136,445 shares of Vringo common stock (subject to a provision that restricts conversion in the event the holder will acquire beneficial ownership of more than 9.99% of

TABLE OF CONTENTS

Vringo common stock after such conversion) but shall be non-voting, except as required by law and in certain defined instances, including a change of control. In addition, except for certain excluded issuances, the conversion price of the Vringo preferred stock shall be subject to full ratchet anti-dilution protection for issuances of equity or equity-linked securities below the initial conversion price (as adjusted for stock splits, stock dividends and similar events) until the date Vringo common stock has traded an aggregate of 100,000,000 shares at above \$3.00 per share (as adjusted for stock splits, stock dividends and similar events). On a change of control, except for a change of control where the holder receives all publicly traded stock, the holder of the Vringo preferred stock will be able to require Vringo to redeem the shares of Vringo preferred stock at the greater of the stated value and the value of the equity underlying the Vringo preferred stock. The Vringo preferred stock also contains a covenant prohibiting Vringo, for a period of 18 months following the closing, from incurring indebtedness senior to the Vringo preferred stock in excess of \$6 million in the aggregate (including the then outstanding principal amount of existing Innovate/Protect indebtedness); provided, that, this covenant shall not apply to indebtedness secured by assets of Vringo acquired after the closing in which the lender expressly subordinates to the holder of the Vringo preferred stock. In addition, in accordance with the terms and conditions of the Merger Agreement, Vringo may not currently incur any indebtedness without the consent of Innovate/Protect. As of May 31, 2012, the indebtedness of Vringo and Innovate/Protect were zero and \$3.2 million, respectively. Therefore, following the consummation of the Merger, Vringo may incur up to \$2.8 million of debt senior to the Vringo preferred stock without violating the provisions of the Vringo preferred stock (in addition to any amounts up to \$6,000,000 that may be drawn down by Innovate/Protect under the Hudson Bay debt facility). The holder of the Vringo preferred stock shall be indemnified against losses due to a buy-in following any failure to timely deliver Vringo common stock upon a conversion failure and Vringo shall pay the holders of the Vringo preferred stock liquidated damages of one-quarter of one percent (0.25%) for each full 15 day period during which Vringo's common stock is suspended from trading or if the Vringo common stock is delisted.

Warrants

As of _____, 2012, the latest practicable date before the printing of this proxy statement/prospectus, there were warrants to purchase _____ of Vringo common stock outstanding at a weighted-average exercise price of \$ _____ per share, including _____ public warrants.

Series 1 and Series 2 Warrants

In connection with the Merger, Vringo will issue to the holders of Innovate/Protect capital stock and the holder of Innovate/Protect's issued and outstanding warrant to purchase 250,000 shares of Innovate/Protect common stock (on a *pro rata* as-converted basis) an aggregate of 15,959,838 warrants to purchase an aggregate of 15,959,838 shares of Vringo common stock with an exercise price of \$1.76 per share, including Series 1 Warrants and Series 2 Warrants to purchase an aggregate of 442,000 and 408,000 shares of Vringo common stock, respectively. In addition, the issued and outstanding warrant to purchase 250,000 shares of Innovate/Protect common stock will be exchanged for 250,000 shares of Vringo common stock and 850,000 warrants to purchase 850,000 shares of Vringo common stock with an exercise price of \$1.76 per share, each subject to equitable adjustment in the event of a reverse stock split. In addition, the aggregate number of shares of Vringo common stock and the aggregate number of warrants (and the aggregate number of shares of Vringo common stock that may be purchased upon exercise thereof) to be issued in exchange for the issued and outstanding warrant of Innovate/Protect shall each be ratably adjusted to give effect to any partial exercise of such warrant prior to the effective time of the Merger.

Each Series 1 Warrant and Series 2 Warrant (collectively, the "**Warrants**") has an exercise price of \$1.76 per share and is exercisable at any time after the date of issuance (the "**Issuance Date**") until the expiration date (the "**Expiration Date**"), which date shall be five years from the Issuance Date, in whole or in part, by paying Vringo cash, check or wire transfer. Notwithstanding, if at any time between the three month anniversary of the Issuance Date and the Expiration Date, there is not an effective registration statement registering the resale of the shares issuable under the Warrants (the "**Warrant Stock**") then the holder may elect to exercise the Warrant, or a portion thereof, and to pay for the Warrant Stock by way of cashless exercise. No holder of either Warrant may exercise such Warrant if such exercise would result in the holder beneficially owning in excess of 4.99% of the number of shares of Vringo common stock outstanding immediately after giving effect to the issuance of shares of common stock upon exercise of the Warrant (the

“Beneficial Ownership Limitation”). The Beneficial Ownership Limitation may be waived by the holder upon not less than 61 days’ prior notice to Vringo to change the beneficial ownership limitation to 9.99%. If the Beneficial Ownership Limitation is increased to 9.99% it may not be further waived. The Warrants are subject to adjustments for stock splits and certain fundamental transactions. The Warrants are not transferable in the absence of (i) an effective registration statement under the Securities Act as to the Warrant or Warrant Stock, and registration or qualification of the Warrant and Warrant Stock under any applicable U.S. federal or state securities law then in effect or (ii) an opinion of counsel, satisfactory to Vringo, that such registration and qualification are not required. Notwithstanding, subject to these requirements, the Warrants are transferrable, in whole or in part, to (i) an entity controlling, controlled by or under common control of the holder, or (ii) to any other proposed transferee by surrendering the Warrant with a properly executed transfer form to the principal office of Vringo. The Warrants are redeemable, at the option of Vringo, at any time after they become exercisable and prior to their expiration, upon notice to Vringo, at the price of \$0.01 per share in the event that (i) the last closing sale price of Vringo common stock has been equal to or greater than \$5.00 per share (subject to adjustments for splits, dividends, recapitalizations and similar events) on each of 20 trading dates within any 30 day trading period ending on the third business day prior to the date on which notice of redemption is given to the holder, and (ii) during each day of the foregoing 20 day trading period and through the date Vringo exercises its redemption rights, it must have an effective registration statement with a current prospectus pursuant to which the underlying Vringo common stock may be sold. The Series 1 Warrant provides that from the Issuance Date through December 31, 2014, in the event Vringo shall issue or sell a warrant to purchase shares of Vringo common stock at an exercise price below \$1.76 per share or which contain terms that, taken as a whole, are more favorable than the terms of the Series 1 Warrant (a **“Superior Warrant”**), as determined in good faith by the Board of Directors of Vringo, in connection with a financing or a material transaction consummated by Vringo, then Vringo shall amend the terms of the Series 1 Warrant to give the holder the benefit of more favorable terms or conditions of the Superior Warrant (excluding the expiration date of the Superior Warrant). All other material terms of the Series 1 Warrant and the Series 2 Warrant are identical. For a complete description of each of the Series 1 Warrant and the Series 2 Warrant, please refer to [Annex F](#) and [Annex G](#), respectively, to this proxy statement/prospectus.

Delaware Statutory Business Combinations Provision

Vringo is subject to the provisions of Section 203 of the DGCL which, subject to certain exceptions, prohibits Vringo from engaging in specified business combinations with any interested stockholder for a period of three years following the time that such stockholder became an interested stockholder, unless the business combination or the transaction in which such stockholder became an interested stockholder is approved in a prescribed manner. Generally, a business combination includes a merger, asset or stock sale, or other transaction resulting in a financial benefit to the interested stockholder. For purposes of Section 203 of the DGCL, an interested stockholder is a person who, together with affiliates and associates, owns, or within three years prior to the determination of interested stockholder status did own, 15% or more of the corporation’s voting stock. The application of Section 203 of the DGCL could have the effect of delaying or preventing a change of control of Vringo.

UNAUDITED PRO FORMA COMBINED FINANCIAL STATEMENTS

The following summary unaudited pro forma combined financial data is intended to show how the Merger might have affected historical financial statements if the Merger had been completed on June 8, 2011, for the purposes of the statements of operations, and March 31, 2012, for the purposes of the balance sheet, and was prepared based on the historical financial position and results of operations reported by Vringo and Innovate/Protect. The following should be read in conjunction with the section entitled “Unaudited Pro Forma Combined Financial Statements” beginning on page [189](#) and the audited historical financial statements of Vringo and Innovate/Protect and the notes thereto beginning on pages [F-1](#) and [F-52](#), respectively, the sections entitled “Vringo’s Management’s Discussion and Analysis of Financial Condition and Results of Operations” beginning on page [130](#) and “Innovate/Protect’s Management’s Discussion and Analysis of Financial Condition and Results of Operations” beginning on page [157](#), and the other information contained in this proxy statement/prospectus. The following information does not give effect to the proposed reverse stock split of Vringo common stock described in Vringo Proposal No. 2.

Accounting Treatment of the Merger

U.S. Generally Accepted Accounting Principles (hereafter — GAAP), require that for each business combination, one of the combining entities shall be identified as the acquirer, and the existence of a controlling financial interest shall be used to identify the acquirer in a business combination. In a business combination effected primarily by exchanging equity interests, the acquirer usually is the entity that issues its equity interests. However, it is sometimes not clear which party is the acquirer. In these situations, the acquirer for accounting purposes may not be the legal acquirer (i.e., the entity that issues its equity interest to effect the business combination).

If a business combination has occurred, but it is not clear which of the combining entities is the acquirer, GAAP requires considering additional factors in making that determination. No hierarchy is provided to explain how to assess factors that influence the identification of the acquirer in a business combination, effectively concluding that no one of the criteria is more significant than any other. However, the more significant the differential in the voting interest of the combining entities, the more difficult it is to conclude that the entity with the largest voting interest is not the acquirer.

Based on the aforementioned, and after taking in consideration all relevant facts and circumstances (which included, among others, the composition of the senior management and the governing body of the combined entity, relative size of the entities prior to the Merger), we came to a conclusion that, in light of the significant differential in the voting interest of the combining entities (both on current holdings basis and on diluted basis), Innovate/Protect is the accounting acquirer, as it is defined in FASB Topic ASC 805 “*Business Combinations*”.

As a result, the Merger will be accounted for as a reverse acquisition. In the post-combination consolidated financial statements, Innovate/Protect’s assets and liabilities will be presented at its pre-combination amounts, and Vringo’s assets and liabilities will be recorded and measured at fair value. In addition, the consolidated equity will reflect Vringo’s common and preferred stock, at par value, as Vringo is the legal acquirer. The total consolidated equity will consist of Innovate/Protect’s equity just before the merger, plus the fair value of assumed assets of Vringo, net, as well as, adjustments to equity caused by the consummation of the Merger, as per the guidance for business combinations in ASC 805.

The unaudited pro forma combined financial statements were prepared in accordance with the regulations of the SEC. The pro forma adjustments reflecting the completion of the Merger are based upon the acquisition method of accounting in accordance with GAAP, and upon the assumptions set forth in the notes to the unaudited pro forma combined financial statements.

The unaudited pro forma combined balance sheet as of March 31, 2012, combines the historical balance sheets of Vringo and Innovate/Protect as of March 31, 2012 and gives pro forma effect to the Merger as if it had been completed on March 31, 2012.

TABLE OF CONTENTS

The unaudited pro forma combined statements of operations for the periods from June 8, 2011 through December 31, 2011 and from March 31, 2012 combine the historical statements of operations of Vringo for the period from June 8, 2011 to December 31, 2011 and from January 1, 2012 to March 31, 2012 and of Innovate/Protect from inception (June 8, 2011) to December 31, 2011 and from January 1, 2012 to March 31, 2012 and gives pro forma effect to the Merger as if it had been completed on June 8, 2011.

The financial data has been adjusted to give pro forma effect to events that are (i) directly attributable to the Merger, (ii) factually supportable, and (iii) with respect to the statements of operations, expected to have a continuing impact on the combined results. The pro forma adjustments are preliminary and based on management's estimates of the fair value and useful lives of the assets acquired and liabilities assumed and have been prepared to illustrate the estimated effect of the acquisition and certain other adjustments.

The unaudited pro forma combined financial statements are presented for illustrative purposes only, and are not necessarily indicative of the financial condition or results of operations of future periods or the financial condition or results of operations that actually would have been realized had the entities been combined during the periods presented. In addition, as explained in more detail in the accompanying notes to the unaudited pro forma combined financial statements (see the section entitled "Unaudited Pro Forma Condensed Combined Financial Statements" beginning on page 189), the preliminary acquisition-date fair value of the identifiable assets acquired and liabilities assumed reflected in the unaudited pro forma combined financial statements is subject to adjustment and may vary from the actual amounts that will be recorded upon completion of the Merger.

Preliminary Purchase Price Allocation:

The Pro Forma Unaudited Consolidated Financial Information reflects the allocation of the preliminarily estimated purchase price of \$66.0 million to the assets acquired and liabilities assumed of Vringo. The fair value of the consideration issued to former shareholders of Innovate/Protect is based on price of Vringo's share of common stock on May 25, 2012, as well as the fair value of other outstanding equity instruments. A preliminary determination of the fair values of certain acquired assets and assumed liabilities of Vringo was based on a \$3.39 share price, as basis for valuation:

As mentioned above, the final fair value of the consideration, as well as certain acquired assets and assumed liabilities, will depend significantly on our future share price, as it is set on Merger consummation date. Consequently, the final fair value of consideration, and as a result, the final purchase price allocation, might significantly differ from the values presented in these consolidated pro forma statements. Possible changes due to fluctuations in our share price are reflected in the following sensitivity table:

This adjustment will be recorded as internal reclassification in additional paid-in capital.
Fair value of outstanding warrants granted by Vringo prior to the Merger, classified as a long term derivative liability, as these warrants bear certain down-round protection clauses	4,106	Originally allocated fair value to warrants classified as a derivative liability will be adjusted at the end of each reporting period.

For these pro forma consolidated statements of operations, we assume that there was no sign of impairment of goodwill, throughout the period presented. In addition, we assume that the purchase price allocated to the fair value of outstanding warrants granted by Vringo prior to the Merger did not change over the presented period.

3. According to GAAP, the consolidated pro forma equity will reflect Vringo's common stock and preferred stock, at par value, as Vringo is the legal acquirer. Shares used to calculate unaudited pro forma basic and diluted loss per share were computed by adding the shares assumed to be issued, to the weighted average number of shares outstanding for the three month period ended March 31, 2012. However, as the combined company generated only losses in the period presented, potentially dilutive securities, comprised mainly of the abovementioned preferred shares, warrants and stock options, were not reflected in pro forma diluted net loss per share, because the effect of conversion of such shares is anti-dilutive.

Total common stock shares outstanding, after the Merger:	<u>30,484,641</u>
Basic and diluted net losses per share of common stock:	<u>(0.26)</u>

4. This adjustment represents direct, incremental costs of this Merger, which were not yet reflected in the historical financial statements of either company. These costs include mainly legal, accounting and filing fees.
5. According to the Merger Agreement, Vringo will grant former Innovate/Protect stockholders 16,809,838 warrants, at an exercise price of \$1.76. 8,741,116 of these warrants bear down-round protection clauses; as a result, they will be classified as a long term derivative liability and recorded at fair value. Fair value, in the total amount of \$21.7 million, was calculated using the Black-Scholes-Merton and the Monte-Carlo models, using the following assumptions: 77.96% expected volatility, a risk-free interest rate of 0.77%, estimated life of 5 years and no dividend yield. The fair value of our common stock, used for this valuation, was \$3.39. We estimate there is a 30% probability that the down-round protection will be activated. Our valuation may significantly change, dependent on the deviation of actual future parameters (primarily our common stock price, that will be known on the date of the Merger), from those taken in our preliminary valuation. In these consolidated pro forma statements of operations we assume that fair value of these warrants did not change throughout the period presented.
6. The Series A Convertible Preferred stock shares, both pre and post-Merger, have certain liquidation preferences, and are otherwise convertible, at any time, at the option of the holder, subject to certain limitations. In addition, their conversion price may be subject to adjustments for anti-dilution and other corporate events. Also, under certain circumstances (as defined in the Certificate of Designations in each of the merging companies), these shares are entitled to participate in dividends, and vote, on an as converted basis.

The 6,818 outstanding Series A Convertible Preferred stock shares, \$0.0001 par value, issued by Innovate/Protect were classified as mezzanine equity, as the holder had the right to require the Company to redeem these shares in cash, upon occurrence of a triggering event which is outside the control of the company. The 6,818 Series A Convertible Preferred stock shares, \$0.01 par value, to be issued by Vringo to former stockholders of Innovate/Protect, as part of this Merger, were classified as equity, as cash based redemption event is only triggered by events fully controlled by the company. As a result, in these pro forma consolidated financial statements, Innovate/Protect's mezzanine equity, in the total amount of \$1,761 thousand, was cancelled, as, according to GAAP, these pro forma consolidated financial statements will only include the 6,818 Series A Convertible Preferred stock, presented at par value.

[TABLE OF CONTENTS](#)

7. According to GAAP, the equity of the combined entity will reflect Vringo's Common and Preferred stock, at par value, as Vringo is the legal acquirer. As a result, the common stock share number will be adjusted to include Vringo's common stock shares, immediately after the merger:

	As of March 31, 2012
Vringo common stock outstanding as of March 31, 2012	13,866,423
Vringo common stock issued to former Innovate/Protect stockholders	18,113,169
Total common stock outstanding, pursuant to the Merger	31,979,592

8. According to GAAP, in the post-combination consolidated financial statements, equity will reflect Innovate/Protect's total equity just before the merger, plus the fair value of assumed assets of Vringo, net, as well as adjustments to equity caused by the consummation of the Merger (notes 4, 5 and 6). Specifically, in these consolidated pro forma financial statements, accumulated deficit will include only Innovate/Protect's historical deficit, in the total amount of \$4,626 thousand, plus adjustments reflected in Note 4. Vringo's historical deficit, in the total amount of \$43,190 thousand, will be cancelled upon consolidation. Finally, an adjustment to additional paid-in capital, in the total amount of \$15,237 thousand was recorded, in order to adjust the total consolidated equity, as per the abovementioned GAAP requirements.

[TABLE OF CONTENTS](#)**Notes to the Unaudited Pro Forma Consolidated Statements of Operations:**

1. This pro-forma adjustment represents additional amortization expense, recorded in connection with amortizable intangible assets acquired in the Merger, assuming the acquisition of Vringo occurred on June 8, 2011:

	Gross carrying amount	Life	Period from June 8, 2011 through December 31, 2011

For these pro forma consolidated statements of operations, we assume that there was no sign of impairment of goodwill, throughout the period presented. In addition, we assume that the purchase price allocated to the fair value of outstanding warrants granted by Vringo prior to the Merger did not change over the presented period.

2. Amortization and depreciation, startup and capital acquisition costs, were reclassified into general and administrative:

3. According to GAAP, the consolidated pro forma equity will reflect Vringo's common stock and preferred stock, at par value, as Vringo is the legal acquirer. Shares used to calculate unaudited pro forma basic and diluted loss per share were computed by adding the shares assumed to be issued, to the weighted average number of shares outstanding for the period from June 8, 2011 through December 31, 2011. However, as the combined company generated only losses in the period presented, potentially dilutive securities, comprised mainly of the abovementioned preferred shares, warrants and stock options, were not reflected in pro forma diluted net loss per share, because the effect of conversion of such shares is anti-dilutive.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)**

Note 1 — General

Vringo, Inc. (a Development Stage Company) (the “Parent”) was incorporated in Delaware on January 9, 2006 and commenced operations during the first quarter of 2006. The Parent formed a wholly-owned subsidiary, Vringo (Israel) Ltd. (the “Subsidiary”) in March 2006, primarily for the purpose of providing research and development services, as detailed in the intercompany service agreement. The Parent and the Subsidiary are collectively referred to herein as the “Company”.

The Company is engaged in developing software platforms and applications for mobile phones. The Company develops and provides a wide variety of mobile video services, including a comprehensive platform that allows users to create, download and share video ringtones. The Company’s proprietary ringtone platform includes social networking capability and integration with web systems.

The Company is still in the development stage. There is no certainty regarding the Company’s ability to complete the development of its products and ensure the success of its marketing. The continuation of the stages of development and the realization of assets related to the planned activities depend on future events, including future financings and achieving operational profitability.

The high-tech industry in which the Company operates is highly competitive and is characterized by the risks of rapidly changing technologies. Penetration into global markets requires investment of considerable resources and continuous development efforts. The Company’s future success depends upon several factors including the technological quality, price and performance of its product relative to those of its competitors.

In June 2010, the Company completed an initial public offering (the “IPO”) of 2,392,000 units, each containing one share of common stock and two warrants, at an issue price of \$4.60 per unit. Each warrant in the IPO unit is exercisable for five years after the IPO at an exercise price of \$5.06. Gross proceeds of the IPO totaled approximately \$11 million, of which the Company received approximately \$9.3 million in net proceeds after deducting underwriting discounts and other offering costs. Immediately prior to the closing of the offering, the Company’s outstanding shares of preferred stock were exchanged for shares of common stock and the Company effected a 1 for 6 reverse stock split of its common stock. The Company issued a stock dividend to holders of the preferred stock prior to the split and exchange. Pursuant to the IPO, all share and per-share information in these consolidated financial statements have been adjusted to give effect to the reverse stock split. On July 27, 2010, the units were separated into their components and the shares and warrants began to trade separately. Upon separation of the units into shares and warrants, the units ceased trading.

In February 2012, the Company entered into agreements with holders (the “Holders”) of certain of its outstanding Special Bridge and Conversion Warrants, pursuant to which the Holders exercised warrants to purchase 3,828,993 shares of our common stock for aggregate proceeds of \$3.65 million (“February 2012 warrant exercise”). In addition, certain Holders were granted additional warrants to purchase 2,660,922 shares of common stock of the Company, at an exercise price of \$1.76 per share. See also Note 3 and 5.

On March 12, 2012, the Company entered into an agreement and Plan of Merger Agreement (“Merger Agreement”), pursuant to which, once the Merger commences, Innovate/Protect, Inc. (“I/P”) will merge with and into VIP Merger Sub, Inc., which will be a wholly owned subsidiary of the Company (“Merger Sub”), with Merger Sub being the surviving corporation through an exchange of capital stock of I/P for capital stock of the Company. The consummation of the Merger Agreement is subject to stockholder approval and other closing conditions. In addition, the Company is exploring further opportunities, including merger and acquisitions and/or additional financing necessary to ensure that the Company will continue to operate as a going concern. There can be no assurance, however, that any such opportunities will materialize. This Merger will be accounted for as a reverse acquisition.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)**

Note 1 — General – (continued)

Despite the foregoing, there is still significant doubt as to the ability of the Company to continue operating as a “going concern”. The Company has incurred significant losses since its inception and expects that it will continue to operate at a net loss in the foreseeable future. For the three month period ended March 31, 2012 and for the cumulative period from inception until March 31, 2012, the Company incurred net losses of \$5.6 million and \$43.2 million, respectively. The Company believes that its current cash levels will be sufficient to support its activity into the first quarter of 2013.

These financial statements were prepared using principles applicable to a going concern, which contemplates the realization of assets and liquidation of liabilities in the normal course of business for the foreseeable future, and do not include any adjustments to reflect the possible effects on the recoverability and classification of assets, or the amounts and classification of liabilities that may result should the Company not be able to continue as a going concern.

As of March 31, 2012, approximately \$521 thousand of the Company’s net assets were located outside of the United States.

Note 2 — Significant Accounting and Reporting Policies

(a) Basis of presentation

The accompanying consolidated financial statements include the accounts of the Parent and the Subsidiary and are presented in accordance with generally accepted accounting principles in the United States of America (“U.S. GAAP”). All significant intercompany balances and transactions have been eliminated in consolidation.

The accompanying unaudited consolidated financial statements were prepared in accordance with U.S. GAAP and instructions to Form 10-Q and, therefore, do not include all disclosures necessary for a complete presentation of financial position, results of operations, and cash flows in conformity with generally accepted accounting principles. Nevertheless, these financial statements should be read in conjunction with the consolidated financial statements and related notes for the year ended December 31, 2011. The results of operations for the three month period ended March 31, 2012, are not necessarily indicative of the results that may be expected for the entire fiscal year or for any other interim period.

(b) Development stage enterprise

The Company’s principal activities to date have been the research and development of its products and the Company has not generated significant revenues from its planned, principal operations. Accordingly, the Company’s financial statements are presented as those of a development stage enterprise.

(c) Translation into U.S. dollars

The currency of the primary economic environment in which the operations of the Company are conducted is the U.S. dollar (“dollar”). Therefore, the dollar has been determined to be the Company’s functional currency.

Transactions in foreign currency (primarily in New Israeli Shekels or “NIS”) are recorded at the exchange rate as of the transaction date. All exchange gains and losses from re-measurement of monetary balance sheet items denominated in non-dollar currencies are reflected as finance expense in the statement of operations, as they arise.

At March 31, 2012, the exchange rate was U.S. \$1 = NIS 3.715 (March 31, 2011 — U.S. \$1 = NIS 3.481). The average exchange rate for the three month period ended March 31, 2012 and 2011, was U.S. \$1 = NIS 3.741 and U.S. \$1 = NIS 3.601, respectively.

Note 2 — Significant Accounting and Reporting Policies – (continued)

(d) Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as at the date of the financial statements and the reported amounts of revenues and expenses during the reported period. Actual results may differ from such estimates. Significant items subject to such estimates and assumptions include the deferred tax assets and liabilities, valuation of warrants, valuation of common stock share-based compensation, income tax uncertainties and other contingencies. The current economic environment has increased the degree of uncertainty inherent in those estimates and assumptions.

(e) Accounts receivables and allowance for doubtful accounts

Trade accounts receivable are recorded at the invoiced amount and do not bear interest. Amounts collected on trade accounts receivable are included in net cash provided by operating activities in the consolidated statements of cash flows. The need for an allowance for doubtful accounts is based on the Company's best estimate of the amount of credit loss in the Company's existing receivables. The need for an allowance is determined on an individual account receivable basis. The Company considers customers' historical payment patterns, general and industry specific economic factors in determining their customers' probability of default. The Company reviews the need for an allowance for doubtful accounts on a monthly basis. From inception through March 31, 2012, neither write-offs, nor provision for doubtful accounts was created. The Company does not have any significant off-balance-sheet credit exposure related to its customers.

(f) Impact of recently implemented accounting standards

In April 2011, the Financial Accounting Standards Board (FASB) issued ASU 2011-04, Fair Value Measurement (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS. This ASU amends current fair value measurement and disclosure guidance to include increased transparency around valuation input and investment categorization. ASU 2011-04 is effective for fiscal years and interim periods beginning after December 15, 2011, with early adoption not permitted. The adoption of ASU 2011-04 in the first quarter of 2012 did not have an impact on the Company's financial position, results of operations, or cash flows.

In June 2011, the FASB issued ASU 2011-05, Comprehensive Income (Topic 220): Presentation of Comprehensive Income. ASU 2011-05 allows an entity to present components of net income and other comprehensive income in one continuous statement, referred to as the statement of comprehensive income, or in two separate, but consecutive statements. ASU 2011-05 eliminates the option to present the components of other comprehensive income as part of the statement of changes in stockholders' equity. In December 2011, the FASB issued ASU 2011-12 Comprehensive Income (Topic 220): Deferral of the Effective Date for Amendments to the Presentation of Reclassifications of Items Out of Accumulated Other Comprehensive Income in Accounting Standards Update No. 2011-05." ASU 2011-12 deferred the effective date of the specific requirement to present items that are reclassified out of accumulated other comprehensive income to net income alongside their respective components of net income and other comprehensive income. While the new guidance changes the presentation of comprehensive income, there are no changes to the components that are recognized in net income or other comprehensive income under current accounting guidance. ASU 2011-05 is effective for fiscal years and interim periods beginning after December 15, 2011 and must be applied retrospectively. The adoption of ASU 2011-05 in the first quarter of 2012 did not have an impact on the Company's financial position, results of operations, or cash flows.

Note 2 — Significant Accounting and Reporting Policies – (continued)

(g) Impact of recently issued accounting standards

In December 2011, the FASB issued ASU 2011-11, Balance Sheet (Topic 210), Disclosures about Offsetting Assets and Liabilities, which require companies to disclose information about financial instruments that have been offset and related arrangements to enable users of their financial statements to understand the effect of those arrangements on their financial position. Companies will be required to provide both net (offset amounts) and gross information in the notes to the financial statements for relevant assets and liabilities that are offset. ASU 2011-11 is effective for fiscal years, and interim periods within those years, beginning on or after January 1, 2013. The Company does not expect the adoption of ASU 2011-11 in the first quarter of 2013 to have an impact on its financial position, results of operations, or cash flows.

(h) Net loss per share data

Basic net loss per share is computed by dividing the net loss for the period by the weighted-average number of shares of common stock outstanding during the period. Diluted net loss per share is computed by dividing the net loss for the period by the weighted-average number of shares of common stock plus dilutive potential common stock considered outstanding during the period. However, as the Company generated net losses in all periods presented, potentially dilutive securities, comprised mainly of warrants and stock options, are not reflected in diluted net loss per share because such shares are anti-dilutive.

The table below presents the computation of basic and diluted net losses per common share:

Note 3 — Fair Value Measurements

The Company measures fair value in accordance with ASC 820-10, “*Fair Value Measurements and Disclosures*” (formerly SFAS 157, “*Fair Value Measurements*”). ASC 820-10 clarifies that fair value is an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. As such, fair value is a market-based measurement that should be determined based on assumptions that market participants would use in pricing an asset or a liability. As a basis for considering such assumptions, ASC 820-10 establishes a three-tier value hierarchy, which prioritizes the inputs used in the valuation methodologies in measuring fair value:

Level 1 Inputs: Unadjusted quoted prices in active markets for identical assets or liabilities accessible to the reporting entity at the measurement date.

Level 2 Inputs: Other than quoted prices included in Level 1 inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the asset or liability.

Level 3 Inputs: Unobservable inputs for the asset or liability used to measure fair value to the extent that observable inputs are not available, thereby allowing for situations in which there is little, if any, market activity for the asset or liability at measurement date. The fair value hierarchy also requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value.

The Company measures its cash equivalents and derivative liabilities at fair value. Cash equivalents are classified within Level 1 because they are valued using quoted active market prices. The Special Bridge Warrants, Conversion Warrants and Preferential Reload Warrants (refer to Note 5) are classified within Level 3 because they are valued using the Black-Scholes-Merton and the Monte-Carlo models (as these warrants include a down-round protection clause), which utilize significant inputs that are unobservable in the market such as the expected stock price volatility and the dividend yield, and the remaining period of time the warrants will be outstanding before they expire.

The following table presents the Company’s assets and liabilities measured at fair value on a recurring basis as of March 31, 2012 and December 31, 2011, aggregated by the level in the fair-value hierarchy within which those measurements fall:

Note 3 — Fair Value Measurements – (continued)

Valuation processes for Level 3 Fair Value Measurements

Fair value measurement of the derivative liability on account of Special Bridge Warrants, Conversion Warrants and Preferential Reload Warrants, which fall within Level 3 of the fair value hierarchy are determined and then reviewed by the Company's accounting department, who reports to the Chief Financial Officer. The fair value measurements are compared to those of the prior reporting periods to ensure that changes are consistent with expectations of management based upon the sensitivity and nature of the inputs.

Description	Valuation Technique	Unobservable Inputs	Range
Special Bridge Warrants, Conversion Warrants and Preferential Reload Warrants	Black-Scholes-Merton and the Monte-Carlo models	Volatility	73.13% – 82.95%
		Risk free interest rate	0.50% – 1.05%
		Expected term, in years	2.75 – 4.86
		Dividend yield	0.0%
		Probability and timing of down-round triggering event	30% in September 2012

Sensitivity of Level 3 measurements to changes in significant unobservable inputs

The inputs to estimate the fair value of the Company's derivative warrant liability are the current market price of the Company's common stock, the exercise price of the warrant, its remaining term, the volatility of the Company's common stock market price, Company's estimations regarding the probability and timing of a down-round protection triggering event and the risk-free interest rate. Significant changes in any of those inputs in the isolation can result in a significant change in the fair value measurement. Generally, a positive change in the market price of the Company's common stock, and an increase in the volatility of the Company's common stock, or an increase in the remaining term of the warrant, or an increase of a probability of a down-round triggering event would result in a directionally similar change in the estimated fair value of the Company's Special Bridge Warrants, Conversion Warrants and Preferential Reload Warrants and thus an increase in the associated liability. An increase in the risk-free interest rate or a decrease in the positive differential between the warrant's exercise price and the market price of the Company's common stock would result in a decrease in the estimated fair value measurement of the Special Bridge Warrants, Conversion Warrants and Preferential Reload Warrants and thus a decrease in the associated liability. The Company has not, nor plans to, declare dividends on its common stock, and thus, there is no directionally similar change in the estimated fair value of the warrants due to the dividend assumption.

Note 4 — Accrued Severance Pay

Under Israeli law, the Subsidiary is required to make severance payments to dismissed employees, and employees leaving employment in certain other circumstances. All of the Subsidiary's employees signed agreements with the Subsidiary, limiting the Subsidiary's severance liability to actual deposits in the insurance policies, as per Section 14 of the Severance Payment Law of 1963.

In March 2012, the Company signed a separation agreement with its former CEO, Jonathan Medved. According to the terms of the separation agreement and consistent with Mr. Medved's employment agreement and amendment hereto, Mr. Medved will be entitled to receive salary and benefits during a ninety day notice period and a nine month severance period, until February 2013, and continue to vest stock options after his termination (refer also to Note 5). As a result, the accrued severance pay provision was recorded as a short-term liability. There are no statutory or agreed-upon severance arrangements with U.S. employees, other than with the current CEO, should there be a merger subsequent to the Merger with I/P.

Stock Options

In January 2012, the Company's Board of Directors (the "Board") approved a one year acceleration of option vesting for all option holders, except for the Company's new Chief Executive Officer (CEO) who will obtain 50% acceleration on all his unvested options, should the Company be subject to a change of control in a merger and/or acquisition transaction. In addition, in March 2012, the Board approved participation of all outstanding options, as of the consummation of the Merger with I/P, except for grants pursuant to separation arrangements, in future dividends, if any, as well as the acceleration of vesting of certain outstanding options, according to the following market conditions: should the target of a \$5.00 price or \$250 million market cap be reached for twenty of thirty consecutive trading days, a 50% acceleration of all granted would occur; should the target of a \$10.00 price or \$500 million market cap be reached for twenty of thirty consecutive trading days, a 75% acceleration of all granted would occur would occur; should the target of a \$20.00 price or \$1,000 million market cap be reached for twenty of thirty consecutive trading days, a 100% acceleration of all granted would occur would occur. In addition, upon a subsequent change of control, defined as a more than 50% change in shareholder ownership excluding the transaction with I/P, 75% of the then unvested options held by each grantee shall automatically vest. Moreover, all outstanding options granted to members of the Board shall fully vest if a Board member ceases to be a director at any time during the six-month period immediately following a change of control. As of March 31, 2012, the Company expects to account for no dividend payouts, acceleration of vesting triggered by the Merger with I/P will be accounted for upon the consummation of the Merger; moreover, as of the date the abovementioned market conditions were introduced, the Company estimated that the effect of acceleration under the new terms to be immaterial, due to low probability of occurrence.

In January and February 2012, the Board approved the granting of 81,300 fully vested options to management and consultants at an exercise price of \$0.01 per share.

In January 2012, the Board also approved the granting of 604,500 options at an exercise price of \$0.96 to the Company's management, employees and consultants. These options will vest over four years (according to the applicable schedule of each optionee).

In February 2012, Board also approved the granting of 130,000 options at an exercise price of \$1.21 to the Company's management. These options will vest over four years.

In March 2012, the Board approved the granting of 1,700,000 options to Board members and management (including 100,000 options granted to its former CEO) at an exercise price of \$1.65 per share. These options will vest quarterly over three years.

During the three month period ended March 31, 2012 and 2011, 124 thousand and 189 thousand stock options were forfeited and 27 thousand and 0 stock options were exercised, respectively.

For the three month period ended March 31, 2012 and 2011 the Company recorded compensation expense of \$864 thousand and \$431 thousand, respectively. Cumulative from inception the Company has recorded compensation expense of \$3,887 thousand, in respect of stock options granted.

As of March 31, 2012, there was approximately \$2.8 million of total unrecognized share-based payment cost related to non-vested share-based compensation arrangements granted under the incentive plans. That cost is expected to be recognized over an estimated 3 years period. As of March 31, 2012, there were approximately 9.1 million shares of common stock available for grant under the Stock Option Plan.

Warrants Exercise and New Issuance

Between February 6 and February 14, 2012, the Company entered into agreements with Holders, pursuant to which the Holders exercised 2,274,235 Special Bridge and 1,554,758 Conversion Warrants to purchase an aggregate of 3,828,993 shares of our common stock for aggregate proceeds of \$3.65 million. In addition, the Company issued new warrants to purchase an aggregate of 2,660,922 shares of common stock at an exercise price of \$1.76 per share, in consideration for the immediate exercise of the warrants ("Reload Warrants"). 1,392,972 of the Reload Warrants bear down-round protection clauses; as a result, they were classified as a long term derivative liability and recorded at fair value ("Preferential Reload Warrants"). Fair value of the Preferential Reload Warrants, in the total amount of \$1,476 thousand was calculated using the Black-Scholes-Merton and the Monte-Carlo models, using the following assumptions: 72.89% expected volatility, a risk-free interest rate of 0.79%, estimated life of 5 years and no dividend yield. The fair value of the common stock was \$1.76. The Company estimated there is a 30% probability that down-round protection will be activated in September 2012. The remaining 1,268,950 non-Preferential Reload Warrants were recorded as equity. The transaction was accounted for as an inducement to convert convertible debt, due to the fact that the exercised Special Bridge and Conversion Warrants were recorded as a derivative long-term liability. According to ASC 470-20-40-16, the Company recorded additional non-operating expense, in the total amount of \$2,567 thousand, equal to the fair value of both the Preferential and the non-Preferential Reload Warrants on the date of the induced exercise of the above mentioned Special Bridge and Conversion Warrants.

Note 7 — Risks and Uncertainties

The Company maintains its cash and cash equivalents with various major financial institutions. These major financial institutions are located in Israel and the United States, and the Company's policy is designed to limit exposure to any one institution. With respect to accounts receivable, the Company is subject to a concentration of credit risk, as a majority of its outstanding trade receivables relate to sales to a limited number of customers.

- (d) The Company's Facetones™ application creates an automated video slideshow using friends' photos from social media web sites, primarily from Facebook®, the world's leading social media site. In the event Facebook® prohibits or restricts the ability of the Company's application to access photos on its site, the Company's revenue from this application and projected growth could be harmed.

Note 7 — Risks and Uncertainties – (continued)

- (e) A significant portion of the Company's expenses are denominated in NIS. The Company expects this level of NIS expenses to continue for the foreseeable future. If the value of the U.S. dollar weakens against the value of NIS, there will be a negative impact on the Company's operating costs. In addition, to the extent the Company holds monetary assets and liabilities that are denominated in currencies other than the U.S. dollar, the Company will be subject to the risk of exchange rate fluctuations.
- (f) The wireless industry in which the Company conducts its business is characterized by rapid technological changes, frequent new product innovations, changes in customer requirements and expectations and evolving industry standards.

Note 8 — Subsequent Events

The NYSE Amex's conclusion was based on a review of available information with respect to the Company, including its filings with the Securities and Exchange Commission. The Company's continued listing eligibility will be assessed on an ongoing basis.
- (b) On April 6, 2012, the Company filed a Form S-4 Registration Statement with the Securities Exchange Commission regarding the proposed Merger with I/P, and is currently addressing comments received from the Securities Exchange Commission regarding this Registration Statement.

Report of Independent Registered Public Accounting Firm

**The Board of Directors and Stockholders
Vringo, Inc. (a Development Stage Company):**

We have audited the accompanying consolidated balance sheets of Vringo, Inc. (a Development Stage Company) and Subsidiary (collectively “the Company”) as of December 31, 2011 and 2010 and the related consolidated statements of operations, changes in stockholders’ equity (deficit) and cash flows for each of the years in the two-year period ended December 31, 2011, and for the cumulative period from January 9, 2006 (inception of operations) through December 31, 2011. These consolidated financial statements are the responsibility of the Company’s management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by the management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Vringo, Inc. (a Development Stage Company) and Subsidiary as of December 31, 2011 and 2010 and the results of their operations and their cash flows for each of the years in the two-year period ended December 31, 2011, and for the cumulative period from January 9, 2006 (inception of operations) through December 31, 2011, in conformity with U.S. generally accepted accounting principles.

The accompanying consolidated financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 1 to the consolidated financial statements, the Company has suffered recurring losses from operations and has a deficit in stockholders’ equity that raise substantial doubt about its ability to continue as a going concern. Management’s plans in regard to these matters are described in Note 1. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Vringo, Inc. and Subsidiary
(a Development Stage Company)

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 1 — General

Vringo, Inc. (a Development Stage Company) (the “Parent”) was incorporated in Delaware on January 9, 2006 and commenced operations during the first quarter of 2006. The Parent formed a wholly-owned subsidiary, Vringo (Israel) Ltd. (the “Subsidiary”) in March 2006, primarily for the purpose of providing research and development services, as detailed in the intercompany service agreement. The Parent and the Subsidiary are collectively referred to herein as the “Company”.

The Company is engaged in developing software platforms and applications for mobile phones. The Company develops and provides a wide variety of mobile video services, including a comprehensive platform that allows users to create, download and share video ringtones. The Company’s proprietary ringtone platform includes social networking capability and integration with web systems.

The Company is still in the development stage. There is no certainty regarding the Company’s ability to complete the development of its products and ensure the success of its marketing. The continuation of the stages of development and the realization of assets related to the planned activities depend on future events, including future financings and achieving operational profitability.

The high-tech industry in which the Company operates is highly competitive and is characterized by the risks of rapidly changing technologies. Penetration into global markets requires investment of considerable resources and continuous development efforts. The Company’s future success depends upon several factors including the technological quality, price and performance of its product relative to those of its competitors.

In June 2010, the Company completed an initial public offering (the “IPO”) of 2,392,000 units, each containing one share of common stock and two warrants, at an issue price of \$4.60 per unit. Each warrant in the IPO unit is exercisable for five years after the IPO at an exercise price of \$5.06. Gross proceeds of the IPO totaled approximately \$11 million, of which the Company received approximately \$9.3 million in net proceeds after deducting underwriting discounts and other offering costs. Immediately prior to the closing of the offering, the Company’s outstanding shares of preferred stock were exchanged for shares of common stock and the Company effected a 1 for 6 reverse stock split of its common stock. The Company issued a stock dividend to holders of the preferred stock prior to the split and exchange. All share and per-share information in these consolidated financial statements have been adjusted to give effect to the reverse stock split. On July 27, 2010, the units were separated into their components and the shares and warrants began to trade separately. Upon separation of the units into shares and warrants, the units ceased trading.

Despite the foregoing, there is still significant doubt as to the ability of the Company to continue operating as a “going concern”. The Company has incurred significant losses since its inception and expects that it will continue to operate at a net loss in the foreseeable future. For the year ended December 31, 2011 and for the cumulative period from inception until December 31, 2011, the Company incurred net losses of \$7.5 million and \$37.4 million, respectively.

In July 2011, the Company raised an aggregate amount of \$2.5 million through the issuance of convertible notes (“Convertible Notes”) in a private placement. On December 1, 2011, the Company raised additional \$0.85 million through the issuance of 817,303 additional shares of common stock (“December 2011 financing”). In connection with the December 2011 financing, all Convertible Notes (and accrued interest) were converted into 2,671,026 shares of common stock. In February 2012, the Company entered into agreements with holders (the “Holders”) of certain of its outstanding Special Bridge and Conversion Warrants, pursuant to which the Holders exercised warrants to purchase 3,828,993 shares of our common stock for aggregate proceeds of \$3.6 million (“February 2012 warrant exercise”). In addition, certain Holders were granted additional warrants to purchase 2,660,922 shares of common stock of the Company, at an exercise price of \$1.76 per share. The total issuance costs were \$65 thousand. See also Note 17.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 1 — General – (continued)

The Company believes that following the February 2012 warrant exercise, its current cash levels will be sufficient to support its activity into the fourth quarter of 2012. On March 12, 2012, the Company entered into an agreement and Plan of Merger Agreement (“Merger Agreement”), pursuant to which Innovate/Protect, Inc. (“I/P”) will merge with and into VIP Merger Sub, Inc., a wholly owned subsidiary of the Company (“Merger Sub”), with Merger Sub being the surviving corporation through an exchange of capital stock of I/P for capital stock of the Company. The consummation of the Merger Agreement is subject to stockholder approval and other closing conditions. In addition, the Company is exploring further opportunities, including merger and acquisitions and/or additional financing necessary to ensure that the Company will continue to operate as a going concern. There can be no assurance, however, that any such opportunities will materialize. See description in Note 17.

These financial statements were prepared using principles applicable to a going concern, which contemplates the realization of assets and liquidation of liabilities in the normal course of business for the foreseeable future, and do not include any adjustments to reflect the possible effects on the recoverability and classification of assets, or the amounts and classification of liabilities that may result should the Company not be able to continue as a going concern.

As of December 31, 2011, approximately \$303 thousand of the Company’s net assets were located outside of the United States.

Note 2 — Significant Accounting and Reporting Policies

(a) Basis of presentation and principles of consolidation

The accompanying consolidated financial statements include the accounts of the Parent and the Subsidiary and are presented in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”). All significant intercompany balances and transactions have been eliminated in consolidation.

(b) Development stage enterprise

The Company’s principal activities to date have been the research and development of its products and the Company has not generated significant revenues from its planned, principal operations. Accordingly, the Company’s financial statements are presented as those of a development stage enterprise.

(c) Translation into U.S. dollars

The currency of the primary economic environment in which the operations of the Company are conducted is the U.S. dollar (“dollar” or “\$”). Therefore, the dollar has been determined to be the Company’s functional currency. Transactions in foreign currency (primarily in New Israeli Shekels “NIS”) are recorded at the exchange rate as of the transaction date. All exchange gains and losses from remeasurement of monetary balance sheet items denominated in non-dollar currencies are reflected as finance expense in the statement of operations, as they arise. At December 31, 2011, the exchange rate was \$1 = NIS 3.821 (December 31, 2010 — \$1 = NIS 3.549). The average exchange rate for the year ended December 31, 2011 was \$1 = 3.578 NIS (December 31, 2010 — \$1 = NIS 3.733).

(d) Use of estimates

The preparation of consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results may differ from such estimates. Significant items subject to such estimates and assumptions include timing and realization of deferred tax assets and liabilities, allowances for doubtful accounts, valuation of convertible preferred and common stock, warrants and

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 2 — Significant Accounting and Reporting Policies – (continued)

derivative instruments, share-based payments, warrants, income tax uncertainties and other contingencies. The current economic environment has increased the degree of uncertainty inherent in those estimates and assumptions.

(e) Cash and cash equivalents

For the purpose of these financial statements, all highly liquid investments with original maturities of three months or less are considered cash equivalents.

(f) Accounts receivables and allowance for doubtful accounts

Trade accounts receivable are recorded at the invoiced amount and do not bear interest. Amounts collected on trade accounts receivable are included in net cash provided by operating activities in the consolidated statements of cash flows. The need for an allowance for doubtful accounts is based on the Company's best estimate of the amount of credit loss in the Company's existing receivables. The need for an allowance is determined on an individual account receivable basis. The Company considers customers' historical payment patterns, general and industry specific economic factors in determining their customers' probability of default. The Company reviews the need for an allowance for doubtful accounts on a monthly basis. From inception through December 31, 2011 neither write-offs, nor provision for doubtful accounts for was created. The Company does not have any significant off-balance-sheet credit exposure related to its customers.

(g) Derivative instruments

The Company recognizes all derivative instruments as either assets or liabilities in the balance sheet at their respective fair values. The Company's derivative instruments include a Special Bridge Warrant and a Conversion Warrant which have been recorded as a liability, at fair value, and are revalued at each reporting date, with changes in the fair value of the instruments included in the statement of operations as non-operating income or expense.

(h) Property and equipment

Property and equipment is stated at historical cost, net of accumulated depreciation. Depreciation is calculated according to the straight-line method over the estimated useful lives of the assets. Annual depreciation rates are as follows:

	%
Office furniture and equipment	7 – 33
Computers and related equipment	33

Leasehold improvements are amortized over the shorter of the useful life of the asset or the term of the lease.

(i) Revenue recognition

Revenue from subscription services and software development and licenses is recognized if collection of the relevant receivable is probable, persuasive evidence of an arrangement exists, the sales price is fixed or determinable and delivery of the service has been rendered. Revenues from non-refundable up-front fees are recognized according to the guidance in SAB Topic 13.A.3.f. As these up-front fees relate to the hosting of the service over a period of the contract, the Company recognizes these up-front fees over the life time of the contract. According to ASU 2009-13, Revenue Recognition (Topic 605), which was early-adopted by the Company in 2009, the Company uses management's best estimate of selling price for individual elements in multiple-element arrangements, where other sources of evidence are unavailable.

**Vringo, Inc. and Subsidiary
(a Development Stage Company)**

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 2 — Significant Accounting and Reporting Policies – (continued)

(j) Cost of revenue

Cost of revenue consists primarily of direct costs that the Company pays to third parties in order to operate its products in launched markets. These expenses include the costs associated with production servers serving the end-users, royalty fees for content sales, amortization of prepaid content licenses.

(k) Research and development

Research and development expenses are expensed as incurred and consist primarily of payroll and facilities charges associated with the research, development and integration of our current and future products.

(l) Advertising and Promotional costs

We expense advertising and promotional costs in the period in which they are incurred. For the years ended December 31, 2011, 2010, and cumulative from inception till December 31, 2011, advertising and promotional expenses totaled approximately \$271 thousand, \$141 thousand, and \$923 thousand, respectively.

(m) Accounting for share-based payments

Share-based payment is recognized as an expense in the financial statements and such cost is measured at the grant-date fair value of the equity-settled award. The expense is recognized using the straight-line method, over the requisite service period, and is reduced for estimated forfeitures.

(n) Income taxes

Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. A valuation allowance is provided for the amount of deferred tax assets that, based on available evidence, are not more likely than not to be realized.

In assessing the need for a valuation allowance, the Company looks at cumulative losses in recent years, estimates of future taxable earnings, feasibility of on-going tax planning strategies, the realizability of tax benefit carryforwards, and other relevant information. Valuation allowances related to deferred tax assets can be impacted by changes to tax laws, changes to statutory tax rates and future taxable earnings. Ultimately, the actual tax benefits to be realized will be based upon future taxable earnings levels, which are very difficult to predict. In the event that actual results differ from these estimates in future periods, the Company will be required to adjust the valuation allowance.

Significant judgment is required in evaluating the Company's federal, state and foreign tax positions and in the determination of its tax provision. Despite management's belief that the Company's liability for unrecognized tax benefits is adequate, it is often difficult to predict the final outcome or the timing of the resolution of any particular tax matters. The Company may adjust these accruals as relevant circumstances evolve, such as guidance from the relevant tax authority, its tax advisors, or resolution of issues in the courts. The Company's tax expense includes the impact of accrual provisions and changes to accruals that it considers appropriate, as well as related interest and penalties. These adjustments are recognized as a component of income tax expense entirely in the period in which they are identified.

Vringo, Inc. and Subsidiary
(a Development Stage Company)

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 2 — Significant Accounting and Reporting Policies – (continued)

The Company accounts for its income tax uncertainties in accordance with ASC Subtopic 740-10 which clarifies the accounting for uncertainties in income taxes recognized in a company's financial statements and prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. Interest and penalties related to unrecognized tax benefits are recognized as a component of income tax expense.

(o) Reverse stock split

On June 21, 2010, immediately prior to the closing of the IPO, the Company's outstanding shares of preferred stock were exchanged for shares of common stock and the Company effected a 1 for 6 reverse stock split of its common stock. The Company issued a stock dividend to holders of the preferred stock prior to the split and exchange. All share and per share amounts retroactively reflect the reverse stock split, unless otherwise indicated.

(p) Net loss per share data

Basic net loss per share is computed by dividing the net loss for the period by the weighted-average number of shares of common stock outstanding during the period. Diluted net loss per share is computed by dividing the net loss for the period by the weighted-average number of shares of common stock plus dilutive potential common stock considered outstanding during the period. However, as the Company generated net losses in all periods presented, potentially dilutive securities, comprised mainly of warrants and stock options, are not reflected in diluted net loss per share because the effect of such shares is anti-dilutive.

The table below presents the computation of basic and diluted net losses per common share:

	Year ended December 31,		Cumulative from inception to December 31, 2011
	2011	2010	2011
	(in thousands, except share and per share data)		
Numerator:			
Net loss attributable to common stock shares (basic and diluted)	(7,479)	(9,942)	(37,546)
Denominator:			
Weighted average number of common stock shares outstanding during the period (basic and diluted)	6,241,048	2,958,568	1,797,582
Weighted average number of penny stock options and warrants (basic and diluted)	131,611	195,921	55,495
Basic and diluted shares of common stock outstanding	6,372,659	3,154,489	1,853,077
Basic and diluted net losses per share of common stock	(1.17)	(3.15)	(20.26)

(q) Long lived assets

Long-lived assets, such as property and equipment, and purchased intangible assets subject to amortization, are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. If circumstances require a long-lived asset or asset group be tested for possible impairment, the Company first compares undiscounted cash flows expected to be generated by that asset or asset group to its carrying value. If the carrying value of the long-lived asset or asset group is not recoverable on an undiscounted cash flow basis, impairment is recognized to the extent that

**Vringo, Inc. and Subsidiary
(a Development Stage Company)**

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 2 — Significant Accounting and Reporting Policies – (continued)

the carrying value exceeds its fair value. Fair value is to be determined through various valuation techniques including discounted cash flow models, quoted market values and third-party independent appraisals, as considered necessary.

(r) Commitments and Contingencies

Liabilities for loss contingencies arising from assessments, estimates or other sources are to be recorded when it is probable that a liability has been incurred and the amount can be reasonably estimated.

(s) Fair value measurements

The Company measures fair value in accordance with ASC 820-10, “Fair Value Measurements and Disclosures” (formerly SFAS 157, “Fair Value Measurements”). ASC 820-10 clarifies that fair value is an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. As such, fair value is a market-based measurement that should be determined based on assumptions that market participants would use in pricing an asset or a liability. As a basis for considering such assumptions, ASC 820-10 establishes a three-tier value hierarchy, which prioritizes the inputs used in the valuation methodologies in measuring fair value:

Level 1 — Unadjusted quoted prices in active markets for identical assets or liabilities accessible to the reporting entity at the measurement date.

Level 2 — Other than quoted prices included in Level 1 inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the asset or liability.

Level 3 — Unobservable inputs for the asset or liability used to measure fair value to the extent that observable inputs are not available, thereby allowing for situations in which there is little, if any, market activity for the asset or liability at measurement date.

The fair value hierarchy also requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value.

(t) Recently issued and adopted accounting standards

In December 2011, the FASB issued ASU No. 2011-11, Balance Sheet (Topic 210): Disclosures about Offsetting Assets and Liabilities. ASU 2011-11 requires an entity to disclose information about offsetting and related arrangements to enable users of financial statements to understand the effect of those arrangements on its financial position, and to allow investors to better compare financial statements prepared under U.S. GAAP with financial statements prepared under International Financial Reporting Standards (IFRS). The new standards are effective for annual periods beginning January 1, 2013, and interim periods within those annual periods. Retrospective application is required. The Company will implement the provisions of ASU 2011-11 as of January 1, 2013. The impact on our financial statements is believed to be immaterial.

(u) Reclassification

Certain balances have been reclassified to conform to current year presentation.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 7 — Accrued Severance Pay – (continued)

The recorded severance liability represents special contractual amounts to be paid to our former Chief Executive Officer, upon termination of his respective employment agreement (see Note 17 for subsequent events). There are no statutory or agreed-upon severance arrangements with U.S. employees. Severance pay expense, net, for the current year amounted to \$56 thousand (2010 — \$168 thousand, cumulative from inception — \$1,040 thousand).

Note 8 — Venture Loan

On September 24, 2008, the Company drew-down on a venture loan in the total amount of \$5 million. As a result of the draw-down, the Company issued to the lenders warrants to purchase 152,602 shares of series B convertible preferred stock.

On December 29, 2009, the Company entered into a Loan Modification Agreement (the “LMA”) with the lenders of the venture loan pursuant to which principal payments were deferred until the consummation of the IPO. The new facility bore an interest rate of 9.5% per annum with an effective interest rate of 18%. In connection with the LMA, the original warrants previously issued to the lenders were terminated and the Company issued the lenders new warrants (“Senior Lenders Warrants”) to purchase 250,000 shares of common stock, at an exercise price of \$2.75 per share. In exchange, the lenders granted the Company a six month moratorium on principal payments for the venture loan and extended the repayment period for one year until March 2013. After the principal moratorium, under the modified bank repayment terms, the principal and interest were repaid in monthly payments of \$142 thousand each.

The Senior Lender Warrants were exercisable at any time before the tenth anniversary of the date they were issued. On the date of the LMA, the loan was recorded at fair market value of \$3.70 million, the warrants were recorded at \$500 thousand, representing the difference between the fair market value of the new warrants and the fair market value of the previously issued warrants, and the difference between the carrying value of the loan and the fair market value of the loan and the warrants resulted in a loss on the extinguishment of debt in the amount of \$180 thousand. The fair value of the loan was assessed using an interest rate of 12%, which represented market conditions for a similar loan.

On June 8, 2011, the Company entered into a Settlement Agreement (the “Settlement Agreement”) with the lenders of the venture loan (the “Lenders”), pursuant to which the Lenders agreed to accept less than the full amount owed to them by the Company. As part of the Settlement Agreement, the Company immediately repaid \$331 thousand, and placed an additional \$1.051 million as collateral into a restricted account. In addition, the Company issued the Lenders 250,000 shares of its common stock, in exchange for the Senior Lender Warrants, which were cancelled. In July 2011, the Company repaid the outstanding \$1.051 million balance of its venture loan, using the funds set aside in the restricted account. The difference between the fair market value of the shares of common stock issued and the fair market value of the cancelled Senior Lender Warrants, amounting to \$213 thousand, was recorded in the statement of stockholders’ equity (deficit). In addition, the difference between the carrying value of the loan and the total sum of future payments on the loan, including the above mentioned \$213 thousand, net of legal fees, resulted in a gain on restructuring of debt, in the total amount of \$963 thousand, recorded in the statements of operations. Basic and diluted per share gain on restructuring of venture loan for the year ended December 31, 2011 is \$0.15 (cumulative — \$0.52).

Note 9 — Convertible Notes

In July, 2011, the Company entered into agreements (“Securities Purchase Agreements”) with selected accredited investors (the “Purchasers”) to sell and issue Convertible Notes in the aggregate amount of \$2.5 million. The Convertible Notes were to mature on January 1, 2012 (the “Maturity Date”) unless earlier converted, and bear interest at a rate of 1.25% per annum. Interest on the Convertible Notes is due on the Maturity Date unless earlier converted. The Company’s obligations under the Convertible Notes were secured by a security interest in all of the Company’s assets, including a pledge over the shares of its wholly-owned subsidiary, pursuant to the Security Purchase Agreements.

The Convertible Notes were convertible into shares of common stock at a conversion price equal to the lower of (i) the closing price of the Company’s common stock on the announcement date of the note offering, (ii) the closing price of the Company’s common stock on the closing date of the note offering and (iii) a ten percent (10%) discount to the price at which the securities are sold in the new stock offering. Consummation of a future stock offering, would automatically trigger conversion of the Convertible Notes and any accrued interest into the same securities and contain the same terms (other than the conversion price, which is set forth above) as in the subsequent stock offering.

On December 1, 2011, the Company raised an additional \$0.85 million through the issuance of 817,303 additional shares of common stock in a private placement. Pursuant to the December 2011 financing, all Convertible Notes (and accrued interest) were converted into 2,671,026 shares of common stock. The conversion of the Convertible Notes triggered anti-dilution provisions in certain of our outstanding warrants (see Note 11).

As of the date of the issuance of the Convertible Notes, an amount of \$89 thousand was initially allocated to additional paid-in capital in respect of the beneficial conversion feature, with a corresponding discount to the Convertible Notes, to be amortized as interest expense over the repayment period of the Convertible Notes. The December 2011 financing determined the actual conversion price at \$0.94. As a result the amount allocated to discount and the beneficial conversion feature was adjusted to \$1,269 thousand. The discount was fully amortized to interest expense at conversion; as a result, \$1,269 thousand was recorded in the statement of operations, as interest expense.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 10 — Fair Value Measurements

The Company measures its cash equivalents, Special Bridge Warrants and Conversion Warrants at fair value. Cash equivalents are classified within Level 1 because they are valued using quoted active market prices. The Special Bridge Warrants and Conversion Warrants are classified within Level 3 because they are valued using the Black-Scholes-Merton and the Monte-Carlo models (as these warrants include a down-round protection clause, see Note 11) which utilize significant inputs that are unobservable in the market such as the expected stock price volatility, dividend yield, probability and timing of the down-round being triggered and the remaining period of time the warrants will be outstanding before they expire.

The following table presents the placement in the fair value hierarchy of assets and liabilities that are measured at fair value on a recurring basis as of December 31, 2011 and 2010:

The following assumptions were used: an expected life of 4 – 4.25 years, a risk-free interest rate of 1.44% – 1.55% and an expected volatility of 52.21% – 47.89% and no dividend yield. The fair value of the common stock used for this calculation was \$1.68.

The fair value of options, granted in 2011, to employees and directors at an exercise price of \$5.50 was calculated using the Lattice model, which takes into consideration the share price at the date of grant, the exercise price of the option, the expected life of the option, risk free interest rates, expected dividend, and the expected volatility. The Company uses the Lattice option pricing model for the valuation of options to employees and directors that are not plain vanilla. The following assumptions were used: an expected life of 5.2 – 6 years, a risk-free interest rate of 2.11% – 2.83% and an expected volatility of 56.11% – 64.3% and no dividend yield. The fair value of the common stock used for this calculation was \$2.49 – \$2.62. The fair value of options to non-employees is calculated using the following assumptions: expected life of 3 – 5.5 years, a risk free interest rate of 0.71% – 2.64% and an expected volatility of 46% – 64% and no dividend yield.

In January and February 2012 the Board of Directors approved the granting of 70,000, fully vested options to management and consultants at an exercise price of \$0.01 per share. The fair value of the common stock used for this calculation was \$0.96 – \$1.21 and no dividend yield. The Company expects that the total value of the options granted will be approximately \$467 thousand.

(f) Warrants

Conversion Warrants, Special Bridge Warrants and Reload Warrants

On December 29, 2009, the Company consummated a Bridge Financing pursuant to which it issued 5% subordinated convertible promissory notes, ("Bridge Notes"), in the aggregate amount of \$2.98 million in a private placement, as well as warrants to purchase 795,200 shares of common stock (the "Special Bridge Warrants") (together the "Bridge Financing"). Proceeds from the Bridge Financing were first allocated to the Special Bridge Warrants, which were classified as a derivative liability and recorded at fair value, with the residual amount allocated to the Bridge Notes. The Special Bridge Warrants have down-round protection clauses and their fair value is calculated using the Black-Scholes-Merton model at every reporting period. Upon the consummation of the IPO, the Company issued a further 69,132 Special Bridge Warrants to the holders of the Bridge Notes to reflect the final offering price of the IPO units. These warrants were valued on the date of the IPO by using the Black-Scholes-Merton model.

Upon the consummation of the IPO, the Bridge Notes were automatically converted into 864,332 shares of common stock and 1,728,664 warrants (the "Conversion Warrants"). The Conversion Warrants granted to the Bridge Note holders were classified as a derivative long-term liability. Also see Note 10.

On December 1, 2011, the Company entered into Subscription Agreements with certain accredited investors pursuant to which the Company issued 817,303 shares of common stock at \$1.04 per share, a 20% discount to the closing price of the Company's common stock on November 30, 2011. Upon the closing of the Financing, the Company's outstanding Convertible Notes in the aggregate principal amount of \$2.5 million automatically converted into 2,671,026 shares of common stock at \$0.94 per share, a 10% discount to the purchase price in the Financing. The foregoing issuances triggered down-round and anti-dilution provisions in outstanding Special Bridge and Conversion Warrants. As a result, the number of shares issuable to the holders of the Special Bridge Warrants was adjusted to 2,528,615 and the exercise price for both Special Bridge and Conversion Warrants adjusted to \$0.94.

As of December 31, 2011, the Special Bridge Warrants were revalued using the Black-Scholes-Merton and the Monte-Carlo models. As the terms of these warrants include a special down-round protection clause, i.e. in a new issuance of common stock at a lower price than the current exercise price, the current exercise price will be lowered to the new issuance price and the number of warrants granted will increase so that the total exercise amount remains as under the original terms (approximately \$2.4 million). We estimate 50% probability of such protection being activated in April, 2012. We have estimated the value of the down-round protection using a Monte-Carlo simulation. The following assumptions were used: 70.2% expected volatility, a risk-free interest rate of 0.38%, estimated life of 3.00 years and no dividend yield. The fair value of the common stock was \$0.99. Also see Note 10.

At December 31, 2011, the Conversion Warrants were revalued using the Black-Scholes-Merton and the Monte-Carlo models. As the terms of these warrants include a down-round protection clause, i.e. in a new issuance of common shares at a lower price than the current exercise price, the current exercise price will be adjusted to the new issuance price. We estimate 50% probability of such protection being activated in April, 2012. We have estimated the value of the down-round protection using a Monte-Carlo simulation. The following assumptions were used: 70.98% expected volatility, a risk-free interest rate of 0.52%, estimated life of 3.47 years and no dividend yield. The fair value of the common stock was \$0.99. Also see Note 10.

Subsequent to the balance sheet date, between February 6 and February 14, 2012, the Company entered into agreements with Holders, pursuant to which the Holders exercised 2,274,235 Special Bridge and 1,554,758 Conversion Warrants to purchase an aggregate of 3,828,993 shares of the Company's common stock for aggregate proceeds to the Company of \$3.6 million. In addition, the Company issued new warrants to purchase an aggregate of 2,660,922 shares of common stock at an exercise price of \$1.76 per share in

consideration for the immediate exercise of the warrants (“Reload Warrants”). A portion of the Reload warrants bear down-round protection clauses as a result, they will be classified as a long-term derivative liability and recorded at fair value. See also Note 17.

Had we made different assumptions about the fair value of the stock price (before it was publicly traded), risk-free interest rate, volatility, the impact of the down-round provision, or the estimated time that the abovementioned warrants will be outstanding before they are ultimately exercised, the recorded expense, our net loss and net loss per share amounts could have been significantly different.

Senior Lenders Warrants

As discussed in Note 8, the senior lenders of the Company’s venture loan received Senior Lenders Warrants to purchase 250,000 shares of common stock, at an exercise price of \$2.75 per share, in exchange for granting the Company a six month moratorium on principal payments and an additional year for the repayment of the venture loan. The Senior Lender Warrants were exercisable at any time before the tenth anniversary of the date they were issued. On June 8, 2011, the Company entered into a Settlement Agreement with the lenders of the venture loan, pursuant to which the Lenders agreed to accept less than the full amount owed to them by the Company. As part of the Settlement Agreement the Company issued the Lenders 250,000 shares of its common stock, in exchange for 250,000 Senior Lender Warrants, which were cancelled.

Lead Investor Warrants

The lead investors of the Bridge Financing received warrants (“Lead Investor Warrants”) to purchase 482,346 shares of common stock at \$0.01 exercise price per share. The Lead Investor Warrants (i) were exercisable 65 days subsequent to the consummation of the IPO, (ii) expire four years after issuance and (iii) Were subject to a lock-up agreement for six months subsequent to exercise. Upon the consummation of the IPO, Lead Investor Warrants were recorded at their fair value using the Black-Scholes-Merton model, as a result, an additional interest expense in the total amount of \$1,342 thousand, was recognized. The assumptions used in this calculation were 52.6% expected volatility, risk-free interest rate of 1.68%, estimated life of 4 years and no dividend yield. The fair value of the common stock was estimated at \$2.79. In October 2010, 241,173 of the Lead Investor Warrants were exercised, and in February 2011, the remaining 241,173 Lead Investor Warrants were exercised.

Placement Agent Warrants

For their role in helping to facilitate the Bridge Financing, the Placement Agent for the offering received warrants equal to 7% of the total amount of securities sold in the Bridge Financing (“Placement Agent Warrants”). Based on the amount raised, the Company issued 55,664 Placement Agent Warrants. The Placement Agent Warrants were non-exercisable for three months after the date of the closing of the Bridge Financing and subsequently exercisable until five years after the closing of the Bridge Financing. The Placement Agent Warrants were exercisable at \$3.795 per share. The December 2011 financing triggered the anti-dilution provision in the Placement Agent Warrants, resulting in a reduction of the exercise price to \$0.94. On February 2, 2012, the Placement Agent Warrants were exercised.

IPO warrants

In June 2010, upon completion of the IPO, 2,392,000 units, each containing one share of common stock and two warrants, at an issue price of \$4.60 per unit, were issued. Each warrant in the IPO unit is exercisable for five years after the IPO at an exercise price of \$5.06. On July 27, 2010, the unit was separated into its components and the shares and warrants began to trade separately. Upon separation of the units into shares and warrants, the units ceased trading. As of December 31, 2011, all of these warrants are outstanding.

Charitable warrants

Upon the consummation of the IPO, the Company recognized a charitable donation of a warrant to purchase 20,000 shares of common stock at an exercise price of \$1.50 granted in 2006. The fair value of the donation was calculated using the Black-Scholes-Merton model with an expected life of 6.33 years, a risk-free interest rate of 2.7%, an expected volatility of 56.1% and no dividend yield. The expenses for these options in the amount of \$37 thousand were recorded upon the consummation of the IPO. During September 2010, the foregoing warrant was exercised on a cashless basis, resulting in the issuance by the Company of 11,044 shares of common stock. In addition, the Company granted warrants to purchase 40 thousand shares of common stock as a charitable donation. 20 thousand of these warrants were granted at an exercise price of \$5.50 per share and the remaining 20 thousand at an exercise price of \$0.01 per share. The total fair value of approximately \$43 thousand was calculated using the Black-Scholes-Merton model, using the following assumptions: stock price of \$1.68, expected life of 6 years, risk-free interest rate of 2.38%, expected volatility of 56.41% and no dividend yield. The total fair value of the grant was recorded as an additional share-based payment expense in year ended December 31, 2011. In April 2011, the Company issued 19,862 shares of common stock upon exercise of 20 thousand charitable warrants with an exercise price of \$0.01 per share.

The Company has net tax loss carryforwards (“NOL”) for U.S. federal purposes in the amount of approximately \$33.2 million expiring 20 years from the respective tax years to which they relate beginning with 2006. The Tax Reform Act of 1986 imposed substantial restrictions on the utilization of NOL and tax credits in the event of an ownership change of a corporation. Thus, in accordance with Internal Revenue Code, Section 382, the Company’s IPO, recent financing activities, as well as, the potential Merger with I/P (See Note 17), may limit the Parent’s ability to utilize its NOL’s and credit carryforwards although the Parent has not yet determined to what extent. The deferred tax asset in respect of the tax loss carryforwards has been fully offset by a valuation allowance as in the opinion of the Company’s management; it is more likely than not that the tax loss carryforwards will not be utilized in the foreseeable future. No valuation allowance has been provided for the non-U.S. deferred tax assets, as they are more likely than not to be realized.

On July 14, 2009, the Knesset (Israel’s parliament) passed the Economic Efficiency Law (Legislation Amendments for Implementation of the 2009 and 2010 Economic Plan) — 2009, which provided, inter-alia, an additional gradual reduction in the regular company tax rate to 18% as from the 2016 tax year. In accordance with the aforementioned amendments, the regular company tax rates applicable as from the 2009 tax year are as follows: in the 2009 tax year — 26%, in the 2010 tax year — 25%, in the 2011 tax year — 24%, in the 2012 tax year — 23%, in the 2013 tax year — 22%, in the 2014 tax year — 21%, in the 2015 tax year — 20% and as from the 2016 tax year the regular company tax rate will be 18%. On December 5, 2011, the Knesset approved the Law to Change the Tax Burden (Legislative Amendments) — 2011. According to the law the tax reduction that was provided in the Economic Efficiency Law, as aforementioned, will be cancelled and the company tax rate will be 25% as from 2012. The aforementioned had no material impact on the Company’s financial position or results of operations, since the Subsidiary is a Beneficiary Enterprise, as explained below.

The Subsidiary has qualified as a “Beneficiary Enterprise” under the 2005 amendment to the Israeli Law for the Encouragement of Capital Investments, 1959 (the “Investment Law”). As a Beneficiary Enterprise, the Subsidiary is entitled to receive future tax benefits which are limited to a period of seven years. The year in which a company elects to commence its tax benefits is designated as the year of election (“Year of Election”). The Subsidiary has elected 2007 as its Year of Election and has received a two year tax holiday for profits accumulated in the years 2007 – 2008 and a reduced tax rate of 25% for the following five years.

In January 2011, new legislation amending the Investment Law was enacted. Under the new legislation, a uniform rate of corporate tax would apply to all qualified income of certain industrial companies, as opposed to the current law’s incentives that are limited to income from a “Benefited Enterprise” during their benefits period. According to the amendment, the uniform tax rate applicable to the zone where the production facilities of the Subsidiary are located would be 15% in 2011 and 2012, 12.5% in 2013 and 2014, and 12% in 2015 and thereafter. Under the transitory provisions of the newly legislated amendment, the Subsidiary chose

to irrevocably implement the new legislation amendment while waiving benefits provided under the current law. As of the balance sheet date, the Subsidiary believes that it is in compliance with the conditions of the Beneficiary Enterprise program.

The Parent files its tax returns in the U.S. federal jurisdiction, various state & local jurisdictions. The Parent has open tax assessments for the years 2008 through 2011. The Subsidiary files its income tax returns in Israel. As of December 31, 2011, the Subsidiary has open tax assessments for the years 2007 through 2011. In February 2011, the Israeli tax authority initiated an audit of the Subsidiary's tax returns for the 2007 through 2009 tax years. To date, the Subsidiary has not received any findings from the said audit. The Subsidiary's assessment for the tax year 2007 was deemed final after the balance sheet date.

The Company did not record any provision for unrecognized tax benefits in 2011 and 2010, and does not expect this amount to change significantly within the next twelve months.

Note 16 — Risks and Uncertainties

- (a) Financial instruments, which potentially subject the Company to significant concentrations of credit risk, consist principally of cash and cash equivalents and accounts receivable. The Company maintains its cash and cash equivalents with various major financial institutions. These major financial institutions are located in Israel and the United States, and the Company's policy is designed to limit exposure to any one institution. With respect to accounts receivable, the Company is subject to a concentration of credit risk, as a majority of its outstanding trade receivables relate to sales to a limited number of customers.
- (b) The Company's video ringtone data is hosted at a remote location. Although the Company has full alternative site data backed up, it does not have data hosting redundancy and are thus exposed to the business risk of significant service interruptions to its video ringtone service.
- (c) The Company's FacetonesTM application creates an automated video slideshow using friends' photos from social media web sites, primarily from Facebook®, the world's leading social media site. In the event Facebook® prohibits or restricts the ability of the Company's application to access photos on its site, the Company's revenue from this application and projected growth could be harmed.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 16 — Risks and Uncertainties – (continued)

- (d) A significant portion of the Company's expenses are denominated in NIS. The Company expects this level of NIS expenses to continue for the foreseeable future. If the value of the U.S. dollar weakens against the value of NIS, there will be a negative impact on the Company's operating costs. In addition, to the extent the Company holds monetary assets and liabilities that are denominated in currencies other than the U.S. dollar, the Company will be subject to the risk of exchange rate fluctuations.
- (e) The wireless industry in which the Company conducts its business is characterized by rapid technological changes, frequent new product innovations, changes in customer requirements and expectations and evolving industry standards.

Note 17 — Subsequent Events

- (a) In January and February 2012, the Company's Board of Directors (the "Board") approved the granting of 70,000, fully vested options to management and consultants at an exercise price of \$0.01 per share. The Board also approved the granting of 734,500 options at an exercise price of \$0.96 to its management, employees and consultants. These options will vest over four years (according to the applicable schedule of each optionee). The Company expects that the total value of the options granted will be approximately \$467 thousand. Also refer to Note 11.
- (b) In January 2012, the Board approved a one year acceleration of option vesting for all option holders, except for the Company's new Chief Executive Officer who will obtain 50% acceleration on all his unvested options, should the Company be subject to a change of control in a merger and/or acquisition transaction. In addition, in March 2012, the Board approved participation of all outstanding options in future dividends, as well as, acceleration of vesting if certain market conditions are met. Moreover, all outstanding options granted to members of the Board shall fully vest if a Board member ceases to be a director at any time during the six-month period immediately following a change of control. The Company is currently evaluating the effect of this decision and estimates that the effect on its financials might be material.
- (c) Between February 6 and February 14, 2012, the Company entered into agreements with holders of certain of its outstanding warrants (the "Holders"), pursuant to which the Holders exercised warrants to purchase 3,828,993 shares of the Company's common stock for aggregate proceeds to the Company of \$3.6 million. In addition, the Company issued new warrants to purchase an aggregate of 2,660,922 shares of common stock at an exercise price of \$1.76 per share in consideration for the immediate exercise of the warrants. The Company is currently evaluating the effect of this warrant issuance. The Company believes that the impact on its financial statements will be material.
- (d) On March 12, 2012, the Company entered into a Merger Agreement pursuant to which I/P will merge with and into Merger Sub, a wholly owned subsidiary of the Company, with Merger Sub being the surviving corporation through an exchange of capital stock of I/P for capital stock of the Company. Under the terms of the Merger Agreement, the Company will issue I/P stockholders 16,972,977 shares of the Company's common stock and 21,026,637 Series A Preferred Stock, convertible into 21,026,637 of the Company's shares of common stock. In addition, the Company will issue I/P stockholders warrants to purchase 15,959,838 shares of common stock at an exercise price of \$1.76 per share. In addition, all outstanding warrants to purchase I/P's common stock that are outstanding and unexercised immediately prior to the completion of the Merger Agreement, shall be exchanged for 250,000 shares of Vringo common stock and 850,000 warrants to purchase 850,000 shares of the Company's common stock with an exercise price of \$1.76 per share. Immediately following the completion of the Merger, former stockholders of I/P are expected to own

approximately 55.41% of the outstanding common stock of the combined company, and current stockholders of Vringo are expected to own approximately 44.59% of the outstanding common stock of the combined company (without taking into account the possible exercise of any other type of outstanding equity interest issued). The Company has expended significant effort and management attention on the proposed transaction. There is no assurance that the transaction will be consummated, including failure to obtain stockholders approval. If the transaction is not consummated for any reason, the Company's business and operations, as well as the market price of its stock and warrants may be adversely affected. For accounting purposes, based on the Company's preliminary assessment, I/P was identified as the "Acquirer", as it is defined in FASB Topic ASC 805. As a result, in the post-combination consolidated financial statements, I/P's assets and liabilities will be presented at its pre-combination amounts, and the Company's assets and liabilities will be recognized and measured in accordance with the guidance for business combinations in ASC 805. The Company is currently evaluating the effect of this on its financial statements and believes such effect will be material.

- (e) In March 2012, the Company signed a separation agreement with its former CEO, Jonathan Medved. According to the terms of the separation agreement, and consistent with Mr. Medved's employment agreement and amendment hereto, Mr. Medved will be entitled to receive salary and benefits during a ninety day notice period and a nine month severance period, and continue to vest stock options after his termination. In addition, options previously granted to Mr. Medved at \$0.01 will fully vest as of June 21, 2012 and the expiration date for exercising all options vested on or before June 21, 2013 is extended to September 21, 2013. Furthermore, the Company granted Mr. Medved with an additional 100,000 options at market value, as part of the grant described in Note 17 f below. Although the Company has a previous provision for its former CEO's severance obligations (see Note 7) and although, the total effect of the aforementioned was not yet fully estimated, the Company believes that the overall financial impact of the above will be material.
- (f) In March 2012, the Company's Board approved the granting of 1,700,000 options to Board and management (including the 100,000 options granted to its former CEO, see Note 17 e) at an exercise price of \$1.65 per share. These options will vest quarterly over three years. Although the Company did not yet determine the fair value of this option grant, it believes the overall financial impact to be material.

The accompanying consolidated financial statements and related notes should be read in conjunction with our consolidated financial statements and related notes for the year ended December 31, 2011 (“2011”) contained in this registration statement on Form S-4. The consolidated financial statements have been prepared in accordance with the rules and regulations of the SEC related to interim financial statements. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States (“U.S. GAAP”) have been condensed or omitted pursuant to such rules and regulations. The financial information contained herein is unaudited; however, management believes all adjustments have been made that are necessary to present fairly the results for the interim periods. All such adjustments are of a normal and recurring nature. The results of operations for the three month period ended March 31, 2012 are not necessarily indicative of the results that may be expected for the full fiscal year.

Principles of consolidation: The consolidated financial statements include the accounts of I/P and the Subsidiaries. Unless the context otherwise indicates, the terms “I/P” or the “Company” mean Innovate/Protect, Inc. and its consolidated subsidiaries. All intercompany balances and transactions have been eliminated in consolidation.

Estimates and assumptions: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Development stage: The Company is in the development stage and had not generated revenue for the period from inception to March 31, 2012.

Earnings Per Share: Basic loss per share is based on the weighted number of common shares issued and outstanding, and is calculated by dividing net loss attributable to common shareholders by the weighted average shares outstanding during the period. Diluted loss per share is calculated by dividing net loss attributable to common shareholders by the weighted average number of common shares used in the basic earnings per share calculation plus the number of common shares that would be issued assuming conversion of all potentially dilutive securities outstanding. Diluted loss per share is equal to the basic loss per share as all potentially dilutive securities are anti-dilutive in the period presented. For the period ended March 31, 2012, the Company incurred net losses and therefore no common stock equivalents were utilized in the calculation of earnings per share.

At March 31, 2012, the Company excluded the following potentially dilutive securities:

- Preferred Stock, Series A Convertible, \$.0001 par value; liquidation value \$1,250 per share; 6,968 shares authorized; 6,818 issued and outstanding.
- Warrants to purchase 250,000 shares of common stock.
- Options to purchase 13,646 shares of common stock.
- 1,054,977 shares of common stock granted, but not vested.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 2. Liquidity and Capital Resources, Going Concern

As a development stage company, the Company requires significant amounts of capital to support its operations during the period prior to the commencement of a revenue stream or other liquidity events.

As of March 31, 2012 the Company had cash of \$3,979,671 and working capital of \$1,153,529. During the period from inception through March 31, 2012, the Company funded operations from the proceeds of private sales of equity and the private issuance of debt. Because of the nature of the Company's business, capital is required to support the Company's substantial legal costs as well as its normal operating costs. The Company has developed a budget outlining its expected legal and operating costs, including contingencies for unforeseen costs and delays over the next 12 months.

The Company plans to conduct future financings through the sale of debt or equity securities, which management believes will provide sufficient working capital to fund operations for at least the next twelve (12) months. Changes in operating plans, increased expenses, additional property acquisitions, other events or other strategic alternatives the Company may pursue, may cause additional equity or debt financing to be required in the future. There is no assurance that additional financing will be available on future prevailing terms or at all.

For the period from inception through March 31, 2012, the Company used \$6,165,554 of net cash to fund operating activities and to invest in tangible personal and intangible intellectual property. During the period, the Company borrowed \$3,200,000 through the issuance of a promissory note.

Despite the Company's capital raising activities to date, given the factors noted above, there is no assurance that the Company will continue to be able to raise the capital or generate revenue necessary to fund ongoing operations at the current level. As such, absent future capital raises or revenue generation by the Company, there remains substantial doubt about the Company's ability to continue as a going concern. The accompanying financial statements have been prepared on a going concern basis and as such do not include any adjustments that might result from the outcome of this uncertainty.

Note 3. Note Payable — Related Party

The Company is obligated under a note payable to Hudson Bay Master Fund, LP ("Hudson Bay") with an outstanding balance of \$3,200,000 at March 31, 2012 (the "Hudson Bay Note"). At March 31, 2012, Hudson Bay owned 95% of the outstanding preferred stock of the Company, convertible upon demand to common stock sufficient to control the Company. The Hudson Bay Note accrues interest at 0.46% per annum and matures on June 22, 2014. The Company has granted Hudson Bay a security interest in all tangible and intangible personal property of the Company and its subsidiaries to secure its obligations under the Hudson Bay Note.

Hudson Bay has the option of requiring the Company to redeem up to \$2,000,000 aggregate principal of the Hudson Bay Note beginning March 22, 2012. Pursuant to a letter agreement dated March 12, 2012, by and between Innovate/Protect and Hudson Bay, Hudson Bay agreed not to exercise its right of redemption until the earlier of (i) any termination of the Merger Agreement pursuant to the terms of the Merger Agreement or (ii) the effective time of the Merger; provided that if the Merger is consummated, the Note will be amended and restated and the holder may exercise any and all rights and remedies pursuant to such amended and restated note delivered at the closing of the Merger, including with respect to any optional redemption provisions contained therein. The Hudson Bay Note does not contain any financial statement covenants, however there are standard events of default. In the event of a default, which is not subsequently cured or waived, the interest rate would increase to a rate of 18% per annum. At the option of Hudson Bay and upon notice, the entire unpaid principal balance together with all accrued interest thereon would be immediately due and payable. Hudson Bay has the right to require the Company to redeem the Hudson Bay

Note in the event of a change of control or in event of default at a redemption price, pursuant to a formula, of up to 125% of the sum of the portion of the principal amount and any accrued and unpaid interest.

As of March 31, 2012, there were no known conditions of default.

The Company determined there was an embedded derivative since certain redemption options were determined not to be clearly and closely related to the debt host. The Company also determined that the fair value of the embedded derivative was zero at March 31, 2012 since the probability of change in control or event of default in the near future is remote. Hudson Bay has agreed that the Company's execution and delivery of the Agreement and Plan of Merger, dated as of March 12, 2012, with Vringo, Inc., and VIP Merger Sub, Inc. does not constitute a Change of Control (as defined in the Note). The gross amount the Company would have to pay if this redemption option is exercised would be \$800,000.

The Company will evaluate the fair value each reporting period and report changes in the fair value as other income (expense), net.

Note 4. Series A Convertible Preferred Stock

The Company is authorized to issue up to 10,000,000 shares of preferred stock, par value \$0.0001, of which 6,968 shares of preferred stock have been designated as Series A Preferred Stock with such rights and preferences designated in the Company's Certificate of Designations (the "Series A Preferred Stock"). In June 2011, the Company issued 6,968 shares of Series A Preferred Stock to Hudson Bay for \$1,800,000 (\$258.32 per share). The Series A Preferred Stock has a liquidation preference of \$1,250 per share and is otherwise convertible, at the option of the holder, into 6,968,000 shares of common stock at a conversion price of \$1 per common share received, subject to adjustment for anti-dilution and other corporate events. The holder of Series A Preferred Stock is entitled to receive such dividends paid and distributions made to holders of common stock and to participate in voting matters on an as converted basis. Shares of Series A Preferred Stock are redeemable by the holder upon the occurrence of certain events as defined in the Series A Preferred Stock Certificate of Designations. The holder has the right to require the Company to redeem the Series A Preferred Stock in the event of a Change of Control or a Triggering Event (as such terms are defined in the Certificate of Designations) at a redemption price, pursuant to a formula, of up to 125% of the Stated Value (i.e., \$1,000 per share, subject to adjustment).

The Series A Preferred Stock is classified as mezzanine because certain Triggering Events may occur outside the control of the Company.

During the period ending March 31, 2012, Hudson Bay sold 494 shares of its Series A Preferred Stock to third party investors. Subsequently, 150 shares of the Series A Preferred Stock were converted to 150,000 shares of common stock.

Note 5. Stock-Based Compensation

In August 2011, the Company adopted its 2011 Equity and Performance Incentive Plan (the "Plan"). The Plan provides for the issuance of stock options and restricted stock to the Company's employees, consultants, directors and advisors. Terminated, expired or forfeited grants may be reissued under the Plan. The number of shares available under the Plan is subject to adjustment for certain changes in the Company's capital structure. As of March 31, 2012, 946,354 shares are available for future grant.

Note 6. Income Tax

The Company has determined that, based on objective evidence currently available, it is not likely that the deferred tax assets will be realized. Accordingly, the Company has provided a valuation allowance for the full amount of the deferred tax assets at March 31, 2012. There are no amounts of interest or penalties related to tax matters contained within the balance sheet at March 31, 2012. Under current tax law, net operating losses can be carried forward through the year to end December 31, 2031.

Management does not believe it is exposed to any uncertain tax positions as they are defined within accounting principles. Management does not believe there are tax positions for which it is reasonably possible that there will be a significant increase or decrease in the amounts of unrecognized tax benefits within the next 12 months.

Note 7. Lease Obligations

In July 2011, the Company entered into a license agreement with a non-affiliated third party to lease office space in New York City. The license is for a term of two years and five months and requires monthly payments in the amount of \$2,152.

In March 2012, the Company entered into a second license agreement with a non-affiliated third party to lease an additional office adjacent to the space leased in the first license agreement. The second license agreement is for approximately two years with the first license agreement. Monthly payments are required in the amount of \$1,450.

Estimated occupancy expense for the remaining lease term based upon lease obligations at March 31, 2012 is as follows:

<u>Year</u>	<u>Amount</u>
2012	32,418
2013	43,224
2014	3,602
	<u>\$ 79,244</u>

Note 8. Contingencies

The Company retains the services of law firms that specialize in intellectual property licensing and enforcement and patent law in connection with their licensing and enforcement activities. These law firms may be retained on an hourly fee, contingent fee, or blended fee basis. In a contingency fee arrangement, law firms are paid a scaled percentage of any negotiated fees, settlements or judgments awarded, based on how and when the fees, settlements or judgments are obtained.

On September 15, 2011, I/P Engine filed a patent infringement action in the Eastern District of Virginia. The matter involves two patents related to search systems having content and collaborative filters, and alleges that defendants AOL, Inc., Google, Inc., IAC Search & Media, Inc., Gannett Company, Inc. and Target Corporation each infringe both patents at issue. The defendants filed their answers to the complaint on November 14, 2011, and also asserted declaratory judgment counterclaims of non-infringement and invalidity. On November 28, 2011, all defendants (except AOL, Inc., which asserted no such allegation) amended their counterclaims to remove an allegation of unenforceability. On December 5, 2011, I/P Engine filed answers to AOL's counterclaims. On December 9, 2011, I/P Engine filed answers to the counterclaims of the remaining defendants. On February 15, 2012, the Court entered a scheduling order in the case setting the *Markman* hearing for June 4, 2012 and trial for October 16, 2012. On March 15, 2012, Google submitted a request to the USPTO for *ex parte* reexamination of U.S. Patent No. 6,314,420, one of the two patents-in-suit. The request was deposited on March 16, 2012 and was assigned Control No 90/009,991. Innovate/Protect expected Google to seek reexamination and believes this request is a standard and typical tactic used by defendants in patent litigation cases. The filing of a request for reexamination is the first step in a process that ordinarily takes several years. On April 26, 2012, the USPTO vacated Google's request for *ex parte* reexamination for failing to follow to the requirements set forth in the USPTO's regulations. On May 24, 2012, Google submitted their request to the USPTO. This resubmission purports to address the issues identified by the USPTO. Google's request has not resulted in any delay of the dates set out in the Court's scheduling order dated February 15, 2012. Discovery has commenced; the parties have served and responded to written discovery requests and have produced documents. Further discovery, including depositions, is expected to occur in the next few months. Near the end of discovery, the parties will exchange expert reports. Innovate/Protect expects that defendants will make several attempts to avoid trial. At this stage of the litigation, the Company cannot assess the duration, cost or outcome of the infringement action.

Note 9. Subsequent Events

Subsequent events have been evaluated through May 16, 2012, the date the financial statements were available to be issued.

In April 2012, Hudson Bay sold 148 shares of its Series A Preferred Stock to third party investors. As of May 16, 2012, those investors have not converted the Series A Preferred Stock to common stock.

In April 2012, Hudson Bay converted 145 shares of its Series A Preferred Stock to 145,000 shares of common stock. On the same day, Hudson Bay sold all 145,000 shares of converted common stock to a third party investor.

Note 10. Subsequent Events (post May 16, 2012)

On May 24, 2012, Google submitted their request to the USPTO. This resubmission purports to address the issues identified by USPTO.

On June 1, 2012, Hudson Bay committed, subject to the terms and conditions of a commitment letter agreement, that, at any time within 18 months following the closing of the Merger and upon the request of the Company, it or, at its election, one or more of its affiliated funds or entities shall provide debt financing to the Company in the aggregate principal amount of up to \$6,000,000. Hudson Bay's commitment shall be reduced, on a dollar for dollar basis, by (i) any cash or capital raised by Vringo, Innovate/Protect and/or any of their subsidiaries (each a "Vringo entity" and, together the "Vringo entities"), including, without limitation, through the issuance of any debt, equity and/or securities convertible, exercisable or exchangeable into equity of any of the Vringo entities or the incurrence of indebtedness by any of the Vringo entities and (ii) any cash received by any Vringo entity in connection with the exercise of any of its outstanding warrants. Any such financing provided under such facility will be in the form of senior secured notes at an interest rate of the greater of (i) LIBOR plus 300 basis points and (ii) 8% per annum with a maturity of seven years after issuance. Such obligations will be guaranteed by each of the Vringo entities and secured by a first priority lien on all assets of the Vringo entities. In addition, both the Company and the holder of the notes will be able to require redemption of all or any portion of the Notes at any time after 18 months following the consummation of the Merger, subject to an interest make-whole through maturity. In addition to other covenants to be mutually agreed between the Company and Hudson Bay, the Vringo entities will not spend cash during any calendar quarter while any notes are outstanding at a rate greater than the amount specified in the capital budget of Vringo and its subsidiaries, prepared on a combined basis, agreed to by Hudson Bay, without the prior written consent of Hudson Bay. Hudson Bay's commitment to provide such facility is subject to (a) the consummation of the Merger without any amendment or modification (unless consented to in writing by Hudson Bay), (b) at the time of any request to provide the facility, the satisfaction of each of the conditions set forth in Section 6.2(f) (Litigation) and 6.2(j) (Patents) of the Merger Agreement, (c) at all times after the consummation of the Merger and prior to the termination of the commitment letter agreement, Vringo using its best efforts to raise capital by issuing equity securities of Vringo and/or securities convertible, exercisable or exchangeable for equity securities of Vringo, (d) the execution by the Company and Hudson Bay of all documents necessary for the consummation of the transaction contemplated by the commitment on terms and conditions in all respects acceptable and satisfactory to the company and Hudson Bay, (e) no Vringo entity shall have, pursuant to or within the meaning of Title 11, U.S. Code, or any similar Federal, foreign or state law for the relief of debtors (collectively, "Bankruptcy Law"), (A) commenced a voluntary case, (B) consented to the entry of an order for relief against it in an involuntary case, (C) consented to the appointment of a receiver, trustee, assignee, liquidator or similar official (a "Custodian"), (D) made a general assignment for the benefit of its creditors or (E) admitted in writing that it is generally unable to pay its debts as they become due, (f) a court of competent jurisdiction not having entered an order or decree under any Bankruptcy Law that (A) is for relief against any Vringo entity in an involuntary case, (B) appoints a Custodian of any Vringo entity or (C) orders the liquidation of any Vringo entity, (g) since the date of

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Management and the Board of Directors
Innovate/Protect, Inc (f/k/a Labrador Search Company)

We have audited the accompanying consolidated balance sheets of Innovate/Protect Inc. (a Delaware corporation) and subsidiaries (the "Company") as of December 31, 2011, and the related consolidated statements of operations, stockholders' equity, and cash flows for the period from June 8, 2011 (inception) to December 31, 2011. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Innovate/Protect Inc. and subsidiaries as of December 31, 2011 and the results of their operations and their cash flows from June 8, 2011 (inception) to December 31, 2011, in conformity with accounting principles generally accepted in the United States of America.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 2 to the financial statements, the Company incurred substantial losses from operations and used significant amount of cash to fund its operating activities. Additional capital is required to support the Company operations. These conditions raise substantial doubt about the Company ability to continue as a going concern. Management's plans in regard to these matters are also described in Note 2. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

(“I/P Labs” and together with I/P Engine, the “Subsidiaries”). I/P Engine was incorporated in Virginia on June 14, 2011, as Smart Search Labs, Inc. Smart Search Labs Inc. changed its name to I/P Engine, Inc. on September 9, 2011. I/P Engine operates for the purpose of realizing economic benefits from a collection of patents related to search engine technology. I/P Labs was incorporated in Delaware on June 8, 2011 as Scottish Terrier Capital, Inc. and changed its name to I/P Labs, Inc. on September 9, 2011. I/P Labs, Inc. operates to acquire or develop other patented technologies or intellectual property. I/P’s principal offices are located in New York City.

Principles of consolidation: The consolidated financial statements include the accounts of I/P and the Subsidiaries. Unless the context otherwise indicates, the terms “I/P” or the “Company” mean Innovate/Protect, Inc. and its consolidated subsidiaries. All intercompany balances and transactions have been eliminated in consolidation.

Estimates and assumptions: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Development stage: The Company is in the development stage and had not yet generated revenue for the period from inception to December 31, 2011.

Cash and cash equivalents: Cash and cash equivalents include cash and highly liquid investments with original maturities of three months or less. The Company maintains its cash in a non-interest bearing account at a commercial bank, which account balances at times may exceed federally insured limits. The Company has not experienced any losses in such accounts and believes it is not exposed to any significant credit risk on cash and cash equivalents.

Intangible assets: Intangible assets consist of patents that were purchased and the costs to acquire them. They are amortized over their legal lives, for periods that vary from five to ten years depending on the patents’ expiration. The useful lives of intangible assets are periodically evaluated for reasonableness and the assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may no longer be recoverable. Costs to investigate potential purchases of intangible assets are treated expense when incurred, until or unless purchase of the respective assets are deemed viable, after which time the costs to further investigate and acquire the assets are capitalized. Subsequent to acquisition, legal and associated costs incurred in prosecuting alleged infringements of the patents are recognized as expense when incurred.

Property and equipment: Property and equipment purchases are recorded at cost. Depreciation is computed using the straight-line method over estimated useful lives of 5 years.

Stock-based compensation: The Company has made the following types of stock-based awards, valued and reflected in the financial statements as follows:

Common Stock Grants: Common stock grants are valued at their fair market value at the date of the grant, multiplied by the number of shares granted. These grants are reflected as compensation expense in the period during which the respective awards vest, ranging from immediate to 36 months from the grant dates.

Note 1. Nature of Business and Significant Accounting Policies – (continued)

Sales of Common Stock at Less than Fair Market Value: Common stock sales at less than fair market value to executive officers are valued at their fair market value on the date of the sale, multiplied by the number of shares sold at less than fair market value. Common stock sales at less than fair market value to consultants are valued at their fair market value on the date the purchased shares vest (the “measurement date”), revalued as to the number of shares vesting at each subsequent measurement date, multiplied by the number of shares vesting at the measurement date. The difference between the purchase price and the fair market value of the shares vesting at each measurement date is reflected as compensation expense in the period during which the respective awards vest, over periods ranging from immediate to 36 months.

Common Stock Options: Common stock options are valued at their fair market value at the time the options are granted, using the Black-Scholes option pricing model for valuing stock-based compensation awards. Common stock options are reflected as compensation expense in the period during which they vest.

Fair value of common stock: At inception, the Company determined the fair value of each common share to be \$.25832. Management determined the amount of capital it estimated would be required (\$1,800,000) to carry the Company through its earliest stages of development. This amount was financed through the issuance of Series A convertible preferred stock (the “Series A Preferred Stock”). To arrive at the estimated fair value of a share of common stock, the \$1,800,000 was divided by the number of common shares, 6,968,000, into which the Company’s Series A Preferred Stock sold would convert upon demand, in accordance with the terms of the Series A Preferred Stock.

Subsequent to inception, the Company determined fair value per share based on multiple private sales of common stock to third parties including individuals and institutional investors. Three rounds of common stock sales occurred after inception, one round at \$1 per share during late August and early September 2011, one round at \$3 per share during mid-September and October 2011, and one round at \$3.30 per share during November and December 2011.

Fair value of financial instruments: Fair value of financial assets and liabilities is defined as the exchange price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants in the principal market at the measurement date (exit price). The Company is required to classify fair value measurements in one of the following categories:

Level 1 inputs which are defined as quoted prices (unadjusted) in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date.

Level 2 inputs which are defined as inputs other than quoted prices included within Level 1 that are observable for the assets or liabilities, either directly or indirectly.

Level 3 inputs are defined as unobservable inputs for the assets or liabilities. Financial assets and liabilities are classified based on the lowest level of input that is significant to the fair value measurement. The Company’s assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the valuation of the fair value of assets and liabilities and their placement within the fair value hierarchy levels.

The Company determined the fair value of the embedded derivative liability to be level 3 inputs. These inputs require material subjectivity because value is derived through the use of probability weighted discounted cash flows. As further discussed in Note 5, the Company has determined that the probability of the holder exercising its options is remote and that any value allocated the embedded derivative at December 31, 2011 would be trivial.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 1. Nature of Business and Significant Accounting Policies – (continued)

Due to the Company being in its development stage, it is not practical to value our notes payable at December 31, 2011. The carrying amounts of cash and cash equivalents, accounts payable and accrued liabilities approximate fair value due to the short term maturity of the instruments.

Income taxes: Deferred income tax assets and liabilities are determined using the asset and liability method. Under this method, the net deferred tax asset or liability is determined based on the tax effects of permanent and temporary differences between the book and tax bases of the various balance sheet assets and liabilities and gives current recognition to changes in tax rates and laws.

A valuation allowance is recorded when it is more likely than not that some portion or all of the deferred tax assets will not be realized.

The Company recognizes tax positions taken or expected to be taken when it is more likely than not that the position would be sustained upon examination by tax authorities. A recognized tax position is then measured at the largest amount of benefit that is more likely than not to be realized upon ultimate settlement. It is the Company's policy to classify interest and penalties related to uncertain income tax matters as income tax expense.

Earnings Per Share: Basic loss per share is based on the weighted number of common shares issued and outstanding, and is calculated by dividing net loss attributable to common shareholders by the weighted average shares outstanding during the period. Diluted loss per share is calculated by dividing net loss attributable to common shareholders by the weighted average number of common shares used in the basic earnings per share calculation plus the number of common shares that would be issued assuming conversion of all potentially dilutive securities outstanding. Diluted loss per share is equal to the basic loss per share as all potentially dilutive securities are anti-dilutive in the period presented. For the year ended December 31, 2011 the Company incurred net losses and therefore no common stock equivalents were utilized in the calculation of earnings per share.

At December 31, 2011, the Company excluded the following potentially dilutive securities:

- Series A Preferred Stock convertible into 6,968,000 shares of common stock.
- Warrants to purchase 250,000 shares of common stock.
- Options to purchase 13,646 shares of common stock.
- 1,237,270 shares of common stock granted but not vested.

Recent Accounting Pronouncements:

In May 2011, the FASB issued new guidance amending the existing pronouncement related to fair value measurement. This new guidance primarily expands the existing disclosure requirements for fair value. Specifically, the new guidance mandates the following additional disclosures: (1) the amount of any transfers between Level 1 and Level 2 of the fair value hierarchy, (2) a quantitative disclosure of the unobservable inputs and assumptions used in the measurement of Level 3 instruments, (3) a qualitative discussion of the sensitivity of the fair value to changes in unobservable inputs and any inter-relationships between those inputs that magnify or mitigate the effect on the measurement of Level 3 instruments and (4) the level within the fair value hierarchy, of items that are not measured at fair value in the statement of financial condition but whose fair value must be disclosed. This new guidance is effective for us prospectively beginning January 1, 2012. We expect the adoption of this new guidance will result in an increase of certain of our financial statement disclosures, but the adoption will not have any impact on our financial position or results of operations.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 1. Nature of Business and Significant Accounting Policies – (continued)

In June 2011, the FASB issued new guidance amending the existing pronouncement regarding the presentation of comprehensive income. This new guidance reduces the alternatives for the presentation of the components of other comprehensive income. Specifically, it eliminates the alternative of presenting them as part of the Statement of Changes in Shareholders' Equity. This new guidance is effective for fiscal years and interim periods within those years, beginning after December 15, 2011; however, early adoption is permitted. We currently do not have any components of other comprehensive income within our consolidated financial statements thus adoption of this new guidance does not impact us.

Note 2. Liquidity and Capital Resources, Going Concern

As a development stage company, the Company requires significant amounts of capital to support its operations during the period prior to the commencement of a revenue stream or other liquidity events.

As of December 31, 2011 the Company had cash of \$5,212,142 and working capital of \$2,789,563. During the period from inception through December 31, 2011, the Company funded operations from the proceeds of private sales of equity and the private issuance of debt. Because of the nature of the Company's business, capital is required to support the Company's substantial legal costs as well as its normal operating costs. The Company has developed a budget outlining its expected legal and operating costs, including contingencies for unforeseen costs and delays over the next twelve (12) months.

The Company plans to conduct future financings through the sale of debt or equity securities, which management believes will provide sufficient working capital to fund operations for at least the next twelve (12) months. Changes in operating plans, increased expenses, additional property acquisitions, other events or other strategic alternatives the Company may pursue, may cause additional equity or debt financing to be required in the future. There is no assurance that additional financing will be available upon future prevailing terms or at all.

For the period from inception through December 31, 2011, the Company used \$4,933,083 of net cash to fund operating activities and to invest in tangible personal and intangible intellectual property. During the period, the Company borrowed \$3,200,000 through the issuance of a promissory note and raised \$5,145,225 and \$1,800,000 through common and preferred stock issuances, respectively.

Despite the Company's capital raising activities to date, given the factors noted above, there is no assurance that the Company will continue to be able to raise the capital or generate revenue necessary to fund ongoing operations at the current level. As such, absent future capital raises or revenue generation by the Company, there remains substantial doubt about the Company's ability to continue as a going concern. The accompanying financial statements have been prepared on a going concern basis and as such do not include any adjustments that might result from the outcome of this uncertainty.

Note 3. Property and Equipment

Property and equipment consisted of the following as of December 31, 2011:

Computer equipment	\$ 8,688
Less accumulated depreciation	(682)
	<u>\$ 8,006</u>

Property and equipment are being depreciated over their expected useful lives.

Note 4. Intangible Assets

Intangible assets consisted of the following as of December 31, 2011:

Patents	\$3,395,188
Less accumulated amortization	(327,596)
	<u>\$3,067,592</u>

The gross carrying amount of patents is comprised of the original purchase price of \$3,200,000 and \$195,188 of associated patent acquisition costs. Patents are being amortized over their individual legal lives which expire between 2016 and 2021. The weighted average amortization period for these patents is five years and eleven months.

Estimated amortization expense for each of the five succeeding years based upon intangible assets owned at December 31, 2011 is as follows:

Year	Amount
December 31, 2012	\$ 622,775
December 31, 2013	622,775
December 31, 2014	622,775
December 31, 2015	622,775
December 31, 2016 and thereafter	576,492

Note 5. Note Payable — Related Party

The Company is obligated under a note payable to Hudson Bay Master Fund Ltd. (“Hudson Bay”) with an outstanding balance of \$3,200,000 at December 31, 2011 (the “Hudson Bay Note”). At December 31, 2011, Hudson Bay owned all of the outstanding preferred stock of the Company, convertible upon demand to common stock sufficient to control the Company. The Hudson Bay Note accrues interest at 0.46% per annum and matures on June 22, 2014. The Company has granted Hudson Bay a security interest in all tangible and intangible personal property of the Company and its subsidiaries to secure its obligations under the Hudson Bay Note.

Hudson Bay has the option of requiring the Company to redeem up to \$2,000,000 aggregate principal of the Hudson Bay Note beginning March 22, 2012. The Hudson Bay Note does not contain any financial statement covenants, however there are standard events of default. In the event of a default, which is not subsequently cured or waived, the interest rate would increase to a rate of 18% per annum. At the option of Hudson Bay and upon notice, the entire unpaid principal balance together with all accrued interest thereon would be immediately due and payable. Hudson Bay has the right to require the Company to redeem the Hudson Bay Note in the event of a change of control or in event of default at a redemption price, pursuant to a formula, of up to 125% of the sum of the portion of the principal amount and any accrued and unpaid interest.

As of December 31, 2011, there were no known conditions of default.

The Company determined there was an embedded derivative since certain redemption options were determined not to be clearly and closely related to the debt host. The Company also determined that the fair value of the embedded derivative was zero at December 31, 2011 since the probability of change in control or event of default in the near future is remote. The gross amount the Company would have to pay if this redemption option is exercised would be \$800,000.

The Company will evaluate the fair value of the derivative each reporting period and report changes in the fair value as other income (expense), net.

Note 6. Series A Convertible Preferred Stock

The Company is authorized to issue up to 10,000,000 shares of preferred stock, par value \$0.0001, of which 6,968 shares of preferred stock have been designated as Series A Preferred Stock with such rights and preferences designated in the Company's Certificate of Designations (the "Series A Preferred Stock"). In June 2011, the Company issued 6,968 shares of Series A Preferred Stock to Hudson Bay for \$1,800,000 (\$258.32 per share). The Series A Preferred Stock has a liquidation preference of \$1,250 per share and is otherwise convertible, at the option of the holder, into 6,968,000 shares of common stock at a conversion price of \$1 per common share received, subject to adjustment for anti-dilution and other corporate events. The holder of Series A Preferred Stock is entitled to receive such dividends paid and distributions made to holders of common stock and to participate in voting matters on an as converted basis. Shares of Series A Preferred Stock are redeemable by the holder upon the occurrence of certain events as defined in the Series A Preferred Stock Certificate of Designations. The holder has the right to require the Company to redeem the Series A Preferred Stock in the event of a change of control or a triggering event (including, without limitation, an event of default or change of control) at a redemption price, pursuant to a formula, of up to 125% of the stated value of \$1,000 per share, subject to adjustment.

The Series A Preferred Stock is classified as mezzanine because certain Triggering Events may occur outside the control of the Company.

Note 7. Warrants

On August 30, 2011, the Company issued 250,000 warrants to Hudson Bay. Each warrant entitles Hudson Bay to purchase one (1) share of common stock in the Company at a price of \$1. The warrants expire sixty (60) months after the issue date, and are subject to adjustment for certain corporate events under the terms and conditions contained in the Warrant Agreement between the Company and Hudson Bay dated August 30, 2011.

Note 8. Stock-Based Compensation

In June 2011, the Company sold 2,115,625 shares of common stock to an executive officer at par value. The excess of the fair value of the shares sold over the purchase price of the shares at the time of purchase is treated as compensation and is recognized at such times as the shares vest to the benefit of the executive officer. 1,178,125 shares vested immediately upon grant and 937,500 shares vest over a three (3) year period.

In June 2011, the Company sold 125,000 shares of common stock to a consultant at par value. The excess of the fair value of the shares sold over the purchase price of the shares is treated as compensation and is recognized at such times as the shares vest to the benefit of the consultant. 62,500 shares vested immediately upon purchase and 62,500 shares vest over a three (3) year period. Compensation related to unvested shares will be recognized in the period the shares vest and will be calculated using the fair value of the common stock at that time.

In August 2011, the Company granted 625,000 shares of common stock to an executive officer of the Company at no cost. The fair value of these shares at the time of grant is treated as compensation and is recognized at such times as the shares vest over an eighteen (18) month period.

In August 2011, the Company adopted its 2011 Equity and Performance Incentive Plan (the "Plan"). The Plan provides for the issuance of stock options and restricted stock to the Company's employees, consultants, directors and advisors. Terminated, expired or forfeited grants may be reissued under the Plan. The number of shares available under the Plan is subject to adjustment for certain changes in the Company's capital structure. As of December 31, 2011, 946,354 shares are available for future grant.

In November 2011, pursuant to the Plan, the Company granted 40,000 shares of common stock to an independent director of the Company at no cost. The fair value of these shares at the time of grant is treated as compensation and is recognized at such times as the shares vest over an eighteen (18) month period.

Note 9. Income Taxes

The differences between income tax computed using the statutory federal (35%) and state (10% net of federal deduction) income tax rates and the income tax provision for the period from inception through December 31, 2011, are as follows:

Federal income tax benefit at statutory rate	\$ (957,000)
State tax benefit, net of federal income tax benefit	(274,000)
Increase in valuation allowance	1,231,000
Income tax expense	\$ —

At December 31, 2011, the temporary differences resulted in net deferred tax assets consisting of the following:

Deferred tax assets resulting from:

Startup costs	\$ 46,000
Estimated net operating loss carryforwards	1,185,000
	1,231,000
Less: valuation allowance	(1,231,000)
Net deferred tax	\$ —

The Company has determined that, based on objective evidence currently available, it is not likely that the deferred tax assets will be realized. Accordingly, the Company has provided a valuation allowance for the full amount of the deferred tax assets at December 31, 2011. There are no amounts of interest or penalties related to tax matters contained within the balance sheet at December 31, 2011. Under current tax law, net operating losses can be carried forward through the year to end December 31, 2031.

Management does not believe it is exposed to any uncertain tax positions as they are defined within accounting principles. Management does not believe there are tax positions for which it is reasonably possible that there will be a significant increase or decrease in the amounts of unrecognized tax benefits within 12 months of December 31, 2011. The Company will be required to file income tax returns with the United States federal jurisdiction and the State and City of New York beginning with the year ending December 31, 2011. Only tax returns for the tax year 2011 are open and, once filed, will be subject to examination by relevant tax jurisdictions.

Note 10. Lease Obligations

In July 2011, the Company entered into a license agreement with a non-affiliated third party to lease office space in New York City. The license is for a term of two years and five months and requires monthly payments in the amount of \$2,152.

Estimated occupancy expense for the remaining lease term based upon lease obligations at December 31, 2011 is as follows:

<u>Year</u>	<u>Amount</u>
2012	25,824
2013	25,824

Note 11. Contingencies

The Company retains the services of law firms that specialize in intellectual property licensing and enforcement and patent law in connection with their licensing and enforcement activities. These law firms may be retained on an hourly fee, contingent fee, or blended fee basis. In a contingency fee arrangement, law firms are paid a scaled percentage of any negotiated fees, settlements or judgments awarded, based on how and when the fees, settlements or judgments are obtained.

On September 15, 2011, I/P Engine filed a patent infringement action in the Eastern District of Virginia. The matter involves two patents related to search systems having content and collaborative filters, and alleges that defendants AOL, Inc., Google, Inc., IAC Search & Media, Inc., Gannett Company, Inc. and Target Corporation each infringe both patents at issue. The defendants filed their answers to the complaint on November 14, 2011, and also asserted declaratory judgment counterclaims of non-infringement and invalidity. On November 28, 2011, all defendants (except AOL, Inc., which asserted no such allegation) amended their counterclaims to remove an allegation of unenforceability. On December 5, 2011, I/P Engine filed answers to AOL's counterclaims. On December 9, 2011, I/P Engine filed answers to the counterclaims of the remaining defendants. At this stage of the litigation, the Company cannot assess the duration, cost or outcome of the infringement action.

(a) Parent agrees that it will, and will cause its Subsidiaries and Affiliates and each of their respective Representatives to, immediately cease and cause to be terminated any and all existing activities, discussions or negotiations with any persons conducted heretofore with respect to any Parent Acquisition Proposal (as defined herein). Except as expressly provided in this Section 4.3, Parent and each of its Subsidiaries and Affiliates shall not, and shall not authorize, permit or direct any of their respective Representatives to, directly or indirectly: (i) solicit, initiate, induce or take any action to facilitate, encourage, solicit, initiate or induce any relating to, or the submission, any Parent Acquisition Proposal; (ii) enter into, participate or engage in discussions or negotiations in any way with any Person concerning, any Parent Acquisition Proposal, (iii) furnish to any Person (other than the Company and its designees) any information relating to Parent or any of its Subsidiaries, or afford to any Person (other than the Company or its designees) access to the business, properties, assets, books, records or other information, or to any personnel, of Parent or any of its Subsidiaries, in any such case, with the intent to induce or solicit the making, submission or announcement of, or the intent to encourage or assist, a Parent Acquisition Proposal or any inquiries or the making of any proposal that would reasonably be expected to lead to a Parent Acquisition Proposal, (iv) approve, endorse or recommend a Parent Acquisition Proposal; (v) enter into any agreement in principle, letter or intent, term sheet, merger agreement, acquisition agreement or other similar instrument (whether binding or not) or Contract constituting or otherwise relating to a Parent Acquisition Proposal or requiring it to abandon, terminate or fail to consummate, or that is intended to or that would reasonably be expected to result in the abandonment of, termination of or failure to consummate, the Merger (other than an Acceptable NDA); or (vi) grant any approval pursuant to any Takeover Laws, including without limitation Section 203 of the DGCL, to any Person (other than as contemplated herein) or transaction (other than the Merger) or any waiver or release under any standstill or any similar agreement with respect to equity securities of Parent. Notwithstanding the foregoing sentence or any other provision of this Agreement, subject to compliance with Section 4.3(b), Parent or its Board of Directors may enter into discussions with any

Person in response to an unsolicited bona fide written Parent Acquisition Proposal by such Person, which Parent Acquisition Proposal was made after the date of this Agreement and did not result from a breach of this Section 4.3(a), if and only to the extent that and prior to engaging in any such discussions with such Person (x) the Board of Directors of the Parent determines in good faith after consultation with its outside legal counsel and other advisors, that such Parent Acquisition Proposal either constitutes or could reasonably be expected to lead to a Parent Superior Proposal and (y) the Parent's Board of Directors receives from such Person an Acceptable NDA.

(b) The Parent shall notify the Company orally as soon as practicable, and in writing, promptly (and in any event within 24 hours) after receipt by the Parent of (i) any Parent Acquisition Proposal or (ii) any inquiry or request for access to the properties, books, records or other information of the Parent by any Person that relates to or could reasonably be expected to lead to a Parent Acquisition Proposal and such notice shall indicate in reasonable detail the identity of the offeror, the terms and conditions of such proposal or inquiry and a copy of any written Parent Acquisition Proposal. The Parent shall promptly notify the Company of any discussions with any such Person regarding a Parent Acquisition Proposal and shall disclose the substance of such discussions and Parent shall otherwise keep the Company reasonably informed of the status of such Parent Acquisition Proposal, and any material changes to the terms thereof, and shall provide to the Company as soon as practicable and in any event within 24 hours after receipt by the Company copies of all written correspondence or other written material relating to such Parent Acquisition Proposal.

(c) Subject to the provisions of this Section 4.3, neither the Parent's Board of Directors nor any committee thereof shall (i) (A) withhold, withdraw, amend, qualify or modify in a manner adverse to the Company, or publicly propose to withhold, withdraw, amend, qualify or modify in a manner adverse to the Company, the Parent Board Recommendation, or (B) approve, adopt or recommend, or publicly propose to approve, adopt or recommend, any Parent Acquisition Proposal (any action described in clauses (A) and (B) as well as any failure by the Company to timely respond to the commencement of (i) a tender or exchange offer relating to any shares of Parent Common Stock by issuing a public statement reaffirming, filing a Schedule 14D-9 pursuant to Rule 14e-2 and Rule 14d-9 promulgated under the Exchange Act a statement reaffirming, and sending to Parent's stockholders, within 10 Business Days after the commencement of such tender or exchange offer, a statement reaffirming, the Parent Board Recommendation and (in the case of each such communication) disclosing that Parent's Board of Directors recommends rejection of such tender offer or exchange offer or (ii) a publicly announced Parent Acquisition Proposal by issuing, within 10 Business Days after such Parent Acquisition Proposal is announced, a press release that reaffirms the recommendation of Parent's Board of Directors that Parent's stockholders vote in favor of the Merger and the other transactions contemplated hereby, being referred to as a "**Parent Board Recommendation Change**") or (ii) enter into any agreement in principle, letter of intent, term sheet, merger agreement, acquisition agreement or other similar instrument (whether binding or not) or contract constituting or otherwise relating to a Parent Acquisition Proposal (other than an Acceptable NDA pursuant to Section 4.3(a)); provided, however, that a "stop, look and listen" communication by the Parent's Board of Directors (or committee thereof) to Parent's stockholders pursuant to Rule 14d-9(f) of the Exchange Act, or any substantially similar communication, shall not be deemed to be a Parent Board Recommendation Change. Notwithstanding the foregoing or anything to the contrary set forth in this Agreement, at any time prior to obtaining the Parent Stockholder Approval, the Parent's Board of Directors (or any committee thereof) may effect a Parent Board Recommendation Change if, at any time prior to the receipt of the Parent Stockholder Approval, (1) Parent has complied with its obligations under this Section 4.3 and (2) the Parent's Board of Directors (or any committee thereof) determines in good faith (after consultation with outside legal counsel) that as a result of (A) a Parent Superior Proposal or (B) an event, development or change in circumstances that occurs or arises following the date of this Agreement, the failure to effect a Parent Board Recommendation Change would be inconsistent with its fiduciary duties to Parent's stockholders.

(d) Nothing in this Agreement shall prohibit Parent's Board of Directors (or any committee thereof) from (i) taking and disclosing to Parent's stockholders a position contemplated by Rule 14e-2(a) under the Exchange Act or complying with the provisions of Rule 14d-9 promulgated under the

(i) **"Parent Acquisition Proposal"** means any offer, proposal, discussions, negotiations, indication of interest or inquiry (whether in writing or otherwise) by any Person (other than Company or any Affiliate thereof) in a transaction or series of related transactions (other than the transactions contemplated by this Agreement) relating to: (i) any issuance, sale or other disposition of (including by way of merger, consolidation, business combination, share exchange, recapitalization, joint venture, partnership or any similar transaction) securities (or options, rights or warrants to purchase, or securities convertible into or exchangeable for, such securities) representing 20% or more of the voting power or economic interests of Parent or any Subsidiary (including, for the avoidance of doubt, any issuance of equity securities of Parent), (ii) any tender offer, exchange offer, stock purchase or other transaction in which, if consummated, any person or "group" (as such term is defined under the Exchange Act) shall acquire beneficial ownership (as such term is defined in Rule 13d-3 under the Exchange Act), or the right to acquire beneficial ownership, of 20% or more of the voting power or economic interests of Parent or any Subsidiary, (iii) any direct or indirect sale, transfer, acquisition or disposition of more than 20% of the consolidated assets of Parent and its Subsidiaries taken as a whole (measured by the fair market value thereof), including by way of purchase of stock or other equity interests of the Subsidiaries or (iv) any merger, consolidation, share exchange, business combination, recapitalization, reorganization, liquidation, joint venture, dissolution or any similar transaction involving the Parent or any Subsidiary.

Whenever any Party hereto learns of the occurrence of any event or the existence of any fact which is required to be set forth in an amendment or supplement to the Registration Statement containing the Proxy Statement pursuant to applicable law, such party shall promptly inform the other of such event or fact and comply with all of its obligations pursuant to this Section 5.1(a) relating to effecting such amendment or supplement to the Registration Statement containing the Proxy Statement.

(b) As promptly as practicable after the date of this Agreement, the Parent shall prepare and file any other filings required under the Exchange Act, the Securities Act or any other federal or state securities laws relating to the Merger and other transactions contemplated by this Agreement (collectively, the “**Other Filings**”). 7.3 Fees and Expenses.

(a) Except as set forth in this Section 7.3, all fees and expenses incurred in connection with this Agreement and the transactions contemplated hereby shall be paid by the Party incurring such fees and expenses, whether or not the Merger is consummated.

(c) In the event that (i) the Company validly terminates this Agreement pursuant to Section 7.1(g) or (ii) Parent validly terminates this Agreement pursuant to Section 7.1(j)(A), then, in any such case, Parent shall pay to the Company, simultaneously with such termination of this Agreement, a fee (the “**Parent Termination Fee**”) equal to 5% of the consideration paid to all security holders of Parent in connection with the Parent Superior Proposal in the same form as such consideration is paid to such security holders (i.e., 5% of the cash, securities and any other form of consideration paid in connection with the Parent Superior Proposal), which Parent Termination Fee, to the extent it is cash, shall be payable by wire transfer of immediately available funds to an account specified by the Company; provided, that, notwithstanding anything to the contrary set forth herein, a Parent Termination Fee shall only be payable if the termination of this Agreement is in connection with or solely due to the Parent entering into an agreement for a Parent Superior Proposal.

(f) Each of the Company and Parent acknowledges and agrees that the agreements contained in this Section 7.3 are an integral part of the transactions contemplated by this Agreement, and that, without these agreements, neither the Company nor Parent would have entered into this Agreement; accordingly, if the Company or Parent fails promptly to pay the Parent Termination Fee or the Company Termination Fee when due pursuant to Section 7.3, and, in order to obtain such payment, either Parent or the Company, as applicable, commences an Action that results in an award against the Company or Parent, as applicable, for such fee, the Company or Parent, as applicable, shall pay the other Party its costs and expenses (including reasonable attorneys’ fees and expenses) in connection with such Action, together with interest on the amount of the applicable fee from the date such payment was required to be made until the date of payment at the prime lending rate as published in *The Wall Street Journal* in effect on the date such payment was required to be made. 8.2 Interpretation. When a reference is made in this Agreement to Sections, subsections, Schedules or Exhibits, such reference shall be to a Section, subsection, Schedule or Exhibit to this Agreement unless otherwise indicated. The words “include,” “includes” and “including” when used herein shall be deemed in each case to be followed by the words “without limitation.” The word “herein” and similar references mean, except where a specific Section or Article reference is expressly indicated, the entire Agreement rather than any specific Section or Article. The table of contents and the headings contained in this Agreement are for reference purposes only and shall not affect in any way the meaning or interpretation of this Agreement.

8.3 Severability. If any term or other provision of this Agreement is invalid, illegal or incapable of being enforced by any rule of law, or public policy, all other conditions and provisions of this Agreement shall nevertheless remain in full force and effect so long as the economic or legal substance of the transactions contemplated hereby is not affected in any manner adverse to any party. Upon such determination that any term or other provision is invalid, illegal or incapable of being enforced, the Parties shall negotiate in good faith to modify this Agreement so as to effect the original intent of the parties as closely as possible in an acceptable manner to the end that transactions contemplated hereby are fulfilled to the extent possible.

8.4 Entire Agreement. This Agreement (including all exhibits and schedules hereto and thereto), any non-disclosure or other agreement pertaining to the treatment of confidential information by and between the parties hereto (or any of them), and any other documents and instruments delivered in connection herewith constitute the entire agreement and supersede all prior agreements and undertakings, both written and oral, among the Parties with respect to the subject matter hereof.

8.5 Assignment. This Agreement shall not be assigned by operation of law or otherwise, except that Parent and Merger Sub may assign all or any of their rights hereunder to any Affiliate, provided that no such assignment shall relieve Parent or Merger Sub, as the case may be, of its obligations hereunder.

8.6 Parties in Interest. This Agreement shall be binding upon and inure solely to the benefit of each Party hereto, and nothing in this Agreement, express or implied, is intended to or shall confer upon any other Person any right, benefit or remedy of any nature whatsoever under or by reason of this Agreement; provided, however, that the provisions of Article I and Sections 5.9 and 5.10 are intended for the benefit of each of the individuals specified therein and their successors and assigns.

8.7 Failure or Indulgence Not Waiver; Remedies Cumulative. No failure or delay on the part of any Party in the exercise of any right hereunder will impair such right or be construed to be a waiver of, or acquiescence in, any breach of any representation, warranty or agreement herein, nor will any single or partial exercise of any such right preclude other or further exercise thereof or of any other right. All rights and remedies existing under this Agreement are cumulative to, and not exclusive to, and not exclusive of, any rights or remedies otherwise available.

8.8 Governing Law; Enforcement.

(a) This Agreement and the rights and duties of the Parties hereunder shall be governed by, and construed in accordance with, the law of the State of New York, except to the extent required under Delaware law.

It is accordingly agreed that the Parties shall be entitled to an injunction or injunctions to prevent breaches of this Agreement and to enforce specifically the terms and provisions of this Agreement in the state courts in the State of New York, this being in addition to any other remedy to which they are entitled at law or in equity. In addition, each of the Parties: (i) consents to submit itself to

FOR VALUE RECEIVED, INNOVATE/PROTECT, INC., a Delaware corporation (the “**Company**”), hereby promises to pay to HUDSON BAY MASTER FUND LTD. or registered assigns (the “**Holder**”) the amount set out above as the Original Principal Amount (as reduced pursuant to the terms hereof pursuant to redemption or otherwise, the “**Principal**”) when due, whether upon the Maturity Date (as defined below), acceleration, redemption or otherwise (in each case in accordance with the terms hereof) and to pay interest (“**Interest**”) on any outstanding Principal at the applicable Interest Rate from the date set out above as the Original Issuance Date (the “**Issuance Date**”) until the same becomes due and payable, whether upon an Interest Date (as defined below), the Maturity Date, acceleration, redemption or otherwise (in each case in accordance with the terms hereof). This Senior Secured Note (including all Senior Secured Notes issued in exchange, transfer or replacement hereof, this “**Note**”) was issued pursuant to the Subscription Agreement on June 22, 2011. Certain capitalized terms used herein are defined in Section 25.

(1) **PAYMENTS OF PRINCIPAL**. On the Maturity Date, the Company shall pay to the Holder an amount in cash representing all outstanding Principal, accrued and unpaid Interest and accrued and unpaid Late Charges on such Principal and Interest. The “**Maturity Date**” shall be June 22, 2013, as may be extended at the option of the Holder (i) in the event that, and for so long as, an Event of Default (as defined in Section 4(a)) shall have occurred and be continuing on the Maturity Date (as may be extended pursuant to this Section 1) or any event shall have occurred and be continuing on the Maturity Date (as may be extended pursuant to this Section 1) that with the passage of time and the failure to cure would result in an Event of Default and (ii) through the date that is ten (10) Business Days after the consummation of a Change of Control in the event that a Change of Control is publicly announced or a Change of Control Notice (as defined in Section 5(b)) is delivered prior to the Maturity Date. Other than as specifically permitted by this Note, the Company may not prepay any portion of the outstanding Principal, accrued and unpaid Interest or accrued and unpaid Late Charges on Principal and Interest, if any.

(2) **INTEREST; INTEREST RATE**. (a) Interest on this Note shall commence accruing on the Issuance Date and shall be computed on the basis of a 360-day year and twelve 30-day months and shall be payable in arrears on the first calendar day of each Calendar Quarter after the Issuance Date (each, an “**Interest Date**”)

with the first Interest Date being July 1, 2011. Interest shall be payable in cash on each Interest Date, to the record holder of this Note on the applicable Interest Date (“**Interest**”) It is understood and agreed that Interest has been paid through January 1, 2012.⁽¹⁾

(a) From and after the occurrence and during the continuance of an Event of Default, the Interest Rate shall be increased to eighteen percent (18%). In the event that such Event of Default is subsequently cured, the adjustment referred to in the preceding sentence shall cease to be effective as of the date of such cure; provided that the Interest as calculated and unpaid at such increased rate during the continuance of such Event of Default shall continue to apply to the extent relating to the days after the occurrence of such Event of Default through and including the date of cure of such Event of Default.

(3) **REGISTRATION; BOOK-ENTRY.** The Company shall maintain a register (the “**Register**”) for the recordation of the names and addresses of the holders of each Note and the principal amount of the Notes held by such holders (the “**Registered Notes**”). The entries in the Register shall be conclusive and binding for all purposes absent manifest error. The Company and the holders of the Notes shall treat each Person whose name is recorded in the Register as the owner of a Note for all purposes, including, without limitation, the right to receive payments of Principal and Interest, if any, hereunder, notwithstanding notice to the contrary. A Registered Note may be assigned or sold in whole or in part only by registration of such assignment or sale on the Register. Upon its receipt of a request to assign or sell all or part of any Registered Note by a Holder, the Company shall record the information contained therein in the Register and issue one or more new Registered Notes in the same aggregate principal amount as the principal amount of the surrendered Registered Note to the designated assignee or transferee pursuant to Section 13. Notwithstanding anything to the contrary in this Section 3, the Holder may assign any Note or any portion thereof to an Affiliate of such Holder or a related fund of such Holder without delivering a request to assign or sell such Note to the Company and the recordation of such assignment or sale in the Register (a “**Related Party Assignment**”); provided, that (x) the Company may continue to deal solely with such assigning or selling Holder unless and until such Holder has delivered a request to assign or sell such Note or portion thereof to the Company for recordation in the Register; (y) the failure of such assigning or selling Holder to deliver a request to assign or sell such Note or portion thereof to the Company shall not affect the legality, validity, or binding effect of such assignment or sale and (z) such assigning or selling Holder shall, acting solely for this purpose as a non-fiduciary agent of the Company, maintain a register (the “**Related Party Register**”) comparable to the Register on behalf of the Company, and any such assignment or sale shall be effective upon recordation of such assignment or sale in the Related Party Register.

(4) **RIGHTS UPON EVENT OF DEFAULT.**

(a) **Event of Default.** Each of the following events shall constitute an “**Event of Default**” upon receipt by the Company of a notice thereof by the Holder:

(B) appoints a Custodian of any Note Party or any of its Subsidiaries or (C) orders the liquidation of any Note Party or any of its Subsidiaries;

(v) a final judgment or judgments for the payment of money aggregating in excess of \$250,000 are rendered against any Note Party or any of its Subsidiaries and which judgments are not, within sixty (60) days after the entry thereof, bonded, discharged or stayed pending appeal, or are not discharged within sixty (60) days after the expiration of such stay; provided, however, that any judgment which is covered by insurance or an indemnity from a credit worthy party shall not be included in calculating the \$250,000 amount set forth above so long as the Company provides the Holder a written statement from such insurer or indemnity provider (which written statement shall be reasonably satisfactory to the Holder) to the effect that such judgment is covered by insurance or an indemnity and such Person will receive the proceeds of such insurance or indemnity within thirty (30) days of the issuance of such judgment;

(vi) any Note Party breaches any material representation, warranty, covenant or other term or condition of any Note Transaction Document;

(ix) any material provision of any Security Document (as determined by the Holder) shall at any time for any reason (other than pursuant to the express terms thereof) cease to be valid and binding on or enforceable against any Note Party or any Subsidiary intended to be a party thereto (except the guaranty obligations of Vringo, Ltd. with respect to the Guaranty to which it is a party), or the validity or enforceability thereof shall be contested by any party thereto, or a proceeding shall be commenced by any Note Party or any Subsidiary or any governmental authority having jurisdiction over any of them, seeking to establish the invalidity or unenforceability thereof, or any Note Party or any Subsidiary shall deny in writing that it has any liability or obligation purported to be created under any Security Document;

(x) any Security Document, after delivery thereof pursuant hereto, shall for any reason fail or cease to create a valid and perfected (except as otherwise provided by Section 5(n) of the Security Agreement) and, except to the extent permitted by the terms hereof or thereof, first priority Lien in favor of the Holder for the benefit of the holders of the Notes on any Collateral (as defined in the Security Agreement) purported to be covered thereby;

(b) **Redemption Right.** On and after a Default Date, with respect to this Note, the Company shall within one (1) Business Day deliver written notice thereof via facsimile and overnight courier (an “**Event of Default Notice**”) to the Holder. At any time after the earlier of the Holder’s receipt of an Event of Default Notice and the Default Date, the Holder may require the Company to redeem (an “**Event of Default Redemption**”) all or any portion of this Note by delivering written notice thereof (the “**Event of Default Redemption Notice**”) to the Company, which Event of Default Redemption Notice shall indicate the portion of this Note the Holder is electing to redeem; provided, that, an Event of Default Redemption Notice may only be delivered so long as an Event of Default is continuing. Each portion of this Note subject to redemption by the Company pursuant to this Section 4(b) shall be redeemed by the Company in cash at a price equal to 125% of the Redemption Amount to be redeemed (the “**Event of Default Redemption Price**”). Redemptions required by this Section 4(b) shall be made in accordance with the provisions of Section 8. To the extent redemptions required by this Section 4(b)

are deemed or determined by a court of competent jurisdiction to be prepayments of the Note by the Company, such redemptions shall be deemed to be voluntary prepayments. The parties hereto agree that in the event of the Company's redemption of any portion of the Note under this Section 4(b), the Holder's damages would be uncertain and difficult to estimate because of the parties' inability to predict future interest rates and the uncertainty of the availability of a suitable substitute investment opportunity for the Holder. Accordingly, any Event of Default redemption premium due under this Section 4(b) is intended by the parties to be, and shall be deemed, a reasonable estimate of the Holder's actual loss of its investment opportunity and not as a penalty.

(5) RIGHTS UPON FUNDAMENTAL TRANSACTION AND CHANGE OF CONTROL.

(a) Assumption. The Company shall not enter into or be party to a Fundamental Transaction unless the Successor Entity assumes in writing all of the obligations of the Company under this Note and the other Note Transaction Documents in accordance with the provisions of this Section 5(a) pursuant to written agreements in form and substance reasonably satisfactory to the Holder and approved by the Holder prior to such Fundamental Transaction, including agreements to deliver to each holder of Notes in exchange for such Notes a security of the Successor Entity evidenced by a written instrument substantially similar in form and substance to the Notes, including, without limitation, having a principal amount and interest rate equal to the principal amounts and the interest rates of the Note then outstanding held by such holder, having similar ranking and security to the Note, and satisfactory to the Holder. Upon the occurrence of any Fundamental Transaction, the Successor Entity shall succeed to, and be substituted for (so that from and after the date of such Fundamental Transaction, the provisions of this Note referring to the "Company" shall refer instead to the Successor Entity), and may exercise every right and power of the Company and shall assume all of the obligations of the Company under this Note with the same effect as if such Successor Entity had been named as the Company herein. The provisions of this Section shall apply similarly and equally to successive Fundamental Transactions and shall be applied without regard to any limitations on the redemption of this Note.

(b) Redemption Right. No sooner than fifteen (15) days nor later than ten (10) days prior to the consummation of a Change of Control, but not prior to the public announcement of such Change of Control, the Company shall deliver written notice thereof via facsimile and overnight courier to the Holder (a "**Change of Control Notice**"). At any time during the period beginning after the Holder's receipt of a Change of Control Notice and ending twenty (20) Business Days after the date of the consummation of such Change of Control, the Holder may require the Company to redeem (a "**Change of Control Redemption**") all or any portion of this Note by delivering written notice thereof ("**Change of Control Redemption Notice**", and the date thereof, the "**Change of Control Redemption Notice Date**") to the Company, which Change of Control Redemption Notice shall indicate the Redemption Amount the Holder is electing to require the Company to redeem. The portion of this Note subject to redemption pursuant to this Section 5(b) shall be redeemed by the Company in cash at a price equal to 125% of the Redemption Amount to be redeemed. Redemptions required by this Section 5 shall be made in accordance with the provisions of Section 8 and shall have priority to payments to stockholders in connection with a Change of Control. To the extent redemptions required by this Section 5(b) are deemed or determined by a court of competent jurisdiction to be prepayments of the Note by the Company, such redemptions shall be deemed to be voluntary prepayments. The parties hereto agree that in the event of the Company's redemption of any portion of the Note under this Section 5(b), the Holder's damages would be uncertain and difficult to estimate because of the parties' inability to predict future interest rates and the uncertainty of the availability of a suitable substitute investment opportunity for the Holder. Accordingly, any Change of Control redemption premium due under this Section 5(b) is intended by the parties to be, and shall be deemed, a reasonable estimate of the Holder's actual loss of its investment opportunity and not as a penalty.

(6) OPTIONAL REDEMPTION RIGHT. From and after the date upon which (i) the Company and its Subsidiaries has more than \$15,000,000 in the aggregate of cash and Cash Equivalents, the Holder may, within 10 days of receipt of the Optional Redemption Notice, require the Company to redeem up to 50% of the outstanding principal amount of this Note, (ii) the Company and its Subsidiaries has more than \$20,000,000 in the aggregate of cash and Cash Equivalents, the Holder may, within 10 days of receipt of the

Optional Redemption Notice, require the Company to redeem up to 100% of the outstanding principal of this Note, (iii) the Company and its Subsidiaries receives proceeds in excess of \$500,000 in the aggregate (for all such transactions after the Amendment and Restatement Date of this Note) from the issuance of any equity or indebtedness of the Company or any of its Subsidiaries (excluding any proceeds received upon the exercise of options or warrants which are outstanding on the day immediately preceding the Amendment and Restatement Date, provided that the terms of such options or warrants are not amended, modified or changed on or after the Amendment and Restatement Date), the Holder may, within 10 days of receipt of the Optional Redemption Notice, require the Company to redeem the outstanding principal under this Note in an amount equal to up to 20% of the proceeds of the issuance of any such equity or indebtedness (each such occurrence described in clauses (i) through (iii) above, an “**Optional Redemption**”), in each case by delivering written notice thereof (the “**Optional Redemption Notice**”) to the Company within the time periods set forth above, which Optional Redemption Notice shall indicate the portion of this Note the Holder is electing to redeem. Each portion of this Note subject to redemption by the Company pursuant to this Section 6 shall be redeemed by the Company in cash at a price equal to 100% of the Redemption Amount to be redeemed (the “**Optional Redemption Price**”). Redemptions required by this Section 6 shall be made in accordance with the provisions of Section 8. To the extent redemptions required by this Section 6 are deemed or determined by a court of competent jurisdiction to be prepayments of the Note by the Company, such redemptions shall be deemed to be voluntary prepayments. The parties hereto agree that in the event of the Company’s redemption of any portion of the Note under this Section 6, the Holder’s damages would be uncertain and difficult to estimate because of the parties’ inability to predict future interest rates and the uncertainty of the availability of a suitable substitute investment opportunity for the Holder.

(7) NONCIRCUMVENTION. The Company hereby covenants and agrees that the Company will not, by amendment of its Certificate of Incorporation, Bylaws or through any reorganization, transfer of assets, consolidation, merger, scheme of arrangement, dissolution, issue or sale of securities, or any other voluntary action, avoid or seek to avoid the observance or performance of any of the terms of this Note, and will at all times in good faith carry out all of the provisions of this Note and take all action as may be required to protect the rights of the Holder of this Note.

(8) REDEMPTIONS. The Company shall deliver the applicable Event of Default Redemption Price to the Holder within five (5) Business Days after the Company’s receipt of the Holder’s Event of Default Redemption Notice (the “**Event of Default Redemption Date**”). If the Holder has submitted a Change of Control Redemption Notice in accordance with Section 5(b), the Company shall deliver the applicable Change of Control Redemption Price to the Holder (i) concurrently with the consummation of such Change of Control if such notice is received prior to the consummation of such Change of Control and (ii) within five (5) Business Days after the Company’s receipt of such notice otherwise (such date, the “**Change of Control Redemption Date**”). The Company shall deliver the applicable Optional Redemption Price to the Holder within five (5) Business Days after the Company’s receipt of the Holder’s Optional Redemption Notice (the “**Optional Redemption Date**”). In the event of a redemption of less than all of the Redemption Amount of this Note, the Company shall promptly cause to be issued and delivered to the Holder a new Note (in accordance with Section 13(d)) representing the outstanding Principal which has not been redeemed. In the event that the Company does not pay the applicable Redemption Price to the Holder within the time period required, at any time thereafter and until the Company pays such unpaid Redemption Price in full, the Holder shall have the option, in lieu of redemption, to require the Company to promptly return to the Holder all or any portion of this Note representing the Redemption Amount that was submitted for redemption and for which the applicable Redemption Price (together with any Late Charges thereon) has not been paid. Upon the Company’s receipt of such notice, (x) the applicable Redemption Notice shall be null and void with respect to such Redemption Amount, (y) the Company shall immediately return this Note, or issue a new Note (in accordance with Section 13(d)) to the Holder representing such Redemption Amount to be redeemed. The Holder’s delivery of a notice voiding a Redemption Notice and exercise of its rights following such notice shall not affect the Company’s obligations to make any payments of Late Charges which have accrued prior to the date of such notice with respect to the Redemption Amount subject to such notice.

(i) Any and all payments made by the Corporation hereunder, including any on account of Interest or Late Charges, must be made by it without any a deduction or withholding for or on account of any tax, levy, impost, duty or other charge or withholding of a similar nature (including any related penalty or interest) from a payment under this Note (a “**Tax Deduction**”), unless a Tax Deduction is required by law. If the Corporation is aware that it must make a Tax Deduction (or that there is a change in the rate or the basis of a Tax Deduction), it must notify the Holder promptly.

(ii) If the Corporation is required to make a Tax Deduction from or in respect to any sum payable hereunder to the Holder, (i) the sum payable shall be increased by the amount by which the sum payable would otherwise have to be increased (the “**tax gross up amount**”) to ensure that after making all required deductions (including deductions applicable to the tax gross-up amount) the Holder would receive an amount equal to the sum it would have received had no such Tax Deductions been made, (ii) the Company shall make such Tax Deductions and (iii) the Company shall pay the full amount withheld or deducted to the applicable governmental authority within the time required. Amounts set forth or provided for herein with respect to payments, redemption and the like (and the computation thereof) shall be the amounts to be received by the Holder and shall not, except as expressly provided herein, be subject to any other obligation of the Company (or the performance thereof). The Company acknowledges that a breach by it of its obligations hereunder will cause irreparable harm to the Holder and that the remedy at law for any such breach may be inadequate. The Company therefore agrees that, in the event of any such breach or threatened breach, the Holder shall be entitled, in addition to all other available remedies, to an injunction restraining any breach, without the necessity of showing economic loss and without any bond or other security being required.

(16) PAYMENT OF COLLECTION, ENFORCEMENT AND OTHER COSTS. If (a) this Note is placed in the hands of an attorney for collection or enforcement or is collected or enforced through any legal proceeding or the Holder otherwise takes action to collect amounts due under this Note or to enforce the provisions of this Note or (b) there occurs any bankruptcy, reorganization, receivership of the Company or other proceedings affecting Company creditors’ rights and involving a claim under this Note, then the Company shall pay the costs incurred by the Holder for such collection, enforcement or action or in connection with such bankruptcy, reorganization, receivership or other proceeding, including, but not limited to, attorneys’ fees and disbursements.

Such Grantor will promptly furnish to the Buyer a statement describing in reasonable detail any such loss or damage in excess of \$25,000 to any Equipment.

(d) Taxes, Etc. Each Grantor agrees to pay promptly when due all property and other taxes, assessments and governmental charges or levies imposed upon, and all claims (including claims for labor, materials and supplies) against, the Equipment and Inventory, except to the extent the validity thereof is being contested in good faith by proper proceedings which stay the imposition of any penalty, fine or Lien resulting from the non-payment thereof and with respect to which adequate reserves in accordance with GAAP have been set aside for the payment thereof.

(e) Insurance.

(i) Each Grantor will, at its own expense, maintain insurance (including, without limitation, commercial general liability and property insurance) with respect to the Equipment and Inventory in such amounts, against such risks, in such form and with responsible and reputable insurance companies or associations as is required by any governmental authority having jurisdiction with respect thereto or as is carried by such Grantor as of the date hereof and in any event, in amount, adequacy and scope reasonably satisfactory to the Buyer. Each such policy for liability insurance shall provide for all losses to be paid on behalf of the Buyer and such Grantor as their respective interests may appear, and each policy for property damage insurance shall provide for all losses to be adjusted with, and paid directly to, the Buyer. Each such policy shall in addition (A) name the Buyer as an additional insured party thereunder (without any representation or warranty by or obligation upon the Buyer) as their interests may appear, (B) contain an agreement by the insurer that any loss thereunder shall be payable to the Buyer on its own account notwithstanding any action, inaction or breach of representation or warranty by such Grantor, (C) provide that there shall be no recourse against the Buyer for payment of premiums or other amounts with respect thereto, and (D) provide that at least 30 days' prior written notice of cancellation, lapse, expiration or other adverse change shall be given to the Buyer by the insurer. Any such securities, cash, investments and other items so received by the Buyer shall (in the sole and absolute discretion of the Buyer) be held as additional Collateral for the Obligations or distributed in accordance with Section 7 hereof.

(iii) Upon the occurrence and during the continuance of any breach or default under any material License referred to in Schedule II hereto by any party thereto other than a Grantor, the Grantor party thereto will, promptly after obtaining knowledge thereof, give the Buyer written notice of the nature and duration thereof, specifying what action, if any, it has taken and proposes to take with respect thereto and thereafter will take reasonable steps to protect and preserve its rights and remedies in respect of such breach or default, or will obtain or acquire an appropriate substitute License.

(iv) Each Grantor will, at its expense, promptly deliver to the Buyer a copy of each notice or other communication received by it by which any other party to any material License referred to in Schedule II hereto purports to exercise any of its rights or affect any of its obligations thereunder, together with a copy of any reply by such Grantor thereto.

(i) Except as otherwise set forth herein, if applicable, each Grantor shall, upon the Buyer's written request, duly execute and delivered the applicable Assignment for Security in the form attached hereto as Exhibit A. Each Grantor (either itself or through licensees) will, and will cause each licensee thereof to, take all action necessary to maintain all of the Intellectual Property in full force and effect, including, without limitation, using the proper statutory notices and markings and using the Trademarks on each applicable trademark class of goods in order to so maintain the Trademarks in full force and free from any claim of abandonment for non-use, and such Grantor will not (nor permit any licensee thereof to) do any act or knowingly omit to do any act whereby any Intellectual Property may become invalidated; provided, however, that so long as no Event of Default has occurred and is continuing, such Grantor shall not have an obligation to use or to maintain any Intellectual Property (A) that relates solely to any product or work, that has been, or is in the process of being, discontinued, abandoned or terminated, (B) that is being replaced with Intellectual Property substantially similar to the Intellectual Property that may be abandoned or otherwise become invalid, so long as the failure to use or maintain such Intellectual Property does not materially adversely affect the validity of such replacement Intellectual Property and so long as such replacement Intellectual Property is subject to the Lien created by this Agreement or (C) that is substantially the same as another Intellectual Property that is in full force, so long the failure to use or maintain such Intellectual Property does not materially adversely affect the validity of such replacement Intellectual Property and so long as such other Intellectual Property is subject to the Lien and security interest created by this Agreement. Each Grantor will cause to be taken all necessary steps in any proceeding before the United States Patent and Trademark Office and the United States Copyright Office or any similar office or agency in any other country or political subdivision thereof to maintain each registration of the Intellectual Property (other than the Intellectual Property described in the proviso to the immediately preceding sentence), including, without limitation, filing of renewals, affidavits of use, affidavits of incontestability and opposition, interference and cancellation proceedings and payment of maintenance fees, filing fees, taxes or other governmental fees in the ordinary course of business. If any Intellectual Property (other than Intellectual Property described in the proviso to the first sentence of subsection (i) of this clause (h)) is infringed, misappropriated, diluted or otherwise violated in any material respect by a third party, such Grantor shall (x) upon learning of such infringement, misappropriation, dilution or other violation, promptly notify the Buyer and (y) to the extent such Grantor shall deem appropriate under the circumstances, promptly sue for infringement, misappropriation, dilution or other violation, seek injunctive relief where appropriate and recover any and all damages for such infringement, misappropriation, dilution or other violation, or take such other actions as such Grantor shall deem appropriate under the circumstances to protect such Intellectual Property. Each Grantor shall furnish to the Buyer from time to time upon its request statements and schedules further identifying and describing the Intellectual Property and Licenses and such other reports in connection with the

Notwithstanding anything herein to the contrary, upon the occurrence and during the continuance of an Event of Default, such Grantor may not abandon or otherwise permit any Intellectual Property to become invalid without the prior written consent of the Buyer, and if any Intellectual Property is infringed, misappropriated, diluted or otherwise violated in any material respect by a third party, such Grantor will take such action as the Buyer shall deem appropriate under the circumstances to protect such Intellectual Property.

(ii) In no event shall a Grantor, either itself or through any agent, employee, licensee or designee, file an application for the registration of any Trademark or Copyright or the issuance of any Patent with the United States Patent and Trademark Office or the United States Copyright Office, as applicable, or in any similar office or agency of the United States or any country or any political subdivision thereof unless it gives the Buyer prior written notice thereof. Upon request of the Buyer, but except as otherwise set forth herein, each Grantor shall execute, authenticate and deliver any and all assignments, agreements, instruments, documents and papers as the Buyer may reasonably request to evidence the Buyer's security interest hereunder in such Intellectual Property and the General Intangibles of such Grantor relating thereto or represented thereby, and such Grantor hereby appoints the Buyer its attorney-in-fact to execute and/or authenticate and file all such writings for the foregoing purposes, all acts of such attorney being hereby ratified and confirmed, and such power (being coupled with an interest) shall be irrevocable until the indefeasible payment in full in cash of all obligations under the Note (together with any matured indemnification obligations as of the date of such payment, but excluding any inchoate or unmatured contingent indemnification obligations).

(iii) Upon the Buyer's request, each Grantor shall cause each domain registrar where any of such Grantor's Internet domain names are registered, whether as of the date of this Agreement or at any time hereafter, to execute and deliver to the Buyer a domain name control agreement, in form and substance reasonably satisfactory to the Buyer, duly executed by such Grantor and such domain registrar, or enter into other arrangements in form and substance satisfactory to the Buyer, pursuant to which such domain registrar shall irrevocably agree, inter alia, that (i) it will comply at any time with the instructions originated by the Buyer to such domain registrar directing substitution of the Buyer or its designee as the registered owner of such Internet domain names, without further consent of such Grantor, which instructions the Buyer will not give to such domain registrar in the absence of a continuing Event of Default.

(i) Deposit, Commodities and Securities Accounts. Upon the Buyer's request, each Grantor shall cause each bank and other financial institution with an account referred to in Schedule IV hereto to execute and deliver to the Buyer a control agreement, in form and substance reasonably satisfactory to the Buyer, duly executed by such Grantor and such bank or financial institution, or enter into other arrangements in form and substance satisfactory to the Buyer, pursuant to which such institution shall irrevocably agree, inter alia, that (i) it will comply at any time with the instructions originated by the Buyer to such bank or financial institution directing the disposition of cash, Commodity Contracts, securities, Investment Property and other items from time to time credited to such account, without further consent of such Grantor, which instructions the Buyer will not give to such bank or other financial institution in the absence of a continuing Event of Default, (ii) all cash, Commodity Contracts, securities, Investment Property and other items of such Grantor deposited with such institution shall be subject to a perfected, first priority security interest in favor of the Buyer, (iii) any right of set off, banker's Lien or other similar Lien, security interest or encumbrance shall be fully waived as against the Buyer, and (iv) upon receipt of written notice from the Buyer during the continuance of an Event of

Default, such bank or financial institution shall immediately send to the Buyer by wire transfer (to such account as the Buyer shall specify, or in such other manner as the Buyer shall direct) all such cash, the value of any Commodity Contracts, securities, Investment Property and other items held by it. Without the prior written consent of the Buyer, such Grantor shall not make or maintain any Deposit Account, Commodity Account or Securities Account except for the accounts set forth in Schedule IV hereto. The provisions of this paragraph 5(i) shall not apply to (i) Deposit Accounts for which the Buyer is the depository and (ii) Deposit Accounts specially and exclusively used for payroll, payroll taxes and other employee wage and benefit payments to or for the benefit of a Grantor's salaried employees.

(j) Motor Vehicles.

(i) Upon the Buyer's written request, each Grantor shall deliver to the Buyer originals of the certificates of title or ownership for all motor vehicles owned by it with the Buyer listed as lienholder.

(ii) Each Grantor hereby appoints the Buyer as its attorney-in-fact, effective the date hereof and terminating upon the termination of this Agreement, for the purpose of (A) executing on behalf of such Grantor title or ownership applications for filing with appropriate state agencies to enable motor vehicles now owned or hereafter acquired by such Grantor to be retitled and the Buyer listed as lienholder thereof, (B) filing such applications with such state agencies, and (C) executing such other documents and instruments on behalf of, and taking such other action in the name of, such Grantor as the Buyer may deem necessary or advisable to accomplish the purposes hereof (including, without limitation, for the purpose of creating in favor of the Buyer a perfected Lien on the motor vehicles and exercising the rights and remedies of the Buyer hereunder). This appointment as attorney-in-fact is coupled with an interest and is irrevocable until the indefeasible payment in full in cash of all obligations under the Note (together with any matured indemnification obligations as of the date of such payment, but excluding any inchoate or unmatured contingent indemnification obligations).

(iii) Any certificates of title or ownership delivered pursuant to the terms hereof shall be accompanied by odometer statements for each motor vehicle covered thereby.

(iv) So long as no Event of Default shall have occurred and be continuing, upon the request of such Grantor, the Buyer shall execute and deliver to such Grantor such instruments as such Grantor shall reasonably request to remove the notation of the Buyer as lienholder on any certificate of title for any motor vehicle; provided, however, that any such instruments shall be delivered, and the release effective, only upon receipt by the Buyer of a certificate from such Grantor stating that such motor vehicle is to be sold or has suffered a casualty loss (with title thereto passing to the casualty insurance company therefor in settlement of the claim for such loss) and the amount that such Grantor will receive as sale proceeds or insurance proceeds. Any proceeds of such sale or casualty loss shall be paid to the Buyer hereunder immediately upon receipt, to be applied to the Obligations then outstanding.

(k) Control. Each Grantor hereby agrees to take any or all action that may be necessary or desirable or that the Buyer may request in order for the Buyer to obtain control in accordance with Sections 9-105 – 9-107 of the Code with respect to the following Collateral: (i) Electronic Chattel Paper, (ii) Investment Property, (iii) Pledged Interests and (iv) Letter-of-Credit Rights.

(l) Inspection and Reporting. Each Grantor shall permit the Buyer, or any agent or representatives thereof or such professionals or other Persons as the Buyer may designate, not more than once a year in the absence of an Event of Default, (i) to examine and make copies of and abstracts from such Grantor's records and books of account, (ii) to visit and inspect its properties, (iii) to verify materials, leases, Instruments, Accounts, Inventory and other assets of such Grantor from time to time, (iii) to conduct audits, physical counts, appraisals and/or valuations, examinations at the locations of such Grantor. Each Grantor shall also permit the Buyer, or any agent or representatives thereof or such professionals or other

Persons as the Buyer may designate to discuss such Grantor's affairs, finances and accounts with any of its officers subject to the execution by the Buyer or its designee(s) of a mutually agreeable confidentiality agreement.

(m) Future Subsidiaries. If any Grantor shall hereafter create or acquire any Subsidiary, simultaneously with the creation of acquisition of such Subsidiary, such Grantor shall cause such Subsidiary to become a party to this Agreement as an additional "Grantor" hereunder, and to duly execute and/or deliver such opinions of counsel and other documents, in form and substance acceptable to the Buyer, as the Buyer shall reasonably request with respect thereto.

(n) The Company and Vringo Israel. Notwithstanding anything contained in this Agreement, the Company and Vringo Israel shall not be required to take any action, including, without limitation, to perfect any lien on or security interest in, or otherwise protect or enforce the rights of the Buyer in, the Collateral, provided that, on and after the Default Date and so long as an Event of Default is continuing, the Buyer, in its sole discretion, may require the Company or Vringo Israel to take any and all actions necessary or desirable in order to perfect its liens on and security interests in the Collateral and otherwise, to comply with the other covenants related to actions to be taken in respect of further insuring the attachment, perfection and priority of, or the ability of the Buyer to enforce the security interests in, the Collateral.

SECTION 6. Additional Provisions Concerning the Collateral. Subject to Section 5(n)

(a) Each Grantor hereby (i) authorizes the Buyer to file one or more Uniform Commercial Code financing or continuation statements, and amendments thereto, relating to the Collateral, and (ii) ratifies such authorization to the extent that the Buyer has filed any such financing or continuation statements, or amendments thereto, prior to the date hereof. A photocopy or other reproduction of this Agreement or any financing statement covering the Collateral or any part thereof shall be sufficient as a financing statement where permitted by law.

(b) Each Grantor hereby irrevocably appoints the Buyer as its attorney-in-fact and proxy, with full authority in the place and stead of such Grantor and in the name of such Grantor or otherwise, from time to time in the Buyer's discretion, so long as an Event of Default shall have occurred and is continuing, to take any action and to execute any instrument which the Buyer may deem necessary or advisable to accomplish the purposes of this Agreement (subject to the rights of such Grantor under Section 5 hereof), including, without limitation, (i) to obtain and adjust insurance required to be paid to the Buyer pursuant to Section 5(e) hereof, (ii) to ask, demand, collect, sue for, recover, compound, receive and give acquittance and receipts for moneys due and to become due under or in respect of any Collateral, (iii) to receive, endorse, and collect any drafts or other instruments, documents and chattel paper in connection with clause (i) or (ii) above, (iv) to file any claims or take any action or institute any proceedings which the Buyer may deem necessary or desirable for the collection of any Collateral or otherwise to enforce the rights of the Buyer with respect to any Collateral, and (v) to execute assignments, licenses and other documents to enforce the rights of the Buyer with respect to any Collateral. This power is coupled with an interest and is irrevocable until the indefeasible payment in full in cash of all obligations under the Note (together with any matured indemnification obligations as of the date of such payment, but excluding any inchoate or unmatured contingent indemnification obligations).

(c) For the purpose of enabling the Buyer to exercise rights and remedies hereunder, at such time as the Buyer shall be lawfully entitled to exercise such rights and remedies upon and during an Event of Default, and for no other purpose, each Grantor hereby grants to the Buyer, to the extent assignable, an irrevocable, non-exclusive license (exercisable without payment of royalty or other compensation to such Grantor) to use, assign, license or sublicense any Intellectual Property now owned or hereafter acquired by such Grantor, wherever the same may be located, including in such license reasonable access to all media in which any of the licensed items may be recorded or stored and to all computer programs used for the compilation or printout thereof. Notwithstanding anything contained herein to the contrary, so long as no Event of Default shall have occurred and be continuing, such Grantor may exploit, use, enjoy, protect, license, sublicense, assign, sell, dispose of or take other actions with respect to the Intellectual Property in the ordinary course of its business. In furtherance of the foregoing, unless an Event of

Default shall have occurred and be continuing, the Buyer shall from time to time, upon the request of a Grantor, execute and deliver any instruments, certificates or other documents, in the form so requested, which such Grantor shall have certified are appropriate (in such Grantor's judgment) to allow it to take any action permitted above (including relinquishment of the license provided pursuant to this clause (c) as to any Intellectual Property). Further, upon the indefeasible payment in full in cash of all obligations under the Note (together with any matured indemnification obligations as of the date of such payment, but excluding any inchoate or unmatured contingent indemnification obligations), the Buyer (subject to Section 10(e) hereof) shall release and reassign to such Grantor all of the Buyer's right, title and interest in and to the Intellectual Property, and the Licenses, all without recourse, representation or warranty whatsoever. The exercise of rights and remedies hereunder by the Buyer shall not terminate the rights of the holders of any licenses or sublicenses theretofore granted by such Grantor in accordance with the second sentence of this clause (c). Each Grantor hereby releases the Buyer from any claims, causes of action and demands at any time arising out of or with respect to any actions taken or omitted to be taken by the Buyer under the powers of attorney granted herein other than actions taken or omitted to be taken through the Buyer's gross negligence or willful misconduct, as determined by a final determination of a court of competent jurisdiction.

(d) If a Grantor fails to perform any agreement contained herein, the Buyer may itself perform, or cause performance of, such agreement or obligation, in the name of such Grantor or the Buyer, and the expenses of the Buyer incurred in connection therewith shall be payable by such Grantor pursuant to Section 8 hereof and shall be secured by the Collateral.

(e) The powers conferred on the Buyer hereunder are solely to protect its interest in the Collateral and shall not impose any duty upon it to exercise any such powers. Except for the safe custody of any Collateral in its possession and the accounting for moneys actually received by it hereunder, the Buyer shall have no duty as to any Collateral or as to the taking of any necessary steps to preserve rights against prior parties or any other rights pertaining to any Collateral.

(f) Anything herein to the contrary notwithstanding (i) each Grantor shall remain liable under the Licenses and otherwise with respect to any of the Collateral to the extent set forth therein to perform all of its obligations thereunder to the same extent as if this Agreement had not been executed, (ii) the exercise by the Buyer of any of its rights hereunder shall not release such Grantor from any of its obligations under the Licenses or otherwise in respect of the Collateral, and (iii) the Buyer shall not have any obligation or liability by reason of this Agreement under the Licenses or with respect to any of the other Collateral, nor shall the Buyer be obligated to perform any of the obligations or duties of such Grantor thereunder or to take any action to collect or enforce any claim for payment assigned hereunder.

SECTION 7. Remedies Upon Event of Default. If any Event of Default shall have occurred and be continuing:

(a) The Buyer may exercise in respect of the Collateral, in addition to any other rights and remedies provided for herein or otherwise available to it, all of the rights and remedies of a secured party upon default under the Code (whether or not the Code applies to the affected Collateral), and also may (i) take absolute control of the Collateral, including, without limitation, transfer into the Buyer's name or into the name of its nominee or nominees (to the extent the Buyer has not theretofore done so) and thereafter receive, for the benefit of the Buyer, all payments made thereon, give all consents, waivers and ratifications in respect thereof and otherwise act with respect thereto as though it were the outright owner thereof, (ii) require each Grantor to, and each Grantor hereby agrees that it will at its expense and upon request of the Buyer forthwith, assemble all or part of its respective Collateral as directed by the Buyer and make it available to the Buyer at a place or places to be designated by the Buyer that is reasonably convenient to both parties, and the Buyer may enter into and occupy any premises owned or leased by such Grantor where the Collateral or any part thereof is located or assembled for a reasonable period in order to effectuate the Buyer's rights and remedies hereunder or under law, without obligation to such Grantor in respect of such occupation, and (iii) without notice except as specified below and without any obligation to prepare or process the Collateral for sale, (A) sell the Collateral or any part thereof in one or more parcels at public or private sale, at any of the Buyer's offices or elsewhere, for cash, on credit or

for future delivery, and at such price or prices and upon such other terms as the Buyer may deem commercially reasonable and/or (B) lease, license or dispose of the Collateral or any part thereof upon such terms as the Buyer may deem commercially reasonable. Each Grantor agrees that, to the extent notice of sale or any other disposition of its respective Collateral shall be required by law, at least ten (10) days' notice to such Grantor of the time and place of any public sale or the time after which any private sale or other disposition of its respective Collateral is to be made shall constitute reasonable notification. The Buyer shall not be obligated to make any sale or other disposition of any Collateral regardless of notice of sale having been given. The Buyer may adjourn any public or private sale from time to time by announcement at the time and place fixed therefor, and such sale may, without further notice, be made at the time and place to which it was so adjourned. Each Grantor hereby waives any claims against the Buyer arising by reason of the fact that the price at which its respective Collateral may have been sold at a private sale was less than the price which might have been obtained at a public sale or was less than the aggregate amount of the Obligations, even if the Buyer accepts the first offer received and does not offer such Collateral to more than one offeree, and waives all rights that such Grantor may have to require that all or any part of such Collateral be marshalled upon any sale (public or private) thereof. Each Grantor hereby acknowledges that (i) any such sale of its respective Collateral by the Buyer shall be made without warranty, (ii) the Buyer may specifically disclaim any warranties of title, possession, quiet enjoyment or the like, and (iii) such actions set forth in clauses (i) and (ii) above shall not adversely effect the commercial reasonableness of any such sale of Collateral. In addition to the foregoing, (1) upon written notice to any Grantor from the Buyer, such Grantor shall cease any use of the Intellectual Property or any trademark, patent or copyright similar thereto for any purpose described in such notice; (2) the Buyer may, at any time and from time to time, upon 10 days' prior notice to such Grantor, license, whether general, special or otherwise, and whether on an exclusive or non-exclusive basis, any of the Intellectual Property, throughout the universe for such term or terms, on such conditions, and in such manner, as the Buyer shall in its sole discretion determine to the extent consistent with any restrictions or conditions imposed upon such Grantor with respect to such Intellectual Property by license or other contractual arrangement; and (3) the Buyer may, at any time, pursuant to the authority granted in Section 6 hereof (such authority being effective upon the occurrence and during the continuance of an Event of Default), execute and deliver on behalf of such Grantor, one or more instruments of assignment of the Intellectual Property (or any application or registration thereof), in form suitable for filing, recording or registration in any country.

(b) Any cash held by the Buyer as Collateral and all Cash Proceeds received by the Buyer in respect of any sale of or collection from, or other realization upon, all or any part of the Collateral may, in the discretion of the Buyer, be held by the Buyer as collateral for, and/or then or at any time thereafter applied (after payment of any amounts payable to the Buyer pursuant to Section 8 hereof) in whole or in part by the Buyer against, all or any part of the Obligations in such order as the Buyer shall elect. Any surplus of such cash or Cash Proceeds held by the Buyer and remaining after the indefeasible payment in full in cash of all obligations under the Note (together with any matured indemnification obligations as of the date of such payment, but excluding any inchoate or unmatured contingent indemnification obligations) shall be paid over to whomsoever shall be lawfully entitled to receive the same or as a court of competent jurisdiction shall direct.

(c) In the event that the proceeds of any such sale, collection or realization are insufficient to pay all amounts to which the Buyer is legally entitled, each Grantor shall be liable for the deficiency, together with interest thereon at the highest rate specified in any of the applicable Note Transaction Documents for interest on overdue principal thereof or such other rate as shall be fixed by applicable law, together with the costs of collection and the reasonable fees, costs, expenses and other client charges of any attorneys employed by the Buyer to collect such deficiency.

(d) Each Grantor hereby acknowledges that if the Buyer complies with any applicable state, provincial, or federal law requirements in connection with a disposition of the Collateral, such compliance will not adversely affect the commercial reasonableness of any sale or other disposition of the Collateral.

(e) The Buyer shall not be required to marshal any present or future collateral security (including, but not limited to, this Agreement and the Collateral) for, or other assurances of payment of, the Obligations or any of them or to resort to such collateral security or other assurances of payment in any particular order, and all of the Buyer's rights hereunder and in respect of such collateral security and other assurances of payment shall be cumulative and in addition to all other rights, however existing or arising. To the extent that each Grantor lawfully may, such Grantor hereby agrees that it will not invoke any law relating to the marshalling of collateral which might cause delay in or impede the enforcement of the Buyer's rights under this Agreement or under any other instrument creating or evidencing any of the Obligations or under which any of the Obligations is outstanding or by which any of the Obligations is secured or payment thereof is otherwise assured, and, to the extent that it lawfully may, such Grantor hereby irrevocably waives the benefits of all such laws.

SECTION 8. Indemnity and Expenses.

(a) Each Grantor agrees, jointly and severally, to defend, protect, indemnify and hold the Buyer harmless from and against any and all claims, damages, losses, liabilities, obligations, penalties, fees, costs and expenses (including, without limitation, reasonable legal fees, costs, expenses, and disbursements of such Person's counsel) to the extent that they arise out of or otherwise result from this Agreement (including, without limitation, enforcement of this Agreement), except claims, losses or liabilities resulting solely and directly from such Person's gross negligence or willful misconduct, as determined by a final judgment of a court of competent jurisdiction.

(b) Each Grantor agrees, jointly and severally, to upon demand pay to the Buyer the amount of any and all costs and expenses, including the reasonable fees, costs, expenses and disbursements of counsel for the Buyer and of any experts and agents (including, without limitation, any collateral trustee which may act as agent of the Buyer), which the Buyer may incur in connection with (i) the preparation, negotiation, execution, delivery, recordation, administration, amendment, waiver or other modification or termination of this Agreement, (ii) the custody, preservation, use or operation of, or the sale of, collection from, or other realization upon, any Collateral, (iii) the exercise or enforcement of any of the rights of the Buyer hereunder, or (iv) the failure by any Grantor to perform or observe any of the provisions hereof.

SECTION 9. Notices, Etc. All notices and other communications provided for hereunder shall be in writing and shall be mailed (by certified mail, postage prepaid and return receipt requested), telecopied or delivered, if to a Grantor at its address specified below and if to the Buyer to it, at its address specified below; or as to any such Person, at such other address as shall be designated by such Person in a written notice to such other Person complying as to delivery with the terms of this Section 9. All such notices and other communications shall be effective (a) if sent by certified mail, return receipt requested, when received or five days after deposited in the mails, whichever occurs first, (b) if telecopied, when transmitted (during normal business hours) and confirmation is received, otherwise, the day after the notice was transmitted if confirmation is received, or (c) if delivered, upon delivery.

SECTION 10. Miscellaneous.

(a) No amendment of any provision of this Agreement shall be effective unless it is in writing and signed by each Grantor and the Buyer, and no waiver of any provision of this Agreement, and no consent to any departure by a Grantor therefrom, shall be effective unless it is in writing and signed by the Buyer, and then such waiver or consent shall be effective only in the specific instance and for the specific purpose for which given.

(b) No failure on the part of the Buyer to exercise, and no delay in exercising, any right hereunder or under any of the other Note Transaction Documents shall operate as a waiver thereof; nor shall any single or partial exercise of any such right preclude any other or further exercise thereof or the exercise of any other right. The rights and remedies of the Buyer provided herein and in the other Note Transaction Documents are cumulative and are in addition to, and not exclusive of, any rights or remedies provided by law. The rights of the Buyer under any of the other Note Transaction Documents against any party thereto are not conditional or contingent on any attempt by such Person to exercise any

TABLE OF CONTENTS

of its rights under any of the other Note Transaction Documents against such party or against any other Person, including but not limited to, any Grantor.

(c) To the extent permitted by applicable law, each Grantor hereby waives promptness, diligence, notice of acceptance and any other notice with respect to any of the Obligations and this Agreement and any requirement that the Buyer exhaust any right or take any action against any other Person or any Collateral. Each Grantor acknowledges that it will receive direct and indirect benefits from the financing arrangements contemplated herein and that the waiver set forth in this Section 10(c) is knowingly made in contemplation of such benefits. The Grantors hereby waive any right to revoke this Agreement, and acknowledge that this Agreement is continuing in nature and applies to all Obligations, whether existing now or in the future.

(d) No Grantor may exercise any rights that it may now or hereafter acquire against any other Grantor that arise from the existence, payment, performance or enforcement of any Grantor's obligations under this Agreement, including, without limitation, any right of subrogation, reimbursement, exoneration, contribution or indemnification and any right to participate in any claim or remedy of the Buyer against any Grantor or any Collateral, whether or not such claim, remedy or right arises in equity or under contract, statute or common law, including, without limitation, the right to take or receive from any Grantor, directly or indirectly, in cash or other property or by set-off or in any other manner, payment or security solely on account of such claim, remedy or right, unless and until the indefeasible payment in full in cash of all obligations under the Note (together with any matured indemnification obligations as of the date of such payment, but excluding any inchoate or unmatured contingent indemnification obligations). If any amount shall be paid to a Grantor in violation of the immediately preceding sentence at any time prior to the indefeasible payment in full in cash of all obligations under the Note (together with any matured indemnification obligations as of the date of such payment, but excluding any inchoate or unmatured contingent indemnification obligations), such amount shall be held in trust for the benefit of the Buyer and shall forthwith be paid to the Buyer to be credited and applied to the Obligations and all other amounts payable under the Note Transaction Documents, whether matured or unmatured, in accordance with the terms of the Note Transaction Documents, or to be held as Collateral for any Obligations or other amounts payable under the Note Transaction Documents thereafter arising.

(e) Any provision of this Agreement that is prohibited or unenforceable in any jurisdiction shall, as to such jurisdiction, be ineffective to the extent of such prohibition or unenforceability without invalidating the remaining portions hereof or thereof or affecting the validity or enforceability of such provision in any other jurisdiction.

(f) This Agreement shall create a continuing security interest in the Collateral and shall (i) remain in full force and effect until the indefeasible payment in full in cash of all obligations under the Note (together with any matured indemnification obligations as of the date of such payment, but excluding any inchoate or unmatured contingent indemnification obligations), and (ii) be binding on each Grantor and all other Persons who become bound as debtor to this Agreement in accordance with Section 9-203(d) of the Code and shall inure, together with all rights and remedies of the Buyer hereunder, to the benefit of the Buyer and its respective permitted successors, transferees and assigns. Without limiting the generality of clause (ii) of the immediately preceding sentence, without notice to any Grantor, the Buyer may assign or otherwise transfer its rights and obligations under this Agreement and any of the other Note Transaction Documents, to any other Person and such other Person shall thereupon become vested with all of the benefits in respect thereof granted to the Buyer herein or otherwise. Upon any such assignment or transfer, all references in this Agreement to the Buyer shall mean the assignee of the Buyer. None of the rights or obligations of any Grantor hereunder may be assigned or otherwise transferred without the prior written consent of the Buyer, and any such assignment or transfer without the consent of the Buyer shall be null and void.

(g) Upon the indefeasible payment in full in cash of all obligations under the Note (together with any matured indemnification obligations as of the date of such payment, but excluding any inchoate or unmatured contingent indemnification obligations), (i) this Agreement and the security interests created hereby shall terminate and all rights to the Collateral shall revert to the respective Grantor that granted

such security interests hereunder, and (ii) the Buyer will, upon such Grantor's request and at such Grantor's expense, (A) return to such Grantor such of the Collateral as shall not have been sold or otherwise disposed of or applied pursuant to the terms hereof, and (B) execute and deliver to such Grantor such documents as such Grantor shall reasonably request to evidence such termination, all without any representation, warranty or recourse whatsoever.

(h) THIS AGREEMENT SHALL BE GOVERNED BY, CONSTRUED AND INTERPRETED IN ACCORDANCE WITH THE LAWS OF THE STATE OF NEW YORK, EXCEPT AS REQUIRED BY MANDATORY PROVISIONS OF LAW AND EXCEPT TO THE EXTENT THAT THE VALIDITY AND PERFECTION OR THE PERFECTION AND THE EFFECT OF PERFECTION OR NON-PERFECTION OF THE SECURITY INTEREST CREATED HEREBY, OR REMEDIES HEREUNDER, IN RESPECT OF ANY PARTICULAR COLLATERAL ARE GOVERNED BY THE LAW OF A JURISDICTION OTHER THAN THE STATE OF NEW YORK.

(i) ANY LEGAL ACTION, SUIT OR PROCEEDING WITH RESPECT TO THIS AGREEMENT OR ANY DOCUMENT RELATED THERETO MAY BE BROUGHT IN THE COURTS OF THE STATE OF NEW YORK IN THE COUNTY OF NEW YORK OR THE UNITED STATES OF AMERICA FOR THE SOUTHERN DISTRICT OF NEW YORK, AND APPELLATE COURTS THEREOF, AND, BY EXECUTION AND DELIVERY OF THIS AGREEMENT, EACH GRANTOR HEREBY ACCEPTS FOR ITSELF AND IN RESPECT OF ITS PROPERTY, GENERALLY AND UNCONDITIONALLY, THE JURISDICTION OF THE AFORESAID COURTS. EACH GRANTOR HEREBY EXPRESSLY AND IRREVOCABLY WAIVES, TO THE FULLEST EXTENT PERMITTED BY LAW, ANY OBJECTION, INCLUDING, WITHOUT LIMITATION, ANY OBJECTION TO THE LAYING OF VENUE OR BASED ON THE GROUNDS OF FORUM NON CONVENIENS, WHICH IT MAY NOW OR HEREAFTER HAVE TO THE BRINGING OF ANY SUCH ACTION, SUIT OR PROCEEDING IN SUCH RESPECTIVE JURISDICTIONS AND CONSENTS TO THE GRANTING OF SUCH LEGAL OR EQUITABLE RELIEF AS IS DEEMED APPROPRIATE BY THE COURT.

(j) EACH GRANTOR AND (BY ITS ACCEPTANCE OF THE BENEFITS OF THIS AGREEMENT) THE HOLDER WAIVES ANY RIGHT IT MAY HAVE TO TRIAL BY JURY IN RESPECT OF ANY LITIGATION BASED ON, ARISING OUT OF, UNDER OR IN CONNECTION WITH THIS AGREEMENT OR ANY OF THE OTHER NOTE TRANSACTION DOCUMENTS, OR ANY COURSE OF CONDUCT, COURSE OF DEALING, VERBAL OR WRITTEN STATEMENT OR OTHER ACTION OF THE PARTIES HERETO.

(k) Nothing contained herein shall affect the right of the Buyer to serve process in any other manner permitted by law or commence legal proceedings or otherwise proceed against any Grantor or any property of such Grantor in any other jurisdiction.

(l) Each Grantor irrevocably and unconditionally waives any right it may have to claim or recover in any legal action, suit or proceeding referred to in this Section any special, exemplary, punitive or consequential damages.

(m) Section headings herein are included for convenience of reference only and shall not constitute a part of this Agreement for any other purpose.

(n) This Agreement may be executed in any number of counterparts and by different parties hereto in separate counterparts, each of which shall be deemed to be an original, but all of which taken together constitute one in the same Agreement.

(o) The parties hereto hereby acknowledge and agree that this Agreement shall amend, restate, modify, extend, renew and continue the terms and provisions contained in the Existing Security Agreement and shall not extinguish or release any Grantor from any liability under the Existing Security Agreement or otherwise constitute a novation of its obligations thereunder.

SECTION 2. Guaranty. The Guarantors, jointly and severally, hereby unconditionally and irrevocably, guaranty (a) the punctual payment, as and when due and payable, by stated maturity or otherwise, of all obligations and any other amounts now or hereafter owing by the Company in respect of it in respect of the Note and the other Note Transaction Documents, including, without limitation, all interest that accrues after the commencement of any proceeding commenced by or against any the Company or any Guarantor under any provision of the Bankruptcy Code (Chapter 11 of Title 11 of the United States Code) or under any other bankruptcy or insolvency law, assignments for the benefit of creditors, formal or informal moratoria, compositions, or extensions generally with creditors, or proceedings seeking reorganization, arrangement, or other similar relief (an “**Insolvency Proceeding**”), whether or not the payment of such interest is unenforceable or is not allowable due to the existence of such Insolvency Proceeding, and any and all expenses (including reasonable counsel fees and expenses) reasonably incurred by the Buyer in enforcing any rights under this Guaranty (such obligations, to the extent not paid by the Company, being the “**Guaranteed Obligations**”) and (b) the punctual and faithful performance, keeping, observance and fulfillment by the Company of all of the agreements, conditions, covenants and obligations of the Company contained in the Note and the other Note Transaction Documents. Without limiting the generality of the foregoing, each Guarantor’s liability hereunder shall extend to all amounts that constitute part of the Guaranteed Obligations and would be owed by the Company to the Buyer under the Note but for the fact that they are unenforceable or not allowable due to the existence of an Insolvency Proceeding involving any Guarantor or the Company (each, a “**Transaction Party**”).

SECTION 3. Guaranty Absolute; Continuing Guaranty; Assignments.

(a) The Guarantors, jointly and severally, guaranty that the Guaranteed Obligations will be paid strictly in accordance with the terms of the Note Transaction Documents, regardless of any law, regulation or order now or hereafter in effect in any jurisdiction affecting any of such terms or the rights of the Buyer with respect thereto. The obligations of each Guarantor under this Guaranty are independent of the Guaranteed Obligations, and a separate action or actions may be brought and prosecuted against any Guarantor to enforce such obligations, irrespective of whether any action is brought against any Transaction Party or whether any Transaction Party is joined in any such action or actions. The liability of any Guarantor under this Guaranty shall be irrevocable, absolute and unconditional irrespective of, and each Guarantor hereby irrevocably waives, to the extent permitted by law, any defenses it may now or hereafter have in any way relating to, any or all of the following:

- (i) any lack of validity or enforceability of any Note Transaction Document or any agreement or instrument relating thereto;
- (ii) any change in the time, manner or place of payment of, or in any other term of, all or any of the Guaranteed Obligations, or any other amendment or waiver of or any consent to departure from any Note Transaction Document, including, without limitation, any increase in the Guaranteed Obligations resulting from the extension of additional credit to any Transaction Party or otherwise;
- (iii) any taking, exchange, release or non-perfection of any collateral with respect to the Guaranteed Obligations, or any taking, release or amendment or waiver of or consent to departure from any other guaranty, for all or any of the Guaranteed Obligations; or
- (iv) any change, restructuring or termination of the corporate, limited liability company or partnership structure or existence of any Transaction Party.

This Guaranty shall continue to be effective or be reinstated, as the case may be, if at any time any payment of any of the Guaranteed Obligations is rescinded or must otherwise be returned by the Buyer or any other Person upon the insolvency, bankruptcy or reorganization of any Transaction Party or otherwise, all as though such payment had not been made.

(b) This Guaranty is a continuing guaranty and shall (i) remain in full force and effect until the indefeasible payment in full in cash of all obligations under the Note (together with any matured indemnification obligations as of the date of such payment, but excluding any inchoate or unmatured contingent indemnification obligations) and payment of all other amounts payable under this Guaranty (excluding any inchoate or unmatured contingent indemnification obligations) and (ii) be binding upon

each Guarantor and its respective successors and assigns. This Guaranty shall inure to the benefit of and be enforceable by the Buyer and its respective successors, and permitted pledgees, transferees and assigns. Without limiting the generality of the foregoing sentence, the Buyer may pledge, assign or otherwise transfer all or any portion of its rights and obligations under and subject to the terms of any Note Transaction Document to any other Person, and such other Person shall thereupon become vested with all the benefits in respect thereof granted to the Buyer herein or otherwise, in each case as provided in the other Note Transaction Document.

SECTION 4. Waivers. To the extent permitted by applicable law, each Guarantor hereby waives promptness, diligence, notice of acceptance and any other notice with respect to any of the Guaranteed Obligations and this Guaranty and any requirement that the Buyer exhausts any right or takes any action against any Transaction Party or any other Person or any Collateral (as defined in the Security Agreement). Each Guarantor acknowledges that it will receive direct and indirect benefits from the financing arrangements contemplated herein and that the waiver set forth in this Section 4 is knowingly made in contemplation of such benefits. The Guarantors hereby waive any right to revoke this Guaranty, and acknowledge that this Guaranty is continuing in nature and applies to all Guaranteed Obligations, whether existing now or in the future.

SECTION 5. Subrogation. No Guarantor may exercise any rights that it may now or hereafter acquire against any Transaction Party or any other guarantor that arise from the existence, payment, performance or enforcement of any Guarantor's obligations under this Guaranty, including, without limitation, any right of subrogation, reimbursement, exoneration, contribution or indemnification and any right to participate in any claim or remedy of the Buyer against any Transaction Party or any other guarantor or any Collateral (as defined in the Security Agreement), whether or not such claim, remedy or right arises in equity or under contract, statute or common law, including, without limitation, the right to take or receive from any Transaction Party or any other guarantor, directly or indirectly, in cash or other property or by set-off or in any other manner, payment or security solely on account of such claim, remedy or right, unless and until the indefeasible payment in full in cash of all obligations under the Note (together with any matured indemnification obligations as of the date of such payment, but excluding any inchoate or unmatured contingent indemnification obligations) and payment of all other amounts payable under this Guaranty (excluding any inchoate or unmatured contingent indemnification obligations). If any amount shall be paid to a Guarantor in violation of the immediately preceding sentence at any time prior to the later of the payment in full in cash of the Guaranteed Obligations and all other amounts payable under this Guaranty, such amount shall be held in trust for the benefit of the Buyer and shall forthwith be paid to the Buyer to be credited and applied to the Guaranteed Obligations and all other amounts payable under this Guaranty, whether matured or unmatured, in accordance with the terms of the Note Transaction Document, or to be held as collateral for any Guaranteed Obligations or other amounts payable under this Guaranty thereafter arising. If (a) any Guarantor shall make payment to the Buyer of all or any part of the Guaranteed Obligations, and (b) the Buyer receives the indefeasible payment in full in cash of all obligations under the Note (together with any matured indemnification obligations as of the date of such payment, but excluding any inchoate or unmatured contingent indemnification obligations) and payment of all other amounts payable under this Guaranty (excluding any inchoate or unmatured contingent indemnification obligations), the Buyer will, at such Guarantor's request and expense, execute and deliver to such Guarantor appropriate documents, without recourse and without representation or warranty, necessary to evidence the transfer by subrogation to such Guarantor of an interest in the Guaranteed Obligations resulting from such payment by such Guarantor.

SECTION 6. Representations, Warranties and Covenants.

(a) Each Guarantor hereby represents and warrants as of the date first written above as follows:

(i) Each Guarantor (A) is a corporation, limited liability company or limited partnership duly organized, validly existing and in good standing under the laws of the jurisdiction of its organization as set forth on the signature pages hereto, (B) has all requisite corporate, limited liability company or limited partnership power and authority to conduct its business as now conducted and as presently contemplated and to execute and deliver this Guaranty and each other Note Transaction Document to which the Guarantor is a party, and to consummate the transactions contemplated hereby and thereby

and (C) is duly qualified to do business and is in good standing in each jurisdiction in which the character of the properties owned or leased by it or in which the transaction of its business makes such qualification necessary except where the failure to be so qualified would not result in a Material Adverse Effect.

(ii) The execution, delivery and performance by each Guarantor of this Guaranty and each other Note Transaction Document to which such Guarantor is a party (A) have been duly authorized by all necessary corporate, limited liability company or limited partnership action, (B) do not and will not contravene its charter or by-laws, its limited liability company or operating agreement or its certificate of partnership or partnership agreement, as applicable, or any applicable law or any contractual restriction binding on the Guarantor or its properties do not and will not result in or require the creation of any lien (other than pursuant to any Note Transaction Document) upon or with respect to any of its properties, and (C) do not and will not result in any default, noncompliance, suspension, revocation, impairment, forfeiture or nonrenewal of any material permit, license, authorization or approval applicable to it or its operations or any of its properties.

(iii) No authorization or approval or other action by, and no notice to or filing with, any governmental authority is required in connection with the due execution, delivery and performance by the Guarantor of this Guaranty or any of the other Note Transaction Documents to which the Guarantor is a party (other than expressly provided for in any of the Note Transaction Documents).

(iv) Each of this Guaranty and the other Note Transaction Documents to which the Guarantor is or will be a party, when delivered, will be, a legal, valid and binding obligation of the Guarantor, enforceable against the Guarantor in accordance with its terms, except as may be limited by applicable bankruptcy, insolvency, reorganization, moratorium, fraudulent conveyance, suretyship or other similar laws and equitable principles, including those relating to upstream guaranties (regardless of whether enforcement is sought in equity or at law).

(v) There is no pending or, to the best knowledge of the Guarantor, threatened action, suit or proceeding against the Guarantor or to which any of the properties of the Guarantor is subject, before any court or other governmental authority or any arbitrator that (A) if adversely determined, could reasonably be expected to have a Material Adverse Effect or (B) relates to this Guaranty or any of the other Note Transaction Documents to which the Guarantor is a party or any transaction contemplated hereby or thereby.

(vi) The Guarantor (A) has read and understands the terms and conditions of the Note and the other Note Transaction Documents, and (B) now has and will continue to have independent means of obtaining information concerning the affairs, financial condition and business of the Company and the other Transaction Parties, and has no need of, or right to obtain from the Buyer, any credit or other information concerning the affairs, financial condition or business of the Company or the other Transaction Parties that may come under the control of the Buyer.

SECTION 7. Right of Set-off. Upon the occurrence and during the continuance of any Event of Default, the Buyer may, and is hereby authorized to, at any time and from time to time, without notice to the Guarantors (any such notice being expressly waived by each Guarantor) and to the fullest extent permitted by law, set-off and apply any and all deposits (general or special, time or demand, provisional or final) at any time held and other indebtedness at any time owing by the Buyer to or for the credit or the account of any Guarantor against any and all obligations of the Guarantors now or hereafter existing under this Guaranty or any other Note Transaction Document, irrespective of whether or not the Buyer shall have made any demand under this Guaranty or any other Note Transaction Document and although such obligations may be contingent or unmatured. The Buyer agrees to notify the relevant Guarantor promptly after any such set-off and application made by the Buyer, provided that the failure to give such notice shall not affect the validity of such set-off and application. The rights of the Buyer under this Section 7 are in addition to other rights and remedies (including, without limitation, other rights of set-off) which the Buyer may have under this Guaranty or any other Note Transaction Document in law or otherwise.

SECTION 8. Notices, Etc. All notices and other communications provided for hereunder shall be in writing and shall be mailed (by overnight mail or by certified mail, postage prepaid and return receipt requested), telecopied or delivered, if to any Guarantor, to the address for such Guarantor set forth on the signature page hereto, or if to the Buyer, to it at its respective address set forth in the Note; or as to any Person at such other address as shall be designated by such Person in a written notice to such other Person complying as to delivery with the terms of this Section 8. All such notices and other communications shall be effective (i) if mailed (by certified mail, postage prepaid and return receipt requested), when received or three Business Days after deposited in the mails, whichever occurs first; (ii) if telecopied, when transmitted and confirmation is received, provided same is on a Business Day and, if not, on the next Business Day; or (iii) if delivered by hand, upon delivery, provided same is on a Business Day and, if not, on the next Business Day.

SECTION 9. CONSENT TO JURISDICTION; SERVICE OF PROCESS AND VENUE. ANY LEGAL ACTION OR PROCEEDING WITH RESPECT TO THIS GUARANTY OR ANY OTHER NOTE TRANSACTION DOCUMENT MAY BE BROUGHT IN THE COURTS OF THE STATE OF NEW YORK IN THE COUNTY OF NEW YORK OR OF THE UNITED STATES DISTRICT COURT FOR THE SOUTHERN DISTRICT OF NEW YORK, AND, BY EXECUTION AND DELIVERY OF THIS AGREEMENT, EACH GUARANTOR HEREBY IRREVOCABLY ACCEPTS IN RESPECT OF ITS PROPERTY, GENERALLY AND UNCONDITIONALLY, THE JURISDICTION OF THE AFORESAID COURTS. NOTHING HEREIN SHALL AFFECT THE RIGHT OF THE BUYER TO SERVICE OF PROCESS IN ANY OTHER MANNER PERMITTED BY LAW OR TO COMMENCE LEGAL PROCEEDINGS OR OTHERWISE PROCEED AGAINST EACH GUARANTOR IN ANY OTHER JURISDICTION. EACH GUARANTOR HEREBY EXPRESSLY AND IRREVOCABLY WAIVES, TO THE FULLEST EXTENT PERMITTED BY LAW, ANY OBJECTION WHICH IT MAY NOW OR HEREAFTER HAVE TO THE JURISDICTION OR LAYING OF VENUE OF ANY SUCH LITIGATION BROUGHT IN ANY SUCH COURT REFERRED TO ABOVE AND ANY CLAIM THAT ANY SUCH LITIGATION HAS BEEN BROUGHT IN AN INCONVENIENT FORUM. TO THE EXTENT THAT ANY GUARANTOR HAS OR HEREAFTER MAY ACQUIRE ANY IMMUNITY FROM JURISDICTION OF ANY COURT OR FROM ANY LEGAL PROCESS (WHETHER THROUGH SERVICE OR NOTICE, ATTACHMENT PRIOR TO JUDGMENT, ATTACHMENT IN AID OF EXECUTION OR OTHERWISE) WITH RESPECT TO ITSELF OR ITS PROPERTY, EACH GUARANTOR HEREBY IRREVOCABLY WAIVES SUCH IMMUNITY IN RESPECT OF ITS OBLIGATIONS UNDER THIS GUARANTY AND THE OTHER NOTE TRANSACTION DOCUMENTS.

SECTION 10. WAIVER OF JURY TRIAL, ETC. EACH GUARANTOR HEREBY WAIVES ANY RIGHT TO A TRIAL BY JURY IN ANY ACTION, PROCEEDING OR COUNTERCLAIM CONCERNING ANY RIGHTS UNDER THIS GUARANTY OR THE OTHER NOTE TRANSACTION DOCUMENTS, OR UNDER ANY AMENDMENT, WAIVER, CONSENT, INSTRUMENT, DOCUMENT OR OTHER AGREEMENT DELIVERED OR WHICH IN THE FUTURE MAY BE DELIVERED IN CONNECTION HERewith OR THEREWITH, OR ARISING FROM ANY FINANCING RELATIONSHIP EXISTING IN CONNECTION WITH THIS GUARANTY OR THE OTHER NOTE TRANSACTION DOCUMENTS, AND AGREES THAT ANY SUCH ACTION, PROCEEDING OR COUNTERCLAIM SHALL BE TRIED BEFORE A COURT AND NOT BEFORE A JURY. EACH GUARANTOR CERTIFIES THAT NO OFFICER, REPRESENTATIVE, AGENT OR ATTORNEY OF THE BUYER HAS REPRESENTED, EXPRESSLY OR OTHERWISE, THAT THE BUYER WOULD NOT, IN THE EVENT OF ANY ACTION, PROCEEDING OR COUNTERCLAIM, SEEK TO ENFORCE THE FOREGOING WAIVERS. EACH GUARANTOR HEREBY ACKNOWLEDGES THAT THIS PROVISION IS A MATERIAL INDUCEMENT FOR THE BUYER ENTERING INTO THE OTHER NOTE TRANSACTION DOCUMENTS.

SECTION 11. Taxes.

(a) All payments made by any Guarantor hereunder or under any other Note Transaction Document shall be made in accordance with the terms of the respective Note Transaction Document and shall be made without set-off, counterclaim, deduction or other defense. All such payments shall be made free and clear of and without deduction for any present or future taxes, levies, imposts, deductions, charges or withholdings, and all liabilities with respect thereto, excluding taxes imposed on the net income of the Buyer by the jurisdiction in which the Buyer is organized or where it has its principal lending office (all

such nonexcluded taxes, levies, imposts, deductions, charges, withholdings and liabilities, collectively or individually, “**Taxes**”). If any Guarantor shall be required to deduct or to withhold any Taxes from or in respect of any amount payable hereunder or under any other Note Transaction Document:

(i) the amount so payable shall be increased to the extent necessary so that after making all required deductions and withholdings (including Taxes on amounts payable to the Buyer pursuant to this sentence) the Buyer receives an amount equal to the sum it would have received had no such deduction or withholding been made,

(ii) such Guarantor shall make such deduction or withholding,

(iii) such Guarantor shall pay the full amount deducted or withheld to the relevant taxation authority in accordance with applicable law, and

(iv) as promptly as possible thereafter, such Guarantor shall send the Buyer an official receipt (or, if an official receipt is not available, such other documentation as shall be satisfactory to the Buyer) showing payment. In addition, each Guarantor agrees to pay any present or future stamp or documentary taxes or any other excise or property taxes, charges or similar levies that arise from any payment made hereunder or from the execution, delivery, registration or enforcement of, or otherwise with respect to, this Agreement or any other Note Transaction Document (collectively, “**Other Taxes**”).

(b) Each Guarantor hereby indemnifies and agrees to hold the Buyer harmless from and against Taxes or Other Taxes (including, without limitation, any Taxes or Other Taxes imposed by any jurisdiction on amounts payable under this Section 11) paid by the Buyer as a result of any payment made hereunder or from the execution, delivery, registration or enforcement of, or otherwise with respect to, this Agreement or any other Note Transaction Document, and any liability (including penalties, interest and expenses for nonpayment, late payment or otherwise) arising therefrom or with respect thereto, whether or not such Taxes or Other Taxes were correctly or legally asserted. This indemnification shall be paid within 30 days from the date on which the Holder makes written demand therefor, which demand shall identify the nature and amount of such Taxes or Other Taxes.

(c) If any Guarantor fails to perform any of its obligations under this Section 11, such Guarantor shall indemnify the Buyer for any taxes, interest or penalties that may become payable as a result of any such failure. The obligations of the Guarantors under this Section 11 shall survive the termination of this Guaranty and the payment of the Obligations and all other amounts payable hereunder.

SECTION 12. Miscellaneous.

(a) Each Guarantor will make each payment hereunder in lawful money of the United States of America and in immediately available funds to Buyer, at such address specified by Buyer from time to time by notice to the Guarantors.

(b) No amendment or waiver of any provision of this Guaranty and no consent to any departure by any Guarantor therefrom shall in any event be effective unless the same shall be in writing and signed by each Guarantor and the Buyer, and then such waiver or consent shall be effective only in the specific instance and for the specific purpose for which given.

(c) No failure on the part of the Buyer to exercise, and no delay in exercising, any right hereunder or under any other Note Transaction Document shall operate as a waiver thereof, nor shall any single or partial exercise of any right hereunder or under any Note Transaction Document preclude any other or further exercise thereof or the exercise of any other right. The rights and remedies of the Buyer provided herein and in the other Note Transaction Documents are cumulative and are in addition to, and not exclusive of, any rights or remedies provided by law. The rights of the Buyer under any Note Transaction Document against any party thereto are not conditional or contingent on any attempt by the Buyer to exercise any of its rights under any other Note Transaction Document against such party or against any other Person.

TABLE OF CONTENTS

(d) Any provision of this Guaranty that is prohibited or unenforceable in any jurisdiction shall, as to such jurisdiction, be ineffective to the extent of such prohibition or unenforceability without invalidating the remaining portions hereof or affecting the validity or enforceability of such provision in any other jurisdiction.

(e) This Guaranty shall (i) be binding on each Guarantor and its respective successors and assigns, and (ii) inure, together with all rights and remedies of the Buyer hereunder, to the benefit of the Buyer and its successors, transferees and assigns. Without limiting the generality of clause (ii) of the immediately preceding sentence, the Buyer may assign or otherwise transfer its rights and obligations under the Note or any other Note Transaction Document to any other Person in accordance with the terms thereof, and such other Person shall thereupon become vested with all of the benefits in respect thereof granted to the Buyer herein or otherwise. None of the rights or obligations of any Guarantor hereunder may be assigned or otherwise transferred without the prior written consent of the Buyer.

(f) This Guaranty reflects the entire understanding of the transaction contemplated hereby and shall not be contradicted or qualified by any other agreement, oral or written, entered into before the date hereof.

(g) Section headings herein are included for convenience of reference only and shall not constitute a part of this Agreement for any other purpose.

(h) THIS GUARANTY SHALL BE GOVERNED BY AND CONSTRUED IN ACCORDANCE WITH THE LAW OF THE STATE OF NEW YORK APPLICABLE TO CONTRACTS MADE AND TO BE PERFORMED THEREIN WITHOUT REGARD TO CONFLICT OF LAW PRINCIPLES.

(i) Each Guarantor hereby acknowledges and agrees that this Guaranty shall amend, restate, modify, extend, renew and continue the terms and provisions contained in the Existing Guaranty and shall not extinguish or release such Guarantor from any liability under such Existing Guaranty or otherwise constitute a novation of the obligations (including, without limitation, the Guaranteed Obligations (as defined in the Existing Guaranty)) thereunder.

(j) By its execution and delivery of this Guaranty, the Company and its Subsidiaries hereby agree and covenant (i) to do each of the things set forth in the Note that I/P agrees and covenants to use its commercially reasonable efforts to cause the Company and its Subsidiaries to do, (ii) to not do each of the things set forth in the Note that I/P agrees and covenants to use its commercially reasonable efforts to cause the Company and its Subsidiaries not to do, in each case, fully as though the Company and its Subsidiaries were a party thereto, and such agreements and covenants are incorporated herein by this reference, mutatis mutandis, and (iii) all payments due under this Guaranty shall be senior to all other Indebtedness of the Company and its Subsidiaries other than Permitted Senior Indebtedness.

A. The management of the business and the conduct of the affairs of the Corporation shall be vested in its Board of Directors. The number of directors which shall constitute the whole Board of Directors shall be fixed by, or in the manner provided in, the Bylaws. The phrase "whole Board" and the phrase "total number of directors" shall be deemed to have the same meaning, to wit, the total number of directors which the Corporation would have if there were no vacancies. No election of directors need be by written ballot.

B. After the original or other Bylaws of the Corporation have been adopted, amended or repealed, as the case may be, in accordance with the provisions of Section 109 of the DGCL, and, after the Corporation has received any payment for any of its stock, the power to adopt, amend, or repeal the Bylaws of the Corporation may be exercised by the Board of Directors of the Corporation.

The indemnification provided for herein shall not be deemed exclusive of any other rights to which those indemnified may be entitled under any Bylaw, agreement, vote of stockholders or disinterested directors or otherwise, both as to action in their official capacity and as to action in another capacity while holding such office, and shall continue as to a person who has ceased to be a director, officer, employee, or agent and shall inure to the benefit of the heirs, executors and administrators of such a person.

NINTH: No director of the Corporation shall be liable to the Corporation or any of its stockholders for monetary damages for breach of fiduciary duty as a director, provided that this provision does not eliminate or limit the liability of the director (i) for any breach of the director's duty of loyalty to the Corporation or its stockholders, (ii) for acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law, (iii) under Section 174 of the DGCL, or (iv) for any transaction from which the director derived an improper personal benefit. For purposes of the prior sentence, the term "damages" shall, to the extent permitted by law, include without limitation, any judgment, fine, amount paid in settlement, penalty, punitive damages, excise or other tax assessed with respect to an employee benefit plan, or expense of any nature (including, without limitation, reasonable counsel fees and disbursements). Each person who serves as a director of the Corporation while this Article NINTH is in effect shall be deemed to be doing so in reliance on the provisions of this Article NINTH, and neither the amendment or repeal of this Article NINTH, nor the adoption of any provision of this Certificate of Incorporation inconsistent with this Article NINTH, shall apply to or have any effect on the liability or alleged liability of any director of the Corporation for, arising out of, based upon, or in connection with any acts or omissions of such director occurring prior to such amendment, repeal, or adoption of an inconsistent provision. The provisions of this Article NINTH are cumulative and shall be in addition to and independent of any and all other limitations on or eliminations of the liabilities of directors of the Corporation, as such, whether such limitations or eliminations arise under or are created by any law, rule, regulation, bylaw, agreement, vote of stockholders or disinterested directors, or otherwise.

TENTH: From time to time any of the provisions of this Certificate of Incorporation may be amended, altered or repealed, and other provisions authorized by the laws of the State of Delaware at the time in force may be added or inserted in the manner and at the time prescribed by said laws, and all rights at any time conferred upon the stockholders of the Corporation by this Certificate of Incorporation are granted subject to the provisions of this Article TENTH.

IN WITNESS WHEREOF, I have signed this Certificate of Incorporation as of _____, 2012.

At any meeting of the stockholders, every stockholder entitled to vote may vote in person or by proxy authorized by an instrument in writing filed in accordance with the procedure established for the meeting.

Each stockholder shall have one (1) vote for every share of stock entitled to vote which is registered in his or her name on the record date for the meeting, except as otherwise provided herein or required by law.

All voting, including on the election of directors but excepting where otherwise required by law, may be by a voice vote; provided, however, that upon demand therefor by a stockholder entitled to vote or his or her proxy, a vote by ballot shall be taken.

Except as otherwise provided in the terms of any class or series of preferred stock of the Corporation, all elections shall be determined by a plurality of the votes cast, and except as otherwise required by law, all other matters shall be determined by a majority of the votes cast.

Section 8. Action Without Meeting.

Any action required to be taken at any annual or special meeting of stockholders, or any action which may be taken at any annual or special meeting of such stockholders, may be taken without a meeting, without prior notice and without a vote, if a consent or consents in writing, setting forth the action so taken, shall be (1) signed and dated by the holders of outstanding stock having not less than the minimum number of votes that would be necessary to authorize or take such action at a meeting at which all shares entitled to vote thereon were present and voted and (2) delivered to the Corporation within sixty (60) days of the earliest dated consent by delivery to its registered office in the State of Delaware (in which case delivery shall be by hand or by certified or registered mail, return receipt requested), its principal place of business, or an officer or agent of the Corporation having custody of the book in which proceedings of meetings of stockholders are recorded. Prompt notice of the taking of the corporate action without a meeting by less than unanimous written consent shall be given to those stockholders who have not consented in writing.

Section 9. Stock List.

A complete list of stockholders entitled to vote at any meeting of stockholders, arranged in alphabetical order for each class of stock and showing the address of each such stockholder and the number of shares registered in his or her name, shall be open to the examination of any such stockholder, for any purpose germane to the meeting, during ordinary business hours for a period of at least ten (10) days prior to the meeting, either at a place within the city where the meeting is to be held, which place shall be specified in the notice of the meeting, or if not so specified, at the place where the meeting is to be held.

The stock list shall also be kept at the place of the meeting during the whole time thereof and shall be open to the examination of any such stockholder who is present. Such list shall presumptively determine the identity of the stockholders entitled to vote at the meeting and the number of shares held by each of them.

ARTICLE II — BOARD OF DIRECTORS

Section 1. Number, Election, Tenure and Qualification.

Except as otherwise specified in the Certificate of Incorporation of the Corporation, the number of directors which shall constitute the whole board shall be determined by resolution of the Board of Directors or by the stockholders at the annual meeting or at any special meeting of stockholders. The directors shall be elected at the annual meeting or at any special meeting of the stockholders, except as provided in Section 2 of this Article, and each director elected shall hold office until his or her successor is elected and qualified, unless sooner displaced. Directors need not be stockholders.

Section 2. Vacancies and Newly Created Directorships.

Subject to the rights of the holders of any class or series of preferred stock of the Corporation to elect directors, newly created directorships resulting from any increase in the authorized number of directors or any vacancies in the Board of Directors resulting from death, resignation, retirement, disqualification, removal from office or other cause may be filled only by a majority vote of the directors then in office, though less than a quorum, or the sole remaining director. No decrease in the number of authorized directors constituting the Board of Directors shall shorten the term of any incumbent director.

Section 3. Resignation and Removal.

Any director may resign at any time upon written notice to the Corporation at its principal place of business or to the chief executive officer or secretary. Such resignation shall be effective upon receipt unless it is specified to be effective at some other time or upon the happening of some other event. Any director or the entire Board of Directors may be removed, with or without cause, by the holders of a majority of the shares then entitled to vote at an election of directors, unless otherwise specified by law or the Certificate of Incorporation.

Section 4. Regular Meetings.

Regular meetings of the Board of Directors shall be held at such place or places, on such date or dates, and at such time or times as shall have been established by the Board of Directors and publicized among all directors. A written notice of each regular meeting shall not be required.

Section 5. Special Meetings.

Special meetings of the Board of Directors may be called by the Chairman of the Board of Directors, if any, the President, the Treasurer, the Secretary or one or more of the directors then in office and shall be held at such place, on such date, and at such time as they or he or she shall fix. Notice of the place, date, and time of each such special meeting shall be given each director by whom it is not waived by mailing written notice not less than three (3) days before the meeting or orally, by telegraph, telex, cable or telecopy given not less than twenty-four (24) hours before the meeting. Unless otherwise indicated in the notice thereof, any and all business may be transacted at a special meeting.

Section 6. Quorum.

At any meeting of the Board of Directors, a majority of the total number of members of the Board of Directors shall constitute a quorum for all purposes. If a quorum shall fail to attend any meeting, a majority of those present may adjourn the meeting to another place, date, or time, without further notice or waiver thereof.

Section 7. Action by Consent.

Unless otherwise restricted by the Certificate of Incorporation or these Bylaws, any action required or permitted to be taken at any meeting of the Board of Directors or of any committee thereof may be taken without a meeting if all members of the board or committee, as the case may be, consent thereto in writing, or by electronic transmission and the writing or writings or electronic transmission or transmissions are filed with the minutes of proceedings of the board, or committee.

Section 9. Conduct of Business.

At any meeting of the Board of Directors, business shall be transacted in such order and manner as the Board may from time to time determine, and all matters shall be determined by the vote of a majority of the directors present, except as otherwise provided herein or required by law.

Section 10. Powers.

The Board of Directors may, except as otherwise required by law, exercise all such powers and do all such acts and things as may be exercised or done by the Corporation, including, without limiting the generality of the foregoing, the unqualified power:

- (5) To confer upon any officer of the Corporation the power to appoint, remove and suspend subordinate officers, employees and agents;
- (6) To adopt from time to time such stock, option, stock purchase, bonus or other compensation plans for directors, officers, employees and agents of the Corporation and its subsidiaries as it may determine;
- (7) To adopt from time to time such insurance, retirement, and other benefit plans for directors, officers, employees and agents of the Corporation and its subsidiaries as it may determine; and,
- (8) To adopt from time to time regulations, not inconsistent with these Bylaws, for the management of the Corporation's business and affairs.

Section 11. Compensation of Directors.

Section 1. Committees of the Board of Directors.

The Board of Directors, by a vote of a majority of the Board of Directors, may from time to time designate committees of the Board, with such lawfully delegable powers and duties as it thereby confers, to serve at the pleasure of the Board and shall, for those committees and any others provided for herein, elect a director or directors to serve as the member or members, designating, if it desires, other directors as alternate members who may replace any absent or disqualified member at any meeting of the committee. Any such committee, to the extent provided in the resolution of the Board of Directors, shall have and may exercise all the powers and authority of the Board of Directors in the management of the business and affairs of the

Corporation, and may authorize the seal of the Corporation to be affixed to all papers which may require it; but no such committee shall have the power or authority in reference to amending the Certificate of Incorporation, adopting an agreement of merger or consolidation, recommending to the stockholders the sale, lease or exchange of all or substantially all of the Corporation's property and assets, recommending to the stockholders a dissolution of the Corporation or a revocation of a dissolution, or amending the Bylaws of the Corporation. Any committee so designated may exercise the power and authority of the Board of Directors to declare a dividend, to authorize the issuance of stock or to adopt a certificate of ownership and merger pursuant to Section 253 of the Delaware General Corporation Law if the resolution which designates the committee or a supplemental resolution of the Board of Directors shall so provide. In the absence or disqualification of any member of any committee and any alternate member in his or her place, the member or members of the committee present at the meeting and not disqualified from voting, whether or not he or she or they constitute a quorum, may by unanimous vote appoint another member of the Board of Directors to act at the meeting in the place of the absent or disqualified member.

Section 2. Conduct of Business.

Each committee may determine the procedural rules for meeting and conducting its business and shall act in accordance therewith, except as otherwise provided herein or required by law. Adequate provision shall be made for notice to members of all meetings; one-third (1/3) of the members shall constitute a quorum; and all matters shall be determined by a majority vote of the members present. Section 4. Tenure and Removal.

Each officer elected or appointed by the Board of Directors shall hold office until the first meeting of the Board of Directors following the next annual meeting of the stockholders and until his or her successor is elected or appointed and qualified, or until he or she dies, resigns, is removed or becomes disqualified, unless a shorter term is specified in the vote electing or appointing said officer. Each officer appointed by an officer designated by the Board of Directors to elect or appoint such officer, if any, shall hold office until his or her successor is elected or appointed and qualified, or until he or she dies, resigns, is removed or becomes disqualified, unless a shorter term is specified by any agreement or other instrument appointing such officer. Section 8. Treasurer and Assistant Treasurers.

The Treasurer shall, subject to the control and direction of the Board of Directors, have and perform such powers and duties as may be prescribed in these Bylaws or be determined from time to time by the Board of Directors. Unless otherwise voted by the Board of Directors, each Assistant Treasurer, if any, shall have and perform the powers and duties of the Treasurer whenever the Treasurer is absent or unable to act, and may at any time exercise such of the powers of the Treasurer, and such other powers and duties, as may from time to time be determined by the Board of Directors.

If the Secretary or an Assistant Secretary is elected but is absent from any meeting of directors, a temporary secretary may be appointed by the directors at the meeting.

Section 10. Bond.

If required by the Board of Directors, any officer shall give the Corporation a bond in such sum and with such surety or sureties and upon such terms and conditions as shall be satisfactory to the Board of Directors, including without limitation a bond for the faithful performance of the duties of his office and for the restoration to the Corporation of all books, papers, vouchers, money and other property of whatever kind in his or her possession or under his control and belonging to the Corporation.

Section 11. Action with Respect to Securities of Other Corporations.

Unless otherwise directed by the Board of Directors, the President, the Treasurer or any officer of the Corporation authorized by the President shall have power to vote and otherwise act on behalf of the Corporation, in person or by proxy, at any meeting of stockholders of or with respect to any action of stockholders of any other corporation in which this Corporation may hold securities and otherwise to exercise any and all rights and powers which this Corporation may possess by reason of its ownership of securities in such other corporation.

Each stockholder shall be entitled to a certificate signed by, or in the name of the Corporation by the Chairman of the Board of Directors, or the President or a Vice President, and by the Treasurer or an Assistant Treasurer, or the Secretary or an Assistant Secretary, certifying the number of shares owned by him or her. Any or all of the signatures on the certificate may be by facsimile.

Section 2. Transfers of Stock.

Transfers of stock shall be made only upon the transfer books of the Corporation kept at an office of the Corporation or by transfer agents designated to transfer shares of the stock of the Corporation. Except where a certificate is issued in accordance with Section 4 of this Article of these Bylaws, an outstanding certificate for the number of shares involved shall be surrendered for cancellation before a new certificate is issued therefor.

Section 3. Record Date.

In order that the Corporation may determine the stockholders entitled to notice of or to vote at any meeting of stockholders, or to receive payment of any dividend or other distribution or allotment of any rights or to exercise any rights in respect of any change, conversion or exchange of stock or for the purpose of any other lawful action, the Board of Directors may fix a record date, which record date shall not precede the date on which the resolution fixing the record date is adopted and which record date shall not be more than sixty (60) nor less than ten (10) days before the date of any meeting of stockholders, nor more than sixty (60) days prior to the time for such other action as hereinbefore described; provided, however, that if no record date is fixed by the Board of Directors, the record date for determining stockholders entitled to notice of or to vote at a meeting of stockholders shall be at the close of business on the day next preceding the day on which notice is given or, if notice is waived, at the close of business on the day next preceding the day on which the meeting is held, and, for determining stockholders entitled to receive payment of any dividend or other distribution or allotment of rights or to exercise any rights of change, conversion or exchange of stock or for any other purpose, the record date shall be at the close of business on the day on which the Board of Directors adopts a resolution relating thereto.

A determination of stockholders of record entitled to notice of or to vote at a meeting of stockholders shall apply to any adjournment of the meeting; provided, however, that the Board of Directors may fix a new record date for the adjourned meeting.

Section 4. Lost, Stolen or Destroyed Certificates.

In the event of the loss, theft or destruction of any certificate of stock, another may be issued in its place pursuant to such regulations as the Board of Directors may establish concerning proof of such loss, theft or destruction and concerning the giving of a satisfactory bond or bonds of indemnity.

Any such notice shall be addressed to such stockholder, director, officer, employee or agent at his or her last known address as the same appears on the books of the Corporation. The time when such notice is received, if hand delivered, or dispatched, if delivered through the mail or by courier, telegram, mailgram, teletype, cable, or telex shall be the time of the giving of the notice.

Section 2. Waiver of Notice.

A written waiver of any notice, signed by a stockholder, director, officer, employee or agent, whether before or after the time of the event for which notice is to be given, shall be deemed equivalent to the notice required to be given to such stockholder, director, officer, employee or agent. Neither the business nor the purpose of any meeting need be specified in such a waiver. Attendance of a director or stockholder at a meeting without protesting prior thereto or at its commencement the lack of notice shall also constitute a waiver of notice by such director or stockholder.

ARTICLE VII — INDEMNIFICATION

Section 1. Actions other than by or in the Right of the Corporation.

The Corporation shall indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative (other than an action by or in the right of the Corporation) by reason of the fact that he or she is or was a director, officer, employee or agent of the Corporation, or is or was serving at the request of the Corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, against expenses (including attorneys' fees), judgments, fines and amounts paid in settlement actually and reasonably incurred by him or her in connection with such action, suit or proceeding if he or she acted in good faith and in a manner he or she reasonably believed to be in or not opposed to the best interests of the Corporation, and, with respect to any criminal action or proceedings, had no reasonable cause to believe his or her conduct was unlawful. The termination of any action, suit or proceeding by judgment, order, settlement, conviction, or upon a plea of *nolo contendere* or its equivalent, shall not, of itself, create a presumption that the person did not act in good faith and in a manner which he or she reasonably believed to be in or not opposed to the best interests of the Corporation, and, with respect to any criminal action or proceeding, had reasonable cause to believe that his or her conduct was unlawful.

Section 2. Actions by or in the Right of the Corporation.

The Corporation shall indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action or suit by or in the right of the Corporation to procure a judgment in its favor by reason of the fact that he or she is or was a director, officer, employee or agent of the Corporation, or is or was serving at the request of the Corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust, or other enterprise against expenses (including attorneys' fees) actually and reasonably incurred by him or her in connection with the defense or settlement of such action or suit if he acted in good faith and in a manner he or she reasonably believed to be in or not opposed to the best interests of the Corporation and except that no indemnification shall be made in respect of any claim, issue or matter as to which such person shall have been adjudged to be liable to the Corporation unless and only to the extent that the Court of Chancery of the State of Delaware or the court in which such action or suit was brought shall determine upon application that, despite the adjudication of liability but in view of all the circumstances of the case, such person is fairly and reasonably entitled to indemnity for such expenses which the Court of Chancery of the State of Delaware or such other court shall deem proper.

TABLE OF CONTENTS

Section 3. Success on the Merits.

To the extent that any person described in Section 1 or Section 2 of this Article has been successful on the merits or otherwise in defense of any action, suit or proceeding referred to in said Sections, or in defense of any claim, issue or matter therein, he or she shall be indemnified against expenses (including attorneys' fees) actually and reasonably incurred by him or her in connection therewith.

Section 4. Specific Authorization.

Any indemnification under Section 1 or Section 2 of this Article (unless ordered by a court) shall be made by the Corporation only as authorized in the specific case upon a determination that indemnification of any person described in said Sections is proper in the circumstances because he or she has met the applicable standard of conduct set forth in said Sections. Such determination shall be made (1) by the Board of Directors by a majority vote of a quorum consisting of directors who were not parties to such action, suit or proceeding, or (2) if such a quorum is not obtainable, or, even if obtainable, a quorum of disinterested directors or directors, by independent legal counsel in a written opinion, or (3) by the stockholders of the Corporation.

Section 5. Advance Payment.

Expenses incurred in defending any civil, criminal, administrative, or investigative action, suit or proceeding may be paid by the Corporation in advance of the final disposition of such action, suit or proceeding upon receipt of an undertaking by or on behalf of any person described in said Section to repay such amount if it shall ultimately be determined that he or she is not entitled to indemnification by the Corporation as authorized in this Article.

Section 6. Non-Exclusivity.

The indemnification and advancement of expenses provided by, or granted pursuant to, the other Sections of this Article shall not be deemed exclusive of any other rights to which those provided indemnification or advancement of expenses may be entitled under any bylaw, agreement, vote of stockholders or disinterested directors or otherwise, both as to action in such person's official capacity and as to action in another capacity while holding such office.

Section 7. Insurance.

The Board of Directors may authorize, by a vote of the majority of the full board, the Corporation to purchase and maintain insurance on behalf of any person who is or was a director, officer, employee or agent of the Corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise against any liability asserted against him or her and incurred by him or her in any such capacity, or arising out of his or her status as such, whether or not the corporation would have the power to indemnify him or her against such liability under the provisions of this Article.

Section 8. Continuation of Indemnification and Advancement of Expenses.

The indemnification and advancement of expenses provided by, or granted pursuant to, this Article shall continue as to a person who has ceased to be a director, officer, employee or agent and shall inure to the benefit of the heirs, executors and administrators of such a person.

Section 9. Severability.

If any word, clause or provision of this Article or any award made hereunder shall for any reason be determined to be invalid, the provisions hereof shall not otherwise be affected thereby but shall remain in full force and effect.

Section 10. Intent of Article.

The intent of this Article is to provide for indemnification and advancement of expenses to the fullest extent permitted by Section 145 of the General Corporation Law of Delaware. To the extent that such Section or any successor section may be amended or supplemented from time to time, this Article shall be amended automatically and construed so as to permit indemnification and advancement of expenses to the fullest extent from time to time permitted by law.

ARTICLE VIII — CERTAIN TRANSACTIONS

Section 1. Transactions with Interested Parties.

No contract or transaction between the Corporation and one or more of its directors or officers, or between the Corporation and any other corporation, partnership, association, or other organization in which one or more of its directors or officers are directors or officers, or have a financial interest, shall be void or voidable solely for this reason, or solely because the director or officer is present at or participates in the meeting of the Board or committee thereof which authorizes the contract or transaction or solely because the votes of such director or officer are counted for such purpose, if:

(a) The material facts as to his or her relationship or interest and as to the contract or transaction are disclosed or are known to the Board of Directors or the committee, and the Board or committee in good faith authorizes the contract or transaction by the affirmative votes of a majority of the disinterested directors, even though the disinterested directors be less than a quorum; or

(b) The material facts as to his or her relationship or interest and as to the contract or transaction are disclosed or are known to the stockholders entitled to vote thereon, and the contract or transaction is specifically approved in good faith by vote of the stockholders; or

(c) The contract or transaction is fair as to the Corporation as of the time it is authorized, approved or ratified, by the Board of Directors, a committee thereof, or the stockholders.

Section 2. Quorum.

Common or interested directors may be counted in determining the presence of a quorum at a meeting of the Board of Directors or of a committee which authorizes the contract or transaction.

The Board of Directors may provide a suitable seal, containing the name of the Corporation, which seal shall be in the charge of the Secretary. Section 3. Reliance upon Books, Reports and Records.

Each director, each member of any committee designated by the Board of Directors, and each officer of the Corporation shall, in the performance of his or her duties, be fully protected in relying in good faith upon the books of account or other records of the Corporation and upon such information, opinions, reports or statements presented to the Corporation by any of its officers or employees, or committees of the Board of Directors so designated, or by any other person as to matters which such director or committee member reasonably believes are within such other person's professional or expert competence and who has been selected with reasonable care by or on behalf of the Corporation.

Section 4. Fiscal Year.

Except as otherwise determined by the Board of Directors from time to time, the fiscal year of the Corporation shall end on the last day of December of each year.

Section 5. Time Periods.

In applying any provision of these Bylaws which requires that an act be done or not be done a specified number of days prior to an event or that an act be done during a period of a specified number of days prior to an event, calendar days shall be used, the day of the doing of the act shall be excluded, and the day of the event shall be included.

ARTICLE X — AMENDMENTS

These Bylaws may be amended, added to, rescinded or repealed by the stockholders or by the Board of Directors, when such power is conferred upon the Board of Directors by the Certificate of Incorporation, at any meeting of the stockholders or of the Board of Directors, provided notice of the proposed change was given in the notice of the meeting or, in the case of a meeting of the Board of Directors, in a notice given not less than two (2) days prior to the meeting.

TABLE OF CONTENTS

In consideration of the premises and the agreements herein and for other consideration, the sufficiency of which is hereby acknowledged, Parent hereby agrees that from the Closing Date until thirty (30) days following the Termination Date, Parent will not, directly or indirectly, effect any Subsequent Placement (as defined below) unless Parent shall have first complied with the following provisions:

(1) No later than three (3) Trading Days prior to the consummation of any Subsequent Placement, Parent shall notify the General Counsel of the Undersigned indicating that it would like to discuss with the Undersigned matters that may include material, nonpublic information (the “**Pre-Notice**”), but which Pre-Notice Parent shall acknowledge shall not contain any material, nonpublic information, and shall ask the Undersigned if it wants to receive a further notice in order to review the details of such matters (such additional written notice, the “**Offer Notice**” and the time Parent so contacts the Undersigned, the “**Notice Time**”); provided, however, in the case of an Overnight Offering (as defined below), Parent shall not be required to deliver a Pre-Notice pursuant to the immediately preceding sentence, but shall rather be required to contact the Undersigned by contacting both Yoav Roth and George Antonopoulos (both are collectively referred to herein as the “**Undersigned’s Contact Persons**”) by e-mail (all of the following: _____, _____, _____, and _____), facsimile (_____), telephone (_____) and cell phone (_____ and _____) to communicate to both the details set forth in the Offer Notice; provided, further, that in the event Parent contacts the Undersigned’s Contact Persons between 10:00 p.m. and 8:00 a.m. New York City time on a Business Day or on a day that is not a Business Day, the Notice Time shall be deemed to be the immediately succeeding 8:00 a.m. New York City time that falls on a Business Day immediately following such contact. Upon the request of the Undersigned to receive an Offer Notice, which must be made no later than two (2) Trading Days following receipt of the Pre-Notice in order to participate in such Subsequent Placement, and only upon request by the Undersigned (other than in connection with an Overnight Offering), Parent shall promptly, but no later than one (1) Trading Day after such request, deliver an Offer Notice to the Undersigned. The Offer Notice delivered pursuant to the immediately preceding sentence or in connection with an Overnight Offering shall (x) identify and describe in reasonable detail the proposed terms of any proposed or intended issuance or sale or exchange (the “**Offer**”) of the securities being offered (the “**Offered Securities**”), including, the price and other terms upon which they are to be issued, sold or exchanged, and the number or amount of the Offered Securities to be issued, sold or exchanged, (y) identify the persons or entities (if known) to which or with which the Offered Securities are to be offered, issued, sold or exchanged and (z) offer to issue and sell to or exchange with the Undersigned twenty-five percent (25%) of the Offered Securities (the “**Basic Amount**”).

(2) To accept an Offer, in whole or in part, the Undersigned must deliver a written notice to Parent within five (5) hours of the Notice Time (the “**Offer Period**”), setting forth the portion of the Undersigned’s Basic Amount that the Undersigned elects to purchase (the “**Notice of Acceptance**”). Notwithstanding anything to the contrary contained herein, if Parent desires to modify or amend the terms and conditions of the Offer prior to the expiration of the Offer Period, Parent shall be required to deliver to the Undersigned a new Pre-Notice, or Offer Notice in case of an Overnight Offering, and follow the procedures set forth in clause (1) above and this clause (2).

(3) Parent shall have five (5) Business Days from the expiration of the Offer Period above, or forty (40) hours from the Notice Time in case of an Overnight Offering, (i) to offer, issue, sell or exchange all or any part of such Offered Securities as to which a Notice of Acceptance has not been given by the Undersigned (the “**Refused Securities**”) pursuant to a definitive agreement (the “**Subsequent Placement Agreement**”) but only to the offerees described in the Offer Notice (if so described therein) and only upon terms and conditions (including, without limitation, unit prices and interest rates) that are not more favorable to the acquiring person or persons or less favorable to Parent than those set forth in the Offer Notice and (ii) to publicly announce (a) if a Subsequent Placement Agreement is executed, the execution of such Subsequent Placement Agreement, and (b) if a Subsequent Placement is consummated, the consummation of the transactions contemplated by such Subsequent Placement Agreement, which shall be filed with the United States Securities and Exchange Commission (the “**SEC**”) on a Current Report on Form 8-K with such Subsequent Placement Agreement and any documents contemplated therein filed as exhibits thereto.

(4) In the event Parent shall propose to sell less than all the Refused Securities (any such sale to be in the manner and on the terms specified in clause (3) above), then the Undersigned may, at its sole option and in its sole discretion, reduce the number or amount of the Offered Securities specified in its Notice of Acceptance to an amount that shall be not less than the number or amount of the Offered Securities that the Undersigned elected to purchase pursuant to Section clause (2) above multiplied by a fraction, (i) the numerator of which shall be the number or amount of Offered Securities Parent actually proposes to issue, sell or exchange (including Offered Securities to be issued or sold to the Undersigned pursuant to clause (3) above prior to such reduction) and (ii) the denominator of which shall be the original amount of the Offered Securities. In the event that the Undersigned so elects to reduce the number or amount of Offered Securities specified in its Notice of Acceptance, Parent may not issue, sell or exchange more than the reduced number or amount of the Offered Securities unless and until such securities have again been offered to the Undersigned in accordance with clause (1) above.

(5) Upon the closing of the issuance, sale or exchange of all or less than all of the Refused Securities, the Undersigned shall acquire from Parent, and Parent shall issue to the Undersigned, the number or amount of Offered Securities specified in the Notices of Acceptance, as reduced pursuant to clause (4) above if the Undersigned has so elected, upon the terms and conditions specified in the Offer. The purchase by the Undersigned of any Offered Securities is subject in all cases to the preparation, execution and delivery by Parent and the Undersigned of a Subsequent Placement Agreement, in all cases with the same terms and conditions as the agreement(s) entered into with other purchasers of Offered Securities.

(6) Any Offered Securities not acquired by the Undersigned or other persons in accordance with the provisions above may not be issued, sold or exchanged until they are again offered to the Undersigned under the procedures specified in this Agreement.

(7) Parent and the Undersigned agree that if the Undersigned elects to participate in the Offer, (x) neither the Subsequent Placement Agreement with respect to such Offer nor any other transaction documents related thereto (collectively, the “**Subsequent Placement Documents**”) shall include any term or provisions whereby the Undersigned shall be required to agree to any restrictions in trading as to any securities of Parent owned by the Undersigned prior to such Subsequent Placement, and (y) the Undersigned shall be entitled to the same registration rights provided to other investors in the Subsequent Placement.

(8) Notwithstanding anything to the contrary in herein and unless otherwise agreed to by the Undersigned, Parent shall either confirm in writing to the Undersigned that the transaction with respect to the Subsequent Placement has been abandoned or shall publicly disclose its intention to issue the Offered Securities, in either case in such a manner such that the Undersigned will not be in possession of material non-public information, by (i) the fifteenth (15th) Business Day following delivery of the Offer Notice or (ii) in case of an Overnight Offering, by the fortieth (40th) hour following delivery of the Offer Notice. If by the fifteenth (15th) Business Day or the fortieth (40th) hour, as applicable, following delivery of the Offer Notice no public disclosure regarding a transaction with respect to the Offered Securities has been made, and no notice regarding the abandonment of such transaction has been received by the Undersigned, such transaction shall be deemed to have been abandoned and the Undersigned shall not be deemed to be in possession of any material, non-public information with respect to Parent. Should Parent decide to pursue such transaction with respect to the Offered Securities, Parent shall provide the Undersigned with another Offer Notice and the Undersigned will again have the right of participation set forth herein. Parent shall not be permitted to deliver more than one such Offer Notice to the Undersigned in any sixty (60) day period.

(9) The foregoing restrictions shall not apply in connection with the issuance of any Excluded Securities.

(10) As used herein, (t) “**Business Day**” means any day other than Saturday, Sunday or other day on which commercial banks in The City of New York are authorized or required by law to remain closed, (u) “**Overnight Offering**” means a financing transaction by Parent, which is scheduled to close and be publicly announced pursuant to the provisions of clause (8) above within forty (40) hours of the Notice Time, (v) “**Subsequent Placement**” means any direct or indirect, offer, sale (including any sale of options to purchase), or other disposition of (or announcement of any offer, sale, or sale of any option to purchase or other disposition of) any of Parent’s or its Subsidiaries’ equity or equity equivalent securities, including

without limitation any debt, preferred stock or other instrument or security that is, at any time during its life and under any circumstances, convertible into or exchangeable or exercisable for Common Stock or Common Stock Equivalents; (w) “**Common Stock Equivalents**” means, collectively, Options and Convertible Securities; (x) “**Options**” means any rights, warrants or options to subscribe for or purchase Common Stock or Convertible Securities; (y) “**Convertible Securities**” means any stock or securities (other than Options) directly or indirectly convertible into or exchangeable or exercisable for Common Stock; and (z) “**Excluded Securities**” means any capital stock issued or issuable: (i) upon conversion of the Preferred Shares; provided that the terms of the Preferred Shares are not amended, modified or changed after the Closing Date; (ii) as a dividend or distribution on the Preferred Shares; (iii) upon conversion of any Options or Convertible Securities which are outstanding on the day immediately preceding the date hereof, provided that the terms of such Options or Convertible Securities are not amended, modified or changed on or after the Closing Date; (iv) pursuant to any employee benefit plan which has been approved by the Board of Directors of Parent pursuant to which Parent’s securities may be issued to any employee, officer or director for bona fide services provided to Parent; and (v) pursuant to acquisitions or strategic transactions approved by a majority of the disinterested directors of Parent, provided that any such issuance shall only be to a Person (or to the equity holders of a Person) which is, itself or through its subsidiaries, an operating company or an owner of an asset in a business synergistic with the business of Parent and shall provide to Parent additional benefits in addition to the investment of funds, but shall not include a transaction in which Parent is issuing securities for the purpose of raising capital or to an entity whose primary business is investing in securities.

This Letter Agreement may be executed in any number of counterparts, which together shall constitute this Letter Agreement. This Letter Agreement shall be governed by, and construed in accordance with, the laws of the State of New York (without giving effect to the conflict of laws principles thereof). Any amendments or modifications hereto must be executed in writing by all parties.

Very truly yours,

Survivor means a deceased Participant's legal representatives and/or any person or persons who acquired the Participant's rights to a Stock Right by will or by the laws of descent and distribution.

2. PURPOSES OF THE PLAN.

The Plan is intended to encourage ownership of Shares by Employees and directors of and certain Consultants to the Company and its Affiliates in order to attract and retain such people, to induce them to work for the benefit of the Company or of an Affiliate and to provide additional incentive for them to promote the success of the Company or of an Affiliate. The Plan provides for the granting of ISOs, Non-Qualified Options, Stock Grants and Stock-Based Awards.

3. SHARES SUBJECT TO THE PLAN.

(a) The number of Shares which may be issued from time to time pursuant to this Plan shall be the sum of: (i) 15.6 million shares of Common Stock and (ii) any shares of Common Stock that are represented by awards granted under the Company's 2006 Stock Option Plan that are forfeited, expire or are cancelled without delivery of shares of Common Stock or which result in the forfeiture of shares of Common Stock back to the Company on or after the date of the Plan approval by the shareholders of the Company, or the equivalent of such number of Shares after the Administrator, in its sole discretion, has interpreted the effect of any stock split, stock dividend, combination, recapitalization or similar transaction in accordance with Paragraph 24 of this Plan; provided, however, that no more than 3.2 million shares shall be added to the Plan pursuant to subsection (ii).

(b) If an Option ceases to be "outstanding", in whole or in part (other than by exercise), or if the Company shall reacquire (at not more than its original issuance price) any Shares issued pursuant to a Stock Grant or Stock-Based Award, or if any Stock Right expires or is forfeited, cancelled, or otherwise terminated or results in any Shares not being issued, the unissued or reacquired Shares which were subject to such Stock Right shall again be available for issuance from time to time pursuant to this Plan. Notwithstanding the foregoing, if a Stock Right is exercised, in whole or in part, by tender of Shares or if the Company's or an Affiliate's tax withholding obligation is satisfied by withholding Shares, the number of Shares deemed to have been issued under the Plan for purposes of the limitation set forth in Paragraph 3(a) above shall be the number of Shares that were subject to the Stock Right or portion thereof, and not the net number of Shares actually issued. However, in the case of ISOs, the foregoing provisions shall be subject to any limitations under the Code.

4. ADMINISTRATION OF THE PLAN.

The Administrator of the Plan will be the Board of Directors, except to the extent the Board of Directors delegates its authority to the Committee, in which case the Committee shall be the Administrator. Subject to the provisions of the Plan, the Administrator is authorized to:

TABLE OF CONTENTS

(c) Determine the number of Shares for which a Stock Right or Stock Rights shall be granted, provided, however, that in no event shall Stock Rights with respect to more than 4.0 million Shares be granted to any Participant in any fiscal year;

(d) Specify the terms and conditions upon which a Stock Right or Stock Rights may be granted;

(e) Amend any term or condition of any outstanding Stock Right, including, without limitation, to accelerate the vesting schedule or extend the expiration date, provided that (i) such term or condition as amended is permitted by the Plan; (ii) any such amendment shall not impair the rights of a Participant under any Stock Right previously granted without such Participant's consent or in the event of death of the Participant the Participant's Survivors; and (iii) any such amendment shall be made only after the Administrator determines whether such amendment would cause any adverse tax consequences to the Participant, including, but not limited to, the annual vesting limitation contained in Section 422(d) of the Code and described in Paragraph 6(b)(iv) below with respect to ISOs and pursuant to Section 409A of the Code; and

(f) Adopt any appendices applicable to residents of any specified jurisdiction as it deems necessary or appropriate in order to comply with or take advantage of any tax or other laws applicable to the Company, any Affiliate or to Participants or to otherwise facilitate the administration of the Plan, which appendices may include additional restrictions or conditions applicable to Stock Rights or Shares issuable pursuant to a Stock Right;

provided, however, that all such interpretations, rules, determinations, terms and conditions shall be made and prescribed in the context of not causing any adverse tax consequences under Section 409A of the Code and preserving the tax status under Section 422 of the Code of those Options which are designated as ISOs. Subject to the foregoing, the interpretation and construction by the Administrator of any provisions of the Plan or of any Stock Right granted under it shall be final, unless otherwise determined by the Board of Directors, if the Administrator is the Committee. In addition, if the Administrator is the Committee, the Board of Directors may take any action under the Plan that would otherwise be the responsibility of the Committee.

To the extent permitted under applicable law, the Board of Directors or the Committee may allocate all or any portion of its responsibilities and powers to any one or more of its members and may delegate all or any portion of its responsibilities and powers to any other person selected by it. The Board of Directors or the Committee may revoke any such allocation or delegation at any time. The Administrator will, in its sole discretion, name the Participants in the Plan; provided, however, that each Participant must be an Employee, director or Consultant of the Company or of an Affiliate at the time a Stock Right is granted. Notwithstanding the foregoing, the Administrator may authorize the grant of a Stock Right to a person not then an Employee, director or Consultant of the Company or of an Affiliate; provided, however, that the actual grant of such Stock Right shall be conditioned upon such person becoming eligible to become a Participant at or prior to the time of the execution of the Agreement evidencing such Stock Right. ISOs may be granted only to Employees who are deemed to be residents of the United States for tax purposes. Non-Qualified Options, Stock Grants and Stock-Based Awards may be granted to any Employee, director or Consultant of the Company or an Affiliate. The granting of any Stock Right to any individual shall neither entitle that individual to, nor disqualify him or her from, participation in any other grant of Stock Rights or any grant under any other benefit plan established by the Company or any Affiliate for Employees, directors or Consultants.

6. TERMS AND CONDITIONS OF OPTIONS.

Each Option shall be set forth in writing in an Option Agreement, duly executed by the Company and, to the extent required by law or requested by the Company, by the Participant. The Administrator may provide that Options be granted subject to such terms and conditions, consistent with the terms and conditions specifically required under this Plan, as the Administrator may deem appropriate including, without limitation,

subsequent approval by the shareholders of the Company of this Plan or any amendments thereto. The Option Agreements shall be subject to at least the following terms and conditions:

(ii) Number of Shares: Each Option Agreement shall state the number of Shares to which it pertains.

(iii) Option Periods: Each Option Agreement shall state the date or dates on which it first is exercisable and the date after which it may no longer be exercised, and may provide that the Option rights accrue or become exercisable in installments over a period of months or years, or upon the occurrence of certain conditions or the attainment of stated goals or events.

(iv) Option Conditions: Exercise of any Option may be conditioned upon the Participant's execution of a Share purchase agreement in form satisfactory to the Administrator providing for certain protections for the Company and its other shareholders, including requirements that:

- A. The Participant's or the Participant's Survivors' right to sell or transfer the Shares may be restricted; and
- B. The Participant or the Participant's Survivors may be required to execute letters of investment intent and must also acknowledge that the Shares will bear legends noting any applicable restrictions.

(v) Term of Option: Each Option shall terminate not more than ten years from the date of the grant or at such earlier time as the Option Agreement may provide.

(b) ISOs: Each Option intended to be an ISO shall be issued only to an Employee who is deemed to be a resident of the United States for tax purposes, and shall be subject to the following terms and conditions, with such additional restrictions or changes as the Administrator determines are appropriate but not in conflict with Section 422 of the Code and relevant regulations and rulings of the Internal Revenue Service:

(i) Minimum standards: The ISO shall meet the minimum standards required of Non-Qualified Options, as described in Paragraph 6(a) above, except clause (i) and (v) thereunder.

(ii) Exercise Price: Immediately before the ISO is granted, if the Participant owns, directly or by reason of the applicable attribution rules in Section 424(d) of the Code:

- A. 10% or less of the total combined voting power of all classes of stock of the Company or an Affiliate, the exercise price per share of the Shares covered by each ISO shall not be less than 100% of the Fair Market Value per share of the Common Stock on the date of grant of the Option; or
- B. More than 10% of the total combined voting power of all classes of stock of the Company or an Affiliate, the exercise price per share of the Shares covered by each ISO shall not be less than 110% of the Fair Market Value per share of the Common Stock on the date of grant of the Option.

TABLE OF CONTENTS

(iii) Term of Option: For Participants who own:

- A. 10% or less of the total combined voting power of all classes of stock of the Company or an Affiliate, each ISO shall terminate not more than ten years from the date of the grant or at such earlier time as the Option Agreement may provide; or
- B. More than 10% of the total combined voting power of all classes of stock of the Company or an Affiliate, each ISO shall terminate not more than five years from the date of the grant or at such earlier time as the Option Agreement may provide.

(iv) Limitation on Yearly Exercise: The Option Agreements shall restrict the amount of ISOs which may become exercisable in any calendar year (under this or any other ISO plan of the Company or an Affiliate) so that the aggregate Fair Market Value (determined on the date each ISO is granted) of the stock with respect to which ISOs are exercisable for the first time by the Participant in any calendar year does not exceed \$100,000.

7. TERMS AND CONDITIONS OF STOCK GRANTS.

Each Stock Grant to a Participant shall state the principal terms in an Agreement duly executed by the Company and, to the extent required by law or requested by the Company, by the Participant. The Agreement shall be in a form approved by the Administrator and shall contain terms and conditions which the Administrator determines to be appropriate and in the best interest of the Company, subject to the following minimum standards:

(a) Each Agreement shall state the purchase price per share, if any, of the Shares covered by each Stock Grant, which purchase price shall be determined by the Administrator but shall not be less than the minimum consideration required by the Delaware General Corporation Law, if any, on the date of the grant of the Stock Grant;

(b) Each Agreement shall state the number of Shares to which the Stock Grant pertains; and

(c) Each Agreement shall include the terms of any right of the Company to restrict or reacquire the Shares subject to the Stock Grant, including the time and events upon which such rights shall accrue and the purchase price therefor, if any.

8. TERMS AND CONDITIONS OF OTHER STOCK-BASED AWARDS.

The Administrator shall have the right to grant other Stock-Based Awards based upon the Common Stock having such terms and conditions as the Administrator may determine, including, the grant of Shares based upon certain conditions, the grant of securities convertible into Shares and the grant of stock appreciation rights, phantom stock awards or stock units. The principal terms of each Stock-Based Award shall be set forth in an Agreement, duly executed by the Company and, to the extent required by law or requested by the Company, by the Participant. The Agreement shall be in a form approved by the Administrator and shall contain terms and conditions which the Administrator determines to be appropriate and in the best interest of the Company.

The Company intends that the Plan and any Stock-Based Awards granted hereunder be exempt from the application of Section 409A of the Code or meet the requirements of paragraphs (2), (3) and (4) of subsection (a) of Section 409A of the Code, to the extent applicable, and be operated in accordance with Section 409A so that any compensation deferred under any Stock-Based Award (and applicable investment earnings) shall not be included in income under Section 409A of the Code. Any ambiguities in the Plan shall be construed to affect the intent as described in this Paragraph 8.

9. EXERCISE OF OPTIONS AND ISSUE OF SHARES.

An Option (or any part or installment thereof) shall be exercised by giving written notice to the Company or its designee (in a form acceptable to the Administrator, which may include electronic notice), together with provision for payment of the aggregate exercise price in accordance with this Paragraph for the Shares as to which the Option is being exercised, and upon compliance with any other condition(s) set forth in the Option Agreement. Such notice shall be signed by the person exercising the Option (which signature may be provided

TABLE OF CONTENTS

electronically in a form acceptable to the Administrator), shall state the number of Shares with respect to which the Option is being exercised and shall contain any representation required by the Plan or the Option Agreement. Payment of the exercise price for the Shares as to which such Option is being exercised shall be made (a) in United States dollars in cash or by check, or (b) at the discretion of the Administrator, through delivery of shares of Common Stock held for at least six months (if required to avoid negative accounting treatment) having a Fair Market Value equal as of the date of the exercise to the aggregate cash exercise price for the number of Shares as to which the Option is being exercised, or (c) at the discretion of the Administrator, by having the Company retain from the Shares otherwise issuable upon exercise of the Option, a number of Shares having a Fair Market Value equal as of the date of exercise to the aggregate exercise price for the number of Shares as to which the Option is being exercised, or (d) at the discretion of the Administrator, in accordance with a cashless exercise program established with a securities brokerage firm, and approved by the Administrator, or (e) at the discretion of the Administrator, by any combination of (a), (b), (c), and (d) above or (f) at the discretion of the Administrator, by payment of such other lawful consideration as the Administrator may determine. Notwithstanding the foregoing, the Administrator shall accept only such payment on exercise of an ISO as is permitted by Section 422 of the Code.

The Company shall then reasonably promptly deliver the Shares as to which such Option was exercised to the Participant (or to the Participant's Survivors, as the case may be). In determining what constitutes "reasonably promptly," it is expressly understood that the issuance and delivery of the Shares may be delayed by the Company in order to comply with any law or regulation (including, without limitation, state securities or "blue sky" laws) which requires the Company to take any action with respect to the Shares prior to their issuance. The Shares shall, upon delivery, be fully paid, non-assessable Shares.

10. PAYMENT IN CONNECTION WITH THE ISSUANCE OF STOCK GRANTS AND STOCK- BASED AWARDS AND ISSUE OF SHARES.

Any Stock Grant or Stock-Based Award requiring payment of a purchase price for the Shares as to which such Stock Grant or Stock-Based Award is being granted shall be made (a) in United States dollars in cash or by check, or (b) at the discretion of the Administrator, through delivery of shares of Common Stock held for at least six months (if required to avoid negative accounting treatment) and⁽²⁾ having a Fair Market Value equal as of the date of payment to the purchase price of the Stock Grant or Stock-Based Award, or (c) at the discretion of the Administrator, by any combination of (a) and (b) above; or (d) at the discretion of the Administrator, by payment of such other lawful consideration as the Administrator may determine.

The Company shall when required by the applicable Agreement, reasonably promptly deliver the Shares as to which such Stock Grant or Stock-Based Award was made to the Participant (or to the Participant's Survivors, as the case may be), subject to any escrow provision set forth in the applicable Agreement. In determining what constitutes "reasonably promptly," it is expressly understood that the issuance and delivery of the Shares may be delayed by the Company in order to comply with any law or regulation (including, without limitation, state securities or "blue sky" laws) which requires the Company to take any action with respect to the Shares prior to their issuance.

11. RIGHTS AS A SHAREHOLDER.

No Participant to whom a Stock Right has been granted shall have rights as a shareholder with respect to any Shares covered by such Stock Right except after due exercise of an Option or issuance of Shares as set forth in any Agreement, tender of the aggregate exercise or purchase price, if any, for the Shares being purchased and registration of the Shares in the Company's share register in the name of the Participant.

12. ASSIGNABILITY AND TRANSFERABILITY OF STOCK RIGHTS.

By its terms, a Stock Right granted to a Participant shall not be transferable by the Participant other than (i) by will or by the laws of descent and distribution, or (ii) as approved by the Administrator in its discretion and set forth in the applicable Agreement provided that no Stock Right may be transferred by a Participant for value. Notwithstanding the foregoing, an ISO transferred except in compliance with clause (i) above shall no

longer qualify as an ISO. The designation of a beneficiary of a Stock Right by a Participant, with the prior approval of the Administrator and in such form as the Administrator shall prescribe, shall not be deemed a transfer prohibited by this Paragraph. Except as provided above during the Participant's lifetime a Stock Right shall only be exercisable by or issued to such Participant (or his or her legal representative) and shall not be assigned, pledged or hypothecated in any way (whether by operation of law or otherwise) and shall not be subject to execution, attachment or similar process. Any attempted transfer, assignment, pledge, hypothecation or other disposition of any Stock Right or of any rights granted thereunder contrary to the provisions of this Plan, or the levy of any attachment or similar process upon a Stock Right, shall be null and void.

13. EFFECT ON OPTIONS OF TERMINATION OF SERVICE OTHER THAN FOR CAUSE OR DEATH OR DISABILITY.

Except as otherwise provided in a Participant's Option Agreement, in the event of a termination of service (whether as an Employee, director or Consultant) with the Company or an Affiliate before the Participant has exercised an Option, the following rules apply:

(a) A Participant who ceases to be an Employee, director or Consultant of the Company or of an Affiliate (for any reason other than termination for Cause, Disability, or death for which events there are special rules in Paragraphs 14, 15, and 16, respectively), may exercise any Option granted to him or her to the extent that the Option is exercisable on the date of such termination of service, but only within such term as the Administrator has designated in a Participant's Option Agreement and in no event later than eighteen months after the Participant's termination of employment. In addition, the Administrator may extend the period in which the Participant is eligible to exercise any vested Options but in no event may an Option be exercised later than eighteen months after the Participant's termination of employment.

(b) Except as provided in Subparagraph (c) below, or Paragraph 15 or 16, in no event may an Option intended to be an ISO, be exercised later than three months after the Participant's termination of employment.

(c) The provisions of this Paragraph, and not the provisions of Paragraph 15 or 16, shall apply to a Participant who subsequently becomes Disabled or dies after the termination of employment, director status or consultancy; provided, however, in the case of a Participant's Disability or death within three months after the termination of employment, director status or consultancy, the Participant or the Participant's Survivors may exercise the Option within one year after the date of the Participant's termination of service or twelve months in the case of an ISO, but in no event after the date of expiration of the term of the Option.

(d) Notwithstanding anything herein to the contrary, if subsequent to a Participant's termination of employment, termination of director status or termination of consultancy, but prior to the exercise of an Option, the Administrator determines that, either prior or subsequent to the Participant's termination, the Participant engaged in conduct which would constitute Cause, then such Participant shall forthwith cease to have any right to exercise any Option.

(e) A Participant to whom an Option has been granted under the Plan who is absent from the Company or an Affiliate because of temporary disability (any disability other than a Disability as defined in Paragraph 1 hereof), or who is on leave of absence for any purpose, shall not, during the period of any such absence, be deemed, by virtue of such absence alone, to have terminated such Participant's employment, director status or consultancy with the Company or with an Affiliate, except as the Administrator may otherwise expressly provide; provided, however, that, for ISOs, any leave of absence granted by the Administrator of greater than ninety days, unless pursuant to a contract or statute that guarantees the right to reemployment, shall cause such ISO to become a Non-Qualified Option on the 181st day following such leave of absence.

(f) Except as required by law or as set forth in a Participant's Option Agreement, Options granted under the Plan shall not be affected by any change of a Participant's status within or among the Company and any Affiliates, so long as the Participant continues to be an Employee, director or Consultant of the Company or any Affiliate.

14. EFFECT ON OPTIONS OF TERMINATION OF SERVICE FOR CAUSE.

Except as otherwise provided in a Participant's Option Agreement, the following rules apply if the Participant's service (whether as an Employee, director or Consultant) with the Company or an Affiliate is terminated for Cause prior to the time that all his or her outstanding Options have been exercised:

(a) All outstanding and unexercised Options as of the time the Participant is notified his or her service is terminated for Cause will immediately be forfeited.

(b) Cause is not limited to events which have occurred prior to a Participant's termination of service, nor is it necessary that the Administrator's finding of Cause occur prior to termination. If the Administrator determines, subsequent to a Participant's termination of service but prior to the exercise of an Option, that either prior or subsequent to the Participant's termination the Participant engaged in conduct which would constitute Cause, then the right to exercise any Option is forfeited.

15. EFFECT ON OPTIONS OF TERMINATION OF SERVICE FOR DISABILITY.

Except as otherwise provided in a Participant's Option Agreement:

(a) A Participant who ceases to be an Employee, director or Consultant of the Company or of an Affiliate by reason of Disability may exercise any Option granted to such Participant:

(i) To the extent that the Option has become exercisable but has not been exercised on the date of the Participant's termination of service due to Disability; and

(ii) In the event rights to exercise the Option accrue periodically, to the extent of a pro rata portion through the date of the Participant's termination of service due to Disability of any additional vesting rights that would have accrued on the next vesting date had the Participant not become Disabled. The proration shall be based upon the number of days accrued in the current vesting period prior to the date of the Participant's termination of service due to Disability.

(b) A Disabled Participant may exercise the Option only within the period ending one year after the date of the Participant's termination of service due to Disability, notwithstanding that the Participant might have been able to exercise the Option as to some or all of the Shares on a later date if the Participant had not been terminated due to Disability and had continued to be an Employee, director or Consultant or, if earlier, within the originally prescribed term of the Option.

(c) The Administrator shall make the determination both of whether Disability has occurred and the date of its occurrence (unless a procedure for such determination is set forth in another agreement between the Company and such Participant, in which case such procedure shall be used for such determination). If requested, the Participant shall be examined by a physician selected or approved by the Administrator, the cost of which examination shall be paid for by the Company.

16. EFFECT ON OPTIONS OF DEATH WHILE AN EMPLOYEE, DIRECTOR OR CONSULTANT.

Except as otherwise provided in a Participant's Option Agreement:

(a) In the event of the death of a Participant while the Participant is an Employee, director or Consultant of the Company or of an Affiliate, such Option may be exercised by the Participant's Survivors:

(i) To the extent that the Option has become exercisable but has not been exercised on the date of death; and

(ii) In the event rights to exercise the Option accrue periodically, to the extent of a pro rata portion through the date of death of any additional vesting rights that would have accrued on the next vesting date had the Participant not died. The proration shall be based upon the number of days accrued in the current vesting period prior to the Participant's date of death.

(b) If the Participant's Survivors wish to exercise the Option, they must take all necessary steps to exercise the Option within one year after the date of death of such Participant, notwithstanding that the decedent might have been able to exercise the Option as to some or all of the Shares on a later date if he

or she had not died and had continued to be an Employee, director or Consultant or, if earlier, within the originally prescribed term of the Option.

17. EFFECT OF TERMINATION OF SERVICE ON STOCK GRANTS AND STOCK-BASED AWARDS.

In the event of a termination of service (whether as an Employee, director or Consultant) with the Company or an Affiliate for any reason before the Participant has accepted a Stock Grant or a Stock-Based Award and paid the purchase price, if required, such grant shall terminate.

For purposes of this Paragraph 17 and Paragraph 18 below, a Participant to whom a Stock Grant has been issued under the Plan who is absent from work with the Company or with an Affiliate because of temporary disability (any disability other than a Disability as defined in Paragraph 1 hereof), or who is on leave of absence for any purpose, shall not, during the period of any such absence, be deemed, by virtue of such absence alone, to have terminated such Participant's employment, director status or consultancy with the Company or with an Affiliate, except as the Administrator may otherwise expressly provide.

In addition, for purposes of this Paragraph 17 and Paragraph 18 below, any change of employment or other service within or among the Company and any Affiliates shall not be treated as a termination of employment, director status or consultancy so long as the Participant continues to be an Employee, director or Consultant of the Company or any Affiliate.

18. EFFECT ON STOCK GRANTS OF TERMINATION OF SERVICE OTHER THAN FOR CAUSE OR DEATH OR DISABILITY.

Except as otherwise provided in a Participant's Stock Grant Agreement, in the event of a termination of service (whether as an Employee, director or Consultant), other than termination for Cause, Disability, or death for which events there are special rules in Paragraphs 19, 20, and 21, respectively, before all forfeiture provisions or Company rights of repurchase shall have lapsed, then the Company shall have the right to cancel or repurchase that number of Shares subject to a Stock Grant as to which the Company's forfeiture or repurchase rights have not lapsed.

19. EFFECT ON STOCK GRANTS OF TERMINATION OF SERVICE FOR CAUSE.

Except as otherwise provided in a Participant's Stock Grant Agreement, the following rules apply if the Participant's service (whether as an Employee, director or Consultant) with the Company or an Affiliate is terminated for Cause:

(a) All Shares subject to any Stock Grant whether or not then subject to forfeiture or repurchase shall be immediately subject to repurchase by the Company at par value.

(b) Cause is not limited to events which have occurred prior to a Participant's termination of service, nor is it necessary that the Administrator's finding of Cause occur prior to termination. If the Administrator determines, subsequent to a Participant's termination of service, that either prior or subsequent to the Participant's termination the Participant engaged in conduct which would constitute Cause, then all Shares subject to any Stock Grant that remained subject to forfeiture provisions or as to which the Company had a repurchase right on the date of termination shall be immediately forfeited to the Company.

20. EFFECT ON STOCK GRANTS OF TERMINATION OF SERVICE FOR DISABILITY.

Except as otherwise provided in a Participant's Stock Grant Agreement, the following rules apply if a Participant ceases to be an Employee, director or Consultant of the Company or of an Affiliate by reason of Disability: to the extent the forfeiture provisions or the Company's rights of repurchase have not lapsed on the date of Disability, they shall be exercisable; provided, however, that in the event such forfeiture provisions or rights of repurchase lapse periodically, such provisions or rights shall lapse to the extent of a pro rata portion of the Shares subject to such Stock Grant through the date of Disability as would have lapsed had the Participant not become Disabled. The proration shall be based upon the number of days accrued prior to the date of Disability.

TABLE OF CONTENTS

The Administrator shall make the determination both as to whether Disability has occurred and the date of its occurrence (unless a procedure for such determination is set forth in another agreement between the Company and such Participant, in which case such procedure shall be used for such determination). If requested, the Participant shall be examined by a physician selected or approved by the Administrator, the cost of which examination shall be paid for by the Company.

21. EFFECT ON STOCK GRANTS OF DEATH WHILE AN EMPLOYEE, DIRECTOR OR CONSULTANT.

Except as otherwise provided in a Participant's Stock Grant Agreement, the following rules apply in the event of the death of a Participant while the Participant is an Employee, director or Consultant of the Company or of an Affiliate: to the extent the forfeiture provisions or the Company's rights of repurchase have not lapsed on the date of death, they shall be exercisable; provided, however, that in the event such forfeiture provisions or rights of repurchase lapse periodically, such provisions or rights shall lapse to the extent of a pro rata portion of the Shares subject to such Stock Grant through the date of death as would have lapsed had the Participant not died. The proration shall be based upon the number of days accrued prior to the Participant's date of death.

22. PURCHASE FOR INVESTMENT.

Unless the offering and sale of the Shares shall have been effectively registered under the Securities Act, the Company shall be under no obligation to issue Shares under the Plan unless and until the following conditions have been fulfilled:

(a) The person who receives a Stock Right shall warrant to the Company, prior to the receipt of Shares, that such person is acquiring such Shares for his or her own account, for investment, and not with a view to, or for sale in connection with, the distribution of any such Shares, in which event the person acquiring such Shares shall be bound by the provisions of the following legend (or a legend in substantially similar form) which shall be endorsed upon the certificate evidencing the Shares issued pursuant to such exercise or such grant:

"The shares represented by this certificate have been taken for investment and they may not be sold or otherwise transferred by any person, including a pledgee, unless (1) either (a) a Registration Statement with respect to such shares shall be effective under the Securities Act of 1933, as amended, or (b) the Company shall have received an opinion of counsel satisfactory to it that an exemption from registration under such Act is then available, and (2) there shall have been compliance with all applicable state securities laws."

(b) At the discretion of the Administrator, the Company shall have received an opinion of its counsel that the Shares may be issued in compliance with the Securities Act without registration thereunder.

23. DISSOLUTION OR LIQUIDATION OF THE COMPANY.

Upon the dissolution or liquidation of the Company, all Options granted under this Plan which as of such date shall not have been exercised and all Stock Grants and Stock-Based Awards which have not been accepted, to the extent required under the applicable Agreement, will terminate and become null and void; provided, however, that if the rights of a Participant or a Participant's Survivors have not otherwise terminated and expired, the Participant or the Participant's Survivors will have the right immediately prior to such dissolution or liquidation to exercise or accept any Stock Right to the extent that the Stock Right is exercisable or subject to acceptance as of the date immediately prior to such dissolution or liquidation. Upon the dissolution or liquidation of the Company, any outstanding Stock-Based Awards shall immediately terminate unless otherwise determined by the Administrator or specifically provided in the applicable Agreement.

24. ADJUSTMENTS.

Upon the occurrence of any of the following events, a Participant's rights with respect to any Stock Right granted to him or her hereunder shall be adjusted as hereinafter provided, unless otherwise specifically provided in a Participant's Agreement:

(a) Stock Dividends and Stock Splits. If (i) the shares of Common Stock shall be subdivided or combined into a greater or smaller number of shares or if the Company shall issue any shares of Common Stock as a stock dividend on its outstanding Common Stock, or (ii) additional shares or new or different shares or other securities of the Company or other non-cash assets are distributed with respect to such shares of Common Stock, each Stock Right and the number of shares of Common Stock deliverable thereunder shall be appropriately increased or decreased proportionately, and appropriate adjustments shall be made including, in the exercise or purchase price per share, to reflect such events. The number of Shares subject to the limitations in Paragraph 3(a) and 4(c) shall also be proportionately adjusted upon the occurrence of such events.

(b) Corporate Transactions. If the Company is to be consolidated with or acquired by another entity in a merger, consolidation, or sale of all or substantially all of the Company's assets other than a transaction to merely change the state of incorporation (a "Corporate Transaction"), the Administrator or the board of directors of any entity assuming the obligations of the Company hereunder (the "Successor Board"), shall, as to outstanding Options, either (i) make appropriate provision for the continuation of such Options by substituting on an equitable basis for the Shares then subject to such Options either the consideration payable with respect to the outstanding shares of Common Stock in connection with the Corporate Transaction or securities of any successor or acquiring entity; or (ii) upon written notice to the Participants, provide that such Options must be exercised (either (A) to the extent then exercisable or, (B) at the discretion of the Administrator, any such Options being made partially or fully exercisable for purposes of this Subparagraph), within a specified number of days of the date of such notice, at the end of which period such vested Options which have not been exercised shall terminate; or (iii) terminate such Options in exchange for payment of an amount equal to the consideration payable upon consummation of such Corporate Transaction to a holder of the number of shares of Common Stock into which such Option would have been exercisable (either (A) to the extent then exercisable or, (B) at the discretion of the Administrator, any such Options being made partially or fully exercisable for purposes of this Subparagraph) less the aggregate exercise price thereof. For purposes of determining the payments to be made pursuant to Subclause (iii) above, in the case of a Corporate Transaction the consideration for which, in whole or in part, is other than cash, the consideration other than cash shall be valued at the fair value thereof as determined in good faith by the Board of Directors.

Notwithstanding the foregoing, in the event the Corporate Transaction also constitutes a Change of Control, then all Options outstanding on the date of the Corporate Transaction shall have vesting acceleration until the next vesting date, unless otherwise agreed upon with the Administrator.

With respect to outstanding Stock Grants, the Administrator or the Successor Board, shall make appropriate provision for the continuation of such Stock Grants on the same terms and conditions by substituting on an equitable basis for the Shares then subject to such Stock Grants either the consideration payable with respect to the outstanding Shares of Common Stock in connection with the Corporate Transaction or securities of any successor or acquiring entity. In lieu of the foregoing, in connection with any Corporate Transaction, the Administrator may provide that, upon consummation of the Corporate Transaction, each outstanding Stock Grant shall be terminated in exchange for payment of an amount equal to the consideration payable upon consummation of such Corporate Transaction to a holder of the number of shares of Common Stock comprising such Stock Grant (to the extent such Stock Grant is no longer subject to any forfeiture or repurchase rights then in effect or, at the discretion of the Administrator, all forfeiture and repurchase rights being waived upon such Corporate Transaction).

In taking any of the actions permitted under this Paragraph 24(b), the Administrator shall not be obligated by the Plan to treat all Stock Rights, all Stock Rights held by a Participant, or all Stock Rights of the same type, identically.

TABLE OF CONTENTS

(c) Recapitalization or Reorganization. In the event of a recapitalization or reorganization of the Company other than a Corporate Transaction pursuant to which securities of the Company or of another corporation are issued with respect to the outstanding shares of Common Stock, a Participant upon exercising an Option or accepting a Stock Grant after the recapitalization or reorganization shall be entitled to receive for the price paid upon such exercise or acceptance if any, the number of replacement securities which would have been received if such Option had been exercised or Stock Grant accepted prior to such recapitalization or reorganization.

(d) Adjustments to Stock-Based Awards. Upon the happening of any of the events described in Subparagraphs (a), (b) or (c) above, any outstanding Stock-Based Award shall be appropriately adjusted to reflect the events described in such Subparagraphs. The Administrator or the Successor Board shall determine the specific adjustments to be made under this Paragraph 24, including, but not limited to the effect of any, Corporate Transaction and, subject to Paragraph 4, its determination shall be conclusive.

(e) Modification of Options. Notwithstanding the foregoing, any adjustments made pursuant to Subparagraph (a), (b) or (c) above with respect to Options shall be made only after the Administrator determines whether such adjustments would (i) constitute a “modification” of any ISOs (as that term is defined in Section 424(h) of the Code) or (ii) cause any adverse tax consequences for the holders of Options, including, but not limited to, pursuant to Section 409A of the Code. If the Administrator determines that such adjustments made with respect to Options would constitute a modification or other adverse tax consequence, it may refrain from making such adjustments, unless the holder of an Option specifically agrees in writing that such adjustment be made and such writing indicates that the holder has full knowledge of the consequences of such “modification” on his or her income tax treatment with respect to the Option. This paragraph shall not apply to the acceleration of the vesting of any ISO that would cause any portion of the ISO to violate the annual vesting limitation contained in Section 422(d) of the Code, as described in Paragraph 6(b)(iv).

25. ISSUANCES OF SECURITIES.

Except as expressly provided herein, no issuance by the Company of shares of stock of any class, or securities convertible into shares of stock of any class, shall affect, and no adjustment by reason thereof shall be made with respect to, the number or price of shares subject to Stock Rights. Except as expressly provided herein, no adjustments shall be made for dividends paid in cash or in property (including without limitation, securities) of the Company prior to any issuance of Shares pursuant to a Stock Right.

26. FRACTIONAL SHARES.

No fractional shares shall be issued under the Plan and the person exercising a Stock Right shall receive from the Company cash in lieu of such fractional shares equal to the Fair Market Value thereof.

27. CONVERSION OF ISOs INTO NON-QUALIFIED OPTIONS; TERMINATION OF ISOs.

The Administrator, at the written request of any Participant, may in its discretion take such actions as may be necessary to convert such Participant’s ISOs (or any portions thereof) that have not been exercised on the date of conversion into Non-Qualified Options at any time prior to the expiration of such ISOs, regardless of whether the Participant is an Employee of the Company or an Affiliate at the time of such conversion. At the time of such conversion, the Administrator (with the consent of the Participant) may impose such conditions on the exercise of the resulting Non-Qualified Options as the Administrator in its discretion may determine, provided that such conditions shall not be inconsistent with this Plan. Nothing in the Plan shall be deemed to give any Participant the right to have such Participant’s ISOs converted into Non-Qualified Options, and no such conversion shall occur until and unless the Administrator takes appropriate action. The Administrator, with the consent of the Participant, may also terminate any portion of any ISO that has not been exercised at the time of such conversion.

28. WITHHOLDING.

In the event that any federal, state, or local income taxes, employment taxes, Federal Insurance Contributions Act (“F.I.C.A.”) withholdings or other amounts are required by applicable law or governmental regulation to be withheld from the Participant’s salary, wages or other remuneration in connection with the

TABLE OF CONTENTS

issuance of a Stock Right or Shares under the Plan or for any other reason required by law, the Company may withhold from the Participant's compensation, if any, or may require that the Participant advance in cash to the Company, or to any Affiliate of the Company which employs or employed the Participant, the statutory minimum amount of such withholdings unless a different withholding arrangement, including the use of shares of the Company's Common Stock or a promissory note, is authorized by the Administrator (and permitted by law). For purposes hereof, the fair market value of the shares withheld for purposes of payroll withholding shall be determined in the manner set forth under the definition of Fair Market Value provided in Paragraph 1 above, as of the most recent practicable date prior to the date of exercise. If the Fair Market Value of the shares withheld is less than the amount of payroll withholdings required, the Participant may be required to advance the difference in cash to the Company or the Affiliate employer. The Administrator in its discretion may condition the exercise of an Option for less than the then Fair Market Value on the Participant's payment of such additional withholding.

29. NOTICE TO COMPANY OF DISQUALIFYING DISPOSITION.

Each Employee who receives an ISO must agree to notify the Company in writing immediately after the Employee makes a Disqualifying Disposition of any Shares acquired pursuant to the exercise of an ISO. A Disqualifying Disposition is defined in Section 424(c) of the Code and includes any disposition (including any sale or gift) of such Shares before the later of (a) two years after the date the Employee was granted the ISO, or (b) one year after the date the Employee acquired Shares by exercising the ISO, except as otherwise provided in Section 424(c) of the Code. If the Employee has died before such Shares are sold, these holding period requirements do not apply and no Disqualifying Disposition can occur thereafter.

30. TERMINATION OF THE PLAN.

The Plan will terminate on the date which is ten years from the earlier of the date of its adoption by the Board of Directors and the date of its approval by the shareholders of the Company. The Plan may be terminated at an earlier date by vote of the shareholders or the Board of Directors of the Company; provided, however, that any such earlier termination shall not affect any Agreements executed prior to the effective date of such termination. Termination of the Plan shall not affect any Stock Rights theretofore granted.

31. AMENDMENT OF THE PLAN AND AGREEMENTS.

The Plan may be amended by the shareholders of the Company. The Plan may also be amended by the Administrator, including, without limitation, to the extent necessary to qualify any or all outstanding Stock Rights granted under the Plan or Stock Rights to be granted under the Plan for favorable federal income tax treatment as may be afforded incentive stock options under Section 422 of the Code (including deferral of taxation upon exercise), and to the extent necessary to qualify the Shares issuable under the Plan for listing on any national securities exchange or quotation in any national automated quotation system of securities dealers. In addition, if NYSE Amex amends its corporate governance rules so that such rules no longer require stockholder approval of "material amendments" of equity compensation plans, then, from and after the effective date of such an amendment to such rules, no amendment of the Plan which (i) materially increases the number of shares to be issued under the Plan (other than to reflect a reorganization, stock split, merger, spin-off or similar transaction); (ii) materially increases the benefits to Participants, including any material change to: (a) permit a repricing (or decrease in exercise price) of outstanding Options, (b) reduce the price at which Shares or Options may be offered, or (c) extend the duration of the Plan; (iii) materially expands the class of Participants eligible to participate in the Plan; or (iv) expands the types of awards provided under the Plan shall become effective unless stockholder approval is obtained. Any amendment approved by the Administrator which the Administrator determines is of a scope that requires shareholder approval shall be subject to obtaining such shareholder approval. - 6.4 Subject to applicable law, the Board of Directors or the Administrator shall be entitled to revise, amend or replace the terms of the trust agreement with the Trustee, to the extent that same (i) do not adversely affect any rights of a Participant under any valid and outstanding 102(b) Option, which are expressly provided for in this Appendix or the respective Option Agreement with such Participant, or is (ii) necessary or desirable in the light of any change or replacement of Section 102 of the Ordinance.
- 6.5 Any and all Rights with respect to a 102(b) Option shall be issued or distributed, as the case may be, to the Trustee and held thereby. Such Rights will not be sold or transferred until the lapse of the minimum period permitted by applicable law, and such Rights shall be subject to the taxation track which is applicable to such Shares issued pursuant to the exercise of a 102(b) Option hereunder. Notwithstanding the aforesaid, Shares issued pursuant to the exercise of 102(b) Options hereunder or Rights may be sold or transferred, and the Trustee may release such Shares issued pursuant to the exercise of 102(b) Options hereunder (or the applicable option award) or Rights from trust, prior to the lapse of the transferred until the lapse of the minimum period permitted by applicable law.

**FORM OF CERTIFICATE OF DESIGNATIONS, PREFERENCES
AND RIGHTS OF SERIES A CONVERTIBLE PREFERRED STOCK
OF VRINGO, INC.**

Vringo, Inc. (the “**Corporation**”), a corporation organized and existing under the General Corporation Law of the State of Delaware (the “**DGCL**”), does hereby certify that, pursuant to authority conferred upon the Board of Directors of the Corporation (the “**Board**”) by the Amended and Restated Certificate of Incorporation, as amended, of the Corporation, and pursuant to Sections 151 and 141 of the DGCL, the Board adopted resolutions (i) designating a series of the Corporation’s previously authorized preferred stock, par value \$0.01 per share, and (ii) providing for the designations, preferences and relative, participating, optional or other rights, and the qualifications, limitations or restrictions thereof, of six thousand nine hundred and sixty eight (6,968) shares of Series A Convertible Preferred Stock of the Corporation, as follows:

RESOLVED, that the Corporation is authorized to issue six thousand nine hundred and sixty eight (6,968) shares of Series A Convertible Preferred Stock (the “**Series A Preferred Stock**”), par value \$0.01 per share, which shall have the following powers, designations, preferences and other special rights:

1. Designation and Amount. The class of preferred stock hereby classified shall be designated the “Series A Preferred Stock”. The initial number of authorized shares of the Series A Preferred Stock shall be six thousand nine hundred and sixty eight (6,968), which shall not be subject to increase without the consent of the holders of a majority of the then outstanding shares of Series A Preferred Stock. Each share of the Series A Preferred Stock shall have a par value of \$0.01.

2. Ranking. The Series A Preferred Stock shall rank prior and superior to all of the common stock, par value \$0.01 per share, of the Corporation (“**Common Stock**”) and any other capital stock of the Corporation (other than the Series A Preferred Stock) with respect to the preferences as to dividends, distributions and payments upon the liquidation, dissolution and winding up of the Corporation. The rights of the shares of Common Stock and other capital stock of the Corporation (other than the Series A Preferred Stock) shall be subject to the preferences and relative rights of the Series A Preferred Stock.

3. Dividends. From and after the first date of issuance of any shares of Series A Preferred Stock (the “**Initial Issuance Date**”), the holders of Series A Preferred Stock (each, a “**Holder**” and collectively, the “**Holder**s”) shall be entitled to receive such dividends paid and distributions made to the holders of Common Stock, which right shall be prior to the rights of the holders of capital stock of the Corporation, including the Common Stock, junior in rank to the Series A Preferred Stock in respect of the preferences as to distributions and payments upon a Liquidation Event (such stock, including the Common Stock, being referred to hereinafter collectively as “**Junior Stock**”) (if any) (but after and subject to the rights of holders of Senior Preferred Stock (as defined below), if any, and *pari passu* to the rights of holders of capital stock of the Corporation *pari passu* in rank to the Series A Preferred Stock in respect of the preferences as to distributions and payments upon a Liquidation Event (such stock being referred to hereinafter collectively as “**Pari Passu Stock**”) (if any)), to the same extent as if such Holders had converted the Series A Preferred Stock into Common Stock (without regard to any limitations on conversion herein or elsewhere) and had held such shares of Common Stock on the record date for such dividends and distributions (provided, however, to the extent that a Holder’s right to participate in any such dividend or distribution would result in the Holder exceeding the Maximum Percentage (as defined below), then the Holder shall not be entitled to participate in such dividend or distribution to such extent (or in the beneficial ownership of any shares of Common Stock as a result of such dividend or distribution to such extent) and the portion of such dividend or distribution shall be held in abeyance for the benefit of the Holder until such time, if ever, as its right thereto would not result in the Holder exceeding the Maximum Percentage, at which time such Holder shall be delivered such dividend or distribution to the extent as if there had been no such limitation). Payments under the preceding sentence shall be made concurrently with the dividend or distribution to the holders of Common Stock. Following the occurrence of a Liquidation Event (as defined below) and the payment in full to a Holder of its applicable liquidation preference, other than as set forth in Section 4 below, such Holder shall cease to have any rights hereunder to participate in any future dividends or distributions made to the holders of Common Stock. The Corporation shall not declare or pay any dividends on any other shares of Junior Stock or any Pari

4. Liquidation Preference. Upon any Liquidation Event, the Holders shall be entitled to be paid out of the assets of the Corporation available for distribution to its stockholders, after and subject to the payment in full of all amounts required to be distributed to the holders of any other Preferred Stock of the Corporation ranking on liquidation prior and in preference to the Series A Preferred Stock (such Preferred Stock being referred to hereinafter as “**Senior Preferred Stock**”) upon such liquidation, dissolution or winding up, but before any payment shall be made to the holders of Junior Stock, an amount in cash equal to the Stated Value. If upon any such Liquidation Event, the remaining assets of the Corporation available for the distribution to its stockholders after payment in full of amounts required to be paid or distributed to holders of Senior Preferred Stock shall be insufficient to pay the holders of shares of Series A Preferred Stock the full amount to which they shall be entitled, the holders of shares of Series A Preferred Stock and any class of stock ranking on liquidation on a parity with the Series A Preferred Stock, shall share ratably in any distribution of the remaining assets and funds of the Corporation in proportion to the respective amounts which would otherwise be payable in respect to the shares held by them upon such distribution if all amounts payable on or with respect to said shares were paid in full. The Corporation shall not enter into or be party to a Fundamental Transaction unless (i) the Successor Entity assumes in writing all of the obligations of the Corporation under this Certificate of Designations in accordance with the provisions of this Section 5 pursuant to written agreements in form and substance satisfactory to the Required Holders and approved by the Required Holders prior to such Fundamental Transaction, including agreements to deliver to each Holder of Series A Preferred Stock in exchange for such Series A Preferred Stock a security of the Successor Entity evidenced by a written instrument substantially similar in form and substance to this Certificate of Designations including, without limitation, having a stated value equal to the Stated Value of the Series A Preferred Stock held by such Holder and having similar ranking to the Series A Preferred Stock, and satisfactory to the Required Holders and (ii) the Successor Entity (including its Parent Entity) is a publicly traded corporation whose common stock is quoted on or listed for trading on an Eligible Market. Upon the occurrence of any Fundamental Transaction, the Successor Entity shall succeed to, and be substituted for (so that from and after the date of such Fundamental Transaction, the provisions of this Certificate of Designations referring to the “Corporation” shall refer instead to the Successor Entity), and may exercise every right and power of the Corporation and shall assume all of the obligations of the Corporation under this Certificate of Designations with the same effect as if such Successor Entity had been named as the Corporation herein. Upon consummation of the Fundamental Transaction, the Successor Entity shall deliver to the Holder confirmation that there shall be issued upon conversion of the Series A Preferred Stock at any time after the consummation of the Fundamental Transaction, in lieu of the shares of Common Stock (or other securities, cash, assets or other property) issuable upon the conversion of the Series A Preferred Stock prior to such Fundamental Transaction (without regard to any limitations on the conversion of the Series A Preferred Stock), such shares of publicly traded common stock (or their equivalent) of the Successor Entity, as adjusted in accordance with the provisions of this Certificate of Designations, which the Holder would have been entitled to receive had such Holder converted the Series A Preferred Stock in full (without regard to any limitations on conversion, including without limitation, the Maximum Percentage) immediately prior to such Fundamental Transaction (provided, however, to the extent that a Holder’s right to receive any such shares of publicly traded common stock (or their equivalent) of the Successor Entity would result in the Holder exceeding the Maximum Percentage, then the Holder shall not be entitled to receive such shares to such extent (or to beneficially own any shares of publicly traded common stock (or their equivalent) of the Successor Entity as a result of such consideration to such extent) and the portion of such shares shall be held in abeyance for the benefit of the Holder until such time, if ever, as its right thereto would not result in the Holder exceeding the Maximum Percentage, at which time such Holder shall be delivered such shares to the extent as if there had been no such limitation). The provisions of this Section shall apply similarly and equally to successive Fundamental Transactions and shall be applied without regard to any limitations on the conversion of the Series A Preferred Stock.

(c) Put Triggering Event. No sooner than fifteen (15) days nor later than ten (10) days prior to the consummation of a Change of Control, but not prior to the public announcement of such Change of Control, the Corporation shall deliver written notice thereof via facsimile and overnight courier to the Holders (a “**Change of Control Notice**”). At any time during the period beginning after a Holder’s receipt of a Change of Control Notice with respect to a Put Triggering Event and ending on the date that is twenty (20) Trading Days after such Put Triggering Event, such Holder may require the Corporation to redeem all or any portion of such Holder’s Series A Preferred Stock by delivering (such date of delivery, the “**Put Triggering Event Redemption Notice Date**”) written notice thereof (“**Put Triggering Event Redemption Notice**”) to the Corporation, which Put Triggering Event Redemption Notice shall indicate the Conversion Amount the Holder is electing to be redeemed and/or assumed as provided below. Any Series A Preferred Stock subject to redemption pursuant to this Section 5(c) shall be redeemed by the Corporation in cash at a price equal to (I) in the event of a Put Triggering Event that provides for cash payments to the Corporation or the equity holders of the Corporation, the greater of (i) 100% of the Cash Conversion Amount and (ii) the product of (x) the Conversion Rate in effect at such time as the Holder delivers a Put Triggering Event Redemption Notice with respect to such Cash Conversion Amount and (y) the highest amount of cash consideration to be paid to a holder of one share of Common Stock upon consummation of such Put Triggering Event (or, if such cash consideration is paid to the Corporation, that would be payable to a holder of one share of Common Stock after consummation of such Put Triggering Event and distribution of such cash by the Corporation to its holders of Common Stock), (II) in the event of a Put Triggering Event that provides for payments in securities (other than in Eligible Successor Common Stock) to the Corporation or the equity holders of the Corporation, the greater of (i) 100% of the Securities Conversion Amount and (ii) the product of (x) the Conversion Rate in effect at such time as the Holder delivers a Put Triggering Event Redemption Notice with respect to such Securities Conversion Amount and (y) the last Closing Sale Price of the Common Stock in effect immediately prior to the consummation of the Put Triggering Event (the “**Put Triggering Event Redemption Price**”), and (III) in the event of a Triggering Event that provides for payments in Eligible Successor Common Stock to the Corporation or the equity holders of the Corporation, the Successor Entity shall assume the Successor Entity Conversion Amount in accordance with the provisions of Section 5(b) above. Upon the Corporation’s receipt of a Put Triggering Event Redemption Notice(s) from any Holder, the Corporation shall within one (1) Business Day of such receipt notify each other Holder by facsimile of the Corporation’s receipt of such notice(s). The Corporation shall make payment of the Put Triggering Event Redemption Price concurrently with the consummation of such Put Triggering Event to all Holders that deliver a Put Triggering Event Redemption Notice prior to the consummation of such Put Triggering Event and within five (5) Trading Days after the Corporation’s receipt of such notice otherwise (the “**Put Triggering Event Redemption Date**”). To the extent redemptions required by this Section 5(c) are deemed or determined by a court of competent jurisdiction to be prepayments of the Series A Preferred Stock by the Corporation, such redemptions shall be deemed to be voluntary prepayments. Notwithstanding anything to the contrary in this Section 5(c), until the Put Triggering Event Redemption Price (together with any interest thereon) is paid in full, the Conversion Amount submitted for redemption under this Section 5(c) may be converted, in whole or in part, by the Holder into shares of Common Stock, or in the event the Conversion Date is after the consummation of the Put Triggering Event, shares or equity interests of the Successor Entity substantially equivalent to the Corporation’s Common Stock pursuant to Section 7(c)(i). The Holders and the Corporation agree that in the event of the Corporation’s redemption of any Series A Preferred Stock under this Section 5(c), the Holder’s damages would be uncertain and difficult to estimate because of the parties’ inability to predict future dividend rates and the uncertainty of the availability of a suitable substitute investment opportunity for the Holder. Accordingly, any redemption premium due under this Section 5(c) is intended by the parties to be, and shall be deemed, a reasonable estimate of the Holder’s actual loss of its investment opportunity and not as a penalty. In the event that the Corporation does not pay the Put Triggering Event Redemption Price on the Put Triggering Event Redemption Date, then the Holder shall have the right to void the redemption pursuant to Section 5(d).

TABLE OF CONTENTS

(d) **Void Redemption.** In the event that the Corporation does not pay a Put Triggering Event Redemption Price within the time period set forth in this Certificate of Designations, at any time thereafter and until the Corporation pays such unpaid applicable Put Triggering Event Redemption Price in full, a Holder shall have the option to, in lieu of redemption, require the Corporation to promptly return to such Holder any or all of the Series A Preferred Stock that were submitted for redemption by such Holder and for which the applicable Put Triggering Event Redemption Price has not been paid, by sending written notice thereof to the Corporation via facsimile (the “**Void Redemption Notice**”). Upon the Corporation’s receipt of such Void Redemption Notice, (i) the applicable Redemption Notice shall be null and void with respect to the Series A Preferred Stock subject to the Void Redemption Notice, (ii) the Corporation shall immediately return any Series A Preferred Stock subject to the Void Redemption Notice, and (iii) the Conversion Price of such returned Series A Preferred Stock shall be adjusted to the lesser of (A) the Conversion Price as in effect on the date on which the Void Redemption Notice is delivered to the Corporation and (B) the lowest Weighted Average Price of the Common Stock during the period beginning on the date on which the applicable Redemption Notice is delivered to the Corporation and ending on the date on which the Void Redemption Notice is delivered to the Corporation, as applicable, subject to further adjustment as provided in this Certificate of Designations.

(e) **Disputes.** In the event of a dispute as to the determination of the arithmetic calculation of the Put Triggering Event Redemption Price, such dispute shall be resolved pursuant to Section 7(e) with the term “Put Triggering Event Redemption Price” being substituted for the term “Conversion Rate”. A Holder’s delivery of a Void Redemption Notice and exercise of its rights following such notice shall not effect the Corporation’s obligations to make any payments which have accrued prior to the date of such notice.

6. Voting Rights.

(a) **Certain definitions.** For purposes of this Certificate of Designations, the following definitions shall apply:

(i) “**Contingent Obligation**” means, as to any Person, any direct or indirect liability, contingent or otherwise, of that Person with respect to any Indebtedness, lease, dividend or other obligation of another Person if the primary purpose or intent of the Person incurring such liability, or the primary effect thereof, is to provide assurance to the obligee of such liability that such liability will be paid or discharged, or that any agreements relating thereto will be complied with, or that the holders of such liability will be protected (in whole or in part) against loss with respect thereto.

(ii) “**GAAP**” means United States generally accepted accounting principles, consistently applied.

(iii) “**Indebtedness**” of any Person means, without duplication (i) all indebtedness for borrowed money, (ii) all obligations issued, undertaken or assumed as the deferred purchase price of property or services, including (without limitation) “capital leases” in accordance with GAAP (other than trade payables entered into in the ordinary course of business), (iii) all reimbursement or payment obligations with respect to letters of credit, surety bonds and other similar instruments, (iv) all obligations evidenced by notes, bonds, debentures or similar instruments, including obligations so evidenced incurred in connection with the acquisition of property, assets or businesses, (v) all indebtedness created or arising under any conditional sale or other title retention agreement, or incurred as financing, in either case with respect to any property or assets acquired with the proceeds of such indebtedness (even though the rights and remedies of the seller or bank under such agreement in the event of default are limited to repossession or sale of such property), (vi) all monetary obligations under any leasing or similar arrangement which, in connection with GAAP, consistently applied for the periods covered thereby, is classified as a capital lease, (vii) all indebtedness referred to in clauses (i) through (vi) above secured by (or for which the holder of such Indebtedness has an existing right, contingent or otherwise, to be secured by) any mortgage, lien, pledge, charge, security interest or other encumbrance upon or in any property or assets (including accounts and contract rights) owned by any Person, even though the Person which owns such assets

or property has not assumed or become liable for the payment of such indebtedness, and (viii) all Contingent Obligations in respect of indebtedness or obligations of others of the kinds referred to in clauses (i) through (vii) above.

(iv) **“Person”** means an individual, a limited liability company, a partnership, a joint venture, a corporation, a trust, an unincorporated organization, any other entity and a government or any department or agency thereof.

(b) **General.** The Holders shall not be entitled to vote, except (i) as otherwise required by applicable law and (ii) subject to Section 7(i), that each issued and outstanding share of Series A Preferred Stock shall be entitled to the number of votes equal to the number of shares of Common Stock into which each such share of Series A Preferred Stock is convertible (as adjusted from time to time pursuant to Section 8 hereof), at each meeting of stockholders of the Corporation (or pursuant to any action by written consent) with respect to matters presented to the stockholders of the Corporation for their action or consideration in connection with (A) a Change of Control of the Corporation or (B) the issuance by the Corporation, directly or indirectly, in one or more transactions or series of transactions, of shares of Common Stock, Options or Convertible Securities if, in the aggregate, the number of such shares of Common Stock together with the number of shares of Common Stock issuable upon the conversion or exercise, as applicable, of such Options and Convertible Securities is more than 20% of the number of shares of Common Stock issued and outstanding prior to any such issuance (such issuance, the **“Twenty Percent Issuance”**).

(c) **Series A Preferred Stock Protective Provisions.** In addition to any other rights provided by law, the Corporation shall not and shall not permit any direct or indirect Subsidiary of the Corporation to, without first obtaining the affirmative vote or written consent of the holders of a majority of the outstanding shares of Series A Preferred Stock:

(i) increase the authorized number of shares of Series A Preferred Stock;

(ii) amend, alter or repeal the preferences, special rights or other powers of the Series A Preferred Stock so as to affect adversely the Series A Preferred Stock;

(iii) on or prior to the 18th month anniversary of the Initial Issuance Date, create, or authorize the creation of, or issue, or authorize the issuance of any debt security or any equity security or incur, or authorize the incurrence of any other Indebtedness, if such debt security, equity security or other Indebtedness is (A) one with preference or priority over the rights of the Series A Preferred Stock as to the right to either receive dividends or amounts distributable upon liquidation, dissolution or winding up of the Corporation and (B) issued or incurred with net proceeds to the Corporation or will have outstanding principal amount incurred plus accrued interest, as applicable, in an amount, individually or in the aggregate, more than \$6,000,000 less the then outstanding principal amount of Vringo Notes (as defined in the Agreement and Plan of Merger, dated as of [____], 2012 (the **“Subscription Date”**), by and among Vringo, Inc., a Delaware corporation (**“Parent”**), VIP Merger Sub, Inc., a Delaware corporation and wholly owned Subsidiary of Parent, and the Corporation; provided, that the Corporation and its Subsidiaries shall be permitted to incur Indebtedness, provided, that the liens or other encumbrances, if any, on such Indebtedness cover only assets acquired after the Initial Issuance Date, and the holder of such Indebtedness expressly subordinates to the Holders of the Series A Preferred Stock with respect to assets owned by the Corporation on or prior to the Initial Issuance Date pursuant to a subordination agreement in form and substance reasonably satisfactory to the Required Holders; or

(v) in any manner, issue or sell any rights, warrants or options to subscribe for or purchase shares of Common Stock or securities directly or indirectly convertible into or exchangeable or exercisable for shares of Common Stock at a price which varies or may vary with the market price of the shares of Common Stock, including by way of one or more reset(s) to any fixed price, unless the conversion, exchange or exercise price of any such security cannot be less than the then applicable Conversion Price. Nothing herein shall prevent the Corporation from consummating an acquisition that does not result in capital raising for the Corporation and/or any of its Subsidiaries

where the purchase price with respect thereto is a fixed price determined on or prior to the consummation of such transaction based on an average of recent market prices prior to such consummation, but only if all parties to any agreement with respect to such transaction and all Persons that are entitled to receive any securities pursuant to any such agreement are prohibited from selling, directly or indirectly, all equity and equity linked securities of the Corporation at all times after commencement of negotiations with respect to any such transaction until the consummation of any such transaction.

7. **Conversion.** Subject to Section 7(i), each share of Series A Preferred Stock may be converted into shares of Common Stock at any time or times, at the option of any Holder as provided in this Section 7, provided, however, that in connection with any Liquidation Event, the right of conversion shall terminate at the close of business on the full business day next preceding the date fixed for the payment of any amounts distributable on liquidation to the holders of Series A Preferred Stock.

(a) **Certain definitions.** For purposes of this Certificate of Designations, the following definitions shall apply:

(i) **“Bloomberg”** means Bloomberg Financial Markets.

(ii) **“Conversion Amount”** means the Stated Value.

(iii) **“Conversion Price”** means \$.33138918, subject to adjustment as provided herein.

(iv) **“Subsidiary”** means, with respect to the Corporation, any entity in which the Corporation, directly or indirectly, owns any of the capital stock or holds an equity or similar interest.

(v) **“Weighted Average Price”** means, for any security as of any date, the dollar volume-weighted average price for such security on the Principal Market during the period beginning at 9:30:01 a.m., New York City time, and ending at 4:00:00 p.m., New York City time, as reported by Bloomberg through its “Volume at Price” function or, if the foregoing does not apply, the dollar volume-weighted average price of such security in the over-the-counter market on the electronic bulletin board for such security during the period beginning at 9:30:01 a.m., New York City time, and ending at 4:00:00 p.m., New York City time, as reported by Bloomberg, or, if no dollar volume-weighted average price is reported for such security by Bloomberg for such hours, the average of the highest closing bid price and the lowest closing ask price of any of the market makers for such security as reported in the “pink sheets” by Pink Sheets LLC (formerly the National Quotation Bureau, Inc.). If the Weighted Average Price cannot be calculated for such security on such date on any of the foregoing bases, the Weighted Average Price of such security on such date shall be the fair market value as mutually determined by the Corporation and the Required Holders. If the Corporation and the Required Holders are unable to agree upon the fair market value of the Common Stock, then such dispute shall be resolved pursuant to Section 7(e) below with the term “Weighted Average Price” being substituted for the term “Conversion Rate.” All such determinations shall be appropriately adjusted for any stock dividend, stock split, stock combination or other similar transaction during such period.

(b) **Conversion.** The number of shares of Common Stock issuable upon conversion of each share of Series A Preferred Stock pursuant to this Section 7 shall be determined according to the following formula (the **“Conversion Rate”**):

$$\frac{\text{Conversion Amount}}{\text{Conversion Price}}$$

No fractional shares of Common Stock are to be issued upon the conversion of any Series A Preferred Stock, but rather the number of shares of Common Stock to be issued shall be rounded up to the nearest whole number.

The applicable Conversion Rate and Conversion Price from time to time in effect is subject to adjustment as hereinafter provided.

(c) Mechanics of Conversion. The conversion of Series A Preferred Stock shall be conducted in the following manner:

(i) Holder's Delivery Requirements. To convert Series A Preferred Stock into shares of Common Stock on any date (a "**Conversion Date**"), the Holder shall (A) transmit by facsimile (or otherwise deliver), for receipt on or prior to 11:59 p.m., New York City time, on such date, a copy of a properly completed notice of conversion executed by the registered Holder of the Series A Preferred Stock subject to such conversion in the form attached hereto as Exhibit I (the "**Conversion Notice**") to the Corporation and if the Corporation has appointed a registered transfer agent, the Corporation's registered transfer agent (the "**Transfer Agent**") (if the Corporation does not have a registered transfer agent, references hereto to the "Transfer Agent" shall be deemed to be references to the Corporation) and (B) if required by Section 7(c)(iv), surrender to a common carrier for delivery to the Corporation as soon as practicable following such date the original certificates representing the Series A Preferred Stock being converted (or compliance with the procedures set forth in Section 11) (the "**Preferred Stock Certificates**").

(ii) Corporation's Response. Upon receipt by the Corporation of a copy of a Conversion Notice, the Corporation shall (A) as soon as practicable, but in any event within two (2) Trading Days, send, via facsimile, a confirmation of receipt of such Conversion Notice to such Holder and the Transfer Agent, if applicable, which confirmation shall constitute an instruction to the Transfer Agent to process such Conversion Notice in accordance with the terms herein and (B) on or before the third (3rd) Trading Day following the date of receipt by the Corporation of such Conversion Notice (the "**Share Delivery Date**"), (1) provided the Transfer Agent is participating in the DTC Fast Automated Securities Transfer Program, credit such aggregate number of shares of Common Stock to which the Holder shall be entitled to the Holder's or its designee's balance account with DTC through its Deposit/Withdrawal At Custodian system, or (2) if the Transfer Agent is not participating in the DTC Fast Automated Securities Transfer Program, issue and deliver to the address as specified in the Conversion Notice, a certificate, registered in the name of the Holder or its designee, for the number of shares of Common Stock to which the Holder shall be entitled. If the number of shares of Series A Preferred Stock represented by the Preferred Stock Certificate(s) submitted for conversion, as may be required pursuant to Section 7(c)(iv), is greater than the number of shares of Series A Preferred Stock being converted, then the Corporation shall, as soon as practicable and in no event later than five (5) Business Days after receipt of the Preferred Stock Certificate(s) (the "**Preferred Stock Delivery Date**") and at its own expense, issue and deliver to the Holder a new Preferred Stock Certificate representing the number of shares of Series A Preferred Stock not converted.

(iii) Corporation's Failure to Timely Convert.

(A) Cash Damages. If within three (3) Trading Days after the Corporation's receipt of the facsimile copy of a Conversion Notice the Corporation shall fail to credit a Holder's balance account with DTC or issue and deliver a certificate to such Holder for the number of shares of Common Stock to which such Holder is entitled upon such Holder's conversion of Series A Preferred Stock (a "**Conversion Failure**"), and if on or after such Trading Day the Holder purchases (in an open market transaction or otherwise) shares of Common Stock to deliver in satisfaction of a sale by the Holder of the shares of Common Stock issuable upon such conversion that the Holder anticipated receiving from the Corporation (a "**Buy-In**"), then the Corporation shall, within three (3) Trading Days after the Holder's request and in the Holder's discretion, either (i) pay cash to the Holder in an amount equal to the Holder's total purchase price (including brokerage commissions and out-of-pocket expenses, if any) for the shares of Common Stock so purchased (the "**Buy-In Price**"), at which point the Corporation's obligation to deliver such certificate (and to issue such Common Stock) shall terminate, or (ii) promptly honor its obligation to deliver to the Holder a certificate or certificates representing such Common Stock and pay cash to the Holder in an amount equal to the excess (if any) of the Buy-In Price over the product of (A) such number of shares of Common Stock, times (B) the Closing Sale Price

[TABLE OF CONTENTS](#)

on the Conversion Date. Nothing herein shall limit a Holder's right to pursue any other remedies available to it hereunder, at law or in equity including, without limitation, a decree of specific performance and/or injunctive relief with respect to the Corporation's failure to timely deliver certificates representing shares of Common Stock upon conversion of the Series A Preferred Stock as required pursuant to the terms hereof.

(B) Void Conversion Notice; Adjustment of Conversion Price. If for any reason a Holder has not received all of the shares of Common Stock to which such Holder is entitled prior to the tenth (10th) Trading Day after the Share Delivery Date with respect to a conversion of Series A Preferred Stock, then the Holder, upon written notice to the Corporation, with a copy to the Transfer Agent, may void its Conversion Notice with respect to, and retain or have returned, as the case may be, any shares of Series A Preferred Stock that have not been converted pursuant to such Holder's Conversion Notice; provided that the voiding of a Holder's Conversion Notice shall not effect the Corporation's obligations to make any payments which have accrued prior to the date of such notice pursuant to Section 7(c)(iii)(A) or otherwise.

(iv) Book-Entry. Notwithstanding anything to the contrary set forth herein, upon conversion of Series A Preferred Stock in accordance with the terms hereof, the Holder thereof shall not be required to physically surrender the certificate representing the Series A Preferred Stock to the Corporation unless (A) the full or remaining number of shares of Series A Preferred Stock represented by the certificate are being converted, in which case the Holder shall deliver such stock certificate to the Corporation promptly following such conversion, or (B) a Holder has provided the Corporation with prior written notice (which notice may be included in a Conversion Notice) requesting reissuance of Series A Preferred Stock upon physical surrender of any Series A Preferred Stock. The Holder and the Corporation shall maintain records showing the number of shares of Series A Preferred Stock so converted and the dates of such conversions or shall use such other method, reasonably satisfactory to the Holder and the Corporation, so as not to require physical surrender of the certificate representing the Series A Preferred Stock upon each such conversion. In the event of any dispute or discrepancy, such records of the Corporation establishing the number of shares of Series A Preferred Stock to which the record holder is entitled shall be controlling and determinative in the absence of manifest error. Notwithstanding the foregoing, if Series A Preferred Stock represented by a certificate are converted as aforesaid, a Holder may not transfer the certificate representing the Series A Preferred Stock unless such Holder first physically surrenders the certificate representing the Series A Preferred Stock to the Corporation, whereupon the Corporation will forthwith issue and deliver upon the order of such Holder a new certificate of like tenor, registered as such Holder may request, representing in the aggregate the remaining number of shares of Series A Preferred Stock represented by such certificate. A Holder and any assignee, by acceptance of a certificate, acknowledge and agree that, by reason of the provisions of this paragraph, following conversion of any Series A Preferred Stock, the number of shares of Series A Preferred Stock represented by such certificate may be less than the number of shares of Series A Preferred Stock stated on the face thereof. Each certificate for Series A Preferred Stock shall bear the following legend:

ANY TRANSFEREE OF THIS CERTIFICATE SHOULD CAREFULLY REVIEW THE TERMS OF THE CORPORATION'S CERTIFICATE OF DESIGNATIONS RELATING TO THE SERIES A PREFERRED STOCK REPRESENTED BY THIS CERTIFICATE, INCLUDING SECTION 7(c)(iv) THEREOF. THE NUMBER OF SHARES OF SERIES A PREFERRED STOCK REPRESENTED BY THIS CERTIFICATE MAY BE LESS THAN THE NUMBER OF SHARES OF SERIES A PREFERRED STOCK STATED ON THE FACE HEREOF PURSUANT TO SECTION 7(c)(iv) OF THE CERTIFICATE OF DESIGNATIONS RELATING TO THE SERIES A PREFERRED STOCK REPRESENTED BY THIS CERTIFICATE.

(d) Reservation of Shares.

(i) The Corporation shall have such number of its duly authorized and unissued shares of Common Stock for each Series A Preferred Stock equal to 130% of the number of shares of Common Stock necessary to effect the conversion at the Conversion Rate with respect to each such Series A Preferred Stock as of the Initial Issuance Date. The Corporation shall at all times when the Series A Preferred Stock shall be outstanding reserve and keep available out of its authorized but unissued stock, for the purposes of effecting the conversion of the Series A Preferred Stock, such number of its duly authorized and unissued shares of Common Stock as shall from time to time be sufficient to effect the conversion of all outstanding Series A Preferred Stock (the "**Required Reserve Amount**"). The initial number of shares of Common Stock reserved for conversions of the Series A Preferred Stock and each increase in the number of shares so reserved shall be allocated pro rata among the Holders based on the number of shares of Series A Preferred Stock held by each Holder at the time of issuance of the Series A Preferred Stock or increase in the number of reserved shares, as the case may be (the "**Authorized Share Allocation**"). In the event a Holder shall sell or otherwise transfer any of such Holder's Series A Preferred Stock, each transferee shall be allocated a pro rata portion of the number of reserved shares of Common Stock reserved for such transferor. Any shares of Common Stock reserved and allocated to any Person which ceases to hold any Series A Preferred Stock (other than pursuant to a transfer of Series A Preferred Stock in accordance with the immediately preceding sentence) shall be allocated to the remaining Holders of Series A Preferred Stock, pro rata based on the number of shares of Series A Preferred Stock then held by such Holders. Before taking any action that would cause an adjustment reducing the Conversion Price below the then par value of the shares of Common Stock issuable upon conversion of the Series A Preferred Stock, the Corporation will take any corporate action that may, in the opinion of its counsel, be necessary in order that the Corporation may validly and legally issue fully-paid and nonassessable shares of such Common Stock at such adjusted conversion price.

(ii) If at any time while any of the Series A Preferred Stock remain outstanding the Corporation does not have a sufficient number of duly authorized and unreserved shares of Common Stock to satisfy its obligation to reserve for issuance upon conversion of the Series A Preferred Stock at least a number of shares of Common Stock equal to the Required Reserve Amount (an "**Authorized Share Failure**"), then the Corporation shall immediately take all action necessary to increase the Corporation's authorized shares of Common Stock to an amount sufficient to allow the Corporation to reserve the Required Reserve Amount for the Series A Preferred Stock then outstanding. Without limiting the generality of the foregoing sentence, as soon as practicable after the date of the occurrence of an Authorized Share Failure, but in no event later than sixty (60) days after the occurrence of such Authorized Share Failure, the Corporation shall hold a meeting of its stockholders for the approval of an increase in the number of authorized shares of Common Stock. In connection with such meeting, the Corporation shall provide each stockholder with a proxy statement and shall use its best efforts to solicit its stockholders' approval of such increase in authorized shares of Common Stock and to cause its board of directors to recommend to the stockholders that they approve such proposal.

(e) Dispute Resolution. In the case of a dispute as to the arithmetic calculation of the Conversion Rate, the Corporation shall issue to the Holder the number of shares of Common Stock that is not disputed and shall transmit an explanation of the disputed determinations or arithmetic calculations to the Holder via facsimile within one (1) Business Day of receipt of such Holder's Conversion Notice or other date of determination. If such Holder and the Corporation are unable to agree upon the determination of the arithmetic calculation of the Conversion Rate within two (2) Business Days of such disputed determination or arithmetic calculation being transmitted to the Holder, then the Corporation shall within one (1) Business Day submit via facsimile the disputed arithmetic calculation of the Conversion Rate to any "big four" international accounting firm. The Corporation shall cause, at the Corporation's expense (unless the accounting firm determines in favor of the Corporation, in which case the Holder shall be responsible for such expense), the accountant to perform the determinations or calculations and notify the Corporation and the Holders of the results no later than five (5) Business Days from the time it receives the disputed determinations or calculations. Such accountant's determination or calculation, as the case may be, shall be binding upon all parties absent error.

TABLE OF CONTENTS

(f) Record Holder. The Person or Persons entitled to receive the shares of Common Stock issuable upon a conversion of Series A Preferred Stock shall be treated for all purposes as the record holder or holders of such shares of Common Stock on the Conversion Date.

(g) Effect of Conversion. All shares of Series A Preferred Stock which shall have been surrendered for conversion as herein provided shall no longer be deemed to be outstanding and all rights with respect to such shares, including the rights, if any, to receive notices and to vote, shall forthwith cease and terminate except only the right of the holder thereof to receive shares of Common Stock in exchange therefor and payment of any accrued but unpaid dividends thereon (whether or not declared). Subject to Section 7(c)(iii)(B), any shares of Series A Preferred Stock so converted shall be retired and canceled and shall not be reissued, and the Corporation may from time to time take such appropriate action as may be necessary to reduce the authorized Series A Preferred Stock accordingly.

(h) Transfer Taxes. The issuance of certificates for shares of the Common Stock on conversion of this Series A Preferred Stock shall be made without charge to the Holder hereof for any documentary stamp or similar taxes that may be payable in respect of the issue or delivery of such certificates, provided that the Corporation shall not be required to pay any tax that may be payable in respect of any transfer involved in the issuance and delivery of any such certificate upon conversion in a name other than that of the Holder of such shares of Series A Preferred Stock so converted and the Corporation shall not be required to issue or deliver such certificates unless or until the person or persons requesting the issuance thereof shall have paid to the Corporation the amount of such tax or shall have established to the satisfaction of the Corporation that such tax has been paid.

(i) Maximum Percentage. Notwithstanding anything to the contrary set forth herein, the Corporation shall not effect any conversion of Series A Preferred Stock, and no Holder shall have the right to convert any Series A Preferred Stock, to the extent that after giving effect to such conversion, the beneficial owner of such shares (together with such Person's affiliates) would have acquired, through conversion of Series A Preferred Stock or otherwise, beneficial ownership of a number of shares of Common Stock that exceeds 9.99% (the "**Maximum Percentage**") of the number of shares of Common Stock outstanding immediately after giving effect to such conversion. The Corporation shall not give effect to any voting rights of the Series A Preferred Stock, and any Holder shall not have the right to exercise voting rights with respect to any Series A Preferred Stock pursuant hereto, to the extent that giving effect to such voting rights would result in such Holder (together with its affiliates) being deemed to beneficially own in excess of the Maximum Percentage of the number of shares of Common Stock outstanding immediately after giving effect to such exercise, assuming such exercise as being equivalent to conversion. For purposes of the foregoing, the number of shares of Common Stock beneficially owned by a Person and its affiliates shall include the number of shares of Common Stock issuable upon conversion of the Series A Preferred Stock with respect to which the determination of such sentence is being made, but shall exclude the number of shares of Common Stock which would be issuable upon (A) conversion of the remaining, nonconverted shares of Series A Preferred Stock beneficially owned by such Person or any of its affiliates and (B) exercise or conversion of the unexercised or unconverted portion of any other securities of the Corporation (including, without limitation, any notes or warrants) subject to a limitation on conversion or exercise analogous to the limitation contained in this Section 7(i) beneficially owned by such Person or any of its affiliates. Except as set forth in the preceding sentence, for purposes of this Section 7(i), beneficial ownership shall be calculated in accordance with Section 13(d) of the Securities Exchange Act of 1934, as amended. For purposes of this Section 7(i), in determining the number of outstanding shares of Common Stock, a Holder may rely on the number of outstanding shares of Common Stock as reflected in (1) the Corporation's most recent Form 10-K, Form 10-Q, or Form 8-K, as the case may be, (2) a more recent public announcement by the Corporation, or (3) any other notice by the Corporation or the Transfer Agent setting forth the number of shares of Common Stock outstanding. For any reason at any time, upon the written request of any Holder, the Corporation shall within one (1) Business Day following the receipt of such notice, confirm orally and in writing to any such Holder the number of shares of Common Stock then outstanding. In any case, the number of outstanding shares of Common Stock shall be determined after giving effect to the conversion or exercise of securities of the Corporation, including the Series A Preferred Stock, by

such Holder and its affiliates since the date as of which such number of outstanding shares of Common Stock was reported. By written notice to the Corporation, the Holder may from time to time increase or decrease the Maximum Percentage to any other percentage not in excess of 9.99% specified in such notice; provided, that (i) any such increase will not be effective until the sixty-first (61st) day after such notice is delivered to the Corporation, and (ii) any such increase or decrease will apply only to the Holder providing such written notice and not to any other Holder. In the event that the Corporation cannot pay any portion of any dividend, distribution, grant or issuance hereunder (including pursuant to Sections 3, 5(b) or 8(f)) to a Holder solely by reason of this Section 7(i) (such shares, the “**Limited Shares**”), notwithstanding anything to the contrary contained herein, the Corporation shall not be required to pay cash in lieu of the payment that otherwise would have been made in such Limited Shares, but shall hold any such Limited Shares in abeyance for such Holder until such time, if ever, that the delivery of such Limited Shares shall not cause the Holder to exceed the Maximum Percentage, at which time such Holder shall be delivered such Limited Shares to the extent as if there had been no such limitation. The provisions of this paragraph shall be construed and implemented in a manner otherwise than in strict conformity with the terms of this Section 7(i) to correct this paragraph (or any portion hereof) which may be defective or inconsistent with the intended beneficial ownership limitation herein contained or to make changes or supplements necessary or desirable to properly give effect to such limitation.

8. Anti-Dilution Provisions. The Conversion Price shall be subject to adjustment from time to time in accordance with this Section 8.

(a) Certain Definitions. For purposes of this Certificate of Designations, the following definitions shall apply:

(i) “**Closing Sale Price**” means, for any security as of any date, the last closing trade price for such security on the Principal Market, as reported by Bloomberg, or, if the Principal Market begins to operate on an extended hours basis and does not designate the closing trade price then the last trade price of such security prior to 4:00:00 p.m., New York City time, as reported by Bloomberg, or, if the Principal Market is not the principal securities exchange or trading market for such security, the last trade price of such security on the principal securities exchange or trading market where such security is listed or traded as reported by Bloomberg, or, if the foregoing do not apply, the last trade price of such security in the over-the-counter market on the electronic bulletin board for such security as reported by Bloomberg, or, if no last trade price is reported for such security by Bloomberg, the average of the ask prices of any market makers for such security as reported in the “pink sheets” by Pink Sheets LLC (formerly the National Quotation Bureau, Inc.). If the Closing Sale Price cannot be calculated for a security on a particular date on any of the foregoing bases, the Closing Sale Price of such security on such date shall be the fair market value as mutually determined by the Corporation and the Required Holders. If the Corporation and the Required Holders are unable to agree upon the fair market value of such security, then such dispute shall be resolved pursuant to Section 7(e). All such determinations to be appropriately adjusted for any stock dividend, stock split, stock combination or other similar transaction during the applicable calculation period.

(ii) “**Convertible Securities**” means any stock or securities (other than Options) directly or indirectly convertible into or exchangeable or exercisable for Common Stock.

(iii) “**Excluded Securities**” means any capital stock issued or issuable: (i) upon conversion of the Series A Preferred Stock; (ii) as a dividend or distribution on the Series A Preferred Stock; (iii) upon conversion of any Options or Convertible Securities which are outstanding on the day immediately preceding the Subscription Date, provided that the terms of such Options or Convertible Securities are not amended, modified or changed on or after the Subscription Date; (iv) pursuant to any benefit plan, program or agreement approved by the Corporation’s board of directors or any committee thereof pursuant to which the Corporation’s securities may be issued to any employee, officer or director for bona fide services provided to the Corporation; and (v) securities issued pursuant to acquisitions or strategic transactions approved by a majority of the disinterested directors

of the Corporation, provided that any such issuance shall only be to a Person (or to the equity holders of a Person) which is, itself or through its subsidiaries, an operating company or an owner of an asset in a business synergistic with the business of the Corporation and shall provide to Corporation additional benefits in addition to the investment of funds, but shall not include a transaction in which the Corporation is issuing securities for the purpose of raising capital or to an entity whose primary business is investing in securities.

(iv) “**Options**” means any rights, warrants or options to subscribe for or purchase Common Stock or Convertible Securities.

(v) “**Option Value**” means the value of an Option based on the Black and Scholes Option Pricing model obtained from the “OV” function on Bloomberg determined (1) in the event the issuance of such Option is publicly announced, the day prior to the public announcement of the applicable Option for pricing purposes or (2) in the event the issuance of such Option is not publicly announced, the day of issuance of such Option, and reflecting (i) a risk-free interest rate corresponding to the U.S. Treasury rate for a period equal to the remaining term of the applicable Option as of the applicable date of determination, (ii) an expected volatility equal to the lesser of 50% and the 100 day volatility obtained from the HVT function on Bloomberg as of the day immediately following the public announcement of the applicable Option, (iii) the underlying price per share used in such calculation shall be the highest Weighted Average Price during the period beginning on the day prior to the execution of definitive documentation relating to the issuance of the applicable Option and the public announcement of such issuance, (iv) a zero cost of borrow, and (v) a 250 day annualization factor.

(vi) “**Principal Market**” means the Eligible Market that is the principal securities exchange market for the Common Stock.

(b) Adjustment of Series A Conversion Price Upon Issuance of Additional Shares of Common Stock. If and whenever after the Subscription Date the Corporation issues or sells, or in accordance with this Section 8(b) is deemed to have issued or sold, any Common Stock (including the issuance or sale of Common Stock owned or held by or for the account of the Corporation but excluding Excluded Securities) for a consideration per share (the “**New Issuance Price**”) less than a price (the “**Applicable Price**”) equal to the Conversion Price in effect immediately prior to such issue or sale or deemed issuance or sale (the foregoing, a “**Dilutive Issuance**”), then immediately after such Dilutive Issuance, the Conversion Price then in effect shall be reduced to an amount equal to the New Issuance Price. Notwithstanding anything to the contrary contained herein, from and after the date on which an aggregate of at least 100,000,000 shares of Common Stock have been traded on an Eligible Market from and after the Initial Issuance Date at a per share price above \$3.00 (as adjusted for any stock dividend, stock split, stock combination or other similar transaction during such period), the provisions of this Section 8(b) shall no longer be applicable. For purposes of determining the adjusted Conversion Price under this Section 8(b), the following shall be applicable:

(i) Issuance of Options. If the Corporation in any manner grants or sells any Options and the lowest price per share for which one share of Common Stock is issuable upon the exercise of any such Option or upon conversion or exchange or exercise of any Convertible Securities issuable upon exercise of such Option is less than the Applicable Price, then each such share of Common Stock underlying such Option shall be deemed to be outstanding and to have been issued and sold by the Corporation at the time of the granting or sale of such Option for such price per share. For purposes of this Section 8(b)(i), the “lowest price per share for which one share of Common Stock is issuable upon the exercise of any such Option or upon conversion or exchange or exercise of any Convertible Securities issuable upon exercise of such Option” shall be equal to the sum of the lowest amounts of consideration (if any) received or receivable by the Corporation with respect to any one share of Common Stock upon granting or sale of the Option, upon exercise of the Option and upon conversion or exchange or exercise of any Convertible Security issuable upon exercise of such Option less any consideration paid or payable by the Corporation with respect to such one Ordinary Share upon the granting or sale of such Option, upon exercise of such Option and upon

conversion exercise or exchange of any Convertible Security issuable upon exercise of such Option. No further adjustment of the Conversion Price shall be made upon the actual issuance of such share of Common Stock or of such Convertible Securities upon the exercise of such Options or upon the actual issuance of such Common Stock upon conversion or exchange or exercise of such Convertible Securities.

(ii) Issuance of Convertible Securities. If the Corporation in any manner issues or sells any Convertible Securities and the lowest price per share for which one share of Common Stock is issuable upon such conversion or exchange or exercise thereof is less than the Applicable Price, then each such share of Common Stock underlying such Convertible Securities shall be deemed to be outstanding and to have been issued and sold by the Corporation at the time of the issuance or sale of such Convertible Securities for such price per share. For the purposes of this Section 8(b)(ii), the “lowest price per share for which one share of Common Stock is issuable upon such conversion or exchange or exercise” shall be equal to the sum of the lowest amounts of consideration (if any) received or receivable by the Corporation with respect to any one share of Common Stock upon the issuance or sale of the Convertible Security and upon the conversion or exchange or exercise of such Convertible Security less any consideration paid or payable by the Corporation with respect to such one Ordinary Share upon the issuance or sale of such Convertible Security and upon conversion, exercise or exchange of such Convertible Security. No further adjustment of the Conversion Price shall be made upon the actual issuance of such share of Common Stock upon conversion or exchange or exercise of such Convertible Securities, and if any such issue or sale of such Convertible Securities is made upon exercise of any Options for which adjustment of the Conversion Price had been or are to be made pursuant to other provisions of this Section 8(b), no further adjustment of the Conversion Price shall be made by reason of such issue or sale.

(iii) Change in Option Price or Rate of Conversion. If the purchase or exercise price provided for in any Options, the additional consideration, if any, payable upon the issue, conversion, exchange or exercise of any Convertible Securities, or the rate at which any Convertible Securities are convertible into or exchangeable or exercisable for Common Stock changes at any time, the Conversion Price in effect at the time of such change shall be adjusted to the Conversion Price which would have been in effect at such time had such Options or Convertible Securities provided for such changed purchase price, additional consideration or changed conversion rate, as the case may be, at the time initially granted, issued or sold. For purposes of this Section 8(b)(iii), if the terms of any Option or Convertible Security that was outstanding as of the Subscription Date are changed in the manner described in the immediately preceding sentence, then such Option or Convertible Security and the Common Stock deemed issuable upon exercise, conversion or exchange thereof shall be deemed to have been issued as of the date of such change. No adjustment shall be made if such adjustment would result in an increase of the Conversion Price then in effect.

(iv) Calculation of Consideration Received. In case any Option is issued in connection with the issue or sale of other securities of the Corporation, together comprising one integrated transaction (x) the Options will be deemed to have been issued for the Option Value of such Options and (y) the other securities issued or sold in such integrated transaction shall be deemed to have been issued for the difference of (x) the aggregate consideration received by the Corporation less any consideration paid or payable by the Corporation pursuant to the terms of such other securities of the Corporation, less (y) the Option Value of such Options. If any Common Stock, Options or Convertible Securities are issued or sold for a consideration other than cash, the amount of the consideration other than cash received by the Corporation will be the fair value of such consideration, except where such consideration consists of marketable securities, in which case the amount of consideration received by the Corporation will be the Closing Sale Price of such marketable securities on the date of receipt of such securities. If any Common Stock, Options or Convertible Securities are issued to the owners of the non-surviving entity in connection with any merger in which the Corporation is the surviving entity, the amount of consideration therefor will be deemed to be the fair value of such portion of the net assets and business of the non-surviving entity as is attributable to such Common Stock, Options or Convertible Securities, as the case may be. The

TABLE OF CONTENTS

fair value of any consideration other than cash or marketable securities will be determined jointly by the Corporation and the Required Holders. If such parties are unable to reach agreement within ten (10) days after the occurrence of an event requiring valuation (the “**Valuation Event**”), the fair value of such consideration will be determined within five (5) Business Days after the tenth (10th) day following the Valuation Event by an independent, reputable appraiser jointly selected by the Corporation and the Required Holders. The determination of such appraiser shall be deemed binding upon all parties absent manifest error and the fees and expenses of such appraiser shall be borne by the Corporation.

(c) Adjustment of Conversion Price upon Subdivision or Combination of Common Stock. If the Corporation at any time after the Initial Issuance Date subdivides (by any stock split, stock dividend, recapitalization or otherwise) its outstanding shares of Common Stock into a greater number of shares, the Conversion Price in effect immediately prior to such subdivision will be proportionately reduced. If the Corporation at any time after the Initial Issuance Date combines (by combination, reverse stock split or otherwise) its outstanding shares of Common Stock into a smaller number of shares, the Conversion Price in effect immediately prior to such combination will be proportionately increased.

(d) Other Events. If any event occurs of the type contemplated by the provisions of this Section 8 but not expressly provided for by such provisions (including, without limitation, the granting of stock appreciation rights, phantom stock rights or other rights with equity features, other than the issuance of Excluded Securities), then the Corporation’s Board of Directors will make an appropriate adjustment in the Conversion Price so as to protect the rights of the holders of Series A Preferred Stock; provided that no such adjustment will increase the Conversion Price as otherwise determined pursuant to this Section 8.

(e) Voluntary Adjustment By Corporation. The Corporation may at any time reduce the then current Conversion Price to any amount and for any period of time deemed appropriate and approved by the Board of Directors in accordance with Delaware law.

(f) Purchase Rights. If at any time the Corporation grants, issues or sells any Options, Convertible Securities or rights to purchase stock, warrants, securities or other property pro rata to the record holders of any class of Common Stock (the “**Purchase Rights**”), then the Holders will be entitled to acquire, upon the terms applicable to such Purchase Rights, the aggregate Purchase Rights which such Holder could have acquired if such Holder had held the number of shares of Common Stock acquirable upon complete conversion of the Series A Preferred Stock (without taking into account any limitations or restrictions on the convertibility of the Series A Preferred Stock) immediately before the date on which a record is taken for the grant, issuance or sale of such Purchase Rights, or, if no such record is taken, the date as of which the record holders of Common Stock are to be determined for the grant, issue or sale of such Purchase Rights (provided, however, that to the extent that a Holder’s right to participate in any such Purchase Right would result in the Holder exceeding the Maximum Percentage, then the Holder shall not be entitled to participate in such Purchase Right to such extent (or beneficial ownership of such shares of Common Stock as a result of such Purchase Right to such extent) and such Purchase Right to such extent shall be held in abeyance for the Holder until such time, if ever, as its right thereto would not result in the Holder exceeding the Maximum Percentage, at which time the Holder shall be granted such right to the same extent as if there had been no such limitation).

(g) Notices.

(i) Immediately upon any adjustment of the Conversion Rate and Conversion Price pursuant to Section 8 hereof, the Corporation will give written notice thereof sent by mail, first class, postage prepaid to each Holder at its address appearing on the stock register, setting forth in reasonable detail, and certifying, the calculation of such adjustment. In the case of a dispute as to the determination of such adjustment, then such dispute shall be resolved in accordance with the procedures set forth in Section 7(e).

TABLE OF CONTENTS

(ii) Except as otherwise required by law, the Corporation will give written notice to each Holder at least ten (10) Business Days prior to the date on which the Corporation closes its books or takes a record (I) with respect to any dividend or distribution upon the Common Stock, (II) with respect to any pro rata subscription offer to holders of Common Stock or (III) for determining rights to vote with respect to any Change of Control, any Twenty Percent Issuance, any Fundamental Transaction or any Liquidation Event.

(iii) The Corporation will also give written notice to each Holder at least ten (10) Business Days prior to the date on which any Change of Control, any Twenty Percent Issuance, any Fundamental Transaction or any Liquidation Event will take place.

9. Suspension from Trading. If on any day after the Initial Issuance Date, the sale of any of the shares of Common Stock issued or issuable upon the conversion of any shares of Series A Preferred Stock (the “**Conversion Shares**”) (without giving effect to the Maximum Percentage) issuable hereunder cannot be made (i) because of the suspension of trading by the Principal Market, or, if the Principal Market is not the principal trading market for the Common Stock, then on the principal securities exchange or securities market on which the shares of Common Stock are then traded (a “**Maintenance Failure**”), then, as partial relief for the damages to any Holder by reason of any such delay in or reduction of its ability to sell the Conversion Shares (which remedy shall not be exclusive of any other remedies available at law or in equity, including, without limitation, specific performance), the Corporation shall pay to each Holder, for each full fifteen (15) day period during which there is a Maintenance Failure, an amount in cash equal to one quarter of one percent (0.25%) of the product of (I) the total number of Conversion Shares issuable hereunder (without giving effect to the Maximum Percentage) and (II) the highest Closing Sale Price of the Common Stock during the period beginning on the Trading Date immediately prior to the first date of the Maintenance Failure and ending on the date such Maintenance Failure is cured or (ii) because of a failure to maintain the listing of the Common Stock on one or more Eligible Markets (a “**Delisting Maintenance Failure**”), then, as partial relief for the damages to any Holder by reason of any such delay in or reduction of its ability to sell the Conversion Shares (which remedy shall not be exclusive of any other remedies available at law or in equity, including, without limitation, specific performance), the Corporation shall pay to each Holder, for each full fifteen (15) day period during which there is a Delisting Maintenance Failure, an amount in cash equal to one quarter of one percent (0.25%) of the Conversion Amount then held by such Holder. The payments to which a Holder shall be entitled pursuant to this Section 9 are referred to herein as “**Suspension Payments**”. Suspension Payments shall be paid on the third Business Day after each full fifteen (15) day period during which there is a Maintenance Failure or a Delisting Maintenance Failure, as applicable.

10. Status of Converted Stock. In the event any shares of Series A Preferred Stock shall be converted pursuant to Section 7 hereof, the shares so converted shall be canceled and shall not be issuable by the Corporation.

11. Lost or Stolen Certificates. Upon receipt by the Corporation of evidence reasonably satisfactory to the Corporation of the loss, theft, destruction or mutilation of any Series A Preferred Stock Certificates representing the Series A Preferred Stock, and, in the case of loss, theft or destruction, of an indemnification undertaking by the holder thereof to the Corporation in customary form and, in the case of mutilation, upon surrender and cancellation of the Series A Preferred Stock Certificate(s), the Corporation shall execute and deliver new preferred stock certificate(s) of like tenor and date; provided, however, the Corporation shall not be obligated to re-issue preferred stock certificates if the holder contemporaneously requests the Corporation to convert such Series A Preferred Stock into Common Stock.

12. Remedies, Characterizations, Other Obligations, Breaches and Injunctive Relief. The remedies provided in this Certificate of Designations shall be cumulative and in addition to all other remedies available under this Certificate of Designations, at law or in equity (including a decree of specific performance and/or other injunctive relief). No remedy contained herein shall be deemed a waiver of compliance with the provisions giving rise to such remedy. Nothing herein shall limit a holder of Series A Preferred Stock’s right to pursue actual damages for any failure by the Corporation to comply with the terms of this Certificate of Designations. The Corporation covenants to each holder of Series A Preferred Stock that there shall be no characterization concerning this instrument other than as expressly provided herein. Amounts set forth or

TABLE OF CONTENTS

provided for herein with respect to payments, conversion and the like (and the computation thereof) shall be the amounts to be received by the holder of Series A Preferred Stock thereof and shall not, except as expressly provided herein, be subject to any other obligation of the Corporation (or the performance thereof). The Corporation acknowledges that a breach by it of its obligations hereunder will cause irreparable harm to the holders of Series A Preferred Stock and that the remedy at law for any such breach may be inadequate. The Corporation therefore agrees that, in the event of any such breach or threatened breach, the holders of Series A Preferred Stock shall be entitled, in addition to all other available remedies, to an injunction restraining any breach, without the necessity of showing economic loss and without any bond or other security being required.

13. Notice. Whenever notice or other communication is required to be given under this Certificate of Designations, unless otherwise provided herein, such notice shall be given in accordance with contact information provided by each Holder to the Corporation and set forth in the register for the Series A Preferred Stock maintained by the Corporation as set forth in Section 16.

14. Failure or Indulgence Not Waiver. No failure or delay on the part of any holder of Series A Preferred Stock in the exercise of any power, right or privilege hereunder shall operate as a waiver thereof, nor shall any single or partial exercise of any such power, right or privilege preclude other or further exercise thereof or of any other right, power or privilege.

15. Transfer of Series A Preferred Stock. A Holder may assign some or all of the Series A Preferred Stock and the accompanying rights hereunder held by such Holder without the consent of the Corporation; provided that such assignment is in compliance with applicable securities laws.

16. Series A Preferred Stock Register. The Corporation shall maintain at its principal executive offices (or such other office or agency of the Corporation as it may designate by notice to the Holders), a register for the Series A Preferred Stock, in which the Corporation shall record the name and address of the persons in whose name the Series A Preferred Stock have been issued, as well as the name and address of each transferee. The Corporation may treat the person in whose name any Series A Preferred Stock is registered on the register as the owner and holder thereof for all purposes, notwithstanding any notice to the contrary, but in all events recognizing any properly made transfers.

17. Stockholder Matters. Any stockholder action, approval or consent required, desired or otherwise sought by the Corporation pursuant to the DGCL, this Certificate of Designations or otherwise with respect to the issuance of the Series A Preferred Stock or the Common Stock issuable upon conversion thereof may be effected by written consent of the Corporation's stockholders or at a duly called meeting of the Corporation's stockholders, all in accordance with the applicable rules and regulations of the DGCL. This provision is intended to comply with the applicable sections of the DGCL permitting stockholder action, approval and consent affected by written consent in lieu of a meeting.

18. General Provisions. In addition to the above provisions with respect to Series A Preferred Stock, such Series A Preferred Stock shall be subject to and be entitled to the benefit of the provisions set forth in the Certificate of Incorporation of the Corporation with respect to preferred stock of the Corporation generally.

19. Disclosure. Upon receipt or delivery by the Corporation of any notice in accordance with the terms of this Certificate of Designations, unless the Corporation has in good faith determined that the matters relating to such notice do not constitute material, nonpublic information relating to the Corporation or any of its Subsidiaries, the Corporation shall within one (1) Business Day after any such receipt or delivery publicly disclose such material, nonpublic information on a Current Report on Form 8-K or otherwise. In the event that the Corporation believes that a notice contains material, nonpublic information relating to the Corporation or its Subsidiaries, the Corporation so shall indicate to the Holders contemporaneously with delivery of such notice, and in the absence of any such indication, the Holders shall be allowed to presume that all matters relating to such notice do not constitute material, nonpublic information relating to the Corporation or its Subsidiaries.

VRINGO, INC.

Common Stock Warrant

Vringo, Inc. (the "Company"), for value received, hereby certifies that _____, or its registered assigns (the "Registered Holder"), is entitled, subject to the terms of this Common Stock Warrant (the "Warrant") set forth below, to purchase from the Company, at any time after the date hereof and on or before _____ 2017 (the "Expiration Date"), up to _____ (_____) shares of common stock of the Company (the "Warrant Stock"), par value \$0.01 per share (the "Common Stock"), at a per share exercise price (the "Exercise Price") equal to One Dollar and Seventy-Six Cents (\$1.76) per share (subject to adjustment as set forth in Section 2).

1. **Exercise.**

(a) **Method of Exercise.** This Warrant may be exercised by the Registered Holder, in whole or in part, by delivering the form appended hereto as Exhibit A duly executed by such Registered Holder (the "Exercise Notice"), at the principal office of the Company, or at such other office or agency as the Company may designate in writing prior to the date of such exercise, accompanied by payment in full of the Exercise Price payable with respect to the number of shares of Warrant Stock purchased upon such exercise. The Exercise Price must be paid by cash, check or wire transfer in immediately available funds for the Warrant Stock being purchased by the Registered Holder, except as provided in Section 1(c).

(b) **Effective Time of Exercise.** Each exercise of this Warrant shall be deemed to have been effected immediately prior to the close of business on the day on which the Exercise Notice has been delivered to the Company (the "Exercise Date") as provided in this Section 1. At such time, the person or persons in whose name or names any certificates for Warrant Stock shall be issuable upon such exercise as provided in Section 1(d) below shall be deemed to have become the holder or holders of record of the Warrant Stock represented by such certificates.

(c) **Cashless Exercise.** Notwithstanding any provisions herein to the contrary, if at any time between the three (3) month anniversary of the Issuance Date and the Expiration Date, there is no effective Registration Statement under the Securities Act registering the resale of the Warrant Stock by the Registered Holder, then the Registered Holder may elect to exercise this Warrant, or a portion hereof, and to pay for the Warrant Stock by way of cashless exercise (a "Cashless Exercise"). If the Registered Holder wishes to effect a cashless exercise, the Registered Holder shall deliver the Exercise Notice duly executed by such Registered Holder or by such Registered Holder's duly authorized attorney, at the principal office of the Company, or at such other office or agency as the Company may designate in writing prior to the date of such exercise, in which event the Company shall issue to the Registered Holder the number of shares of Warrant Stock computed according to the following equation:

$$\frac{X}{Y} * (A - B)$$

A

TABLE OF CONTENTS

; where

X = the number of shares of Warrant Stock to be issued to the Registered Holder.

Y = the Warrant Stock purchasable under this Warrant or, if only a portion of the Warrant is being exercised, the portion of the Warrant Stock being exercised.

A = the Fair Market Value (defined below) of one share of Common Stock on the Exercise Date.

B = the Exercise Price (as adjusted pursuant to the provisions of this Warrant).

For purposes of this Section 1(c), the "Fair Market Value" of one share of Common Stock on the Exercise Date shall have one of the following meanings:

(1) if the Common Stock is traded on a national securities exchange, the Fair Market Value shall be deemed to be the average of the Closing Prices over a five trading day period ending on the Exercise Date. For the purposes of this Warrant, "Closing Price" means the final price at which one share of Common Stock is traded during any trading day; or

(2) if the Common Stock is traded over-the-counter, the Fair Market Value shall be deemed to be the average of the closing sales price over the thirty (30) day period ending three (3) days before the Exercise Date; or

(3) if neither (1) nor (2) is applicable, the Fair Market Value shall be at the commercially reasonable price per share which the Company could obtain on the Exercise Date from a willing buyer (not a current employee or director) for shares of Common Stock sold by the Company, from authorized but unissued shares, as determined in good faith by the Company's Board of Directors.

For illustration purposes only, if this Warrant entitles the Registered Holder the right to purchase 100,000 shares of Warrant Stock and the Holder were to exercise this Warrant for 50,000 shares of Warrant Stock at a time when the Exercise Price was reduced to \$1.00 and the Fair Market Value of each share of Common Stock was \$2.00 on the Exercise Date, as applicable, the cashless exercise calculation would be as follows:

$$\text{--- } X = 50,000 (\$2.00 - \$1.00)$$

\$2.00

$$X = 25,000$$

Therefore, the number of shares of Warrant Stock to be issued to the Holder after giving effect to the cashless exercise would be 25,000 shares of Warrant Stock and the Company would issue the Holder a new Warrant to purchase 50,000 shares of Warrant Stock, reflecting the portion of this Warrant not exercised by the Holder. For purposes of Rule 144 promulgated under the Securities Act of 1933, as amended (the "Securities Act"), it is intended, understood and acknowledged that the Warrant Stock issued in the cashless exercise transaction described pursuant to Section 1(c) shall be deemed to have been acquired by the Holder, and the holding period for the shares of Warrant Stock shall be deemed to have commenced, on the date of the Registered Holder's acquisition of the Warrant.

(d) **Delivery to Holder.** As soon as practicable after the exercise of this Warrant in whole or in part, and in any event within three (3) business days thereafter (the "Warrant Stock Delivery Date"), the Company will cause to be issued in the name of, and delivered to, the Registered Holder, or as such Registered Holder (upon payment by such Registered Holder of any applicable transfer taxes) may direct:

(i) a certificate or certificates for the number of shares of Warrant Stock to which such Registered Holder shall be entitled, and

(ii) in case such exercise is in part only, a new warrant or warrants (dated the date hereof) of like tenor, calling in the aggregate on the face or faces thereof for the number of shares of Warrant Stock equal (giving effect to any adjustment therein) to the number of such shares called for on the face of this Warrant minus the number of such shares purchased by the Registered Holder upon such exercise as provided in Section 1(a).

(e) **Compensation for Buy-In on Failure to Timely Deliver Certificates Upon Exercise.** In addition to any other rights available to the Registered Holder, if the Company fails to transmit to the Registered Holder a certificate or the certificates representing the Warrant Stock pursuant to an exercise on or before the Warrant Stock Delivery Date, and if after such date the Registered Holder is required by its broker to purchase (in an open market transaction or otherwise) or the Registered Holder's brokerage firm otherwise purchases, shares of Common Stock to deliver in satisfaction of a sale by the Registered Holder of the Warrant Stock which the Registered Holder anticipated receiving upon such exercise (a "**Buy-In**"), then the Company shall (A) pay in cash to the Holder the amount by which (x) the Registered Holder's total purchase price (including brokerage commissions, if any) for the shares of Common Stock so purchased exceeds (y) the amount obtained by multiplying (1) the number of shares of Warrant Stock that the Company was required to deliver to the Registered Holder in connection with the exercise at issue times (2) the price at which the sell order giving rise to such purchase obligation was executed, and (B) at the option of the Registered Holder, either reinstate the portion of the Warrant and equivalent number of shares of Warrant Stock for which such exercise was not honored or deliver to the Registered Holder the number of shares of Common Stock that would have been issued had the Company timely complied with its exercise and delivery obligations hereunder. For example, if the Registered Holder purchases Common Stock having a total purchase price of \$11,000 to cover a Buy-In with respect to an attempted exercise of shares of Common Stock with an aggregate sale price giving rise to such purchase obligation of \$10,000, under clause (A) of the immediately preceding sentence the Company shall be required to pay the Registered Holder \$1,000. The Registered Holder shall provide the Company written notice indicating the amounts payable to the Registered Holder in respect of the Buy-In and, upon request of the Company, evidence of the amount of such loss.

(f) **Registered Holder's Exercise Limitations.** The Company shall not effect any exercise of this Warrant, and a Registered Holder shall not have the right to exercise any portion of this Warrant, pursuant to Section 2 or otherwise, to the extent (but only to the extent) that the Registered Holder or any of the Registered Holder's affiliates, would beneficially own in excess of the Beneficial Ownership Limitation (as defined below). For purposes of this Section 1(e), beneficial ownership shall be calculated in accordance with Section 13(d) of the Exchange Act (as defined herein) and the rules and regulations promulgated thereunder, it being acknowledged by the Registered Holder that the Company is not representing to the Registered Holder that such calculation is in compliance with Section 13(d) of the Exchange Act and the Registered Holder is solely responsible for any schedules required to be filed in accordance therewith. To the extent that the limitation contained in this Section 1(f) applies, the determination of whether this Warrant is exercisable (in relation to other securities owned by the Registered Holder together with any Affiliates) and of which portion of this Warrant is exercisable shall be in the sole discretion of the Registered Holder, and the submission of an Exercise Notice shall be deemed to be the Registered Holder's determination of whether this Warrant is exercisable (in relation to other securities owned by the Registered Holder together with any Affiliates) and of which portion of this Warrant is exercisable, in each case subject to the Beneficial Ownership Limitation, and the Company shall have no obligation to verify or confirm the accuracy of such determination. Upon the written or oral request of a Registered Holder, the Company shall within two business days confirm orally and in writing to the Registered Holder the number of shares of Common Stock then outstanding. In any case, the number of outstanding shares of Common Stock shall be determined after giving effect to the conversion or exercise of securities of the Company, including this Warrant, by the Registered Holder or its Affiliates since the date as of which such number of outstanding shares of Common Stock was reported. The "Beneficial Ownership Limitation" shall be 4.99% of the number of shares of Common Stock outstanding immediately after giving effect to the issuance of shares of Common Stock issuable upon exercise of this Warrant. The Registered Holder, upon not less than 61 days' prior notice to the Company, may increase or decrease the Beneficial Ownership Limitation provisions of this Section 1(f), provided that the Beneficial Ownership Limitation shall in no event exceed 9.99% of the number of shares of Common Stock outstanding immediately after giving effect to the issuance of shares of Common Stock upon exercise of this Warrant held by the Registered Holder and the provisions of this Section 1(f) shall continue to apply. Any such increase or decrease will not be effective until the 61st day after such notice is delivered to the Company. The provisions of this paragraph shall be construed and implemented in a

TABLE OF CONTENTS

manner otherwise than in strict conformity with the terms of this Section 1(f) to correct this paragraph (or any portion hereof) which may be defective or inconsistent with the intended Beneficial Ownership Limitation herein contained or to make changes or supplements necessary or desirable to properly give effect to such limitation. The limitations contained in this paragraph shall apply to a successor holder of this Warrant.

2. Adjustments.

(a) **Stock Splits and Dividends.** If the outstanding shares of the Company's Common Stock shall be subdivided into a greater number of shares or a dividend in Common Stock shall be paid in respect of Common Stock, the Exercise Price in effect immediately prior to such subdivision or at the record date of such dividend shall, simultaneously with the effectiveness of such subdivision or immediately after the record date of such dividend, be proportionately reduced and the number of Warrant Stock issuable upon exercise of the Warrant shall be proportionately increased. If the outstanding shares of Common Stock shall be combined into a smaller number of shares, the Exercise Price in effect immediately prior to such combination shall, simultaneously with the effectiveness of such combination, be proportionately increased and the number of shares of Warrant Stock issuable upon exercise of the Warrant shall be proportionately decreased.

(b) **Fundamental Transaction.** If, at any time while this Warrant is outstanding, (i) the Company effects any merger or consolidation of the Company with or into another person, (ii) the Company effects any sale of all or substantially all of its assets in one or a series of related transactions, (iii) any tender offer or exchange offer (whether by the Company or another person) is completed pursuant to which holders of Common Stock are permitted to tender or exchange their shares for other securities, cash or property or (iv) the Company effects any reclassification of the Common Stock or any compulsory share exchange pursuant to which the Common Stock is effectively converted into or exchanged for other securities, cash or property (each, a "**Fundamental Transaction**"), then, upon any subsequent exercise of this Warrant, the Registered Holder shall have the right to receive, for each share of Warrant Stock that would have been issuable upon such exercise immediately prior to the occurrence of such Fundamental Transaction, the number of shares of Common Stock of the successor or acquiring corporation or of the Company, if it is the surviving corporation, and any additional consideration (the "**Alternate Consideration**") receivable as a result of such merger, consolidation or disposition of assets by a holder of the number of shares of Common Stock for which this Warrant is exercisable immediately prior to such event. For purposes of any such exercise, the determination of the Exercise Price shall be appropriately adjusted to apply to such Alternate Consideration based on the amount of Alternate Consideration issuable in respect of one share of Common Stock in such Fundamental Transaction, and the Company shall apportion the Exercise Price among the Alternate Consideration in a reasonable manner reflecting the relative value of any different components of the Alternate Consideration. If holders of Common Stock are given any choice as to the securities, cash or property to be received in a Fundamental Transaction, then the Registered Holder shall be given the same choice as to the Alternate Consideration it receives upon any exercise of this Warrant following such Fundamental Transaction. To the extent necessary to effectuate the foregoing provisions, any successor to the Company or surviving entity in such Fundamental Transaction shall issue to the Registered Holder a new warrant consistent with the foregoing provisions and evidencing the Registered Holder's right to exercise such warrant into Alternate Consideration. The terms of any agreement pursuant to which a Fundamental Transaction is effected shall include terms requiring any such successor or surviving entity to comply with the provisions of this Section 2(b) and insuring that this Warrant (or any such replacement security) will be similarly adjusted upon any subsequent transaction analogous to a Fundamental Transaction.

(c) **Adjustment Certificate.** When any adjustment is required to be made in the Exercise Price pursuant to this Section 2, the Company shall promptly mail to the Registered Holder a certificate setting forth (i) a brief statement of the facts requiring such adjustment, (ii) the Exercise Price after such adjustment and (iii) the kind and amount of stock or other securities or property into which this Warrant shall be exercisable after such adjustment.

3. **Transfers.**

(a) **Unregistered Security.** The holder of this Warrant acknowledges that this Warrant has not been registered under the Securities Act and agrees not to sell, pledge, distribute, offer for sale, transfer or otherwise dispose of this Warrant or any Warrant Stock issued upon its exercise in the absence of (i) an effective registration statement under the Securities Act as to this Warrant or such Warrant Stock and registration or qualification of this Warrant or such Warrant Stock under any applicable U.S. federal or state securities law then in effect or (ii) an opinion of counsel, reasonably satisfactory to the Company, that such registration and qualification are not required.

(b) **Transferability.** Subject to the provisions of Section 3(a) hereof, this Warrant and all rights hereunder are transferable, in whole or in part, to (i) any entity controlling, controlled by or under common control of the Registered Holder, or (ii) to any other proposed transferee by surrendering the Warrant with a properly executed assignment (in the form of [Exhibit B](#) hereto) at the principal office of the Company.

(c) **Warrant Register.** The Company will maintain a register containing the names and addresses of the Registered Holders of this Warrant. Until any transfer of this Warrant is made in the warrant register, the Company may treat the Registered Holder of this Warrant as the absolute owner hereof for all purposes; provided, however, that if this Warrant is properly assigned in blank, the Company may (but shall not be required to) treat the bearer hereof as the absolute owner hereof for all purposes, notwithstanding any notice to the contrary. Any Registered Holder may change such Registered Holder's address as shown on the warrant register by written notice to the Company requesting such change.

4. **Redemption.**

(a) **Redemption of Warrant.** This Warrant may be redeemed, at the option of the Company, at any time after it becomes exercisable and prior to its expiration, at the office of the Company or, if appointed, the Company's warrant agent, upon the notice referred to in Section 4(b) hereof, at the price of \$0.01 per share underlying the Warrant (the "**Redemption Price**"), in the event that (i) the last closing sale price of the Common Stock has been equal to or greater than \$5.00 per share (subject to adjustments for splits, dividends, recapitalizations and similar events) on each of twenty (20) trading days within any thirty (30) day trading period ending on the third business day prior to the date on which notice of redemption is given to the holder and (ii) during each day of the foregoing twenty (20) day trading period and through the date the Company exercises its redemption rights it must have an effective registration statement with a current prospectus in compliance with Sections 5 and 10 of the Securities Act on file with the Securities and Exchange Commission pursuant to which the underlying Common Stock may be sold.

(b) **Date Fixed for, and Notice of, Redemption.** In the event the Company shall elect to redeem the Warrant, the Company shall fix a date for the redemption. Notice of redemption shall be mailed by first class mail, postage prepaid, by the Company not less than thirty (30) days prior to the date fixed for redemption to the Registered Holders of the Warrant to be redeemed at their last addresses as they shall appear on the registration books. Any notice mailed in the manner herein provided shall be conclusively presumed to have been duly given whether or not the Registered Holder received such notice.

(c) **Exercise After Notice of Redemption.** The Warrants may be exercised in accordance with this Warrant at any time after notice of redemption shall have been given by the Company and prior to the time and date fixed for redemption. On and after the redemption date, the Registered Holder shall have no further rights except to receive, upon surrender of the Warrants, the Redemption Price.

5. **Superior Warrant.** From the date hereof until December 31, 2014, in the event the Company shall issue or sell a warrant to purchase shares of Common Stock of the Company at an exercise price below \$1.76 per share or which contain terms that, taken as a whole, are more favorable than the terms of the Warrant as determined in good faith by the Company's Board of Directors (a "Superior Warrant") in connection with a financing or a material transaction consummated by the Company, then the Company shall amend the terms of the Warrant to give you the benefit of the more favorable terms or conditions of the Superior Warrant (excluding the expiration date of the Superior Warrant). Notwithstanding the foregoing, no

TABLE OF CONTENTS

adjustments to the Warrant in accordance with this Section 5 shall be made upon the issuance of any Excluded Securities (as defined in the Company's Certificate of Designations, Preferences and Rights of Series A Convertible Preferred Stock).

6. **Termination.** This Warrant (and the right to purchase securities upon exercise hereof) shall terminate at 5:00 p.m., Eastern time, on the Expiration Date.

7. **Notices of Certain Transactions.** In case:

(a) the Company shall take a record of the holders of its Common Stock (or other stock or securities at the time deliverable upon the exercise of this Warrant) for the purpose of entitling or enabling them to receive any dividend or other distribution, or to receive any right to subscribe for or purchase any shares of stock of any class or any other securities, or to receive any other right, to subscribe for or purchase any shares of stock of any class or any other securities, or to receive any other right, or

(b) of any capital reorganization of the Company, any reclassification of the capital stock of the Company, any consolidation or merger of the Company, any consolidation or merger of the Company with or into another corporation (other than a consolidation or merger in which the Company is the surviving entity), or any transfer of all or substantially all of the assets of the Company, or

(c) of the voluntary or involuntary dissolution, liquidation or winding-up of the Company, or

(d) of any Fundamental Transaction,

then, and in each such case, the Company will mail or cause to be mailed to the Registered Holder of this Warrant a notice specifying, as the case may be, (i) the date on which a record is to be taken for the purpose of such dividend, distribution or right, and stating the amount and character of such dividend, distribution or right, or (ii) the effective date on which such reorganization, reclassification, consolidation, merger, transfer, dissolution, liquidation, winding-up or Fundamental Transaction is to take place, and the time, if any is to be fixed, as of which the holders of record of Common Stock (or such other stock or securities at the time deliverable upon such reorganization, reclassification, consolidation, merger, transfer, dissolution, liquidation or winding-up) are to be determined. Failure to send such notice shall not act to invalidate any such transaction.

8. **Reservation of Stock.** The Company covenants that at all times it will have authorized, reserve and keep available, solely for the issuance and delivery upon the exercise of this Warrant, such shares of Warrant Stock and other stock, securities and property, as from time to time shall be issuable upon the exercise of this Warrant. The Company covenants that all Warrant Stock that may be issued upon the exercise of the purchase rights represented by this Warrant will, upon exercise of the purchase rights represented by this Warrant, be duly authorized, validly issued, fully paid and nonassessable and free from all taxes, liens and charges in respect of the issue thereof (other than taxes in respect of any transfer occurring contemporaneously with such issue). The Company further covenants that its issuance of this Warrant shall constitute full authority to its officers who are charged with the duty of executing stock certificates to execute and issue the necessary certificates for the shares of Warrant Stock upon the exercise of the purchase rights under this Warrant by the Registered Holder. The Company will take all such reasonable action as may be necessary to assure that such Warrant Stock may be issued as provided herein without violation of any applicable law or regulation.

9. **Replacement of Warrants.** Upon receipt of evidence reasonably satisfactory to the Company of the loss, theft, destruction or mutilation of this Warrant and (in the case of loss, theft or destruction) upon delivery of an indemnity agreement (with surety if reasonably required) in an amount reasonably satisfactory to the Company, or (in the case of mutilation) upon surrender and cancellation of this Warrant, the Company will issue, in lieu thereof, a new Warrant of like tenor.

10. **Notices.** Any notice required or permitted by this Warrant shall be in writing and shall be deemed duly given upon receipt, when delivered personally or by courier, overnight delivery service or confirmed facsimile, or 48 hours after being deposited in the regular mail as certified or registered mail (airmail if sent internationally) with postage prepaid, addressed (a) if to the Registered Holder, to the address of the

TABLE OF CONTENTS

Registered Holder most recently furnished in writing to the Company and (b) if to the Company, to the address set forth on the signature page of this Warrant or as subsequently modified by written notice to the Registered Holder.

11. **No Rights as Stockholder.** Until the exercise of this Warrant, the Registered Holder of this Warrant shall not have or exercise any rights by virtue hereof as a stockholder of the Company.

12. **No Fractional Shares.** No fractional shares of Common Stock will be issued in connection with any exercise hereunder. In lieu of any fractional shares which would otherwise be issuable, the Company shall round the amount of Warrant Stock issuable to the nearest whole share.

13. **Amendment or Waiver.** Any term of this Warrant may be amended or waived upon written consent of the Company and the Registered Holder.

14. **Headings.** The headings in this Warrant are for purposes of reference only and shall not limit or otherwise affect the meaning of any provision of this Warrant.

15. **Governing Law.** This Warrant and all acts and transactions pursuant hereto and the rights and obligations of the parties hereto shall be governed, construed and interpreted in accordance with the laws of the State of New York, without giving effect to principles of conflicts of law.

16. **Representations and Covenants of the Registered Holder.** This Warrant has been entered into by the Company in reliance upon the following representations and covenants of the Registered Holder:

(a) **Investment Purpose.** The Registered Holder is acquiring the Warrant and the Warrant Stock issuable upon exercise of the Warrant for its own account, not as a nominee or agent and with no present intention of selling or otherwise distributing any part thereof.

(b) **Private Issue.** The Registered Holder understands: (i) that the Warrant is not registered under the Securities Act or qualified under applicable state securities laws on the ground that the issuance contemplated by this Warrant will be exempt from the registration and qualifications requirements thereof pursuant to Section 4(2) of the Securities Act and any applicable state securities laws, and (ii) that the Company's reliance on such exemption is predicated on the representations set forth in this Section 16.

(c) **Disposition of Registered Holder's Rights.** In no event will the Registered Holder make a disposition of the Warrant or the Warrant Stock issuable upon exercise of the Warrant in the absence of (i) an effective registration statement under the Securities Act as to this Warrant or such Warrant Stock and registration or qualification of this Warrant or such Warrant Stock under any applicable U.S. federal or state securities law then in effect or (ii) an opinion of counsel, reasonably satisfactory to the Company, that such registration and qualification are not required. Whenever the restrictions imposed hereunder shall terminate, as hereinabove provided, the Registered Holder or holder of a share of Common Stock then outstanding as to which such restrictions have terminated shall be entitled to receive from the Company, without expense to such holder, one or more new certificates for the Warrant or for such shares of Common Stock not bearing any restrictive legend.

(d) **Financial Risk.** The Registered Holder has such business and financial experience as is required to give it the capacity to protect its own interests in connection with its investment.

(e) **Accredited Investor.** The Registered Holder is an "accredited investor" as defined by Rule 501 of Regulation D promulgated under the Securities Act.

VRINGO, INC.

Common Stock Warrant

Vringo, Inc. (the “Company”), for value received, hereby certifies that _____, or its registered assigns (the “Registered Holder”), is entitled, subject to the terms of this Common Stock Warrant (the “Warrant”) set forth below, to purchase from the Company, at any time after the date hereof and on or before _____, 2017 (the “Expiration Date”), up to _____ (_____) shares of common stock of the Company (the “Warrant Stock”), par value \$0.01 per share (the “Common Stock”), at a per share exercise price (the “Exercise Price”) equal to One Dollar and Seventy-Six Cents (\$1.76) per share (subject to adjustment as set forth in Section 2).

1. **Exercise.**

(a) **Method of Exercise.** This Warrant may be exercised by the Registered Holder, in whole or in part, by delivering the form appended hereto as Exhibit A duly executed by such Registered Holder (the “Exercise Notice”), at the principal office of the Company, or at such other office or agency as the Company may designate in writing prior to the date of such exercise, accompanied by payment in full of the Exercise Price payable with respect to the number of shares of Warrant Stock purchased upon such exercise. The Exercise Price must be paid by cash, check or wire transfer in immediately available funds for the Warrant Stock being purchased by the Registered Holder, except as provided in Section 1(c).

(b) **Effective Time of Exercise.** Each exercise of this Warrant shall be deemed to have been effected immediately prior to the close of business on the day on which the Exercise Notice has been delivered to the Company (the “Exercise Date”) as provided in this Section 1. At such time, the person or persons in whose name or names any certificates for Warrant Stock shall be issuable upon such exercise as provided in Section 1(d) below shall be deemed to have become the holder or holders of record of the Warrant Stock represented by such certificates.

(c) **Cashless Exercise.** Notwithstanding any provisions herein to the contrary, if at any time between the three (3) month anniversary of the Issuance Date and the Expiration Date, there is no effective Registration Statement under the Securities Act registering the resale of the Warrant Stock by the Registered Holder, then the Registered Holder may elect to exercise this Warrant, or a portion hereof, and to pay for the Warrant Stock by way of cashless exercise (a “Cashless Exercise”). If the Registered Holder wishes to effect a cashless exercise, the Registered Holder shall deliver the Exercise Notice duly executed by such Registered Holder or by such Registered Holder’s duly authorized attorney, at the principal office of the Company, or at such other office or agency as the Company may designate in writing prior to the date of such exercise, in which event the Company shall issue to the Registered Holder the number of shares of Warrant Stock computed according to the following equation:

$$\frac{X}{Y} = Y * (A - B)$$

A

G-1

TABLE OF CONTENTS

; where

X = the number of shares of Warrant Stock to be issued to the Registered Holder.

Y = the Warrant Stock purchasable under this Warrant or, if only a portion of the Warrant is being exercised, the portion of the Warrant Stock being exercised.

A = the Fair Market Value (defined below) of one share of Common Stock on the Exercise Date.

B = the Exercise Price (as adjusted pursuant to the provisions of this Warrant).

For purposes of this Section 1(c), the “Fair Market Value” of one share of Common Stock on the Exercise Date shall have one of the following meanings:

(1) if the Common Stock is traded on a national securities exchange, the Fair Market Value shall be deemed to be the average of the Closing Prices over a five trading day period ending on the Exercise Date. For the purposes of this Warrant, “Closing Price” means the final price at which one share of Common Stock is traded during any trading day; or

(2) if the Common Stock is traded over-the-counter, the Fair Market Value shall be deemed to be the average of the closing sales price over the thirty (30) day period ending three (3) days before the Exercise Date; or

(3) if neither (1) nor (2) is applicable, the Fair Market Value shall be at the commercially reasonable price per share which the Company could obtain on the Exercise Date from a willing buyer (not a current employee or director) for shares of Common Stock sold by the Company, from authorized but unissued shares, as determined in good faith by the Company’s Board of Directors.

For illustration purposes only, if this Warrant entitles the Registered Holder the right to purchase 100,000 shares of Warrant Stock and the Holder were to exercise this Warrant for 50,000 shares of Warrant Stock at a time when the Exercise Price was reduced to \$1.00 and the Fair Market Value of each share of Common Stock was \$2.00 on the Exercise Date, as applicable, the cashless exercise calculation would be as follows:

~~X = 50,000 (\$2.00 – \$1.00)~~

\$2.00

X = 25,000

Therefore, the number of shares of Warrant Stock to be issued to the Holder after giving effect to the cashless exercise would be 25,000 shares of Warrant Stock and the Company would issue the Holder a new Warrant to purchase 50,000 shares of Warrant Stock, reflecting the portion of this Warrant not exercised by the Holder. For purposes of Rule 144 promulgated under the Securities Act of 1933, as amended (the “Securities Act”), it is intended, understood and acknowledged that the Warrant Stock issued in the cashless exercise transaction described pursuant to Section 1(c) shall be deemed to have been acquired by the Holder, and the holding period for the shares of Warrant Stock shall be deemed to have commenced, on the date of the Registered Holder’s acquisition of the Warrant.

(d) **Delivery to Holder.** As soon as practicable after the exercise of this Warrant in whole or in part, and in any event within three (3) business days thereafter (the “Warrant Stock Delivery Date”), the Company will cause to be issued in the name of, and delivered to, the Registered Holder, or as such Registered Holder (upon payment by such Registered Holder of any applicable transfer taxes) may direct:

(i) a certificate or certificates for the number of shares of Warrant Stock to which such Registered Holder shall be entitled, and

(ii) in case such exercise is in part only, a new warrant or warrants (dated the date hereof) of like tenor, calling in the aggregate on the face or faces thereof for the number of shares of Warrant Stock equal (giving effect to any adjustment therein) to the number of such shares called for on the face of this Warrant minus the number of such shares purchased by the Registered Holder upon such exercise as provided in Section 1(a).

(e) **Compensation for Buy-In on Failure to Timely Deliver Certificates Upon Exercise.** In addition to any other rights available to the Registered Holder, if the Company fails to transmit to the Registered Holder a certificate or the certificates representing the Warrant Stock pursuant to an exercise on or before the Warrant Stock Delivery Date, and if after such date the Registered Holder is required by its broker to purchase (in an open market transaction or otherwise) or the Registered Holder's brokerage firm otherwise purchases, shares of Common Stock to deliver in satisfaction of a sale by the Registered Holder of the Warrant Stock which the Registered Holder anticipated receiving upon such exercise (a "Buy-In"), then the Company shall (A) pay in cash to the Holder the amount by which (x) the Registered Holder's total purchase price (including brokerage commissions, if any) for the shares of Common Stock so purchased exceeds (y) the amount obtained by multiplying (1) the number of shares of Warrant Stock that the Company was required to deliver to the Registered Holder in connection with the exercise at issue times (2) the price at which the sell order giving rise to such purchase obligation was executed, and (B) at the option of the Registered Holder, either reinstate the portion of the Warrant and equivalent number of shares of Warrant Stock for which such exercise was not honored or deliver to the Registered Holder the number of shares of Common Stock that would have been issued had the Company timely complied with its exercise and delivery obligations hereunder. For example, if the Registered Holder purchases Common Stock having a total purchase price of \$11,000 to cover a Buy-In with respect to an attempted exercise of shares of Common Stock with an aggregate sale price giving rise to such purchase obligation of \$10,000, under clause (A) of the immediately preceding sentence the Company shall be required to pay the Registered Holder \$1,000. The Registered Holder shall provide the Company written notice indicating the amounts payable to the Registered Holder in respect of the Buy-In and, upon request of the Company, evidence of the amount of such loss.

(f) **Registered Holder's Exercise Limitations.** The Company shall not effect any exercise of this Warrant, and a Registered Holder shall not have the right to exercise any portion of this Warrant, pursuant to Section 2 or otherwise, to the extent (but only to the extent) that the Registered Holder or any of the Registered Holder's affiliates, would beneficially own in excess of the Beneficial Ownership Limitation (as defined below). For purposes of this Section 1(e), beneficial ownership shall be calculated in accordance with Section 13(d) of the Exchange Act (as defined herein) and the rules and regulations promulgated thereunder, it being acknowledged by the Registered Holder that the Company is not representing to the Registered Holder that such calculation is in compliance with Section 13(d) of the Exchange Act and the Registered Holder is solely responsible for any schedules required to be filed in accordance therewith. To the extent that the limitation contained in this Section 1(f) applies, the determination of whether this Warrant is exercisable (in relation to other securities owned by the Registered Holder together with any Affiliates) and of which portion of this Warrant is exercisable shall be in the sole discretion of the Registered Holder, and the submission of an Exercise Notice shall be deemed to be the Registered Holder's determination of whether this Warrant is exercisable (in relation to other securities owned by the Registered Holder together with any Affiliates) and of which portion of this Warrant is exercisable, in each case subject to the Beneficial Ownership Limitation, and the Company shall have no obligation to verify or confirm the accuracy of such determination. Upon the written or oral request of a Registered Holder, the Company shall within two business days confirm orally and in writing to the Registered Holder the number of shares of Common Stock then outstanding. In any case, the number of outstanding shares of Common Stock shall be determined after giving effect to the conversion or exercise of securities of the Company, including this Warrant, by the Registered Holder or its Affiliates since the date as of which such number of outstanding shares of Common Stock was reported. The "Beneficial Ownership Limitation" shall be 4.99% of the number of shares of Common Stock outstanding immediately after giving effect to the issuance of shares of Common Stock issuable upon exercise of this Warrant. The Registered Holder, upon not less than 61 days' prior notice to the Company, may increase or decrease the Beneficial Ownership Limitation provisions of this Section 1(f), provided that the Beneficial Ownership Limitation shall in no event exceed 9.99% of the number of shares of Common Stock outstanding immediately after giving effect to the issuance of shares of Common Stock upon exercise of this Warrant held by the Registered Holder and the provisions of this Section 1(f) shall continue to apply. Any such increase or decrease will not be effective until the 61st day after such notice is delivered to the Company. The provisions of this paragraph shall be construed and implemented in a

TABLE OF CONTENTS

manner otherwise than in strict conformity with the terms of this Section 1(f) to correct this paragraph (or any portion hereof) which may be defective or inconsistent with the intended Beneficial Ownership Limitation herein contained or to make changes or supplements necessary or desirable to properly give effect to such limitation. The limitations contained in this paragraph shall apply to a successor holder of this Warrant.

2. Adjustments.

(a) **Stock Splits and Dividends.** If the outstanding shares of the Company's Common Stock shall be subdivided into a greater number of shares or a dividend in Common Stock shall be paid in respect of Common Stock, the Exercise Price in effect immediately prior to such subdivision or at the record date of such dividend shall, simultaneously with the effectiveness of such subdivision or immediately after the record date of such dividend, be proportionately reduced and the number of Warrant Stock issuable upon exercise of the Warrant shall be proportionately increased. If the outstanding shares of Common Stock shall be combined into a smaller number of shares, the Exercise Price in effect immediately prior to such combination shall, simultaneously with the effectiveness of such combination, be proportionately increased and the number of shares of Warrant Stock issuable upon exercise of the Warrant shall be proportionately decreased.

(b) **Fundamental Transaction.** If, at any time while this Warrant is outstanding, (i) the Company effects any merger or consolidation of the Company with or into another person, (ii) the Company effects any sale of all or substantially all of its assets in one or a series of related transactions, (iii) any tender offer or exchange offer (whether by the Company or another person) is completed pursuant to which holders of Common Stock are permitted to tender or exchange their shares for other securities, cash or property or (iv) the Company effects any reclassification of the Common Stock or any compulsory share exchange pursuant to which the Common Stock is effectively converted into or exchanged for other securities, cash or property (each, a "**Fundamental Transaction**"), then, upon any subsequent exercise of this Warrant, the Registered Holder shall have the right to receive, for each share of Warrant Stock that would have been issuable upon such exercise immediately prior to the occurrence of such Fundamental Transaction, the number of shares of Common Stock of the successor or acquiring corporation or of the Company, if it is the surviving corporation, and any additional consideration (the "**Alternate Consideration**") receivable as a result of such merger, consolidation or disposition of assets by a holder of the number of shares of Common Stock for which this Warrant is exercisable immediately prior to such event. For purposes of any such exercise, the determination of the Exercise Price shall be appropriately adjusted to apply to such Alternate Consideration based on the amount of Alternate Consideration issuable in respect of one share of Common Stock in such Fundamental Transaction, and the Company shall apportion the Exercise Price among the Alternate Consideration in a reasonable manner reflecting the relative value of any different components of the Alternate Consideration. If holders of Common Stock are given any choice as to the securities, cash or property to be received in a Fundamental Transaction, then the Registered Holder shall be given the same choice as to the Alternate Consideration it receives upon any exercise of this Warrant following such Fundamental Transaction. To the extent necessary to effectuate the foregoing provisions, any successor to the Company or surviving entity in such Fundamental Transaction shall issue to the Registered Holder a new warrant consistent with the foregoing provisions and evidencing the Registered Holder's right to exercise such warrant into Alternate Consideration. The terms of any agreement pursuant to which a Fundamental Transaction is effected shall include terms requiring any such successor or surviving entity to comply with the provisions of this Section 2(b) and insuring that this Warrant (or any such replacement security) will be similarly adjusted upon any subsequent transaction analogous to a Fundamental Transaction.

(c) **Adjustment Certificate.** When any adjustment is required to be made in the Exercise Price pursuant to this Section 2, the Company shall promptly mail to the Registered Holder a certificate setting forth (i) a brief statement of the facts requiring such adjustment, (ii) the Exercise Price after such adjustment and (iii) the kind and amount of stock or other securities or property into which this Warrant shall be exercisable after such adjustment.

3. **Transfers.**

(a) **Unregistered Security.** The holder of this Warrant acknowledges that this Warrant has not been registered under the Securities Act and agrees not to sell, pledge, distribute, offer for sale, transfer or otherwise dispose of this Warrant or any Warrant Stock issued upon its exercise in the absence of (i) an effective registration statement under the Securities Act as to this Warrant or such Warrant Stock and registration or qualification of this Warrant or such Warrant Stock under any applicable U.S. federal or state securities law then in effect or (ii) an opinion of counsel, reasonably satisfactory to the Company, that such registration and qualification are not required.

(b) **Transferability.** Subject to the provisions of Section 3(a) hereof, this Warrant and all rights hereunder are transferable, in whole or in part, to (i) any entity controlling, controlled by or under common control of the Registered Holder, or (ii) to any other proposed transferee by surrendering the Warrant with a properly executed assignment (in the form of Exhibit B hereto) at the principal office of the Company.

(c) **Warrant Register.** The Company will maintain a register containing the names and addresses of the Registered Holders of this Warrant. Until any transfer of this Warrant is made in the warrant register, the Company may treat the Registered Holder of this Warrant as the absolute owner hereof for all purposes; provided, however, that if this Warrant is properly assigned in blank, the Company may (but shall not be required to) treat the bearer hereof as the absolute owner hereof for all purposes, notwithstanding any notice to the contrary. Any Registered Holder may change such Registered Holder's address as shown on the warrant register by written notice to the Company requesting such change.

4. **Redemption.**

(a) **Redemption of Warrant.** This Warrant may be redeemed, at the option of the Company, at any time after it becomes exercisable and prior to its expiration, at the office of the Company or, if appointed, the Company's warrant agent, upon the notice referred to in Section 4(b) hereof, at the price of \$0.01 per share underlying the Warrant (the "Redemption Price"), in the event that (i) the last closing sale price of the Common Stock has been equal to or greater than \$5.00 per share (subject to adjustments for splits, dividends, recapitalizations and similar events) on each of twenty (20) trading days within any thirty (30) day trading period ending on the third business day prior to the date on which notice of redemption is given to the holder and (ii) during each day of the foregoing twenty (20) day trading period and through the date the Company exercises its redemption rights it must have an effective registration statement with a current prospectus in compliance with Sections 5 and 10 of the Securities Act on file with the Securities and Exchange Commission pursuant to which the underlying Common Stock may be sold.

(b) **Date Fixed for, and Notice of, Redemption.** In the event the Company shall elect to redeem the Warrant, the Company shall fix a date for the redemption. Notice of redemption shall be mailed by first class mail, postage prepaid, by the Company not less than thirty (30) days prior to the date fixed for redemption to the Registered Holders of the Warrant to be redeemed at their last addresses as they shall appear on the registration books. Any notice mailed in the manner herein provided shall be conclusively presumed to have been duly given whether or not the Registered Holder received such notice.

(c) **Exercise After Notice of Redemption.** The Warrants may be exercised in accordance with this Warrant at any time after notice of redemption shall have been given by the Company and prior to the time and date fixed for redemption. On and after the redemption date, the Registered Holder shall have no further rights except to receive, upon surrender of the Warrants, the Redemption Price.

5. **Termination.** This Warrant (and the right to purchase securities upon exercise hereof) shall terminate at 5:00 p.m., Eastern time, on the Expiration Date.

6. **Notices of Certain Transactions.** In case:

(a) the Company shall take a record of the holders of its Common Stock (or other stock or securities at the time deliverable upon the exercise of this Warrant) for the purpose of entitling or enabling them to receive any dividend or other distribution, or to receive any right to subscribe for or

purchase any shares of stock of any class or any other securities, or to receive any other right, to subscribe for or purchase any shares of stock of any class or any other securities, or to receive any other right, or

(b) of any capital reorganization of the Company, any reclassification of the capital stock of the Company, any consolidation or merger of the Company, any consolidation or merger of the Company with or into another corporation (other than a consolidation or merger in which the Company is the surviving entity), or any transfer of all or substantially all of the assets of the Company, or

(c) of the voluntary or involuntary dissolution, liquidation or winding-up of the Company, or

(d) of any Fundamental Transaction,

then, and in each such case, the Company will mail or cause to be mailed to the Registered Holder of this Warrant a notice specifying, as the case may be, (i) the date on which a record is to be taken for the purpose of such dividend, distribution or right, and stating the amount and character of such dividend, distribution or right, or (ii) the effective date on which such reorganization, reclassification, consolidation, merger, transfer, dissolution, liquidation, winding-up or Fundamental Transaction is to take place, and the time, if any is to be fixed, as of which the holders of record of Common Stock (or such other stock or securities at the time deliverable upon such reorganization, reclassification, consolidation, merger, transfer, dissolution, liquidation or winding-up) are to be determined. Failure to send such notice shall not act to invalidate any such transaction.

7. **Reservation of Stock.** The Company covenants that at all times it will have authorized, reserve and keep available, solely for the issuance and delivery upon the exercise of this Warrant, such shares of Warrant Stock and other stock, securities and property, as from time to time shall be issuable upon the exercise of this Warrant. The Company covenants that all Warrant Stock that may be issued upon the exercise of the purchase rights represented by this Warrant will, upon exercise of the purchase rights represented by this Warrant, be duly authorized, validly issued, fully paid and nonassessable and free from all taxes, liens and charges in respect of the issue thereof (other than taxes in respect of any transfer occurring contemporaneously with such issue). The Company further covenants that its issuance of this Warrant shall constitute full authority to its officers who are charged with the duty of executing stock certificates to execute and issue the necessary certificates for the shares of Warrant Stock upon the exercise of the purchase rights under this Warrant by the Registered Holder. The Company will take all such reasonable action as may be necessary to assure that such Warrant Stock may be issued as provided herein without violation of any applicable law or regulation.

8. **Replacement of Warrants.** Upon receipt of evidence reasonably satisfactory to the Company of the loss, theft, destruction or mutilation of this Warrant and (in the case of loss, theft or destruction) upon delivery of an indemnity agreement (with surety if reasonably required) in an amount reasonably satisfactory to the Company, or (in the case of mutilation) upon surrender and cancellation of this Warrant, the Company will issue, in lieu thereof, a new Warrant of like tenor.

9. **Notices.** Any notice required or permitted by this Warrant shall be in writing and shall be deemed duly given upon receipt, when delivered personally or by courier, overnight delivery service or confirmed facsimile, or 48 hours after being deposited in the regular mail as certified or registered mail (airmail if sent internationally) with postage prepaid, addressed (a) if to the Registered Holder, to the address of the Registered Holder most recently furnished in writing to the Company and (b) if to the Company, to the address set forth on the signature page of this Warrant or as subsequently modified by written notice to the Registered Holder.

10. **No Rights as Stockholder.** Until the exercise of this Warrant, the Registered Holder of this Warrant shall not have or exercise any rights by virtue hereof as a stockholder of the Company.

11. **No Fractional Shares.** No fractional shares of Common Stock will be issued in connection with any exercise hereunder. In lieu of any fractional shares which would otherwise be issuable, the Company shall round the amount of Warrant Stock issuable to the nearest whole share.

12. **Amendment or Waiver.** Any term of this Warrant may be amended or waived upon written consent of the Company and the Registered Holder.

13. **Headings.** The headings in this Warrant are for purposes of reference only and shall not limit or otherwise affect the meaning of any provision of this Warrant.

14. **Governing Law.** This Warrant and all acts and transactions pursuant hereto and the rights and obligations of the parties hereto shall be governed, construed and interpreted in accordance with the laws of the State of New York, without giving effect to principles of conflicts of law.

15. **Representations and Covenants of the Registered Holder.** This Warrant has been entered into by the Company in reliance upon the following representations and covenants of the Registered Holder:

(a) **Investment Purpose.** The Registered Holder is acquiring the Warrant and the Warrant Stock issuable upon exercise of the Warrant for its own account, not as a nominee or agent and with no present intention of selling or otherwise distributing any part thereof.

(b) **Private Issue.** The Registered Holder understands: (i) that the Warrant is not registered under the Securities Act or qualified under applicable state securities laws on the ground that the issuance contemplated by this Warrant will be exempt from the registration and qualifications requirements thereof pursuant to Section 4(2) of the Securities Act and any applicable state securities laws, and (ii) that the Company's reliance on such exemption is predicated on the representations set forth in this Section 15.

(c) **Disposition of Registered Holder's Rights.** In no event will the Registered Holder make a disposition of the Warrant or the Warrant Stock issuable upon exercise of the Warrant in the absence of (i) an effective registration statement under the Securities Act as to this Warrant or such Warrant Stock and registration or qualification of this Warrant or such Warrant Stock under any applicable U.S. federal or state securities law then in effect or (ii) an opinion of counsel, reasonably satisfactory to the Company, that such registration and qualification are not required. Whenever the restrictions imposed hereunder shall terminate, as hereinabove provided, the Registered Holder or holder of a share of Common Stock then outstanding as to which such restrictions have terminated shall be entitled to receive from the Company, without expense to such holder, one or more new certificates for the Warrant or for such shares of Common Stock not bearing any restrictive legend.

(d) **Financial Risk.** The Registered Holder has such business and financial experience as is required to give it the capacity to protect its own interests in connection with its investment.

(e) **Accredited Investor.** The Registered Holder is an "accredited investor" as defined by Rule 501 of Regulation D promulgated under the Securities Act.

The Board of Directors
Vringo, Inc.
44 West 28th Street
Suite 1414
New York, New York 10001

Members of the Board:

You have requested the Etico Capital Division of Olympus Securities LLC (“Etico”) to render a written opinion (“Opinion”) to the Board of Directors of Vringo, Inc (“Vringo”) as to the fairness, from a financial point of view, to the holders of common stock, par value \$.01 per share, of Vringo (“Vringo Common Stock”) (other than any of those holders who own, or whose affiliates own, securities of Innovate/Protect, Inc. (“IPI”)) of the consideration to be issued to the stockholders and warrant holders of IPI provided for in the Agreement and Plan of Merger (the “Agreement”), dated as of March 12, 2012, proposed to be entered into among Vringo, VIP Merger Sub, Inc. (“VMS”) and IPI. The Agreement provides for, among other things, the combination of IPI with Vringo through the merger of IPI into VMS (the “Merger”) pursuant to which (a) each outstanding share of common stock, par value \$.0001 per share, of IPI (“IPI Common Stock”), will be converted into 3.0176 shares of Vringo Common Stock, (b) each outstanding share of Series A Convertible Preferred Stock, par value \$.0001 per share, of IPI will be converted into one share of a newly created Series A Convertible Preferred Stock, par value \$.01 per share, convertible into an aggregate of 21,026,637 shares of Vringo Common Stock and (c) Vringo will issue to the IPI stockholders and warrant holder (on a *pro rata* as-converted basis) an aggregate of 15,959,838 warrants to purchase an aggregate of 15,959,838 shares of Vringo Common Stock with an exercise price of \$1.76 per share. In addition, the existing IPI warrant shall be exchanged for an aggregate of 250,000 shares of Vringo Common Stock and an aggregate of 850,000 warrants to acquire an aggregate of 850,000 shares of Vringo Common Stock at an exercise price of \$1.76. As a result of the Merger, (i) IPI will merge into VMS and the surviving company will be a wholly-owned subsidiary of Vringo and (ii) the former stockholders, warrant holders and option holders of IPI will, in the aggregate, own approximately 68% Vringo Common Stock on a fully diluted basis. Immediately following the merger, the combined entity will have outstanding common stock, on a fully-diluted basis, as listed in the ‘Total Post-Merger’ column in the attachment annexed hereto (Exhibit A), as provided by management.

In arriving at our Opinion, we have among other things:

- (a) reviewed a draft, dated March 10, 2012, of the Agreement and the exhibits thereto;
- (b) reviewed the audited financial statements of Vringo as at and for the year ended December 31, 2010 and unaudited financial statements of Vringo as at and for the nine months ended September 30, 2011;
- (c) reviewed the audited financial statements of IPI for period from June 8, 2011 (inception) to and as at December 31, 2011 (the “IPI Financial Statements”);
- (d) reviewed the historical market prices and trading volumes of Vringo Common Stock;
- (e) held discussions with the senior management of Vringo with respect to the business and prospects of Vringo and IPI and the reasons for the Merger;
- (f) reviewed and analyzed certain publicly available financial data for companies that we deemed relevant in evaluating Vringo and IPI;

TABLE OF CONTENTS

- (g) reviewed and analyzed certain publicly available financial information for transactions that we deemed relevant in evaluating the Merger and the reported prices and historical trading activities of the securities of such companies; and
- (h) performed such other analyses, reviewed such other information and considered such other factors as we deemed appropriate.

In rendering our Opinion, we relied upon and assumed, without independent verification or investigation, the accuracy and completeness of all of the financial and other information provided to or discussed with us by Vringo, IPI and their respective employees, legal counsel, representatives and affiliates or otherwise reviewed by us. No forecast or projections of financial performance or results of operations or of the financial condition of Vringo, IPI or of the combined entities were supplied and we understand that none exist. We have neither made nor obtained any independent evaluations or appraisals of the assets or liabilities, contingent or otherwise, of Vringo or IPI. We also, at the direction and consent of Vringo, did not, and have not sought to (a) independently value US Patent numbers 6,314,420 and 6,775,664 (collectively, the "Patent") acquired by IPI in June 2011 or (b) determine the likelihood of success, the amount of damages, if any, that may be recovered, nor the timing and cost (and whether the combined company has or will have adequate resources, financial or otherwise, to prosecute) the lawsuit initiated by IPI in September 15, 2011 in the US District Court for the Eastern District of Virginia, Norfolk Division (Civil Action No: 2:11cv512), in which IPI alleges *inter alia* infringement of the Patent by the defendants named therein. At the direction and with the consent of Vringo, we also have assumed that (a) the final terms of the Agreement will not vary materially from those set forth in the draft reviewed by us, (b) that the Merger will qualify for federal income tax purposes as reorganization under Section 368(a) of the Internal Revenue Code of 1986, as amended. We also have assumed, with the consent of Vringo, that (a) all representations and warranties of each party contained in the Agreement are true and correct, (b) each party will perform all of the covenants and agreements to be performed by it pursuant to the Agreement and (c) the Merger will be consummated in accordance with its terms without waiver, modification or amendment of any material term, condition or agreement and in compliance with all applicable laws and other requirements and that, in the course of obtaining any necessary regulatory or third party approvals, consents and releases with respect to the Merger, no delay, limitation, restriction or condition will be imposed that would have an adverse effect on Vringo, or IPI.

Our Opinion, as set forth herein, relates to the relative values of Vringo and IPI. We have not served as financial advisor to Vringo in connection with the Merger. We are not expressing any opinion as to the underlying valuation, future performance or long term viability of Vringo, the actual value of Vringo Common Stock when issued in the Merger or the price at which Vringo Common Stock will trade at any time. We express no view as to, and our Opinion does not address, any terms or other aspects or implications of the Merger (other than the consideration to be paid by Vringo in the Merger to the extent expressly specified herein) or any aspect or implication of any other agreement, arrangement or understanding entered into in connection with the Merger or otherwise, including, without limitation, the fairness of the amount or nature of the compensation resulting from the Merger to any individual officers, directors or employees of Vringo or IPI, the existence or lack or conflicts of interest between officers, directors, employees and stockholders of Vringo and IPI or the class of such persons, whether relative to the consideration to be paid by Vringo in the Merger or otherwise. In addition, we express no view as to, and our Opinion does not address, the underlying business decision of Vringo to proceed with or effect the Merger nor does our Opinion address the relative merits of the Merger as compared to any alternative business strategies that might exist for Vringo or the effect of any other transaction in which Vringo might engage. We have relied, without independent verification, upon the views of management of Vringo concerning the business, operational and strategic benefits and implications of the Merger. In connection with our engagement, we were not requested to, and we did not, solicit third party indications of interest in possible alternative transactions for Vringo. Our Opinion is necessarily based on the information available to us and general economic, financial and stock market conditions and circumstances as they exist and can be evaluated by us on the date hereof. It should be understood that, although subsequent developments may affect this Opinion, we do not have any obligation to update, revise or reaffirm the Opinion.

[TABLE OF CONTENTS](#)

We have only been retained by Vringo to render this Opinion and will (a) receive the fee for our services only upon delivery of an opinion, (b) be reimbursed for certain costs and expenses (including certain of our legal fees) and (c) be indemnified by Vringo against certain liabilities that may arise out of our engagement. As previously discussed and disclosed to Vringo, a principal of Etico is related by marriage to a general partner of a holder of Vringo Common Stock and of warrants to purchase Vringo Common Stock, which holder is also a holder of IPI Common Stock and Series A Convertible Preferred Stock of IPI. In the ordinary course of business, we and our affiliates may actively trade securities of Vringo for our and our affiliates' own accounts and for the accounts of customers and, accordingly, may at any time hold a long or short position in such securities. The issuance of this Opinion was approved by an authorized committee of Etico.

This Opinion does not constitute a recommendation to any stockholder as to how such stockholder should vote or act with respect to any matters relating to the Merger. Neither this Opinion nor the services provided by Etico in connection herewith may be publicly disclosed or referred to in any manner without the prior written consent of Etico.

Based upon and subject to the foregoing, and such other factors as we deemed relevant, it is our opinion that, as of the date hereof, the consideration to be paid by Vringo in the Merger is fair, from a financial point of view, to the holders of Vringo Common Stock (other than those who own, or whose affiliates own, securities of IPI).

Very truly yours,

***The Etico Capital Division of Olympus
Securities LLC***

PART II

INFORMATION NOT REQUIRED IN THE PROSPECTUS

Item 20. Indemnification of Directors and Officers.

Vringo, Inc.'s ("Vringo") amended and restated certificate of incorporation (the "Vringo's Certificate") provides that all directors, officers, employees and agents of Vringo shall be entitled to be indemnified by Vringo to the fullest extent permitted by Section 145 of the Delaware General Corporation Law ("DGCL").

Article EIGHTH of Vringo's amended and restated certificate of incorporation provides:

The Corporation shall, to the fullest extent permitted by the provisions of Section 145 of the DGCL, as the same may be amended and supplemented from time to time, indemnify any and all persons whom it shall have power to indemnify under said section from and against any and all of the expenses, liabilities or other matters referred to in or covered by said section as amended or supplemented (or any successor), and the indemnification provided for herein shall not be deemed exclusive of any other rights to which those indemnified may be entitled under any bylaw, agreement, vote of stockholders or disinterested directors or otherwise, both as to action in his official capacity and as to action in another capacity while holding such office, and shall continue as to a person who has ceased to be a director, officer, employee or agent and shall inure to the benefit of the heirs, executors and administrators of such a person.

Pursuant to Vringo's Bylaws, the directors and officers of Vringo shall, to the fullest extent permitted by the DGCL, also have the right to receive from Vringo an advancement of expenses incurred in defending any proceeding in advance of its final disposition. To the extent required under the DGCL, an advancement of expenses incurred by a director or officer in his or her capacity as a director or officer (and not in any other capacity in which service was or is rendered by such individual, including, without limitation, service to an employee benefit plan) shall be made only upon delivery to Vringo of an undertaking, by or on behalf of such director or officer, to repay all amounts so advanced if it shall ultimately be determined that such director or officer is not entitled to be indemnified for such expenses. Vringo is not required to provide indemnification or advance expenses in connection with (i) any proceeding initiated by a director or officer of Vringo unless such proceeding was authorized by the Vringo board of directors or otherwise required by law; (ii) any proceeding providing for disgorgement of profits pursuant to Section 16(b) of the Securities Exchange Act of 1934, as amended; (iii) and for amounts for which payment is actually made to or on behalf of such person under any statute, insurance policy or indemnity provisions or law; or (iv) any prohibition by applicable law.

Pursuant to Vringo's certificate of incorporation Vringo may also maintain a directors' and officers' insurance policy which insures Vringo and any of its directors, officers, employees, agents or other entities, against expense, liability or loss asserted against such persons in such capacity whether or Vringo would have the power to indemnify such person under the DGCL.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to Vringo's directors, officers, and controlling persons pursuant to the foregoing provisions, or otherwise, Vringo has been advised that, in the opinion of the SEC, such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment of expenses incurred or paid by a director, officer or controlling person in a successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, Vringo will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to the court of appropriate jurisdiction the question whether such indemnification by Vringo is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

At present, there is no pending litigation or proceeding involving any of Vringo's directors or executive officers as to which indemnification is required or permitted, and Vringo is not aware of any threatened litigation or proceeding that may result in a claim for indemnification.

[TABLE OF CONTENTS](#)

Vringo has an insurance policy covering its officers and directors with respect to certain liabilities, including liabilities arising under the Securities Act, or otherwise.

The Merger Agreement provides that the combined company following the Merger will continue to indemnify and hold harmless each present and former director or officer of Vringo, with respect to acts or omissions occurring or alleged to have occurred before or at the completion of the Merger to the fullest extent permitted under applicable law and in Vringo Certificate or Bylaws. The Merger Agreement also provides that the combined company will honor all indemnification agreements in place with each present and former director or officer of Vringo.

Item 22. Undertakings

A. (a) The undersigned registrant hereby undertakes:

(1) To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:

(i) to include any prospectus required by Section 10(a)(3) of the Securities Act of 1933, as amended;

(ii) to reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Securities and Exchange Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than a 20 percent change in the maximum aggregate offering price set forth in the Calculation of Registration Fee table in the effective registration statement;

(iii) to include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement.

(2) That, for the purpose of determining any liability under the Securities Act of 1933, as amended, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial *bona fide* offering thereof.

(3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

(g) (1) The undersigned registrant hereby undertakes as follows: that prior to any public reoffering of the securities registered hereunder through use of a prospectus which is a part of this registration statement, by any person or party who is deemed to be an underwriter within the meaning of Rule 145(c), the issuer undertakes that such reoffering prospectus will contain the information called for by the applicable registration form with respect to reofferings by persons who may be deemed underwriters, in addition to the information called for by the other items of the applicable form.

(2) The registrant undertakes that every prospectus: (i) that is filed pursuant to paragraph (1) immediately preceding, or (ii) that purports to meet the requirements of Section 10(a)(3) of the Securities Act of 1933, as amended, and is used in connection with an offering of securities subject to Rule 415, will be filed as a part of an amendment to the registration statement and will not be used until such amendment is effective, and that, for purposes of determining any liability under the Securities Act of 1933, as amended, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial *bona fide* offering thereof.

(h) Insofar as indemnification for liabilities arising under the Securities Act of 1933, as amended, may be permitted to directors, officers and controlling persons of the registrant pursuant to the provisions described in Item 20 above, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer, or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

B. The undersigned registrant hereby undertakes to respond to requests for information that is incorporated by reference into the prospectus pursuant to Item 4 of this form, within one business day of receipt of such request, and to send the incorporated documents by first class mail or other equally prompt means. This includes information contained in documents filed subsequent to the effective date of the registration statement through the date of responding to the request.

C. The undersigned registrant hereby undertakes to supply by means of a post-effective amendment all information concerning a transaction, and the company being acquired involved therein, that was not the subject of and included in the registration statement when it became effective.
